2.2 Rapid international and domestic long distance business development continues

The international and domestic long distance telephony business continued to grow rapidly. In the first six months of 2002, total minutes of outgoing international and domestic long distance calls reached 5.71 billion minutes, up 142.1% from the same period last year. Market share increased from 7.7% at the end of 2001 to 10.7%. Total minutes of incoming international long distance calls reached 630 million minutes, up 20.6% from the same period last year.

The Group's PSTN long distance telephony business has sustained its robust growth. As of 30 June 2002, PSTN long distance business has a coverage of 321 regions and cities, representing 95% of the regions and cities nationwide. Total number of registered subscribers reached 8.119 million. In the first six months of 2002, total minutes of PSTN outgoing long distance calls totaled 2.91 billion minutes and the total minutes of incoming international calls reached 570 million minutes.

The voice usage of the Group's IP telephony business continued to increase significantly. As of 30 June 2002, IP business covered all of the 337 regions and cities nationwide and enabled international roaming in 50 countries and regions. In the first six months of 2002, total minutes of IP telephony outgoing calls reached 2.8 billion minutes and the total minutes of incoming international calls were 60 million minutes.

2.3 Continued growth in data and Internet business

The Group has made great efforts to develop new businesses on its unified data platform with a view to expand in the area of data business. As at 30 June 2002, the number of SDH circuits leased reached 3,883 x 2Mbps, an increase of 5.3 times over the same period last year. The number of leased asynchronous transfer mode (ATM) and frame relay (FR) circuits reached 1,088 x 2Mbps, an increase of 77.8% over the same period last year. In May 2002, the Group began to provide videoconference service, video telephony service and "Hui Wu Tong" conference call service over IP protocol to its subscribers.

The Group also provides Internet access and other Internet applications services. As of 30 June 2002, the Group has Internet services in 299 regions and cities, incoming international roaming Internet services in 150 countries and regions, and outgoing international roaming Internet services in 103 countries and regions. As of 30 June 2002, the number of Internet subscribers increased from 3.544 million in 2001 to 4.433 million, up 25.1%. The dedicated Internet access business has developed rapidly with subscribers numbering over 10,000. The VPDN business has also seen rapid growth.

2.4 Continued decline in traditional paging business

As of 30 June 2002, the number of paging subscribers for the Group was 23.681 million, decreased by 9.226 million subscribers from 32.907 million at the end of 2001, a drop of 28.0%. The Group has, however, maintained its market leader position. Out of the total subscriber number, 283,000 were information pager users. In the first six months of 2002, the ARPU for paging user was RMB 7.2, a fall of RMB 2.2 compared with RMB 9.4 in 2001.

2.5 Capabilities of network infrastructure strengthened

The Group has constructed a high-speed and reliable long distance backbone transmission network and has formed a nationwide transmission network system with high capacity which has become the base for the Group's various business development. As of 30 June 2002, the optical fibre transmission network reached 319 regions and cities with total length expanding to 410,000 km, of which, our long distance optical fibre backbone transmission network accounted for 96,000 km.

2.6 Increased sales and marketing effort

Guided by the "market-oriented, customer-focused" operation philosophy, the Group has established a highly efficient sales and marketing and customer service system that is adapted to market changes. Through more than 3,000 self-owned service centers and 15,000 retail outlets nationwide, as well as the direct sales team of nearly 100,000 people, we provide the customers of different segmented markets with differentiated telecommunications service. As we continue to strengthen our sales and marketing efforts, we have developed a number of well-known service brands including "Unicom 130", "Unicom New Horizon", "Easycom", "Unicom 193", "Unicom 165" and others. The Group also highly values customer services and is constantly improving the "1001" service hotline, service centers, corporate clients service team and one-on-one personalized service. Through the launch of a series of events such as "servicing excellence, customer satisfaction" campaign, the establishment of regular client visit mechanism and Unicom Subscribers Club, as well as other activities, we have successfully upgraded customer service standards and established the image of China Unicom as a premier integrated telecommunications operator.

3. BUSINESS OUTLOOK

The rapid growth of the Chinese economy and the increasing of income per capita of Chinese nationals offer huge market potential for the Group's business development. Since our IPO in June 2000, the Group's operation and financial performance has gained substantial growth, whilst its financial foundation and structure has become more solid. For the second half of this year, we foresee the Group's GSM cellular, long distance telephone, data and Internet businesses continuing to enjoy strong growth with earnings rising steadily. As the new additions of CDMA subscribers has seen a strong growth in recent months, it is expected that the number of CDMA subscribers in the second half of the year will grow more rapidly than in the first half of the year with obvious improvement in profitability. The Board of Directors believes that the financial results for this year will be better than last year, thus generating higher return for the investors.

