SUMMARY

OVERVIEW

We are one of the leading property developers focused on the development and sale of high quality properties in key economic cities in the PRC. Our land bank is highly diversified and is located in prime locations in such key economic cities. It comprised, as at 31 July 2009, a total planned GFA of 13,598,083 sq.m. (of which, 6,051,874 sq.m. was GFA for which we have signed master agreements with the relevant local governments but had not as at the Latest Practicable Date obtained the land use right certificates). Of our land bank, approximately 20.2% of our total GFA was located in Shanghai and 18.1% was located in Tianjin and Beijing as at 31 July 2009.

Since we commenced our business in 1996, we have been dedicated to developing our property business in key economic cities in China and, in particular, in Shanghai, in which we believe has the highest level of demand from international and domestic purchasers’ of any property market in China. Over the past 13 years, we have developed various projects and sold and delivered more than 2.0 million sq.m. of GFA in Shanghai, and successfully establishing ourselves as one of the leading players in this economic and financial capital in terms of total completed GFA. As at 31 July 2009, we had seven projects in Shanghai in various stages of development, namely, Shanghai Bay (尚海灣), Shanghai Park Avenue (皇家花園), Chateau De Paris (陽光巴黎), Sunshine Venice (陽光威尼斯), Baoshan Gaojing (寶山高境), Royal Lakefront (湖畔豪庭) and Sunglow Xinjing (陽光新景). Our projects in Shanghai are strategically located either in well established prime locations such as in the vicinity of the Huangpu River or around the Inner Ring Road and Middle Ring Road, or in areas which we believe have a high growth potential. In particular, our flagship project, Shanghai Bay, is situated along the west bank of the Huangpu River, facing the Shanghai World Expo Site. Based on the sales data collected and compiled by www.soufun.com (搜房網), our flagship project, Shanghai Bay, was among top three in Shanghai in terms of total sales contract value achieved in 2008.

Leveraging on our success and valuable experience in Shanghai, in 2003, we began developing properties in Tianjin, which is one of the four municipalities administered directly by the Chinese Central Government. Tianjin is the largest city in the Pan-Bohai Rim area and we expect Tianjin to be one of the key beneficiaries of the economic reform of the Pan-Bohai Rim. Over the past six years of development, we have established a firm foothold in the Tianjin market. Our project Sunshine Holiday (陽光星期天) won the China Real Estate Gold Housing Award (中國金房獎). Our project development company, Tianjin Yangguang Xindi, was also awarded the Meritorious Enterprises Award for Investment in Tianjin (投資天津功勳企業獎). In 2006, we began developing properties in Beijing, with the aim of establishing our reputation in this capital city of China. Beijing has been an integral part of China’s history for centuries and its art treasures and internationally renowned universities have long made the city a centre of art and culture.

Our strategic vision is not confined to developing our business in Shanghai, Tianjin and Beijing. We recognise that China is the largest country in terms of population and the fastest growing major economy in the world. Therefore, in addition to national key economic cities in China, we believe that other regional key economic cities located in high growth regions will also play an increasingly important role in China’s property market due to urbanisation and will benefit from the anticipated strong economic growth in these regions. Hence, leveraging on our success in Shanghai and Tianjin, we have also selectively expanded into other fast-growing regional key economic cities so as to take

SUMMARY

advantage of the growth potential in those local property markets. For example, our No. 1 City Promotion (第一國際) was ranked the sixth best selling real estate project in Wuxi during the first half of 2009 according to Wuxi House Online.

As at 31 July 2009, we had developed or were developing projects in nine key economic cities across the PRC, namely three municipalities (Shanghai, Tianjing, Beijing), three provincial capitals (Hefei, Shenyang, Harbin) and three regional key economic cities (Wuxi, Suzhou, Nantong) in the Yangtze River Delta. In the past three years, the GDP growth rates of each of these cities exceeded the national average, and their combined economic contributions to national GDP were 18.0%, 18.1% and 17.5%, respectively. In 2008, the GDP per capita in these cities was on average approximately 3 times the national average, ranging from 1.5 to 4.7 times the national average GDP per capita. The urbanisation rates in 2008 in each of these cities exceeded 48%, which is higher than the national average, and the aggregate urban population accounts for about 68.3% of the total population in these cities, significantly higher than the national average of 45.7%. Of these cities, Shanghai, Beijing, Tianjin, Shenyang and Suzhou were also among the “Top Ten Most Appealing Cities in China’s Real Estate Market” in terms of demand for properties according to the China Index Research Institute in April 2009. Our strategy is to continue our efforts to further develop our property business and strengthen our market position in these key economic cities in China, and to selectively expand our business into other key economic cities with similar growth potential.

We offer a wide range of products, including apartments, townhouses, retail properties, offices and hotels. We target the upper segment of the real estate market, developing and selling our premium residential properties while seeking to selectively retain long-term ownership of certain commercial properties to benefit from potential capital appreciation as well as to diversify our future income stream.

As at 31 July 2009, we had 19 projects in various stages of development, with a total land bank of approximately 13,598,083 sq.m. and consisting of the following types of projects:

- (i) projects with a total planned GFA of approximately 4,654,495 sq.m. for which the relevant government authorities had granted the land use rights certificates;
- (ii) projects with a total planned GFA of approximately 2,891,714 sq.m. for which we had signed land grant contracts or had successfully tendered but had not, as at the Latest Practicable Date, obtained the land use rights certificates; and
- (iii) projects with a total planned GFA of approximately 6,051,874 sq.m. for which we have entered into master agreements with the local governments but had not, as at the Latest Practicable Date, concluded the public tender process or entered into land grant contracts. The master agreements are legally binding but, after signing such master agreements, we are still required by the relevant PRC laws and regulations to go through the public tender, auction or listing for bidding process, enter into a land grant contract and pay the relevant land premium before we are able to obtain the land use rights certificate. Details of these projects for which we signed master agreements are disclosed in the paragraph headed “— Projects to be acquired for future development” below. We cannot guarantee that we will be successful in securing the land grant contracts and obtaining the relevant land use rights

SUMMARY

in respect of these projects for which we have only signed master agreements, or that we will be successful in obtaining the relevant approvals in accordance with our expected development schedule.

We believe that by participating in the urban redevelopment or government regional planning work during the preliminary stage of these projects through the master agreements, we are able to gain further insights into the local market and a better understanding of market demand and future product positioning, which in turn provides us with an advantage compared to other property developers in winning the tenders for the land grants for these projects. Phase I of Baoshan Gaojing in Shanghai, Phase IA and IB of Sunshine Bordeaux in Beijing, Bashang Jie and Hefei Villa Glorious in Hefei, Anhui Province, are examples of our Company having successfully signed the land grant contracts for the land after first entering into the master agreements.

Based on our current business plan, we have designated all of our major completed properties and properties under development as properties for sale except for Shanghai Bay — Binjiang Center (North block), Sunglow Xinjing (commercial portion), Sunshine Venice Phase I-IIIC (commercial portion) and Chateau De Paris Phase II (commercial portion), all of which we intend to retain as investment properties. We expect our investment property portfolio to expand gradually over time to enhance the stability of our revenue streams and to reduce our operational risks. We will take into account the expected integration and efficiency in the operation and management of commercial properties, our overall financial condition and the market condition at the relevant time when determining whether any particular project will be retained as an investment property.

A number of international, renowned investors have made investments in our Company, including DESCIA, Goldman Sachs, DB, Hongkong Shanghai Banking Corporation and Nan Fung Group. Please refer to the section headed “History, Reorganisation and Group Structure — Description of our Investors and their affiliates” in this document for details.

Our projects have also received recognition and a number of prominent awards from independent or official organisations. For example, Sunshine Venice was ranked second in Commodity Housing Sales in Shanghai in terms of contracted area by Shanghai Real Estate Trading Center in 2003; No. 1 City Promotion was recognised as an International Culture Community (國際文化社區) by the Friends of the United Nations (聯合國友好理事會), the United Nations Human Settlement Programme (聯合國人居署) in 2007 and was ranked as the sixth best selling real estate project in Wuxi during the first half of 2009 by Wuxi House Online; Sunshine Holiday received a Meritorious Enterprises Award for Investment in Tianjin (投資天津功勳企業獎) from the Investment in Tianjin Committee, Tianjin Federation of Industry and Commerce, Jin Wan Bao newspaper of Jin Wan Media Group in 2006; Sunshine Holiday also received the China Real Estate Gold Housing Award (中國金房獎) from China Real Estate Chamber of Commerce, Xinhua News Agency, Economic Information Daily and Urban Development and Environmental Research Center of the Chinese Academy of Social Sciences in 2006. In January 2008, we were awarded Property Company of the year 2007 with Remarkable Contributions to the Urban Development of Shanghai (2007年中國上海城市營造傑出貢獻地產企業), China by the Organising Committee of Zhuyu Dichan Grand Ceremony (主語地產盛典組委會). In December 2008, we were awarded Mainstream Property Enterprise for 2008 (2008主流地產企業) by Life Style

SUMMARY

(精品購物指南). For further details of awards we have received for our projects, please refer to the paragraph headed “— Our Property Development Projects” below. As such we believe that we are one of the leading property developers in key economic cities in China.

Although we have not actively participated in any market ranking campaigns organised by third parties under a single uniform brand in the past, we believe that the accolades we have received for our projects have effectively established our leading position in key economic cities and, as a whole, our reputation as a leading property developer in these cities. We believe that our leading position has also been substantiated by the prime locations of our projects, the high quality of the properties we have developed, and the strong sales uptrend realised in the cities where we have our developments.

Our vision for our future development is fully reflected in our ‘three prong’ business approach, which is as follows.

- **Solidify our leading position in Shanghai:** Shanghai is one of the largest cities and the most populous city in China. It is also the financial capital of China. The 2010 Shanghai World Expo is expected to solidify Shanghai’s status in the 21st century as a major economic city. According to the research report by China Index Research Institute issued in April 2009, Shanghai was the most attractive city in terms of demand for property investments in China’s real estate market. We believe we have a strong presence and a highly regarded reputation in Shanghai and are competitively positioned to benefit from its long term growth potential. As at 31 July 2009, we had accumulated a total planned GFA of approximately 2.3 million sq.m. of high quality land bank in Shanghai, excluding those projects for which we have only signed master agreements.
- **Strengthen our foothold in Tianjin and Beijing:** We have a well-established presence in Beijing and in Tianjin. Tianjin is a fast developing city with the potential to become the commercial centre of the Pan-Bohai Rim region. We entered the property market in Tianjin in 2003 and through our efforts over the past six years, we have established a firm foothold in the Tianjin property development market. As a testimony to our success in Tianjin, our “Sunshine Holiday (陽光星期六)” project in Tianjin was awarded the China Real Estate Gold Housing Award (中國金房獎) in 2006 by the China Real Estate Chamber of Commerce, Xinhua News Agency, Economic Information Daily and Urban Development and Environmental Research Center of the Chinese Academy of Social Sciences project company, all of which are independent from our Group. Our Tianjin Yangguang Xindi was awarded the Corporate Prize for Meritorious Investment of the year in Tianjin (投資天津功勳企業獎) by the Investment in Tianjin Committee, Tianjin Federation of Industry and Commerce, Jin Wan Bao newspaper of Jin Wan Media Group, which are all independent of our Group. As at 31 July 2009, we had built up a land bank with a total planned GFA of approximately 839,309 sq.m. in Tianjin, of which approximately 156,460 sq.m. were attributable to properties for which we have signed master agreements but had not, as at the Latest Practicable Date, concluded the public tender process or entered into land grant contracts and, therefore, with respect to which we cannot guarantee that we will be successful in obtaining the land use right certificates. In addition, as at 31 July 2009, we had built up a land bank with a total planned GFA of approximately 1,625,127 sq.m. in Beijing, of which approximately 1,256,113 sq.m. were attributable to properties for which

SUMMARY

we have signed master agreements but had not, as at the Latest Practicable Date, concluded the public tender process or entered into land grant contracts and, therefore, with respect to which we cannot guarantee that we will be successful in obtaining the land use right certificates.

- **Expand into high growth cities across China:** Leveraging our success in Shanghai, Tianjin and Beijing, we have expanded, and intend to continue to actively and strategically expand, our property development business into other high growth cities within China. As at 31 July 2009, we had eight projects at different stages of development in Wuxi, Suzhou, Nantong, Hefei, Shenyang and Harbin.

Our business strategies and objectives are set out in the paragraph headed “— Our Strategies”. In particular, we intend to gradually expand into the hotel, retail and office property sectors in China by increasing our investment in high quality commercial properties with the goal of diversifying and enhancing the stability of our future revenue in a prudent manner. We have entered into long-term management agreements with Key International Hotels Management Co., Ltd, a joint venture partially owned by Kempinski Hotels S.A. of Europe, and with Holiday Inns (China) Limited, a subsidiary of InterContinental Hotels Group, for the management and operations of the hotels in Shanghai Bay and No. 1 City Promotion, respectively. In line with our strategy, we also aim to selectively retain certain commercial properties developed or to be developed by us as investments in order to achieve a more diversified and balanced earnings base and to increase the proportion of our revenue generated from recurring rental income in the coming years. We believe such diversification of income sources will allow us to better formulate our capital expenditure budget and plan our financing arrangements in respect of our future property development projects. In addition to acquiring land from the government by participating in the tender process, we intend to continue to explore other effective ways to replenish and secure our land bank, including acquiring project companies that have access to suitable sites. We also intend to continue to enter into various types of master agreements with local governments for urban redevelopments in order to gain a competitive position in the subsequent tender processes. For details of our strategies, please refer to the paragraph headed “— Our Strategies” below.

SUMMARY

COMPETITIVE STRENGTHS

We believe that we possess the following principal strengths enabling us to compete in the property markets in the PRC:

- We have established a leading role in key economic cities such as Shanghai and Tianjin, positioning us well to continue to benefit from the strong economic growth and prosperous property markets in these cities;
- We have a sizeable high quality land bank located in key economic cities, including Shanghai, Tianjin and Beijing, that provides us with long-term development and growth opportunities;
- We adopt proactive and strategic approaches to replenish our land bank and we have a strong project acquisition pipeline;
- Experienced management team with a strategic vision and proven track record;
- Precise product positioning and innovative design; and
- Diversified earnings base with a wide product offering and balanced business model.

You can find more detailed discussions of these competitive strengths in the section headed “Business — Competitive Strengths”.

BUSINESS STRATEGIES

Our principal business strategies are to:

- Strengthen our leading market position in Shanghai and further expand our operations in Tianjin and Beijing;
- Selectively expand our business into other key economic cities with high growth potential;
- Increase our focus on integrated and high quality property developments in prime locations to promote our “Glorious Property” brand;
- Diversify income streams through the holding of investment properties; and
- Continue to apply our strategic vision and explore various ways to replenish and secure our future land bank.

You can find more detailed discussions of our principal strategies in the section headed “Business — Our Strategies”.

SUMMARY

SUMMARY HISTORICAL FINANCIAL INFORMATION

The following tables summarise our consolidated financial information for each of the three years ended and as at 31 December 2006, 2007 and 2008 and the four months ended and as at 30 April 2009. We extracted this summary financial information from the Accountant’s Report in Appendix I to this document and you should read the entire Accountant’s Report, including the notes to the financial information included in Appendix I for more details.

(a) Consolidated income statements

SUMMARY

We have incurred and will incur a significant amount of interest expense in relation to the Financing and the Shanghai Bay Arrangements. Substantially all of this interest expense has been or will be capitalised as properties under development rather than being expensed in our consolidated income statement at the time it is incurred. In future periods, such capitalised interest expense will be expensed in the consolidated income statement as a portion of cost of sales upon the sale of such properties. As a result, such capitalised interest expenses may adversely affect our Group's gross profit margin upon the sales of such properties in 2009 and future periods.

PROFIT FORECAST FOR THE YEAR ENDING 31 DECEMBER 2009

Below we have provided a profit forecast solely in respect of our forecasted net profit for the year ending 31 December 2009. In order to provide you with greater transparency as to the basis of our profit forecast, we have disclosed in this section relevant information in respect of five of our major projects that will contribute more than 80% of our revenue for the year ending 31 December 2009. Such information is included in this document to assist the reader to better understand and assess the reasonableness of the assumptions on which our profit forecast is based.

Basis of preparation

The Directors have prepared the forecast of our Group's consolidated net profit attributable to equity holders of our Company for the year ending 31 December 2009 based on the audited consolidated results of our Group for the year ended 31 December 2008 and the four months ended 30 April 2009, the unaudited management accounts for the two months ended 30 June 2009, and our forecast of the consolidated results of our Group for the remaining six months of the year ending 31 December 2009. The forecast for the year ending 31 December 2009 has been prepared on the basis of accounting policies consistent with those adopted for the purpose of the Accountant's Reports in Appendix I to this document and the assumptions set forth below.

Principal assumptions for the profit forecast

The principal assumptions adopted by the Directors of the Company in preparing the profit forecast are as follows:

- There will be no material changes in the existing governmental policies, political, legal, financial or economic conditions in China, Hong Kong or any other country or territory in which we currently operate or which are otherwise material to our revenues;
- With respect to the real estate industry in particular, the PRC Government will not impose material changes or additional austerity measures to dampen sales or prices of the PRC real estate market;
- There will be no changes in legislation, regulations or rules in China, Hong Kong or any other country or territory in which we operate or with which we have arrangements or agreements, which may materially adversely affect our business;
- There will be no material change in the bases or rates of taxation in the countries or territories in which we operate, except as otherwise disclosed in this document; and

SUMMARY

- There will be no material change in interest rates or foreign currency exchange rates from those prevailing;
- Specific assumptions in respect of calculation of the capital value of the investment properties as at 31 December 2009:
 - (i) the current financial, economic and political conditions which prevail in the PRC and which are material to the rental income generated by the investment properties will remain unchanged;
 - (ii) the conditions in which the investment properties are being operated and which are material to revenue and costs of the properties will be unchanged;
 - (iii) the leases that expire will be renewed on normal commercial terms; and
 - (iv) investment properties which are under construction will be developed and completed in accordance with our latest development plan.

Such specific assumptions are consistent with those in the valuation undertaken by Jones Lang LaSalle Sallmanns Limited, our independent valuer in Appendix IV of the document.

Under HKFRS, changes in the fair value of investment properties will be reflected in our consolidated financial information, through our consolidated income statement. Changes in the fair value of our investment properties are accounted for as other gains/ losses, net in our consolidated income statement.

The investment properties were valued by our independent valuer as at 31 July 2009. The investment approach was adopted to assess the market value of the investment properties.

For investment properties under construction, the valuer has adopted the direct comparison approach by making reference to comparable sales evidence as available in the relevant market and has also taken into account the accrued construction cost and professional fees relevant to the stage of construction as at the date of valuation and the remainder of the cost and fees expected to be incurred for completing the development.

For completed investment properties, the valuer has adopted an income approach which takes into account the rental income of the properties derived from the existing leases or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have then been capitalised to determine the market value at an appropriate capitalisation rate. Where appropriate, reference has also been made to comparable sale transactions as available in the relevant market.

The Group arrived at the estimated fair value gain on investment properties based on (i) the market value of such investment properties as at 30 April 2009 valued by the independent valuer and (ii) our estimated capital value as at 31 December 2009 based on the anticipated property-specific

SUMMARY

market trends of the properties carried out by the independent valuer. We expect the fair value of our investment properties as at 31 December 2009, and in turn any fair value changes, to continue to be dependent on market conditions and other factors that are beyond our control, and to be based on the market movement assumptions supplied by an independent professional valuer involving the use of assumptions that are, by their nature, subjective and uncertain.

In accordance with the Company’s accounting policies, properties designated as investment properties should be measured at their fair values and the changes in fair value are recognised in the consolidated income statements. The fair value gain or loss of investment properties is estimated based on certain property valuation techniques which involve, *inter alia*, certain estimates, including comparable sales in the relevant market, current market rental and the forecasted rental movement for similar properties in a similar location and condition. The Company forecasts that rents for the retail and office property markets in Shanghai for the year ending 31 December 2009 will increase between 0-5% and 0-4%, respectively.

Summary of the property development of major projects

The following table provides a summary of the property development projects up to 31 July 2009 that together are projected to contribute more than 80% of the revenue of the Company in 2009 (“Major Projects”):

Key projects/project phases to be delivered in 2009	Up to July 2009					Actual/Expected completion date
	Sales proceeds received	Pre-sales/sales GFA	2008 average selling price per sq.m. in respect of properties pre-sold/sold	First seven months of 2009 average selling price per sq.m. in respect of properties pre-sold/sold		
	(RMB million)	(sq.m.)				
Shanghai Bay, Shanghai (Phase I)	1,407	53,243	29,581	31,292		Nov-09
Sunshine Venice, Shanghai (Phase IIIA) ..	4	560	8,478	9,173		Sep-06
Sunshine Venice, Shanghai (Phase IIIB) ..	1,178	122,717	13,293	15,898		Nov-08/Aug-09
Chateau De Paris, Shanghai (Phase II)	214	8,995	32,339	28,987		Aug-08
Shanghai Park Avenue, Shanghai	523	28,011	27,790	7,037		Apr-07
Sunshine Holiday, Tianjin (Phase II)	1	487	8,485	n/a		Sep-08
Sunshine Holiday, Tianjin (Phase IIIA)	567	77,199	8,238	7,143		Oct-09

SUMMARY

As of 31 July 2009, the construction progress with respect to the major projects to be completed in 2009 is as follows (excluding those projects/phases that had been completed as at 31 July 2009):

Shanghai Bay Phase I: The project comprises four 31-32 storey blocks, two 28-storey blocks and one 24-storey block. We topped out the seven blocks between October and December 2007. In October 2007, we commenced working on interior and exterior decoration and installation of various equipment and facilities, which are expected to be completed by the end of November 2009.

Sunshine Venice Phase IIIB: The project comprises 28 blocks of buildings, from 3-storey townhouses to 25-storey residential buildings. Given the large scale nature of the project, we topped out each block at different dates, with the last block being topped out in May 2008. Work on interior and exterior decoration and installation of various equipment and facilities commenced in May 2008 and 8 blocks out of the 28 blocks had been completed by November 2008. We have obtained 13 blocks' certificate of completion and delivered such blocks to purchasers in the first half of 2009, an other 2 blocks are expected to be delivered in August 2009 and the remaining 5 blocks are expected to be delivered in the fourth quarter of 2009.

Sunshine Holiday Phase IIIA: The project comprises 8 blocks of 25-27 storey buildings and is expected to be completed by September 2009. Construction of the project commenced in September 2007. The 8 blocks were topped out between June and December 2008. Interior and exterior decoration and installation of various equipment and facilities for the 8 blocks were commenced in June 2008. We expect to obtain certificates of completion in October 2009.

Sensitivity analysis

(i) *Sensitivity analysis on targeted average selling price*

The following table illustrates the sensitivity of the net profit attributable to the equity holders of our Company to the targeted average selling price for the year ending 31 December 2009.

% change in targeted selling prices per sq.m.	-15%	-10%	-5%	+5%	+10%
Impact on the net profit attributable to equity holders of our Company targeted for the year 2009 (RMB'000)	(487,000)	(327,000)	(161,000)	157,000	312,000

If the targeted average selling prices for all projects rise by 10%, the Group's net profit for the year ending 31 December 2009 will be RMB2,308,000 thousand, i.e. 15.6% higher than the Group's targeted 2009 net profit.

If the targeted average selling prices for all projects rise by 5%, the Group's net profit for the year ending 31 December 2009 will be RMB2,153,000 thousand, i.e. 7.9% higher than the Group's targeted 2008 net profit.

If the targeted average selling prices for all projects decline by 5%, the Group's net profit for the year ending 31 December 2009 will be RMB1,835,000 thousand, i.e. 8.1% lower than the Group's targeted 2009 net profit.

SUMMARY

If the targeted average selling prices for all projects decline by 10%, the Group's net profit for the year ending 31 December 2009 will be RMB1,669,000 thousand, i.e. 16.4% lower than the Group's targeted 2009 net profit.

If the targeted average selling prices for all projects decline by 15%, the Group's net profit for the year ending 31 December 2009 will be RMB1,509,000 thousand, i.e. 24.4% lower than the Group's targeted 2009 net profit.

As 88.4% of the forecasted revenue has been pre-sold, the change in average selling price should only apply to those yet to be sold and therefore the actual impact on the Group's net profit in 2009 should be significantly smaller.

(ii) *Sensitivity analysis on targeted GFA sold and delivered*

The following table illustrates the sensitivity of the net profit attributable to shareholders of our Company to the targeted GFA sold and delivered for the year ending 31 December 2009.

% change in targeted GFA sold and delivered.....	-15%	-10%	-5%
Impact on the net profit attributable to equity holders of our Company targeted for the year 2009 (RMB'000)	(266,000)	(177,000)	(89,000)

If the targeted GFA sold and delivered for all projects decline by 5%, the Group's net profit for the year ending 31 December 2009 will be RMB1,908,000 thousand, i.e. 4.5% lower than the Group's targeted 2009 net profit.

If the targeted GFA sold and delivered for all projects decline by 10%, the Group's net profit for the year ending 31 December 2009 will be RMB1,819,000 thousand, i.e. 8.9% lower than the Group's targeted 2009 net profit.

If the targeted GFA sold and delivered for all projects decline by 15%, the Group's net profit for the year ending 31 December 2009 will be RMB1,731,000 thousand, i.e. 13.3% lower than the Group's targeted 2009 net profit.

SUMMARY

(iii) *Sensitivity analysis on fair value changes of investment properties*

The total forecasted amount of fair value gain on investment properties for the year ending 31 December 2009 is RMB800 million and its related deferred taxation expense is RMB200 million. The following table illustrates the sensitivity of the net profit attributable to the equity holders of the Company (net of deferred tax effect) to levels of revaluation increase/decrease on investment properties for the year ending 31 December 2009:

Changes in revaluation increase percentage on investment properties compared to our estimated revaluation increase percentage on investment properties	-15%	-10%	-5%	5%	10%	15%
Impact on the net profit attributable to equity holders of our Company targeted for the year 2009 (RMB'000)	(90,000)	(60,000)	(30,000)	30,000	60,000	90,000

If the estimated fair value of investment properties rises/declines by 5%, the Group's net profit for the year ending 31 December 2009 will be RMB2,026,000 thousand/ RMB1,966,000 thousand, respectively, i.e. 1.5% higher/lower, respectively, than the Group's targeted 2009 net profit.

If the estimated fair value of investment properties rises/declines by 10%, the Group's net profit for the year ending 31 December 2009 will be RMB2,056,000 thousand/ RMB1,936,000 thousand, respectively, i.e. 3.0% higher/lower, respectively, than the Group's targeted 2009 net profit.

If the estimated fair value of investment properties rises/declines by 15%, the Group's net profit for the year ending 31 December 2009 will be RMB2,086,000 thousand/ RMB1,906,000 thousand, respectively, i.e. 4.5% higher/lower, respectively, than the Group's targeted 2009 net profit.

The above illustrations are intended for reference only and any variation could exceed the ranges given. The above sensitivity analyses are not meant to be exhaustive. While we have considered for the purposes of the profit forecast what we believe is the best estimate of the targeted average selling price, GFA to be sold and delivered, and fair value changes of investment properties for the year ending 31 December 2009, the average selling price, GFA to be sold and delivered, and fair value changes of investment properties as at the relevant time may differ materially from our estimate and are dependent on market conditions and other factors which are beyond our control.

Profit forecast for the year ending 31 December 2009

Forecast consolidated net profit attributable to the Shareholders of our Company (net of fair value gains on investment properties (net of deferred tax effect))	Not less than RMB1,396.0 million
Forecast gross fair value gain on investment properties	RMB800.0 million
Less: Provision for deferred tax liabilities on fair value gain on investment properties	RMB(200.0 million)
Forecast fair value gain on investment properties (net of deferred tax)	RMB600.0 million
Forecast consolidated net profit attributable to the Shareholders of our Company	Not less than RMB1,996.0 million

SUMMARY

DIVIDEND POLICY

Subject to the relevant law and our Articles, we, through a general meeting, may declare dividends in any currency but no dividend shall be declared in excess of the amount recommended by our Board. Our Articles of Association provide that dividends may be declared and paid out of our profit, realised or unrealised, or from any reserve set aside from profits which our Directors determine is no longer needed. With the sanction of an ordinary resolution, dividends may also be declared and paid out of a share premium account or any other fund or account which can be authorised for this purpose in accordance with the Companies Law.

Future dividend payments will also depend upon the availability of dividends received from our subsidiaries in the PRC. PRC laws require that dividends be paid only out of the net profit calculated according to PRC accounting principles, which differ in many aspects from generally accepted accounting principles in other jurisdictions, including HKFRS. The PRC laws also require foreign investment enterprises to set aside part of their net profit as statutory reserves, which are not available for distribution as cash dividends. Distributions from our subsidiaries in the PRC may also be restricted if they incur debts or losses or in accordance with any restrictive covenants in bank credit facilities, convertible bond instruments or other agreements that we or our subsidiaries in the PRC may enter into in the future.

The amount of dividend eventually declared and distributed to our Shareholders will also depend upon our earnings and financial performance, operating requirements, then capital commitments and requirements and other conditions that our Directors may deem relevant or appropriate.

FUTURE PLANS

Future Plans

We intend to continue to strengthen our market position in Shanghai, Tianjin and Beijing. By maintaining a strong presence in these key economic cities, we believe we can enhance our brand profile and increase our pricing power and margins. We also intend to continue to expand our business into other high growth cities and into the hotel, retail and office property sectors in China to diversify and enhance the stability of our revenue streams. Our future plans are in line with our business model and long term strategies, details of which are set out in the section headed “Business — Our Strategies” in this document.

FINANCING

In November and December 2007, we issued promissory notes to the Original Investors in a total aggregate principal amount of approximately RMB3,717.4 million (the “Original Notes”) and received US\$495.7 million in proceeds therefrom. Notes was payable on 2 November 2009. Prior to redemption, interest accrued on the Original Notes at the rate of 10% per annum and was payable semi annually on 2 May and 2 November of each year. At the date of redemption of the Original Notes, the Company was required to pay interest at the rate of 23.5% per annum on the face amount of the

SUMMARY

Original Notes less the amount of interest at 10% per annum previously paid by the Company. In connection with the subscription of the Original Notes, the Original Investors and their affiliates also received from one of our Controlling Shareholders a total of 700,000 Shares for no additional monetary consideration.

With an aim to further strengthen our capital structure, we and the Founder entered into the Deed of Amendment with, among others, the Investors, to restructure the Original Notes. Following such restructuring, (i) the denomination of the Original Notes was changed from RMB to US\$; (ii) outstanding cash interest of US\$27.2 million was paid and a portion of the Original Notes totalling US\$192.8 million in principal amount was redeemed on 10 August 2009 and 17 August 2009, respectively; and (iii) the remaining outstanding amount of US\$490 million was restructured into (a) Promissory Notes with an aggregate principal amount of US\$325 million for a term of 18 months from the Calculation Start Date and (b) Convertible Notes with an aggregate principal amount of US\$165 million. For further details of the terms and conditions of the Financing and the restructuring of the Original Notes, please refer to the section headed “History, Reorganisation and Group Structure — Financing” of this document.

We have incurred a significant amount of interest expense in relation to the Financing. Substantially all of this interest expense has been capitalised as properties under development rather than being expensed in our income statement at the time it was incurred. The amounts of capitalised interest under completed properties held for sale were approximately RMB8.5 million, RMB7.4 million and RMB57.3 million as at 31 December 2006, 2007 and 2008, respectively, and RMB38.5 million as at 30 April 2009. The amounts of capitalised interest under properties under development were approximately RMB266.0 million, RMB608.7 million and RMB1,488.5 million as at 31 December 2006, 2007 and 2008, respectively, and RMB1,868.6 million as at 30 April 2009. Please see Notes 10 and 11 to the Group’s consolidated financial information as set out in Appendix I. In future periods, such capitalised and interest expense will be expensed in the consolidated income statements as a portion of cost of sales upon the sale of such properties. As a result, such capitalised interest expenses may adversely affect our Group’s gross profit margin upon the sales of such properties in 2009 and future periods. Our capitalised interest included in cost of sales for the years ended 31 December 2007 and 2008 and the four months ended 30 April 2009 were RMB34.0 million, RMB74.7 million and RMB13.4 million, respectively.

RISK FACTORS

There are risks and uncertainties involved in our operations. These risks can be categorised as: (i) risks relating to our business; (ii) risks relating to the PRC real estate industry; and (iii) risks relating to the PRC. A detailed discussion of the risk factors is set forth in the section entitled “Risk Factors” in this document. Set forth below is a summary of these risks and uncertainties.

Risks Relating to Our Business

- We rely on the performance of external contractors and suppliers, including Shanghai Ditong, a connected person, to deliver our projects on time and up to our specified quality standards

SUMMARY

- We have engaged Shanghai Ditong, a connected person, to provide construction services for substantially all our projects during the Track Record Period and going forward, our use of Shanghai Ditong will be subject to limitations, and we cannot assure you that Shanghai Ditong or other construction companies will perform construction services for us on comparable terms
- We are dependent on the performance of the PRC property sector
- Increasing competition among property developers, particularly in first-tier PRC cities, may adversely affect our business and financial condition
- We are party to land grant contracts and long-term master agreements with PRC Government entities, which may not be implemented as agreed
- We may not be able to obtain adequate funding for our property developments or funding may not be available on attractive terms
- Our business depends on the availability of an adequate supply of suitable sites, and our ability to obtain the land use rights and other necessary PRC Government approvals for these sites for our future developments
- Because we derive our revenues principally from the sale of property, our results of operations may vary significantly from period to period
- We face significant property development risks before we realise any benefit from a project
- The appraisal value of the properties in the Property Valuation Report may be different from the actual realisable value and is subject to change
- Our results of operations include estimated fair value gains on investment properties, which are unrealised
- We have experienced periods of net cash outflow from operating activities in the past. We cannot assure you that we will not experience periods of net cash outflow from operating activities in the future
- We do not conduct independent credit checks when providing short-term guarantees over mortgages taken out by our customers. If a significant number of such guarantees are called upon, our financial condition could be adversely affected
- We are subject to legal and business risks if our project companies fail to obtain or renew their qualification certificates
- The relevant PRC tax authorities may enforce the payment of LAT and may challenge the basis on which we calculate our LAT obligations
- We may be deemed a Chinese resident enterprise under the new PRC Enterprise Income Tax Law and be subject to the corresponding PRC taxation on our worldwide income

SUMMARY

- We rely principally on dividends paid by our subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to pay dividends to us could have a material adverse effect on our ability to conduct our business
- Our operations may be adversely affected if any key member of our management leaves
- Potential liability for environmental problems could result in substantial costs
- We may encounter delays in delivering title documents after sale
- Our business may be adversely affected by future increases in interest rates
- We cannot assure you that we will be successful when expanding our commercial and residential property development and operation businesses into other high growth cities in China
- We do not have insurance to cover potential losses and claims in our operations
- We may be involved in legal and other proceedings arising out of our operations from time to time and may face significant liabilities as a result
- Any non-compliant GFA of our current uncompleted and future property developments will be subject to governmental approval and additional payments
- Our remittance of offshore funds into the PRC is subject to approval by the PRC government

Risks Relating to Our Industry

- Oversupply of real estate could drive down property prices
- Our operations are subject to extensive governmental regulation and are susceptible to changes in such regulations
- The PRC Government may reclaim land from us if we fail to comply with the terms of our land grant contracts
- Resettlement negotiations may add costs or cause delays to our development projects
- Our sales and pre-sales will be affected if mortgage financing becomes more costly or otherwise becomes less attractive
- Changes of laws and regulations with respect to pre-sales may adversely affect our cash flow position and financial performance

SUMMARY

Risks Relating to the PRC

- Changes in the PRC’s political, economic and social conditions, laws, regulations and policies may have an adverse effect on us
- There are uncertainties regarding interpretation and enforcement of PRC laws and regulations
- Changes in foreign exchange regulations and fluctuation in the value of the Renminbi may adversely affect our business and results of operations and our ability to remit dividends
- We rely on the PRC market and if the recent economic downturn and financial crisis in the PRC continue or there is a general economic downturn in the PRC, it will have a material negative impact on our business operations, financial position and our ability to obtain financing necessary for our operations
- Our business may be adversely affected by a renewed outbreak of SARS, H1N1, avian influenza or any other highly contagious disease

DEFINITIONS

In this document, the following expressions have the following meaning unless the context otherwise requires. The English names of companies established in PRC and of associations set up in PRC are directly translated from their Chinese names and are furnished for identification purpose only and, should any inconsistencies between the Chinese names and the English names exist, the Chinese names shall prevail.

“Acceleration Event”	an acceleration event under the Note Restructuring Documents as described in the section headed “History, Reorganisation and Group Structure — Financing”
“affiliate”	person or entity directly or indirectly controlled by or under the direct or indirect common control of another person or entity
“Allied Honest”	Allied Honest Holdings Limited, a company incorporated in the BVI on 30 March 2006, which is one of our wholly-owned subsidiaries
“Anhui Hengmao”	Anhui Hengmao Property Development Co., Ltd. (安徽恒茂房地產開發有限公司), a company established in the PRC on 24 October 2007, which is one of our wholly-owned subsidiaries
“Application Form(s)”	white application form(s), yellow application form(s) and green application form(s) or, where the context so requires, any of them
“Articles of Association” or “Articles”	the articles of association of our Company, approved and adopted on 9 September 2009 and as amended from time to time
“associate”	has the meaning ascribed thereto under the Listing Rules
“Beijing Hetian Hexin”	Beijing Hetian Hexin Property Development Co., Ltd. (北京合天和信房地產開發有限公司), a company established in the PRC on 25 December 2001, which is one of our wholly-owned subsidiaries
“Beijing Yangguang Xindi”	Beijing Yangguang Xindi Property Development Co., Ltd. (北京陽光鑫地置業有限公司), a company established in the PRC on 25 February 2003, which is one of our wholly-owned subsidiaries
“Best Era”	Best Era International Limited, a company incorporated in the BVI on 26 April 2007, which is wholly-owned by the Founder and is one of the Controlling Shareholders
“Board of Directors” or “Board”	the board of Directors

DEFINITIONS

“Bright New”	Bright New Investments Limited (明新投資有限公司), a company incorporated in the BVI on 2 May 2007, which is one of our wholly-owned subsidiaries
“Business Day”	any day (other than a Saturday or Sunday) in Hong Kong on which banks in Hong Kong are open generally for normal banking business
“BVI”	the British Virgin Islands
“BVI Subsidiaries”	Allied Honest, East Harbour, Vieward Group, Regal World and Grand Target
“Calculation Start Date”	1 July 2009, the date on which the calculation of the interest on the Promissory Notes and the Convertible Notes began
“Convertible Notes”	convertible notes in the aggregate principal amount of US\$165,000,000 that we issued on 17 August 2009 pursuant to the Note Restructuring Documents
“Capitalisation Issue”	the issue of Shares to be made upon capitalisation of certain sums standing to the credit of our share premium account referred to in the paragraph entitled “Resolutions in writing of all the shareholders of our Company passed on 9 September 2009” in Appendix X “Statutory and General Information”
“Company”, “our Company”, “we” or “us”	Glorious Property Holdings Limited (恆盛地產控股有限公司), a company incorporated in the Cayman Islands on 27 July 2007 as an exempted company with limited liability and, except where the context otherwise requires, all of its subsidiaries
“Companies Law”	the Companies Law, Cap.22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands
“connected person”	has the meaning ascribed thereto under the Listing Rules
“Controlling Shareholders”	the Founder and Best Era
“DB”	Deutsche Bank A.G., acting through its London Branch, registered under the Companies Act 1985 in England and Wales as having established a branch, which is one of the Shareholders and an independent third party not connected with the Directors and our connected persons

DEFINITIONS

“Deed of Amendment”	the deed of amendment dated 31 July 2009, as amended by a second deed of amendment dated 4 September 2009, entered into, amongst others, by the Company, the Founder, the Investors and the Security Trustee modifying the terms and conditions of the Original Notes
“DESCIA”	D. E. Shaw Composite Investments Asia 2 (Cayman) Limited, which is one of the Shareholders and an independent third party not connected with the Directors and our connected persons
“Director(s)”	our director(s)
“East Harbour”	East Harbour Development Limited, a company incorporated in the BVI on 9 March 2006, which is one of our wholly-owned subsidiaries
“Extreme Asia”	Extreme (Asia) Limited (永和(亞洲)有限公司), a company incorporated in Hong Kong on 15 May 2006, which is one of our wholly-owned subsidiaries
“Financing”	the loan and its related arrangement entered into by among others, us, DESCIA, the affiliates of Goldman Sachs and DB, details of which are set out in the section headed “History, Reorganisation and Group Structure — Financing”
“Founder”	Mr. Zhang Zhi Rong, the Chairman of our Board of Directors and one of our Controlling Shareholders
“Fuda Nantong”	Fuda Real Estate Development (Nantong) Co., Ltd. (富達房地產開發(南通)有限公司) (formerly, Rugao Aohuang Furniture Co., Ltd. (如皋澳皇家俚有限公司)), a wholly foreign owned enterprise established in the PRC on 1 August 2006, which is one of our wholly-owned subsidiaries
“Fusheng Nantong”	Fu Sheng Real Estate Development (Nantong) Co., Ltd. (富昇房地產開發(南通)有限公司) (formerly, Nantong Long Green Energy Source Co., Ltd. (南通常綠能源有限公司)), a wholly foreign owned enterprise established in the PRC on 27 June 2005, which is one of our wholly-owned subsidiaries
“GDP”	gross domestic product, the total value of goods and services produced by a nation

DEFINITIONS

“GFA”	gross floor area and for the purpose of this document, “total planned GFA” includes areas for carparks and areas not available for sale such as machinery rooms, schools and kindergartens whereas “total saleable GFA” excludes such areas
“Goldman Sachs”	The Goldman Sachs Group, Inc., a corporation incorporated in the State of Delaware, the United States on 21 July 1998, whose affiliates, namely Goldman Sachs RE Investments Holdings Limited, WH Debt Acquisition (Delaware) LLC and Villa (Cayman) Ltd. are Shareholders and are independent third parties not connected with the Directors and our connected persons
“Grand Target”	Grand Target Group Limited (君達集團有限公司), a company incorporated in the BVI on 23 January 2006, which is one of our wholly-owned subsidiaries
“Group” or “our Group”	our Company and its subsidiaries and, in respect of the period before our Company became the holding company of such subsidiaries (or before such associated companies became associated companies of our Company), the entities which carried on the business of the present Group at the relevant time
“Harbin Yangguang”	Harbin Yangguang Binhai Property Co., Ltd. (哈爾濱陽光濱海置業有限公司), a company established in the PRC on 19 December 2007, which is one of our wholly-owned subsidiaries
“Henghui Nantong”	Henghui Real Estate Development (Nantong) Co., Ltd. (恒匯房地產開發(南通)有限公司) (formerly, Weider Tourism Development (Nantong) Co., Ltd. (韋德旅遊開發(南通)有限公司), a wholly foreign owned enterprise established in the PRC on 22 July 2005, which is one of our wholly-owned subsidiaries
“HK Subsidiaries”	Rich Tech, Extreme Asia, Venture Group, Worldex Investment and Cheston Holdings
“HK\$” or “HK dollars”	Hong Kong dollars, the lawful currency of Hong Kong
“HKFRS”	Hong Kong Financial Reporting Standards
“HKSCC”	Hong Kong Securities Clearing Company Limited
“HKSCC Nominees”	HKSCC Nominees Limited, a wholly-owned subsidiary of HKSCC

DEFINITIONS

“Hong Kong” or “HK”	the Hong Kong Special Administrative Region of PRC
“Hong Kong Companies Ordinance”	the Companies Ordinance of Hong Kong (Chapter 32 of the Laws of Hong Kong) as amended, supplemented or otherwise modified from time to time
“Investor Representative”	the duly authorised representative of the Investors for the time being under the Note Documents
“Investors”	DESCIA (or, as the case may be, D.E. Shaw Composite Portfolios, L.L.C.), Goldman Sachs RE Investments Holdings Limited, WH Debt Acquisition (Delaware) LLC, Villa (Delaware) LLC, DB and Euro Crown Limited
“LAT”	land appreciation tax as defined in the Provisional Regulations of the PRC on Land Appreciation Tax and the Detailed Implementation Rules on the Provisional Regulations of the PRC on Land Appreciation Tax, as described in Appendix VII to this document
“Latest Practicable Date”	10 September 2009, being the latest practicable date prior to the publication of this document for ascertaining certain information
“Liaoning Yangguang Xindi”	Liaoning Yangguang Xindi Property Development Co., Ltd. (遼寧陽光鑫地置業有限公司), a company established in the PRC on 6 June 2005, which is one of our wholly-owned subsidiaries
“Listing Rules”	the Rules Governing the Listing of Securities in the Stock exchange (as amended from time to time)
“Memorandum”	the amended and restated memorandum of association of our Company approved and adopted on 17 June 2008 and as amended from time to time
“MOFCOM”, previously called “MOFTEC”	Ministry of Commerce of the PRC
“Nantong Huangshi Hui”	Nantong Huangshi Hui Real Estate Development Co., Ltd. (南通皇室會房地產開發有限公司) (formerly, King’s Hotel Administration (Nantong) Co., Ltd. (皇室會大酒店管理(南通)有限公司)), a wholly foreign owned enterprise established in the PRC on 25 July 2005, which is one of our wholly-owned subsidiaries

DEFINITIONS

“Nantong Jiangle”	Nantong Jiangle Real Estate Development Co., Ltd. (南通江樂房地產開發有限公司) (formerly, Rugao Jiangle Clothing Co., Ltd. (如皋江樂服飾有限公司)), a wholly foreign owned enterprise established in the PRC on 27 June 2006, which is one of our wholly-owned subsidiaries
“Nantong Jigui”	Nantong Jigui Road Estate Development Co., Ltd. (南通杰匯置業發展有限公司), a wholly foreign owned enterprise established in the PRC on 14 April 2006, which is one of our wholly-owned subsidiaries
“Nantong Jiju”	Nantong Jiju Infrastructure Development Co., Ltd. (南通基鉅基礎設施建設有限公司), a company established in the PRC on 27 April 2009, which became an indirect wholly-owned subsidiary of Shanghai Industrial Holdings Limited on 10 August 2009 as part of the Shanghai Bay Arrangements
“Nantong Lehua”	Nantong Lehua Real Estate Development Co., Ltd. (南通樂華房地產開發有限公司) (formerly, Nantong Lehua Technical Co., Ltd. (南通樂華科技有限公司)), a wholly foreign owned enterprise established in the PRC on 29 June 2006, which is one of our wholly-owned subsidiaries
“Nantong Rongsheng”	Nantong Rongsheng Building Real Estate Development Co., Ltd. (南通熔盛大廈房地產開發有限公司), a company established in the PRC on 12 December 2007, which is one of our wholly-owned subsidiaries
“Nantong Zhuowei”	Nantong Zhuowei Trade Development Co., Ltd. (南通焯焯貿易發展有限公司) (formerly, Nantong Zhuowei Property Co., Ltd. (南通焯焯房地產有限公司)), a company established in the PRC on 5 June 2003, which is one of our wholly-owned subsidiaries
“Note Documents”	the transaction documents in connection with the Notes
“Note Restructuring Documents”	the transaction documents in connection with the restructuring of the Original Notes
“Note Restructuring Transactions”	the transactions in connection with the restructuring of the Original Notes
“Noteholders”	any persons that are from time to time registered as a holder of Notes under the Note Documents

DEFINITIONS

“Notes”	the Original Notes as restructured pursuant to the Note Restructuring Documents, which comprises the Convertible Notes and the Promissory Notes
“NPC” or “National People’s Congress”	the National People’s Congress of the PRC
“Original Notes”	the registered promissory notes in the aggregate principal amount of RMB3,717,350,000 that we issued on 2 November 2007 and 17 December 2007
“Original Investors”	DESCIA, Goldman Sachs RE Investments Holdings Limited, WH Debt Acquisition (Delaware) LLC, Villa (Delaware) LLC and DB
“PBOC”	the People’s Bank of China
“PRC” or “China”	the People’s Republic of China which, except where the context otherwise requires, does not include Taiwan or the Hong Kong and Macau Special Administrative Regions
“PRC Government” or “the Chinese Government” or “State”	the central government of the PRC including all political subdivisions (including provincial, municipal and other local or regional government entities) and organisations of such government or, as the context requires, any of them
“Projects”	Block Nos. 2, 8, 9 and 10 of Shanghai Bay
“Promissory Notes”	promissory notes in the aggregate principal amount of US\$325,000,000 that we issued on 17 August 2009 pursuant to the Note Restructuring Documents
“Regal World”	Regal World Development Limited, a company incorporated in the BVI on 21 January 2006, which is one of our wholly-owned subsidiaries
“Renminbi” or “RMB”	renminbi yuan, the lawful currency of the PRC
“Reorganisation”	corporate reorganisation of our Group as described in the section headed “History, Reorganisation and Group Structure — Corporate Reorganisation”
“Rich Tech”	Rich Tech International Enterprise Limited (富達國際企業有限公司), a company incorporated in Hong Kong on 2 June 2006, which is one of our wholly-owned subsidiaries
“Rule 144A”	Rule 144A under the US Securities Act

DEFINITIONS

“SAFE”	State Administration of Foreign Exchange (國家外匯管理局)
“SARS”	Severe Acute Respiratory Syndrome, a highly contagious form of atypical pneumonia
“Second Share Transfer”	the transfer of 0.5% of the Shares by Best Era to the Noteholders (for further details, see “History, Reorganisation and Group Structure — Financing”)
“Securities and Futures Commission” or “SFC”	the Securities and Futures Commission of Hong Kong
“Selling Shareholder”	Best Era
“SFO”	the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong)
“Shanghai Anshun”	Shanghai Anshun Property Development Co., Ltd. (上海安順房地產發展有限公司), a company established in the PRC on 18 January 1996, which is one of our wholly-owned subsidiaries
“Shanghai Bay Arrangements”	the transfer of the Projects to S.I. Properties Holdings Limited, and the arrangements for the compulsory buy-back and management of the Projects by our Group (for further details, see “Business — Shanghai Bay Arrangements” and “Shanghai Bay Arrangements” in Appendix VIII)
“Shanghai Chuangmeng”	Shanghai Chuangmeng International Architectural Design Co., Ltd. (上海創盟國際建築設計有限公司) (formerly, Shanghai Haichao Architectural Design Institute (上海海潮建築設計所), Shanghai Haichao Architectural Design Co., Ltd., (上海海潮建築設計有限公司) and Shanghai Chuangmeng Architectural Design Co., Ltd. (上海創盟建築設計有限公司)), a company established in the PRC on 15 September 1993, which is owned as to 45% by us, 5% by Mr. Wu Zhen Guo (the director of Harbin Yangguang), 3% by Ms. Gao Wei Ping (wife of the Founder), 2% by Mr. Fang Shi Min (our senior management) and the remaining 45% by an independent third party

DEFINITIONS

“Shanghai Ditong”	Shanghai Ditong Construction (Group) Co., Ltd. (上海地通建設(集團)有限公司) (formerly, Shanghai Ditong Construction Engineering Co., Ltd. (上海地通建築工程有限公司)), a company established in the PRC on 29 May 1998 and owned as to 66.67% by Shanghai Zhuoxin Commercial Investment Management Co., Ltd. (上海卓信商業投資管理有限公司) (a company 75% owned by Mr. Zhang De Huang and 25% by his wife), 28.53% by Mr. Zhang De Huang, 3.47% by the wife of Mr. Zhang De Huang and 1.33% by the Founder, and it is our connected person for the purpose of the Listing Rules by virtue of it being an associate of the Controlling Shareholders
“Shanghai Haosen”	Shanghai Haosen Property Co., Ltd. (上海豪森房地產有限公司), a company established in the PRC on 6 October 1998, which is one of our wholly-owned subsidiaries
“Shanghai Hongye”	Shanghai Hongye Property Development Co., Ltd. (上海弘曄房地產發展有限公司), a company established in the PRC on 7 April 2008, which is one of our wholly-owned subsidiaries
“Shanghai Industrial Group”	Shanghai Industrial Holdings Limited and its subsidiaries, which are independent and third parties;
“Shanghai Mingbao”	Shanghai Mingbao Construction Engineering Co., Ltd. (上海明寶建設工程有限公司), a company established in the PRC on 17 January 2004, which is one of our wholly-owned subsidiaries
“Shanghai Penghui”	Shanghai Penghui Property Development Co., Ltd. (上海鵬暉置業有限公司), a company established in the PRC on 26 May 2008, which became an indirect wholly-owned subsidiary of Shanghai Industrial Holdings Limited on 10 August 2009 as part of the Shanghai Bay Arrangements
“Shanghai Qiwei”	Shanghai Qiwei Industries Co., Ltd. (上海祺偉實業有限公司), a company established in the PRC on 24 September 2008, which is one of our wholly-owned subsidiaries
“Shanghai Shengtong”	Shanghai Shengtong Property Development Co., Ltd. (上海勝通房地產開發有限公司), a company established in the PRC on 19 June 2001, which is one of our wholly-owned subsidiaries

DEFINITIONS

“Shanghai Shuntianlong”	Shanghai Shuntianlong Concrete Co., Ltd. (上海順添隆混凝土有限公司), a company established in the PRC on 14 November 2008, which is one of our wholly-owned subsidiaries
“Shanghai Xintai”	Shanghai Xintai Property Development Co., Ltd. (上海鑫泰房地產發展有限公司), a company established in the PRC on 22 April 1999, which is one of our wholly-owned subsidiaries
“Shanghai Yijing”	Shanghai Yijing Property Development Co., Ltd. (上海意景房地產開發有限公司), a company established in the PRC on 22 January 2001, which is one of our wholly-owned subsidiaries
“Share(s)”	ordinary shares of nominal value of HK\$0.01 each in the capital of our Company
“Shareholder(s)”	holder(s) of the Share(s)
“sq.m.”	square metres
“State Council”	the State Council of the PRC (中國國務院)
“Stock Exchange”	the Stock Exchange of Hong Kong Limited
“Suzhou Hongsheng”	Suzhou Hongsheng Property Co., Ltd. (蘇州弘晟房地產有限公司), a company established in the PRC on 17 March 2005, which is one of our wholly-owned subsidiaries
“Tianjin Hongyun”	Tianjin Hongyun Investment Co., Ltd. (天津弘耘投資有限公司) (formerly known as Tianjin Hongyun Construction Supervision Co., Ltd. (天津弘耘工程監理有限公司) and Tianjin Hongyun Construction Materials Trading Co., Ltd (天津弘耘建築材料貿易有限公司)), a company established in the PRC on 13 September 2004, which is one of our wholly-owned subsidiaries
“Tianjin Tianxingjian”	Tianjin Tianxingjian Real Estate Investment Co., Ltd. (天津天行建房地產投資有限公司), a company established in the PRC on 20 March 2006, which is one of our wholly-owned subsidiaries
“Tianjin Yangguang Xindi”	Tianjin Yangguang Xindi Investment Co., Ltd. (天津陽光鑫地投資有限公司), a company established in the PRC on 19 May 2003, which is one of our wholly-owned subsidiaries

DEFINITIONS

“Track Record Period”	the three financial years of the Group ended 31 December 2008 and the four months ended 30 April 2009
“United States” or “US”	the United States of America, including its territories and possessions
“US\$” or “US dollars”	United States dollars, the lawful currency of the United States
“Valuation Date”	31 July 2009
“Venture Group”	Venture Hong Kong Group Limited (富昇香港集團有限公司), a company incorporated in Hong Kong on 26 June 2006, which is one of our wholly-owned subsidiaries
“Vieward Group”	Vieward Group Limited (景向集團有限公司), a company incorporated in the BVI on 15 February 2006, which is one of our wholly-owned subsidiaries
“Worldex Investment”	Worldex Investment Development Limited (恒匯投資發展有限公司), a company incorporated in Hong Kong on 14 June 2006, which is one of our wholly-owned subsidiaries
“Wuxi Decoration & Renovation”	Wuxi Wangjiarui Decoration and Renovation Co., Ltd. (無錫旺佳瑞裝飾裝修有限公司), a company established in the PRC on 13 May 2008, which is one of our wholly-owned subsidiaries
“Wuxi Wangjiarui”	Wuxi Wangjiarui Co., Ltd. (無錫旺佳瑞有限公司), a company established in the PRC on 7 September 2004, which is one of our wholly-owned subsidiaries
“Yangguang Management”	Shanghai Yangguang Investment (Group) Property Management Co., Ltd. (上海陽光投資(集團)物業管理有限公司), a company established in the PRC on 23 November 2000, which is owned as to 90% by the wife of our Founder and 10% by Shanghai Yangguang Investment (Group) Co., Ltd. (a company 100% beneficially owned by our Founder), and it is our connected person for the purpose of the Listing Rules by virtue of it being an associate of our Founder

DEFINITIONS

“Yonghe Nantong”

Yonghe Real Estate Development (Nantong) Co., Ltd. (永和房地產開發(南通)有限公司) (formerly, Haiji Chemical Industrial (Nantong) Co., Ltd. (海基化學工業(南通)有限公司)), a wholly foreign owned enterprise established in the PRC on 10 April 2006, which is one of our wholly-owned subsidiaries

“Zhuo Yi Nantong”

Zhuo Yi Real Estate Development (Nantong) Co., Ltd. (卓怡房地產開發(南通)有限公司) (formerly, Wan Fa Construction Development (Nantong) Co., Ltd. (萬發建設發展(南通)有限公司)), a wholly foreign owned enterprise established in the PRC on 2 August 2006, which is one of our wholly-owned subsidiaries

FORWARD LOOKING STATEMENTS

This document contains forward-looking statements, including, without limitation, words and expressions such as “anticipate”, “believe”, “could”, “expect”, “going forward”, “intend”, “may”, “plan”, “seek”, “will”, “would” or similar words or statements, in particular, in the sections entitled “Business” and “Financial Information” in this document in relation to future events, our future financial, business or other performance and development, the future development of our industry and the future development of the general economy of our key markets.

