## 1. HIGHLIGHTS

- Following completion of their drilling and metallurgical test-work programme, Polaris has completed its technical and cost report for the Marillana Project and provided the Company with an Indicative Development Proposal.
- The Indicative Development Proposal includes a proposed logistics system to transport the ore from the mine to the port of Port Hedland for export through a new berth to be developed, subject to approval from the State Government of Western Australia. This logistics system is to be constructed and operated by MRL.
- The Company has in principle accepted the Indicative Development Proposal pending the formal submission of a Final Investment Decision ("FID") proposal from MRL. MRL intends to submit this FID proposal once it has received the Government commitment for the intended berth allocation. If the Company also makes a positive FID, the Farm-in Obligations will be deemed to have been satisfied and the joint venture will be established.

## 2. PROJECT ACTIVITIES

### Exploration Activities

#### Marillana

Brockman Iron Pty Ltd (Brockman Iron) and Polaris Metals Pty Ltd (Polaris) entered into a farm-in and joint venture agreement (FJV Agreement) pursuant to which subject to the terms and conditions therein, Polaris may farm-in by satisfying the farm-in obligations and earn a 50% interest in the Marillana Project. For details of the transaction please refer to the Company's announcement dated 26 July 2018.

The FJV Agreement became Unconditional on 21 January 2019, marking the commencement of the Farm-in Period. During the Farm-In Period, Polaris shall perform its Farm-in Obligations on the Marillana Project. As previously reported, during the quarter, the drilling and metallurgical testing campaign by Polaris has been completed satisfactorily. Polaris also completed its technical and cost report for the Marillana Project. The outcome of both these undertakings has resulted in Polaris providing the Company with an Indicative Development Proposal, which includes the following outcomes:

1. A more optimised mine plan and improved yield on the ore processing for production of low impurities 60.5% Fe product over more than 25 year mine life.
2. A proposed logistics system to transport the ore from the mine to the port stockyard at Port Hedland. This logistics system is to be constructed and operated by MRL.
3. Construction of a berth at a dedicated location in Port Hedland subject to the approval from the State Government of Western Australia.
4. A current market based estimate for project capital and operating costs, including the logistics services cost for transporting the ore from mine to ship.

The Company has in principle accepted the Indicative Development Proposal pending the formal submission of a Final Investment Decision ("FID") proposal from MRL. MRL intends to submit such FID proposal once it has received the Government commitment for the intended berth allocation.

#### *Farm-in and Joint Venture Agreement*

With the Indicative Development Proposal agreed in principle, both Brockman and Polaris have agreed to proceed with the following:

1. Upon the receipt of FID submitted by Polaris, the Company will independently review and decide on FID for the Marillana Project.
2. If both Brockman and Polaris make a positive FID and a port agreement is in place:
  - a. The Farm-in Obligations will be deemed to have been satisfied and the joint venture will be established.
  - b. The FJV Agreement parties will make amendments to the FJV Agreement to reflect the final agreed transportation arrangements from the mine to the port.
3. Following the establishment of the Joint Venture, MRL agrees to provide the Joint Venturers with funding by way of a project loan sufficient to allow the Joint Venturers to fund the forecast project capital costs.
4. Under the FJV Agreement, the sunset date for commencing construction of the proposed transportation and port systems is extended to 31 December 2021 and the sunset date for commencing operations is extended to 31 December 2023.
5. Under the current Mine to Ship Services Agreement, the date for satisfaction of the various conditions precedent has also been extended until 31 December 2021.

FID is expected to be around mid-2021.

### **Ophthalmia**

During the quarter, clearing and drill pad preparation was under taken to facilitate a drill program that was deferred due to a lack of drill rig availability. It is anticipated that the deferred drill program will be undertaken during the first half of 2021, as soon as a suitable drilling rig can be secured.

### **Regional development**

There was no field work carried out on the regional exploration projects.

### **Mining Production and Development Activities**

No mining production and development activities, including expenditure has been undertaken or recognised for the quarter.

## **3. CORPORATE REVIEW**

The consolidated cash position of the Group as at 31 December 2020 was HK\$25.9 million.

### **Payments to related parties of the entity and their associates**

The payment as disclosed in section 6.1 of the Appendix 5B relates to:

Payment of HK\$1.4 million for executive directors' salary and non-executive directors' fees.