With regard to cellular business, and in order to maintain a balanced development between GSM network and CDMA network, different kinds of market positioning and segmentation in network functionalities have been adopted to provide wider choices for subscribers. GSM service is mainly targeted at the mass market with efforts being made to capture subscribers of high usage and ARPU whereby actively increasing the market share. CDMA service continues to focus on providing differentiated services to corporate users, individual business users and young and fashion users. Efforts will also be made to tap on the mass market.

Being a mature and stable business, GSM service will remain the principal source of the Group's operating revenue and profit. We will enhance the indoor coverage of our GSM network, expand the intelligent network, strengthen network optimization, maintenance and management. Improved billings and the construction of customer service system will also be addressed. This will ensure that the rapid growth of our GSM business can be maintained in the second half of this year, with market share being further expanded to greater generate a steady stream of cash flow and a high profit growth for the Group.

Launching our CDMA business was a strategic decision to establish a leading position in the market. Our CDMA network will be upgraded to CDMA 1X by the end of this year and network capacity will be suitably increased with enhanced coverage. Emphasis will also be placed on the optimization of the network and the enhancement of the network's operating quality. In order to fully leverage on the advantage offered by CDMA 1X technology in providing a variety of mobile data services at medium-to-high speed, the Group will expedite the research and development of new CDMA services, introduce a variety of international collaboration in the form of proven data service applications, strengthen the coordination of every segment of the industry value chain and develop new profit growth drivers for cellular communications. This will lay a solid foundation for the major development of the CDMA business in the year to come. During the second half of the year, the Group intends to further normalize market behavior, increase its efforts in marketing and sales and focus on devising marketing plan to exploit the huge potential groups including the young and fashion segment. In addition to building up a dominant brand name and further enhancing direct sales by way of wholesale contract targeting the public, the Group will continuously improve its network quality, enhance service standard, actively launch value-added services and further control the operating costs effectively. Furthermore, our parent company will further decrease the CDMA network construction cost causing the Group's leasing fee per user to decline further. The Board of Directors believes that the CDMA business will see a rapid and healthy growth trend.

With regard to the long distance telephone business, data business and Internet business, the Group will place emphasis on the return of the capital investment and the complementary strengths of the various businesses. In the midst of the rapid development of the various kinds of businesses, the Group will strive to further improve operating results and increase its return on investment. With long distance telephone and data businesses, we will aim at marketing and sales efforts for target subscribers by means of market segmentation. By providing integrated services and innovative solutions to corporate users, and registration service and telephone card service to mass users, the Group will be able to further enlarge market share. The Internet business, through providing differentiated services, will be able to expand its market share further in the 165 card and dedicated lines subscribers areas, and by expediently launching the IP-VPN, IDC and 165 roaming businesses, the Group will be able to leverage on the strength of integrated corporate resources by aiming at the development of its value-added Internet service.

With regard to our paging business, active measures will be adopted to stabilize and develop traditional pager users, particularly through providing unique personalized service to stabilize and develop corporate users and industry users. We will, at the same time, strengthen our efforts in developing wireless information service, value-added service and call center service to increase the revenue proportion of new businesses. We will have stringent control of capital expenditure on paging business through further adjusting our network system and streamlining the workforce of the paging business to effectively control losses in the second half of the year.

China United Telecommunications Corporation ("Unicom Group"), our parent company, is planning to issue A shares in mainland China to raise funds for part of the CDMA network construction, while further enhancing the image of China Unicom through the A share market. Furthermore, the Company is planning to acquire the quality assets of the cellular business in nine Chinese provinces and municipality, currently under the operation of our parent company, according to its strategy of "overall listing and step-by-step implementation". We believe that A shares issuance in China and the acquisitions by the Company of the above mentioned will be beneficial to the operation of the Company and will be in line with the interest of its shareholders. The Company will endeavor to improve the effectiveness of its investment and the return on equity in order to maximize shareholders' value. The Board of Directors expects that the Company will be in a position to pay final dividends for the year 2002.

Finally, on behalf of the Board of Directors, I would like to express my sincere thanks for the care and support from shareholders and the society at large. I would also like to extend my gratitude to both the management team and all the staff of the Company for their hard work and diligence.

(1) BASIS OF PRESENTATION

The condensed interim financial report reflects the unaudited consolidated financial position of the Company and its subsidiaries (“the Group”) as at 30 June 2002 and the unaudited consolidated results of operations and cash flows of the Group for the six months ended 30 June 2002.