These statements are based on numerous assumptions regarding our present and future business strategy and the environment in which we will operate in the future. These forward-looking statements reflecting our current views with respect to future events are not a guarantee of future performance and are subject to certain risks, uncertainties and assumptions, including the risk factors described in this document and the following:

- our business and operating strategies and our ability to implement such strategies;
- our ability to further develop and manage our projects as planned;
- our dividend distribution plans;
- changes in laws and PRC Government regulations (including laws and government regulations on taxes and remittance of funds), policies and approval processes in the regions where we develop or manage our projects;
- future developments and competitive environment for the PRC property industry;
- changes in economic conditions and competition in the cities in which we operate, including a downturn in the property markets and general economy in China;
- exchange rate fluctuations and restrictions; and
- catastrophic losses from fires, floods, windstorms, earthquakes, diseases or other adverse weather conditions or natural disasters.

Subject to the requirements of applicable laws, rules and regulations, we do not have any obligation to update or otherwise revise the forward-looking statements in this document, whether as a result of new information, future events or otherwise. As a result of these and other risks, uncertainties and assumptions, the forward-looking events and circumstances discussed in this document might not occur in the way we expect, or at all. Accordingly, you should not place undue reliance on any forward-looking information. All forward-looking statements contained in this document are qualified by reference to the cautionary statements set out in this section.

In this document, unless otherwise stated, statements of or references to our intentions or those of any of our Directors are made as at the date of this document. Any such intentions may change in light of future developments.

RISK FACTORS

You should consider carefully all the information set out in this document and, in particular, the risks and uncertainties described below. The occurrence of any of the following events could harm us.

Risks Relating to Our Business

We rely on the performance of external contractors and suppliers, including Shanghai Ditong, a connected person, to deliver our projects on time and up to our specified quality standards

Because we do not perform our own construction work on our projects, we engage external construction contractors, certified engineering supervisory companies, service providers and suppliers to provide us with construction and related services and various types of construction materials as well as other services such as design and interior decoration which we monitor through our project management department in each project company.

We generally select our general contractors through tender by invitation. As of the Latest Practicable Date, 7 of our 9 principal properties under development are being constructed by Shanghai Ditong. For the financial years ended 31 December 2006, 2007, 2008 and the four months ended 30 April 2009, the total construction costs incurred in respect of the construction services provided by Shanghai Ditong amounted to approximately RMB1,033.1 million, RMB1,019.7 million, RMB1,185.5 million and RMB195.3 million, respectively, representing approximately 86.8%, 96.1%, 90.6% and 91.3% of our total construction and installation costs during the Track Record Period.

We cannot assure you that the services rendered or materials supplied by any of these external contractors and suppliers, including Shanghai Ditong or any of the other existing or new construction contractors to be engaged by our Group, will always be satisfactory or meet our quality requirements. In the event that the performance of our external contractors, including Shanghai Ditong or any of our other existing or new construction contractors to be engaged by our Group, falls short of the standards, or encounters financial, operational or managerial difficulties or/and any actual or potential dispute, it may disrupt the construction progress of our property developments and we may incur additional costs in respect of remedial actions to be taken (including the replacement of such contractors) as well as potential compensation payable to our customers in the event of any delay in completion of our property developments. Moreover, we may suffer reputational loss and additional financial costs as a result of such delay of our property developments.

Any of the above factors could have a material adverse effect on our business, financial condition and results of operations.

RISK FACTORS

We have engaged Shanghai Ditong, a connected person, to provide construction services for substantially all our projects during the Track Record Period and, going forward, our use of Shanghai Ditong will be subject to limitations, and we cannot assure you that Shanghai Ditong or other construction companies will perform construction services for us on comparable terms

Shanghai Ditong, which is one of our connected persons for the purpose of the Listing Rules, is effectively owned 98.67% by the parents of the Founder and 1.33% by the Founder, who is also our Controlling Shareholder. During the Track Record Period, Shanghai Ditong provided substantially all our construction services, and such services constituted substantially all the overall construction services performed by Shanghai Ditong for its customers. In addition, the Company has undertaken that, going forward, the annual construction fees payable to Shanghai Ditong for the three years ending 31 December 2011 will not exceed more than 40%, 30% and 20%, respectively, of the construction fees payable by our Group for future development projects. As a result of these factors, our business relationship with Shanghai Ditong may be affected, and there can be no assurance that, going forward, Shanghai Ditong will provide us with construction services on comparable terms.

Because our fees payable to Shanghai Ditong for construction services will be subject to the annual capped amounts described above, we will be required to find and engage the services of other construction companies with which we have not worked before. There can be no assurance that the terms offered to us by such other construction companies will be comparable to those provided to us by Shanghai Ditong.

We have not in the past worked with multiple external construction contractors and may not be able to maintain the same level of efficiency and could experience other difficulties working with multiple external construction contractors going forward. In addition, going forward, we may not be able to obtain construction services on comparable terms to those provided in the past either from Shanghai Ditong or other construction contractors. Any of the above factors could have a material adverse effect on our results of operations, financial performance and business.

We are dependent on the performance of the PRC property sector

Our business is subject to the conditions of the real estate market in the PRC. Any adverse development in national and local economic conditions as measured by factors such as employment levels, consumer confidence, interest rates, or other monetary and economic factors may significantly reduce the demand in the PRC property market and affect property prices in the PRC. As a result, our financial condition and results of operations would be materially adversely affected. The PRC Government adjusts its monetary and economic policies from time to time to manage the rate of growth of the PRC economy and the economies of local areas within the PRC. Such economic adjustments may affect the real estate market in the parts of China where our projects are located. In the past two years, the PRC Government announced a series of measures designed to stabilise the rapid growth of the PRC economy and to stabilise the growth of specific sectors, including the property market, to a more sustainable level.

The property sector in the PRC is still considered to be a volatile market and there can be no assurance that our property development and investment activities will continue to grow at a rate

RISK FACTORS

similar to past levels or that we will always be able to capitalise on the future growth, if any, of the property market of the PRC. If we cannot adapt timely to future changes in market conditions or customer preferences, our results of operations may be materially and adversely affected.

Increasing competition among property developers, particularly in first-tier PRC cities, may adversely affect our business and financial condition

Over the past few years a large number of property developers have undertaken property development and investment projects in first-tier cities and elsewhere in the PRC, intensifying the competition in the domestic property development market. Our major competitors include large national and regional property developers and overseas developers (including a number of leading Hong Kong and Singapore property developers), some of whom may have a longer track record and greater financial and other resources. In addition, we also compete with small local property developers in certain markets. The intense competition among property developers in Shanghai, Tianjin and Beijing and other parts of the PRC for land, financing, raw materials and skilled management and labour may result in increased cost of land acquisition, a decrease in development margins and a slowdown in the rate at which new property developments are approved and/or reviewed by the relevant government authorities. An oversupply of properties available for sale could also depress the prices of the properties we sell. Any of the above outcomes may materially and adversely affect our business and financial position.

We are party to long-term master agreements and land grant contracts with PRC Government entities, which may not be implemented as agreed

As of the Latest Practicable Date, we had entered into master agreements for projects with a total planned GFA of 6,051,874 sq.m. After signing such master agreements, we are still required by the relevant PRC laws and regulations to go through the public tender, auction or listing for bidding process, enter into a land grant contract and pay the relevant land premium before we are able to obtain the land use rights certificate. We cannot assure you that these master agreements may be implemented and that we will be successful in securing the land grant contracts and obtaining the relevant land use rights certificates in respect of such projects.

We enter into a significant number of contracts in connection with our land acquisitions, including various land grant contracts and master agreements. Once we enter into a contract in connection with our land acquisitions, we may be required to pay substantial amounts of money, although there may be a period of time before formal title to the land is transferred to us or land use rights certificates are delivered to us. There are risks with respect to the enforcement of these agreements, particularly in light of their relatively long execution periods, in some cases, and potential changes in PRC Government policies. We cannot assure you that PRC Government policies related to our projects will not change in the future or there will not be changes in the manner of implementation of these agreements. Further, we cannot assure you there will not be any modifications to these agreements as to terms that are favourable to us, including changes in the price of the land use rights to the land parcel concerned. In addition, the law and practice relating to enforcement of contracts and master agreement against PRC Government entities involves uncertainty, and we cannot assure you that title to the land parcels subject to these land grant contracts and master agreements

RISK FACTORS

can be eventually obtained. If any of these land grant contracts or master agreements is not implemented as agreed, our business, financial condition, results of operations and prospects could be materially and adversely affected.

We may not be able to obtain adequate funding for our property developments or funding may not be available on attractive terms

The property development business is capital intensive. We generally fund our development projects through bank borrowings, capital contributions from our shareholders, internal cash flows and Financing, including proceeds from the pre-sale and sale of our properties. There is no guarantee that we will always have sufficient funds available to fund all our future property developments or that the funding available will be on attractive terms.

As of 30 April 2009, our borrowings amounted to RMB6,541.8 million, of which RMB5,932.3 million was due within a period not exceeding one year, and RMB609.6 million was due within a period of more than one year but not exceeding five years. The Company has incurred and will incur a significant amount of interest expense in relation to the Financing and the Shanghai Bay Arrangements. Substantially all of this interest expense has been or will be capitalised as properties under development rather than being expensed in our income statement at the time it is incurred. The amounts of capitalised interest under completed properties held for sale were approximately RMB8.5 million, RMB7.4 million and RMB57.3 million as at 31 December 2006, 2007 and 2008, respectively, and RMB38.5 million as at 30 April 2009. The amounts of capitalised interest under properties under development were approximately RMB266.0 million, RMB608.7 million and RMB1,488.5 million as at 31 December 2006, 2007 and 2008, respectively, and RMB1,868.6 million as at 30 April 2009. Please see Notes 10 and 11 to the Group’s consolidated financial information as set out in Appendix I. In future periods, such capitalised and interest expense will be expensed in the consolidated income statements as a portion of cost of sales upon the sale of such properties. As a result, such capitalised interest expense may adversely affect our Group’s gross profit margin upon the sales of such properties in 2009 and future periods. Our capitalised interest included in cost of sales for the years ended 31 December 2007 and 2008 and the four months ended 30 April 2009 were RMB34.0 million, RMB74.7 million and RMB13.4 million, respectively. We cannot assure you that we will be able to obtain bank loans or other third party financing, or that we will be able to repay or renew existing credit facilities granted by financial institutions or repay or refinance other third party financings, including the Financing, in the future on reasonable terms or at all, or that any fluctuation in interest rates will not affect our ability to fund our property developments.

In relation to bank and other third party financing, our ability to arrange adequate financing for our property developments on terms that will enable a particular property development to achieve a reasonable return is dependent on a number of factors, including general economic conditions, our financial strength and performance, credit availability from financial institutions, value of the security pledged, and monetary policies in the PRC generally. The PRC Government has implemented a number of austerity measures to prevent the PRC economy from overheating. Among these measures are policy initiatives issued by the PRC Government on 24 May 2006 to use taxation, bank credit and land policies to regulate housing demand. Please refer to the section headed “Business — Financing of Projects” for further details of the austerity measures. The PBOC has announced several increases in the reserve ratio of commercial banks since June 2006 as a result of which the reserve ratio has

RISK FACTORS

increased from 7.5% to 8.0% on 5 July 2006, from 8.0% to 8.5% on 15 August 2006, from 8.5% to 9.0% on 15 November 2006, from 9.0% to 9.5% on 15 January 2007, from 9.5% to 10.0% on 25 February 2007, from 10.0% to 10.5% on 16 April 2007, from 10.5% to 11.0% on 15 May 2007, from 11.0% to 11.5% on 5 June 2007, from 11.5% to 12.0% on 15 August 2007, from 12.0% to 12.5% on 6 September 2007, from 12.5% to 13.0% on 13 October 2007, from 13.0% to 13.5% on 26 November 2007, and from 13.5% to 14.5% on 25 December 2007. On 25 January 2008, the PBOC announced a further increase in the reserve ratio from 14.5% to 15.0%. In addition, the reserve ratio was further increased to 17.5%, effective 25 June 2008, which represented an historical high over the past 30 years. The reserve ratio was adjusted down to 16.5% in October 2008 and to 14.5% in December 2008, reflecting the PRC government's policy to stimulate economic growth in the economic downturn. The reserve ratio refers to the amount that banks must set aside when they lend. In addition, according to a notice jointly issued by PBOC and the China Banking Regulatory Commission (CBRC), no loan shall be granted to a project which has not obtained the relevant land use rights certificates, construction land planning permits, construction work planning permits and work commencement permits. Such regulations will limit the amount commercial banks can make available for lending to us, and our ability to obtain financing from commercial banks may thus be adversely affected.

We also utilise proceeds from pre-sales of our properties as an important source of financing for our property developments. There is no assurance that we will be able to continue achieving sufficient pre-sales to fund particular developments. Any restriction on our ability to pre-sell our properties, including any increase in the amount of initial expenditure we must incur prior to obtaining a pre-sale permit and any restriction on our ability to utilise the pre-sale proceeds, including future changes to PRC laws and regulations governing the use of pre-sale proceeds, would extend the time required to recover our capital outlay and could require us to seek alternative means to finance the various stages of our developments, which, in turn, could have a material adverse effect on our cashflow, business and financial position.

Our business depends on the availability of an adequate supply of suitable sites, and our ability to obtain the land use rights and other necessary PRC Government approvals for these sites for our future developments

We derive our revenue principally from the sale of properties that we have developed. As a result, our revenue is not of a recurring nature but is dependent on our ability to obtain prime land sites, to complete construction of, and to sell our property developments. We must replenish and increase our land bank in order to maintain the growth of our business.

The supply of land in the PRC is generally controlled by the PRC Government, and our ability to acquire land use rights for future developments and our land acquisition costs will be affected by government policies governing the supply of land for development. In May 2002, the PRC Government introduced regulations requiring that land use rights for residential and commercial property developments be sold only by public tender, auction or listed for bidding. In addition, the PRC Government may also limit the supply of land available for development in the cities in which we have or intend to have an interest.

RISK FACTORS

As an alternative to acquiring land from the PRC Government, we also secure land use rights through acquisition of equity interests in property project companies or acquisition of land use rights from independent third parties in the market. Our ability to acquire suitable property project companies from other property developers is dependent on a number of uncertainties, including the availability of acquisition targets, our price negotiation with the vendors, the outcome of our due diligence exercises and third party and regulatory consents and approvals. There is no assurance that we will always be able to identify and successfully acquire suitable land use rights through acquisition of equity interests in property project companies.

The PRC Government also regulates the manner in which land can be developed. For example, following announcements by the State Council and other related government bodies in late May 2006 concerning new directives to adjust the structure of the PRC residential housing market, the Ministry of State Land and Resources made a detailed announcement on 30 May 2006 concerning the restriction on overall land supply for up-market residential property developments, including, in particular, the discontinuation of new land supply for villa projects.

In addition, in order to develop and sell real estate in the PRC, property developers are required to obtain land use rights certificates from the relevant PRC Government authorities. There is no assurance that we can successfully obtain all necessary land use rights certificates for our projects in a timely manner, or at all. In order to develop and complete a property development, we must obtain various permits, licenses, certificates and other approvals from the relevant administrative authorities at various stages of our property development projects, including land use rights documents, planning permits, construction permits, pre-sale permits and certificates or confirmation of completion and acceptance. Each approval is dependent on the satisfaction of certain conditions. We cannot assure you that we will not encounter problems in fulfilling the conditions precedent to the receipt of approvals, or that we will be able to adapt to new laws, regulations or policies that may come into effect from time to time with respect to the granting of such approvals. There may also be delays on the part of the administrative bodies in reviewing our applications and granting approvals. We may also be subject to periodic delays in our property development projects due to building moratoria in any of the areas in which we operate or plan to operate.

If changes in government policy lead to a reduction in land supply for our future projects, or we are not successful in acquiring land from the PRC Government or other project companies, or we experience delays or encounter problems in obtaining the land use rights certificates or the other necessary PRC Government approvals for our projects, our future financial condition and results of operations may be materially and adversely affected.

Because we derive our revenues principally from the sale of property, our results of operations may vary significantly from period to period

At present, we derive substantially all of our revenues from the sale of properties that we have developed. Our results of operations may fluctuate in the future due to a combination of factors, including the overall schedules of our property development projects, the level of acceptance of our properties by prospective customers, the timing of the sale of properties that we have developed and any volatility in expenses such as land costs and construction costs.

RISK FACTORS

Furthermore, according to our accounting policy for revenue recognition, we recognise revenue from sale and pre-sale of our properties upon delivery, which normally takes place within 1-2 year after the commencement of pre-sales. As of 31 July 2009, we had completed the construction of the following projects: — Sun glow Xinjing, Shanghai Park Avenue, Phase I and II of Chateau De Paris, Phase I, II and IIIA and IIIB of Sunshine Venice, Phase I and II of Sunshine Holiday, Phase I and II of Sunny Town, Phase I of No.1 City Promotion and Phase I and II of Classical Life with a total sold and delivered GFA of 1,550,070 sq.m.. Please refer to the section headed “Financial Information — Critical Accounting Policies — Revenue recognition” in this document for more details. Because the timing of delivery of our properties varies according to our construction timetable, our results of operations may vary significantly from period to period depending on the GFA and timing of delivery of the properties we sell. Periods in which we deliver more GFA typically generate higher levels of revenue. Periods in which we pre-sell a large aggregate GFA, however, may not generate a correspondingly high level of revenue, if the properties pre-sold are not delivered within the same period. The effect of the timing of project delivery on our operational results is accentuated by the fact that during any particular period of time we can only undertake a limited number of projects due to the substantial capital requirements for land acquisition and construction costs as well as a limited supply of land.

Our business is subject to seasonality. During the Chinese New Year holidays, winter weather conditions can hinder construction of development projects, especially in northern China. Our revenue and profits, recognised upon the delivery of properties, may be affected by such seasonal effects.

We face significant property development risks before we realise any benefit from a project

Property developments typically require substantial capital outlays during construction periods, and it may take months or years before positive cash flows, if any, can be generated by pre-sales of properties to be completed or sales of completed properties. The time and cost required to complete a property development may increase substantially due to many factors beyond our control, including the shortage, or increased cost of material, equipment, technical skills and labour, adverse weather conditions, natural disasters, labour disputes, disputes with contractors, accidents, changes in government priorities and policies, changes in market conditions, delays in obtaining the requisite licenses, permits and approvals from the relevant authorities, delays in relocation which may result in increased relocation compensation, and other unforeseen problems or circumstances. Any of these factors, individually or in the aggregate, may lead to a delay in, or the failure of, the completion of a property development and may result in costs that substantially exceed those costs originally forecasted. Failure to complete a property development according to its original plan, if at all, may have an adverse effect on our reputation and could give rise to potential liabilities. As a result, our returns on investments, if any, may not be recognised in a timely manner or may be lower than originally expected.

The appraisal value of the properties in the Property Valuation Report may be different from the actual realisable value and is subject to change

The Property Valuation Report prepared by Jones Lang LaSalle Sallmanns Limited is included in Appendix IV to this document. The valuations in the report are based upon certain assumptions, which, by their nature, are subjective and uncertain and may be different from actual realisable value.

RISK FACTORS

With respect to properties under development and properties held for future development, the valuations are based on the assumptions that: (i) the properties will be completed or developed as currently proposed; (ii) all regulatory and governmental approvals for the proposals have been or will be obtained; (iii) we are in possession of proper legal title and are entitled to transfer the properties with no extra land premium; and (iv) all premiums in connection with the properties have been paid and the properties are free of encumbrances and other restrictions. These valuations are not a forecast of the actual realisable value of the properties. Unforeseen changes in a particular property development or in national or local economic conditions, for example, could affect the actual realisable value of our properties. We cannot assure you that the valuation of our properties will not decrease in the future. Any such decrease would reduce our profits and could have a material adverse effect on our business, financial condition and results of operations.

Our results of operations include estimated fair value gains on investment properties, which are unrealised

For the year ended 31 December 2008 and the four months ended 30 April 2009, we recorded fair value gains on our investment properties amounting to approximately RMB846.1 million and RMB735.2 million, respectively, in our consolidated income statements, representing 40.6% and 69.4% of our profit before tax for those periods, respectively. Prospective investors should be aware that these upward fair value adjustments reflect primarily unrealised capital gains in the value of our investment properties at the relevant reporting dates, are not profit generated from day-to-day rental income from our investment properties and are largely dependent on the conditions prevailing in the property markets. These fair value gains do not generate cash inflow to our Group and will not unless such investment properties are actually sold at or above such estimated fair values. Moreover, prospective investors should be aware that property values are subject to market fluctuations and we cannot assure you that our Group will be able to continue to record favourable fair value adjustments on investment properties in similar amounts, or at all, in the future or that the fair value of our investment properties will not decrease in the future. Any such decrease in the fair value of our investment properties will reduce our profits and could have a material adverse effect on our results of operations.

We have experienced periods of net cash outflow from operating activities in the past. We cannot assure you that we will not experience periods of net cash outflow from operating activities in the future

We had net cash outflows from operating activities of RMB2,209.6 million in 2006 and RMB2,726.4 million in 2008. Due to the nature of the property development business, we may from time to time experience net operating cash outflow, when imbalances occur between the timing of our cash inflows relating to the pre-sale of properties and our cash outflows relating to the construction of properties and the purchases of land. Our historical net cash outflows from operating activities were primarily due to the increase in properties under development and projects held for future development while other major developments were being prepared for pre-sale.

We cannot assure you that we will not experience periods of net operating cash outflow in the future. If we experience sustained periods of net operating cash outflow in the future, our financial condition may also be materially and adversely affected.

RISK FACTORS

We do not conduct independent credit checks when providing short-term guarantees over mortgages taken out by our customers. If a significant number of such guarantees are called upon, our financial condition could be adversely affected

We enter into arrangements with banks to facilitate the provision of mortgage facilities to purchasers of our properties. In accordance with industry practice, we are required to provide guarantees to these banks in respect of mortgages offered to our customers until completion of construction and submission of the relevant property ownership certificates and certificates of other interests in the property to the relevant banks. If a purchaser defaults under the mortgage loan and the bank calls on the guarantee, we are required to repay all debt owed by the purchaser to the mortgagee bank under the loan, the mortgagee bank will assign its rights under the loan and the mortgage to us, and we will have full recourse to the property.

In accordance with industry practice, we do not conduct independent credit checks on our customers, but rely instead on the credit checks conducted by the mortgagee banks. As at 31 December 2006, 2007, 2008 and 30 April 2009, our outstanding guarantees over the mortgage loans of our customers amounted to approximately RMB528.6 million, RMB1,860.8 million, RMB2,662.1 million and RMB3,112.4 million, respectively.

If a significant number of purchasers default on their mortgages and our guarantees are called upon, our results of operations and financial condition could be adversely affected to the extent that either there is a material depreciation in the value of the relevant properties from the price paid by the purchaser or we cannot sell such properties due to unfavourable market conditions or other reasons.

We are subject to legal and business risks if our project companies fail to obtain or renew their qualification certificates

All real estate developers in the PRC must obtain a qualification certificate in order to carry out the business of property development in the PRC. In addition, a real estate developer in the PRC must hold a valid qualification certificate when it applies for a pre-sale permit.

The Provisions on Administration of Qualification Certificates of Real Estate Developers (the “Qualification Certificate Provisions”) (房地產開發企業資質管理規定) provides that a newly established developer must first apply for a temporary qualification certificate (暫定資質證書) with an initial one-year term, which can only be renewed for an additional two years. Thereafter, the developer must apply for a formal qualification certificate (資質證書) under one of the four grades set out in the Qualification Certificate Provisions. In reviewing an application to issue or grant a qualification certificate, the relevant government authority considers the real estate developer’s registered capital, property development investments, history of property development and quality of property construction, as well as the expertise of the developer’s management and whether the developer has any illegal or inappropriate operations.

If any of our project companies is unable to continue to renew their qualification certificates or obtain formal qualification certificates in a timely manner or at all, as and when they expire, those

RISK FACTORS

project companies may not be permitted to continue to engage in real estate development or to conduct any pre-sales for that development, which could in turn have material adverse impact on our operational and financial conditions.

The relevant PRC tax authorities may enforce the payment of LAT and may challenge the basis on which we calculate our LAT obligations

Under PRC tax laws and regulations, our properties developed for sale are subject to Land Appreciation Tax (LAT), which is collectible by the local tax authorities. All income from the sale or transfer of state-owned land use rights, buildings and their ancillary facilities in the PRC is subject to LAT at progressive rates ranging from 30% to 60% of the appreciation value as defined by the relevant tax laws. Pursuant to the Provisional Regulations of the People’s Republic of China on Land Appreciation Tax (《中華人民共和國土地增值稅暫行條例》), LAT shall be exempt for the sale of ordinary standard residences (普通標準住房) if the appreciation does not exceed 20% of the total deductible items. Deductible items include acquisition cost of land use rights, development cost of land, construction cost of new buildings and facilities or assessed value for used properties and buildings, taxes related to the transfer of real estate and other deductible items as stipulated by the Ministry of Finance. Sales of commercial properties are not eligible for such exemption. Pursuant to the Detailed Rules for the Implementation of Provisional Regulations of the People’s Republic of China on Land Appreciation Tax (《中華人民共和國土地增值稅暫行條例實施細則》) for property developers, an additional 20% of deductible expenses may be deducted in the calculation of the land appreciation amount. On 28 December 2006, the State Administration of Taxation issued a Notice on Issues Relevant to Administration of Settlement of Land Appreciation Tax of Real Estate Development Enterprises (《關於房地產開發企業土地增值稅清算管理有關問題的通知》) with the intention of strengthening the collection of LAT. This Notice requires real estate developers to settle the final LAT payable in respect of their development projects that meet certain criteria, such as 85% of a development project having been pre-sold or sold. Local provincial tax authorities are entitled to formulate detailed implementation rules in accordance with this Notice in consideration of local conditions.

We only prepay a portion of such provisions each year as required by the local tax authorities. For the three financial years ended 31 December 2006, 2007, 2008 and the four months ended 30 April 2009, we made provisions for LAT in the amount of RMB0.4 million, RMB114.6 million, RMB363.1 million and RMB9.5 million, respectively. In the event that the LAT we have provided for is actually collected by the PRC tax authorities, our cashflow and financial position will be adversely affected. Furthermore, in the event that LAT eventually collected by the PRC tax authorities (due to changes in local practices and interpretations of related regulations of local tax authorities) exceeds the amount we have provided for, our net profits after tax and financial position will be adversely affected.

We may be deemed a Chinese resident enterprise under the new PRC Enterprise Income Tax Law and be subject to the corresponding PRC taxation on our worldwide income

Under the new PRC Enterprise Income Tax Law that took effect on 1 January 2008, enterprises established outside of China whose “de facto management bodies” are located in China are considered “resident enterprises” and will generally be subject to the uniform 25% enterprise income tax rate as to their global income. In accordance with the new implementation rules relating to the new PRC

RISK FACTORS

Enterprise Income Tax Law, “de facto management body” is defined as the institution which has substantial overall management and control of the daily operation, personnel, financial accounts and properties of an enterprise. Substantially all of our management is currently based in China, and may remain in China after the effectiveness of the new PRC Enterprise Income Tax Law. Therefore, we may be treated as a Chinese resident enterprise for enterprise income tax purposes. The tax consequences of such treatment are currently unclear, as they will depend on how local tax authorities apply or enforce the new PRC Enterprise Income Tax Law or the implementation regulations.

We rely principally on dividends paid by our subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to pay dividends to us could have a material adverse effect on our ability to conduct our business

We are a holding company and rely principally on dividends paid by our subsidiaries for cash requirements, including the funds necessary to service any debt we may incur. If any of our subsidiaries incurs debt in its own name in the future, the instruments governing the debt may restrict dividends or other distributions by such subsidiaries to us.

Furthermore, applicable PRC laws, rules and regulations permit payment of dividends by our PRC entities only out of their retained earnings, if any, determined in accordance with PRC accounting standards. Our PRC entities are required to set aside a certain percentage of their after-tax profit based on PRC accounting standards each year to their reserve fund in accordance with the requirements of relevant laws and provisions in their respective articles of association. As a result, our PRC entities are restricted in their ability to transfer a portion of their net income to us, whether in the form of dividends, loans or advances. Any limitation on the ability of our subsidiaries to pay dividends to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses, pay dividends or otherwise fund and conduct our business. Under the new PRC Enterprise Income Tax Law and its implementation regulations issued by the State Council, PRC income tax at the rate of 10% is applicable to dividends paid by Chinese enterprises to “non-resident enterprises” (enterprises that do not have an establishment or place of business in the PRC, or that have such establishment or place of business but the relevant income is not effectively connected with the establishment or place of business) subject to the application of any relevant income tax treaty that the PRC has entered into. If we or our non-PRC subsidiaries are considered “non-resident enterprises,” any dividend that we or any such subsidiary receive from our PRC subsidiaries may be subject to PRC taxation at the 10% rate (or lower treaty rate).

Our operations may be adversely affected if any key member of our management leaves

We depend on the services provided by our management and other qualified and experienced staff. Competition for such talented employees is intense in the property development sector in the PRC. Our core management teams are comprised of our executive directors and key senior management as disclosed in the “Directors, Senior Management and Employees” section. If any core management team member leaves and we fail to find suitable substitutes, our business may be adversely affected. Moreover, as our business continues to grow and we expand into other regional markets in the PRC, we will need to employ, train and retain employees on a larger geographical scale. If we cannot attract and retain suitable human resources, our business and prospects will be negatively affected.

RISK FACTORS

Potential liability for environmental problems could result in substantial costs

We are subject to a variety of laws and regulations concerning the protection of health and the environment. The particular environmental laws and regulations, which apply to any given project development site, vary greatly according to the site’s location, the site’s environmental condition, the present and former uses of the site, and the status and use of adjoining properties. Compliance with environmental laws and conditions may result in delays, may cause us to incur substantial compliance and other costs and can prohibit or severely restrict project development activity in environmentally-sensitive regions or areas.

In accordance with the PRC laws and regulations, each project developed by us needs to undergo an environmental impact assessment and we need to submit the relevant environmental impact assessment report to the competent authority for its approval before the construction of these projects commence. We cannot ensure that environmental impact assessments will reveal all environmental liabilities or their extent, and there may be material environmental liabilities of which we are unaware. In the event that we are subject to any regulatory action as a result of our failure to carry out such environmental impact assessments fully or at all, our reputation, business and financial condition may be adversely affected.

We may encounter delays in delivering title documents after sale

Property developers in the PRC are typically required to deliver to each purchaser the relevant state-owned land use rights certificate and property ownership certificate within 90 days after delivery of the relevant property or such other time period provided in the sales contract. Under our sales contracts, we are required to compensate our customers for delays in completing our deliverables. Pursuant to a typical sales and purchase agreement, if we fail to deliver the property on the delivery day stipulated in the sale and purchase agreement, we will, depending on the length of delay, be liable to pay a monetary penalty ranging from 0.005% to 0.02% of the property price on a daily basis until the delivery of the property. If our delay exceeds a certain number of days, which, depending on the particular contract ranges from 30 days to 180 days, the relevant purchaser may have the right to repudiate the contract in addition to claiming the penalty fee. There may also be factors beyond our control that cause delay in the delivery of property ownership certificates, such as examination and approval processes conducted by various government agencies. In the case of serious delays on one or more property projects, our business and reputation may be materially and adversely affected.

Our business may be adversely affected by future increases in interest rates

Interest rates in China were relatively stable from July 1995 to October 2004. However, on 28 October 2004, the PBOC raised both its benchmark lending and deposit interest rates by 0.27% to 5.58% for one-year Renminbi loans and 2.25% for one-year deposits with effect from 29 October 2004. This was the first time lending and deposit interest rates had been raised since July 1995 and July 1993, respectively. The PBOC also abolished the upper limit on Renminbi lending rates and permitted banks to offer deposit rates below the PBOC benchmark rate. In March 2005, the PBOC canceled the preferential mortgage loan rate for individuals and restricted the minimum mortgage loan rate to 0.9 times of the benchmark-lending rate. The PBOC further raised its benchmark lending interest rates on 27 April 2006 by 0.27% to 5.85% for one-year Renminbi loans with effect from 28

RISK FACTORS

April 2006. On 18 August 2006, it raised its benchmark interest rates by 0.27% to 6.12% for one-year Renminbi loans with effect from 19 August 2006. On 17 March 2007, it raised its benchmark interest rates by 0.27% to 6.39% for one-year Renminbi loans with effect from 18 March 2007. On 18 May 2007, it raised its benchmark interest rates by 0.18% to 6.57% for one-year Renminbi loans with effect from 19 May 2007, and on 21 July 2007, it raised its benchmark interest rates by 0.27% to 6.84% for one-year Renminbi loans with effect from 22 July 2007. On 21 August 2007, the PBOC again raised its benchmark interest rates by 0.18% to 7.02% for one-year Renminbi loans with effect from 22 August 2007. The PBOC further increased its benchmark interest rates to 7.47% on 21 December 2007. The lending rates for other various terms were also raised accordingly. The PBOC then maintained interest rates unchanged until September 2008, when it took action to reduce interest rates in the wake of the global financial crisis. The PBOC cut rates five times during the last quarter of 2008 reducing the one-year benchmark lending rate by a total of 189 basis points. By the end of 2008, the one-year benchmark lending rate was 5.31%, which has remained unchanged as at the Latest Practicable Date.

The Company has incurred a significant amount of interest expense in relation to the Financing. A substantial portion of the interest expense has been capitalised as properties under development, which will then be recognised in the consolidated income statements as cost of sales upon the sales of properties. As a result, such capitalised interest expense may adversely affect our Group’s gross profit margin upon the sales of properties in 2009 and future periods.

Increases in interest rates, introduced by the PBOC will make mortgage financing more expensive for potential purchasers of our properties. Our cost of borrowing also increases as a result of interest rate increases, which in turn adversely affects our results of operations.

We cannot assure you that we will be successful when expanding our commercial and residential property development and operation businesses into other high growth cities in China

We are currently developing most of our projects in Shanghai, Tianjin and Beijing, while also actively expanding into other high growth areas in China, such as Wuxi, Suzhou, Nantong, Hefei, Shenyang and Harbin. Our active expansion into other areas in China may place a strain on our managerial, operational and financial resources, and will further contribute to an increase in our financing requirements. There is no assurance that we will be successful in expanding into other areas in China and that our revenue from residential and commercial developments in other areas of China will grow at the rate we anticipate or at all. In addition, we could face considerable reputational and financial risks if our development projects outside of Shanghai are mismanaged or do not meet the expectations of customers. If we fail to generate revenue from developments in other areas of China in line with our expectations or suffer loss of reputation or significant financial losses in connection with our planned expansion into other areas of China, it could have a material adverse effect on our business, financial condition or results of operations.

We do not have insurance to cover potential losses and claims in our operations

We do not maintain insurance coverage on our properties developed for sale except for those developments over which our lending banks have security interests, or for which we are required to maintain insurance coverage under the relevant loan agreements. In addition, we generally do not

RISK FACTORS

carry insurance against personal injuries that may occur during the construction of our properties except for our own employees. The general contractors and construction companies are responsible for safety control during the course of construction and are required to maintain accident insurance for their construction workers pursuant to PRC laws and regulations.

We do not take out insurance coverage for non-performance of contracts during construction and other risks associated with construction and installation work during the construction period. Moreover, there are certain contingent liabilities for which insurance is not available on commercially practicable terms, such as losses caused by earthquake, typhoon, flooding, war and civil disorder. There may be instances when we will have to incur losses, damages and liabilities because of our lack of insurance coverage, which could have a material adverse effect on our business, financial condition, or results of operations.

We may be involved in legal and other proceedings arising out of our operations from time to time and may face significant liabilities as a result

We may be involved in disputes with various parties involved in the development and the sale of our properties, including contractors, suppliers, construction workers, partners and purchasers. These disputes may lead to legal or other proceedings and may result in substantial costs, diversion of resources and management’s attention, which could have a material adverse impact on our business, financial condition or results of operations. As most of our projects consist of multiple phases, purchasers of our properties in earlier phases may file legal actions against us if our subsequent planning and development of the projects are perceived to be inconsistent with our representations and warranties made to such earlier purchasers. In addition, we may have disagreements with regulatory bodies in the course of our operations that may subject us to administrative proceedings. Unfavourable decrees could result in pecuniary liabilities and cause delays to our property developments. Please see the section headed “Business — Legal Proceedings” in this document for more details.

Any non-compliant GFA of our current uncompleted and future property developments may be subject to governmental approval and additional payments

The local government authorities inspect property developments after their completion and issue Construction of Properties and Municipal Infrastructure Completed Construction Works Certified Reports (驗收備案表) if the developments are in compliance with the relevant laws and regulations. If the total constructed GFA of a property development exceeds the GFA originally authorised in the relevant land grant contracts or construction permit, or if the completed property contains built-up areas that do not conform with the plan authorised by the construction works planning permit, the property developer may be required to pay additional amounts or take corrective actions with respect to such non-compliant GFA before a Construction of Properties and Municipal Infrastructure Completed Construction Works Certified Report can be issued for the property development.

We cannot ensure that local government authorities will not find the total constructed GFA of our existing projects under development or any future property developments to exceed the relevant authorised GFA upon completion of their construction. Any finding that a substantial portion of such GFA does not comply with the relevant contracts or permits could have a material adverse affect on our business, financial condition, results of operations and/or prospects.

RISK FACTORS

Our remittance of offshore funds into the PRC is subject to approval by the PRC government

In recent years, in an effort to stabilise the growth of its economy, the PRC government has introduced a series of austerity measures, including those aimed at controlling the inflow of offshore funds into the property development industry or for property speculative activities. In particular, as advised by Commerce and Finance Law Offices, the PRC legal counsel to the Company, the notice issued on 23 May 2007 jointly by MOFCOM and SAFE, often known as Notice 50, requires that foreign invested real estate companies newly approved and established after the date of issuance of the Notice must comply with certain registration requirements with MOFCOM. In addition, Notice 50 also requires that foreign invested real estate companies with property projects or property business newly added must also comply with the relevant approval requirements. As advised by Commerce and Finance Law Offices, none of the foreign invested real estate companies of the Group involved in the Reorganisation was newly approved and established after 23 May 2007, and therefore Commerce and Finance Law Offices is of the view that such requirements stipulated by the Notice 50 does not apply to the Group in this regard. As advised by Commerce and Finance Law Offices, all of the current existing nine foreign invested real estate companies of the Group involved in the Reorganisation have obtained the relevant approvals in respect of their newly added projects and businesses or increase of paid-up capital, and have also obtained the updated Foreign Invested Enterprises Approval Certificates, therefore Commerce and Finance Law Offices is of the view that the Group has also complied with such relevant approval requirement. In light of a further notice issued by SAFE on 10 July 2007, often known as Notice 130, if we propose to establish new foreign-invested real estate enterprises in the PRC going forward, we must complete the requisite filing procedures with MOFCOM before we can apply for foreign exchange registration to allow offshore fund to be remitted into the PRC for such purposes. Furthermore, if we intend to use the offshore funds to provide shareholder loans to such foreign-invested enterprises, local branches of SAFE will no longer be permitted to register such foreign-invested loans or allow the fund to be remitted into the PRC as a foreign loan.

Because of our offshore holding company status, we typically conduct our property development operations in the PRC through project companies established as foreign invested real estate companies. As a result, we are required to file with MOFCOM and wait until such filing is complete before we may transfer the fund into the PRC for use of our development of future projects and potential acquisition of new lands. We cannot assure you whether this process will be long or will not cause delays, or whether the investment approval and the MOFCOM filing will be successful. Failure to obtain such government approvals and filings, or any material delays in the approval or filing process, will adversely affect our development and expansion plans, as a result of which, our results of operations may be adversely affected. In addition, under the new policies pursuant to Notice 130 as stated above, our Directors are also of the view that going forward, it may be difficult for us to obtain funding by way of foreign shareholders' loans.

In addition, any capital contributions made to our PRC operating subsidiaries, are also subject to the foreign investment regulations and foreign exchange regulation in the PRC. For example, in accordance with a circular promulgated by SAFE in August 2008 with respect to the administration of conversion of foreign exchange capital contribution of foreign invested enterprises into Renminbi, unless otherwise permitted by PRC laws or regulations, Renminbi converted from foreign exchange capital contribution can only be applied to the activities within the approved business scope of such

RISK FACTORS

foreign invested enterprise and cannot be used for domestic equity investment or acquisition. Pursuant to this circular, we may encounter difficulties in increasing the capital contribution to our project companies or equity investee and subsequently converting such capital contribution into Renminbi for equity investment or acquisition in China. We cannot assure you that we will be able to obtain these approvals on a timely basis, or at all. If we fail to obtain such approvals, our ability to make equity contributions to our PRC project companies as their general working capital or to fund their operations may be negatively affected, which could materially and adversely affect the Group’s operational results.

Risks Relating to Our Industry

Oversupply of real estate could drive down property prices

The property market in the PRC is still at an early stage of development, and social, political, economic, legal and other factors may affect its development. For example, the lack of a mature and active secondary market for private properties and the limited amount of mortgage loans available to individuals in the PRC have been cited as factors that may inhibit demand for residential properties. Many of our development projects are targeted towards residents with high levels of disposable income who demand modern and high-quality living environments. These residents are also the consumers of the products and services provided by the tenants of our retail shops and commercial properties. A significant downturn in the PRC economy could adversely affect such demand, as well as the demand among corporations and other professional firms for our office properties.

In addition, the PRC property market is volatile and may experience under-supply or over-supply resulting in property price fluctuations. The central and local governments frequently adjust monetary and other economic policies to prevent the overheating of the PRC and local economies. Such economic adjustments may affect the real estate market in the PRC. The central and local governments make policy adjustments from time to time and adopt new regulatory measures in a direct effort to control the overdevelopment of the real estate market in the PRC. In the last three years, the central and local governments have taken a variety of measures to discourage speculation in the residential property market and to increase the supply of affordable housing. Such policies may lead to changes in market conditions, including price instability and imbalance of supply and demand in respect of office, residential, retail, entertainment and cultural properties. This may materially adversely affect our business, financial condition and results of operations. We cannot ensure that there will not be over-development in the property sector in the PRC in the future. Any future overdevelopment in the property sector in the PRC may result in an oversupply of properties and a decrease in property prices, as well as an undersupply of available sites for future development and an increase in the cost of acquiring land in our markets. This could materially and adversely affect our business, financial condition and results of operations.

Our operations are subject to extensive governmental regulation and are susceptible to changes in such regulations

As a property developer in the PRC principally engaging in developing projects involving diverse land uses, our operations are subject to extensive governmental regulation. We must comply with various requirements mandated by PRC laws and regulations, including the policies and procedures established by local authorities designed for the implementation of such laws and

RISK FACTORS

regulations. In order to develop and complete a property development, we must obtain various permits, licenses, certificates and other approvals from the relevant administrative authorities at various stages of our property development, including approvals in relation to the injection of capital into our project subsidiaries, land use rights documents, planning permits, construction permits, pre-sale permits and certificates or confirmation of completion and acceptance. Each approval is also dependent on the satisfaction of certain conditions.

For example, as part of the recent PRC Government measures on adjustment of housing supply, in May 2006 the Ministry of Construction and other relevant regulatory bodies jointly issued the Opinions on Housing Supply Structure and Stabilisation of Property Prices (《關於調整住房供應結構穩定住房價格的意見》) (the “Opinions”). The Opinions provide that, among others, in approving housing developments on or after 1 June 2006, the relevant local authority must require units with a floor area of less than 90 sq.m. to account for at least 70% of the total development and construction area of newly approved and developed commercial residential developments, unless the local authorities of municipalities under direct administration of the PRC central government, provincial capitals and certain cities have obtained approval from the Ministry of Construction to depart from this requirement. Such approvals are based on the existence of special circumstances. According to the Opinion, the projects that have received project approvals prior to 1 June 2006 but have not obtained a work commencement permit should adjust their planning in order to conform to this new requirement.

On 2 March 2006, the Ministry of Finance and the State Administration of Taxation promulgated a notice that with effect from 2 March 2006, transfers of housing property by individuals shall be subject to land value-added tax. On 30 May 2006, the State Administration of Taxation issued a notice stating that from 1 June 2006, business tax will be imposed on the full amount of the sale income upon the transfer of a residential house by an individual within five years from the purchase date. On 18 July 2006, the State Administration of Taxation promulgated a notice that with effect from 1 August 2006, any balance of income gained from a transfer of housing property by an individual after deduction of the original value of the property and any reasonable expenses shall be subject to personal income tax as “property transfer income”.

On 23 May 2007, the MOFCOM and the SAFE jointly issued the Notice on Further Strengthening and Regulating the Approval and Supervision on Foreign Direct Investment in Real Estate Sector (《關於進一步加強、規範外商直接投資房地產業審批和監管的通知》), which, among other things, imposes strict control on foreign investment in the real estate sector in the PRC relating to up-market properties and requires foreign invested real property development companies to obtain approvals for expansion of their real estate business operations. On 10 July 2007, the SAFE issued the Notice Regarding the Publication of the First Group of Real Estate Enterprises with Foreign Investment That Have Properly Registered with the MOFCOM (《國家外匯管理局綜合司關於下發第一批通過商務部備案的外商投資房地產項目名單的通知》), which restricts the ability of foreign invested real estate companies to raise funds offshore and then inject funds into the companies by way of shareholder loans.

On 27 September 2007, PBOC and CBRC promulgated a “Circular on Strengthening the Management of Commercial Real Estate Credit Loans” (《關於加強商業性房地產信貸管理的通知》) (the “Circular”), which increases the percentage of down payment for purchasers acquiring a second

RISK FACTORS

residential property to at least 40.0% and states that the interest rate of the loan should not be lower than 110.0% of the benchmark interest rate of the same grade and in the same period promulgated by PBOC. The Circular also adopted a series of measures to tighten up control over commercial banks’ loans to property developers in order to prevent the granting of excessive credit. For example, commercial banks are banned from offering loans to projects that have less than 35.0% of capital funds (proprietary interests), or that fail to obtain land use rights certificates, construction land planning permits, construction works planning permits and work commencement permits. Commercial banks are also prohibited from accepting commercial properties that have been vacant for more than three years as guarantees for loans. In principle, property development loans provided by commercial banks should only be used for projects in the areas where the commercial banks are located. Otherwise, commercial banks should carry out effective risk control measures and make filings with PRC supervisory authorities before providing the loans. Commercial banks are also prohibited from granting to property developers any loan that is to be used specifically for paying land premiums.

On 28 September 2007, the Ministry of State Land and Resources promulgated the Regulations on Granting State-owned Construction Land Use Right through Tenders, Auction and Listed for Bidding (《招標拍賣掛牌出讓國有建設用地使用權規定》) (the “Regulations”). The Regulations provide, among others, that a land use rights grantee may only apply for the registration of land use rights and be granted the relevant land use rights certificates after it has fully paid the relevant land premium in accordance with the relevant land grant contracts, and that land use rights certificates shall not be issued with respect to part of a land parcel in proportion to part payment of the relevant land premiums.

We cannot ensure that we will not encounter major problems in obtaining the necessary approvals or fulfilling the conditions precedent to the receipt of approvals, or that we will be able to adapt to new laws, regulations or policies that may come into effect from time to time with respect to the property industry in general or the particular processes with respect to the granting of the approvals. There may also be delays on the part of the administrative bodies in reviewing our applications and granting approvals. If we fail to obtain, or experience material delays in obtaining the requisite governmental approvals, the development and sale of our developments could be substantially disrupted, which would result in a material adverse effect on our business, results of operations and financial condition. Further changes in tax laws may also adversely affect demand for properties. Further, we cannot ensure that implementation of the laws and regulations by the relevant authorities, or the interpretation or enforcement of such standards, will not require us to incur additional costs, which could have a material adverse effect on our business, financial condition and results of operations.

