### 1. HIGHLIGHTS

- The Government of Western Australia has granted a port capacity allocation to a
  Joint Venture between Mineral Resources Limited (ASX: MIN; MinRes) and Hancock
  Prospecting Pty Ltd. The allocation is for a new iron ore export facility at Stanley
  Point Berth 3 in South West Creek within the inner harbour at the port of Port
  Hedland. MinRes has advised that based on this allocation the Marillana Project
  has available port capacity to meet the joint operation production requirements.
- The Company and MinRes continued advancement of the Marillana Project in accordance with the agreed Indicative Development Proposal for the project.
- Studies and preparation (including miscellaneous licence application) for the haul road corridor from Marillana to the Roy Hill rail system are advancing.
- The Joint Operation completed a bulk sample drilling programme and an updated baseline environmental surveys during the quarter.

# 2. PROJECT ACTIVITIES

#### **Exploration Activities**

#### <u>Marillana</u>

Brockman Iron Pty Ltd ("Brockman Iron") and Polaris Metals Pty Ltd ("Polaris"), a wholly owned subsidiary of MinRes, entered into a farm-in and joint venture agreement ("FJV Agreement") pursuant to which subject to the terms and conditions therein, Polaris may farm-in by satisfying the farm-in obligations and earn a 50% interest in the Marillana Project. For details of the transaction please refer to the Company's announcement dated 26 July 2018.

On the 22 April 2021, Brockman Iron and Polaris signed an Amended and Restated FJV Agreement and Deed of Amendment and Restatement (collectively the Both Brockman Iron and "Agreement"). Polaris concluded that the Farm-in Obligations under the Agreement had been satisfied and the parties formed the Joint Venture on that date. As such, Polaris now holds a 50% interest in the Marillana Project ("the Farm-in interest").

MinRes has submitted indicative Development Proposals, which include the following:

- 1. Development of the Marillana and Ophthalmia Projects.
- Following the establishment of the Joint Venture, MinRes (or its Related Party) agrees to provide the Joint Venturers with funding by way of a project loan sufficient to allow the Joint Venturers to fund the forecast project capital costs for each development.
- 3. A build own and operate arrangement between the Joint Venturers and MinRes for certain non-processing infrastructure at Marillana.
- 4. A build own and operate arrangement for the crushing plant at Ophthalmia.
- 5. A proposed logistics system to transport the ore from the mines to the port stockyard at Port Hedland. This logistics

system is to be constructed and operated by MinRes (or a subsidiary).

- 6. Construction of a berth at a dedicated location in Port Hedland (subject to the approval from the State Government of Western Australia).
- 7. A current market based estimate for project capital and operating costs, including the logistics services cost for transporting the ore from mine to ship.

#### Initial Development Works

During the quarter, work was completed on a Bauer drilling programme for the purpose of obtaining bulk samples to support pilot plant test-work and, provide samples of tailings to support co-disposal (dry-stacking) testwork and approvals. The testwork will also support process review and flow sheet design. It is anticipated that the testwork program will commence in FY Q3 of 2022.

#### <u>Infrastructure</u>

In November 2021 MinRes announced that they had entered into an agreement with Hancock Prospecting Pty Limited ("Hancock") and Roy Hill Holdings Pty Limited ("Roy Hill") in which MinRes and Hancock will jointly investigate the development of a new iron ore export facility at the port of Port Hedland's Stanley Point Berth 3 ("SP3") in South West Creek. Roy Hill will provide services to both MinRes and Hancock for development and operation of their projects, including rail haulage.

On 1 February 2022, the Government of Western Australia announced that it had granted a port capacity allocation to the MinRes – Hancock JV, at Stanley Point Berth 3 in South West Creek. MinRes has advised that based on this allocation the Marillana Project has available port capacity to meet the joint operation production requirements. The new iron ore export facility at SP3 remains subject to various approvals and agreements to develop and operate, along with a positive final investment decision by MinRes and Hancock.

Under the FJV Agreement, MinRes is to provide the infrastructure solution to transport the ore from the Marillana and Ophthalmia projects to a port stockyard at Port Hedland and loading on to ships for export. The MinRes-Hancock Joint Venture Agreement will facilitate this solution for the Marillana project.

MinRes is advancing studies and preparation (including miscellaneous licence application) for the haul road corridor from Marillana to the Roy Hill rail loading facility.

#### <u>Ophthalmia</u>

On 26 November 2021, Polaris earned a 50% interest in the Ophthalmia Iron Ore Project. In the period from November 2021 to March 2022, Polaris continued a programme of works including mine planning studies, transport corridor studies, environmental surveys and approvals. Polaris and Brockman have agreed to reduce the programme of works at the Ophthalmia Iron whilst MinRes Ore Proiect finalises arrangements for the new iron export facility at SP3 and to allow the parties to prioritise development of the Marillana Project.

#### **Regional development**

There was no field work carried out on the other regional exploration projects.

#### Mining Production and Development Activities

No mining production and development activities, including expenditure has been undertaken or recognised for the quarter.

#### Notes

- 1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- 2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- 5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