The accompanying unaudited condensed interim financial report is prepared in accordance with Hong Kong Statement of Standard Accounting Practice (“SSAP”) 25, Interim Financial Reporting, issued by the Hong Kong Society of Accountants.

(2) PRINCIPAL ACTIVITIES

The Group is principally engaged in the provision of telecommunications services, including GSM, CDMA, paging, long distance, data and Internet services in the People’s Republic of China (“PRC”).

(3) PRINCIPAL ACCOUNTING POLICIES

The principal accounting policies used in the preparation of this unaudited condensed interim report are consistent with those used in the annual report for the year ended 31 December 2001 except that the Group has changed certain of its accounting policies following its adoption of the following SSAPs issued by the Hong Kong Society of Accountants which are effective for accounting periods commencing on or after 1 January 2002:

- SSAP 1 (revised): Presentation of financial statements
- SSAP 11 (revised): Foreign currency translation
- SSAP 15 (revised): Cash flow statements
- SSAP 25 (revised): Interim financial reporting
- SSAP 33: Discontinuing operations
- SSAP 34: Employee benefits

The impact of the adoption of the new standards on the Group’s unaudited condensed consolidated operating results and financial position is not significant and, accordingly, no prior period adjustment has been required.

(4) OPERATING REVENUE

Operating revenue is primarily comprised of usage fees, monthly fees, connection fees, interconnection revenue, leased line rental income and sales of telecommunications products earned by the Group from GSM, CDMA, paging, long distance, data and Internet services. Tariffs for these services are subject to regulations by various government authorities, including the State Development Planning Commission, the Ministry of Information Industry (“MII”) and the relevant provincial price regulatory authorities.

Operating revenue is net of business tax and government surcharges.

(5) PROFIT BEFORE TAXATION

Profit before taxation is stated after crediting and charging the following:

(7) EARNINGS PER SHARE

(a) Basic earnings per share

Basic earnings per share for the six months ended 30 June 2001 was computed by dividing the profit attributable to shareholders of RMB2,192,220,000 by the weighted average number of 12,552,996,070 shares in issue during the period.

Basic earnings per share for the six months ended 30 June 2002 was computed by dividing the profit attributable to shareholders of RMB2,251,530,000 by the weighted average number of 12,552,996,070 shares in issue during the period.

(b) Fully diluted earnings per share

For the six months ended 30 June 2002 and 2001, all potential dilutive shares arose from share options granted under (i) the Pre-Global Offering Share Option Scheme in 2000 and (ii) the Share Option Scheme in 2001. There was no dilution of profit attributable to shareholders per share after taking into account the dilutive effect of the share options. For the six months ended 30 June 2002, anti-dilutive shares arising from the share options of approximately 33,841,000 shares (2001: 27,135,000 shares) were not included in the calculation of fully diluted earnings per share.

(8) DISTRIBUTION OF PROFIT ATTRIBUTABLE TO SHAREHOLDERS

During the six months ended 30 June 2002, the Group has not made any appropriations to reserves or declared any dividends to the shareholders (2001: Nil).

(9) HOUSING REFORM

In 2001, the Group finalised its monetary housing benefit scheme as a special employee incentive scheme for all qualified employees.

For the six months ended 30 June 2002, only certain provinces were anticipated to meet the criteria for the 2002 distribution of such monetary housing benefits. The provision for special monetary housing benefits for qualified employees of these provinces for the six months ended 30 June 2002 amounted to approximately RMB170 million.

(10) COMMENCEMENT OF CDMA BUSINESS

(a) Leasing of CDMA network capacity

On 22 November 2001, China Unicom Corporation Limited (a subsidiary of the Company, hereafter referred as "China Unicom") entered into a conditional CDMA capacity lease agreement (the "CDMA Lease Agreement") with Unicom Group and Unicom New Horizon Mobile Telecommunications Company Limited ("Unicom New Horizon", a subsidiary of Unicom Group). Pursuant to the CDMA Lease Agreement, Unicom New Horizon agreed to lease the capacity of CDMA network to China Unicom covering the 9 provinces of Guangdong, Jiangsu, Zhejiang, Fujian, Liaoning, Shandong, Anhui, Hebei, Hubei and the 3 municipalities of Beijing, Shanghai and Tianjin.

Major terms of the CDMA Lease Agreement include the following:

- China Unicom has the exclusive right to lease and operate the CDMA network capacity in the aforementioned provinces/municipals from Unicom New Horizon;
- The term of the CDMA Lease Agreement is for an initial period of one year (the "Initial Lease Term"), renewable for further one year terms at the option of China Unicom;
- The lease fee per unit of capacity is determined at the outset of the CDMA Leasing Agreement; and
- China Unicom has the option to add or reduce the capacity leased by giving specified period of advance notice and has the option to purchase the network assets. There is no minimum requirement on the network capacity to be leased beyond the Initial Lease Term.