The PRC Government may reclaim land from us if we fail to comply with the terms of our land grant contracts

Under PRC law, if we fail to develop a property project according to the terms of the land grant contract, including those relating to the payment of land premiums, demolition and resettlement costs and other fees, specified use of the land and the time for commencement and completion of the property development, the PRC Government may issue a warning, impose a penalty, and/or order us to forfeit the land. Specifically, under current PRC law, if we fail to commence development for more than one year from the commencement date stipulated in the land grant contract, the relevant PRC land bureau may serve a warning notice on us and impose a land idle fee on the land of up to 20% of the

RISK FACTORS

land premium. If we fail to commence development for more than two years, the land is subject to forfeiture to the PRC Government without compensation unless the delay in development is caused by PRC Government’s actions, preparation work or force majeure. In accordance with the Opinions on Housing Supply Structure and Stabilisation of Property Prices (《關於調整住房供應結構穩定住房價格的意見》) which became effective in May 2006, even though the commencement of the land development is in line with the land use rights grant contract, if the developed GFA on the land is less than one-third of the total GFA of the project or the total capital invested is less than one-fourth of the total investment in the project and the suspension of the development of the land is over one year without government approval, the land will be treated as idle land. During the Track Record Period, we paid a total of approximately RMB5.6 million, on an aggregate basis, as penalties to the relevant local governments in respect of late payments of land premiums. There can be no assurance that circumstances leading to forfeiture or significant delays in the development schedule will not arise in the future. If the land is forfeited to the government, we may not be able to recover the costs incurred for the initial acquisition of the forfeited land or recover part or whole of our development costs incurred up to the date of forfeiture, including the land premiums paid, which could in turn have a material adverse effect on our business, financial condition, results of operations or reputation.

Resettlement negotiations may add costs or cause delays to our development projects

Under PRC laws and regulations, where we are responsible for the demolition of existing properties on a site for development and relocation of existing residents, we will be required to pay resettlement costs to those residents.

On 16 March 2007, the National People’s Congress of China adopted the Property Rights Law, which expressly provides legal protection of the private rights of home owners. This may increase the difficulties in effecting demolition and resettlement through administrative intervention, and the cost of demolition and resettlement may increase.

Even if we are not responsible for the demolition and relocation, if the party responsible for the demolition and relocation and the party subject to the demolition and relocation fail to reach an agreement for compensation and resettlement, either of them may apply for a ruling of the relevant governmental authorities and if a party is not satisfied with the ruling, it may initiate proceedings in a people’s court within three months from the date of service of such ruling, which may cause delays in the development projects. Such proceedings and delays, if they occur, could adversely affect our reputation. In addition, any such delays to our development projects will lead to an increase in the cost and a delay in the expected cash inflow resulting from pre-sales of the relevant project, which may in turn adversely affect our business, financial position and results of operations and may be material.

Our sales and pre-sales will be affected if mortgage financing becomes more costly or otherwise becomes less attractive

Substantially all purchasers of our residential properties rely on mortgages to fund their purchases. An increase in interest rates may significantly increase the cost of mortgage financing, thus affecting the affordability of residential properties. In addition, the PRC Government and commercial banks may also increase the down payment requirement, impose other conditions or otherwise change the regulatory framework in a manner that would make mortgage financing unavailable or unattractive

RISK FACTORS

to potential property purchasers. Under current PRC laws and regulations, purchasers of residential properties generally must pay a minimum of 20% to 30% of the purchase price of the properties before they can finance their purchases through mortgages. In addition, mortgagee banks may not lend to any individual borrower if the monthly repayment of the anticipated mortgage loan exceeds 50% of the individual borrower’s monthly income or if the total debt service of the individual borrower would exceed 55% of such individual’s monthly income. In addition, pursuant to the Notice on the Further Decrease in the Interest Rates of Commercial Mortgage Loans for Individual Residential Property promulgated by PBOC (《中國人民銀行關於擴大商業性個人住房貸款利率下調幅度等有關問題的通知》) in October 2008, the minimum down payment for individual purchasers of residential property through mortgage financing is 20% of the total purchase price. The monthly payment of the anticipated mortgage loan is still restricted to 50% of the individual borrower’s monthly income as a maximum. If the availability or attractiveness of mortgage financing is reduced or limited, many of our prospective customers may not be able to purchase our properties and, as a result, our business, liquidity and results of operations could be materially adversely affected.

In line with industry practice, we provide guarantees to banks for mortgages they offer to our purchasers up until we complete the relevant properties and the property ownership certificates and certificates of other interests with respect to the relevant properties are delivered to the mortgagee banks. If there are changes in laws, regulations, policies and practices that would prohibit property developers from providing guarantees to banks in respect of mortgages offered to property purchasers and these banks would not accept any alternative guarantees by third parties, or if no third party is available or willing in the market to provide such guarantees, it may become more difficult for property purchasers to obtain mortgages from banks and other financial institutions during sales and pre-sales of our properties. Such difficulties in financing could result in a substantially lower rate of sale and pre-sale of our properties, which could materially and adversely affect our cash flow, financial condition and results of operations. There can be no assurance that such changes in laws, regulations, policies or practices will not occur in the PRC in the future.

Changes of laws and regulations with respect to pre-sales may adversely affect our cash flow position and financial performance

We depend on cash flows from pre-sale of properties as an important source of funding for our property projects. Under current PRC laws and regulations, property developers must fulfil certain conditions before they can commence pre-sale of the relevant properties and may only use pre-sale proceeds to finance their developments. On 5 August 2005, the PBOC issued a report entitled “2004 Real Estate Financing Report,” in which it recommended the discontinuance of the practice of pre-selling uncompleted properties as it creates significant market risks and generates transactional irregularities. At the “two meetings” (the plenary session of the National People’s Congress and that of the Chinese People’s Political Consultative Conference) held in March 2006, a total of 33 delegates to the National People’s Congress, including Bai Hexiang, head of the Nanning Central Sub-Branch of the People’s Bank of China, put forward a motion to abolish the system for sale of forward delivery housing. In May 2006, Cheng Jiansheng, head of the Real Estate Finance Division of the Financial Market Department of China published an article pointing out that the way to perfect the system for China’s commodity housing pre-sale is to abolish the financing of pre-sale. On 24 July 2007, the National Development and Reform Commission (NDRC) proposed to change the existing system for sale of forward delivery housing into one for sale of completed housing. There can be no assurance

RISK FACTORS

that the PRC Government will not ban the practice of pre-selling uncompleted properties or implement further restrictions on the pre-sale of properties, such as imposing additional conditions for a pre-sale permit or further restrictions on the use of pre-sale proceeds. Any such measure will adversely affect our cash flow position and force us to seek alternative sources of funding for much of our property development business.

Risks Relating to the PRC

Changes in the PRC’s political, economic and social conditions, laws, regulations and policies may have an adverse effect on us

The economy of the PRC differs from the economies of most developed countries in many respects, including but not limited to:

- structure;
- level of government involvement;
- level of development;
- growth rate;
- control of foreign exchange; and
- allocation of resources.

The PRC economy has been transitioning from a planned economy to a market-oriented economy. For the past three decades, the PRC Government has implemented economic reform measures emphasizing utilisation of market forces in the development of the PRC economy. We cannot predict whether changes in the PRC’s political, economic and social conditions, laws, regulations and policies will have any adverse effect on our current or future business, financial condition or results of operations.

There are uncertainties regarding interpretation and enforcement of PRC laws and regulations

All of our operations are, and will continue to be, conducted in the PRC. The PRC legal system is based on written statutes, and prior court decisions can only be cited as reference. Since 1979, the PRC Government has been developing a comprehensive system of commercial laws and regulations in relation to economic matters such as foreign investment, corporate organisation and governance, commerce, taxation and trade.

However, due to the fact that these laws and regulations have not been fully developed, and because of the limited volume of published cases and their non-binding nature, the interpretation and enforcement of these laws and regulations involves some uncertainty, which may lead to additional restrictions and uncertainty for our business and uncertainty with respect to the outcome of any legal action taken against us in the PRC.

RISK FACTORS

Changes in foreign exchange regulations and fluctuation in the value of the Renminbi may adversely affect our business and results of operations and our ability to remit dividends

We receive payment for all of our sales in Renminbi, which is not freely convertible into other currencies. Under the existing foreign exchange regulations in China, we may undertake current account foreign exchange transactions without prior approval from the State Administration of Foreign Exchange by complying with certain procedural requirements. The PRC Government may, however, at its discretion, restrict access in the future to foreign currencies for current account transactions under certain circumstances. Effective 1 June 2007, the branch offices of the SAFE shall not handle any foreign debt registration or approve any foreign exchange settlement in respect of foreign debts for any foreign-invested real estate enterprises (including those which are newly established or which have a capital increase) even if such enterprises have obtained an approval certificate from a competent department of commerce and have completed recordation procedures at the Ministry of Commerce.

Meanwhile, the branch offices will not handle any foreign exchange registration (or change in such registration) or any foreign exchange settlement in respect of capital projects for any foreign invested real estate enterprises that obtained an approval certificate from local competent departments of commerce after 1 June 2007 but have not completed recordation procedures at the Ministry of Commerce.

Any change to the foreign exchange regulations may adversely affect our ability to pay dividends or satisfy other foreign exchange requirements.

The value of the Renminbi against other foreign currencies is subject to changes in the PRC’s policies and international economic and political developments. Effective from 21 July 2005, the Renminbi is no longer pegged solely to the US dollar. Instead, it is pegged against a basket of currencies, determined by the People’s Bank of China, against which it can rise or fall by as much as 0.3% each day. For example, on 21 July 2005, the Renminbi was revalued against the US dollar to approximately RMB8.11 to the US dollar, representing an upward revaluation of 2.1% of the Renminbi against the US dollar, as compared to the exchange rate of the previous day. On 23 September 2005, the PRC Government widened the daily trading band for Renminbi against non-US dollar currencies from 1.5% to 3% to improve the flexibility of the new foreign exchange system. Effective 21 May 2007, the People’s Bank of China expanded the floating range of the trading price of the US Dollar against the Renminbi in the inter-bank spot foreign exchange market. The exchange rate may become volatile, the Renminbi may be revalued further against the US dollar or other currencies or the Renminbi may be permitted to enter into a full or limited free float, which may result in an appreciation or depreciation in the value of the Renminbi against the US dollar or other currencies. Fluctuations in exchange rates may adversely affect the value, translated or converted into US dollars or Hong Kong dollars (which are pegged to the US dollar), of our net assets, earnings or any declared dividends. Any unfavourable movement in the exchange rate may lead to an increase in our costs or a decline in sales or increase in our loan liabilities, which could materially affect our operating results. We have not entered into any agreements to hedge our exchange rate exposure.

RISK FACTORS

We rely on the PRC market and if the recent economic downturn and financial crisis in the PRC continue or there is a general economic downturn in the PRC, it will have a material negative impact on our business operations, financial position and our ability to obtain financing necessary for our operations

Almost all of our revenue is derived from sales in the PRC. We are therefore heavily dependent on the general economic conditions in the PRC for our continued growth. The pace of economic growth in the PRC has slowed down since the fourth quarter of 2008. The PRC Government along with a number of economists around the world have expressed their view that they expect the PRC’s gross domestic product, or GDP, to continue to slow down in 2009 due to shrinking exports and other external economic factors. The recent economic downturn, both globally and in the PRC, and the general tightening of credit availability which started in the second half of 2008 negatively impacted our cash flow position and our ability to obtain additional financings in the second half of 2008. As a result, we encountered unexpected difficulties in accessing affordable financing for our projects and delayed the construction schedule of a number of our development projects accordingly during the second half of 2008. In addition, given the nature of the property development business, we anticipate that sales to customers based in the PRC will continue to represent a substantial proportion, if not all, of our revenue. The above-mentioned economic downturn and financial crisis resulted in an increased level of commercial and consumer delinquencies, a lack of consumer confidence and an increase in market volatility nationwide, which in turn caused a decrease in the average selling price of, and demand for, real estate properties in the PRC during the second half of 2008. We cannot assure you that the PRC economy will continue to grow or that its growth will occur in geographical regions or economic sectors from which we benefit, nor can we assure you that a financial crisis similar to the financial turmoil that began in the second half of 2008 will not continue or re-occur. If we encounter a similar global economic downturn and financial market crisis in the future on a sustained basis, or any general downturn in the PRC’s economic conditions, our business operations, financial position and results of operations will be materially and adversely affected.

Our business may be adversely affected by a renewed outbreak of SARS, H1N1, avian influenza or any other highly contagious disease

In March 2003, there was an outbreak of Severe Acute Respiratory Syndrome (“SARS”), a highly contagious disease, in China and some other countries. A renewed outbreak of SARS in China or other neighboring countries, or an outbreak of another highly contagious disease, will affect China’s overall economy. This may in turn significantly affect our business. In addition, if an employee of any of our subsidiaries were to contract SARS or another highly contagious disease, we may need to restrict or even suspend the operations of such company. In addition, an epidemic of highly pathogenic avian influenza has affected humans throughout North Asia and Southeast Asia and is considered to be a public health concern. There have recently been a relatively small number of documented cases of humans that are found to have contracted H1N1 in the PRC. If SARS, H1N1 or avian influenza infections or any other serious contagious disease continue to escalate, their effects on the economies of certain countries in Asia could be similar to or worse than those experienced as a result of the SARS outbreak.

INDUSTRY OVERVIEW

The information and statistics set out in this section has been derived from various official government publications. This information has not been independently verified by us, our Controlling Shareholders. None of our Company and our Controlling Shareholders make any representation as to the accuracy of such information and statistics, which may be inaccurate, incomplete, out-of-date or inconsistent with each other or with other information compiled within or outside the PRC. Furthermore, due to the inherent time-lag involved in collecting any industry and economic data, some of the data contained in this section may only represent the state of affairs at the time such data was collected, and as such, you should also take into account subsequent movements in the industry and the PRC economy when you evaluate the information contained in this section.

We have engaged Jones Lang LaSalle Sallmanns Limited (“Jones Lang LaSalle Sallmanns”) to conduct a detailed analysis of the property markets in Shanghai, Tianjin, Beijing, Wuxi, Suzhou, Nantong, Hefei, Shenyang and Harbin. Jones Lang LaSalle Sallmanns prepared an industry research report dated [●] 2009 (the “**Research Report**”) for each of the cities, which includes:

- an overview of China’s economy;
- an overview of the economy in the abovementioned cities;
- an overview of the property market in China;
- an overview of the property market, residential sector, retail property sector, office property sector and/or hotel sector for the cities;
- the trends of demand in various property sectors;
- an estimation of future supply in various property sectors; and
- the prospects regarding various property sectors.

The Research Report was prepared based on economic and demographic data from the Chinese Government and the proprietary databases of Jones Lang LaSalle Sallmanns. In the course of research, Jones Lang LaSalle Sallmanns conducted numerous interviews with local developers, buyers and potential buyers, local marketing agents, and market observers in each market. We have included certain information from the Research Report for purposes of this document because we believe such information facilitates an understanding of these markets for potential investors. We were charged a total of US\$60,000 for services provided by Jones Lang LaSalle Sallmanns.

Jones Lang LaSalle Sallmanns also serves as our property valuer. A property valuation report which is delineated from market research contained in the Research Report prepared by Jones Lang LaSalle Sallmanns and relates to our property interests will be included in this document. Jones Lang LaSalle Sallmanns provided services through two business functions which are independent from each other. The Research Report was prepared primarily by the designated market research teams of Jones Lang LaSalle Sallmanns in Hong Kong and Mainland China. In the course of researching, no consultation was made with Jones Lang LaSalle Sallmanns’ valuation department in Hong Kong or Mainland China and with the exception of the Jones Lang LaSalle Sallmanns market research team referred to above, the Research Report has not been released to any other parties.

INDUSTRY OVERVIEW

Jones Lang LaSalle Sallmanns is an international real estate consultancy group, which provides a range of services including valuation, agency and consultancy for occupiers, investors and developers across all sectors of the real estate market. Jones Lang LaSalle Sallmanns has licensed offices in Beijing, Shanghai, Guangzhou and Shenzhen in Mainland China, as well as Hong Kong, Singapore and other cities in Southeast Asia with over 160 staff servicing various clients in more than 150 cities of China. The research team of Jones Lang LaSalle Sallmanns was led by Chen Yan Song, who is a Chartered Surveyor of the Royal Institute of Chartered Surveyors with approximately 16 years of experience in the professional property valuation sector in Hong Kong and China.

OVERVIEW OF THE PRC ECONOMY

Over the last quarter of a century, China’s economy has been gradually transformed from a centrally planned system to a more market-oriented economy with various market liberalisation initiatives aimed at making China an economically developed country. The fast economic development has been further accelerated by China’s entry into the World Trade Organisation (“WTO”) in 2001 and China has achieved an average GDP growth rate of approximately 10% from 2000 to 2008, as illustrated in the table below.

Major Economic Indicators of China (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008*	2000-2008 CAGR

2008 China National Economy and Social Development Statistical Communique

Notes: (1) N/A represents not applicable or not available.

(2) *Revised figure announced by National Statistics Bureau on 26 February 2009.

(3) CAGR refers to compound annual growth rate.

• GDP and Growth Rate

China’s economy has experienced remarkable expansion over the past two decades. Real GDP growth rate accelerated from 8.3% in 2001 to a new record of 11.9% in 2007. In 2008, the slowing global economy had a slight adverse impact on China’s economy with the real GDP growth rate

INDUSTRY OVERVIEW

decreasing to 9%. In terms of the GDP quantum, it continued to increase to RMB30,067 billion in 2008, making it the third largest economy in the world. GDP per capita also more than doubled from 2000 to 2007 to RMB18,934.

During the second half of 2008, the Chinese government implemented a series of stimulus measures to increase investment and domestic consumption to cushion the impact of a deteriorating global economy. The Chinese government unveiled a RMB4 trillion stimulus package to be implemented through 2010 aimed at boosting economic development and increasing domestic demand.

- **Population**

China is the most populous country in the world. Given the “One Child” policy imposed by the Chinese Government, its population growth has been relatively stable in recent years, increasing from 1,267 million in 2000 to 1,328 million in 2008. The large population provides an abundance of labour and creates a large domestic demand particularly for the real estate and retail markets.

- **Foreign Direct Investment (“FDI”)**

China has attracted the most FDI amongst developing nations since 1992 with the adoption of the “Open Door” policy, the continued fast economic growth and China’s entry into the WTO. From 2000 to 2008, FDI increased at a CAGR of 10.8% in China. FDI in 2008 reached a new record of US\$92.4 billion, an increase of 23.5% compared to 2007. Despite the global economic crisis, it is expected that foreign funds will continue to flow into China in the coming years due to its status as one of the most prosperous emerging countries and the expectation of future Renminbi appreciation.

- **Disposable Income and Consumption**

The rapid economic development in China has resulted in stellar growth in per capita disposable income of urban residents, rising from RMB6,280 in 2000 to RMB15,718 in 2008, representing a CAGR of 12.2% since 2000. Disposable income has a direct impact on domestic consumption, which includes spending on consumer goods and residential properties. Since 2000, total retail sales of consumer goods increased at a CAGR of 13.6% in 2008 and the total sales of residential properties in China grew at a CAGR of 34.4% in 2007. China is gradually progressing from an export-led economy to a more balanced economy with growing domestic consumer demand.

The Consumer Price Index (“CPI”) was 1.5% in 2006. It increased to 4.8% in 2007 and 5.9% in 2008, mainly due to the general increase in cost of food and housing.

INDUSTRY OVERVIEW

- **Urbanisation**

China’s rapid economic development has boosted the pace of urbanisation. The urbanisation rate increased from 36.2% in 2000 to 45.7% in 2008. Rapid urbanisation, coupled with contemporaneous industrialisation, has created robust demand for housing as well as consumer goods and investment in infrastructure facilities, which together contribute to further economic growth.

CHINA PROPERTY MARKET OVERVIEW

Trends of the Property Market in China

After reforming the land use regulations and developing a private property ownership system, “commodity properties” which mainly include residential, retail and office properties appeared in the late 1980s. Demand for various properties especially residential properties has increased significantly. The fast growing economy and the increase in disposable income of the Chinese citizens, as well as the favourable monetary policies encouraged individual and corporate investment in real estate. Since 2000, the real estate industry has played an increasingly important role in China’s economy.

The table below sets out selected property market indicators of China between 2000 and 2008:

Property Market Indicators of China (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR
Real estate investment (RMB billion)	498	634	779	1,015	1,316	1,591	1,942	2,528	3,058	25.5%
GFA of new commencements of commodity properties (million sq.m.)	296	374	428	547	604	681	793	954	976	16.1%
GFA of commodity properties completed (million sq.m.) ...	251	299	350	415	425	534	558	606	585	11.2%
GFA of commodity properties sold (million sq.m.)	186	224	268	337	382	555	619	774	621	16.3%
GFA of residential properties sold (million sq.m.)	166	199	237	298	338	496	554	701	559	16.4%

INDUSTRY OVERVIEW

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2007 CAGR
Average selling price of commodity properties (RMB per sq.m.).....	2,112	2,170	2,250	2,359	2,778	3,168	3,367	3,864	N/A	9.0%

Average selling price of retail properties (RMB per sq.m.).....	3,260	3,274	3,489	3,675	3,884	5,022	5,247	5,574	N/A	8.0%

Source: China Statistical Yearbooks, 2001-2008

2008 China National Economy and Social Development Statistical Communique

Note: (1) N/A refers to not available.

(2) GFA refers to gross floor area.

The booming real estate market has been reflected in the supply side of the commodity property sector. The GFA of new commencements of commodity properties increased from 296 million sq.m. in 2000 to 976 million sq.m. in 2008, representing a CAGR of 16.1%. Amongst these, new residential property developments accounted for approximately 80%.

The fast development of the real estate market has been underpinned by strong demand, which is primarily driven by economic growth and improved income of residents. From 2000 to 2004, the percentage of properties sold vs. properties completed (by GFA) gradually increased from 74% to 90%. Driven by rapidly growing demand from local and foreign investors and end-users, the GFA of properties sold exceeded GFA completed with take-up ratios exceeding 100% since 2005. From 2000 to 2008, GFA of commodity properties sold increased at a CAGR of 16.3%.

The growing demand has pushed property prices up since 2000. The average selling price of commodity properties increased from RMB2,112 per sq.m. in 2000 to RMB3,864 per sq.m. in 2007, representing a CAGR of 9.0%. This strong demand was particularly reflected in the residential sector due to an inherent demand for housing. The national average residential price increased at a CAGR of 9.4% from RMB1,948 per sq.m. to RMB3,645 per sq.m. during the period from 2000 to 2007.

The strong economic performance and consumer demand have benefited the office and retail sectors. The average selling price of office and retail properties increased with a CAGR of 9.0% and 8.0% from 2000 to 2007, respectively. Average selling price of office properties in China increased from RMB4,751 per sq.m. in 2000 to RMB8,667 per sq.m. in 2007, whilst average retail property prices reached RMB5,574 per sq.m. in 2007 from RMB3,260 per sq.m. in 2000.

INDUSTRY OVERVIEW

The property market in China had shown a significant upward trend between 2000 and 2007. Real estate investment grew rapidly at a CAGR of 26.1% during the same period, recording a historical high of 30.2% growth on a year-on-year basis in 2007. However, this growth slowed in 2008 with an increase of 21% due to a series of government austerity measures and an increased cost of financing since 2007. At the same time, the GFA of completed properties and properties sold in 2008 also decreased by approximately 3% and 20% respectively, with a slight decrease in the property prices.

The global economic downturn which began in the second half of 2008 resulted in a general deterioration in the performance of the PRC property industry. Such economic downturn and financial crisis resulted in a credit crunch, both globally and in the PRC, an increased level of commercial and consumer delinquencies, a lack of consumer confidence and an increase in market volatility, which in turn caused a decrease in the average selling price of, and demand for, real estate properties in the PRC during the second half of 2008.

In addition, the global economic downturn and the financial crisis has also led to a general global tightening of credit facilities available to property development businesses in the PRC. Such tightening of credit availability has had a significant adverse impact on the liquidity of the PRC property developers and their ability to obtain financings. In particular, on 29 July 2008, the PBOC and China Banking Regulatory Commission issued a Notice on Promoting Economical and Intensive Use of Land through Finance 《關於金融促進節約集約用地的通知》 to further restrict the financing activities of property developers across the nation.

According to the “Housing Price Index of 70 Major Cities” jointly released by the National Statistics Bureau (“NSB”) and the National Development and Reform Commission, the average price of residential property in 70 major cities in China decreased by 1% in December 2008 on a year-on-year basis. Since September 2008, the People’s Bank of China has lowered the benchmark lending rate five times and the minimum down payment ratio of residential mortgage for first-time buyers. This contributed to an increase of the number of residential property transactions in the first 4 months of 2009. Residential prices have also since stabilised.

Key Drivers of the Property Market in China

- **Government Policies, Laws and Regulations**

From 1999, the Chinese Government promulgated a series of reform regulations relating to land, building construction, property sale and mortgage provisions, which accelerated the development of the real estate market and led to the establishment of a large number of real estate developers. In August 2003, the State Council issued a notice aimed at increasing the supply of commodity residential properties, facilitating the re-sale of state-allocated housing and rejuvenating the secondary residential market.

In March 2005, the State Council issued proposing measures to curb increases in property prices, which included adjusting the supply and demand structure of the property market to encourage an increase in the supply of commodity residential property, economically affordable housing and low

INDUSTRY OVERVIEW

rent housing. In May 2006, the PRC Government issued new measures to encourage developers to increase the supply of small-to-medium sized housing and regulating the real estate market via taxation, loan and land supply.

In October 2007, the “PRC Property Right Law (中華人民共和國物權法)” came into effect, which aims to protect the rights of property owners. Under this law, the lease term of residential land use rights, not more than 70 years, will be automatically and indefinitely extended. It will encourage people to buy and own residential properties.

In December 2008, the General Office of the State Council issued various guidance opinions to promote healthy development of the real estate market (關於促進房地產市場健康發展的若干意見) including encouraging commodity residential property ownership, providing financing support for developers and facilitating affordable residential property construction. In May 2009, the minimum proportion of capital required has been lowered from 35% to 20% for affordable and commodity residential property development and from 35% to 30% for other types of property development.

- **Rising Disposable Income**

Rising disposable income improves the affordability of residential properties and stimulates demand for residential properties with higher quality, larger area, better amenities and an improved living environment. In addition, demand for real estate will grow with increasing income.

- **FDI Growth and China’s Entry into the WTO**

After China’s entry into the WTO, the country attracted more attention from foreign companies and investors, driving up foreign investment inflows into newly liberalised sectors including retail, banking and financial services and telecommunications. The growth in these sectors has created increasing demand for office, retail, residential and hotel properties. With the expectation of China’s strong economic growth, FDI is expected to increase consistently, contributing to the growth in demand for property in the PRC.

- **Population and Urbanisation**

China’s large population provides a fundamental demand for residential properties. Although population growth is gradual, the number of households are increasing as family sizes become smaller and new families are formed by married couples every year. These two factors are expected to stimulate demand for residential properties.

In 2005, the average residential floor area occupied per capita is 26.1 sq.m. According to the plans by the Ministry of Construction of China, this area is expected to increase to 35 sq.m. by 2020. Together with rising disposable income and a larger population size, the need for an improvement in living conditions would underpin the demand in the residential market in the long run.

China has experienced rapid urbanisation and industrialisation with an increase in the urban population and an expansion of the urban area, resulting in a growing demand for properties in urban areas.

INDUSTRY OVERVIEW

- **Housing System Reform**

In 1998, the Chinese government abolished its state-allocated housing policy, which fundamentally changed the demand and supply structure. Since then, all accommodation needs must be met by purchasing or renting in the real estate market.

- **Residential Mortgage**

After launching the housing system reforms, a series of policies including residential mortgage policies, were introduced. Housing mortgages have become an important and profitable business favoured by commercial banks. With the introduction of mortgage loans, more and more people are able to purchase new houses which significantly enhances the development of the property market in China. According to the statistics published by the NSB, the outstanding individual residential mortgage loans increased to RMB2,700 billion at the end of 2007 from RMB560 billion at the end of 2001, an increase of 4.8x in six years.

Property Market Development in the PRC

In 1998, the state-allocated housing policy was abolished and people were encouraged to buy their own houses or pay rent at rates closer to prevailing market rates. As more and more people entered the property market, the mortgage financing market also flourished. Having policies that encouraged individuals to purchase their own properties with mortgage financing, the PRC real estate market experienced rapid growth. These housing reforms, together with the rapid economic growth and urbanisation in China, and the emergence of mortgage financing, have enabled and sustained a rapidly developing real estate market. These factors are expected to continue to encourage private property ownership and boost real estate investment in all asset types and classes in China. A brief timeline of the key housing reforms is set out below:

1988	The National People’s Congress amended the national constitution permit the transfer of state-owned land use rights.
1992	Public housing sales to private enterprises and individuals in major cities were permitted.
1994	Further implementation of real estate reform and establishment of an employer/employee-funded housing fund system.
1995	A regulatory framework was established for real estate sales. Parties intending to engage in such transfers should enter into a property transfer contract in writing and register the transfer with the property administration authority having jurisdiction.
1998	The PRC Government promulgated a series of regulations and policies related to the reformation of housing system and abolished the welfare-oriented public housing distribution system.

INDUSTRY OVERVIEW

- 1999 The maximum mortgage term was extended to 30 years and the maximum percentage of mortgage financing was increased from 70% to 80%, both encouraging more lending to private individuals to purchase properties.
- 2000 The PRC Government issued regulations and national standards to standardise the quality of construction projects, establishing a more rigorous framework for quality control in construction.
- 2001 Regulatory Measures were enacted in relation to the sale of commodity properties.
- 2002 The PRC government promulgated the “Rules Regarding the Grant of State-owned Land Use Rights by Way of Tender, Auction and Listing-For-Sale (招標拍賣掛牌出讓國有土地使用權規定)” which further transformed the property development industry into a market-oriented sector. The PRC government eliminated the dual system for domestic and overseas home buyers in China, enabling the merging of two originally distinct markets.
- 2003 New rules were promulgated to specify the requirements for banks to provide loans for the purposes of property development and individual home mortgage.
- 2004 Notice issued by the State Council requiring that real estate development projects (excluding affordable housing programmes) had to be financed by developers themselves from their capital funds which amounted to 35%, rather than 20%, of the total projected capital outlay for such projects.
- The China Banking Regulatory Commission further strengthened the risk control of commercial banks over their real estate financing.
- 2005 The PRC Government instituted additional measures to discourage speculation in the real estate market such as increasing the minimum down payment to 30% of the total purchase price, eliminating the preferential mortgage interest rate for residential housing, imposing a business tax of 5% on the proceeds from re-sale of properties that occur within two years of purchase, and prohibiting re-sale of uncompleted properties.
- 2006 The PRC Government announced further measures to “promote healthy development of the real estate market”. Such measures included: (i) 70% of residential developments in stipulated regions should be allocated to units no larger than 90 sq.m. by GFA; (ii) A business tax of 5% being levied on the total proceeds from the sale of residential housing purchased and held for less than 5 years; (iii) Commercial banks are not allowed to provide financing to development projects until the developer has committed more than 35% of total project costs; (iv) Land granted to a developer but has been left idle or not developed within the timeframe specified in the land grant contract might attract hefty penalties or be revoked by local governments; (v) Restrictions on foreigners to purchase residential properties in China; and (vi) Restrictions on off-shore institutional investors to invest in Chinese property market.

INDUSTRY OVERVIEW

2007 The State of Tax Administration issued a notice requiring local tax authorities to strictly enforce the collection of Land Appreciation Tax (“LAT”). Further requirements were stipulated in relation to the grant of loans with respect to the second and subsequent purchases of properties by individuals. The minimum down payment for non-first home buyers was increased from 30% to 40%, while the mortgage rate for non-first home buyers was increased from 85% to 110% of the standard interest rate.

2008 The State Council issued the *Notice on Promoting the Saving and Intensification of Use of Land* (國務院關於促進節約集約用地的通知). The notice requires that not less than 70% of any residential land development project must be used for developing low-cost rental units, small to medium sized units, low to medium cost units and units with a GFA of less than 90 sq.m. The notice also imposes an additional land premium surcharge on idle land.

The Ministry of Finance and the State Administration of Taxation of the PRC adjusted real estate related tax rates for individual property sale or purchase, including temporarily lowering the deed tax rate to 1% for individual purchase of first residential house with a GFA of no more than 90 sq.m., suspending land appreciation tax for sale of residential properties and suspending stamp duty for purchase or sale of residential properties.

On 20 December 2008, the State Council implemented several tax related policies, including shortening the business tax exemption term for the transfer of ordinary residential properties from five years to two years beginning the earlier of the date of issuance of building ownership certificates or the date of the deed tax payment receipt, and revising the basis for calculating the business tax by fixing it at the balance between the transfer price and the purchase price if the individual owner transfers the property within two years after purchase.

On 27 October 2008, in support of first time purchasers of ordinary residential properties, the PBOC adjusted the lower limit of the lending rate for residential properties of a commercial nature for individuals to 70% of the benchmark lending rate and adjusted the minimum down payment to 20% of the total purchase price. The PBOC also lowered the lending rate for real estate developers of low-rent housing to 90% of the bench mark lending rate.

SHANGHAI PROPERTY MARKET

Shanghai is the leading financial and commercial centre in China, as well as one of the fastest growing financial capitals in the world. In 2008, Shanghai had a population of 13.9 million, representing a CAGR of 0.6% from 2000 to 2008.

As one of the most prosperous cities in China and the economic bellweather in the Yangtze River Delta Region, Shanghai maintained double-digit GDP growth from 1992 to 2007. However, due to the global financial crisis, real GDP growth in Shanghai declined to 9.7% in 2008 and 3.1% in the first quarter of 2009. Total GDP reached RMB1,370 billion in 2008 and GDP per capita still ranked first amongst all the provinces and municipalities in China.

INDUSTRY OVERVIEW

The table below sets out selected economic indicators of Shanghai between 2000 and 2008:

Economic Indicators of Shanghai (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Source: Shanghai Statistics Bureau

Note: N/A refers to not applicable.

A large number of foreign companies and investors have entered the Shanghai market because of its rapid economic growth and prominent leading position as a financial centre in China. FDI in Shanghai grew rapidly with a CAGR of 15.5% from US\$3.2 billion in 2000 to US\$10.1 billion in 2008. Although the global financial crisis has depressed foreign investment by large multinational companies and individuals, FDI in Shanghai in the first four months of 2009 grew by 3.0% on a year-on-year basis.

Per capita disposable income in Shanghai has increased steadily over the past few years. In 2000, the per capita disposable income was RMB11,718, rising to RMB26,675 in 2008, representing a CAGR of 10.8%. In addition, retail sales of consumer goods in Shanghai reached RMB453.7 billion in 2008, representing a CAGR of 11.8% since 2000. In the first four months of 2009, sales revenues continued to grow by 14.0% compared with the same period in 2008.

Shanghai is expected to continue strong economic growth, benefitting from its open investment environment and well developed social welfare systems. The Shanghai World Expo in 2010 will also enhance Shanghai’s reputation in the world, promote the development of its international exhibition and conference industry and drive the growth of its tertiary industry. In the long term, the Shanghai economy will be further spurred by the central government’s policies issued in April 2009 to develop Shanghai into an international financial and shipping centre and to enhance the development of its service and advanced manufacturing industries.

INDUSTRY OVERVIEW

Infrastructure Developments

To further improve living conditions and prepare for the 2010 Shanghai World Expo, the Shanghai government increased its infrastructure investment in recent years. Government investment in Shanghai reached RMB173.3 billion in 2008, representing an increase of 18.2% over 2007. The key planned infrastructure developments in Shanghai in the next few years include:

- 6 metro lines and light railways to be completed in Shanghai by 2012;
- The Shanghai-Beijing Express Railway scheduled to be completed in 2013; and
- Various infrastructure projects serviced for the Shanghai World Expo, including roads, ports and parks construction.

Real Estate Investment in Shanghai

Real estate investment in Shanghai grew steadily between 2000 and 2008 at a CAGR of 11.7%. It surged in 2004 at an increased rate of 30.4% compared to 2003 and then maintained a stable rate of growth from 2004 to 2008, reaching RMB136.7 billion in 2008.

The GFA of completed commodity properties peaked in 2005. Given the impact of government austerity measures on the real estate market, property developments and transactions slowed down slightly in 2005 and 2006. In 2007, the GFA of commodity properties sold picked up and recorded a new high of 36.9 million sq.m. However, the global financial crisis hampered the near term growth of Shanghai's economy and property market, resulting in a decline of volume sold to 23.0 million sq.m. in 2008.

In 2008, 17.6 million sq.m. and 19.7 million sq.m. of residential GFA were completed and sold respectively, representing a decline of 36.0% and 40.0% compared to that in 2007. Developers slowed down the construction of projects in light of the cooling property market, resulting in a continuous decrease of supply in 2008 and the first four months of 2009. However, on the demand front, the market gradually warmed up and this contributed to a slight increase of the volume of properties sold from January to April of 2009.

Property prices in Shanghai maintained robust growth since 2000 with a CAGR of more than 11%, except for a slight decline in 2008. The price of commodity and residential properties averaged at RMB8,255 per sq.m. and RMB8,182 per sq.m. respectively in 2008.

INDUSTRY OVERVIEW

The table below sets out selected property market indicators of Shanghai between 2000 and 2008:

Property Market Indicators of Shanghai (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Source: Shanghai Statistics Bureau

Mid to Upper-end Residential Market in Shanghai

Shanghai's mid to upper-end residential properties mainly concentrate in the ten urban districts with well-developed ancillary facilities.

Demand for mid to upper-end residential properties in Shanghai comes mainly from end-users. In addition, Shanghai is an international metropolis and its property market is gradually maturing. Hence, investment demand for residential properties is expected to account for a steadily growing proportion despite certain government policies or the global financial crisis. Demand will be further driven by:

- Improving city infrastructure and social environment including economy, politics and culture;
- Increasing income of the emerging middle class and the enlargement of wealthy groups; and
- Growing number of expatriates and migrants as a result of the growth of Multinational Companies (MNCs) and business activities in Shanghai.

It is expected that average price of mid to upper-end residential properties may grow steadily in the coming years, due to increasing income of residents and the active leasing market as a result of steady inflow of expatriates as well as the inflow of tourists during the Shanghai World Expo.

INDUSTRY OVERVIEW

Mid to upper-end Retail Market in Shanghai

Shopping centres and department stores are the major retail properties in Shanghai. Retail spaces are mainly located in the six central areas, namely West Nanjing Road in the Jing'an District, East Nanjing Road in the Huangpu District, Huaihai Road in the Luwan District, Xujiahui in the Xuhui District, Zhongshan Park in the Changning District, Lujiazui in the Pudong District, and emerging commercial centres such as the Wujiaochang Area in the Yangpu District and Daning International Area in the Zhabei District. With limited land supply in the central areas, mid to upper-end retail properties will see strong demand in the long term.

As retail properties are typically considered as a long-term investment asset the majority of units within shopping centres and department stores are only for lease.

Given the growing number of wealthy residents and expatriates, and increasing investment from foreign retailers, demand for mid to upper-end retail spaces is likely to grow strongly. Retail sales in Shanghai grew at a CAGR of 11.8% from RMB186.5 billion in 2000 to RMB 453.7 billion in 2008, and the growth rate has gradually increased during this period. Although vacancies at mid to upper-end retail facilities increased slightly in the first four months of 2009 mainly because of the renovation of several retail projects in central areas, rentals still continued their upward trend compared with the same period of 2008.

Shanghai Five-star Hotel Market

Demand for five-star hotels in Shanghai will be further boosted by the growing number of domestic and international visitors to Shanghai, together with large scale business events and the upward economic trend. Since 2000, the number of international visitors has grown at a CAGR of 17.1%, reaching 6.4 million in 2008. Shanghai has become a key destination for conventions and exhibitions in Asia, and its M.I.C.E. (meetings, incentives, conferences and exhibitions) industry has been developing rapidly in recent years.

Shanghai has been ranked amongst the cities with the highest room rate for five-star hotels in mainland China. The average daily room rate (ADR) of five-star hotels in Shanghai increased at a CAGR of 12.2% from RMB888 in 2002 to RMB1,406 in 2006 according to Shanghai Statistics Bureau. However, the ADR declined to RMB1,336 in 2007 and RMB1,233 in 2008 mainly due to the larger supply of hotels in recent years.

TIANJIN PROPERTY MARKET

Tianjin is one of the most important industrial cities in Northern China, which is located to the southeast of Beijing. It is also an international transportation hub with superior port facilities and is one of two major cities in the Bohai Rim Economic Zone. Tianjin covers an area of 11,760 sq.km. and its population was 9.7 million in 2008.

Tianjin has maintained rapid GDP growth since 2003 with real GDP growth rate higher than 14.0% from 2003 to 2008. Its GDP output reached RMB635.4 billion in 2008. In the first quarter of 2009, real GDP growth in Tianjin reached 16% compared with the national growth rate of 6.1%.

INDUSTRY OVERVIEW

Disposable income per urban resident in Tianjin has increased steadily over the past eight years. In 2000, per capita disposable income was RMB8,141, rising to RMB19,423 in 2008, representing a CAGR of 11.5% during the period.

The table below sets out selected economic indicators of Tianjin between 2000 and 2008:

Economic Indicators of Tianjin (2000-2008)

Infrastructure Developments

In order to implement its development plan both in the city area and the Bohai Rim Economic Zone, the Tianjin government has increased investment in infrastructure developments. Some of the key projects in the next three years include:

- The third Jing-Jin-Tang Expressway linking Beijing, Tianjin and Tanggu of Tianjin to be constructed in 2009;
- The Jin-Qin Express Railway linking Tianjin and Qinhuangdao is under construction;
- The Jing-Hu Express Railway linking Beijing, Tianjin and Shanghai is under construction;
- The Chengde-Tianjin Expressway is under construction;
- Extension Project Phase Two of Tianjin Binhai International Airport to be completed in 2012; and
- Metro Lines 2 and 3 to be completed by 2010.

INDUSTRY OVERVIEW

Real Estate Investment in Tianjin

Real estate investment in Tianjin increased steadily from RMB13.4 billion in 2000 to RMB65.4 billion in 2008, representing a CAGR of 21.9%.

The GFA of commodity properties completed and sold in Tianjin rapidly grew at CAGR of 20.4% and 15.7% respectively from 2000 to 2008. Completion and transaction volumes in terms of GFA surged in 2005 mainly due to the implementation of the city redevelopment plans and the plan of the Binhai New Area. In 2008, the GFA of commodity properties completed increased by 50.6% mainly due to a large number of developers outside Tianjin entering the market since 2005. In addition, commercial properties (mainly including office and retail properties) completed accounted for an increasing percentage, 41.0% of the commodity properties completed in 2008.

The average selling price of commodity properties in Tianjin increased rapidly at a CAGR of 12.6% between 2000 and 2008. Since 2004, the price has increased significantly and recorded a new high of RMB6,015 per sq.m. in 2008, representing a growth rate of 3.5% compared with 2007.

The table below sets out selected property market indicators of Tianjin between 2000 and 2008:

Property Market Indicators of Tianjin (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

INDUSTRY OVERVIEW

Mid to upper-end Residential Market in Tianjin

The mid to upper-end residential developments are mainly situated in urban areas, such as Hexi, Nankai, Hedong districts, and Tianjin Economic and Technological Development Area of Binhai New Area. Given the plan of development eastward in Tianjin, Hedong is expected to witness a rapid development in the mid to upper-end residential market due to its well developed transportation network between the traditional urban area and Binhai New Area.

Binhai New Area is expected to be booming for mid to upper-end residential developments in the coming years. Driven by the robust growth potential, a great number of foreign companies and high-income expatriates as well as migrant workers will swarm into Tianjin, especially Binhai New Area. According to the “Eleventh Five Year Plan for Tianjin Economic and Social Development (天津市國民經濟和社會發展第十一個五年規劃)”, the population in Binhai is expected to reach 1.8 million in 2010 and 3.0 million in 2020. Thus, the demand for mid to upper-end residential properties in this area will be expected to steadily increase.

The affordability of mid to upper-end residential properties in Tianjin will be further improved by strong economic growth. Influenced by the integrated development strategy of Beijing, Tianjin and Hebei Province and the Beijing-Tianjin Express Railway commissioned in 2008, more investors are attracted into the property market of Tianjin, resulting in growth of investment demand for mid to upper-end residential properties.

As more developers enter the market and introduce new products, such as well-furnished housing and professional property management services, it will enhance the quality of mid to upper-end residential properties and will stimulate growth in property prices.

Tianjin Five-star Hotel Market

Strong demand for five-star hotel accommodation is expected as Tianjin is an international harbor city and the economic centre of Northern China. It attracts an increasing number of international and domestic companies along with business and social-economic activities. According to the Tianjin Statistics Bureau, between 2000 and 2008, the number of international visitors grew at a CAGR of 19.2% and international tourism revenue increased at a CAGR of 23.2%.

The average daily room rate of five-star hotels in Tianjin increased steadily in recent years. From 2010 to 2012, because of the increasing new supply, the average occupancy rate is expected to decline slightly but the average room rate is expected to increase due to the participation and entry of a larger number of international branded hotels in the market, which provide higher quality services and charge higher room rates.

BEIJING PROPERTY MARKET

After successfully hosting the 2008 Olympic Games, Beijing captured the world’s attention with its rapidly improving social and economic surroundings.

INDUSTRY OVERVIEW

At the end of 2008, Beijing covered an area of 16,411 sq.km. and had a population of 12.3 million, which has grown at a CAGR of 1.3% from 2000 to 2008. It has also maintained strong growth in its economy since 2000 with Nominal GDP growing from RMB316 billion in 2000 to RMB1,049 billion in 2008, representing a CAGR of 16.2%. In addition, its GDP per capita grew at a CAGR of 12.8% from 2000 to 2008 and reached RMB63,029 in 2008, making it the second highest amongst the Chinese provinces and municipalities after Shanghai.

Beijing maintained a rapid GDP growth rate of 11.9% per annum between 2000 and 2008. As a result of the slowdown in the Chinese and global economies in 2008, Beijing’s real GDP growth rate decreased to 9.0% in 2008, which is in line with the national level.

The table below sets out selected economic indicators of Beijing between 2000 and 2008:

Economic Indicators of Beijing (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Source: Beijing Statistics Bureau

Note: N/A refers to not applicable.

Infrastructure Developments

The Beijing government has invested a substantial amount in the city’s infrastructure in recent years. To further enhance the city’s development, the following infrastructure projects are expected:

- The new Subway Line 4 to be commissioned in September 2009;
- Five new subway lines including Daxing Line, Yizhuang Line, Phase I of Changping Line, Fangshan Line and Phase I of Line 15 which are scheduled to completed in 2010;
- Four new subway lines including nos 6, 8, 9 and Phase II of Line 10 scheduled to be completed by 2012; and

INDUSTRY OVERVIEW

- The Beijing-Shanghai Express Railway commenced in 2008 and scheduled to be completed in 2013.

Real Estate Investment in Beijing

Real estate investment in Beijing increased from RMB52.2 billion in 2000 to RMB199.6 billion in 2007, representing a CAGR of 21.1%. Real estate investment in 2008 decreased by 4.4% to RMB190.9 billion in 2008.

GFA completed and sold for commodity properties in Beijing grew at a CAGR of 22.4% and 23.9% respectively from 2000 to 2005. With the central government's introduction of austerity measures and tighter control on bank lending activities after 2005, both completed area and sold area of commercial property decreased rapidly to 25.6 million sq.m. and 13.4 million sq.m. respectively in 2008. This is worsened due to the adverse impact of the economic downturn.

Property prices showed growth of over 20% in 2005 and 2006 but started to slow down in 2007 and 2008. In recent years, affordable housing investment was strengthened by the government policies with increasing relevant supply. This is expected to contribute to stabilising residential prices.

The table below sets out selected property market indicators of Beijing between 2000 and 2008:

Property Market Indicators of Beijing (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Note: N/A refers to not available.

INDUSTRY OVERVIEW

Mid to Upper-end Residential Market in Beijing

Mid to upper-end residential properties in Beijing are mainly concentrated within the 5th Ring Road. Due to the limited land supply in the urban areas and increasing demand for residential properties, new mid to upper-end residential properties in Beijing are expected to move toward suburban areas and their prices will be supported by the improving subway transportation system in the coming years.

Increasing disposable income is the key driver for the mid to upper-end residential market in Beijing. Economic growth and the growing population in Beijing will also provide strong support for its residential market. The annual growth rate of the permanent population in Beijing averaged at 2.8% from 2000 to 2008. In addition, corporates that set up offices in Beijing will create employment also help to create new demand for mid to upper-end residential properties in the future.

Beijing’s real estate market is largely influenced by the government macro adjustment measures. Since the second half of 2008, the Chinese government has eased the macro economic policies, including lowering the lending cost for five times and relaxing restrictions for foreign investment in real estate market. In addition, developers are adjusting their operations to capture sustainable demand. It is expected that the mid to upper-end residential property market will steadily increase in the long run.

WUXI PROPERTY MARKET

Wuxi is a well-known tourist destination in China and is one of the economic hubs in the Yangtze River Delta Region. It is located in the southern part of Jiangsu Province with Shanghai to its east and Nanjing to its west. In 2008, it had a population of 4.6 million.

The GDP of Wuxi has maintained double-digit growth for more than ten years and has reached RMB442.0 billion in 2008.

The table below sets out selected economic indicators of Wuxi between 2000 and 2008:

Economic Indicators of Wuxi (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Source: Wuxi Statistics Bureau

Note: N/A refers to not applicable.

INDUSTRY OVERVIEW

Fixed asset investments in Wuxi grew at a CAGR of 23.4% from 2000 to 2008, and reached RMB187.7 billion in 2008. There are also a number of planned infrastructure projects in Wuxi in the next few years such as the expansion of the current airport into an international airport.

Real Estate Investment in Wuxi

Real estate investment in Wuxi grew rapidly at a CAGR of 33.4% between 2000 and 2008, reaching RMB45.0 billion in 2008.

The commodity property market in Wuxi has developed rapidly since 2000. Annual growth in the GFA of commodity and residential properties completed both reached 14.5% from 2000 to 2008. However, GFA sold for commodity properties decreased by approximately 29.9% from 7.7 million sq.m. in 2007 to 5.4 million sq.m in 2008. Average price however continued to increase during the period. Average price of commodity properties grew at CAGR of 15.3%, reaching RMB5,375 per sq.m in 2008.

The table below sets out selected property market indicators of Wuxi between 2000 and 2008:

Property Market Indicators of Wuxi (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

INDUSTRY OVERVIEW

Mid to Upper-end Residential Market in Wuxi

Mid to upper-end residential properties in Wuxi are scattered in three areas, namely Sub-central Area (including Nanchang (南川區), Beitang (北塘區) and Chong’an District (崇安區)), Binhu District (濱湖區) and the New District (新區). The Sub-central Area is close to the city downtown area, Binhu District has a pleasant environment and Wuxi New District has a national Economic Development Zone with a large number of enterprises established there.

Supply of mid to upper-end residential properties will slightly decrease in the coming two years due to limited land supply since 2007. Binhu District and Wuxi New District are expected to be the two prime areas for mid to upper-end residential property developments as developers and purchasers are attracted to the pleasant scenery in Binhu and the active strong leasing market in the New District.

Demand for mid to upper-end residential properties in Wuxi is underpinned by local wealthy residents and an influx of foreign talent. With the rapid increase in disposable income, demand for larger and newer apartments in Wuxi is increasing. Besides, Wuxi is a key manufacturing base for the Yangtze River Delta Region. According to the Wuxi Government, at the end of July 2007, 76 of the Fortune Global 500 Companies such as General Electric, Toyota Motor and Matsushita Electric had invested in Wuxi.

Wuxi Five-star Hotel Market

As one of the most popular tourism centres in China, Wuxi has attracted a growing number of domestic and overseas visitors. Total number of visitors has grown at a CAGR of 15.9%, from 11.5 million in 2000 to 37.5 million in 2008.

International tourists and business travelers are the main source of guests for five-star hotels. The five-star hotel market in Wuxi was prosperous in the past few years due to rapid economic growth and limited room supply. In 2008, the average daily room rate and occupancy rates of five-star hotels fell slightly as a result of the global economic crisis, with the number of international tourists declining by 14.5% in 2008.

SUZHOU PROPERTY MARKET

Suzhou, a well-known tourism and cultural city in China, is located in the south of Jiangsu Province and to the north of Shanghai. It covers a land area of 8,488 sq.km. with a registered population of 6.3 million in 2008.