Commencement of the CDMA Lease Agreement was conditional upon, among others, the testing and initial acceptance and delivery of phase I of the CDMA network, the receipt of all necessary government approvals and the passing of resolutions by the independent shareholders of the Company approving the CDMA Lease Agreement and the related connected transactions. Upon the fulfillment of all the conditions precedent to the commencement of the CDMA Lease Agreement, the Initial Lease Term commenced in January 2002. The lease arrangement has been accounted for as an operating lease of the network assets.

(b) CDMA mobile handset costs

As part of the arrangement with certain CDMA contractual subscribers under special promotion packages, CDMA mobile phone handsets were provided to certain subscribers for their use at no additional cost during the specified contract periods. The costs of such handsets are treated as deferred customer acquisition costs and, to the extent recoverable, deferrable costs are amortised over the contractual period not exceeding 2 years to match with the prepaid revenue stream expected to be recognised over the same contractual period. For the six months ended 30 June 2002, amortisation of these deferred customer acquisition costs amounted to approximately RMB66 million. As at 30 June 2002, the carrying amount of unamortised deferred expenditures amounted to approximately RMB481 million.

Note:

- (i) Interconnection revenues represent the amounts received or receivable from Unicom Group for calls from its networks to the Group's networks. Roaming revenues represent revenue for calls made using the Group's networks by Unicom Group's subscribers.
- (ii) Interconnection charges are for calls made from the Group's networks to Unicom Group's networks. Roaming expenses represent expenses for calls made by the Group's subscribers using Unicom Group's networks.

(16) RELATED PARTY TRANSACTIONS (Cont'd)

- (iii) Interconnection settlement between Unicom Group's network and the Group's network is based on standards established from time to time by the MII. In the case of calls between cellular subscribers in different provinces, settlement is based on either the standards established by the MII or an internal settlement arrangement applied by Unicom Group based on their respective internal costs of providing this service. Also, charges for roaming services between the Group and Unicom Group are based on their respective internal costs of providing these services.
- (iv) China Unicom signed a service agreement with Unicom Group to lease premises, equipment and facilities from Unicom Group. Rentals are based on the lower of depreciation costs and market rates.
- (v) Unicom Group leases transmission line capacity from the Group in accordance with the relevant provision of the services agreement. Revenue for leases of transmission line capacity is based on tariffs stipulated by MII from time to time less a discount of up to 10%.
- (vi) Guoxin acted as the sales agent of Unicom Group to sell telecommunications products (such as SIM cards and prepaid cards) in 2001. In return, Guoxin receives agency commission from Unicom Group at fixed rates based on commission rates stipulated by Unicom Group applicable to third party sales agents. This sales agency service was terminated in April 2001.
- (vii) According to the sales of CDMA mobile phones agreement entered between Unicom Guomai Communications Co., Ltd ("Unicom Guomai", a subsidiary of the Group) and Unicom Group on 10 May 2002, Unicom Guomai agreed to sell certain CDMA mobile phone handsets to Unicom Group. The selling price is negotiated on an arm's length basis which is not lower than the price sold by Unicom Guomai to independent third parties.
- (viii) Charges for international gateway services represent the amounts paid or payable to Unicom Group for international gateway services provided for the Group's international long distance networks. The charge for this service is based on the cost of operation and maintenance of the international gateway facilities incurred by Unicom Group, including depreciation, together with a margin of 10% over cost.
- (ix) Satellite transmission capacity leasing fees represent the amounts paid or payable to Unicom NewSpace for the use of satellite transmission capacity. The charges are based on the MII regulations then in effect less the applicable discount up to 10% as agreed with Unicom NewSpace.
- (x) The Group purchased SIM cards, UIM cards, Internet protocol phone cards and prepaid rechargeable calling cards at fixed prices from Unicom Xingye. Upon the establishment of China Unicom in 2000, China Unicom signed a service agreement with Unicom Group to purchase telecom cards from Unicom Group (to be imported by Unicom Xingye) at cost plus a margin to be agreed from time to time, but not to exceed 20%, and subject to appropriate volume discounts.
- (xi) According to the CDMA Lease Agreement entered among China Unicom, Unicom Group and Unicom New Horizon, Unicom New Horizon agreed to lease the capacity of CDMA network to China Unicom covering 9 provinces and 3 municipalities. The lease rental is calculated on a basis which would enable Unicom New Horizon to recover its investment in constructing the CDMA network in 7 years, together with an internal return of 8% (See Note 10(a)).
- (xii) Unicom International and Unicom International (HK) provided sales agency services such as selling of telecommunications cards to the Group. The commission expenses are charged based on contractual prices which approximated market rates.

(16) RELATED PARTY TRANSACTIONS (Cont'd)

- (xiii) In 2001, the Group leased transmission line capacity from Unicom International (HK) and Unicom International in accordance with the relevant provision of the services agreement. Leased line expenses are charged based on market rates. There were no leased line rental charges in 2002 since this service was terminated in October 2001.
- (xiv) China Unicom signed a service agreement with Unicom I/E Co., in which Unicom I/E Co. agreed to provide equipment procurement services to China Unicom. Unicom I/E Co. charges the Group 0.7% of the value of imported equipment and 0.5% of the value of domestic equipment for such services.
- (xv) China Unicom signed a rental agreement with Beijing Xingye, under which Beijing Xingye leases office premises to China Unicom at its PRC corporate office. Monthly rental is calculated on the basis of US\$20 per square meter.
- (xvi) Unicom Group is the registered proprietor of the "Unicom" trademark in English and the trademark bearing the "Unicom" logo, which are registered at the PRC State Trademark Bureau. Pursuant to an exclusive PRC trademark license agreement entered into between Unicom Group and China Unicom, China Unicom and its affiliates are granted the right to use these trademarks on a royalty free basis for an initial period of 5 years, renewable at China Unicom's option.
- (xvii) According to the Multiple Service Agreement (the "Agreement") signed between the Group and Unicom Paging Limited ("Unicom Paging, a subsidiary of Unicom Group") dated 1 August 2001, the Group and Unicom Paging agree to share the right to use the other party's logo and trademark in the paging business at no cost. In addition, the Agreement also specifies the basis of allocating common expenses incurred by each party for any shared resources and facilities. For the six months ended 30 June 2002, the amount of common expenses involved was insignificant.

In addition, the Group estimated that CDMA network capacity lease rental payable to Unicom New Horizon amounted to approximately RMB500 million for the forthcoming six months ending 31 December 2002. It was based on estimates of the forecasted CDMA subscriber growth within the 9 provinces and 3 municipalities and the anticipated CDMA network capacity to be leased (see Note 10(a) and 16(xi)).

As at 30 June 2002, the Group has no significant contingent liabilities.

(18) COMPARATIVE FIGURES

Certain comparative figures have been adjusted as a result of changes in accounting disclosures for condensed cash flow statement in order to comply with SSAP 15 (revised) Cash flow statements.

(19) SEGMENT INFORMATION

The Group organises its business segments based on the various types of telecommunications services provided to customers in the PRC. The major business segments operated by the Group are classified as below:

- GSM Business - the provision of GSM telephone and related services;
- CDMA Business - the provision of CDMA telephone and related services (the operation commenced in January 2002);
- Long Distance, Data and Internet Business - the provision of domestic and international long distance telephony, data, Internet and other related services; and
- Paging Business - the provision of paging and related services.

The operating segments are managed separately because each operating unit represents a strategic business unit that provides various kinds of telecommunications services. All the operating segments of the Group have been aggregated into the above reportable segments since they are expected to exhibit similar future economic characteristics under central management at separate locations. Most of the assets, liabilities, revenue and expenses are clearly identifiable to business segments. Allocation of commonly incurred costs amongst different segments is not significant.

The Group's primary measure of segment results is based on segment profit (loss) before taxation.

Independent Review Report

INDEPENDENT REVIEW REPORT TO THE BOARD OF DIRECTORS OF CHINA UNICOM LIMITED
(Incorporated in Hong Kong with limited liability)

INTRODUCTION

We have been instructed by the Company to review the condensed interim financial report of the Company and its subsidiaries (“the Group”) for the six months ended 30 June 2002 set out on pages 9 to 29.

DIRECTORS’ RESPONSIBILITIES

The Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited require the preparation of a condensed interim financial report to be in compliance with Hong Kong Statement of Standard Accounting Practice 25 “Interim Financial Reporting” issued by the Hong Kong Society of Accountants and the relevant provisions thereof. The condensed interim financial report is the responsibility of, and has been approved by, the directors.

REVIEW WORK PERFORMED

We conducted our review in accordance with SAS 700 “Engagements to review interim financial reports” issued by the Hong Kong Society of Accountants. A review consists principally of making enquiries of the Group’s management and applying analytical procedures to the condensed interim financial reports and based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion on the condensed interim financial report.