GDP of Suzhou reached RMB670.1 billion in 2008, ranking 2nd among cities in the Yangtze River Delta Region. Its real GDP growth rate averaged at 14.9% from 2000 to 2008. GDP per capita increased at a rapid growth rate with a CAGR of 18.9% between 2000 and 2008.

INDUSTRY OVERVIEW

The table below sets out selected economic indicators of Suzhou between 2000 and 2008:

Economic Indicators of Suzhou (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Real Estate Investment in Suzhou

Development of the real estate market in Suzhou has been largely supported by its attractive tourism environment and strong economy. Total GFA completed and sold for commodity properties in Suzhou kept increasing from 2000 to 2007, reaching 18.7 million sq.m. and 19.1 million sq.m. respectively in 2007. However, the slow down in China's economic growth has negatively impacted on the economic growth and property market in Suzhou. Commodity properties GFA sold in 2008 decreased dramatically by 47.1%.

The average price of commodity properties has maintained an increasing trend since 2000, reaching RMB5,692 per sq.m. in 2008. However, the growth rate has continuously slowed down since 2004.

INDUSTRY OVERVIEW

The table below sets out selected property market indicators of Suzhou between 2000 and 2008:

Property Market Indicators of Suzhou (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Source: Suzhou Statistics Bureau

Suzhou Residential Market

GFA of residential properties sold in Suzhou recorded a historical high in 2007 with 16.5 million sq.m. However, the volume in 2008 dropped significantly by 49.7% to approximately 8.3 million sq.m.

To stimulate the property market, the Suzhou government published some stimulus measures in October 2008 mainly including granting residents permits (“Hukou”), reducing transaction taxes and relaxing the payment term for developers’ purchase of land. Such measures have helped to increase liquidity of the second-hand property market.

Average price of residential properties in Suzhou grew at a CAGR of 16.2% from 2000 to 2008, reaching RMB5,533 per sq.m. in 2008. Property price increased rapidly in 2005 and 2006 on the back of the strong demand driven by robust economic growth, but such growth has slowed down gradually in the past two years. The anticipated economic growth in Suzhou and the government stimulus measures are expected to drive demand and price level of the residential properties in the coming years.

INDUSTRY OVERVIEW

NANTONG PROPERTY MARKET

Nantong is located in Jiangsu Province and to the northwest of Shanghai. It has a population of 7.6 million and is one of the most populous cities in Jiangsu Province. Its key economic drivers are manufacturing and port-related industries.

Nantong has experienced rapid economic growth, with the real GDP growth expanded from 10.9% in 2000 to 13.3% in 2008. Despite the GDP growth rate declining to 13.3% in 2008 from 16.2% in 2007, it was still 0.8% higher than the average for Jiangsu Province. GDP for Nantong reached RMB251.0 billion in 2008.

Given the rapid economic growth in Nantong, disposable income of urban residents also increased accordingly and reached RMB18,903 in 2008 with a growth rate of 14.9% compared to 2007. In addition, the Nantong government has increased much effort to attract investment in recent years. Utilised Foreign Investment grew rapidly between 2000 and 2008 at a CAGR of 45.4%, amounting to US\$2.9 billion in 2008.

The table below sets out selected economic indicators of Nantong from 2000 to 2008:

Economic Indicators of Nantong (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Infrastructure Developments

As one of the major cities in the Yangtze River Delta Region, key infrastructure projects in Nantong are planned for the next few years to further improve the transportation network, including:

- A railway from Nantong to Qidong to be constructed before 2010; and
- A railway from Nantong to Shanghai to be constructed before 2010.

INDUSTRY OVERVIEW

Real Estate Investment in Nantong

Real estate investment in Nantong grew strongly at a CAGR of 26.7% between 2000 and 2008 and reached RMB17.3 billion in 2008, representing an increase of 26.3% compared to 2007.

The GFA of commodity properties completed in 2008 was 5.2 million sq.m., in which 4.4 million sq.m. was constituted by residential properties. The GFA of commodity properties and residential properties sold in Nantong steadily increased between 2000 and 2007, reaching 5.2 million sq.m and 4.7 million sq.m in 2007, respectively. In 2008, the GFA of residential properties sold started to decrease by about 19.1% compared to 2007.

Average price of commodity properties has grown rapidly between 2000 and 2007, but it dropped by 9.1% to RMB3,247 per sq.m. in 2008. Average price for residential properties also dropped by 9.5% to RMB3,010 per sq.m. during the same year.

The table below sets out selected property market indicators of Nantong between 2000 and 2008:

Property Market Indicators of Nantong (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

INDUSTRY OVERVIEW

Mid to Upper-end Residential Market in Nantong

Mid to upper-end residential properties in Nantong are concentrated mainly in the Chongchuan District (崇川區), including both the traditional and the new areas. The new area of Chongchuan District is a planned cultural, political and commercial centre in Nantong. Due to the limited land supply for mid to upper-end residential properties in 2007 and 2008, the properties completed in urban areas is expected to decrease in the coming years.

Demand for mid to upper-end residential properties in Nantong will be underpinned by its increasing per capita disposable income as a result of industrial development. Nantong has a national economic development zone subject to various preferential policies. This could attract more domestic enterprises and multi-national corporations as the transportation network improves, such as Suzhou (Changshu)-Nantong Bridge and Shanghai-Nantong railway.

With the development of Yangkou Port, Nantong is well-positioned to be a top ship building base in Asia and a developed manufacturing base in the Yangtze River Delta Region according to the "Eleventh Five Year Plan for Nantong Economic and Social Development (南通市國民經濟和社會發展第十一個五年規劃)". It is expected that the demand for mid to upper-end residential properties will maintain steady growth in the coming years.

HEFEI PROPERTY MARKET

Hefei is the capital of Anhui Province. It is located in the central region of China between Yangtze and Huaihe Rivers and is close to the fast developing Yangtze River Delta Region. The city covers an area of 7,029 sq.km with 4.9 million registered population at the end of 2008. It possesses a strategically important location easily accessible from all directions of the country, and it connects the vast area of Central China.

Since its opening-up and reform, Hefei has enjoyed a constant state of economic and social development with two-digit rate GDP growth for more than 20 years. Its GDP reached RMB166.5 billion in 2008, and the real GDP growth rate was 17.2% which was only a slight decline from 2007 and 2008. In 2008, the total FDI in Hefei was US\$0.77 billion representing 11.5% decline compared to 2007, but given the higher base of FDI before 2007, the short term slow down should not change the trend for future increases.

INDUSTRY OVERVIEW

The selected economic statistics of Hefei for the period between 2000 and 2008 are set out in the following table:

Economic Indicators of Hefei (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Source: Hefei Statistics Bureau, Anhui Statistics Bureau

Note: N/A refers to not applicable.

Hefei is well-known for its scientific research resources and education institutions. More than 200 science and research institutes and almost 100 institutions of higher learning and technical colleges are located in Hefei. Two national-level development zones, Hefei Economy and Technology Development Area and Hefei Hi-tech Development Area, are situated in the south part of the city.

Infrastructure Developments and Urban Planning

With the help of the central government’s “Central China Rise” policy, the Hefei government blueprinted the “One-Four-One” scheme in 2005 for city development including redeveloping the downtown area, developing four sub-centres to the east, west, south and north of the core city respectively and developing Binhu New District near Chao Lake to the southeast of the city to further boost its economic growth and city development. In the following years, the following key scheme will be implemented:

- Urban renewal plan;
- Construction of the outer ring road and the highways between the city and its 3 counties;
- The development of Binhu New District, started in 2006, with a total area of 190 sq. km.; and
- New airport in Hefei, Xinqiao International Airport, planned for completion by 2010.

INDUSTRY OVERVIEW

Real Estate Investment in Hefei

Real estate investment in Hefei has grown strongly since 2000. The total real estate investment reached RMB56.5 billion at the end of 2008, which was more than 24.6 times greater than that of 2000. More investments were pumped into the real estate market, especially after the city redevelopment launched in 2005, the annual net increase was around RMB10 billion which was twice as much as previous years.

The commodity property market in Hefei has grown rapidly since 2000. GFA of completed commodity property increased at 25.8% CAGR from 2000 to 2007. Meanwhile, the demand of commodity property has also grown robustly, resulting in the take-up ratio to increase to 115.7% in 2005, 120.8% in 2006, and 171.7% in 2007. Such strong demand has also provide support to property price.

In 2007, the average price of commodity properties in Hefei was RMB3,326 per sq.m. which was lower than the national average. Its CAGR was 8.4% that was generally consistent with the national level from 2000 to 2007.

The table below sets out selected property market indicators of Hefei between 2000 and 2008:

Property Market Indicators of Hefei (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

INDUSTRY OVERVIEW

Mid to Upper-end Residential Market in Hefei

The residential properties in Hefei are decentralised in its eight urban districts. The mid and upper-end residential developments clustered mainly in the Baohe and Shushan Districts where there is a better natural environment and more high income population.

The demand for mid to upper-end residential properties in Hefei has been primarily underpinned by end-users and will be further driven by its economic growth and improved infrastructure as a result of the implementation of government’s “One-Four-One” scheme and “Central China Rise” policies in the following years.

The dynamic economic growth in Hefei has attracted more people moving to Hefei and speed up the urbanisation. According to the “Eleventh Five Year Plan for Hefei Economic and Social Development (合肥市經濟和社會發展第十一個五年規劃)”, the urbanisation rate is expected to reach 60% in 2010. With the enlarged urban population and limited land resources, it is estimated that price level mid to upper-end residential properties will continue to growth.

Prime Retail Market in Hefei

The prime retail market in Hefei includes department stores and shopping centres. Most of the well-known department stores and shopping centres are located in its traditional retail area along Changjiang Zhong Road of Luyang District. The traditional retail area is being redeveloped and will function as the city’s retail centre. Two new retail areas will be developed in the east and west to radiate the city periphery and the neighboring cities by providing more convenient accessibility.

Growing disposable income provided strong support to the development of local retail market. The disposable income per urban resident in Hefei increased at a CAGR of 11.8% from 2000 to 2008 and the retail sales reached RMB58.8 billion in 2008 with an eight year CAGR of 18.8%. Meanwhile, as a regional transportation hub and gateway between the eastern and western part of China, Hefei is taking its geographical advantage to further strengthen its economic development, which is expected to create more opportunities for its prime retail market.

Most of the prime retail properties are for lease only, which are quoted either as fixed rentals or as a percentage of turnovers. Given the growing spending power, some industry leading domestic and international retailers such as Beijing Hualian, Wal-mart and Carrefour had already established presence in Hefei, and more large retailers are planning to come. According to the government website, Tesco and RT-Mart will invest RMB307 million and RMB 400 million respectively to set up their supermarkets along Tongling Road in Yaohai District. The two multinational retailers will open their businesses at the end of 2010 and 2011. The entry of those large players could create strong demand for retail properties and produce opportunities for a series of related businesses.

INDUSTRY OVERVIEW

SHENYANG PROPERTY MARKET

Shenyang is the capital of Liaoning Province. It is a transportation hub of Northeast China and serves as the communication, commerce, science and culture centre in Northeast China. Shenyang covers an area of 12,980 sq.km. and it had a population of 7.8 million at the end of 2008.

As a nationally renowned heavy industrial base, Shenyang has experienced strong economic growth in recent years as a result of the central government policy of “Revitalising Northeast China”. GDP amount, disposable income per urban resident and retail sales of consumer goods kept a rapid growth in the recent four years.

The table below sets out selected economic indicators of Shenyang between 2000 and 2008:

Economic Indicators of Shenyang (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Infrastructure Developments

To improve city development, the Shenyang government initiated the following schemes:

- Metro Lines 1 and 2 to be completed in 2010;
- Construction of the Central Urban Corridor (“CUC”), stretching from north to south with the central axis integrating business, service, governmental affairs and cultural facilities; and
- Hunnan New Area, to be developed into one of the national top-ten high-tech industry areas.

INDUSTRY OVERVIEW

Real Estate Investment in Shenyang

Real estate investment in Shenyang grew rapidly at a CAGR of 41.2% from 2000 to 2008 and reached RMB101.1 billion in 2008, accounting for 33.6% of the fixed asset investment.

The real estate market in Shenyang has steadily grown from 2000 to 2008. Commodity properties with a total GFA of 12.9 million were completed in Shenyang in 2008, representing a CAGR of 17.7% since 2000. The GFA of commodity property sold achieved 14.7 million sq.m. in 2008 with a CAGR of 27.5% from 2000. The average price increased from RMB2,686 per sq.m. in 2000 to RMB4,127 per sq.m. in 2008 with a CAGR of 5.5%. The price growth in 2007 and 2008 has speeded up compared with the previous years with an annual growth rate averaging 10.6%. In early 2009, the Shenyang government promulgated “25 policies to stimulate Shenyang real estate market” and the property transactions in the first quarter showed a sound growth.

The table below sets out selected property market indicators of Shenyang between 2000 and 2008:

Property market indicators of Shenyang (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

Mid to Upper-end Residential Market in Shenyang

Mid to upper-end residential developments in Shenyang are distributed mainly in the urban districts.

The mid to upper-end residential market is underpinned by growing demand of owner-occupiers from local and periphery cities. For local residents, wealthy people are pursuing higher quality properties for relocation purpose as a result of the urban redevelopment. Increasingly improved traffic facilities will further stimulate this demand.

INDUSTRY OVERVIEW

Demand for mid to upper-end residential properties is expected to be spurred after the completion of Liaoning Central Ring Road in 2010, connecting six cities around Shenyang, including Tieling, Fushun, Benxi, Liaoyang, Liaozhong and Xinmin in 2010. The whole region will be integrated by convenient transportation links that could help to further fuel regional economic development and increase population mobility. As a core city in the area, Shenyang will be able to attract more investment and higher income human resources that will directly benefit the mid to upper-end residential market.

With economic growth, the price of mid to upper-end residential properties will continue to grow steadily as a result of increasingly developed infrastructure, including construction of Metro Lines, construction of Shenyang CBD and redevelopment of old Tiexi industrial area.

HARBIN PROPERTY MARKET

As the capital of Heilongjiang Province, Harbin is well-known for its trade with Russia and characteristic tourist attractions, such as the ice-snow festival and ice & snow sport activities. It covers an area of 53,100 sq.km. with a population of 9.9 million, ranking second among the capital cities of provinces in China.

From 2000 to 2008, Harbin experienced rapid economic growth with real GDP growth rate of more than 13% since 2003. In 2008, the GDP amounted to RMB286.8 billion.

Along with strong economic growth, the disposable income of urban residents steadily increased in recent years at a CAGR of 12.6% from RMB5,632 in 2000 to RMB14,589 in 2008, up 1.6 times in nine years.

The table below sets out selected economic statistics of Harbin between 2000 and 2008:

Economic Indicators of Harbin (2000-2008)

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2000-2008 CAGR

INDUSTRY OVERVIEW

Infrastructure Developments

To further improve the city infrastructure, the Harbin government initiated the following schemes:

- Qunli New Area in the west Harbin, to be constructed as a new finance and ecological residential area;
- Daowai 20th Avenue Bridge, connecting Songbei District and central districts of Harbin across Songhua River, expected to be complete in 2010; and
- Phase I of Harbin subway to be completed in 2012.

Real Estate Investment in Harbin

GFA of commodity properties completed and sold in Harbin peaked in 2007, reaching 7 million sq.m. and 7.5 million sq.m. respectively. However, GFA completed and sold decreased by 32.9% and 21.3% respectively in 2008.

From 2000 to 2007, GFA of residential properties completed and sold continually increased with a CAGR of 5.7% and 16.5% respectively. However in 2008, they both dropped more than 20% compare to 2007. The demand of residential properties in Harbin was strong, with the take-up ratio from 2003 to 2008 maintaining higher than 100%, resulting in continuous growth of average residential price during those years.

The table below sets out selected property market statistics of Harbin between 2000 and 2008:

Property Market Indicators of Harbin (2000-2008)

INDUSTRY OVERVIEW

Harbin government announced new measures to “promote stable and healthy development of the real estate industry” in February 2009. These measures aim to stimulate consumption and investment in the real estate market, and are expected to have a positive impact on property market development, especially for residential market in Harbin. Such measures include tax reduction and exemption, favourable loan policies to consumers and some supporting policies to developers.

Mid to Upper-end Residential Market in Harbin

The mid to upper-end residential developments in Harbin are largely concentrated in core urban districts. Nangang District and Daoli District are the top two areas in terms of supply. Positioned as a financial CBD and ecological residential area, Qunli New Area will be an emerging area for mid to upper-end residential supply in the coming years.

In addition, Songbei District will be a major area for mid to upper-end residential development as it has become the municipal administrative centre following the relocation of the Harbin government to Songbei District in 2005. With the improved transportation between traditional downtown areas and Songbei, the residential development in Songbei is expected to boom, particularly in the mid to upper-end sector.

The demand for mid to upper-end residential property in Harbin has been bigger than supply in recent years. This is especially true within the 2nd Ring Road because of its proximity to city centre and the limited land available for development.

A continuous increase in disposable income resulting from economic growth in Harbin will be the key driver of growth for the mid to upper-end residential sector. The economic growth in Harbin is expected to be fueled by the central government policy of “Revitalisation Northeast China” in the coming years. The Harbin government is determined to develop electro-machinery manufacturing and improve trade with Russia according to the “Eleventh Five Year Plan for Harbin Economic and Social Development (哈爾濱市國民經濟和社會發展第十一個五年規劃)”.

HISTORY, REORGANISATION AND GROUP STRUCTURE

General

We were incorporated in the Cayman Islands on 27 July 2007, and as a part of the Reorganisation, became the ultimate holding company of our various subsidiaries. As of the date of this document, we are 99.3% indirectly owned by the Founder through his wholly-owned company, Best Era, and 0.3878% directly owned by DESCIA, 0.2072% owned by affiliates of Goldman Sachs, 0.091% owned by Euro Crown Limited and 0.014% owned by DB. Through certain holding companies and wholly foreign owned enterprises, we own 100% of our PRC operating subsidiaries. Our operating subsidiaries principally engage in property development operations in the PRC.

History and development

In 1996, the Founder founded our Group. He, together with our key management, namely Mr. Yan Zhi Rong (an executive Director) and Mr. Fang Shi Min (a member of senior management) commenced our real estate business in Shanghai with our first development project, Sunshine Greenland in Xuhui District, Shanghai. We subsequently began developing properties the Tianjin in 2003 with the Sunshine Holiday project. Since the commencement of our property development business, we completed development of 20 projects/phases in Shanghai, Tianjin, Wuxi, Shenyang and Suzhou, with approximately 2.8 million sq.m. of total GFA sold and delivered. As of 31 July 2009, we had 19 projects in various phases of development in Shanghai, Tianjin, Beijing, Wuxi, Suzhou, Nantong, Hefei, Shenyang and Harbin, which include residential, retail, offices and hotel properties.

We have received a number of awards for our projects. Our residential development project, Sunshine Holiday in Tianjin, was awarded the China Real Estate Gold Housing Award in 2006 and the Award for Best Sales Property in Tianjin in 2005. Another residential development project, No. 1 City Promotion in Wuxi, was designated by the Friends of the United Nations (聯合國友好理事會) and United Nations Human Settlement Programme (聯合國人居署) as an “International Culture Community” and recognised as one of the Top 10 Famous Properties in the PRC in 2007. For further details of our recent awards, please refer to the section headed “Business — Competitive Strengths — Innovative Product Design”.

Significant milestones in our history are set out below:

January 1996.....	Development commenced for our first property project in Shanghai, Sunshine Greenland
May 1998	Development commenced for our second property project in Shanghai, Sunshine Villa
June 2001	Development commenced for Sunshine Venice in Shanghai
May 2003	Development commenced for our first property project in Tianjin, Sunshine Holiday

HISTORY, REORGANISATION AND GROUP STRUCTURE

September 2004	Development commenced for our first property project in Wuxi, No. 1 City Promotion
March 2005.....	Development commenced for our first property project in Suzhou, Classical Life
June 2005	Development commenced for our first property project in Shenyang, Sunny Town
June 2007	Completion of acquisition of regional companies by our wholly-owned foreign enterprises and acquisition of project companies by our regional companies in the PRC
July 2007.....	Our Company was incorporated in the Cayman Islands as a limited liability company
October 2007	DESCIA, certain affiliates of Goldman Sachs and DB became shareholders of our Company
January 2008.....	Our Company was awarded Property Company of the Year 2007 with Remarkable Contributions to the Urban Development of Shanghai, China by the Organising Committee of Zhuyu Dichan Grand Ceremony (主語地產盛典組委會)
March 2009.....	Development commenced for our first property project in Hefei, Hefei Villa Glorious
July 2009.....	Development commenced for our first property project in Harbin, Harbin Villa Glorious

Corporate Reorganisation

In 2007, our Group commenced the Reorganisation, which consisted of the following steps:

(a) *Establishment/Acquisition of BVI and Hong Kong companies to acquire interests of wholly foreign owned enterprises*

The BVI Subsidiaries, namely Allied Honest, East Harbour, Vieward Group, Regal World and Grand Target were incorporated. The BVI Subsidiaries are wholly-owned by Bright New, a BVI company established by Best Era.

The HK Subsidiaries, namely Rich Tech, Extreme Asia, Venture Group, Worldex Investment and Cheston Holdings were incorporated. The HK Subsidiaries are wholly-owned by the above stated BVI Subsidiaries, respectively.

HISTORY, REORGANISATION AND GROUP STRUCTURE

The HK Subsidiaries acquired all the interest in the registered capital of the wholly foreign owned enterprises from their respective then existing shareholders, all of whom are independent third parties having no past or present relationship with our Group, directors, shareholders, senior management or their respective associates, on the dates and for the consideration set forth in the following table.

Acquiring HK Subsidiary	Wholly foreign owned enterprise (Note 1)	Name of shareholder	Interest acquired	Consideration (Note 2)	Basis of consideration (Note 7)	Acquisition date
Rich Tech	Fuda Nantong	Australia-Asia Investment Group Pty Ltd	100%	Nil (Note 3)	N.A.	18 May 2007
Extreme Asia	Yonghe Nantong	Hai Ji International Investment (HK) Limited	100%	US\$5,149,948 (Note 4)	Registered capital	18 May 2007
Worldex Investment	Henghui Nantong	American Weider International Investment Limited	100%	US\$4,399,929 (Note 5)	Registered capital	18 May 2007
Venture Group	Fusheng Nantong	Hang Seng International (Holdings) Investment Limited	99%	Nil (Note 3)	N.A.	22 May 2007
Venture Group	Fusheng Nantong	Shanghai Long Green Real Estate Development Co., Ltd. (上海常綠房地產開發有限公司)	1%	Nil (Note 3)	N.A.	22 May 2007
Cheston Holdings	Zhuo Yi Nantong	Million Rich Construction Engineering Limited	100%	Nil (Note 3)	N.A.	22 May 2007
Extreme Asia	Nantong Jigui	HK Yifeng International Development Co., Ltd.	100%	Nil (Note 3)	N.A.	24 May 2007
Cheston Holdings	Nantong Jiangle	HK Prosper Industry & Trading Limited	100%	Nil (Note 3)	N.A.	24 May 2007
Rich Tech	Nantong Lehua	HK Prosper Industry & Trading Limited	100%	Nil (Note 3)	N.A.	24 May 2007
Worldex Investment	Nantong Huangshi Hui	American Weider International Investment Limited	100%	US\$2,299,990 (Note 6)	Registered capital	24 May 2007

Note 1: All of the wholly foreign owned enterprises had not commenced operation of business at the time of acquisition by our Group.

Note 2: The total amount of consideration paid by the HK Subsidiaries to the selling shareholders in respect of three of the wholly foreign owned enterprises with partially paid-up capital was US\$11,849,867. The HK Subsidiaries were also required to pay to the wholly foreign owned enterprises their unpaid registered capital in the aggregate amount of US\$154,190,133 at the time of acquisition. The total consideration payable by the HK Subsidiaries in respect of the acquisition of the nine wholly foreign owned enterprises was therefore US\$166,040,000.

Note 3: At the time of acquisition, the registered capital of the wholly foreign owned enterprise remained unpaid. The HK Subsidiary acquired 100% of the registered capital from the selling shareholder for nil consideration, and the HK Subsidiary became responsible for paying up 100% of the registered capital of the wholly foreign owned enterprise.

HISTORY, REORGANISATION AND GROUP STRUCTURE

Note 4: At the time of acquisition, the selling shareholder had paid an aggregate amount of US\$5,149,948 to the registered capital of Yonghe Nantong. Extreme Asia acquired 100% of the registered capital of Yonghe Nantong from the selling shareholder for a consideration of US\$5,149,948 and became responsible for paying up the remaining unpaid portion of the registered capital of Yonghe Nantong.

Note 5: At the time of acquisition, the selling shareholder had paid an aggregate of US\$4,399,929 to the registered capital of Henghui Nantong. Worldex Investment acquired 100% of the registered capital of Henghui Nantong from the selling shareholder for a consideration of US\$4,399,929 and became responsible for paying up the remaining unpaid portion of the registered capital of Henghui Nantong.

Note 6: At the time of acquisition, the selling shareholder had paid an aggregate of US\$2,299,990 to the registered capital of Nantong Huangshi Hui. Worldex Investment acquired 100% of the registered capital of Nantong Huangshi Hui from the selling shareholder for a consideration of US\$2,299,990 and became responsible for paying up the remaining unpaid portion of the registered capital of Nantong Huangshi Hui.

Note 7: The unpaid portion of the registered capital of all the wholly foreign owned enterprises were paid by our HK Subsidiaries using the net proceeds from our issuance of the Original Notes to the Investors, the details of which are set out in the paragraph headed “Financing” below.

Save for Zhuo Yi Nantong, all the wholly foreign owned enterprises have increased their registered capital subsequent to our acquisitions. The increases in the registered capital have been fully paid up by the HK Subsidiaries using the net proceeds from our issuance of the Notes, and new business licenses for the wholly foreign owned enterprises have been issued by the relevant PRC authorities. Our PRC legal counsel has advised that all the approvals for the acquisitions of the wholly foreign owned enterprises by the HK Subsidiaries and the capital increases have been obtained.

(b) Acquisition of project companies by regional companies

Pursuant to the Reorganisation, the regional companies, namely, Shanghai Yijing, Tianjin Yangguang Xindi and Wuxi Wangjiarui, acquired all of the equity interests of the project companies from the Founder, nominee shareholders (which include our Directors, employees of our Group, relatives of the Founder and companies controlled by the Founder) holding interests on behalf of the Founder or companies beneficially owned by the Founder, on the dates and for the consideration set forth in the following table. The consideration for the acquisitions of the project companies were settled in cash. Our PRC legal counsel has advised that all required approvals for the acquisitions of the project companies by our regional companies have been obtained. Each of the nominee shareholders of the project companies had executed a trust agreement (委託持股協議書) and supplemental trust agreement (if any) in favour of the Founder. The Founder had entered into the trust agreements with the nominee shareholders for the following reasons: (i) the then PRC regulatory requirements required a company to have at least two equity holders; (ii) as our Group was undergoing rapid development, the Founder chose to focus on the strategic planning of our Group so that the registered holders could then handle the administrative filing work on his behalf, as he traveled widely in the PRC and Hong Kong very frequently for business purposes; and (iii) prior to the completion of our Reorganisation, there was not a single holding company or several holding companies ultimately

HISTORY, REORGANISATION AND GROUP STRUCTURE

holding the interests in our regional companies and project companies such that the holding companies could do the administrative filings under a centralised structure, the trust arrangements between the Founder and various registered holders could ensure proper corporate filings and other administrative procedures were completed in a timely and efficient manner. Our PRC legal counsel opined that the nominee arrangements were valid and binding under the PRC laws.

Acquiring regional company	Project company	Interest acquired	Cash consideration (Note 1)	Acquisition date
Shanghai Yijing	Shanghai Shengtong	100%	RMB19,890,290.86	5 June 2007
	Shanghai Anshun	100%	RMB195,878,965.52	1 June 2007
	Shanghai Xintai (Note 2)	81.25%	RMB656,110,404.19	18 June 2007
	Shanghai Haosen (Note 3)	12.50%	RMB15,958,042.36	21 June 2007
Tianjin Yangguang Xindi	Beijing Yangguang Xindi	100%	RMB21,492,428.67	25 May 2007
	Beijing Hetian Hexin	100%	RMB30,013,561.54	18 May 2007
	Tianjin Hongyun (Note 4)	0.91%	RMB790,746.21	27 June 2007
Wuxi Wangjiarui	Suzhou Hongsheng	100%	RMB24,498,974.67	21 May 2007
	Nantong Zhuowei	100%	RMB80,000,000.00	21 May 2007

Notes:

- (1) The consideration for the transfers was determined by reference to the appraised net asset value of the relevant project company as of 31 May 2007.
- (2) Shanghai Yijing already owned the remaining 18.75% of Shanghai Xintai prior to the acquisition.
- (3) Shanghai Yijing already owned the remaining 87.50% of Shanghai Haosen prior to the acquisition.
- (4) Tianjin Yangguang Xindi already owned the remaining 99.09% of Tianjin Hongyun prior to the acquisition.

(c) Acquisition of regional companies by wholly foreign owned enterprises

Pursuant to the Reorganisation, the wholly foreign owned enterprises acquired all of the equity interests of the regional companies, namely, Shanghai Yijing, Tianjin Yangguang Xindi, Wuxi Wangjiarui and Liaoning Yangguang Xindi, from the Founder, nominee shareholders (which include our Directors, employees of our Group, relatives of the Founder and companies controlled by the Founder) holding interests on behalf of the Founder or a company beneficially owned by the Founder, on the dates and for the consideration set forth in the following table. The consideration for the acquisitions of the regional companies were settled in cash. Our PRC legal counsel has advised that all the required approvals for the acquisitions of the regional companies by our wholly foreign owned enterprises have been obtained. Each of the nominee shareholders of the regional companies had executed a trust agreement (委託持股協議書) and supplemental trust agreement (if any) in favour of the Founder. The Founder had entered into the trust agreements with the nominee shareholders because of the following reasons: (i) the then PRC regulatory requirements required a company to have at least two equity holders; (ii) as our Group was undergoing rapid development, the Founder chose to focus on the strategic planning of our Group so that the registered holders could then handle the administrative filing work on his behalf, as he traveled widely in the PRC and Hong Kong very

HISTORY, REORGANISATION AND GROUP STRUCTURE

frequently for business purposes; and (iii) prior to the completion of our Reorganisation, there was not a single holding company or several holding companies ultimately holding the interests in our regional companies and project companies such that the holding companies could do the administrative filings under a centralised structure, the trust arrangements between the Founder and various registered holders could ensure proper corporate filings and other administrative procedures were completed in a timely and efficient manner. Our PRC legal counsel opined that the nominee arrangements were valid and binding under the PRC laws.

Regional company	Acquiring wholly foreign owned enterprise	Interest acquired	Cash consideration (Note)	Acquisition date

	Nantong Lehua	20%	RMB23,268,000.49	26 June 2007

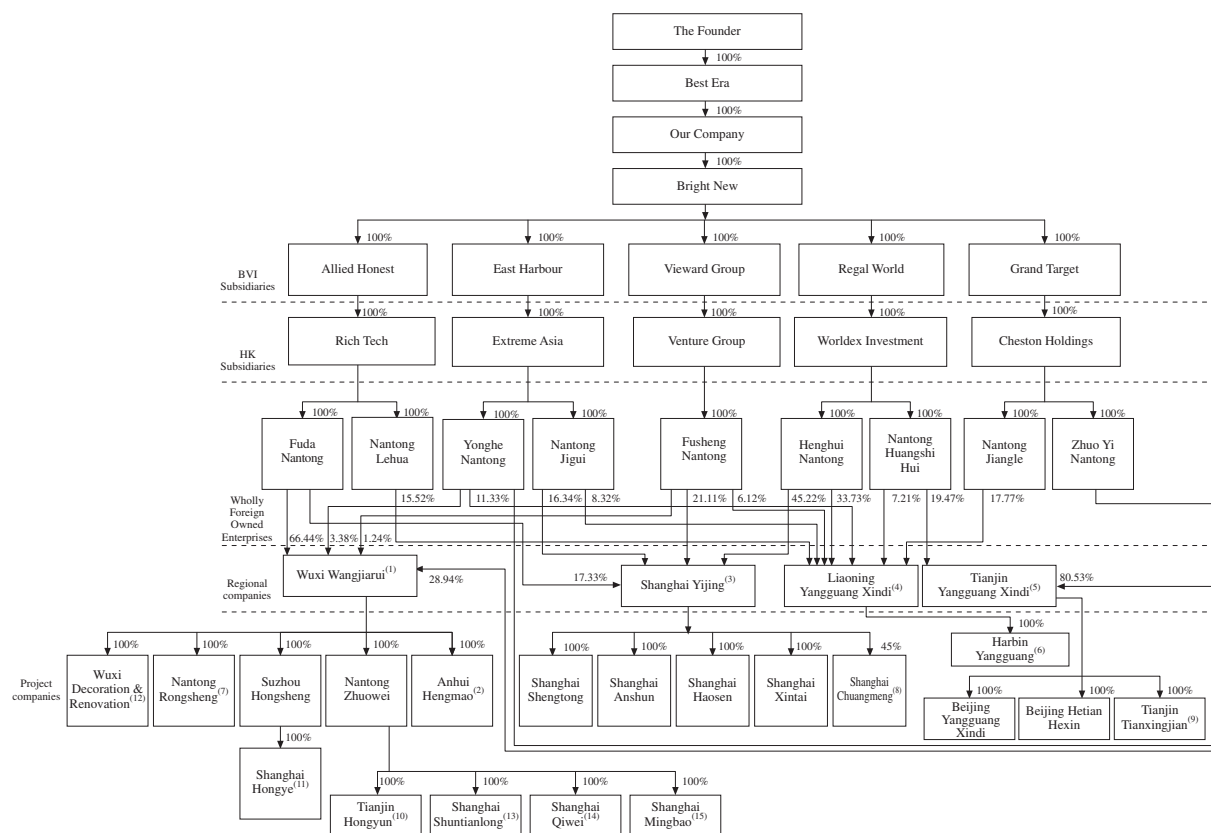

Note: The consideration of the transfers was determined by reference to the appraised net asset value of the relevant regional company as of 31 May 2007.

(d) *Incorporation of our Company to acquire and hold equity interests in our Group*

Our Company was incorporated in the Cayman Islands on 27 July 2007. One nil-paid share of par value HK\$0.10 each was allotted and issued to Codan Trust Company (Cayman) Limited and such share was transferred to Best Era on the same date and subsequently paid up. 99 shares of par value HK\$0.10 each were also allotted and issued to Best Era on 27 July 2007 and subsequently paid up. On 17 September 2007, Best Era transferred 50,000 shares of Bright New to us, representing the entire issued share capital of Bright New, in consideration of (i) the crediting as fully paid at par of the 100 nil paid shares registered in the name of Best Era, and (ii) the allotment and issue of 900 shares of par value HK\$0.10 each, credited as fully paid up, to Best Era. On 18 October 2007, 999,000 shares of par value HK\$0.10 each were allotted and issued to Best Era for cash at par, and on the same date, every issued and unissued share of par value HK\$0.10 each was sub-divided into 10 Shares of HK\$0.01 each, such that we had an authorised share capital of HK\$380,000 divided into 38,000,000 Shares of HK\$0.01 each. Best Era held 10,000,000 Shares after the sub-division of Shares. On 2 November 2007, the authorised share capital of our Company was increased from HK\$380,000 to HK\$3,800,000 and on 17 June 2008, the authorised share capital was further increased to HK\$380,000,000.

HISTORY, REORGANISATION AND GROUP STRUCTURE

The corporate structure of the companies of our Group after the completion of the Reorganisation was as follows:

Notes:

- (1) On 16 November 2007, the registered capital of Wuxi Wangjiarui was increased from RMB350,000,000 to RMB739,830,227. After the increase of the registered capital, the company was held as to 59.4% by Fuda Nantong, 35.28% by Zhuo Yi Nantong, 2.01% by Fusheng Nantong and 3.31% by Yonghe Nantong. On 9 January 2008, the registered capital of the company was further increased to RMB1,197,911,767 and its equity interests were held as to 66.44% by Fuda Nantong, 28.94% by Zhuo Yi Nantong, 1.24% by Fusheng Nantong and 3.38% by Yonghe Nantong. The increase in the registered capital of Wuxi Wangjiarui has been fully paid up in a timely manner using the net proceeds from our issuance of the Original Notes.
- (2) Anhui Hengmao was established by Wuxi Wangjiarui in the PRC on 24 October 2007.
- (3) On 14 January 2008, the registered capital of Shanghai Yijing was increased from RMB50,000,000 to RMB563,587,214. After the increase of the registered capital, the company was held as to 16.34% by Nantong Jigui, 45.22% by Henghui Nantong, 21.11% by Fusheng Nantong and 17.33% by Fuda Nantong. The increase in the registered capital of Shanghai Yijing has been fully paid up in a timely manner using the net proceeds from our issuance of the Original Notes.
- (4) On 16 November 2007, the registered capital of Liaoning Yangguang Xindi was increased from RMB50,000,000 to RMB796,515,500. After the increase of the registered capital, the company was held as to 18.99% by Nantong Jiangle, 15.22% by Nantong Lehua, 10.24% by Fusheng Nantong, 29.54% by Henghui Nantong, 13.94% by Nantong Jigui and 12.07% by Nantong Huangshi Hui. On 7 January 2008, the registered capital of Liaoning Yangguang Xindi was further increased to RMB1,333,502,300. After the increase of the registered capital, the company was held as to 17.77% by Nantong Jiangle, 15.52% by Nantong Lehua, 6.12% by Fusheng Nantong, 33.73% by Henghui Nantong, 8.32% by Nantong Jigui, 7.21% by Nantong Huangshi Hui and 11.33% by Yonghe Nantong. The increase in the registered capital of Liaoning Yangguang Xindi has been fully paid up in a timely manner using the net proceeds from our issuance of the Original Notes.

HISTORY, REORGANISATION AND GROUP STRUCTURE

- (5) On 10 January 2008, the registered capital of Tianjin Yangguang Xindi was increased from RMB448,143,370 to RMB806,039,565. After the increase of the registered capital, the company was held as to 80.53% by Yonghe Nantong and 19.47% by Nantong Huangshi Hui. The increase in the registered capital of Tianjin Yangguang Xindi has been fully paid up in a timely manner using the net proceeds from our issuance of the Original Notes.
- (6) Harbin Yangguang was established by Liaoning Yangguang Xindi in the PRC on 19 December 2007.
- (7) On 6 March 2008, Nantong Rongsheng was acquired by Wuxi Wangjiarui from Jiangsu Rongsheng Investment Group Co., Ltd. (江蘇熔盛投資集團有限公司), a company controlled by the Founder, for a consideration of RMB31,803,400. The consideration was determined by reference to the appraised net asset value of Nantong Rongsheng as of 20 February 2008.
- (8) On 9 May 2008, Shanghai Yijing acquired a 45% equity interest in Shanghai Chuangmeng from the Founder for a consideration of RMB4,500,000. The consideration was determined by reference to the registered capital of Shanghai Chuangmeng at the time of acquisition.
- (9) On 13 March 2008, Tianjin Tianxingjian was acquired by Tianjin Yangguang Xindi from Tianjin City Kaixiang Steel Trading Co.,Ltd. (天津市凱祥鋼材貿易有限公司), an independent third party, for a consideration of RMB388,000,000. The consideration was determined by reference to the preliminary valuation of a piece of land held by Tianjin Tianxingjian at the time of signing of the agreement. On 14 August 2008, Tianjin Yangguan Xindi and Tianjin City Kaixiang Steel Trading Co.,Ltd. (天津市凱祥鋼材貿易有限公司) signed a supplemental agreement, pursuant to which the parties agreed to change the consideration to RMB454,180,000, which amount was determined based on the market value of the land on or about the settlement date.
- (10) On 25 November 2008, Tianjin Hongyun was acquired by Nantong Zhuowei from Tianjin Yangguan Xindi for a consideration of RMB88,000,000. The consideration was determined by reference to the registered capital of Tianjin Hongyun at the time of acquisition.
- (11) On 7 April 2008, Shanghai Hongye was established by Wuxi Wangjiarui. On 9 May 2008, Shanghai Hongye was acquired by Suzhou Hongsheng from Wuxi Wangjiarui for a consideration of RMB50,000,000. The consideration was determined by reference to the registered capital of Shanghai Hongye at the time of acquisition.
- (12) Wuxi Decoration & Renovation was established by Wuxi Wangjiarui in the PRC on 13 May 2008.
- (13) Shanghai Shuntianlong was established by Nantong Zhuowei in the PRC on 14 November 2008.
- (14) On 24 September 2008, Shanghai Qiwei was established by Shanghai Xintai. On 24 October 2008, Shanghai Qiwei was acquired by Nantong Zhuowei from Shanghai Xintai for a consideration of RMB5,000,000. The consideration was determined by reference to the registered capital of Shanghai Qiwei at the time of acquisition.
- (15) On 15 December 2008, Shanghai Mingbao was acquired by Nantong Zhuowei from Shi Xiaolei (施曉蕾) and Shi Xiaoyu (施曉宇), both are independent third parties, for an aggregate consideration of RMB2,500,000. The consideration was determined after arm’s length negotiation between the parties.

Financing

Issuance of registered promissory notes

In November and December 2007, we issued promissory notes to the Original Investors in a total aggregate principal amount of approximately RMB 3,717.4 million (the “Original Notes”) and received US\$ 495.7 million in proceeds therefrom. The entire principal amount of the Original Notes was payable on 2 November 2009. Prior to redemption, interest accrued on the Original Notes at the rate of 10% per annum and was payable semi annually on 2 May and 2 November of each year. At the date of redemption of the Original Notes, the Company was required to pay interest at the rate of 23.5% per annum on the face amount of the Original Notes less the amount of interest at 10% per

HISTORY, REORGANISATION AND GROUP STRUCTURE

annum previously paid by the Company. In connection with the subscription of the Original Notes, the Original Investors and their affiliates also received from one of our Controlling Shareholders a total of 700,000 Shares for no additional monetary consideration.

As at 30 April 2009, we had used approximately US\$464 million of the net proceeds from the issuance of the Original Notes to inject capital into the wholly foreign-owned enterprises owned by our HK Subsidiaries, regional companies and project companies in order to expand our land bank. As at 30 April 2009, of the US\$464 million of the net proceeds from the issuance of the Original Notes used to inject capital in the wholly foreign-owned enterprises, we had used approximately RMB2,847 million to acquire land from independent third parties, save for the acquisition of Nantong Rongsheng Plaza which was acquired from a company controlled by the Founder. The balance of the proceeds has been deposited into our account maintained in Hong Kong for working capital purposes.

On 7 March 2008, DB transferred 91,000 Shares to Euro Crown Limited after arm's length negotiation and such Shares are not subject to any lock up arrangement. DB also sold Original Notes in an aggregate principal amount of RMB 483,255,500 to Euro Crown Limited on 7 March 2008 and retained Original Notes in an aggregate principal amount of RMB 74,347,000. Euro Crown Limited is independent of the Group. To the best knowledge of the Directors, Euro Crown Limited is independent of DB.

Restructuring of Original Notes

We made interest payments of RMB 158.8 million and RMB 186.9 million on the Original Notes on 2 May 2008 and 2 November 2008, respectively. We did not make interest payments on the Original Notes on 2 May 2009 as we were negotiating to restructure the Original Notes and received an extension for such interest payment from the Investors. As at 20 June 2009, the aggregate principal amount of the Original Notes together with interest accrued up to 20 June 2009 was approximately RMB4,848.8 million (equivalent to US\$710 million), details of the calculation are set forth in the table below:

	RMB	Exchange Rate	US\$ Equivalent
Aggregate principal amount of Original Notes together with interest accrued up to 20 June 2009	5,194,444,090.46	US\$1 to RMB6.8343	760,055,030
Less:			
Interest paid by the Company to the Investors on 2 May 2008	158,751,400.00	US\$1 to RMB6.9890	22,714,466
Interest paid by the Company to the Investors on 2 November 2008	186,900,097.24	US\$1 to RMB6.8360	27,340,564
Total Redemption Amount under the Original Notes as at 20 June 2009:	4,848,792,593.22		710,000,000

HISTORY, REORGANISATION AND GROUP STRUCTURE

The arrangement in relation to the redemption of the Original Notes, the restructuring of the Original Notes and the terms of the Promissory Notes and Convertible Notes is such that the Company needs not pay interest to the Investors for the period between 20 June 2009 and 30 June 2009.

With an aim to further strengthen the capital structure of the Company, the Company, the Founder, the Investors and the Security Trustee, amongst others, entered into a Deed of Amendment to restructure and modify the terms and conditions of the Original Notes. On 11 August 2009 and 17 August 2009, the following Note Restructuring Transactions occurred pursuant to the terms of the Deed of Amendment:

- (a) the denomination of the Original Notes was changed from RMB to US\$;
- (b) we paid interest that was due and outstanding on the Original Notes (as converted into US\$) in cash in the aggregate amount of approximately US\$27.2 million (payment was made on 11 August 2009);
- (c) we redeemed an aggregate principal amount of US\$163.0 million and US\$29.8 million of the Original Notes (as converted into US\$) on 11 August 2009 and 17 August 2009, respectively;
- (d) the remaining US\$490 million of the Original Notes were replaced by the following two tranches of notes:
 - (i) US\$325 million of Promissory Notes with a final maturity date of 31 December 2010; and
 - (ii) US\$165 million of Convertible Notes which are mandatorily convertible in accordance with the Note Documents; and
- (e) the Founder agreed to cause Best Era to transfer to the Investors for no additional consideration Shares in an amount equal to 0.5% of the total Shares outstanding.

On 17 August 2009, we obtained a bridge loan of US\$28,000,000 from Yes Plus Limited, an independent third party, to fund the partial redemption of the Original Notes. The loan bears interest of 10% per annum. See “Financial Information — Liquidity and Capital Resources — Indebtedness” for more details.

A summary of the terms of the Promissory Note and Convertible Notes is set forth below.

Promissory Notes

Amortisation. Principal payments are due on the Promissory Notes as follows:

- (i) US\$50 million, on 31 December 2009;

HISTORY, REORGANISATION AND GROUP STRUCTURE

(ii) US\$130 million, on 30 June 2010; and

(iii) US\$145 million, on 31 December 2010.

Interest. Interest on the Promissory Notes accrues from 1 July 2009 and is payable semi-annually on each 31 December and 30 June (and upon redemption) at the rates below, provided that no Acceleration Event has occurred:

(i) interest payable with respect to any principal amounts repaid on or before 31 December 2009 shall be payable at the rate of 6% per annum;

(ii) interest payable with respect to any principal amounts repaid after 31 December 2009 but on or before 30 June 2009 shall be payable at the rate of 10% per annum; and

(iii) interest payable with respect to any principal amounts repaid on and after 1 July 2010 shall be payable at the rate of 15% per annum.

If an Acceleration Event occurs, interest will accrue from 1 July 2009 at the rate of 18% per annum and will be payable monthly in arrears (and upon redemption). Any interest previously paid will be credited.

Covenants for Promissory Notes and Convertible Notes

So long as any Promissory Notes or Convertible Notes are outstanding, we must comply with a number of covenants, including covenants to maintain a minimum Assets to Liabilities Ratio, a maximum Adjusted Liabilities Value and a maximum Loan to Value Ratio as well as other covenants prohibiting us from taking actions on certain reserved matters without the consent of the Noteholders.

Security Agreements for Promissory Notes and Convertible Notes

The Promissory Notes and the Convertible Notes are currently secured by the following collateral and guarantees created in favour of DB Trustee (Hong Kong) Limited as security trustee for the Noteholders:

(1) guarantees executed by each of the BVI Subsidiaries and HK Subsidiaries to secure our obligations under the Note Documents;

(2) share mortgages executed by each of us, Bright New and the BVI Subsidiaries to secure our obligations under the Note Documents;

(3) share pledges over the paid up capital of the wholly foreign-owned enterprises executed by each of the HK Subsidiaries to secure our obligations under the Note Documents;

(4) a first fixed charge/mortgage over the shares of each non-PRC company that becomes a member of the Group after 17 December 2007;

HISTORY, REORGANISATION AND GROUP STRUCTURE

- (5) a pledge over the equity in each PRC company (i) that becomes a member of the Group after 17 December 2007; and (ii) which equity is directly held by a non-PRC member of the Group; and
- (6) an account charge executed by Bright New in favour of DB Trustees (Hong Kong) Limited as security trustee.

The collateral and guarantees described above will be released upon the redemption or repayment of the Notes.

Founder’s Non-competition Undertaking

For so long as any of the Notes is outstanding, the Founder has undertaken to the Investors that, as long as he holds any interest in our Company and for the period of three years thereafter, he will not carry on any business involving real estate construction projects within Hong Kong or the PRC which directly or indirectly competes with the business of any member of our Group, except for his interests in Shanghai Ditong and a holding of not more than 5% of interests in a company listed on a recognised stock exchange (and which interest does not confer any management function).

Rights of the Noteholders

The rights of the Noteholders can be differentiated into two categories: information rights and veto right.

The information rights given to the Noteholders are as follows:

- (1) the right to obtain audited consolidated annual financial statements of the Group within 120 days after each year-end and unaudited consolidated semi-annual financial statements of the Group within 90 days after each six-month period. We undertake to ensure that such audited annual financial statements of the Group will not be provided to the Noteholders prior to the release of such information to the Shareholders;
- (2) the right to be kept informed, on a current basis, of any criminal or regulatory investigation or action involving the Company or any of other member of the Group;
- (3) the right to request information that any Noteholder reasonably requires to complete its tax return;
- (4) so long as any Noteholder holds any equity interest in our Company, the right to request information concerning the income and assets of the Group in order to determine if our Company is a “passive foreign investment company” for US federal income tax purpose;
- (5) the right to be notified as soon as practicable after our Company or any of our subsidiaries is aware of any of the matters as described in “Major Matters” in the Note Documents; and
- (6) the right to be notified of any decision taken in relation to the matters as described in “Notification Matters” in the Note Documents. We undertake to ensure that such information will not be provided to the Noteholders prior to the release of such information to the Shareholders.

HISTORY, REORGANISATION AND GROUP STRUCTURE

In relation to the veto right, the Investor Representative (acting on behalf of the Noteholders) has the right to veto certain “Reserved Matters” as described in the Note Documents.

All of the information rights and veto right will terminate upon the conversion or redemption, as the case may be, of the Notes in full.

Transfer of Promissory Notes and Convertible Notes

So long as the Promissory Notes and the Convertible Notes are outstanding, a Noteholder may only transfer a Promissory Note if it also transfers a proportionate principal amount of the Convertible Notes held by it to the proposed transferee at the same time and *vice versa*.

Transfer of Shares to Investors without consideration

Pursuant to the Note Restructuring Documents, Best Era will transfer, without any consideration, to the Investors 0.5% of the Shares (the “**Second Share Transfer**”) calculated based on the total issued share capital of the Company. Such Shares under the Second Share Transfer shall be allocated among the Noteholders pro rata according to their or their affiliates’ respective holdings of the Promissory Notes and the Convertible Notes as of 17 August 2009 and are not subject to any lock-up arrangement.

Our Directors are of the view that the Note Restructuring Transactions is beneficial to us as it:

- (i) carries a lower interest cost than the Original Notes;
- (ii) strengthens our capital structure by lengthening our debt maturity profile; and
- (iii) broaden our capital and shareholder base upon conversion of the Convertible Notes.

All of the Investors are independent third parties not connected with the Directors, the Controlling Shareholders or their affiliates.

Description of our Investors and their affiliates

Save for the interests described in this section headed “Financing”, all of the Investors are independent of our Group. We set out below a brief introduction of our Investors and Euro Crown Limited:

DESCIA and D.E. Shaw Composite Portfolios, L.L.C.

DESCIA is a member of the D. E. Shaw group. The D. E. Shaw group is a global investment and technology development firm with more than 1,700 employees; approximately US\$29 billion in aggregate investment and committed capital as of 1 July 2009; and offices in North America, Europe, and Asia. Since its organisation in 1988, the firm has a significant presence in many of the world’s capital markets, investing in a wide range of companies and financial instruments within both the

HISTORY, REORGANISATION AND GROUP STRUCTURE

major industrialised nations and a number of emerging markets. Its activities range from the deployment of investment strategies based on either mathematical models or human expertise to the acquisition of existing companies and the financing or development of new ones.

On 17 August 2009, DESCIA transferred its right to receive the Convertible Notes in an aggregate principal amount of US\$91,410,000 and the Promissory Notes in the aggregate principal amount of US\$180,050,000 to D. E. Shaw Composite Portfolios, L.L.C. D. E. Shaw Composite Portfolios, L.L.C. is entitled to all the same rights as those of the other Investors.