REVIEW CONCLUSION

On the basis of our review which does not constitute an audit, we are not aware of any material modifications that should be made to the condensed interim financial report for the six months ended 30 June 2002.

PricewaterhouseCoopers

Certified Public Accountants

Hong Kong, 5 September 2002

MANAGEMENT DISCUSSION AND ANALYSIS

1. Operation targets

The operation targets of China Unicom for 2004 are set out as follows:

- Cellular business is to reach 35% market share;
- International and domestic telephony services is to achieve 20% of market share in terms of long distance telephone business volume (including PSTN telephony business and IP telephony business);
- Internet business is to achieve 20% of market share in the Internet market; and
- Paging business is to continue to maintain its leading position in the user market.

2. Investment and Re-financing Plan

The capital expenditure plan for the Group's various businesses for the current year and the next two years are set out below:

| | (Expressed in billions of RMB) | | | |
|---|--------------------------------|-------------|-------------|-------------|
| | 2002 | 2003 | 2004 | Total |
| Cellular communication (GSM) | 7.9 | 4.6 | 3.6 | 16.1 |
| Long distance telephony communication, data and Internet | 8.5 | 7.4 | 7.1 | 23.0 |
| Paging | 0.4 | 0.2 | 0.2 | 0.8 |
| Others | 4.9 | 7.0 | 6.0 | 17.9 |
| Total | 21.7 | 19.2 | 16.9 | 57.8 |

The Group will modify the investment direction and investment scale according to factors such as developments in technology and market conditions in order to reduce investment risks. Actual capital expenditure may be significantly different from the figures in the table above. The Directors of the Company believe that adjustments to the capital expenditure plan will not have any material impact on the business development of the Company and its subsidiaries.

The funding of the Group's capital expenditure mainly comes from the Group's operating cash flows, but the Company and its subsidiaries may still need to finance a large amount of its capital expenditure through external funding this year and the next two years. The Group can select appropriate financing channels and methods according to the conditions of financial markets both inside and outside of PRC.

3. Share Option Scheme

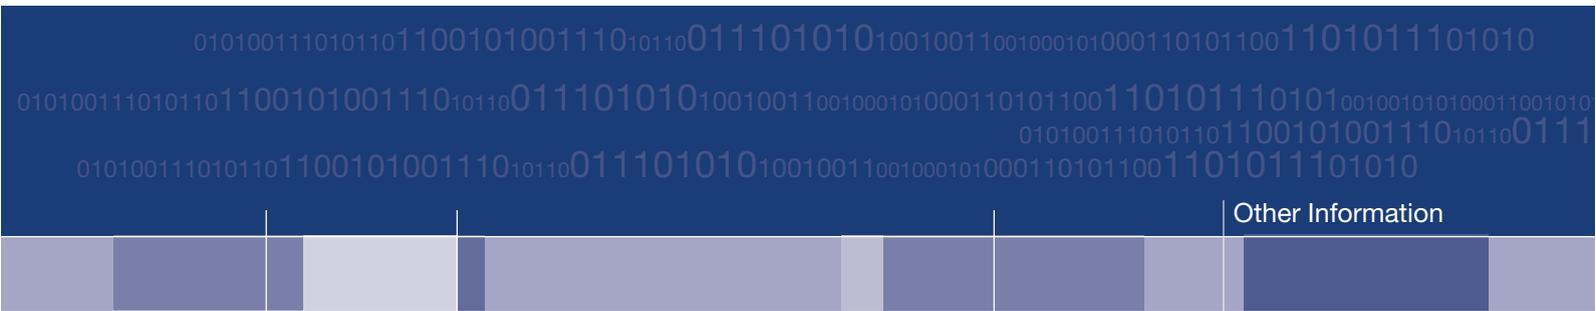

On 1 June 2000, the Company adopted a share option scheme for the purpose of providing incentives and rewards to employees who have made contributions to the development of the Company. The terms of the share option scheme were amended on 13 May 2002 to comply with the requirements set out in the new chapter 17 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”) which came into effect on 1 September 2001 and provide a more favourable scheme to attract and retain key personnel. Under the amended share option scheme:

- (i) share options may be granted to employees including executive directors of the Group or any of the non-executive directors;
- (ii) any grant of share options to a Connected Person of the Company (as defined in the Listing Rules) must be approved by the independent non-executive directors of the Company (excluding any independent non-executive director of the Company who is the grantee of the options);
- (iii) the maximum number of shares in respect of which options may be granted must not exceed 10% of the issued share capital of the Company as at 13 May 2002;
- (iv) the option period commences on a day after the date on which an option is offered but not later than 10 years from the offer date;
- (v) the subscription price shall not be less than the higher of:
 - (a) the nominal value of the shares;
 - (b) the closing price of the shares on The Stock Exchange of Hong Kong Limited (“Stock Exchange”) as stated in the Stock Exchange’s quotation sheets on the offer date in respect of the options; and
 - (c) the closing price of the shares on the Stock Exchange’s quotation sheets for the five trading days immediately preceding the offer date.

On 30 June 2001, the Company had granted 6,724,000 share options under the share option scheme.

All of the options were granted on 30 June 2001 and are governed by the amended terms of the share option scheme as stated herein.

As at 30 June 2002, no options granted under the share option scheme have been exercised.

4. Pre-Global Offering Share Option Scheme

In order to synchronise the administration of the options granted under the pre-global offering share option scheme in conjunction with the share option scheme, the pre-global offering share option scheme was also amended on 13 May 2002. The terms of the pre-global offering share option scheme are substantially the same as the share option scheme stated above except that:

- (i) on 22 June 2000, 27,116,600 options have been granted under the scheme and such options, on their full exercise, represent 27,116,600 shares of the Company. No further options can be granted under the scheme;
- (ii) the price of a share payable upon the exercise of an option shall be HK\$15.42 (excluding the brokerage fee and Stock Exchange transaction levy); and
- (iii) the period during which an option may be exercised commences two years from the date of grant of the options and will end no later than 10 years from 22 June 2002.

On 22 June 2000, the Company had granted 27,116,600 share options under the pre-global offering share option scheme, of which 2,107,000 options have been granted to the directors. Please refer to the section headed "Directors' Right to Acquire Shares" for further details of the options granted.

All of the options granted on 22 June 2000 are governed by the terms of the amended pre-global offering share option scheme as stated herein.

As at 30 June 2002, no options granted under the pre-global offering share option scheme have been exercised.

5. Charge On Assets

As at 30 June 2002, no property, plant and equipment was pledged to banks as loan security (31 December 2001: RMB 6.742 billion). All the bank loans secured by property, plant and equipment as at 31 December 2001 have been repaid during the current period.

According to paragraph 40 of Appendix 16 of the Listing Rules, save as disclosed herein, the Company confirms that the current Company's information in relation to those matters set out in paragraph 32 of Appendix 16 has not changed materially from the information disclosed in the Company's 2001 annual report.

DIRECTORS' INTERESTS IN SHARES

As at 30 June 2002, the interests of the directors and the chief executive officer of the Company in the equity securities of the Company and any of its associated corporations as defined in the Securities (Disclosure of Interests) Ordinance (the "Ordinance") as recorded in the register required to be kept under section 29 of the Ordinance were as follows:

| Name of Directors | Personal Interest |
|---|------------------------------------|
| Shi Cuiming | 30,000 Ordinary Shares |
| Tan Xinghui | 20,000 Ordinary Shares |
| C. James Judson (an alternate director to Craig O. McCaw) | 1,000 American Depository Receipts |

Note: As at 30 June 2002, one American depository receipt represents 10 ordinary shares of HK\$0.1 each of the Company

In addition, certain directors personally hold options to purchase ordinary shares of the Company as disclosed under the paragraph "Directors' Rights To Acquire Shares" below. These share options are granted pursuant to the terms of the Pre-Global Offering Share Option Scheme adopted by the Company.

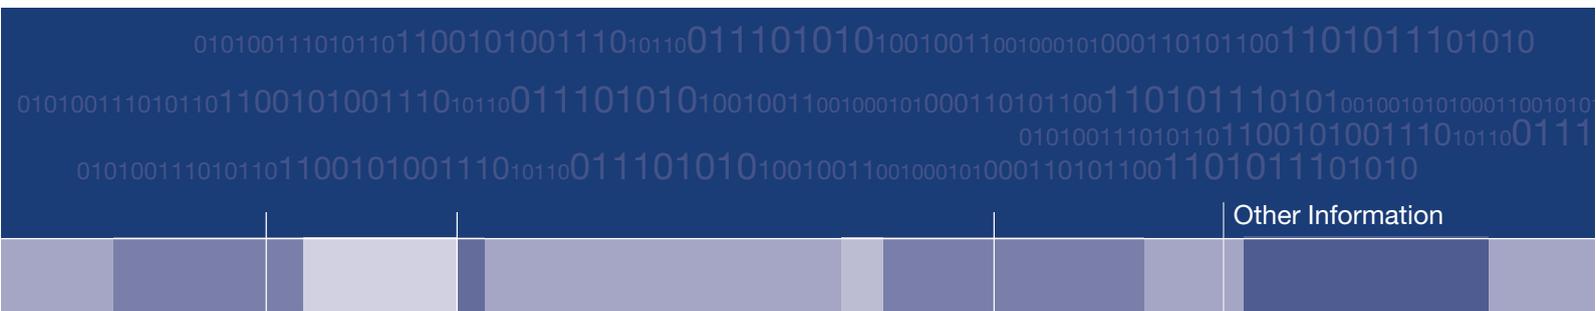

Apart from the foregoing, as at 30 June 2002, none of the directors had any personal, family, corporate or other interests in the securities of the Company or any of its associated corporations as defined in the Ordinance.