D.E. Shaw Composite Portfolios, L.L.C. is a company incorporated in the State of Delaware, the United States on 8 January 2001. It is the sole shareholder of DESCIA and is independent of the Group.

Goldman Sachs

Goldman Sachs RE Investments Holdings Limited is a company incorporated in the Cayman Islands on 19 July 2006.

Each of WH Debt Acquisition (Delaware) LLC and Villa (Delaware) LLC is a company incorporated in the State of Delaware, US on 15 October 2007.

Villa (Cayman) Ltd. is a company incorporated in the Cayman Islands on 15 November 2007.

Goldman Sachs RE Investments Holdings Limited, WH Debt Acquisition (Delaware) LLC, Villa (Delaware) LLC and Villa (Cayman) Ltd. are affiliates of Goldman Sachs.

Goldman Sachs was incorporated in the State of Delaware, the United States on 21 July 1998. It is a bank holding company and a leading global investment banking, securities and investment management firm that provides a wide range of services worldwide to a substantial and diversified client base that includes corporations, financial institutions, governments and high net-worth individuals. Founded in 1869, the firm is headquartered in New York and maintains offices in London, Frankfurt, Tokyo, Hong Kong and other major financial centres around the world.

DB

DB is the London Branch of Deutsche Bank Aktiengesellschaft (“**Deutsche Bank AG**”). Deutsche Bank AG is a banking institution and a stock corporation incorporated under the laws of Germany, with its registered office in Frankfurt am Main, Germany. Deutsche Bank AG is the parent company of a group consisting of banks, capital market companies, fund management companies, a real estate company, instalment financing companies, research and consultancy companies and other domestic and foreign companies. DB has on 12 January 1973 filed pursuant to the Companies Act 1948 to establish a place of business within Great Britain. On 14 January 1993, DB was registered under the Companies Act 1985 in England and Wales as having established a branch (“**London Branch**”). London Branch of DB is an authorised person for the purposes of section 19 of the Financial Services and Markets Act 2000.

HISTORY, REORGANISATION AND GROUP STRUCTURE

Euro Crown Limited

Euro Crown Limited is a wholly owned subsidiary of HSBC NF China Investors Limited, which is the general partner of the HSBC NF China Real Estate Fund, L.P. It was incorporated in the British Virgin Islands on 30 January 2008 and its business is investment in equity and fixed income securities. HSBC NF China Real Estate Fund is a private equity real estate opportunity fund focused on Greater China, established as a joint venture between HSBC Specialist Investments Limited and the Nan Fung Group. The partnership has raised capital commitments in excess of US\$700 million.

HSBC Specialist Investments Limited is the HSBC Group’s dedicated property and infrastructure investment arm. It invests capital on behalf of both HSBC and for clients, including pension funds, insurance companies, asset managers and family offices globally. It focuses on market segments with attractive risk/reward profiles and currently manages in excess of US\$10 billion of specialist assets in infrastructure, commercial and residential properties. The Nan Fung Group is one of Hong Kong’s leading real estate developers, a fully integrated, multidisciplinary property developer with ‘end-to-end’ in-house technical expertise. Its successful business ventures include over 130 completed real estate development projects in Greater China, predominantly in Hong Kong.

Approvals from PRC governmental authorities relating to the Reorganisation

On 23 May 2007, MOFCOM and SAFE jointly issued the Notice on Further Strengthening and Regulating the Approval and Administration of Foreign Direct Investment in the Real Estate Industry (關於進一步加強、規範外商直接投資房地產業審批和監管的通知) (“**Notice 50**”). Notice 50 seeks to strengthen the administrative process for the approval and supervision of foreign invested real estate enterprises in the real estate industry. As advised by our PRC legal counsel, Commerce and Finance Law Offices, Notice 50 requires that foreign invested real estate companies newly approved and established after 31 May 2007 must comply with certain registration requirements with MOFCOM. As none of the wholly foreign owned enterprises of the Group was newly approved and established after 31 May 2007, our PRC legal counsel is of the view that such requirement does not apply to the Group. In addition, Notice 50 requires that foreign invested real estate companies with property projects or property business newly added must also comply with the relevant approval requirements pursuant to Notice 50. As all of the wholly foreign owned enterprises of the Group with newly added projects and businesses have obtained the requisite approvals required by the Notice 50 and obtained the new approval certificates, our PRC legal counsel is of the view that the Group has also complied with such relevant approval requirement stipulated under Notice 50.

On 10 July 2007, SAFE issued the Notice of the General Affairs Department of SAFE on the Distribution of the List of the First Group of Foreign Invested Real Estate Projects which has Filed with the Ministry of Commerce (關於下發第一批通過商務部備案的外商投資房地產項目名單的通知) (“**Notice 130**”). Notice 130 provides that SAFE will not process any foreign exchange registration (or modification of registration) or foreign exchange settlement for capital account items for foreign invested real estate enterprises which obtained their approval certificates after 1 June 2007 but has not filed with MOFCOM. This also applies to foreign invested real estate enterprises that are established and approved before 1 June 2007, where such foreign invested real estate enterprises wish to increase their registered capital after 1 June 2007. Our PRC legal counsel has advised that since all the relevant

HISTORY, REORGANISATION AND GROUP STRUCTURE

approvals in respect of the increase in registered capital of the Group’s foreign invested real estate enterprises and the new approval certificates have been obtained prior to 31 May 2007, Notice 130 does not have any impact on the Group’s business and Reorganisation.

The Catalogue for the Guidance of Foreign Investment in Industry (外商產業指導目錄) promulgated by the National Development and Reform Commission and MOFCOM was amended on 1 December 2007. It classifies certain businesses of foreign invested enterprises into certain categories — “encouraged”, “restricted” and “prohibited”. The categorisation affects the regulatory approval process for a foreign invested enterprise operating in a categorised business and the availability of tax and other incentives. Our PRC legal counsel is of the opinion that the business scope of all of the acquired PRC companies in the Reorganisation does not fall within the restricted or prohibited categories of business under the Catalogue for the Guidance of Foreign Investment in Industry (外商產業指導目錄) and hence it does not have any impact on the Group’s business and Reorganisation.

Pursuant to the Notice on the Relevant Issues Concerning Foreign Exchange Administration of Financing and Return Investment Undertaken by Domestic Residents Through Overseas Special Purpose Vehicles (國家外匯管理局關於境內居民通過境外特殊目的公司融資及返程投資外匯管理有關問題的通知) (“**Notice 75**”) promulgated by SAFE on 21 October 2005 and the Notice of Implementation of the Notice on the Relevant Issues Concerning Foreign Exchange Administration of Financing and Return Investment Undertaken by Domestic Residents Through Overseas Special Purpose Vehicles (國家外匯管理局關於境內居民通過境外特殊目的公司融資及返程投資外匯管理有關問題的通知操作現程的通知) (“**Notice 106**”) promulgated by SAFE on 29 May 2007, domestic resident natural persons or legal persons are required to register with the relevant local branches of SAFE before they establish or control any offshore special purpose vehicles for the purpose of capital raising using assets or equity interests of their PRC companies. The definition of “domestic resident natural person” includes a natural person who holds domestic interests in domestic enterprises and then changes his or her domestic interests into foreign-owned interests while remaining the ultimate controller of the changed interests. Because our Founder falls within this definition of domestic resident natural person, he was required to register pursuant to Notice 75 and Notice 106. Our PRC legal counsel is of the opinion that the Founder has completed his registration with the relevant local branch of SAFE with respect to his interests in our Group and has fully complied with Notice 75 and Notice 106.

BUSINESS

OVERVIEW

We are one of the leading property developers focused on the development and sale of high quality properties in key economic cities in the PRC. Our land bank is highly diversified and is located in prime locations in such key economic cities. It comprised, as at 31 July 2009, a total planned GFA of 13,598,083 sq.m. (of which, 6,051,874 sq.m. was GFA for which we have signed master agreements with the relevant local governments but had not as at the Latest Practicable Date obtained the land use right certificates). Of our land bank, approximately 20.2% of our total GFA was located in Shanghai and 18.1% was located in Tianjin and Beijing as at 31 July 2009.

Since we commenced our business in 1996, we have been dedicated to developing our property business in key economic cities in China and, in particular, in Shanghai, in which we believe has the highest level of demand from international and domestic purchasers' of any property market in China. Over the past 13 years in Shanghai, we have developed various projects and sold and delivered more than 2.0 million sq.m. of GFA, and successfully establishing ourselves as one of the leading players in this economic and financial capital in terms of total completed GFA. As at 31 July 2009, we had seven projects in Shanghai in various stages of development, namely, Shanghai Bay (尚海灣), Shanghai Park Avenue (皇家花園), Chateau De Paris (陽光巴黎), Sunshine Venice (陽光威尼斯), Baoshan Gaojing (寶山高境), Royal Lakefront (湖畔豪庭) and Sunglow Xinjing (陽光新景). Our projects in Shanghai are strategically located either in well established prime locations such as in the vicinity of the Huangpu River or around the Inner Ring Road and Middle Ring Road, or in areas which we believe have a high growth potential. In particular, our flagship project, Shanghai Bay, is situated along the west bank of the Huangpu River, facing the Shanghai World Expo Site. Based on sales data collected and compiled by www.soufun.com (搜房網), our flagship project, Shanghai Bay, was among top three in Shanghai in terms of total sales contract value achieved in 2008.

Leveraging on our success and valuable experience in Shanghai, in 2003, we began developing properties in Tianjin, which is one of the four municipalities administered directly by the Chinese Central Government. Tianjin is the largest city in the Pan-Bohai Rim area and we expect Tianjin to be one of the key beneficiaries of the economic reform of the Pan-Bohai Rim. Over the past six years of development, we have established a firm foothold in the Tianjin market. Our project Sunshine Holiday (陽光星期八) won the China Real Estate Gold Housing Award (中國金房獎). Our project development company, Tianjin Yangguang Xindi, was also awarded the Meritorious Enterprises Award for Investment in Tianjin (投資天津功勳企業獎). In 2006, we began developing properties in Beijing, with the aim of establishing our reputation in this capital city of China. Beijing has been an integral part of China's history for centuries and its art treasures and internationally renowned universities have long made the city a centre of art and culture.

Our strategic vision is not confined to developing our business in Shanghai, Tianjin and Beijing. We recognise that China is the largest country in terms of population and the fastest growing major economy in the world. Therefore, in addition to national key economic cities in China, we believe that other regional key economic cities located in high growth regions will also play an increasingly important role in China's property market due to urbanisation and will benefit from the anticipated strong economic growth in these regions. Hence, leveraging on our success in Shanghai and Tianjin, we have also selectively expanded into other fast-growing regional key economic cities so as to take

BUSINESS

advantage of the growth potential in those local property markets. For example, our No. 1 City Promotion (第一國際) was ranked the sixth best selling real estate project in Wuxi during the first half of 2009 according to Wuxi House Online.

As at 31 July 2009, we had developed or were developing projects in nine key economic cities across the PRC, namely three municipalities (Shanghai, Tianjing, Beijing), three provincial capitals (Hefei, Shenyang, Harbin) and three regional key economic cities (Wuxi, Suzhou, Nantong) in the Yangtze River Delta. In the past three years, the GDP growth rates of each of these cities exceeded the national average, and their combined economic contributions to national GDP were 18.0%, 18.1% and 17.5%, respectively. In 2008, the GDP per capita in these cities was on average approximately 3 times the national average, ranging from 1.5 to 4.7 times the national average GDP per capita. The urbanisation rates in 2008 in each of these cities exceeded 48%, which is higher than the national average, and the aggregate urban population accounts for about 68.3% of the total population in these cities, significantly higher than the national average of 45.7%. Of these cities, Shanghai, Beijing, Tianjin, Shenyang and Suzhou were also among the “Top Ten Most Appealing Cities in China’s Real Estate Market” in terms of demand for properties according to the China Index Research Institute in April 2009. Our strategy is to continue our efforts to further develop our property business and strengthen our market position in these key economic cities in China, and to selectively expand our business into other key economic cities with similar growth potential.

We offer a wide range of products, including apartments, townhouses, retail properties, offices and hotels. We target the upper segment of the real estate market, developing and selling our premium residential properties while seeking to selectively retain long-term ownership of certain commercial properties to benefit from potential capital appreciation as well as to diversify our future income stream.

As at 31 July 2009, we had 19 projects in various stages of development, with a total land bank of approximately 13,598,083 sq.m. and consisting of the following types of projects:

- (i) projects with a total planned GFA of approximately 4,654,495 sq.m. for which the relevant government authorities had granted the land use rights certificates;
- (ii) projects with a total planned GFA of approximately 2,891,714 sq.m. for which we had signed land grant contracts or had successfully tendered but had not, as at the Latest Practicable Date, obtained the land use rights certificates; and
- (iii) projects with a total planned GFA of approximately 6,051,874 sq.m. for which we have entered into master agreements with the local governments but had not, as at the Latest Practicable Date, concluded the public tender process or entered into land grant contracts. The master agreements are legally binding but, after signing such master agreements, we are still required by the relevant PRC laws and regulations to go through the public tender,

BUSINESS

auction or listing for bidding process, enter into a land grant contract and pay the relevant land premium before we are able to obtain the land use rights certificate. Details of these projects for which we signed master agreements are disclosed in the paragraph headed “— Projects to be acquired for future development” below. We cannot guarantee that we will be successful in securing the land grant contracts and obtaining the relevant land use rights in respect of these projects for which we have only signed master agreements, or that we will be successful in obtaining the relevant approvals in accordance with our expected development schedule.

We believe that by participating in the urban redevelopment or government regional planning work during the preliminary stage of these projects through the master agreements, we are able to gain further insights into the local market and a better understanding of market demand and future product positioning, which in turn provides us with an advantage compared to other property developers in winning the tenders for the land grants for these projects. Phase I of Baoshan Gaojing in Shanghai, Phase IA and IB of Sunshine Bordeaux in Beijing, Bashang Jie and Hefei Villa Glorious in Hefei, Anhui Province, are examples of our Company having successfully signed the land grant contracts for the land after first entering into the master agreements.

Based on our current business plan, we have designated all of our major completed properties and properties under development as properties for sale except for Shanghai Bay — Binjiang Center (North block), Sunglow Xinjing (commercial portion), Sunshine Venice Phase I-IIIC (commercial portion) and Chateau De Paris Phase II (commercial portion), all of which we intend to retain as investment properties. We expect our investment property portfolio to expand gradually over time to enhance the stability of our revenue streams and to reduce our operational risks. We will take into account the expected integration and efficiency in the operation and management of commercial properties, our overall financial condition and the market condition at the relevant time when determining whether any particular project will be retained as an investment property.

A number of international, renowned investors have made investments in our Company, including DESCIA, Goldman Sachs, DB, Hongkong Shanghai Banking Corporation and Nan Fung Group. Please refer to the section headed “History, Reorganisation and Group Structure — Description of our Investors and their affiliates” in this document for details.

Our projects have also received recognition and a number of prominent awards from independent or official organisations. For example, Sunshine Venice was ranked second in Commodity Housing Sales in Shanghai in terms of contracted area by Shanghai Real Estate Trading Center in 2003; No. 1 City Promotion was recognised as an International Culture Community (國際文化社區) by the Friends of the United Nations (聯合國友好理事會), the United Nations Human Settlement Programme (聯合國人居署) in 2007 and was ranked as the sixth best selling real estate project in Wuxi during the first half of 2009 by Wuxi House Online; Sunshine Holiday received a Meritorious Enterprises Award for Investment in Tianjin (投資天津功勳企業獎) from the Investment in Tianjin Committee, Tianjin Federation of Industry and Commerce, Jin Wan Bao newspaper of Jin Wan Media Group in 2006; Sunshine Holiday also received the China Real Estate Gold Housing Award (中國金房獎) from China Real Estate Chamber of Commerce, Xinhua News Agency, Economic Information Daily and Urban Development and Environmental Research Center of the Chinese Academy of Social Sciences in 2006.

BUSINESS

In January 2008, we were awarded Property Company of the year 2007 with Remarkable Contributions to the Urban Development of Shanghai, China (2007年中國上海城市營造傑出貢獻地產企業) by the Organising Committee of Zhuyu Dichan Grand Ceremony (主語地產盛典組委會). In December 2008, we were awarded Mainstream Property Enterprise for 2008 (2008主流地產企業) by Life Style (精品購物指南). For further details of awards we have received for our projects, please refer to the paragraph headed “— Our Property Development Projects” below. As such we believe that we are one of the leading property developers in key economic cities in China.

Although we have not actively participated in any market ranking campaigns organised by third parties under a single uniform brand in the past, we believe that the accolades we have received for our projects have effectively established our leading position in key economic cities and, as a whole, our reputation as a leading property developer in these cities. We believe that our leading position has also been substantiated by the prime locations of our projects, the high quality of the properties we have developed, and the strong sales uptrend realised in the cities where we have our developments.

Our vision for our future development is fully reflected in our ‘three prong’ business approach, which is as follows.

- **Solidify our leading position in Shanghai:** Shanghai is one of the largest cities and the most populous city in China. It is also the financial capital of China. The 2010 Shanghai World Expo is expected to solidify Shanghai’s status in the 21st century as a major economic city. According to the research report by China Index Research Institute issued in April 2009, Shanghai was the most attractive city in terms of demand for property investments in China’s real estate market. We believe we have a strong presence and a highly regarded reputation in Shanghai and are competitively positioned to benefit from its long term growth potential. As at 31 July 2009, we had accumulated a total planned GFA of approximately 2.3 million sq.m. of high quality land bank in Shanghai, excluding those projects for which we have only signed master agreements.
- **Strengthen our foothold in Tianjin and Beijing:** We have a well-established presence in Beijing and in Tianjin, Tianjin is a fast developing city with the potential to become the commercial centre of the Pan-Bohai Rim region. We entered the property market in Tianjin in 2003 and through our efforts over the past six years, we have established a firm foothold in the Tianjin property development market. As a testimony to our success in Tianjin, our “Sunshine Holiday (陽光星期六)” project in Tianjin was awarded the China Real Estate Gold Housing Award (中國金房獎) in 2006 by the China Real Estate Chamber of Commerce, Xinhua News Agency, Economic Information Daily and Urban Development and Environmental Research Center of the Chinese Academy of Social Sciences project company, all of which are independent from our Group. Our Tianjin Yangguang Xindi was awarded the Corporate Prize for Meritorious Investment of the year in Tianjin (投資天津功勳企業獎) by the Investment in Tianjin Committee, Tianjin Federation of Industry and Commerce, Jin Wan Bao newspaper of Jin Wan Media Group, which are all independent of our Group. As at 31 July 2009, we had built up a land bank with a total planned GFA of approximately 839,309 sq.m. in Tianjin, of which approximately 156,460

BUSINESS

sq.m. were attributable to properties for which we have signed master agreements but had not, as at the Latest Practicable Date, concluded the public tender process or entered into land grant contracts and, therefore, with respect to which we cannot guarantee that we will be successful in obtaining the land use right certificates. In addition, as at 31 July 2009, we had built up a land bank with a total planned GFA of approximately 1,625,127 sq.m. in Beijing, of which approximately 1,256,113 sq.m. were attributable to properties for which we have signed master agreements but had not, as at the Latest Practicable Date, concluded the public tender process or entered into land grant contracts and, therefore, with respect to which we cannot guarantee that we will be successful in obtaining the land use right certificates.

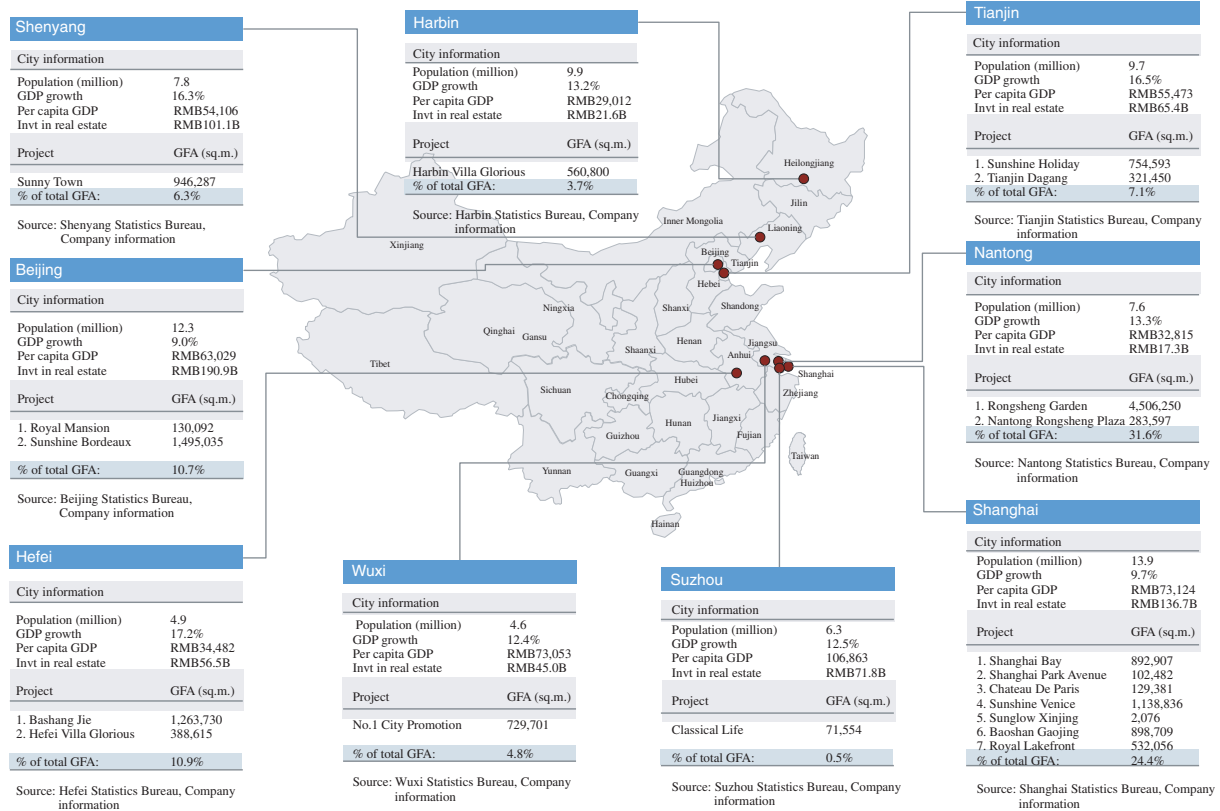

- **Expand into high growth cities across China:** Leveraging our success in Shanghai, Tianjin and Beijing, we have expanded, and intend to continue to actively and strategically expand, our property development business into other high growth cities within China. As at 31 July 2009, we had eight projects at different stages of development in Wuxi, Suzhou, Nantong, Hefei, Shenyang and Harbin.

Our business strategies and objectives are set out in the paragraph headed “— Our Strategies”. In particular, we intend to gradually expand into the hotel, retail and office property sectors in China by increasing our investment in high quality commercial properties with the goal of diversifying and enhancing the stability of our future revenue in a prudent manner. We have entered into long-term management agreements with Key International Hotels Management Co., Ltd., a joint venture partially owned by Kempinski Hotels S.A. of Europe, and with Holiday Inns (China) Limited, a subsidiary of InterContinental Hotels Group, for the management and operation of the hotels in Shanghai Bay and No. 1 City Promotion, respectively. In line with our strategy, we also aim to selectively retain certain commercial properties developed or to be developed by us as investments in order to achieve a more diversified and balanced earnings base and to increase the proportion of our revenue generated from recurring rental income in the coming years. We believe such diversification of income sources will allow us to better formulate our capital expenditure budget and plan our financing arrangements in respect of our future property development projects. In addition to acquiring land from the government by participating in the tender process, we also intend to continue to explore other effective ways to replenish and secure our land bank, including acquiring project companies that have access to suitable sites. We also intend to continue to enter into various types of master agreements with local governments for urban redevelopments in order to gain a competitive position in the subsequent tender processes. For details of our strategies, please refer to the paragraph headed “— Our Strategies” below.

The following map shows the locations and other information of our land bank as at 31 July 2009, with a total planned GFA of 13,598,083 sq.m., which includes properties with an aggregate planned GFA of 6,051,874 sq.m. in respect of which we have signed master agreements with the local

BUSINESS

governments but had not, as at the Latest Practicable Date, concluded the public tender process and entered into the land grant contracts and, therefore, with respect to which we cannot guarantee that we will be successful in obtaining the land use right certificates.

Our portfolio currently includes apartments, townhouses, retail properties, offices and hotels. Many of our residential projects are integrated developments, which offer a comprehensive range of ancillary facilities such as clubhouses, gardens, schools and retail outlets. For the year ended 31 December 2008, we generated substantially all of our revenue from the sale of residential properties. In view of the increasing demand and strong appreciation potential for commercial properties in the PRC and minimising volatility in cash flow from the sale of residential properties, we seek to build a steady source of recurring income by gradually expanding our investment property portfolio and retaining some of our commercial properties for investment purpose.

In order to have the flexibility of maintaining an integrated and diversified business model, we are developing, and plan to develop, several high quality hotels located in various cities which we may retain as investment properties. We have entered into long-term management agreements with Key International Hotels Management Co., Ltd., a joint venture partially owned by Kempinski Hotels S.A. of Europe, and with Holiday Inns (China) Limited, a subsidiary of InterContinental Hotels Group, for the management and operation of the hotels in Shanghai Bay and No. 1 City Promotion, respectively. In addition, the serviced apartment block in Shanghai Park Avenue will be managed by Key International Hotels Management Co., Ltd. in Shanghai. Although we had disposed this serviced apartment block in Shanghai Park Avenue, we believe that the management of properties developed by us by such internationally renowned hotel management companies can enhance the profile and business prospects of our properties.

BUSINESS

OUR COMPETITIVE STRENGTHS

We have established a leading role in key economic cities such as Shanghai and Tianjin, positioning us to benefit from the expected strong economic growth and prosperous property markets in these cities

The growth potential of a city’s property market is to a significant extent driven by the development and prospects of the city’s economy, and we are of the view that certain key economic cities are at the forefront of China’s economic development. We believe that our established strong presence and leading role in these key economic cities have positioned us, and will continue to position us, to benefit from the expected strong economic growth in these cities and their active property markets.

Shanghai is a rising economic and financial centre of China and had one of the highest GDPs per capita in China in 2008. It has one of the most competitive property markets in the PRC while its local property market also attracts the highest international and domestic demand for property of any property market in China. As we successfully establish ourselves as a leading property developer in Shanghai over the past 13 years, we have witnessed the tremendous growth of this city from a national commercial capital to the centrepiece of the world’s fastest growing economy. We have also witnessed the growth of Shanghai from a city having a less mature property market in 1996 during which the average property price was RMB2,968 per sq.m. to one of the most appealing cities in China with the average property price of RMB11,707 per sq.m. for the first seven months in 2009. The Central Government has made it a high-level strategic objective to develop Shanghai into an international financial and shipping centre and is expected to grant preferential treatment and incentive policies to Shanghai to facilitate such development. The Shanghai Municipal Government also has a clear aim to develop Shanghai into a domestic and international trade centre for the country. With the momentum provided by these policies, we believe the development of Shanghai will progress to a new stage in the coming ten years and become a driving force behind the Shanghai real estate market. In addition, Shanghai will be positioned as an Asian-based metropolis serving Greater China with a global perspective, and the Shanghai World Expo 2010 is expected to have a positive effect on the urban development of Shanghai and provide further support to Shanghai’s real estate market.

We have won a number of awards for the projects we have completed in Shanghai. For example, our Sunshine Venice was ranked second in Commodity Housing Sales in Shanghai in terms of contracted area by Shanghai Real Estate Trading Center in 2003. We have high quality land bank at prime locations in Shanghai, most of which are located around the Inner Ring Road and the Middle Ring Road and we believe the location of our land bank is difficult for our competitors to replicate. An example would be our flagship project Shanghai Bay, which is located along the western area of the Shanghai World Expo site, overlooking the Shanghai World Expo venue and having the irreplaceable view of Huangpu River.

Tianjin, after Shanghai, is the second city into which we ventured. We started developing our business in Tianjin in 2003 and have established a solid foothold after six years of well recognised efforts. Tianjin is one of the four municipalities administered directly by the PRC Central Government. Our “Sunshine Holiday (陽光星期六)” in Tianjin was awarded the China Real Estate Gold Housing Award (中國金房獎) in 2006, and our project development company, Tianjin Yangguang Xindi, was also awarded the Meritorious Enterprises Award for Investment in Tianjin (投資天津功勳企業獎).

BUSINESS

We believe that our achievements in Tianjin have demonstrate that we have the capability of replicating our success in Shanghai in other cities. We believe that, by leveraging our success and strength in Shanghai and Tianjin, we are well positioned to continue to benefit from the strong growth in these cities while further expanding and strengthening our position in other strategically selected key economic cities.

We have a sizeable high quality land bank located in key economic cities, including Shanghai, Tianjin and Beijing, which provides us with long-term development and growth opportunities

As at 31 July 2009, we had a land bank of 5,207,048 sq.m. located in Shanghai, Tianjin and Beijing, representing 38.3% of our total land bank (of which, 1,812,573 sq.m. was GFA for which we have signed master agreements with the relevant local governments but had not, as at the Latest Practicable Date, completed the public tender process or entered into the land grant contracts and, therefore, with respect to which we cannot guarantee that we will be successful in obtaining the land use right certificate). Most of our land bank is located at prime locations. In particular, our projects in Shanghai are strategically located either in well established prime locations such as in the vicinity of the Huangpu River or Inner Ring Road and Middle Ring Road, or in areas which we believe have high growth potential. We believe that the prime location of our land bank and our unique strategic vision are difficult for our competitors to replicate. The location and abundance of our land bank supported by our strategic vision have laid a strong foundation for the success of our future property development.

Our flagship project, "Shanghai Bay (尚海灣)", in Shanghai is situated along the west bank of the Huangpu River and faces the Shanghai World Expo Site. The project has a total planned GFA of approximately 892,907 sq.m. and is one of the largest integrated comprehensive developments along the Huangpu River, which includes two high quality hotels, one shopping mall, offices and up-market residential units. The hotels and offices are expected to commence operations in 2011 in anticipation of the increasing market demand for hotels and offices that the success of Shanghai World Expo in 2010 may bring. In particular, as a result of the Shanghai World Expo, we believe that the surrounding environment and urban infrastructure will be significantly improved by 2011. For example, the Shanghai M7 subway network, which is currently scheduled to complete by the end of 2009, is expected to provide convenient and direct access to the Shanghai World Expo Site, its ancillary facilities that are currently under construction as well as other landmark areas in Shanghai, such as Jing'an commercial district, Huaihai Road commercial district, Century Park district in Pudong as well as Zhaojiabang Road which is adjacent to the Xujiahui commercial centre. In addition, given that Shanghai World Expo is to be the next part of a national strategy of opening up to the world after the Beijing Olympics, the Shanghai World Expo Site and its surrounding area are expected to become a symbol for the modernisation of Shanghai, which is expected to attract tourists worldwide and throughout the PRC, boost the demand for hotels, up-market residential properties, recreational centres and shopping malls and provide a suitable environment for up-market office buildings. The project is located closed to the Fenglin Biomedical Center (楓林生命科學園區), which is expected to be the third integrated business area after the Hongqiao Economic Development District (虹橋經濟開發區) and Lujiazui Central Financial District (陸家嘴商業區) in Shanghai.

BUSINESS

The following map shows the location of our selected projects in Shanghai held by us as of 31 July 2009.

- ① Shanghai Bay ② Shanghai Park Avenue ③ Sunshine Venice ④ Chateau De Paris ⑤ Baoshan Gaojing

Another aspect of the high quality of our land bank is reflected in the appreciation potential of its value. With the extensive experience and insights of our management team, we have been able to identify and acquire land sites with future appreciation potential that could provide us with attractive profit margin. For example, the bidding price for the two parcels of land near our Royal Lakefront in Fengxian in the public tender process from the third parties in May 2009 is substantially higher than

BUSINESS

what we paid for our Royal Lakefront in early 2008. We also successfully bid for the Baoshan Gaojing project in early 2004 when the surrounding areas were still under heavy construction and rezoning. However, after five years of continuous development, Shanghai Wujiaochang Hi-Tech Park (五角場創業園), which is close to Baoshan Gaojing, has been developed into a commercial and educational centre in Shanghai. There is now a convenient transportation network, including two light rail lines, in the vicinity of Baoshan Gaojing.

We are of the view that a property developer’s decisions on land acquisition should not be completely led by the market sentiment. Because of our understanding of the preferences and trends which determine our target markets, we believe that we will be able to acquire land in strategic locations at the early stages of an appreciation cycle. The subsequent appreciation in land price of the areas surrounding our projects has demonstrated the strategic vision of our management team.

We adopt proactive and strategic approaches to replenish our land bank and we have a strong project acquisition pipeline

We have acquired a portion of our current land bank by participating directly in the tender process held by local governments. By adopting this direct acquisition approach in building up our land bank, we are able to acquire land at early stages of its appreciation cycle. For example, Royal Lakefront is located in the Shanghai Fengxian Modern Agricultural Zone (上海奉賢現代農業園區), one of the biggest agricultural zones in Shanghai. The project is adjacent to an exit off of the A4 motorway, which connects Shanghai to Hangzhou, and is close to Hangnan Road (航南路) and Jinhai Road (金海路) in Fengxian district. We started to explore this area in 2007 due to its generally improving surrounding facilities and growth prospects in the area. We acquired the land for Royal Lakefront in early 2008 and it has appreciated substantially in value since our acquisition.

In addition to acquiring target land by directly participating in the tender process held by local governments, we also cooperate with various local governments in their urban redevelopment programmes. Through such participation, we have entered into a number of master agreements with the local governments for land sites located in Shanghai, Tianjin, Beijing, Nantong and Shenyang with a total planned GFA of 6,051,874 sq.m.. Under the master agreements, we may obtain a right to be involved in the urban redevelopment or government zoning process at early stages. Depending on the particular circumstances, we may be required to pay certain costs pursuant to the relevant master agreements, such as land compensation fees and relocation fees. As at 31 July 2009, we had paid a total amount of RMB112 million under master agreements, which is refundable in the event that we fail to win the bid for the relevant land in the subsequent public tender, auction or listing for bidding process. In this manner we are able to gain more insight into a particular land parcel and development plans of local governments, which we believe increases our chances of obtaining the relevant land grant contracts in the subsequent public tender process. Although the master agreements are legally binding, after signing such master agreements we are still required to go through the public tender, auction or listing for bidding process and, if successful, enter into a land grant contract and pay the relevant land premium before we are able to obtain land use right certificates. Phase I of Baoshan Gaojing, Bashangjie Project and Hefei Villa Glorious Project in Hefei, Anhui Province are all projects for which we first signed a master agreement and then successfully signed land grant contracts for the land.

BUSINESS

Apart from building up our land bank through participating in the public tender process, we also actively seek opportunities to acquire small to medium size property development companies that have access to suitable sites. Successful acquisition of target property development companies in the secondary market requires the acquirer to possess effective information and communication channels, extensive experience in fast execution and the ability to make informed decisions in a timely manner. We have established ourselves in this regard and have a proven track record since our first acquisition in 2001 of Shanghai Yijing in Shanghai.

Experienced management team with a strategic vision and proven track record

Our management team has a strong track record in the property development industry and has successfully completed the development of projects with more than 2.8 million sq.m. of GFA since 1996. Our management team has adopted a forward looking approach in identifying target land and has strong execution capabilities. The strategic vision of our management team is demonstrated by the timing of our entry into Shanghai, Tianjin and Shenyang in 1996, 2003 and 2005, respectively. In all three cities, we have benefited from the upward trend of local property prices. We believe that our management’s strategic vision together with the proven track record of their executive capabilities are important factors in ensuring the future development of the Company.

Over the past three years, our key management members have remained substantially unchanged and they share our core corporate values and operating philosophy. Many members of our management team are experienced professionals with recognised national qualifications.

Our management team is also supported by a well-trained workforce. We are highly selective in our hiring process and endeavour to recruit and train employees who have the potential to become long-term effective management staff. We have implemented an incentive scheme combining both a performance-based bonus and an individually tailored career development platform. We believe that recruiting and retaining top talents with local knowledge and overseas experience have enabled us to capitalise on their collective expertise in both the local and international property markets.

Precise product positioning and innovative design

We believe that quality product design and positioning is crucial to our business. For this reason, we have been innovative and flexible in developing our projects in order to cater to the different needs of our customers.

For example, we acquired the land for Shanghai Bay in 2004 when most of the property projects in the surrounding areas were being developed to target middle class customers. In view of the Shanghai 2010 World Expo and taking into account the unique view of the Huangpu River, we positioned Shanghai Bay as a up-market project featuring the Shanghai World Expo site and Huangpu River view. As the surrounding areas have been re-developed by the Shanghai Municipal Government in an effort to prepare it as a showcase for the Shanghai World Expo, an increasing number of customers have also begun to recognise and appreciate the potential and positioning of Shanghai Bay, which has made Shanghai Bay one of the few projects that is appropriately positioned to benefit from the demand expected to be generated by the Shanghai World Expo.

BUSINESS

We have engaged domestically and internationally renowned designers who are experienced in planning and landscaping large-scale properties during the concept design phase of property developments. We also have an in-house product development and design centre which is responsible for our product development and design and consists of experienced research and design staff with strong knowledge in the local market.

In recognition of the high quality and innovative designs of our projects, we have received numerous awards from different organisations. For example, in 2007, our No.1 City Promotion (第一國際) project in Wuxi was designated by the Friends of the United Nations (聯合國友好理事會) and the United Nations Human Settlement Programme (聯合國人居署) as an “International Culture Community” (國際文化社區) and recognised as one of the Top 10 Famous Properties in China (中國房地產十大名盤) in 2007 on China Property Market Development Annual Forum 2007 (2007 中國房地產發展年會) hosted by Enterprise Research Institution of Development Research Center of the State Council, Institute of Real Estate Studies of Tsinghua University and SouFun China Index Institute. Our Sunshine Holiday (陽光星期八) project in Tianjin was awarded the China Real Estate Gold Housing Award (中國金房獎) in 2006 by China Real Estate Chamber of Commerce, Xinhua News Agency, Economic Information Daily and Urban Development and Environmental Research Center of the Chinese Academy of Social Sciences.

Diversified earnings base with a wide product offering and balanced business model

We offer a wide range of products including apartments, townhouses, retail properties, offices and hotels in nine different cities across the PRC. In positioning our products, we take into account a broad range of factors, including the location of each individual project, its surrounding environment, purchasing power of local customers, local household and family structures, availability of public transportation and regional economic development. We develop both high quality apartments for up-market residents in prime locations such as Shanghai Bay and large-scale residential or complex developments in suburban areas such as Sunshine Bordeaux in Beijing. By leveraging our knowledge of and insights into current and future market trends, we believe that we are able to use innovative designs to differentiate our projects from our competitors and our projects have been well received by our target customers.

Building upon our strength as a leading residential property developer, we are also selectively increasing our exposure to the commercial property development business with a view to achieving a diversified earnings base in a prudent manner. We believe there is a growth potential for commercial properties given China’s high economic growth rate and the increasing amount of foreign direct investment into China. As such, we intend to gradually increase our exposure to the commercial property market by expanding our commercial property development portfolio and may retain some of our commercial property developments as investments in Shanghai, Tianjin, Beijing and other provincial capitals in the coming years. We believe that the retention of such investment properties will enhance the stability of our revenue streams and reduce the operational risks that we may otherwise face as a pure residential developer.

BUSINESS

OUR STRATEGIES

Strengthen our leading market position in Shanghai and further expand our operations in Tianjin and Beijing

We will continue to strengthen our market positions in Shanghai, Tianjin and Beijing as we believe property developments in these key economic cities will continue to be the most profitable against the backdrop of their strong economic growth. By maintaining a strong presence in these cities, we believe we can enhance our brand profile, increase our pricing power and attract more talent in the industry.

We aim to have at least five projects concurrently under development in each of Shanghai, Tianjin and Beijing in the long term through a combination of sources of funding, including, among others, bank borrowings and pre-sale proceeds of properties. Of the five projects in each key city, two will be large scale projects with a total planned GFA of around 500,000 sq.m., supplemented by three smaller scale projects with a total planned GFA of around 200,000 sq.m. As of 31 July 2009, we had seven projects in Shanghai either completed and held for sale or investment, under development or held or to be acquired for future development. These seven projects had a total land bank of approximately 2.7 million sq.m.. We are actively exploring other potential acquisition opportunities in Shanghai with the aim of further strengthening our leading market position in this city. We plan to increase the number of projects in Tianjin and Beijing to the same level as in Shanghai in the long term. We believe smaller scale projects will generate profits in the short-term due to a shorter development cycle, while large scale projects will be our key revenue driver in the medium to long-term, so as to offer us sustainable revenue growth over the long run.

Selectively expand our business into other key economic cities with high growth potential

While we expect to benefit from the continued economic expansion in Shanghai, Tianjin and Beijing, we also intend to increase our focus on other key economic cities in China with a view to capturing the economic growth in these cities and to geographically broaden our revenue base. In this regard, we will fund our future expansion plans with bank borrowings and pre-sales proceeds of properties. With our successful experience in Shanghai, Tianjin and Beijing, our in-depth local knowledge and strong market reputation, we believe we can identify potential development opportunities in a timely manner to replicate our success as we expand into other key economic cities in China and take advantage of their expected high economic growth.

A key part of our expansion strategy is to build a successful business model in regional hubs including Shanghai, Tianjin and Beijing and then expand into other key economic cities in these regions. Our success in Shanghai, for example, has led to our gradual expansion to the cities in the Yangtze River Delta area including Wuxi, Nantong, Suzhou and Hefei. Our well-established position in Tianjin and Beijing has also presented opportunities for us to venture into the property markets in the neighboring cities in the Pan-Bohai Rim area.

BUSINESS

Increase our focus on integrated and high quality property developments in prime locations to promote our “Glorious Property” brand

Our long-term strategy is to focus on developing high quality up-market products in prime locations and position our “Glorious Property” brand as a premier brand across the PRC. We have already accumulated and will continue to replenish our premium land bank which is suitable for up-market project development.

Two of our project developments in Shanghai, Shanghai Park Avenue (皇家花園) and Chateau De Paris (陽光巴黎), have demonstrated our future market positioning as an integrated and high quality property developer targeting the upper segment of the market. Shanghai Park Avenue is located at the intersection of Yili Road (伊犁路) and Anshun Road (安順路) in Changning District (長寧區), adjacent to the Gubei Business District (古北商業區). Shanghai Park Avenue is also adjacent to Hongqiao Central Park (虹橋中心公園) and most of its apartments offer a full view of the green area of Hongqiao Central Park. Shanghai Park Avenue consists of five buildings with a total GFA of 102,482 sq.m. which are designed and managed by renowned designers and property management companies.

Another project in Shanghai, Chateau De Paris, is located in the commercial centre of Xuhui District (徐滙區). The project is a large-scale residential and retail development with a total planned GFA of approximately 129,381 sq.m. The project is located in the vicinity of a few recreation facilities such as Shanghai Municipal Library and Shanghai Stadium as well as renowned educational institutions such as Xuhui Middle School (徐滙中學) and Shanghai Jiao Tong University (上海交通大學). We believe Chateau De Paris is a benchmark for up-market residential projects in Xuhui District and an ideal home for middle to high-income households and individuals upon its completion.

We also intend to continue to promote our “Glorious Property” brand by engaging internationally renowned architects and expanding our experienced in-house designers team, creating innovative and distinctive products, using premium materials and fittings in the construction and furnishing of our properties, delivering top quality products to our customers and providing strong after-sales support. We have established the Huangpu Customers Club (皇浦薈客戶俱樂部) to provide quality after-sales services to our customers and enhance the nationwide recognition of our brand. We are confident that we will be able to develop “Glorious Property” into a brand name synonymous with excellence, quality, nobility and trust in the property industry in China.

Diversify income streams through the holding of investment properties

We intend to gradually expand into the hotel, retail and office property sectors in China to diversify and to enhance the stability of our revenue streams. We aim to achieve a diversified earnings base balanced between development activities, which generate profits from selling completed development projects, and investment activities, which generate recurring rental income through our retention of office, retail and hotel assets for long-term investment purposes. With our increasing exposure to the commercial property sector, we expect that our revenues from rental income will increase in the next three years.

BUSINESS

Given the increasing importance of the service industry in China’s economy and growing institutional focus on commercial properties investment in China, we believe that market demand for high quality commercial properties in China will continue to rise. Commercial property is also less affected by the central government’s austerity measures and therefore faces less policy risks. As such, we intend to gradually increase our exposure to commercial properties by retaining part of our commercial property developments in prime locations for long-term investment purposes. Examples of our commercial property development project include the Shanghai Bay, a mixed use development comprising residential, retail, office and hotel facilities.

As part of our integrated and diversified business model, we are also in the process of developing, and plan to develop, several high quality hotels. We have entered into long-term management agreements with Key International Hotels Management Co., Ltd, a joint venture partially owned by Kempinski Hotels S.A. of Europe, and with Holiday Inns (China) Limited, a subsidiary of InterContinental Hotels Group for the management and operations of the hotels in Shanghai Bay and No. 1 City Promotion. We believe that the management of our hotels by such internationally renowned hotel management companies can enhance the profile and prospect of our hotel properties.

Continue to apply our strategic vision and explore various ways to replenish and secure our future land bank

In light of a possible decrease in land supply due to increasing government control, our management team will continue applying our strategic vision to explore different ways to replenish and secure our future land bank. We adopt a strategy of gradual and prudent land bank expansion, taking into account our financial capacity before making new acquisitions. In addition to acquiring land through entering into land grant contracts with the PRC Government, we will continue to leverage our proven expertise to acquire project companies that have access to suitable sites. We will also continue to collaborate with various local governments in urban redevelopment, as this will give us an opportunity to be involved in the early stages of development plans, help us gain insights into the relevant land and place us in a competitive position to bid for the cleared land. We base our land acquisition decisions on thorough research and analysis of a project’s expected return in the context of forecasted future property and economic trends in the relevant city.

OUR BUSINESS

Overview of Our Projects

As at 31 July 2009, we had 19 projects in various stages of development. Our properties are located in Shanghai, Tianjin, Beijing, Wuxi, Suzhou, Nantong, Hefei, Shenyang and Harbin and can be broadly classified as follows:

- Completed properties held for sale or investment, which comprise property projects we had completed but had not disposed of as of 31 July 2009, with the certificates of completion issued by the relevant government authorities;
- Properties under development, which comprise property projects with respect to which we had received land use rights certificates and construction permits or approval letters for early construction but had not, as of 31 July 2009, obtained the certificates of completion;

BUSINESS

- Properties held for future development, which comprise property projects with respect to which we had obtained the land use rights certificates but had not, as of 31 July 2009, obtained the requisite construction permits or approval letters for early construction;
- Properties contracted to be acquired, which comprise property projects with respect to which we had signed the relevant land grant contracts with the relevant PRC land administrative authorities or had successfully tendered for the relevant project but had not, as of 31 July 2009, obtained the land use right certificates; and
- Projects to be acquired for future development, which comprise property projects with respect to which we had signed master agreements with the local government authorities, but had not, as of 31 July 2009, completed the public tender, auction or listing for bidding process, had not entered into a land grant contract and had not obtained the land use rights certificates.

We have entered into a series of master agreements with the local governments pursuant to which we are able to obtain the right to be involved in the local government’s urban re-development or zoning process at early stages. Depending on the particular circumstances, we may be required to pay certain fees pursuant to the relevant master agreements such as land compensation fees and relocation fees, which fees will be deducted from the land premium to be paid by us if subsequently we successfully tender for this land and sign a land grant contract. Through such process, we are able to gain insights into the details of the particular land parcels and development plans of the relevant government authorities in the relevant districts, which increases our chances of successfully obtaining the relevant land in the subsequent public tender and auction processes. After signing the master agreements, we are still required under the relevant PRC laws and regulations to go through the public tender, auction or listing for bidding process and, if we are successful in the public tender, enter into a land grant contract and pay the relevant land premiums in full before we are eligible to apply for the land use rights certificates. As such, there is no assurance that we will be successful in securing the land grant contracts and/or obtaining the relevant land use rights certificates in respect of projects falling within the category of “properties to be acquired for future development”. In the event that we are not successful in the public tender and auction process in respect of such projects, we will not be able to engage in the development of such projects and will not have access to any of the associated GFA for development or sale.

As of 31 July 2009, our land bank comprises a total completed GFA of 458,450 sq.m., a total GFA under development of 1,607,556 sq.m., a total planned GFA of 2,588,489 sq.m. held for future development, a total planned GFA of 2,891,714 sq.m. contracted to be acquired, and a total planned GFA of 6,051,874 sq.m. to be acquired for future development. The total planned GFA of 6,051,874 sq.m. to be acquired for future development is attributed to our future projects in respect of which we have only entered into master agreements but had not yet, as at the Latest Practicable Date, completed the public tender auction or listing for bidding process, entered into relevant land grant contracts or obtained the relevant land use right certificates. Details of these projects are separately set out in the section paragraph headed “— Projects to be acquired for future development”.

BUSINESS

The following table sets forth details of our projects as of 31 July 2009 in accordance with the classification above (other than properties to be acquired for future development).

Project name	Location	GFA				Land bank			Construction commencement/Expected construction commencement	Construction completion/Expected completion time	Pre-sales commencement day	Interest attributable to us (%)	Reference to valuation report (Property number)

(1) The 25,447 sq.m. of GFA sold and delivered in Chateau De Paris Phase I included 4,778 sq.m. of retail; The 112,260 sq.m. of GFA sold and delivered in Sunny Town Phase I included 7,501 sq.m. of retail and 2,320 sq.m. of carparks; The 65,781 sq.m. of GFA sold and delivered in Shanghai Park Avenue included 4,076 sq.m. of carparks; The 159,047 sq.m. of GFA sold and delivered in No.1 City Promotion (Phase I) included 656 sq.m. of carparks.

(2) The 10,998 sq.m. of GFA pre-sold and undelivered in Shanghai Park Avenue included 823 sq.m. of retail.

(3) Includes saleable/leasable clubhouses.

(4) Includes saleable/leasable carparks, convention centre and non-saleable/ non-leasable GFA.

(5) The 664,802 sq.m. GFA sold and delivered in Sunshine Venice included those sold and delivered before the Track Record Period.

(6) The 12,925 sq.m. retail component of Sunny Town (Phase II) had not commenced construction as of 31 July 2009.

(7) For the projects under construction and completed projects held for sale/investment, the Directors confirmed that the construction commencement date had complied with the relevant Construction Work Commencement Permit (建築工程施工許可證). As at the Latest Practicable Date, our PRC legal adviser, Commerce and Finance Law Offices, confirmed that they had not found any land owned by the Company that is subject to the possibility of forfeiture or penalties due to the delay of construction.

(8) Sunshine Venice IIIB includes a few blocks and its revenue began to be recognised upon the delivery of the first block. Therefore although the construction of all blocks of Sunshine Venice Phase IIIB will be completed by August 2009, the Company had been able to deliver the completed blocks and recognise revenue as of 31 July 2009.

BUSINESS

In general, land use rights in China are granted for a term of 70 years for residential properties, 40 years for commercial properties and 50 years for comprehensive use properties. The relevant authorities will not issue a formal land use rights certificate in respect of a parcel of land until the construction land use approval and the land planning permit have been obtained by the developer, and the land premium has been paid in full and the resettlement process completed. As a result, according to the pace of development, the land for a property development may be divided into one or more parcels for which multiple land use rights certificates are granted at different stages of development.

The site area information for an entire project is based on either the relevant land use rights certificates, land grant contracts or tender documents, depending on which document is available. The total GFA of a project includes saleable and non-saleable GFA. “Saleable GFA” represents the GFA of a property which we intend to sell and which does not exceed the multiple of the site area and the maximum permissible plot ratio as specified in the relevant land grant contracts or other approval documents from the local governments relating to the project. “Non-saleable GFA” represents the GFA of a property that is not for sale and largely includes ancillary facilities.

The figures for completed GFA that appear in this document are based on figures provided in the relevant government documents. The following information that appears in this document is based on our internal records and estimates: (a) figures for GFA of projects under development, GFA of projects for future development, GFA of projects contracted to be acquired, GFA of projects to be acquired for future development, GFA sold, GFA pre-sold, saleable/leasable GFA, non-saleable/non-leasable GFA and (b) information regarding total development cost (mainly including land cost, construction costs and capitalised finance costs), outstanding cost for each project, planned construction period and average selling price. The information setting out the construction period for the completed blocks or phases of our projects in this document is based on relevant government documents or our own internal records.