DIRECTORS' RIGHT TO ACQUIRE SHARES

As at 30 June 2002, the interests of the directors and chief executive of the Company in the equity securities of the Company and any of its associated corporations as defined in the Ordinance as recorded in the register required to be kept under section 29 of the Ordinance consist of share options granted pursuant to the pre-global offering share option scheme to the directors and chief executive to subscribe for shares of the Company. Details of such share options are set out below:-

| Name of Directors | No. of Options Granted ¹ | No. of Options exercised during the period | No. of Options Outstanding at the end of the period |
|-------------------|--|--|--|
| Yang Xian Zu | 525,000 | — | 525,000 |
| Wang Jianzhou | 396,200 | — | 396,200 |
| Shi Cuiming | 396,200 | — | 396,200 |
| Ge Lei | 292,600 | — | 292,600 |
| Tan Xinghui | 204,400 | — | 204,400 |

¹ Each option gives the holder the right to subscribe for one share.

Apart from the foregoing, at no time during the six months ended 30 June 2002 was the Company, or any of its holding companies or subsidiaries, a party to any arrangement to enable the Directors or any of their spouses or children under eighteen years of age to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

SUBSTANTIAL INTERESTS IN THE SHARE CAPITAL OF THE COMPANY

The Company has been notified of the following interests in the Company's issued shares at 30 June 2002 amounting to 10% or more of the ordinary shares in issue:

| | Shares Held directly | Shares Held indirectly | Percentage of Total issued shares |
|--|---------------------------------|-----------------------------------|--|
| (i) China United Telecommunications Corporation ("Unicom Group") | — | 9,725,000,020 | 77.47% |
| (ii) China United Telecommunications Corporation Limited ("China Unicom Corporation") | — | 9,725,000,020 | 77.47% |
| (iii) China Unicom (BVI) Limited ("China Unicom (BVI)") | 9,725,000,020 | — | 77.47% |

Note: Because of the fact that Unicom Group and China Unicom Corporation directly or indirectly control one-third or more of the voting rights in the shareholders' meetings of China Unicom (BVI), in accordance with the Ordinance, the interests of China Unicom (BVI) are deemed to be, and have therefore been included in, the interests of Unicom Group and China Unicom Corporation.

Apart from the foregoing, no person or corporation had any interest in the share capital of the Company as recorded in the register required to be kept under section 16(1) of the Ordinance as having an interest in 10% or more of the issued share capital of the Company.

INTERIM DIVIDEND

It is suggested by our Board of Directors that no interim dividend for the six months ended 30 June 2002 be declared.

PURCHASE, SALE OR REDEMPTION OF SHARES

For the six months ended 30 June 2002, neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed securities.

AUDIT COMMITTEE

The audit committee has reviewed with the management the accounting principles and practices adopted by the Group and discussed internal control and financial reporting matters including the review of the condensed interim financial report for the six months ended 30 June 2002. In addition, PricewaterhouseCoopers has reviewed the unaudited condensed interim financial report in accordance with Statements of Accounting Standards 700 "Engagement to review interim financial reports" issued by the Hong Kong Society of Accountants and communicated the review results to the audit committee.

COMPLIANCE WITH CODE OF BEST PRACTICE

None of the directors is aware of any information that would reasonably indicate that the Company is not, or was not for any part of the six months ended 30 June 2002 in compliance with the Code of Best Practice as set out in Appendix 14 of the Listing Rules, except that non-executive directors were not appointed for a specific term but are subject to retirement by rotation and re-election at the Company's annual general meeting in accordance with the Company's Articles of Association.

FORWARD-LOOKING STATEMENTS

The Company would also like to caution readers about the forward-looking nature of the above statements. These forward-looking statements are subject to risks and uncertainties, some of which are beyond our control. Potential risks and uncertainties include those concerning the continued growth of the telecommunications industry in China, the development of the regulatory environment and our ability to successfully execute our business strategy.

By Order of the Board
Ngai Wai Fung
Company Secretary