Properties are sold when the purchase contract with a customer has been executed and the property has been delivered to the customer. Properties are pre-sold when the purchase contract has been executed but the property has not yet been delivered to the customer. For the purpose of this section, average selling price in respect of each project, or, where applicable, each phase of a project, is derived by dividing total proceeds received from pre-sale and/or sale as of 31 July 2009 by the total GFA pre-sold and/or sold as of 31 July 2009. The average selling prices in this section therefore may differ from the recognised average selling prices disclosed in the section headed “Financial Information” in two aspects: (i) each average selling price disclosed below corresponds to the pre-sale and sale life of the relevant project (or of the relevant phase of a project) up to and as at 31 July 2009, whereas each recognised average selling price disclosed in the section headed “Financial Information” only corresponds to the relevant financial year during the Track Record Period; and (ii) the calculation of each average selling price disclosed below takes into account the proceeds from pre-sale before they have been recognised as revenue, as well as pre-sold GFA before they have been delivered, whereas each average selling price disclosed in the section headed “Financial Information” is calculated based on the recognised revenue and total GFA delivered within the relevant financial year. Please refer to “Financial Information — Selected Income Statement Items — Revenue” for the recognised average selling prices calculated based on recognised revenue for each of the three financial years ended 31 December 2008 and the four months ended 30 April 2009.”

BUSINESS

We include in this document the project names, which we have used, or intend to use, to market our properties. Some of the names for our property developments are pending approval by the relevant government authorities and may be subject to change.

OUR PROPERTY DEVELOPMENT PROJECTS

Shanghai

Shanghai Bay (尚海灣)

Shanghai Bay — Phases I, II and III (Binjiang Center) are located on Wan Ping South Road (宛平南路), Xuhui District (徐匯區) along the west side of the Huangpu River (黃浦江), overlooking the Shanghai World Expo Site. The project is one of the largest integrated developments on the Huangpu River. Construction of the subway leading to the Shanghai World Expo venue is under way and is expected to be completed by the end of 2009. The project is adjacent to the Longhua Tourist City (龍華旅遊城).

The project occupies an aggregate site area of approximately 178,734 sq.m. and has a total planned GFA of approximately 892,907 sq.m., including 107,477 sq.m. of properties subject to the Shanghai Bay Arrangement (described below). Upon completion, Phases I and II of the project are expected to include 16 residential buildings with a total saleable GFA of approximately 433,923 sq.m. and retail facilities with a total leasable GFA of approximately 98,444 sq.m. The retail facilities of Phase IIB, which include a shopping mall, will have a total leasable GFA of approximately 90,430 sq.m..

BUSINESS

Upon completion, Phase III of Shanghai Bay, Binjiang Center (濱江中心), is expected to include two buildings, namely, North Block and South Block. The North Block of the Binjiang Center is expected to include a high quality hotel with 290 guest rooms and a total leasable GFA of approximately 52,412 sq.m., a total leasable GFA of approximately 20,493 sq.m. for office use and a total leaseable GFA of 2,954 sq.m. for retail use. The South Block of the Binjiang Center will be a high quality hotel with 660 guest rooms with a total leaseable GFA of 89,700 sq.m.. This hotel will become the first hotel in Puxi Shanghai that is able to use the brand name Kempinski. The total development costs incurred in respect of this hotel as of 30 June 2009 were approximately RMB419 million and the outstanding costs required to complete the development were estimated to be approximately RMB1,004 million. We have entered into a hotel management agreement with Key International Hotels Management Co., Ltd for management of the hotel’s daily operations. Key International Hotels Management Co., Ltd is a joint venture between Beijing Tourism Group and Kempinski Hotels S.A, which intends to deliver professional hotel management to the China tourism industry by developing and operating high quality Kempinski hotels in China. Pursuant to the hotel management agreement, the hotel management company will be responsible for managing the daily operation of the hotel, including formulating operational and strategic plans for the hotel’s business. The management fees to be paid to the hotel management company will be calculated based on a percentage of the hotel’s revenues plus certain incentive fees. These payment arrangements with the hotel management company are in line with industry practice and are designed to align the hotel management company’s interests with ours. The hotel management company is also responsible for recruiting and training the hotel staff.

BUSINESS

The project is located close to the Fenglin Biomedical Center (楓林生命科學園區), the third integrated business area after the Hongqiao Economic Development Zone (虹橋經濟技術開發區) and Lujiazui Central Financial District (陸家嘴中央商務區) in Shanghai. The project will also have a number of themed gardens and its green coverage ratio within the residential community is expected to exceed 40%. Upon completion, most of the residential apartments of Shanghai Bay will enjoy the scenic view of the Huangpu River. The residents in Shanghai Bay will be provided with easy access to a wide range of amenities including clubhouses, a kindergarten and other retail and leisure facilities.

As of 31 July 2009, we were still in the process of developing Phase I, IIA and III (Binjiang Center) of Shanghai Bay. Details of Phase I of Shanghai Bay as of 31 July 2009 were as follows:

Phase I ⁽¹⁾	Residential	Retail
Planned Construction period	May 2006 — November 2009/ December 2010	May 2006 — November 2009/ December 2010
Total saleable/leasable GFA (sq.m.)	188,272	5,658
GFA sold/pre-sold (sq.m.)	111,587	N/A
Average selling price per sq.m. (RMB)	30,869	N/A

Note:

(1) Phase I of Shanghai Bay will include 586 saleable/leasable carpark spaces upon completion.

Details of Phase IIA of Shanghai Bay as of 31 July 2009 were as follows:

Phase IIA ⁽¹⁾	Residential	Retail
Planned construction period	August 2006 — March 2011	August 2006 — March 2011
Total saleable/leasable GFA (sq.m.)	46,801	2,356

Note:

(1) Phase IIA of Shanghai Bay will include 204 saleable/leasable carpark spaces upon completion.

Details of Phase III (Binjiang Center) of Shanghai Bay as of 31 July 2009 were as follows:

Phase III (North block)⁽¹⁾	Office	Hotel	Retail
Planned construction period	September 2006 — December 2011	September 2006 — December 2011	September 2006 — December 2011
Total saleable/leasable GFA (sq.m.)	20,493	52,412	2,954

Note:

(1) Phase III (North block) of Shanghai Bay will include 362 saleable/leasable carpark spaces upon completion.

BUSINESS

Phase III (South block)⁽¹⁾	Hotel
Planned construction period	September 2006 — May 2011
Total saleable/leasable GFA (sq.m.)	89,700

Note:

(1) Phase III (South block) of Shanghai Bay will include 307 saleable/leasable carpark spaces upon completion.

As of 31 July 2009, we had not commenced the construction of Phase IIB of Shanghai Bay. Details of Phase IIB of Shanghai Bay as of 31 July 2009 were as follows:

Phase IIB ⁽¹⁾	Residential	Retail
Planned construction period	January 2010 — December 2012	January 2010 — June 2014
Total saleable/leasable GFA (sq.m.)	198,850	90,430

Note:

(1) Phase IIB of Shanghai Bay will include 1,458 saleable/leasable carpark spaces upon completion.

Based on our estimates, the total development cost incurred in respect of Shanghai Bay as of 30 June 2009 was approximately RMB2,727 million, including RMB549 million of land cost. The outstanding cost required to complete the development as of 30 June 2009 was estimated to be approximately RMB8,006 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

We entered into the land grant contracts with the local government in respect of Shanghai Bay in August 2004 and December 2004. As of 31 July 2009, all relevant land use rights certificates had been obtained and the land premium had been fully paid for all phases of Shanghai Bay.

We are developing this project through our wholly-owned subsidiary Shanghai Xintai (上海鑫泰房地產開發有限公司). A total capital value of RMB18,090 million was attributable to Shanghai Bay as of 31 July 2009 in the property valuation report as set out in Appendix IV, all of which was attributable to our interest in the project.

As of 31 July 2009, Shanghai Bay had received the following awards and recognition:

- Award for Most Influential Property with Leading Quality in China in 2008 (Shanghai) (2008 中國(上海)地產最具影響力領袖氣質樓盤獎), awarded by Liberation Daily, Xin Min Evening News and Shanghai Morning Posts;
- The Fifth China Real Estate Internet Popularity Ranking - Shanghai Real Estate Model Property (第五屆中國房地產網絡人氣榜上海房地產標杆樓盤), awarded by www.Soufun.com;

BUSINESS

Shanghai Bay Arrangements with the Shanghai Industrial Group

In August 2009, pursuant to a series of related agreements (the “Shanghai Bay Arrangements”), we transferred our legal ownership interests in Block No. 2 and 8 of Shanghai Bay, with a total GFA of 56,305 sq. m., to an indirect wholly-owned subsidiary of Shanghai Industrial Holdings Limited, a company listed on the Stock Exchange (together with its subsidiaries, “Shanghai Industrial Group”). In return, we received a payment of approximately US\$190.2 million (equivalent to RMB 1.3 billion) which we used to partially redeem the Original Notes.

We will receive a second payment in an amount equal to the US\$ equivalent of RMB0.7 billion when we transfer our legal interests in additional Blocks Nos. 9 and 10 of Shanghai Bay with a total GFA of 51,171 sq. m. to Shanghai Industrial Group. We intend to use approximately US\$28 million of such funds to repay the amount outstanding under the bridge loan, the details of which are set out in “History, Reorganisation and Group Structure — Financing”. We will deposit the balance of approximately US\$74 million into an account of Bright New that has been pledged as collateral for the Financing and may only be used for operating expenses and permitted uses until such financing is repaid.

Under the Shanghai Bay Arrangements, we have the right and obligation to reacquire the Projects and Shanghai Industrial Group has the right and obligation to resell such Projects to us on 1 December 2011. Assuming we have transferred Block Nos. 9 and 10, the consideration for the reacquisition of all of the transferred blocks of the Projects will be RMB2 billion. If the transfer of Block Nos. 9 and 10 does not take place, the consideration for the reacquisition of Block Nos. 2 and 8 will be RMB1.3 billion. As part of such arrangements, we have also agreed to ensure that Shanghai Industrial Group receives a “shareholder return” (net of tax) for each of the three years ending 31 December 2011 equalling to 18% per annum of the consideration paid by Shanghai Industrial Group.

The commercial intention for entering into the Shanghai Bay Arrangements was to enable us to obtain financing from, and grant collateral for such financing to, Shanghai Industrial Group. As such, following the transfer of the Projects and prior to 31 December 2011, unless a non-performing event occurs, we still will retain the right to manage and control the construction, pre-sale, sale, and development of the Projects transferred and manage the daily operations of Shanghai Penghui, the entity that will have legal ownership of the Projects during such period. As part of the Shanghai Bay Arrangements, we have also agreed to provide additional security to Shanghai Industrial Group in the form of a pledge of Block No. 6 of Shanghai Bay (once Block No. 6’s development status meets the required standard to be pledged). Such pledge will be released at the time that we repurchase the transferred Projects or when the amount of pre-sale proceeds from Block No. 6 received by Shanghai Penghui reaches RMB350 million (whichever is earlier). Assuming that we do not default in our obligations under the Shanghai Bay Arrangements, including our obligation to repurchase the Projects for RMB 2 billion and to ensure payment of the 18% shareholder return to Shanghai Industrial Group, Shanghai Industrial Group will have no further interest or entitlement in respect of the Projects once we repurchase the Projects.

BUSINESS

Having made due and careful inquiries, the Directors are of the view that the Shanghai Bay Arrangements were entered into on normal commercial terms after arm’s length negotiations with Shanghai Industrial Group and are in the interest of the Shareholders. In addition, from a commercial perspective, the Directors believe that the Shanghai Bay Arrangements are the first step to potential future business opportunities with the Shanghai Industrial Group, which, if they materialise, may bring commercial benefits to our Group. For further details of the terms of the Shanghai Bay Arrangements, including event of defaults, please refer to Appendix VIII headed “Shanghai Bay Arrangements”.

As of 31 July 2009, we were still in the process of developing the Projects, which comprise block Nos. 2, 8, 9, 10 of Shanghai Bay and are subject to Shanghai Bay Arrangement. The Projects have a total planned GFA of approximately 107,477 sq.m. Details of the Projects as of 31 July 2009 were as follows:

	<u>Block No.2</u>	<u>Block No.8</u>	<u>Block No.9</u>	<u>Block No.10</u>	<u>Total</u>
Saleable GFA.....	25,626	28,737	24,169	24,987	103,520
Non-saleable GFA.....	1,011	932	1,156	858	3,957
Total GFA.....	26,637	29,668	25,326	25,846	107,477
	January	January	March	March	
Expected Completion Date of Construction ..	2010	2010	2011	2011	N/A
	January	September	January	January	
Expected Commencement Date of Pre-sale ..	2010	2009	2010	2010	N/A

As of 31 July 2009, we had not commenced the construction of Block No. 6 of Shanghai Bay. Block No. 6 of Shanghai Bay had a total planned GFA of approximately 29,763 sq.m., of which 28,766 sq.m. is saleable GFA. The expected completion date of construction for Block No. 6 is December 2012 and the expected commencement date of pre-sale for Block No. 6 is January 2012. Block 6 is part of Phase IIB of Shanghai Bay.

BUSINESS

Shanghai Park Avenue (皇家花園)

Shanghai Park Avenue is located at the intersection of Yili Road (伊犁路) and Anshun Road (安順路) in Changning District (長寧區), adjacent to the Gubei business district (古北商業區). Yan'an Viaduct and Inner Ring Viaduct run through this area and a subway station within walking distance is under construction. Shanghai Park Avenue is adjacent to Hongqiao Central Park (虹橋中心公園) and some of its apartments offer a view of the Hongqiao Central Park. The Xijiao national guest villa community (西郊國賓別墅區) and the Gubei international residential community (古北國際生活區), are also in the vicinity. Residents of Shanghai Park Avenue can enjoy comprehensive amenities and living facilities in the surrounding area including Gubei Carrefour (古北家樂福), Yew Chung International School (耀中國際學校) and Hongqiao Parkson (虹橋百盛). Shanghai Park Avenue consists of five buildings built in neo-classical style designed by nationally renowned designers. One of the five blocks of Shanghai Park Avenue, namely, Block No. 8, is designated for serviced apartments. Although we have disposed Block No. 8 of Shanghai Park Avenue, it will be managed by Key International Hotels Management Co., Ltd, a joint venture to which Kempinski Hotels S.A. of Europe is a party, with a view to further enhancing the overall quality and promoting the image of Shanghai Park Avenue.

BUSINESS

As of 31 July 2009, we had completed the development of Shanghai Park Avenue. The completed properties occupied an aggregate site area of approximately 24,625 sq.m., and had a total GFA of approximately 102,482 sq.m. The total development cost incurred to complete the development was RMB773 million, including RMB310 million of land cost. Details of Shanghai Park Avenue as of 31 July 2009 were as follows:

Shanghai Park Avenue⁽¹⁾	Residential	Retail ⁽²⁾
Construction period	April 2003 — April 2007	April 2003 — April 2007
Total saleable/leasable GFA (sq.m.)	72,360	2,364
GFA sold/pre-sold (sq.m.) ⁽³⁾	71,880	823
Average selling price per sq.m. (RMB)	25,496	25,000

Notes:

- (1) Shanghai Park Avenue includes 353 saleable/leasable carpark spaces.*
- (2) This includes a clubhouse with a total leasable GFA of approximately 1,541 sq.m..*
- (3) Of the 76,779 sq.m. sold or pre-sold (including 4,076 sq.m. of carparks) approximately 65,781 sq.m. had been delivered and recognised as of 31 July 2009.*

We entered into the land grant contract with the local government in respect of Shanghai Park Avenue in March 2002. As of 31 July 2009, we had obtained all relevant land use rights certificates and had fully paid the land premium for Shanghai Park Avenue.

Shanghai Park Avenue was developed by our wholly-owned subsidiary Shanghai Anshun (上海安順房地產開發有限公司). A total capital value of RMB428 million was attributable to Shanghai Park Avenue as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

BUSINESS

Chateau De Paris (陽光巴黎)

Chateau De Paris — Phase I and Phase II is located at the intersection of Xietu Road (斜土路) and Dongan Road (東安路), Xuhui District (徐滙區). It is situated in the Xujiahui Business District (徐家滙商業區) and is adjacent to the Zhaojiabang Road (肇嘉浜路). The project is an integrated residential and retail development with an aggregate site area of approximately 31,703 sq.m. and has a total planned GFA of approximately 129,381 sq.m.. The residents of Chateau De Paris have easy access to a variety of amenities such as shopping malls, retail shops, banks and cinemas. The retail property in Phase II of Chateau De Paris is currently leased to Carrefour as a shopping centre. Chateau De Paris is also near several recreation facilities such as the Shanghai Municipal Library (上海市圖書館) and Shanghai Stadium (上海體育館) and renowned educational institutions such as Xuhui Middle School (徐滙中學) and Shanghai Jiao Tong University (上海交通大學). The residential area has a high green coverage ratio. We believe that Chateau De Paris is a benchmark for up-market residential projects in Xuhui District and an ideal home for high-income households and individuals.

BUSINESS

As of 31 July 2009, we had completed the development of Phase I of Chateau De Paris, which had a total GFA of approximately 30,891 sq.m. Details of Phase I of Chateau De Paris as of 31 July 2009 were as follows:

Phase I ⁽¹⁾	Residential	Retail
Construction period	April 2002 — April 2004	April 2002 — April 2004
Total saleable/leasable GFA (sq.m.)	21,304	5,099
GFA sold (sq.m.)	20,669	4,778
Average selling price per sq.m.	16,871	35,000

Note:

(1) Phase I of Chateau De Paris includes 89 saleable/leasable carpark spaces.

As of 31 July 2009, we had completed the development of Phase II of Chateau De Paris, which had a total GFA of approximately 98,490 sq.m. Details of Phase II of Chateau De Paris as of 31 July 2009 were as follows:

Phase II⁽¹⁾	Residential	Retail⁽²⁾
Construction period	November 2004 — August 2008	November 2004 — August 2008
Total saleable/leasable GFA (sq.m.)	53,828	17,148
GFA sold/pre-sold (sq.m.) ⁽³⁾	52,906	N/A
Average selling price per sq.m.	23,382	N/A

Notes:

(1) Phase II of Chateau De Paris includes 342 saleable/leasable carpark spaces.

(2) This includes a clubhouse with a total leasable GFA of approximately 1,589 sq.m.

(3) Of the 52,906 sq.m. sold or pre-sold, approximately 48,113 sq.m. had been delivered and recognised as of 31 July 2009.

The total development cost incurred to complete the development of Chateau De Paris as of 30 June 2009 was RMB847 million, including RMB232 million of land cost.

As of 31 July 2009, we had obtained all relevant land use rights certificates and had fully paid the land premium for Phases I and II of Chateau De Paris.

We developed this project through our wholly-owned subsidiary Shanghai Haosen (上海豪森房地產有限公司). A total capital value of RMB565 million was attributable to Chateau De Paris as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

BUSINESS

Sunshine Venice (陽光威尼斯)

Sunshine Venice — Phases I to IV is located on Taopu Road (桃浦路), Putuo District (普陀區). Phases I, II and III of Sunshine Venice are large-scale residential and retail community property developments and Phase IV is a serviced apartment development. The residential community of Sunshine Venice is adjacent to a large theme park on Jinding Road (金鼎路). The project occupies an aggregate site area of approximately 429,929 sq.m. and has a total planned GFA of approximately 1,138,836 sq.m.

As of 31 July 2009 we had completed the development of Phases I, II and IIIA of Sunshine Venice. The completed properties had a total GFA of approximately 792,475 sq.m.

Details of Phases I, II and IIIA of Sunshine Venice as of 31 July 2009 were as follows:

Phase I, II and IIIA ⁽¹⁾	Residential	Retail
Construction period	November 2002 — September 2006	November 2002 — September 2006
Total saleable/leasable GFA (sq.m.)	664,933	33,793
GFA sold/pre-sold (sq.m.) ⁽²⁾	664,933	N/A
Average selling price per sq.m. (RMB)	6,836	N/A

Notes:

(1) Phases I, II and IIIA of Sunshine Venice include 1,240 saleable/leasable carpark spaces.

(2) Of the 664,933 sq.m. sold or pre-sold, approximately 664,802 sq.m. had been delivered and recognised as of 31 July 2009.

BUSINESS

As of 31 July 2009, we were still in the process of developing Phase IIIB of Sunshine Venice. Details of Phase IIIB of Sunshine Venice as of 31 July 2009 were as follows:

Phase IIIB ⁽¹⁾	Residential	Retail ⁽²⁾
Planned construction period	April 2005 — August 2009	April 2005 — August 2009
Total saleable/leasable GFA (sq.m.)	192,504	8,058
GFA sold/pre-sold (sq.m.) ⁽³⁾	184,745	N/A
Average selling price per sq.m. (RMB)	12,693	N/A

Notes:

- (1) Phase IIIB of Sunshine Venice will include 240 saleable/leasable carpark spaces upon completion.
- (2) This includes a clubhouse with a total leasable GFA of approximately 2,512 sq.m..
- (3) Of this 184,745 sq.m. sold/pre-sold, approximately 149,693 sq.m. of residential GFA had been recognised as revenue as of 31 July 2009.

BUSINESS

As of 31 July 2009 we were still in the process of developing Phase IIIC of Sunshine Venice. Details of Phase IIIC of Sunshine Venice as of 31 July 2009 were as follows:

Phase IIIC	Retail
Planned construction period	January 2008 — September 2009
Total saleable/leasable GFA (sq.m.)	58,658

As of 31 July 2009, we had not commenced the construction of Phase IV of Sunshine Venice. Details of Phase IV of Sunshine Venice were as follows:

Phase IV⁽¹⁾	Residential
Planned construction period	August 2011 — December 2013
Total saleable/leasable GFA (sq.m.)	37,700

Note:

(1) Phase IV of Sunshine Venice will include 322 saleable/leasable carpark spaces upon completion.

Based on our estimates, the total development cost incurred in respect of Sunshine Venice as of 30 June 2009 was approximately RMB3,738 million, including RMB623 million land cost, and the outstanding cost to complete the development was estimated to be approximately RMB586 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

We entered into the land grant contract with the local government in respect of Sunshine Venice in July 2001. We entered into the supplement contracts with the local government in respect of Sunshine Venice in November 2002, April 2003, December 2004, respectively. As of 31 July 2009, we had obtained all relevant land use rights certificates for Phases I to IV of Sunshine Venice and had fully paid the land premium.

Sunshine Venice is being developed by our wholly-owned subsidiary Shanghai Yijing (上海意景房地產開發公司). A total capital value of RMB1,970 million was attributable to Sunshine Venice as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

As of 31 July 2009, Sunshine Venice — Phases I to III received the following awards and recognition:

- Gold Award for the first China Environmental Design Contest (首屆中國優秀環境設計大賽綜合金獎), awarded by China Council for the Promotion of International Science and Peace (中國國防科學和平促進會), China Association of Environmental Protection Industry (中國環境保護產業協會) and Jiefang Daily Press News Group in 2002;

BUSINESS

- Ranked No. 2 in Commodity Housing Sales in Shanghai by Contracted Area in 2003 (2003年度上海市商品住宅銷售面積50強第二名), awarded by Shanghai Real Estate Trading Center;
- Ranked No. 5 in Commodity Housing Sales in Shanghai by Contracted Area in 2005 (2005年度上海市商品住宅銷售面積10強第五名), awarded by Shanghai Real Estate Trading Center;
- Charity Enterprises (慈善企業) and Charity Star (慈善之星), awarded by People’s Government of Taopu Township, Putuo District, Shanghai in 2006;
- Gold Award for the second Property Suitable for Marriage Contest (第二屆實用婚房金獎樓盤) and Model Property for Young Marriage (青年置業婚房榜樣樓盤), awarded by China (International) Marriage Expo and China Youth Press Office in 2007; and
- Distinctive Villa of the Yangtze River Delta (長三角特色別墅), awarded by the 5th Internet Popularity Ranking of China Real Property in 2008 hosted by www.SouFun.com.

Baoshan Gaojing (寶山高境)

Baoshan Gaojing (寶山高境) — Phase I and II is located close to Shanghai Riverside New Town (江灣新城). It is also near Fudan University (復旦大學), Tongji University (同濟大學), and Shanghai Wujiaochang Hi-Tech Park (五角場創業園) in Yangpu District (楊浦區). Phase I of Baoshan Gaojing has a total site area of 206,377 sq.m. and a total planned GFA of 498,709 sq.m. Baoshan Gaojing enjoys convenient transportation facilities, in particular, two light rail lines are in its vicinity. We plan to develop Baoshan Gaojing into an integrated development comprising residential and commercial properties.

As of 31 July 2009, we had not commenced the construction of Phase I of Baoshan Gaojing.

Details of Phase I of Baoshan Gaojing as of 31 July 2009 were as follows:

Phase I⁽¹⁾	Residential⁽²⁾	Retail
Planned construction period	March 2010 — December 2012	May 2012 — December 2015
Total saleable/leasable GFA (sq.m.)	394,764	13,149

(1) Phase I of Baoshan Gaojing will include 1,647 saleable/leasable carpark spaces upon completion.

(2) Phase IA is expected to commence construction in March 2010 and complete in December 2011, Phase IB is expected to commence construction in March 2011 and complete in December 2012.

BUSINESS

As of 31 July 2009, we had successfully tendered for Phase I of Baoshan Gaojing. We expect to fully pay the land premiums after the local government’s adjustment on it’s government plan and obtain the land use right certificate in January 2010 based on our current construction schedule. We entered into a master agreement with the local government in October 2007 in respect of Phase II of Baoshan Gaojing, details of which are set out in the paragraph headed “— Projects to be acquired for future developments”.

Based on our estimates, the total development cost incurred in respect of Baoshan Gaojing Phase I as of 30 June 2009 was approximately RMB76 million. The outstanding cost required to complete the development of Phase I of Baoshan Gaojing was estimated to be approximately RMB2,027 million. The project is expected to be financed by, among others, bank borrowings and proceeds from pre-sales of properties.

Baoshan Gaojing (Phase I and II) is being developed by our wholly-owned subsidiary Shanghai Shengtong (上海勝通房地產開發有限公司). As we had not obtained the land use right certificate for Phase I of Baoshan Gaojing as at 31 July 2009, no commercial value has been attributed to it in the property valuation report in Appendix IV.

Royal Lakefront (湖畔豪庭)

BUSINESS

Royal Lakefront is located in the Shanghai Fengxian Modern Agricultural Zone (奉賢現代農業園區), one of the four biggest agricultural zones in Shanghai. The project is near an exit of A4 motorway, which connects Shanghai to Hangzhou, Hangnan Road (航南路) and Jinhai Road (金海路) in Fengxian district. The extension line of Light Rail 5 also runs through this area. Situated in the Nanqiao New City (南橋新城), a government-planned up-market residential area, the project has a full set of ancillary facilities in its vicinity, including Fengxian Middle School (奉賢中學), a key middle school of Shanghai city, and other facilities surrounding the local government office. To the east of the project, the local government has planned to develop a large park which will include a hotel, commercial complex and serviced apartments upon its completion.

The project occupies an aggregate site area of approximately 279,731 sq.m. and has a total planned GFA of 532,056 sq.m. As of 31 July 2009, we had not commenced the construction of Phase IA of Royal Lakefront. Details of Phase IA of Royal Lakefront as of 31 July 2009 were as follows:

Phase IA⁽¹⁾	Residential	Retail
Planned construction period	September 2009 — November 2010	September 2009 — November 2010
Total saleable/leasable GFA (sq.m.)	45,899	8,154

Note:

(1) Phase IA of Royal Lakefront will include 446 saleable/leaseable carparks upon completion.

As of 31 July 2009, we had not commenced the construction of Phase IB of Royal Lakefront. Details of Phase IB of Royal Lakefront as of 31 July 2009 were as follows:

Phase IB	Residential	Retail
Planned construction period	March 2010 — December 2011	March 2011 — December 2012
Total saleable/leasable GFA (sq.m.)	86,835	53,293

As of 31 July 2009, we had not commenced the construction of Phase II of Royal Lakefront. Details of Phase II of Royal Lakefront as of 31 July 2009 were as follows:

Phase II⁽¹⁾	Residential	Retail
Planned construction period	October 2010 — September 2012	March 2012 — December 2013
Total saleable/leasable GFA (sq.m.)	173,684	63,500

Note:

(1) Phase II of Royal Lakefront will include 675 saleable/leaseable carparks upon completion.

BUSINESS

Based on our estimates, the total development cost incurred in respect of Royal Lakefront as of 30 June 2009 was approximately RMB599 million. The outstanding cost required to complete the development was estimated to be approximately RMB2,137 million. The project is expected to be financed by bank borrowings and proceeds from pre-sale of properties.

As of 31 July 2009, we had obtained all relevant land use rights certificates and had fully paid the land premium for Phase IA and IB of Royal Lakefront. We had entered into a land grant contract with the local government with respect to Phase II of Royal Lakefront in April 2008. As of 31 July 2009, we were still in the process of applying for the land use rights certificate for Phase II of Royal Lakefront. We had fully paid the land premiums for Phase II of Royal Lakefront and we expect to obtain the land use right certificate before November 2009 based on the requirements of relevant laws and regulations.

Royal Lakefront is developed by our wholly-owned subsidiary Shanghai Hongye (上海弘擘房地產發展有限公司). A total capital value of RMB1,163 million was attributable to Phase IA and IB of Royal Lakefront as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

Tianjin

Sunshine Holiday (陽光星期八)

Sunshine Holiday — Phase I to V, is located at the intersection of Cheng Lin Road (成林道) and Weiguo Road (衛國道), Hedong District (河東區) of Tianjin City. Sunshine Holiday is only about 20 kilometres from Tianjin International Airport and near the No. 2 subway line being currently under construction. Phase I to Phase IV of this project have a site area of 184,680 sq.m. and a total planned GFA of 598,133 sq.m.

BUSINESS

Phases I to III of Sunshine Holiday are large-scale residential and retail community property developments providing high-rise apartment buildings. Phase IV of Sunshine Holiday is a high-quality hotel development. Sunshine Holiday provides a wide range of amenities to its residents.

As of 31 July 2009, we had completed the development of Phase I of Sunshine Holiday. The completed properties had a total GFA of approximately 85,998 sq.m. Details of Phase I of Sunshine Holiday as of 31 July 2009 were as follows:

Phase I	Residential	Retail
Construction period	January 2005 — August 2006	January 2005 — August 2006
Total saleable/leasable GFA (sq.m.)	77,416	6,091
GFA sold/pre-sold (sq.m.) ⁽¹⁾	77,416	N/A
Average selling price per sq.m. (RMB)	4,485	N/A

Note:

(1) Of this 77,416 sq.m. sold/pre-sold, approximately 77,270 sq.m. of residential GFA had been recognised as revenue as of 31 July 2009.

As of 31 July 2009, we had completed the development of Phase II of Sunshine Holiday, which had a total GFA of approximately 200,630 sq.m. Details of Phase II of Sunshine Holiday as of 31 July 2009 were as follows:

Phase II ⁽¹⁾	Residential	Retail
Construction period	August 2005 — September 2008	August 2005 — September 2008
Total saleable/leasable GFA (sq.m.)	160,634	6,113
GFA sold/pre-sold (sq.m.) ⁽²⁾	159,636	N/A
Average selling price per sq.m. (RMB).....	6,146	N/A

Note:

(1) Phase II of Sunshine Holiday includes 705 saleable/leasable carpark spaces.

(2) Of this 159,636 sq.m. sold/pre-sold, approximately 159,464 sq.m. had been recognised as revenue as of 31 July 2009.

BUSINESS

As of 31 July 2009, we were in the process of developing Phase III of Sunshine Holiday. The project under development had a total GFA of approximately 187,335 sq.m.. Details of Phase III of Sunshine Holiday as of 31 July 2009 were as follows:

Phase III ⁽¹⁾	Residential	Retail
Planned construction period	September 2007 — October 2009/ June 2010	September 2007 — June 2010
Total saleable/leasable GFA (sq.m.)	155,867	1,617
GFA sold/pre-sold (sq.m.)	77,199	N/A
Average selling price per sq.m. (RMB)	7,600	N/A

Note:

(1) Phase III of Sunshine Holiday will have 995 saleable/leasable carpark spaces upon completion.

As of 31 July 2009, we had not commenced the construction of Phase IV of Sunshine Holiday. Phase IV of Sunshine Holiday had a total planned GFA of approximately 124,170 sq.m.. Details of Phase IV of Sunshine Holiday as of 31 July 2009 were as follows:

Phase IV ⁽¹⁾	Residential	Hotel	Retail	Office
Planned construction period	March 2010 — December 2011	March 2012 — October 2014	March 2012 — December 2013	March 2012 — October 2014
Total saleable/leasable GFA (sq.m.)	43,353	43,353	16,530	1,710

Note:

(1) Phase IV of Sunshine Holiday will include 350 saleable/leasable carpark spaces upon completion.

Based on our estimates, the total development cost incurred in respect of Phase I to Phase IV of Sunshine Holiday as of 30 June 2009 was approximately RMB1,890 million, including RMB428 million of land cost. The outstanding cost required to complete the development was estimated to be approximately RMB879 million. The project is expected to be financed by bank borrowings and proceeds from pre-sale of properties.

We entered into a land grant contract with the local government in respect of Phase I to IV of Sunshine Holiday in April 2004. We entered into a master agreement with the local government in respect of Phase V of Sunshine Holiday in January 2007, details of which are set out in the paragraph headed “— Projects to be acquired for future developments”.

As of 31 July 2009, we had fully paid the land premium attributable to Phase I to III and had obtained the land use rights certificate in respect of Phase I to III of Sunshine Holiday. As of 31 July 2009, we had fully paid the land premiums for Phase IV of Sunshine Holiday and we expect to obtain the land use right certificate in January 2010.

Sunshine Holiday is being developed by our wholly-owned subsidiary, Tianjin Yangguang Xindi (天津陽光鑫地投資有限公司). A total capital value of RMB1,642 million was attributable to Phase I to Phase III of Sunshine Holiday as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

BUSINESS

As of 31 July 2009, Sunshine Holiday — Phases I to III received the following awards and recognition:

- Award for Best Selling Property in Tianjin in 2006 (2006年天津最佳銷售樓盤), awarded by Jin Wan Media Group, Tianjin Federation of Industry and Commerce;
- China Real Estate Gold Housing Award in 2006 (2006年中國金房獎), awarded by China Real Estate Chamber of Commerce, Xinhua News Agency, Economic Information Daily, Urban Development and Environmental Research Center of the Chinese Academy of Social Sciences;
- Meritorious Enterprises Award for Investment in Tianjin in 2006 and 2007 (2006與2007年投資天津功勳企業獎), awarded by Investment in Tianjin Committee, Tianjin Federation of Industry and Commerce, Jin Wao Bao of Jin Wan Media Group;
- Excellence Award in the Fall Housing Trade Fair in 2007 (2007年秋季房地產交易會優秀獎), awarded by Tianjin Municipal Bureau of Real Estate, Tianjin Municipal Bureau of City Plan, State Land and Resources, Tianjin Investment Management Committee, Tianjin Daily News Group;
- Award for the Best Housing Design (最佳房型設計獎), awarded by Jin Wan Bao newspaper and Tianjin Municipal Bureau of Real Estate;
- Excellence Award in the Spring Housing Trade Fair in 2008 (天津春季房交會優秀獎), awarded by Tianjin Municipal Bureau of Land Resources and Housing Management, Tianjin Municipal Construction Administration Committee, Tianjin Municipal Bureau of City Plan and Tianjin Daily Press Group.

Dagang Project (大港項目)

Dagang Project — Phase I to IV is located in the Guan'gang Forest Park (官港森林公園), Dagang District (大港區), Tianjin City. The project is located to the west of Gangtang Road (港塘公路) and to the southeast of Guan'gang Lake (官港湖). It is located within the Guan'gang recreational and resort area of Dagang District and is approximately 15 kilometres from the centre of Binhai New District (濱海新區). Being a wetland forest park in Tianjin city, Guan'gang Forest Park is part of the newly developed Binhai New District and planned to be developed into a new district having ecotourism, resort, recreational and sports functions under the Eleventh-Five Year Plan of Binhai New District. Based on our current plan, the Dagang Project will, upon its completion, be a lake-themed eco-integrated residential and recreational development.

The project comprises two pieces of land in the same area, with an aggregate site area of 312,704 sq.m. and has a total planned GFA of 321,450 sq.m. The project will be developed in four phases. As of 31 July 2009, we had not commenced the construction of Phase I to IV of Dagang Project.

Phase I to III of Dagang Project had a total planned GFA of approximately 242,850 sq.m.. Details of Phase I to III of Dagang Project as of 31 July 2009 were as follows:

BUSINESS

Phase I - III⁽¹⁾	Residential
Planned construction period ⁽²⁾	May 2010 — December 2013
Total saleable/leasable GFA (sq.m.)	205,058

Note:

- (1) Phase I-III of Dagang Project will include 746 saleable/leaseable car parks upon completion.
- (2) The planned construction period of Phase I is from May 2010 to October 2011. The planned construction period of Phase II is from May 2010 to December 2011. The planned construction period of Phase III is from June 2012 to December 2013.

Phase IV of Dagang Project had a total planned GFA of approximately 78,600 sq.m. Details of Phase IV of Dagang Project as of 31 July 2009 were as follows:

Phase IV⁽¹⁾	Hotel	Retail	Office
Planned construction period	June 2012 — September 2013	June 2012 — September 2013	June 2012 — September 2013
Total saleable/leasable GFA (sq.m.)	23,750	29,070	9,500

Note:

- (1) Phase IV of Dagang project will include 359 saleable/leaseable car parks upon completion.

Based on our estimates, the total development cost incurred in respect of Phase I to IV of Dagang Project as of 30 June 2009 was approximately RMB697 million, including RMB454 million of land cost. The outstanding cost required to complete the development was estimated to be approximately RMB1,105 million. The project is expected to be financed by bank borrowings and proceeds from pre-sale of properties.

We obtained the land use rights to Dagang Project through our acquisitions of a 100% interest in the project company Tianjin Tianxingjian (天津天行建房地產投資有限公司). A total capital value of RMB978 million was attributable to Dagang Project as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

BUSINESS

Beijing

Royal Mansion (歐洲公館)

Located in a developed residential area on the side of Xisihuan (西四環), Haidian District (海澱區), Royal Mansion — Phase I and II is expected to be a modern European-styled apartments community upon its completion with a full range of lifestyle, health, and education ancillary facilities. The project is located adjacent to Sunny Park (陽光星期八公園) and its residents can enjoy a comfortable living environment. Royal Mansion has a total site area of 34,850 sq.m. and a total planned GFA of approximately 130,092 sq.m.

As of 31 July 2009, we were in the process of developing Phase I of Royal Mansion. Details of Phase I of Royal Mansion as of 31 July 2009 were as follows:

Phase I ⁽¹⁾	Residential	Retail
Planned construction period	March 2008 — December 2010	July 2009 — June 2011
Total saleable/leasable GFA (sq.m.)	46,462	3,393

Note:

(1) Phase I of Royal Mansion will include 295 saleable/leasable carpark spaces upon completion.

BUSINESS

As of 31 July 2009, we had not commenced the construction of Phase II of Royal Mansion. Phase II of Royal Mansion had a total planned GFA of approximately 62,592 sq.m.. Details of Phase II of Royal Mansion as of 31 July 2009 were as follows:

Phase II ⁽¹⁾	Residential	Retail
Planned construction period	March 2010 — September 2011	March 2010 — December 2011
Total saleable/leasable GFA (sq.m.)	31,589	7,233

Note:

(1) Phase II of Royal Mansion will include 204 saleable/leasable carpark spaces upon completion.

As of 31 July 2009, we had obtained all relevant land use rights certificates and had fully paid the land premium for Royal Mansion.

Based on our estimates, the total development cost incurred in respect of the project as of 30 June 2009 was approximately RMB691 million, including RMB381 million land cost. The outstanding cost required to complete the development was estimated to be approximately RMB707 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

Royal Mansion is being developed by our wholly-owned subsidiary Beijing Yangguang Xindi (北京陽光鑫地置業有限公司). A total capital value of RMB1,011 million was attributable to Royal Mansion as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

As of 31 July 2009, Royal Mansion has received the following awards and recognition:

- China Residence Innovation Model - Integrated Application of China Housing Technology - Innovation Model Award in 2007 (2007年•中國居住創新典範•中國住宅科技集成應用•創新示範獎), awarded by Science & Technology Commission of the Ministry of Construction, China Real Estate and Housing Research Association, Urban Development Committee of China Real Estate Association and China Construction News;
- Top Ten Park Area Properties in Beijing in 2008 (2008•北京十大公園地產), awarded by Property Market Media, China Real Estate And Housing Research Association, Habitat Commission.

BUSINESS

Sunshine Bordeaux (陽光波爾多)

Sunshine Bordeaux — Phases I to IV are located in Caiyu Town (采育鎮), Daxing District (大興區), Beijing. Sunshine Bordeaux is intended to be a multiple phase, large-scale residential and retail community property development. Upon completion, the residential development is expected to comprise European-styled low-rise apartments. The residential community is expected to have a comprehensive set of ancillary facilities. The project occupies an aggregate site area of approximately 1,372,946 sq.m. and has a total planned GFA of approximately 1,495,035 sq.m.

As of 31 July 2009, we were still in the process of developing Phase IA of Sunshine Bordeaux. Details of Phase IA of Sunshine Bordeaux as of 31 July 2009 were as follows:

Phase IA⁽¹⁾	Residential	Retail
Planned construction period	March 2008 — November 2009	March 2008 — November 2009
Total saleable/leasable GFA (sq.m.)	93,672	16,461
GFA pre-sold (sq.m.)	62,366	N/A
Average selling price per sq.m. (RMB).....	4,658	N/A

Note:

(1) Phase IA of Sunshine Bordeaux will include 304 saleable/leasable carpark spaces upon completion.

BUSINESS

As of 31 July 2009, we had not commenced the construction of Phase IB of Sunshine Bordeaux. Details of Phase IB of Sunshine Bordeaux as of 31 July 2009 were as follows:

Phase IB⁽¹⁾	Residential	Retail
Planned construction period	September 2009 — June 2011	September 2009 — October 2011
Total saleable/leasable GFA (sq.m.)	63,993	16,634

Note:

(1) Phase IB of Sunshine Bordeaux will include 375 saleable/leasable carpark spaces upon completion.

We entered into a land grant contract with the local government in respect of Phase I of Sunshine Bordeaux in June 2006. As of 31 July 2009, we had obtained all relevant land use rights certificates and had fully paid the land premium for Phase I of Sunshine Bordeaux.

Based on our estimates, the total development cost incurred in respect of Phase I of Sunshine Bordeaux as of 30 June 2009 was approximately RMB348 million, including RMB102 million of land cost. The outstanding cost required to complete the development was estimated to be approximately RMB493 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

In December 2002, we signed a master agreement with local government to develop Phase II of Sunshine Bordeaux, details of which are set out in the paragraph headed “— Projects to be acquired for future developments”. We still need to go through the tender process, sign the land grant contract and pay the land premium before we can get the land use right certificate.

Sunshine Bordeaux is being developed by our wholly-owned subsidiary Beijing Hetian Hexin (北京合天和信房地產開發有限公司). A total capital value of RMB428 million was attributable to Sunshine Bordeaux — Phase I as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

As of 31 July 2009, Sunshine Bordeaux has received the following awards and recognition:

- United Nations Model Habitat Enterprise Achievement (China) Promotion Award (聯合國人居範例企業成就(中國)推動獎) in 2008, awarded by United Nations Human Settlements Programme and United Nations Model Habitat Enterprise Achievement Award Organisation Committee;
- China Residence Innovation Model - China Residential Area Construction and Design - Innovation Model Award in 2007 (2007年•中國居住創新典範•中國住區建築設計•創新示範獎), awarded by Science & Technology Commission of the Ministry of Construction, China Real Estate and Housing Research Association, Urban Development Committee of China Real Estate Association and China Construction News;

BUSINESS

- District Model Property in Beijing in 2007 (2007年度京城區域標杆樓盤); awarded by Legal Evening News and Beijing Media Corporation Limited;
- The Fifth Jingrui Housing Science and Technology Award in 2008 - Real Estate Development and Innovation Award (第五屆(2008年度)精瑞住宅科學技術獎房地產開發創新優秀獎), awarded by Real Estate Chamber under All-China Federation of Industry & Commerce and Jingrui Housing Science and Technology Foundation;
- Outstanding Project Suitable for Housing in China in 2008 (2008中國宜居住宅傑出項目), awarded by China Real Estate Development Annual Meeting Organisation Committee and www.Soufun.com.

Jiangsu Province

No.1 City Promotion (第一國際)

No.1 City Promotion — Phases I to IV is located in Wuxi New District (無錫新區) which is north of Wangzhuang East Road (旺莊東路), south of Xinguang Road (新光路) and east of Xingchuang Jiulu (行創九路). Phases I to III of No.1 City Promotion are large-scale residential community property developments with European style high-rise buildings. We plan to develop Phase IV of No.1 City Promotion into a hotel with 400 guest rooms. Wuxi Wangjiarui as one of our subsidiaries, entered into a management contract with Holiday Inns (China) Limited, a subsidiary of InterContinental Hotels Group, on 30 June 2008 for management of Crowne Plaza® Wuxi New District. The initial management term is 10 years from the commencement date of the hotel. The management contract can be renewed for one or more additional terms of years and each renewal term is 10 years. The residential community has education, entertainment and health facilities and a convenient transportation network in its peripheral areas. The project occupies an aggregate site area of approximately 219,423 sq.m. and has a total planned GFA of approximately 729,701 sq.m. Our Wuxi No.1 City Promotion was ranked the sixth best selling real estate project in Wuxi during the first half of 2009 by Wuxi House Online.

BUSINESS

As of 31 July 2009, we had completed the development of Phase I of No.1 City Promotion. The completed properties had a total GFA of approximately 192,445 sq.m.. Details of Phase I of No.1 City Promotion as of 31 July 2009 were as follows:

Phase I⁽¹⁾	Residential
Construction period	June 2005 — October 2007
Total saleable GFA (sq.m.)	161,767
GFA sold/pre-sold (sq.m.)	158,391
Average selling price per sq.m. (RMB)	4,369

Note:

(1) Phase I of Wuxi No.1 City Promotion includes 711 saleable/leasable carpark spaces.

As of 31 July 2009, we were developing Phase II of No.1 City Promotion. The properties under development had a total GFA of approximately 218,032 sq.m.. Details of Phase II of No.1 City Promotion as of 31 July 2009 were as follows:

Phase II⁽¹⁾	Residential	Retail
Planned construction period	January 2007 — November 2009	January 2007 — November 2009
Total saleable/leasable GFA (sq.m.)	179,432	85
GFA pre-sold (sq.m.).....	104,206	N/A
Average selling price per sq.m. (RMB).....	4,429	N/A

Note:

(1) Phase II of Wuxi No.1 City Promotion will include 780 saleable/leasable carpark spaces upon completion.

As of 31 July 2009, we had not commenced the construction of Phases III and IV of No.1 City Promotion. We plan that, upon completion, Phase III of No.1 City Promotion will have a total planned GFA of approximately 216,506 sq.m.. Phase IV of No.1 City Promotion will include a hotel with 400 guest rooms and a total planned GFA of approximately 102,718 sq.m. As of 31 July 2009, details of Phases III and IV of No.1 City Promotion were as follows:

Phase III⁽¹⁾	Residential	Retail
Planned construction period	March 2010 — December 2012	March 2010 — December 2012
Total saleable/leasable GFA (sq.m.)	110,553	37,699

Note:

(1) Phase III of No.1 City Promotion will include 1,516 saleable/leasable carpark spaces upon completion.

BUSINESS

Phase IV ⁽¹⁾	Residential	Retail	Hotel
Planned construction period	May 2012 — June 2014	May 2012 — June 2014	May 2012 — December 2014
Total saleable/leasable GFA (sq.m.)	29,940	31,559	27,545

Note:

(1) Phase IV of No.1 City Promotion will include 245 saleable/leasable carpark spaces upon completion.

Based on our estimates, the total development cost incurred in respect of Wuxi No.1 City Promotion (including Phase I to IV) as of 30 June 2009 was approximately RMB1,492 million, including RMB514 million of land cost. The outstanding cost required to complete Wuxi No.1 City Promotion was estimated to be approximately RMB1,250 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

As of 31 July 2009, we had fully paid the land premium for Phase I to IV of Wuxi No.1 City Promotion and had obtained the land use right certificates for Phases I to IV.

No. 1 City Promotion is developed by our wholly-owned subsidiary Wuxi Wangjiarui (無錫旺佳瑞房地產開發有限公司). A total capital value of RMB1,311 million was attributable to No.1 City Promotion as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

As of 31 July 2009, No.1 City Promotion — Phases I and II received the following awards and recognition:

- Most Popular Property in Wuxi in 2006 (2006年無錫百姓最喜愛樓盤稱號) awarded by Anju Leye Programme of Wuxi Mobile TV;
- Top 10 Famous Properties in China in 2007 (2007中國房地產十大名盤”) and Most Popular Residential Project in Wuxi in the Third China Real Estate Internet Popularity Ranking in 2006 (2006第三屆中國房地產網絡人氣榜無錫最具人氣住宅項目獎), awarded by Enterprise Research Institution of Development Research Center of the State Council, Institute of Real Estate Studies of Tsinghua University; and
- International Culture Community (國際文化社區), awarded by Friends of United Nations and United Nations Human Settlements Programme in 2007.

BUSINESS

Classical Life (海上一品)

Classical Life — Phase I and II is located on Haiyu North Road (海虞北路), Changshu New District (常熟新區), Suzhou City. It is a residential property development featuring townhouses and apartments. The project occupies an aggregate site area of approximately 55,398 sq.m. and has a total planned GFA of approximately 71,554 sq.m.

As of 31 July 2009, we had completed the development of Phase I of Classical Life. Phase I of Classical Life was mainly townhouses with a total planned GFA of approximately 34,224 sq.m.. Details of Phase I of Classical Life as of 31 July 2009 were as follows:

Phase I	Residential	Retail
	June 2006 — June 2008	June 2006 — June 2008
Construction period	June 2006 — June 2008	June 2006 — June 2008
Total saleable/leasable GFA (sq.m.)	32,325	1,627
GFA sold/pre-sold (sq.m.) ⁽¹⁾	24,055	N/A
Average selling price per sq.m. (RMB).....	6,938	N/A

Note:

(1) Of the 24,055 sq.m. sold or pre-sold, approximately 22,686 sq.m. had been delivered and recognised as of 31 July 2009.

As of 31 July 2009, we had completed the development of Phase II of Classical Life. Phase II of Classical Life has a total planned GFA of approximately 37,330 sq.m. Details of Phase II of Classical Life as of 31 July 2009 were as follows:

Phase II⁽¹⁾	Residential
	December 2007 — December 2008
Construction period	December 2007 — December 2008
Total saleable/leasable GFA (sq.m.)	29,178
GFA sold (sq.m.)	29,178
Average selling price per sq.m. (RMB).....	4,396

Notes:

(1) Phase II of Classical Life includes 140 saleable/leasable carpark spaces.

BUSINESS

Based on our estimates, the total development cost incurred in respect of Classical Life (including Phase I and II) as of 30 June 2009 was approximately RMB298 million, including RMB104 million of land cost.

We entered into land grant contract with the local government in respect of Classical Life in March 2005. As of 31 July 2009, we had already obtained the land use rights certificates for Classical Life and had fully paid the land premium.

Classical Life was developed by our wholly-owned subsidiary Suzhou Hongsheng (蘇州弘晟房地產有限公司). A total capital value of RMB87 million was attributable to Classical Life as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

Rongsheng Garden (榕盛花園)

Rongsheng Garden — Phase I to VI is located in the Rugao Economic Development District (如皋經濟開發區), Nantong, Jiangsu province. After the Sutong Changjiang Highway Bridge (蘇通大橋) commenced operation in early 2008, Nantong is within the one hour city circle of Shanghai pursuant to the Summary of Eleventh Five-Year Plan regarding the social and economic development of Nantong approved by People’s Congress of Nantong. Based on our current plan, Rongsheng Garden will comprise six phases and be a large-scale residential and retail community property development upon completion. The whole project, including Phases IC through VI in respect of which we have signed a master agreement but have not completed the public tender process and have not obtained land use rights certificates occupies an aggregate site area of approximately 5,333,333 sq.m. and has a total planned GFA of approximately 4,506,250 sq.m.

As of 31 July 2009, we had not commenced the construction of Phase IA and Phase IB of Rongsheng Garden. Based on our current plan, construction of Phase IA will commence in March 2010 and is expected to be completed by December 2011. Construction of Phase IB will commence in November 2010 and is expected to be completed by December 2011.

Details of Phase IA of Rongsheng Garden as of 31 July 2009 were as follows:

Phase IA	Residential	Retail
Planned construction period	March 2010 — October 2011	March 2010 — December 2011
Total saleable GFA (sq.m.)	297,173	31,900
Phase IB⁽¹⁾		Residential
Planned construction period		November 2010 — December 2011
Total saleable GFA (sq.m.)		125,000

Note:

(1) Phase IB of Rongsheng Garden will include 109 saleable/leaseable carpark spaces upon completion.

BUSINESS

Based on our estimates, the total development cost incurred in respect of Rongsheng Garden Phase I (including Phase IA to IB) as of 30 June 2009 was approximately RMB169 million, comprising RMB54 million of land cost. The outstanding cost required to complete the development of Rongsheng Garden Phase I (including Phase IA and IB) was estimated to be approximately RMB972 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

We signed a land grant contract with the local government in respect of Phase IA of Rongsheng Garden in May 2009. We had fully paid the land premiums for Phase IA of Rongsheng Garden and we expect to obtain the land use right certificate before November 2009 based on the requirements of relevant laws and regulations. As of 31 July 2009, we had obtained the land use rights certificate and had fully paid the land premium of Phase IB of Rongsheng Garden.

Rongsheng Garden is being developed by nine wholly foreign owned enterprises owned by us (Please refer to the section headed “History Reorganisation and Group Structure” for more details about each wholly foreign owned enterprises). A total capital value of RMB121 million was attributable to Rongsheng Garden Phase IB as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

Nantong Rongsheng Plaza (南通熔盛大廈)

Nantong Rongsheng Plaza is located in Nantong City, Jiangsu Province. The project occupies an aggregate site area of approximately 45,090 sq.m. and has a total planned GFA of approximately 283,597 sq.m. Upon completion, Nantong Rongsheng Plaza is expected to include a hotel with a total leasable GFA of approximately 64,504 sq.m., an office building with a total leasable GFA of approximately 97,112 sq.m., as well as a total retail GFA of 48,098 sq.m.

As of 31 July 2009, we had not commenced the construction of Nantong Rongsheng Plaza. Based on our current plan, construction of these properties will commence in March 2012 and is expected to be completed by December 2015.

Details of Nantong Rongsheng Plaza as of 31 July 2009 were as follows:

Nantong Rongsheng Plaza	Hotel	Office	Retail
Planned construction period	March 2012 — December 2015	March 2012 — December 2015	March 2012 — December 2015
Total leasable GFA (sq.m.)	64,504	97,112	48,098

Based on our estimates, the total development cost incurred in respect of Nantong Rongsheng Plaza as of 30 June 2009 was approximately RMB161 million, including RMB106 million of land cost. The outstanding cost required to complete the development was estimated to be approximately RMB1,148 million. The project is expected to be financed by bank borrowings and proceeds from pre-sale of properties.

BUSINESS

We acquired the land for Nantong Rongsheng Plaza in March 2008 through our acquisition of 100% equity interest in Nantong Rongsheng (南通融盛大廈房地產開發有限公司), a project company that had already signed a land grant contract with the local government prior to be acquired by us. As of 31 July 2009, we had fully paid the land premiums and obtained the land use rights certificates with respect to Nantong Rongsheng Plaza. A total capital value of RMB785 million was attributable to Nantong Rongsheng Plaza as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

Anhui Province

Bashang Jie (壩上街)

Bashang Jie Project is located on Ming Guang Road (明光路), Hefei City, Anhui Province. The project occupies an aggregate site area of approximately 118,929 sq.m. and has a total planned GFA of approximately 1,263,730 sq.m. Upon completion, the project is expected to be a large-scale commercial complex including one hotel, serviced apartments and retail and office developments.

As of 31 July 2009 we had not commenced the construction of the Bashang Jie Project. Based on our current plan, construction of these properties will commence in March 2011 and is expected to be completed by December 2015.

Details of this development as of 31 July 2009 were as follows:

Bashang Jie	Residential	Retail	Office	Hotel
Planned construction period	March 2011 — December 2013	May 2011 — August 2014	January 2013 — December 2015	August 2012 — December 2015
Total saleable/leasable GFA (sq.m.)	406,922	260,283	235,657	95,907

We had not incurred any development cost in respect of Bashang Jie Project as of 30 June 2009. Based on our estimates the outstanding cost required to complete the development was approximately RMB6,956 million. The project is expected to be financed by, among others, bank borrowings and proceeds from pre-sales of properties.

We signed the land grant contract for Bashang Jie project in April 2008. We are still in the process of applying for the land use right certificate for the project. We will construct apartments and retails for back-moving household as required by the local government to settle part of the relevant land premiums, after which we need to pay the remaining part of the land premiums. We expect to obtain the land use right certificate by the end of December 2010 based on our current construction schedule.

Bashang Jie Project is being developed by our wholly-owned subsidiary Anhui Hengmao (安徽恒茂房地產有限公司).

BUSINESS

Hefei Villa Glorious (合肥恒盛 • 豪庭)

Hefei Villa Glorious — Phase I to IV is located on Da Tong Road (大通路), Hefei City, Anhui Province. The project occupies an aggregate site area of approximately 72,478 sq.m. and has a total planned GFA of approximately 388,615 sq.m.

As of 31 July 2009, we were still in the process of developing Phase I of Hefei Villa Glorious. Phase I of Hefei Villa Glorious has a total planned GFA of approximately 100,944 sq.m.. Details of Phase I of Hefei Villa Glorious as of 31 July 2009 were as follows:

Phase I	Residential
Planned construction period	March 2009 — October 2011
Total saleable/leasable GFA (sq.m.)	96,629

As of 31 July 2009, we had not commenced the construction of Phases II to IV of Hefei Villa Glorious. Phase II of Hefei Villa Glorious has a total planned GFA of approximately 138,463 sq.m. Details of Phase II of Hefei Villa Glorious as of 31 July 2009 were as follows:

Phase II⁽¹⁾	Residential
Planned construction period	June 2010 — December 2012
Total saleable/leasable GFA (sq.m.)	86,208

Note:

(1) Phase II of Hefei Villa Glorious will include 900 saleable/leasable carpark spaces upon completion.

Phase III of Hefei Villa Glorious has a total planned GFA of approximately 138,463 sq.m. Details of Phase III of Hefei Villa Glorious as of 31 July 2009 were as follows:

Phase III⁽¹⁾	Residential
Planned construction period	March 2011 — December 2013
Total saleable/leasable GFA (sq.m.)	86,208

Note:

(1) Phase III of Hefei Villa Glorious will include 900 saleable/leasable carpark spaces upon completion.

BUSINESS

Phase IV of Hefei Villa Glorious has a total planned GFA of approximately 10,746 sq.m.. Details of Phase IV of Hefei Villa Glorious as of 31 July 2009 were as follows:

Phase IV	Retail
Planned construction period	June 2012 — December 2014
Total saleable/leasable GFA (sq.m.)	10,746

As of 31 July 2009, we had fully paid the land premium of Hefei Villa Glorious (Phases I to IV) and obtained the land use rights certificates for 65,179 sq.m. of the site area of Hefei Villa Glorious. We are in the process of applying for the land use rights certificates for the remaining site of Hefei Villa Glorious.

Based on our estimates, the total development cost incurred in respect of Hefei Villa Glorious (including Phase I to IV) as of 30 June 2009 was approximately RMB593 million, including RMB356 million of land cost. The outstanding cost required to complete the development of Hefei Villa Glorious was estimated to be approximately RMB1,606 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

Hefei Villa Glorious is being developed by our wholly-owned subsidiary Anhui Hengmao (安徽恒茂房地產有限公司). A total capital value of RMB644 million was attributable to the project as of 31 July 2009 in the property valuation report in Appendix IV.

Liaoning Province

Sunny Town (陽光尚城)

Sunny Town — Phase I to V is located in Yuhong District (于洪區), Shenyang City and is being developed by our wholly-owned subsidiary Liaoning Yangguang Xindi (遼寧陽光鑫地置業有限公司). This project occupies an aggregate site area of approximately 470,923 sq.m. and has a total planned GFA of approximately 946,287 sq.m.. Sunny Town - Phases I to IV offer various types of products, including residential and retail development.

BUSINESS

As of 31 July 2009, we had completed most of the development of Phase I and II of Sunny Town. Phase I of Sunny Town has a total planned GFA of 137,754 sq.m. Details of Phase I of Sunny Town as of 31 July 2009 were as follows:

Phase I⁽¹⁾	Residential	Retail⁽²⁾
Construction period	July 2006 — June 2007/ August 2008	July 2006 — June 2007/ August 2008
Total saleable/leasable GFA (sq.m.)	103,480	11,931
GFA sold/pre-sold (sq.m.).....	102,721	7,501
Average selling price per sq.m. (RMB)	3,674	6,014

Notes:

(1) Phase I of Sunny Town included 193 saleable/leasable carpark spaces upon completion, and 59 carpark spaces had been sold and delivered as of 31 July 2009.

(2) Retail GFA includes a clubhouse with a total leasable GFA of approximately 5,586 sq.m.

Phase II of Sunny Town has a total planned GFA of approximately 74,087 sq.m. Details of Phase II of Sunny Town as of 31 July 2009 were as follows:

Phase II⁽¹⁾	Residential	Retail⁽²⁾
Planned construction period	March 2008 — November 2008	March 2010 — December 2010
Total saleable/leasable GFA (sq.m.)	50,513	12,925
GFA sold/pre-sold (sq.m.) ⁽³⁾	41,747	N/A
Average selling price per sq.m. (RMB).....	4,390	N/A

Note:

(1) Phase II of Sunny Town includes 208 saleable/leasable carpark spaces.

(2) The 12,925 sq.m. retail component has not commenced construction as of 31 July 2009.

(3) Of the 41,747 sq.m. sold/pre-sold approximately 36,329 sq.m. of GFA had been sold and recognised as revenue as of 31 July 2009.

BUSINESS

As of 31 July 2009, we were still in the process of developing Phase III of Sunny Town. Phase III of Sunny Town has a total planned GFA of approximately 165,935 sq.m.. As of 31 July 2009, the details of Phase III of Sunny Town were as follows:

Phase III⁽¹⁾	Residential	Retail
Planned construction period	April 2008 — May 2010	April 2008 — December 2011
Total saleable/leasable GFA (sq.m.)	127,316	17,478
GFA sold/pre sold (sq.m.).....	26,692	N/A
Average selling price per sq.m. (RMB).....	4,272	N/A

Note:

(1) Phase III of Sunny Town will include 514 saleable/leasable carpark spaces upon completion.

As of 31 July 2009, we had not commenced the construction of Phase IV and V of Sunny Town. Phase IV of Sunny Town has a total planned GFA of of approximately 360,957 sq.m. As of 31 July 2009, the details of Phase IV of Sunny Town were as follows:

Phase IV⁽¹⁾	Residential	Retail
Planned construction period	March 2010 — December 2012	March 2010 — December 2012
Total saleable/leasable GFA (sq.m.)	283,957	23,000

Note:

(1) Phase IV of Sunny Town will include 1,286 saleable/leasable carpark spaces upon completion.

Based on our estimates, the total development cost incurred in respect of Phase I to IV of Sunny Town as of 30 June 2009 was approximately RMB1,286 million, comprising RMB379 million of land cost. The outstanding cost required to complete the development of Phase I to IV of Sunny Town was estimated to be approximately RMB1,605 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

As of 31 July 2009, we had obtained the land use rights certificates for Phase I to III of Sunny Town and had fully paid the land premium. We had signed land grant contract and had fully paid the land premium for Phase IV of Sunny Town and expect to obtain the land use right certificate in January 2010 based on our construction schedule. We are in the process of applying for the land use rights certificate for Phase IV of Sunny Town. We entered into a master agreement with the local government in respect of Phase V in May 2006 but have not completed the public tender process. See “— Projects to be acquired for future developments”.

Sunny Town is being developed by our wholly-owned subsidiary Liaoning Yangguang Xindi (遼寧陽光鑫地置業有限公司). A total capital value of RMB364 million was attributable to Phases I to III of Sunny Town as of 31 July 2009 in the property valuation report in Appendix IV, all of which was attributable to our interest in the project.

BUSINESS

As of 31 July 2009, Sunny Town has received the following awards and recognition:

- Top Ten Star Properties in Shenyang in 2007 (2007瀋陽地產十大明星樓盤), awarded by www.sina.com, Liaoning Radio Communications Channel and Property Monitors;
- Most Influential Property in Shenyang in 2006 (2006年瀋陽最具影響力樓盤獎) by Shenyang Housing Market Weekly, Yangguang Goufang Programme of Shenyang TV, Committee of Shenyang Enterprise Association and www.dbdc.cn; and
- Best Architectural Style Award for 2007 (2007最佳建築風格獎), awarded by www.focus.cn.

Heilongjiang Province

Harbin Villa Glorious (哈爾濱恒盛•豪庭)

Harbin Villa Glorious — Phase I to III is located in Harbin, Heilongjiang Province. The project occupies an aggregate site area of approximately 204,959 sq.m. and has a total planned GFA of approximately 560,800 sq.m. Harbin Villa Glorious is planned to include residential and retail products upon completion.

As of 31 July 2009, we had commenced the construction of Phase I of Harbin Villa Glorious. Phase I of Harbin Villa Glorious has a total planned GFA of approximately 153,411 sq.m.. As of 31 July 2009, the details of Phase I of Harbin Villa Glorious were as follows:

Phase I⁽¹⁾	Residential	Retail
Planned construction period	July 2009 — December 2010	July 2009 — December 2010
Total saleable/leasable GFA (sq.m.)	111,486	9,497

Note:

(1) Phase I of Harbin Villa Glorious will include 544 saleable/leasable carpark spaces upon completion.

As of 31 July 2009, we had not commenced the construction of Phase II of Harbin Villa Glorious. Phase II of Harbin Villa Glorious has a total planned GFA of of approximately 271,593 sq.m.. As of 31 July 2009, the details of Phase II of Harbin Villa Glorious were as follows:

Phase II⁽¹⁾	Residential
Planned construction period	April 2010 — December 2011
Total saleable/leasable GFA (sq.m.)	220,866

Note:

(1) Phase II of Harbin Villa Glorious will include 882 saleable/leasable carpark spaces upon completion.

BUSINESS

As of 31 July 2009, we had not commenced the construction of Phase III of Harbin Villa Glorious. Phase III of Harbin Villa Glorious has a total planned GFA of approximately 135,796 sq.m..

Phase III⁽¹⁾	Residential
Planned construction period	April 2012 — December 2013
Total saleable/leaseable GFA	100,551

Note:

(1) Phase III of Harbin Villa Glorious will include 441 saleable/leaseable carpark spaces upon completion.

As of 31 July 2009, we had fully paid the land premiums for Phase I to III of Harbin Villa Glorious and had obtained the relevant land use right certificates.

Based on our estimates, the total development cost incurred in respect of Harbin Villa Glorious as of 30 June 2009 was approximately RMB805 million, including RMB557 million of land cost. The outstanding cost required to complete the development of Harbin Villa Glorious was estimated to be approximately RMB1,563 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

Harbin Villa Glorious is being developed by our wholly-owned subsidiary Harbin Yangguang (哈爾濱陽光濱海置業有限公司). A total capital value of RMB1,201 million was attributable to Phases I to III of Harbin Villa Glorious as of 31 July 2009 in Appendix IV to this document, all of which was attributable to our interest in the project.

Sunglow Xinjing (陽光新景)

Sunglow Xinjing was developed by one of our wholly-owned subsidiaries, Shanghai Xintai (上海鑫泰房地產發展有限公司). The project is located on Tiandeng Road (天等路), Xuhui District, Shanghai and has a total site area of 27,353 sq.m. and completed GFA of 56,261 sq.m., of which 2,076 sq.m. of GFA is retained by us as investment property. The construction of Sunglow Xinjin was completed in December 2001. As at 31 July 2009, we had sold substantially all the GFA in Sunglow Xinjing.

Projects to be acquired for future development

The table below sets out details of properties in respect to which we have signed the relevant master agreements with the local government authorities but had not, as of 31 July 2009, obtained the relevant land use rights certificates. Our PRC legal counsel has advised us that such projects remain subject to the relevant PRC laws and regulations which require us to go through the public tender, auction or listing for bidding process and, if successful, enter into a land grant contract and pay the relevant land premium in full before we are able to obtain the relevant land use rights certificate. As these projects have not begun to be developed, their development plans are still subject to change pending, among other things, approvals from relevant authorities. We cannot assure you that we will be successful in securing the land grant contracts and obtaining the relevant land use rights certificates in respect of the projects set out below.

Project name	Location	Land Bank			Construction commencement/		Interest attributable to us (%)	Reference to valuation report (Property number)		
		Total GFA (sq.m.)	Total saleable/ leasable unsold GFA (sq.m.)		Expected date of construction commencement	Construction completion/ Expected completion time				
			Residential	Office					Hotel	Others ⁽²⁾ (sq.m.)
Projects to be acquired for future development										
Baoshan Gaojing (Phase II) 寶山高境 (第二期).....	Shanghai	400,000	294,500	19,000	—	86,500	March 2012	Dec 14 & Dec 15	100%	31

Total		6,051,874	5,560,032	85,707	—	406,135				

(1) Includes saleable/leasable clubhouses.

(2) Includes saleable/leasable carparks, convention centre and non-saleable/ non-leasable GFA.

BUSINESS

Details of projects to be acquired for future development are set out below. Such projects remain subject to relevant PRC laws and regulations which require us to go through the public tender, auction or listing for bidding process and, if successful, enter into the land grant contracts and pay the requisite land premium before we may obtain the land use rights certificates in respect of the following projects. In the event that we are not successful in the public tender, auction and/or listing for bidding process, we will not be able to secure the land grant contracts and pay the land premium, as a result of which, we will not be able to proceed with the development of such projects and will not have access to any of the associated GFA for development for sale.

Baoshan Gaojing — Phase II

Baoshan Gaojing — Phase II has a total planned GFA of 400,000 sq.m. and a site area of 162,580 sq.m.. Details of phase II of Baoshan Gaojing as at 31 July 2009 were as follows:

Baoshan Gaojing Phase II⁽¹⁾	Residential	Retail
Planned construction period	March 2012 — December 2014	March 2014 — December 2015
Total saleable/leasable GFA (sq.m.)	294,500	19,000

Note:

(1) Phase II of Baoshan Gaojing will have 1,750 saleable/leasable carpark spaces upon completion.

Based on our estimates, the cost required to develop Phase II of Baoshan Gaojing to completion is RMB1,620 million. The project is expected to be financed by, among others, bank borrowings and proceeds from pre-sales of properties.

Based on our internal estimate and subject to the timing and outcome of the future tender process, we expect that we may obtain the land use right certificate for Phase II of Baoshan Gaojing by December 2011.

Sunshine Holiday — Phase V

Phase V of Sunshine Holiday has a total site area of 56,863 sq.m. and a total planned GFA 156,460 sq.m. Details of Phase V of Sunshine Holiday as of 31 July 2009 were as follows:

Phase V⁽¹⁾	Residential	Retail
Planned construction period	March 2012 — December 2013	March 2012 — December 2013
Total saleable/leasable GFA (sq.m.)	122,332	10,288

Note:

(1) Phase V of Sunshine Holiday will include 336 saleable/leaseable carpark spaces upon completion.

BUSINESS

As of 30 June 2009, we had prepaid RMB90 million for the land premium with respect to Phase V of Sunshine Holiday. Based on our estimates, the total cost required to develop Phase V of Sunshine Holiday to completion will be approximately RMB843 million.

Based on our internal estimate and subject to the timing and outcome of future tender process, we expect that we may be able to obtain the land use right certificate for Phase V of Sunshine Holiday by December 2011.

Sunshine Bordeaux — Phase II - Phase IV

Phase II to Phase IV of Sunshine Bordeaux has a site area of 1,191,983 sq.m. and a total planned GFA of approximately 1,256,113 sq.m. Details of Phase II to Phase IV of Sunshine Bordeaux as of 31 July 2009 were as follows:

Phase II - Phase IV	Residential	Retail
Planned construction period	August 2010 — December 2016	May 2012 — December 2016
Total saleable/leasable GFA (sq.m.)	1,172,194	56,419

As of 30 June 2009, we had not incurred any development cost with respect to Phase II to Phase IV of Sunshine Bordeaux. Based on our estimates, the cost required to develop the project to completion will be RMB3,723 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

Based on our internal estimate and subject to the timing and outcome of future tender process, we expect that we may be able to obtain the land use right certificate for Sunshine Bordeaux in accordance with the following time schedule:

Phase II	May 2010
Phase III	January 2012
Phase IV	January 2014

Rongsheng Garden — Phase IC to VI

Rongsheng Garden Phase IC to VI has a total planned GFA of approximately 4,031,746 sq.m. and a site area of approximately 4,906,761 sq.m.

Details of Phase IC of Rongsheng Garden as of 31 July 2009 were as follows:

Phase IC⁽¹⁾	Residential
Planned construction period	November 2011 — December 2012
Total saleable/leasable GFA (sq.m.)	72,706

Note:

(1) Phase IC of Rongsheng Garden will include 1,476 saleable/leaseable carpark spaces upon completion.

BUSINESS

Based on our estimates, the cost required to complete the development of Phase IC of Rongsheng Garden is expected to be approximately RMB399 million, which includes RMB61.4 million of land cost.

Details of Phase II to VI of Rongsheng Garden as of 31 July 2009 were as follows:

Phase II to VI	Residential
Planned construction period	March 2012 — December 2022
Total saleable/leasable GFA (sq.m.)	3,705,000

Based on our estimates, the cost required to develop Phases II to VI to completion is RMB7,381 million. The project is expected to be financed by bank borrowings and proceeds from pre-sales of properties.

Based on our internal estimate and subject to the timing and outcome of future tender process, we expect that we may be able to obtain the land use right certificate for Phases II to VI of Rongsheng Garden in accordance with the following time schedule:

Phase IC	August 2011
Phase II	December 2011
Phase III	February 2014
Phase IV-VI	February 2016

Sunny Town — Phase V

As of 31 July 2009, Phase V of Sunny Town had a total planned GFA of approximately 207,555 sq.m.. Details of Phase V of Sunny Town as of 31 July 2009 were as follows:

Phase V	Residential
Planned construction period	April 2011 — December 2014
Total saleable GFA (sq.m.)	193,300

Note: Phase V of Sunny Town will include 178 saleable/leasable carpark spaces upon completion.

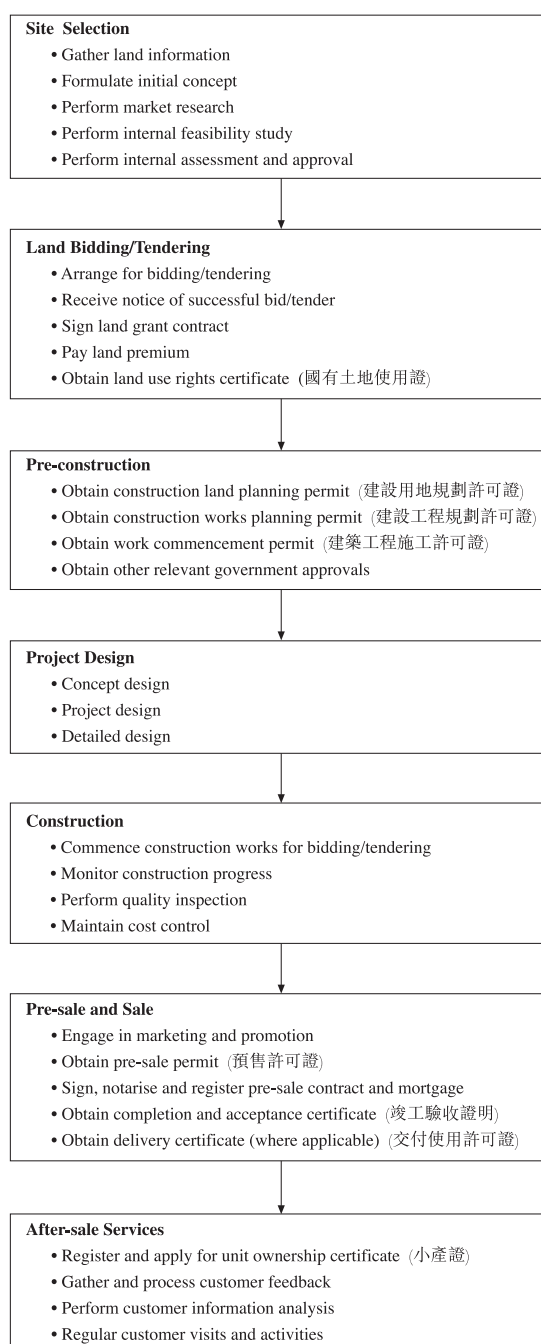

Based on our estimates, the outstanding cost required to develop Phase V of Sunny Town to completion is RMB948 million. The project is expected to be financed by bank borrowings and proceeds from pre-sale of properties.

Based on our internal estimate and subject to the timing and outcome of future tender process, we expect that we may be able to obtain the land use right certificate for Sunny Town Phase V by January 2011.

BUSINESS

PROPERTY DEVELOPMENT

We integrate our Group’s resources to conduct site selection, land acquisition, planning, project design and construction, marketing, pre-sales, sales and after-sales support, and a series of development processes. These areas are coordinated and supervised by our central management and carried out by the functional departments of our regional offices and project companies. Although the nature and sequence of specific planning and execution activities vary from one project to another and may be subject to the requirement of the local laws and regulations, we have summarised below, the core elements of our typical project development process for our properties for sale.

BUSINESS

Site selection

We consider careful site selection as a key step to the success of our property development. We place a strong emphasis on site selection. Our strategy committee which consists of members of our board and senior management team closely monitors and manages our site selection process and is responsible for identifying potential acquisition targets and supervising the whole screening process. Our investment and marketing department in each regional company conducts pre-acquisition site due diligence work so as to gain an overall understanding of the target property, the market conditions and trends for future developments, and presents a preliminary market analysis to our strategy committee. In line with our overall strategy, we involve our centralised marketing and sales centre and research and design centre throughout the site selection process to advise on the decision making process from a pricing, marketing and design perspective.

In assessing whether to pursue an acquisition opportunity, we also seek professional advice from independent experts and take into account a broad range of factors, including:

- an assessment of the city’s economic environment, GDP growth and population growth;
- the supply and demand of the relevant property market;
- local urban planning and specifications, in particular, the local governmental zoning, planning and development in the relevant region over the next several years and the infrastructure support in the surrounding areas;
- geographical location of the development sites, including its proximity and accessibility to the fast growing urban centres; and
- the estimated cost of development, including land premium, relocation costs (if any), construction cost and financing cost.

Land acquisition

We acquire land either by competitive bidding through public tenders, auctions or listing at a land exchange administered by the local government; and/or acquisition of property project companies.

Land Acquisition by competitive bidding

On 28 September 2007, the Ministry of Land and Resources (國土資源部) issued the Regulations on the Grant of State-owned Land Use Rights for Construction through Public Tender, Auction and Listing-for-sale (《招標拍賣掛牌出讓國有建設用地使用權規定》), effective 1 November 2007, which provides that land for industrial, commercial, tourism or entertainment use or for commodity housing development shall be granted by means of public tender, auction or listing-for-sale; no land use rights certificates shall be issued before the land premium has been fully paid up in accordance with the land use rights grant contract and the land use rights certificates shall not be issued separately according to the proportion of the payment of the land premium.

BUSINESS

In brief, the procedures to obtain land use rights certificates after 1 July 2002 are as follows:

1. The land administration department of the People's Government at county or municipal level (the "Grantor") issues a notice specifying the terms and conditions of the tender, auction or bidding (the "Sale"), including the amount of deposit payable, the initial bidding price of the land and other criteria that will be considered by the Grantor in determining the successful participant. The notice will generally be issued 20 days in advance of the sale.
2. The Grantor will notify the eligible participants who comply with the terms and conditions of the notice, to attend the Sale. At the Sale, the eligible participants may make an offer for the land and/or submit a proposal in accordance with the steps prescribed in the notice.
3. The Grantor then issues a letter of confirmation to the successful participant. Deposits paid by an unsuccessful participant will be returned.
4. The successful participant then enters into a land grant contract with the Grantor in accordance with the terms specified in the letter of confirmation. The deposit paid for participating in the sale will be used to offset part of the land premium.
5. Having fully paid the land premium specified in the land grant contract, the successful participant registers the land with the Grantor.
6. The People's Government at or above county level issues a land use rights certificate when the land premium and the deed tax is fully paid.

The price we pay in respect of the land acquired by us through competitive bidding is in line with the then prevailing market rate and most of the land parcels acquired by us have been relatively large in size. Owing to our financial strength, clearly defined strategies, integrated development capability and management quality, we believe we are able to create a premium to the projects that we develop. Our Directors believe that there are only a handful of property developers who possess such integrated capabilities.

Land Acquisition through acquiring property project companies

We began to acquire property project companies in 2001 to enable us to expand our business and obtain land use rights at a competitive price. In addition to the usual site selection process and criteria, which we apply in identifying potential targets, we also assess the factors that affect the target's ability to continue to develop the land it possesses when determining whether to pursue the acquisition of a property project company. Such factors include, among others, issues of communications with government, financing arrangements, pricing policies, product development and marketing, which often arise as a result of lack of experience on the part of property developers who own the property project company. Due to more than thirteen years of experience in the PRC property development industry, we are able to overcome such difficulties encountered by these small property developers and have the competitive strength to create a premium with respect to the land obtained through the acquisitions of such project companies.

BUSINESS

The price paid for the land acquired through the acquisition of property project companies is normally considered more attractive compared to the price paid through public bidding and therefore any significant delay in identifying the potential target or reaching a decision may result in us foregoing such opportunity due to the intense market competition. We rely on a broad range of information channels to closely track the latest developments in the market. Once we have identified a suitable target company, we generally are able to complete the due diligence exercise and decision making process within a short timeframe, with the goal of being in a position to complete the acquisition before any of our potential competitors enter into negotiations with the vendors.

Pre-construction

According to PRC regulations, once we have obtained the rights to develop a parcel of land, we begin applying for the various permits and licenses that are needed in order to begin construction and sale of our properties. If the land use right is acquired by way of grant, the land grant contract will be a precondition to application for the following permits and licenses:

- land use rights certificate (國有土地使用證). A certification of the right of a party to use a parcel of land;
- construction land planning permit (建設用地規劃許可證). A permit authorising a developer to begin the survey, planning and design of a parcel of land;
- construction works planning permit (建設工程規劃許可證). A certificate indicating government approval for a developer’s overall planning and design of the project and allowing a developer to apply for a work commencement permit (建築工程施工許可證); and
- construction work commencement permit (建築工程施工許可證). A permit required for commencement of construction.

As of 31 July 2009, we had obtained all the required land use rights certificates and permits for our existing properties under development taking into account their respective stages of development at such date.

Financing of Projects

We finance our projects primarily through capital contributions from our Shareholders, Financing, bank loans and internal cash flows, including proceeds from the pre-sale and sale of our properties.

BUSINESS

According to guidelines issued by the China Banking Regulatory Commission (CBRC), no construction loan shall be granted to projects which have not obtained the relevant land use rights certificates (國有土地使用證), construction land planning permits (建設用地規劃許可證), construction works planning permits (建設工程規劃許可證) and work commencement permits (建設工程施工許可證). Government authorities in China have issued various regulations to govern the financing of development projects:

- On 5 June 2003, the PBOC promulgated the Notice on Further Strengthening the Administration of Real Estate Loans (關於進一步加強房地產信貸業務管理的通知). According to the notice, commercial banks shall focus their business towards supporting real estate projects targeted at mid to lower-income households and appropriately restrict the granting of real estate loans to projects involving spacious apartments, luxurious apartments and villas. No loan shall be granted to projects which have not obtained the land use rights certificate, construction land planning permit, construction works planning permit and work commencement permit. The notice strictly prohibits banks from advancing working capital loans to real estate developers. When applying for a real estate loan, the real estate developer's own capital in any proposed real estate project shall not be less than 30% of the total investment of the project. The notice also prohibits loans advanced for the payment of land premium for land use rights.
- On 16 March 2005, the PBOC promulgated a Notice on Adjusting the Housing Loan Policy and Deposit Rate of Excess Reserves for Commercial Banks (關於調整商業銀行住房信貸政策和超額準備金存款利率的通知) which cancelled the preferential mortgage lending interest rate for individuals and restricted the minimum mortgage loan rate at 0.9 times of the benchmark rate. The PBOC also increased the public housing fund loan rate (住房公積金貸款利率) by 0.18% and required commercial banks to decrease the mortgage loan rate from 80% to 70% of the value of the property if it is located in a city where the property prices are increasing too rapidly.
- On 24 May 2006, the General Office of the State Council issued a Notice on Adjusting the Housing Structure and Stabilising Housing Prices (關於調整住房供應結構穩定住房價格意見的通知). The notice provides that banks are not permitted to provide loans to a property developer whose total capital fund is less than 35% of the total investment amount in an intended development project. From 1 June 2006 and with respect to property mortgages, down payments shall be a minimum of 30% of the purchase price. Down payments of 20% will still be applicable with respect to purchases of housing for buyers' own accommodation with a GFA of less than 90 sq.m..
- On 11 July 2006, the Ministry of Construction (建設部), the Ministry of Commerce (商務部), the National Development and Reform Commission (國家發展和改革委員會), the PBOC (人民銀行), the State Administration for Industry and Commerce (國家工商行政管理總局) and the State Administration of Foreign Exchange (國家外匯管理局) jointly issued the Opinions on Regulating the Entry and Administration of Foreign Investment into the

BUSINESS

Real Estate Market (關於規範房地產市場外資准入和管理的意見). The Opinions provide that no offshore or Chinese domestic loan is allowed and the foreign exchange administration shall not approve the conversion of foreign currency loans into RMB if the foreign-invested real estate corporations have not contributed their registered capital in full, or have not obtained the state-owned land use rights certificate, or their capital for a development project is less than 35% of the total investment.

- On 22 July 2006, the China Banking Regulatory Commission (中國銀行業監督管理委員會) promulgated a Notice on Further Strengthening the Administration of Real Estate Credit (關於進一步加強房地產信貸管理的通知). The notice requests (i) improving credit risk classification system for all kinds of real estate loan; (ii) prohibiting providing loans to disqualified real estate developers whose own capital is less than 35% of the total capital required for the projects (not including affordable housing), or who have not obtained the “four certificates”; (iii) setting the loan term appropriately, and not allowing the provision of working capital loans in the name of real estate development loans; (iv) strictly restricting new loans for those developers who hoard land or housing and disturb market order; (v) preventing developers from obtaining loans by project split-up or rolling-ahead development strategies; and (vi) enhancing management after providing loans. All financial institutions shall provide loans strictly in accordance with the real estate project progress and strengthen overall supervision of the whole process of loan utilisation by developers.
- In December 2008, the General Office of the State Council issued the Opinion on Promoting the Healthy Development of Real Estate Market (關於促進房地產市場健康發展的若干意見). According to the Opinion, in order to stimulate the domestic needs and support the ordinary commodity housing market, purchasers of first unit flat may enjoy preferential loan rate and 20% down payment set out in the relevant laws and regulations. Meanwhile, for the purchasers who have already bought one unit flat through bank mortgage, if that unit GFA per person can not meet the local average level, they can enjoy the same preferential policies provided that the second unit flat is purchased to improve living conditions.
- Under the Notice on Adjusting the Percentage of Capital Fund for Fixed Assets Investment issued by the State Council on May 2009 (國務院關於調整固定資產投資項目資本金比例的通知), in order to cope with the international financial crisis and stimulate domestic needs, the minimum percentage of the property developer’s own capital required for projects development of affordable housing projects and ordinary commodity housing projects was adjusted from 35% to 20% and the minimum percentage of the developer’s own capital for other property development projects was adjusted from 35% to 30%.

Our ability to obtain financing for our project also depends on the various economic measures introduced by the central and local governments which are intended to stabilise the property market in China. From 2006 to the first half of 2008, the PRC government implemented a number of economic adjustment measures to prevent the PRC economy from overheating. Among these measures are policy initiatives issued by the PRC government on 24 May 2006 to use taxation, bank credit and land

BUSINESS

policies to regulate housing demand. During such period, the PBOC also announced several increases in the reserve ratio of commercial banks since June 2006 as a result of which the reserve ratio had increased from 7.5% to 8% with effect from 5 July 2006, from 8% to 8.5% on 15 August 2006, from 8.5% to 9% on 15 November 2006, from 9% to 9.5% on 15 January 2007, from 9.5% to 10% on 25 February 2007, from 10% to 10.5% on 16 April 2007, from 10.5% to 11% on 15 May 2007, from 11% to 11.5% on 5 June 2007, from 11.5% to 12% on 15 August 2007, from 12% to 12.5% on 6 September 2007, from 12.5% to 13.0% on 13 October 2007, from 13.0% to 13.5% on 26 November 2007. On 25 December 2007, the PBOC announced a further increase of the reserve ratio from 13.5% to 14.5%. The reserve ratio is further increased to 17.5%, effective on 25 June 2008, being the historical high over the past 30 years. The reserve ratio went down to 16.5% in October 2008, to 14.5% in December 2008, which reflects the PRC government’s policy to stimulate economic growth in the global economic downturn. The reserve ratio refers to the amount that banks must set aside when they lend. Such decision of the PBOC will limit the amount commercial banks have available for lending and our ability to obtain financing from commercial banks may be adversely affected.

Project Design

Our project design comprises the following three phases:

- Concept design (Phase I) — overall planning conducted at the stages of site selection and land acquisition in connection with our pricing policies and marketing strategies
- Project design (Phase II) — expansion of planning to cover three dimensional design of the property development, floor plans and selection of construction materials, which is usually conducted upon acquisition of the relevant land use rights
- Detailed design (Phase III) — implementation of the concept design and project design throughout the design and construction process, including landscaping and greenery design

In order to facilitate our design process, we have set up a research and design centre, which specifically engages in property design. We usually outsource Phase I design work to renowned overseas design houses such as Atkins China Ltd., WWCOT and HASSELL, all of which are independent third party designers of our Group. When determining the concept design of a particular property development, our designers and engineers generally consider the recommendations of our research and design centre regarding product mix, project location and market conditions, as well as the regulatory requirements regarding the design. Phase II of the design process is an integral part of our overall plan of a property development project and therefore we retain absolute control over this phase of the design process through our strategy committee and research and design centre. We then cooperate with the large and reputable local design institutes in the relevant regions to carry out the Phase III of our design process. Despite the involvement of overseas design houses and third party design institutes, we closely monitor and manage the quality and theme of a project development at each phase of its design process.

BUSINESS

Involving the external design houses and our research and design centre at an early stage of a property development project allows for the formulation of a preliminary design when we are negotiating with the government and enables us to commence construction shortly after the requisite approval to develop a parcel of land has been granted, as a result of which, the overall time needed to complete the development is significantly reduced.

Construction work

We outsource our construction phase of a development project to professional and reliable construction companies. During the Track Record Period, Shanghai Ditong, an associate of Mr. Zhang Zhi Rong, our Founder and ultimate Controlling Shareholder, and hence a related party of our Group, was our largest general contractor, it was determined that accounting for substantially all the construction work we had incurred during the Track Record Period, except for Phase III of Sunny Town with respect to which the construction work was undertaken by independent third party constructing companies. In addition, through the tendering process it was determined that the construction contracts for Royal Lakefront Phase IA and Harbin Villa Glorious Phase I will be granted to independent third party contractors. For the three financial years ended 31 December 2006, 2007, 2008 and the four months ended 30 April 2009, the total construction costs incurred in respect of the construction services provided by Shanghai Ditong amounted to approximately RMB1,033.1 million, RMB1,019.7 million, RMB1,185.5 million and RMB195.3 million, representing approximately 86.8%, 96.1%, 90.6% and 91.3% of our total construction and installation costs incurred during the Track Record Period, respectively. Other construction installation costs mainly included certain construction materials such as elevators, doors, windows, sanitary fittings and kitchen cabinets which we purchase through direct procurement. For the three years ending 31 December 2009, 2010 and 2011, the estimated construction fees payable under the Company's annual budget is RMB1,260.9 million, RMB3,140.3 million and RMB4,820.1 million, respectively. Under relevant PRC laws and regulations, construction contractors need to obtain the relevant construction qualification certificate for the type of construction work they carry out before they can undertake such property construction work. During the Track Record Period, all of the construction contractors we appointed have obtained the requisite licenses. Shanghai Ditong holds a class I Qualification for General Contracting of Building Construction Works (房屋建築工程施工總承包一級資質). With its license Shanghai Ditong is permitted to engage in construction work for the following buildings under a construction or installation contract provided that the single contract value does not exceed five times of the registered capital of the enterprise: (1) construction project for buildings less than 40 storeys with various spans; and (2) structures with a height no more than 240 metres; and (3) residential quarters or building complexes with a GFA no more than 200,000 square metres.

The construction phase of a development project begins once we obtain the Construction Permit for the project. Although Shanghai Ditong, being our general contractor, is responsible for purchasing construction materials, procuring tools and equipment, it outsources labour services through third party construction labour providers and outsource specialised construction works to third party sub-contractors that are responsible for specialised construction works, such as landscaping, steel structural works, building envelope installation and fire services installation, and we, through our project management department in each project company, retain overall monitoring over the quality and progress of our construction process.

BUSINESS

According to the PRC Tendering and Bidding Law (《中華人民共和國招標投標法》), which became effective on 1 January 2000, and the Rules on the Tender Scope and Criteria for Construction Projects (《工程建設專案招標範圍和規模標準規定》), the tender process is compulsory with respect to construction projects within the PRC for projects such as large-scale infrastructure and public utilities relating to social public interests or public security, including the exploration, design, construction, construction supervision thereof as well as procurements pertaining to important equipment and materials in connection with project construction. The tender process can be conducted via open tender or tender by invitation. During the Track Record Period, the majority of our property projects have involved tender by invitation process, during which, Shanghai Ditong has been invited and selected as a successful bidder for each of these projects except for Phase III of Sunny Town, Royal Lakefront Phase IA and Harbin Villa Glorious Phase I. Under the relevant tender laws, a tender can only proceed if at least three construction contractors, all having competent qualifications and the ability to undertake the construction work, have submitted bids. The successful bidder is selected based on an independent assessment by each of the members of the assessment committee of the relevant tender bureau, having taken into account, among others, the following factors: the fee quote, the construction schedule for completion, the quality of construction work, the construction plan, allocation of manpower, safety measures and standard, equipment and facilities to be adopted, and the industry experience of the project manager of the bidder. Depending on the complexity and the scale of our project developments, some factors may outweigh the others in determining which contractors that we select. In general, the fee quote will be given the greatest importance, followed by the construction plan and quality of construction work. For all the bids for which Shanghai Ditong was selected during the Track Record Period, Shanghai Ditong had comparable scores or scored higher in terms of a competitive fee quote, construction plan and/or quality of construction work as compared to other bidders. As our projects do not involve state ownership, we may, but are generally not required to, select our construction companies through an open tender process.

We have selected our construction companies through tender by invitation in compliance with the relevant laws and regulations as well as local regulations where our properties are situated. We have also adopted a strict internal selection process in this regard. Our typical selection process regarding construction contractors has involved the following steps.

1. We engage a qualified independent tendering agent which is mainly responsible for drafting tender documents and assisting us in organising tender process. The tender agent is a legally established intermediary institution, acting as our agent in the tender process and providing relevant services. We then, with the help of the tendering agent, make registration of the projects to be tendered and file relevant tendering documents with the local government authorities.
2. Taking into consideration the specifications of a particular project, we compile a list of construction contractors ranging from three to eight and invite them to enter the bidding process.
3. The contractors who intend to bid for the projects provided information to us regarding their qualification, industry experience, and size and composition of their management team.

BUSINESS

4. Based on the information received and the specifications of a particular project, we issue tender application documents to selected bidders for completion (typically three to five contractors with competent qualification and relevant industry experience). All these construction contractors, except for Shanghai Ditong, are independent third parties of our Group.
5. The tendering agent would submit the completed tender application documents and other required documents to the local tender bureau.
6. After the tender documents are submitted, an assessment committee is formed, comprising several industry experts randomly chosen from a pool of industry experts who are independent of our Group and a representative from our Group. In accordance with the PRC laws and regulations and industry practice, the successful bidder is selected by way of score by an independent assessment of each of the members of the assessment committee having taken into account the fee quote, the construction schedule for completion, quality of construction work and the construction plan (which includes, allocation of manpower, safety measures and equipment and facilities to be adopted and the industry experience of the project manager of the bidder).
7. The bidding result is released and the successful bidder enters into the construction contract with us within a certain period from the date of release of the bidding result.

Going forward, our Group will adopt strengthened corporate governance measures in respect of the tendering process. A tendering committee will be established to monitor the tendering process and prescribe criteria for the selection of potential bidders for each of our project developments.

According to the Temporary Measures for Settlement of Construction Fees (《建設工程價款結算暫行辦法》), prepayment in the amount of 10% to 30% of the contract sum shall be payable to constructors within one month of the date of the construction contract or not later than seven days prior to the date of the commencement of the construction work, and monthly payments shall be made during the construction work. The total amounts payable during the construction shall not be less than 60% but not more than 90% of the construction price. The remaining balance of the contract price shall be payable on settlement with approximately 5% of the contract price withheld during the warranty period. In accordance with the above-mentioned notice and market practice, under the construction contracts with Shanghai Ditong, we generally prepay 20% to 30% of the construction price to Shanghai Ditong within 10 days from the date of the construction contract and monthly payments are payable depending on the progress of construction work. The total amount payable to Shanghai Ditong during the construction period does not exceed 90% of the contract sum. The remaining balance is payable only upon the satisfactory completion of work on settlement date with 2% to 5% of the contract price withheld to cover any expenses incurred in connection with the quality of the construction work during the warranty period. In addition, our construction contract also states that the contractors must comply with relevant laws and regulations on the quality of construction projects, as well as our own standards and specifications. The contractors are also subject to our quality control requirements and procedures, including examination of materials and supplies, regular on-site inspection and production of progress reports.

BUSINESS

We generally do not carry insurance against personal injuries that may occur during the construction of our properties except for our own employees. The construction companies are responsible for quality and safety control during the course of the construction and are required to maintain accident insurance for their construction workers according to PRC laws and regulations. We are not responsible for any labour problems of our contractors. Under the construction contracts, we are entitled to seek indemnification from the contractors for any damage as a result of any non-compliance with the applicable PRC laws and regulations concerning environmental protections, social and safety issues.

As of the date of this document, we have not been in breach of any applicable PRC laws and relevant regulations governing property constructions that would have a material adverse effect on our results of operation or financial conditions.

Procurement and Quality Control

During the Track Record Period, our general contractors are mainly responsible for procuring basic building materials in accordance with our specifications and requirement, such as cement, steel, and bear the risks of fluctuation in the costs of these materials. Going forward, we intend to procure building and construction materials by ourselves as to better control the cost and quality of our construction materials and reduce the risk arising from fluctuation of construction material prices. For those projects that require procurement through our general contractors, we conduct regular site inspection of raw materials procured by our constructors so as to monitor the quality and inventory level of such materials.

We place great emphasis on the quality of our project. Our budgeting department is involved from the site selection process of each project and is responsible for formulating budgeting plans and assisting our general contractor in selecting construction materials in accordance with strict quality specifications. To maintain quality control, our on-site supervisors and project companies will inspect quality of the construction materials used in our projects to ensure compliance against our own standards and specifications on each delivery and will reject materials which are below our standard or that do not comply with the contractual specifications. In addition, we engage independent and certified engineering supervisory companies to conduct quality and safety control checks on all building materials, equipments and construction in accordance with the relevant PRC laws. These certified engineering supervisory companies are engaged by us at different stages of a property construction phase, all of which are independent of our Group and Shanghai Ditong, and possess the requisite qualifications to conduct the relevant supervisory work. The qualifications of a certified engineering supervisory company can be broadly divided into three categories, namely, overall qualification (綜合資質), professional qualification (專業資質) and enterprise qualification (事務所資質), and the professional qualification (專業資質) can be further classified into three levels, with the First Level (一級) being the highest level. Engineering supervisory companies with the First Level (一級) professional qualification may carry out quality supervisory work and safety control checks on the construction of property project that involves high rise buildings with 28 stories or above and a site area of 30,000 square metres or more and residential quarters with a total GFA of over

BUSINESS

120,000 sq.m.. Most of the engineering supervisory companies appointed possess First Level (一級) professional qualification. The payment amount and settlement method varies but we typically pay our engineering supervisory companies a commission calculated based on the GFA and in the case of supervisory services provided in respect of special assets such as elevators, the commissions are usually calculated based on the number of relevant units. We usually settle our payment with our engineering supervisory companies in instalments, with the last payment usually to be made upon the completion of construction phase of the relevant project.

We also purchase certain special construction materials, such as elevators, doors, windows, sanitary fittings and kitchen cabinets, through direct procurement. Direct procurement does not only help us reduce and control our overall construction cost, but also enable us to better control the quality of the materials used to the extent that such materials are not customarily found in construction work.

For the three financial years ended 31 December 2006, 2007, 2008 and the four months ended 30 April 2009, purchases attributable to our five largest suppliers including material suppliers and construction contractors were approximately 57.9%, 57.5%, 47.5% and 51.2%, respectively of our total purchases in the respective period. Among the top five suppliers of our Group during the Track Record Period, Shanghai Ditong is our single largest supplier throughout the three financial years ended 31 December 2008 and the four months ended 30 April 2009, and its total purchase amounts for each of the three financial years ended 31 December 2008 and the four months ended 30 April 2009 accounted for approximately 51.4%, 54.4%, 42.9% and 41.1% of the Group's total purchase amount from direct suppliers, construction and installation services and other indirect costs during the respective period. Our related parties, Shanghai Yangguang Investment (Group) Co., Ltd., Shanghai Yuncheng Urban Engineering Co., Ltd and Shanghai Chuangmeng, each of which is an associate of the Founder, were also among the top five suppliers during our Track Record Period. Shanghai Yangguang Investment (Group) Co., Ltd, a company principally engaged in the provision of corporate investments, property consultancy services and domestic trading, provided professional consultancy services on property development to us, and the purchase amounts attributable to Shanghai Yangguang Investment (Group) Co., Ltd., a company 100% beneficially owned by the Founder, accounted for approximately 1.7%, 0.9%, 0.1% and 0.2% of the total amount of purchases of our Group for each of the three financial years ended 31 December, 2008 and the four months ended 30 April 2009, respectively. Shanghai Yuncheng Urban Engineering Co., Ltd., a company principally engaged in urban engineering, provided urban engineering services to us and the purchase amount attributable to Shanghai Yuncheng Urban Engineering Co., Ltd., a company owned as to 40% by Mr. Ding Xiang Yang, our vice Chairman and the brother-in-law of the Founder, and 60% by Shanghai Zhuoxin Commercial Investment Management Co., Ltd., a company owned as to 75% by the Founder's father and 25% by his wife, accounted for 2.6%, 0.2% and 0.1% of our total purchase amount for the three financial years ended 31 December 2008, respectively. Shanghai Chuangmeng, a company principally engaged in the provision of design and construction engineering services, provided design services to us and the purchase amount attributable to Shanghai Chuangmeng accounted for approximately 0.9% for the financial year ended 31 December 2007. Save as disclosed above, none of our top five suppliers for each of the three financial years ended 31 December 2008 and the four months ended 30 April 2009 is a related party of our Group. In addition, our Directors have confirmed that, other than the purchases with Shanghai Ditong and Shanghai Chuangmeng which has ceased to be our related party since 9 May 2008, in respect of the provision of its construction services and design services, respectively, none of the other related party top five suppliers disclosed above will continue to have

BUSINESS

such relevant transactions with us going forward. Save as disclosed herein, none of our Directors, their associates or any shareholder (who or which, to the best knowledge of our Directors, owns more than 5% of our share capital) has any interest in any of our top five suppliers.

Fitting and decoration work

In the past, most of our projects do not include fittings and interior decorations so as to provide our end customers with the full flexibilities to renovate the properties based on their preferences and needs. In response to the market trends, we intend to offer customised fittings and decoration services to our customers going forward with a view to expanding our customer portfolio and creating further values to our products.

Pre-sales

Pre-sales of our property units commence before the completion of a project or a project phase. Under the Law of the Administration of Urban Real Estate of the PRC (《中華人民共和國城市房地產管理法》) and the Administrative Measures governing the Pre-sales of Urban Real Estate (城市商品房預售管理辦法), as amended in 2001 and 2004, we must comply with the following conditions before pre-sales of a particular property can commence:

- the land premiums must have been fully paid and the land use rights certificates must have been obtained;
- the construction works planning permit and construction work commencement permit must have been obtained;
- the funds contributed to the development of the property developments where property units are to be pre-sold must comply with the relevant governmental regulations and the expected completion date and delivery date of the construction work must have been ascertained; and
- pre-sale permits must have been obtained from construction bureau at county-level or above or real estate administration authority.

We comply with the relevant governmental regulations in respect of the use of pre-sales proceeds in all material respects. Based on the local regulations on the supervision of pre-sale proceeds, the proceeds from the pre-sales of our properties must be deposited in escrow accounts. Before the completion of the pre-sold properties, the money deposited in these escrow accounts may only be used to purchase construction material and equipment, make interim construction payments and pay taxes, subject to prior approval from the relevant local authorities. See “Summary of PRC Laws Relating to the Property Sector — Sale of Commodity Properties” in Appendix VII to this document for further information on regulations that relate to pre-sales. As of the Latest Practicable Date, we were in compliance, in all material respects, with the relevant laws and regulations applicable to the pre-sale of properties in the PRC.

BUSINESS

In accordance with the pre-sales contract, after signing the pre-sale contract and paying the down payment, which is normally 20% to 30% in accordance with the relevant laws and regulations, the purchasers need to fully settle the outstanding contract amount within a certain period as set out in the pre-sale contract. If a purchaser defaults under the pre-sale contract and fails to make timely payment, then such purchaser normally is obligated to pay liquidated damages in an amount equal to 0.01% of the total contract amount per day and, if the non-payment exceeds 30 days, the Company is entitled to terminate the pre-sale contract and claim 1% of the total contract amount as liquidated damages. In addition, until the total purchase amount under the pre-sale contract is paid in full by the purchaser, the Company is not obligated to deliver the property under the pre-sale contract. As at the Latest Practicable Date, there had been no major return of properties sold or pre-sold during the Track Record Period that had a material adverse impact on the financial and operation position of the Group.

Marketing and sales

Our marketing and sales centre is responsible for formulating our marketing and sales strategies and managing the overall sales process. Each of our project companies has also established its own marketing and sales department to implement the marketing and sales strategies laid down by our marketing and sales centre. The marketing and sales strategy varies from project to project and depends on a wide range of factors, including market conditions, our cash position, size, phase and location of the project, timing for sales and targeted customer group. Our marketing and sales centre sets the sale price for each unit within a particular project based on the recommendation by the relevant project company, taking into account the marketing and sales strategies adopted for such project.

Some of our marketing and sales activities are conducted through cooperation with external professional marketing and sales service providers, such as DTZ Debenham Tie Leung International Property Advisers, which is an international real estate agents and independent of our Group. We usually engage different sales agent for different projects based on each project's particular location, potential customer base and pricing. The agent commissions usually range from 0.8% to 1.5% of the total sales proceeds from a particular project and are often negotiated by us on a case-by-case basis. For the three financial years ended 31 December 2006, 2007, 2008 and the four months ended 30 April 2009, the total agency fees paid and payable by us in respect of the agency services amounted to approximately RMB15.7 million, RMB37.1 million, RMB17.4 million and RMB2.2 million, respectively. As at 31 December 2006, 2007, 2008 and 30 April 2009, the unpaid balances were RMB17.2 million, RMB20.8 million, RMB9.9 million and RMB9.5 million, respectively. The settlement terms vary among different projects. For example, Pursuant to the sales agency agreement for the sale of Wuxi No.1 City Promotion, we were required to pay a deposit representing 10% of the agency fee upon signing of the agreement, and settle the agency fee monthly based on the actual proceeds from the monthly sales. We were then entitled to deduct the initial 10% deposit from the last payments of the agency fee. Another example would be the sale of Shanghai Park Avenue, pursuant to which, we were required to settle 90% of the agency fee monthly based on the actual proceeds from sales and the remaining 10% within ten days from the completion of the relevant properties. As the final payment of agency fees requires detail calculation of the fee amounts and need to be mutually agreed between us and each of the sales agents, it will usually take a long period of time to have all

BUSINESS

outstanding agency fees being agreed and settled after the agency services are rendered. As a result, the unpaid balance of agency fee as at each period end may accumulate to a slightly higher balance, for which the Group is committed to make payments in accordance to the agreed payment terms.

Handover of completed properties

In relation to our properties for sale, after construction is completed, we will need to obtain a completion and acceptance certificate (竣工驗收證明) from the relevant local governments before we are able to hand over the properties to our customers. In Shanghai, there is an additional requirement for us to obtain a delivery certificate (交付使用許可證) in respect of our completed residential properties before handover can be effected. Pursuant to a typical pre-sale agreement, if we fail to deliver the property on the delivery day stipulated in the pre-sale agreement, we will, depending on the length of delay, be liable to pay a monetary penalty ranging from 0.005% to 0.02% of the property price on a daily basis until the delivery of property. If our delay exceeds certain number of days, which, depending on the particular contracts ranges from 30 days to 180 days, the relevant purchaser may have the right to repudiate the pre-sale agreement in addition to claiming the penalty fee. As at the Latest Practicable Date, there had been no repudiation of the pre-sale agreement by our purchasers that had a material adverse impact on the Group’s operational and financial position. There may also be factors beyond our control that cause delay to the delivery of property, such as examination and approval processes conducted by various government agencies. In the case of serious delays on one or more property projects, our business and reputation may be adversely affected. The Group has fully paid the penalty in the amount of approximately RMB35 million for the late delivery of properties for the year 2008. The estimated penalty of the Group for the late delivery of properties for the period from 1 January 2009 to 15 September 2009 is approximately RMB55.4 million. The Directors confirm that, other than the penalty we have paid as a result of late delivery of the properties as disclosed above, the Group is not subject to any other legal consequence in relation to such late delivery of the property to the purchasers. The estimated amount of penalty for the late delivery represented the penalty which the Group will be obliged to pay to customers in accordance with the terms in the pre-sales agreements on the assumption that the properties cannot be delivered on or before 15 September 2009. Notwithstanding the above, the Directors believe that we did not experience any significant delay in delivering completed properties to our customers that had a material adverse impact on our financial performance during the Track Record Period.

Property Management

We appoint professional property management companies to manage the properties we develop. Other than Yangguang Management, which is owned as to 90% by the spouse of the Founder and therefore a related person of the Group, all the other property management companies we have appointed as at the Latest Practicable Date were independent from our Group. The services provided by these property management companies typically include security, property maintenance, gardening and other ancillary services which are reasonably expected from a property management company. The monthly management fee is determined with reference to the prevailing market rates set by the relevant government authorities and is calculated based on the GFA of the units. The management fee is usually settled on a monthly basis upon receipt of the invoice issued by the property management companies. While we have the right to appoint property management companies upon completion and delivery of each project we develop, we do not assume any obligation for payment of management fee

BUSINESS

in respect of the units we have handed over to our purchasers. With a view to ensuring better property management services offered to our customers, we have also engaged reputable and internationally well-known property management consulting companies to provide consultancy services to the external property managers that we appoint. Such consulting companies include DTZ Debenham Tie Leung International Property Advisers, and Key International Hotels Management Co., Ltd., a joint venture to which Kempinski Hotels S.A. of Europe is a party.

Payment and End-user Financing

With respect to both pre-sales and sales, our purchasers can choose payment by instalments, lump sum payments or mortgage bank loans. In line with the market practice, we have arrangements with various banks for the provision of mortgage facilities to our purchasers and we provide guarantees for these mortgages until completion of construction and the relevant property ownership certificates and certificates of other interests in the property are submitted to the relevant banks.

In line with industry practice, we do not conduct independent credit checks on our purchasers but rely on credit checks conducted by the relevant bank.

Customers

Our core customer base comprises local customers as well as overseas investors. We target a broad base of customers with varied income levels and backgrounds. Since 2005, we have adopted an advanced electronic system to make real-time sale records and track our existing customers for marketing sales and after-sales purposes.

For the financial year ended 31 December 2006, 2007, 2008 and the four months ended 30 April 2009, sales attributable to the largest customer amounted to approximately 8.1%, 3.7%, 8.9% and 2.2%, respectively, of our total sales in each year and sales attributable to our five largest customers amounted approximately 16.7%, 8.6%, 16.7% and 10.0% of our total sales. To the best knowledge of the Directors, all the top five customers during the Track Record Period are independent of the Group.

Other Business

To reduce and better control our overall construction cost, our wholly-owned subsidiary Nantong Zhuowei established Shanghai Shuntianlong in 14 November 2008, and Shanghai Xintai, another wholly-owned subsidiary, established Shanghai Qiwei on 24 September 2008. Shanghai Shuntianlong and Shanghai Qiwei mainly provide construction materials such as concrete, steel and other fitting and decoration materials for our property development. In addition, Nantong Zhuowei and Tianjin Hongyun, which were previously property companies engaging in the development of properties, extended their scope of business so as to enable them to focus on the procurement of construction materials. Through our own construction materials procuring companies, we hope we could better tackle the market fluctuating risk of construction materials, which account for a very significant part of cost of sales for property companies. Further in 28 November 2008, Nantong Zhuowei acquired Shanghai Mingbao, a company mainly providing fitting and decoration services, from two individuals who are independent of our Group. We intend to strengthen our fitting and decoration capability through the acquisition of Shanghai Mingbao. Although most of our current projects do not include

BUSINESS

fittings and interior decorations to our customers, we are of the view that developing our own fitting and decoration arm can further expand our products portfolio, provide more flexibility to our customers and further strengthen our position as a market leader by offering a variety of customised products to the market.

COMPETITION

The competition in the property industry in the PRC is highly intense. Our existing and potential competitors include major domestic state-owned and private developers and foreign-funded real estate developers (including leading developers listed in Hong Kong) who focus on developing residential property markets in China. Competitive factors include the size of land reserves, the geographical location, the types of property offered, brand recognition by customers, creditworthiness, prices and design quality. A number of our competitors have greater financial, marketing, land and other resources than we have, as well as greater economies of scale, broader name recognition, a longer track record and more established status in certain markets.

For more information on competition, please refer to the section headed “Risk Factors — Risks Relating to Our Business — increasing competition among property developers, particularly in first-tier cities, may adversely affect our business and financial condition”.

LEASED PROPERTIES

As of 31 July 2009, we, as lessees, have signed 25 tenancy agreements with the relevant lessors, leasing units and buildings for office and residential purposes. We have completed registration of 6 out of the 25 tenancy agreements as of 31 July 2009 and are in the process of applying for, and/or requesting the relevant lessors to assist in, the registration of the remaining tenancy agreements. As advised by the Company’s PRC counsel, Commerce and Finance Law Offices, the failure of registering a tenancy agreement would not affect validity and enforceability of such tenancy agreement under the applicable laws and regulation. In addition, for the remaining tenancy agreements not yet registered, the lessors have provided indemnities in favour of us to the effect that the Company will be fully indemnified for any possible penalties or fees imposed on it associated with the non-registration of tenancy agreements. We believe that in the event there is any future dispute due to lessor’s title defect to the leased property and/or in connection with validity of the tenancy agreements, the Company will be able to find alternative premises within a short timeframe and with minimal disruption to the Company’s business operations.

INTELLECTUAL PROPERTY RIGHTS

Currently, each project developed by us has its own project name and marketing name, which is given after considering the project’s particular situation. As part of the Reorganisation, our Founder, through two wholly-owned companies (which do not form part of our Group), has transferred to us the two trademarks, namely,  and , at no consideration for use in connection with our property development business. We are currently in the process of applying for our trademarks which we plan to promote as our future brand for every project to be developed. For further details relating to our intellectual property, see the paragraph headed “Intellectual Property” in Appendix X “Statutory and General Information”. We believe we can form quick and strong brand recognition under the new

BUSINESS

trademarks through continuously providing high quality properties to the market. Pending registration of the above-mentioned trademarks, our Group will own all the relevant trademarks in respect of all our property projects.

INSURANCE

Property developers are not required under PRC laws and regulations to maintain insurance coverage in respect of their property development operations. In line with the industry practice, we do not maintain insurance coverage on our properties developed for sale except for those developments over which our lending banks have security interests, or for which we are required to maintain insurance coverage under the loan agreements. In addition, we generally do not carry insurance against personal injuries that may occur during the construction of our properties except for our employees. The general contractors and construction companies are responsible for safety control during the course of construction and are required to maintain accident insurance for their construction workers pursuant to PRC laws and regulations. According to our construction contracts, the general contractors and construction companies will bear the risks and liabilities arising from tortuous acts committed on work sites. To date, we have not experienced any material damage to our property developments nor have any material personal injury-related claims been brought against us.

We carry social insurance for our formal employees and maintain on a voluntary basis personal accident insurance and supplementary commercial insurance, which complies with the relevant PRC rules and regulations. We believe that our policies with respect to insurance are in line with the industry practice in the PRC. However, there are risks for which we do not have sufficient insurance coverage for losses, damages and liabilities that may arise in our business operations. You should refer to “Risk Factors — Risks Relating to Our Business — we do not have insurance to cover potential losses and claims in our operations” for additional risk disclosure.

SOCIAL, HEALTH AND SAFETY MATTERS

In respect of social responsibilities, in particular, labour health, safety and social insurance, pursuant to the regulations of the Labour Contract Law of the People’s Republic of China, the Labour Law of the People’s Republic of China and Opinions on Several Questions concerning the implementation of the Labour Law of the People’s Republic of China, an enterprise is required to execute an employment contract with its employees according to the relevant laws and regulations and shall not rescind the employment contract without cause. Employees are entitled to rest and have annual leave according to the law and provisions as stipulated in an employment contract. An enterprise is required to have health and safety policies and provide health and safety training to its staff. It is also required to provide its staff with a safe and hygienic working environment as well as any protective gears if necessary. Pursuant to the regulations of the Decision of the State Council on Establishing the Basic Medical Insurance System for Urban Employees, Decision of the State Council on Establishing a Uniform Basic Endowment Insurance System for Enterprise Employees, the Provisional Insurance Measures for Maternity of Enterprise Employees, Regulations on the Management of Housing Provident Fund, Regulations on Unemployment Insurance and Regulations on Industrial Injury Insurance, an enterprise is required to purchase basic medical insurance, pension insurance, maternity insurance, unemployment insurance, personal injury insurance for its staff and pay the relevant insurance premiums in accordance with the law and regulations.

BUSINESS

During the Track Record Period, we had not violated any currently applicable PRC social, health and safety regulations in any material respect. We have in the past complied with the new PRC labour laws in all material respects and will continue to do so, and do not expect such compliance to affect our business operations in any material respect. We believe that by protecting the interests of our employees, we would be able to enhance employee morale and improve our long-term retention rate of quality personnel.

In order to comply with the relevant laws and regulations, we participate in various defined retirement contribution plans organised by the PRC provincial and municipal governments for our employees. We pay on behalf of our employees a monthly social insurance premium covering pension insurance, medical insurance, unemployment insurance and housing provident fund. Our human resources department personnel looks after our social, health and safety issues. They generally have sound knowledge of administration on employment and related matters and are aware of the latest legal development in this area and our compliances with the relevant requirements.

ENVIRONMENTAL MATTERS

Real estate developers in China are subject to a number of environmental laws and regulations including the PRC Environment Protection Law (中華人民共和國環境保護法), PRC Law on Prevention and Control of Noise Pollution (中華人民共和國環境噪聲污染防治法), PRC Law on Environmental Impact Assessment (中華人民共和國環境影響評價法) and the Administrative Regulations on Environmental Protection in relation to Construction Environment (建設環境保護管理條例). Pursuant to those laws and regulations, an environmental impact assessment report is required to be submitted to the relevant government authorities for approval before commencement of construction, and each project developed by a property developer is required to undergo an environmental assessment. When there is a material change in respect of the construction site, scale or nature of a given project, a new environmental impact assessment report must be submitted for approval. Although property development is generally regarded as low polluting, during the course of construction of a project, there may be an increased amount of dust around the site, increased noise pollution, increased wastewater and solid construction waste. In each of these cases, our construction contractors, as part of the responsibilities under their contracts, are responsible for taking actions to control the quality of air, degree of noise and water pollution levels.

We endeavour to ensure that we comply with relevant PRC laws and regulations on environmental protection. When entering into construction contracts with our general contractors, we would request that they strictly comply with all PRC environmental protection laws and regulations in force including using construction materials and construction methods that meet the requirements of such laws and regulations. We normally request the construction contractors to take specific measures to minimise adverse environmental impact during construction. For example, a septic tank should be installed to filter the domestic waste from the construction site before discharging into the municipal pipes. Machinery and equipment used for construction are governed by certain emission standards so that the gas emitted from the machinery or equipment of all construction units at the scene must meet the relevant standards. During the course of construction, all construction units should strictly comply with the administrative provisions in respect of working hours stipulated by the local governments so as to reduce noise pollution. We believe that our environmental protection measures are in line with industry practice.

BUSINESS

In addition, in accordance with PRC environmental laws and regulations, if a construction project includes environmental facilities (including projects, devices, monitors and other facilities that were constructed or equipped in order to prevent pollution and protect the environment), such facilities will have to pass an inspection by the environmental authorities and an approval must be obtained before the environmental facilities can commence operations. If a construction project does not include any environmental facilities, no such approval is required. Whether our projects are required to construct environmental facilities is on a case-by-case basis mainly and determined by the project scope and the demands of local environmental authorities.

Upon completion or under construction of each property project, the relevant PRC government authorities will also inspect the property site to ensure that we have complied with the applicable environmental and safety standards. Inspection of each property project under construction carried out by the relevant PRC government authorities to date have not revealed any environmental liability which we believe would have a material adverse effect on our business operations or financial condition. Our PRC legal counsel, Commerce and Finance Law Offices, has confirmed that during the Track Record Period, we did not experience any material environmental pollution incident and there was no penalty imposed on us for violation of environmental laws and regulations that would have a material adverse impact on our operation and financial results. All of our properties under construction have received the requisite environmental approvals. We believe we are in compliance with PRC environmental laws and regulations and we do not have a record of any non-compliance during the Track Record Period.

We cannot predict the impact of unforeseeable environmental contingencies or any or new update to laws or regulations on our existing projects or properties that we may develop in the future. It has been our commitment to continue complying with relevant PRC environmental laws and regulations and requiring the construction contractors to strictly comply with relevant laws and regulations during the materials procurement and property construction process so as to prevent any potential future environmental risks. We will also continue to educate our employees the importance of environmental protection and keep abreast with developments in PRC environmental protection laws and regulations through regular dialogue with the relevant local PRC authorities. Please also see “Risk Factors — Risks Relating to our Business — Potential liability for environmental problems could result in substantial costs.”

LEGAL PROCEEDINGS

We were not, as of Latest Practicable Date, engaged in any litigation, arbitration or claim of material importance, and no litigation, arbitration or claim of material importance was known to our Directors to be pending or threatened by or against us that would have a material adverse effect on our results of operations or financial condition.

Compliance with PRC Laws and Regulations

During the Track Record Period and as at the Latest Practicable Date, our Group had complied with the applicable PRC laws on property development and pre-sale in all material aspects. In particular, we believe we have made sufficient provisions based on our estimate of the amount of applicable LAT in accordance with the requirements set forth in the relevant PRC tax laws and

BUSINESS

regulations, conducted environmental impact assessments for most of our construction projects in accordance with the relevant environmental laws and regulations, and adopted insurance practice that is consistent with the general practice in the PRC property development industry. As at the Latest Practicable Date, we had also obtained all relevant approvals, permits and licenses necessary for our operation and all the land use right certificates in respect of our properties completed for sale and properties under development. As at the Latest Practicable Date, our Directors confirmed that none of our projects is, or may be, subject to any penalty and/or forfeiture due to our failure to comply with the terms of our current land grant contracts that would have a material adverse effect on our results of operations or financial condition. As at the Latest Practicable Date, our PRC legal adviser, Commerce and Finance Law Offices, has confirmed that they have not found any land owned by our Company that is subject to the possibility of forfeiture or penalties due to the delay of construction. In addition, we further undertake that we will use our best endeavours to ensure that we will perform current and future obligations strictly in accordance with the relevant land grant contracts. We will monitor our on-going compliance with the requirements of the requisite approvals, permits, licenses and certificates and require all our subsidiaries and property projects to strictly adhere to the relevant rules and regulations imposed by government authorities from time to time.

RELATIONSHIP WITH THE CONTROLLING SHAREHOLDERS

Independence from our Controlling Shareholders

The Group will be able to operate its business independently of our Controlling Shareholders and their associates, including Shanghai Ditong and Yangguang Management for the following reasons:

Financial Independence

Our Group has an independent financial system — we have our own internal control and accounting systems, accounting and finance department, independent treasury function for cash receipts and payments. We can make financial decisions according to our own business needs and have independent access to third party financing. The non-trading and financing balances with, as well as guarantees provided by and to the Controlling Shareholders and their associates will be fully repaid and settled.

Operational Independence

Our Group has been operating independently during the Track Record Period and thereafter and has not shared our facilities, marketing, sales and general administration resources with the Controlling Shareholders and/or their associates (including Shanghai Ditong), save for certain ad hoc assistance provided by some members of the finance team of Shanghai Xintai and Suzhou Hongsheng (both of which are our wholly-owned subsidiaries) to Shanghai Ditong for the reconciliation of information relating to construction projects. Such assistance was not provided after January 2008 and will not be provided going forward.

Other than the property management services to be provided by our connected person Yangguang Management and construction services to be provided by our connected person Shanghai Ditong, no services will be provided by the Controlling Shareholders and/or their associates for our Group’s operation activities. For each of the three years ended 31 December 2008 and the four months ended 30 April 2009, Shanghai Ditong was the largest supplier of the Group accounting for 51.4%, 54.4%, 42.9% and 41.1% of the Group’s total purchase amount from direct suppliers, construction and installation services and other indirect costs respectively, and for each of the three years ended 31 December 2008 and the four months ended 30 April 2009, the total construction costs incurred in respect of the construction services provided by Shanghai Ditong amounted to approximately RMB1,033.1 million, RMB1,019.7 million RMB1,185.5 million and RMB195.3 million, representing approximately 86.8%, 96.1%, 90.6% and 91.3% of our total construction and installation costs (excluding the purchase amount from direct suppliers) incurred respectively. Although Shanghai Ditong was our largest supplier and provided substantially all of our construction services during the Track Record Period, in the opinion of the Directors, there are other willing general construction contractors readily available in the market that we can engage to provide us with construction services of comparable standard at a comparable price. This is because we maintain a list of construction companies with different qualifications in places where our projects are located such that we can contact third party construction contractors that have the necessary qualifications and capability to meet the particular specifications for our different project developments. In addition, pursuant to the relevant regulations governing the tender process, the tender was able to proceed only with the participation of the bidders of comparable standing. For details of the bidding requirements. For each of our property development projects during the Track Record Period and thereafter, a

RELATIONSHIP WITH THE CONTROLLING SHAREHOLDERS

certified engineering supervisory company which is independent of the Group and our construction contractor for the relevant property project was appointed to supervise all aspects of the construction of the property project. The engineering supervisory company is responsible for monitoring the quality of construction materials used in our projects, conducting safety control checks, monitoring the work progress and quality of construction to ensure that our requirements and the construction schedule specified in the relevant contract with our construction contractor are strictly adhered to. For details regarding the independent supervisory process of the independent engineering supervisory company, please refer to the section headed “Business — Procurement and Quality Control”. We have been seeking to diversify our service providers by engaging other independent construction companies for our new development projects, for example, we did not invite Shanghai Ditong to participate in the tender for the construction of Phase III of Sunny Town. Going forward, the annual transaction value with Shanghai Ditong will not exceed 93.0%, 53.4% and 27.8% of our estimated total construction fees payable for each of the three financial years ending 31 December 2011, respectively.

The Directors are of the view that the shift of the provision of construction services by Shanghai Ditong to independent construction contractors would not materially affect the Group’s business operations because our project management department in each project company retains control over the management of the overall construction of the project and is responsible for monitoring the quality of the construction work and the construction progress. Typically, each of our project company comprises about 25 experienced staff responsible for the development of a property project. Such staff includes project managers, engineers and personnel in charge of budgeting and finance. The engineers are responsible for the monitoring the construction work, the budgeting and finance team is responsible for monitoring the purchase of construction materials and the project managers are responsible for monitoring the construction progress and construction work. The project managers report to the regional companies of our Group about the construction progress and quality of the construction work from time to time. In addition to having our own internal control measures to supervise the construction progress and construction work from time to time, we engage an independent certified engineering supervisory company for each of our project development to monitor the quality of construction materials used, construction progress and quality of construction work. The supervisory company will provide monthly reports to us and thus our Group can ensure the quality of construction work will not deviate from the construction plan. Our Group can seek compensation from the construction contractor if the quality of construction work deviates from the construction plan. As such, the Directors believe that with these control measures in place, switching to another general construction contractor will not materially affect our project developments. The Directors also consider that the role of a construction contractor is to provide construction services in accordance with the pre-determined detailed design plan and drawings with the technical specifications and thus so long as the detailed design plan with the specifications required have been prepared and the Group retains sufficient level of quality control over the construction process, the construction work provided by different construction contractors (all holding the same class of qualification licence and having the requisite expertise) will not be different in any material respect as the construction contractors are only expected to follow the detailed construction plan and drawings, and quality requirements in completing the construction work. The Directors also note that after construction is completed, we need to obtain a completion and acceptance certificate from the relevant local authority before we are able to deliver our properties to the customers, and thus with these measures we are able to maintain the quality of our project developments even if we shift the construction services provided by Shanghai Ditong to other independent construction contractors.

RELATIONSHIP WITH THE CONTROLLING SHAREHOLDERS

Independent access to customers

We conduct our own sales and marketing with our own independent sales team or through independent third party agents. The Group has a large and diversified base of customers that are unrelated to the Controlling Shareholders and/or their associates.

Independence of management

The daily operation of our Group is carried out by an independent experienced management team. Save for the Founder, who is a director of Best Era, there is no overlapping of directorships and senior management between our Group and our Controlling Shareholders. In particular, there is no management overlap between the Group and Shanghai Ditong.

Independent access to sources of supplies

Although for each of the three years ended 31 December 2008 and the four months ended 30 April 2009, Shanghai Ditong is the largest supplier of our Group accounting for 51.4%, 54.4%, 42.9% and 41.1% of the Group’s total purchase amount from direct suppliers, construction and installation services and other indirect costs, in the opinion of the Directors, there are other willing general construction contractors readily available in the market that can be engaged to provide us with construction services of comparable standard. We have been seeking to diversify our service providers by engaging other independent construction companies for our new development projects. Going forward, for each of the three years ending 31 December 2011, our Group will monitor the annual construction fees payable to Shanghai Ditong will not exceed 40%, 30% and 20%, respectively, of the estimated total amounts payable for the anticipated project developments of our Group.

Founder’s Interest outside the Group

Apart from his controlling interests in our Group, at present, the Founder holds interests in companies which are principally engaged in the shipbuilding business in the PRC. None of his interests in these companies compete, directly or indirectly, with our business.

Competing Interests

As of the Latest Practicable Date, apart from his indirect shareholding interests in our Group, none of the Founder and his associates, was engaged or otherwise be interested in any business which is in direct or indirect competition, or which may potentially compete, with the business of our Group. Our Controlling Shareholders have entered into a deed of non-compete undertaking in favour of our Group. For details, please refer to the paragraph headed “Deed of Non-Compete Undertaking”.

Our Group is principally engaged in the development and sale of high quality residential and commercial properties in the PRC whereas the principal business of Shanghai Ditong is the provision of construction services. Although Shanghai Ditong’s articles of association permit Shanghai Ditong to engage in property development, Shanghai Ditong has confirmed that it does not engage in property

RELATIONSHIP WITH THE CONTROLLING SHAREHOLDERS

development business. Further, Shanghai Ditong has undertaken to us that, among others, as long as it remains a connected person of our Company, it shall not and shall procure that its subsidiaries shall not directly or indirectly engage in any business that competes with the Group’s business.

Deed of Non-Compete Undertaking

In order to protect our Group’s interests and our current business activities, our Controlling Shareholders, the Founder and Best Era (collectively, the “**Covenantors**”), have entered into a deed of non-compete undertaking dated 9 September 2009 (“**Deed of Non-compete Undertaking**”) in favour of our Company (for our Company and as trustee for each of our subsidiaries from time to time), pursuant to which each Covenantor has undertaken and covenanted with our Company that, among others, for so long as each Covenantor and/or their respective associates (as defined in Rule 1.01 of the Listing Rules) directly or indirectly hold, whether individually or taken together, 30% or more of the issued share in our Company, each Covenantor shall not and shall procure their respective associates not to directly or indirectly engage or otherwise be interested in the business of the development, sales, leasing and investment of properties in the PRC (other than through our Group) and business which is the same or similar to that carried on by our Group from time to time. The foregoing does not apply to ownership of shares in any company whose shares are listed on the Stock Exchange or on any other stock exchange and which competes with our Group provided that such shares do not exceed 5% of such listed company’s issued share capital and provided further that at no time shall the Founder and/or his associates participate in the management of such company.

In order to promote good corporate governance practices and to improve transparency, the Deed of Non-compete Undertaking includes, among others, the following provisions:

- (i) the independent non-executive Directors will review, at least on an annual basis, the compliance with the Deed of Non-compete Undertaking by the Covenantors; and
- (ii) each of the Covenantors has undertaken to us that it/he will provide all information necessary for the annual review by the independent non-executive Directors for the enforcement of the Deed of Non-compete Undertaking.

On the basis of the matters described in this section, we believe that our Group is capable of carrying on its business independently of our Controlling Shareholders and their respective associates.

DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

DIRECTORS

Executive Directors

Mr. Zhang Zhi Rong (張志榕), aged 40, is the Chairman of the Board and an executive Director of our Company, our Founder and Controlling Shareholder of our Group. Mr. Zhang is also a director of Shanghai Chuangmeng. He is primarily responsible for the formulation of our Group’s overall strategies. Mr. Zhang has more than 13 years of experience in corporate management and real estate development and investment. Prior to his involvement in real estate development and investment, Mr. Zhang was engaged in the business of construction materials trading and construction sub-contracting in the early 1990s. In 1994, as the real estate industry in the PRC began to develop, Mr. Zhang entered the property development industry with his first residential property development project, Sunshine Greenland in Shanghai, which commenced development in January 1996. He received a master’s degree in business administration from Asia Macau International Open University in 2002.

Mr. Ding Xiang Yang (丁向陽), aged 42, is the Vice Chairman of the Board and an executive Director of our Company. He is also a director of a number of our Company’s subsidiaries, including Shanghai Xintai, Shanghai Anshun, Tianjin Yangguang Xindi, Tianjian Hongyun and Suzhou Hongsheng. With more than seven years of experience in corporate and strategic management of real estate enterprises in the PRC, Mr. Ding is primarily responsible for our Company’s overall strategic planning and development. He joined our Group on 18 March 2001 and played an integral role in formulating our development strategies, operational management and supervising the construction of our projects. Prior to joining our Group, Mr. Ding worked for more than 10 years at the enterprise management department of China Eastern Airlines Corp. Ltd. (中國東方航空股份有限公司), a company listed on the Stock Exchange. Mr. Ding is currently a member of the Chinese People’s Political Consultative Conference for Fengxian District, Shanghai. Mr. Ding obtained a bachelor’s degree in law from Fudan University in July 1989, and a master’s degree in law from Fudan University in July 2002. Mr. Ding is the brother-in-law of the Founder.

Mr. Cheng Li Xiong (程立雄), aged 40, is the Chief Executive Officer and an executive Director of our Company. Mr. Cheng is also a director of our subsidiaries, Shanghai Shengtong and Zhuo Yi Nantong. He is in charge of the overall business operations and management of our Company. Mr. Cheng joined our Group on 1 September 2001 as the general manager of our Company’s subsidiary, Shanghai Haosen. Between July 1992 and September 2001, Mr. Cheng worked for Shanghai Property and Land Resources Bureau (上海市房屋土地資源管理局). He has more than 15 years of experience in the planning, development, construction and management of land and property. He is also a qualified property valuer in the PRC. He graduated with a bachelor’s degree from Shanghai International Studies University in July 1992.

Mr. Xia Jing Hua (夏景華), aged 37, is an executive Director and a vice president of our Company, responsible for developing the financial strategies and the overall financial and asset management of our Group. Currently, Mr. Xia is a director of our subsidiary, Fuda Nantong. He joined our Group on 2 May 1999 and had been the manager of the auditing department and supervisor of the finance and treasury department of our Company. Between 1994 and 1999, Mr. Xia worked in the loans department of the Zhoushan City branch of Bank of China (中國銀行舟山分行), a company listed on the Stock Exchange and the Shanghai Stock Exchange. Mr. Xia has more than nine years of experience

DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

in financial management in the property industry. He received a bachelor’s degree in economics from the Zhejiang University of Finance and Economics and a master’s degree in public economics and investment from the Shanghai University of Finance & Economics in July 1994 and September 2002 respectively.

Mr. Liu Ning (劉寧), aged 44, is an executive Director and a vice president of our Company and the head of operations for the Shanghai region, responsible for the operational management and project development of our Company’s property projects in the Shanghai region. Mr. Liu is a director of Shanghai Xintai and the general manager of Shanghai Yijing, both of which are our subsidiaries. Prior to joining our Group as the chairman of Shanghai Xintai on 5 June 2005, Mr. Liu worked as the executive vice president of Shanghai Jinjiang Realty Co., Ltd., a wholly-owned subsidiary of Shanghai Jin Jiang International Hotels (Group) Company Limited, a company listed on the Stock Exchange with extensive hotel operations in the PRC, from June 2003 to April 2005. Mr. Liu worked for three years at Shanghai (New Asia) Group Co., Ltd. (上海新亞(集團)股份有限公司), a company listed on the Shanghai Stock Exchange, and was its general manager from June 2000 to June 2003. Mr. Liu is a senior economist and an experienced manager of hotel operations, with more than seven years of experience in the hotel and property industry. He is currently the vice president of the Shanghai Young Entrepreneur Association. He graduated with a bachelor’s degree in bridge construction from Tongji University in July 1986.

Mr. Li Xiao Bin (李曉斌), aged 45, is an executive Director, a vice president of our Company and the head of operations for the northeast China region, responsible for the operational management and project development of our Company’s property projects in the northeast China region. Mr. Li is also a director and general manager of our subsidiary, Liaoning Yangguang Xindi. Since June 2005, Mr. Li has been a director and general manager of Liaoning Yangguang Xindi. Prior to joining our Group, Mr. Li worked for 16 years at the China Timber General Co. (中國木材總公司), a state-owned enterprise, and was its general manager prior to his departure from the company in January 2001. Mr. Li joined our Group on 17 May 2001. He has more than six years of experience in property management and development. He graduated with a master’s degree in business administration from Peking University in July 2006.

Mr. Yan Zhi Rong (嚴志榮), aged 48, is an executive Director of our Company and head of project budgeting. Mr. Yan is also a director of a number of our subsidiaries, namely Shanghai Yijing, Shanghai Xintai, Wuxi Wangjiarui, Liaoning Yangguang Xindi, Tianjin Yangguang Xindi, Harbin Yangguang, Shanghai Qiwei and Tianjin Tianxingjian. With more than 10 years of experience in managing the construction and budgets of property projects, Mr. Yan is primarily responsible for supervision of the development and construction of projects, and management of project budgets of our Company. Mr. Yan joined our Group on 8 December 1996 as the manager of our project budgeting department. Prior to joining our Group, Mr. Yan served as the deputy general manager of the property development subsidiary company of Shanghai Materials Bureau (上海市物資局) from 1989 to 1996. Mr. Yan received a graduate diploma in Industrial and Civil Architecture from the Suzhou Industrial College in 1981 and is a qualified engineer in the PRC.

DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

Independent non-executive Directors

Mr. Yim Ping Kuen (嚴炳權), aged 47, is an independent non-executive Director of our Company. Mr. Yim is currently a partner of Lau, Yim, Chiu and Co., a public accounting firm in Hong Kong. Mr. Yim has been a financial controller, company secretary and chief financial officer for various international companies in different industries, including listed companies in Hong Kong and Singapore. He has more than 21 years of experience in accounting and setting up financial operations for companies in Asia. Mr. Yim joined our Group on 17 June 2008, resigned on 16 March 2009 and rejoined our Group on 9 September 2009. Mr. Yim graduated from the University of Hong Kong with a bachelor’s degree in social sciences in 1986 and also holds a master’s degree in corporate finance from the Hong Kong Polytechnic University. He is a fellow member of the Association of Chartered Certified Accountants and a practising member of the Hong Kong Institute of Certified Public Accountants.

Mr. Liu Shun Fai (廖舜輝), aged 38, is an independent non-executive Director of our Company. Mr. Liu is currently the chief financial officer of AMVIG Holdings Limited (澳科控股有限公司), a company listed on the Stock Exchange. He has been the financial controller and qualified accountant of two listed companies in Hong Kong for eight years. From 2003 to 2007, he served as the accounting controller and assistant company secretary of Hopson Development Holdings Limited (合生創展集團有限公司) (“Hopson Development”), a property development company listed on the Stock Exchange engaged in the development of large-scale residential property projects in various cities in the PRC and he was in charge of accounting and financial reporting of Hopson Development. Mr. Liu was responsible for monitoring the corporate governance measures and continuing connected transactions of Hopson Development, including reviewing the terms of the tender documents and construction contracts entered into between Hopson Development and its connected person(s) for the purpose of assisting its independent non-executive directors and independent financial adviser in opining on the fairness and reasonableness of the continuing connected transactions. Mr. Liu had also worked for a major accounting firm for seven years from 1992 to 1999, during which he gained extensive experience in the auditing of real estate enterprises. Mr. Liu has more than 15 years of experience in auditing and accounting. He joined our Group on 17 June 2008, resigned on 16 March 2009 and rejoined our Group on 9 September 2009. He obtained a bachelor’s degree and master’s degree in business administration from the Chinese University of Hong Kong in 1992 and 1999, respectively, and is an associate member of the Hong Kong Institute of Certified Public Accountants.

Mr. Wo Rui Fang (沃瑞芳), aged 69, is an independent non-executive Director of our Company. From 1965 to 1993, Mr. Wo worked at the Design Management Bureau of the PRC (now under the Ministry of Housing and Urban-Rural Construction of the PRC), and was head of its information technology division from 1988 to 1993, responsible for the development of new construction design technology and standards. From 1993 to 1997, Mr. Wo served as the vice mayor of Nantong City, Jiangsu Province, PRC and was in charge of the administration of the overall city planning and railway construction. Mr. Wo then re-joined the Design Management Bureau as a senior engineer in 1997. From 1998 to 2001, he was the deputy chairman of the Practice Qualification Management Center of the Ministry of Construction. Mr. Wo has accumulated 30 years of experience in supervising the design and construction of various government property development projects and assessing the design techniques and standards of commercial and residential property development in the PRC. Mr. Wo

DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

retired from public service in 2001. He joined our Group on 17 June 2008, resigned on 16 March 2009 and rejoined our Group on 9 September 2009. He graduated from Jilin University with a bachelor’s degree in construction in 1964.

Mr. Han Ping (韓平), aged 41, is an independent non-executive Director of our Company. From September 1990 to October 1996, Mr. Han worked for the Jiangsu Province Supply and Marketing Co-operative (江蘇省供銷合作社) and was responsible for the management of its construction and capital investment. In November 1996, Mr. Han became the chief economist of Jiangsu Huaxia Construction Project Management Co., Ltd. (江蘇省華廈工程項目管理有限公司), a company engaged in the provision of construction supervision, project management and construction costs auditing services to property developers and government entities. Since June 2001, Mr. Han has served as the deputy general manager of Jiangsu Huaxia Construction Project Management Co., Ltd. He had been a project manager and auditor of engineering costs for a large number of project developments involving the construction of various kinds of properties, such as hotels, villas and other residential properties, government buildings, logistic centres and warehouses. In 2002, Mr. Han was selected as an industry expert for the assessment of tenders for property construction and urban infrastructure projects by the Office of the Tendering and Bidding of Construction Projects of Jiangsu Province (江蘇省建設工程招標投標辦公室). Over a period of six years, Mr. Han had participated in the assessment of tenders for over 20 construction projects in Jiangsu Province and Beijing. Mr. Han has accumulated more than 18 years of experience in the management and supervision of property construction projects in the PRC. Mr. Han joined our Group on 17 June 2008, resigned on 16 March 2009 and rejoined our Group on 9 September 2009. He graduated with a bachelor’s degree in construction engineering and economic management from the Southeast University in 1990. He obtained a master’s degree in construction and civil engineering from the Southeast University in 2005. Mr. Han is currently a member of the Hong Kong Institute of Surveyors and is a registered cost engineer, registered supervisory engineer and registered construction professional in the PRC. He holds a Level C certification from the International Project Managers Association (IPMA) and is a certified project management professional.

SENIOR MANAGEMENT

Ms. Fang Zhi Rong (方志榮), aged 41, is the head of the human resources department of the Group, responsible for formulating and implementing the Group’s talent management strategies and policies on salary and welfare benefits of employees, as well as organising the management structure and managing the employees’ training and assessment programmes of the Group. Prior to joining the Group in March 2002 as the manager of the information department of the Group, Ms. Fang worked for the Shanghai City Water Discharge Co., Ltd. (上海市城市排水有限公司) for more than 12 years. Ms. Fang graduated from the Shanghai University of Finance and Economics with a diploma in statistics in Shanghai University of Finance & Economics.

Mr. Xu Quan (徐彙), aged 41, is a vice president and head of the investment department of our Group. Mr. Xu is responsible for our Group’s business development and project investment. He has been a director of Shanghai Xintai since June 2005. Currently, he is also a director of a number of our subsidiaries, namely Shanghai Xintai, Tianjin Yangguang Xindi, the executive director and general manager of Yonghe Nantong and the general manager of Tianjin Tianxingjian. Mr. Xu worked as the head of the property development department of Hanchang Property (Shanghai) Co., Ltd.

DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

(漢昌物業(上海)有限公司), a foreign invested enterprise, from December 1995 to June 2000. Mr. Xu joined our Group in August 2000 and has more than 10 years of experience in property development and sales in the PRC. He obtained a graduate diploma from East China Normal University in July 1994.

Ms. Liu Yan Xia (劉豔霞), aged 47, is the head of operations for the north China region, responsible for the operational management and project development of our Company’s property projects in the north China region. Ms. Liu joined our Group in June 2002 and she is currently the executive director of Beijing Yangguang Xindi and Beijing Hetian Hexin, which are our subsidiary companies. She had also previously worked for Oriental Logistics Holdings Limited (東方物產集團) from 1992 to 2002. She graduated with a bachelor’s degree in economics from the Xian Jiaotong University in 1985 and a master’s degree in business administration from the Renmin University in November 2002.

Mr. Fang Shi Min (方世敏), aged 70, is the chief engineer of our Group. Mr. Fang is primarily responsible for overseeing the planning, construction, quality control and site supervision of our Group’s property development projects. Prior to joining our Group in August 1997, Mr. Fang worked for 30 years at the Shanghai Institute of Architectural Design & Research (上海建築設計研究院). From July 1993 to July 1996, Mr. Fang worked as chief engineer for the Hainan Zhujiang Industrial Shanghai Real Estate Co., Ltd. (海南珠江實業上海房地產公司), responsible for the architectural design and supervision of construction of property development projects. In July 1996, he worked as vice general manager and the chief engineer for Shanghai Anfu Property Co., Ltd (上海安福置業有限公司). Mr. Fang has more than 40 years of experience in the construction industry. He graduated with a bachelor’s degree in industrial and civil architecture from Tongji University in July 1962.

Mr. Li Jian Zhong (李建中), aged 52, is the head of operations for the east China region (excluding Shanghai), responsible for the operational management and project development of our Company’s property projects in the east China region (excluding Shanghai). Mr. Li is currently the general manager of Wuxi Wangjiarui, Nantong Zhuowei and Nantong Rongsheng and the executive director of Nantong Zhuowei and Nantong Rongsheng, our subsidiaries. Prior to joining our Group in January 2001, Mr. Li worked for the Minhang People’s Government (閩行區人民政府), a district level government of Shanghai, from April 1996 to December 2000. Mr. Li has more than seven years of experience in real estate investment and project management. He graduated with a bachelor’s degree in management engineering from the East China University of Science and Technology in July 1985. In July 2001, Mr. Li completed a postgraduate course in economics management at the research institute of the Shanghai Academy of Social Sciences.

Mr. Ching Yu Lung (程如龍), aged 39, is our chief financial officer, company secretary and qualified accountant. Mr. Ching is responsible for our overall financial management and corporate finance. Mr. Ching is also an independent non-executive director of Ngai Hing Hong Company Limited (毅興行有限公司), a company listed on the Stock Exchange. Prior to joining our Group in February 2008, Mr. Ching had been the vice president of finance for Hong Kong and China Gas Investment Limited, a subsidiary of the Hong Kong and China Gas Company Limited (香港中華煤氣有限公司), a company listed on the Stock Exchange. Mr. Ching had also been the chief financial officer of a reputable real estate company and the executive director and finance director of

DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

Ngai Hing Hong Company Limited (毅興行有限公司), a company listed on the Stock Exchange. He has more than 15 years of experience in auditing, finance and accounting. He obtained a bachelor of business administration degree from the Chinese University of Hong Kong and an executive master of business administration degree from the Tsinghua University in 1992 and 2006 respectively. Mr Ching is a fellow member of Hong Kong Institute of Certified Public Accountants and Association of Chartered Certified Accountants, and a member of American Institute of Certified Public Accountants.

COMPANY SECRETARY

Mr. Ching Yu Lung (程如龍), aged 39, is our chief financial officer, company secretary and qualified accountant. For details regarding Mr. Ching’s experience, please refer to the paragraph headed “Senior Management” above.

Directors’ Remuneration

We reimburse our Directors for expenses which are necessarily and reasonably incurred for providing services to us or executing their functions in relation to our operations. The executive Directors are also our employees and receive, in their capacity as our employees, compensation in the form of salaries and other allowances and benefits in kind.

For each of the three financial years ended 31 December 2008 and the first four months ended 30 April 2009, the aggregate amount of salaries and other allowances and benefits in kind paid by us to our Directors was RMB2,901,000, RMB3,493,000, RMB3,848,000 and RMB1,288,000, respectively.

Under the arrangements currently in force, we estimate the aggregate remuneration, excluding discretionary bonuses, payable to our Directors for the financial year ending 31 December 2009 to be approximately RMB9,016,000.

AUDIT COMMITTEE

Our Company established an audit committee on 9 September 2009 with written terms of reference in compliance with the Code of Corporate Governance Practices as set out in appendix 14 to the Listing Rules. The primary duties of the audit committee are to review and supervise the financial reporting process and internal control system of our Group.

The audit committee has three members who are the independent non-executive Directors. Mr. Yim Ping Kuen has been appointed as the chairman of the audit committee.

DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

REMUNERATION COMMITTEE

Our Company established a remuneration committee on 9 September 2009 with the primary duties of establishing and reviewing the policy and structure of the remuneration for the Directors and senior management.

The remuneration committee has three members, namely Mr. Zhang Zhi Rong, Mr. Liu Shun Fai and Mr. Wo Rui Fang. Mr. Zhang Zhi Rong has been appointed as the chairman of the remuneration committee.

EMPLOYEES

As of 31 July 2009, we had 740 full-time employees. Breakdowns of employees by function as of the same date were as follows:

Division	Number of Employees
Management	54
Administration	99
Project construction and engineering	147
Sales and marketing	185
Finance	111
Auditing and planning	9
Human resources	26
Pre-construction development.....	17
Legal and compliance	33
Project design, research and development	51
Others	8
Total	<u>740</u>

Our Group’s Relationship with its Employees

Our Group has not experienced any significant problems with its employees or disruption to its operations due to labour disputes nor has it experienced any difficulty with the recruitment and retention of experienced staff. The Directors believe that our Group maintains a good working relationship with its employees.

SHARE CAPITAL

The authorised and issued share capital of our Company is as follows:

Number of Shares comprised in the authorised share capital as at the date of this document:	Authorised share capital
	(HK\$)
<u>38,000,000,000</u> Shares	<u>380,000,000</u>

SUBSTANTIAL SHAREHOLDERS

SUBSTANTIAL SHAREHOLDERS

So far as the Directors are aware, the following persons will have beneficial interests or short positions in any Shares or underlying Shares of our Company which would fall to be disclosed to our Company under the provisions of Division 2 and 3 of Part XV of the SFO, or who are directly and/or indirectly interested in 10% or more of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of our Company and are therefore regarded as substantial shareholders of our Company under the Listing Rules:

Shareholder	Number of Shares directly or indirectly to be held	Approximate percentage of shareholding in our Company		
		Direct interest	Indirect interest	Aggregate direct and indirect interest
		(%)	(%)	(%)
Mr. Zhang Zhi Rong (<i>Note 2</i>)	[●]	—	[●]	[●]
Best Era International Limited	[●]	[●]	—	[●]

Save as disclosed herein, the Directors are not aware of any person (who is not a Director) who will be directly or indirectly interested in 10% or more of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of our Company. The Directors are not aware of any arrangement which may at a subsequent date result in a change of control of our Company.

FINANCIAL INFORMATION

The following discussion should be read in conjunction with our audited consolidated financial information together with the accompanying notes, as set forth in the Accountant’s Report in Appendix I to this document. Our financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”).

The following discussion and analysis contains certain forward-looking statements that reflect our current views with respect to future events and financial performance. These statements are based on our assumptions and analysis in light of our experience and perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate under the circumstances. However, whether actual outcome and developments will meet our expectations and predictions depends on a number of risks and uncertainties. Factors that could cause or contribute to such differences include those discussed in the section headed “Risk Factors” in this document.

OVERVIEW

We are one of the leading property developers focused on the development and sale of high quality properties in key economic cities in the PRC. Our land bank is highly diversified and is located in prime locations in such key economic cities. It comprised, as at 31 July 2009, a total planned GFA of 13,598,083 sq.m. (of which, 6,051,874 sq.m. was GFA for which we have signed master agreements with the relevant local governments but had not as at the Latest Practicable Date obtained the land use right certificates). Of our land bank, approximately 20.2% of our total GFA was located in Shanghai and 18.1% was located in Tianjin and Beijing as at 31 July 2009.

Since we commenced our business in 1996, we have been dedicated to developing our property business in key economic cities in China and, in particular, in Shanghai, in which we believe has the highest level of demand from international and domestic purchasers of any property market in China. Over the past 13 years in Shanghai, we have developed various projects and sold and delivered more than 2.0 million sq.m. of GFA, and successfully establishing ourselves as one of the leading players in this economic and financial capital of China in terms of total completed GFA. As at 31 July 2009, we had developed or were developing projects in nine cities across the PRC, comprising three municipalities (Shanghai, Tianjing, Beijing), three provincial capitals (Hefei, Shenyang, Harbin) and three key economic centres (Wuxi, Suzhou, Nantong) in the Yangtze River Delta. For the three financial years ended 31 December 2006, 2007 and 2008, our total revenue was RMB1,718.1 million, RMB1,791.9 million and RMB3,949.0 million, respectively. Our total revenue for the four months ended 30 April 2009 was RMB934.0 million, representing a decrease of 4.3% from RMB975.8 million for the four months ended 30 April 2008. For the three financial years ended 31 December 2006, 2007 and 2008, profits attributable to equity owners of our Group were RMB259.2 million, RMB108.1 million and RMB1,255.0 million, respectively. Profit attributable to equity owners of our Group for the four months ended 30 April 2009 was RMB773.5 million, representing an increase of 342.7% from RMB174.7 million for the four months ended 30 April 2008.

During the Track Record Period, substantially all of our revenue was generated from sales of residential properties that we developed.

Leveraging on our success in Shanghai, Tianjin and Beijing, we have expanded, and intend to continue to actively and strategically expand, our property development business in other high growth

FINANCIAL INFORMATION

cities within China. We typically target the upper segment of the market, selling our premium residential properties, while seeking to retain long-term ownership of certain commercial properties in order to benefit from potential capital appreciation as well as to diversify our future income stream.

We have financed our projects primarily through proceeds from our Shareholders' contributions, bank borrowings, pre-sale proceeds of properties, Financing and the Shanghai Bay Arrangements. We typically follow a financing model under which our start-up cost is mainly financed by bank and other borrowings as well as Shareholders' contributions. This financing model supports our projects until the pre-sales stage, when we are able to repay our borrowings with pre-sale proceeds. The following points summarise our main sources of funds for our projects.

- **Shareholders' contributions.** We have relied to a certain extent on capital contributions from our Shareholders in exchange for equity interests to finance our projects. PRC property developers were required to make a capital contribution of not less than 35% of the total investment of a project when they applied for project-specific loans. On 27 May 2009, such contribution percentage requirement was reduced to 20% for ordinary commodity housing projects and affordable housing projects and 30% for all other property development projects.
- **Bank borrowings.** As at 30 April 2009, we had total secured bank borrowings of RMB1,871.8 million. We usually obtain project-specific bank borrowings that are secured by our properties under development and our land use rights, and usually repay the borrowings using a portion of our pre-sale proceeds of the specific property.
- **Pre-sale proceeds of properties:** Pre-sale proceeds are proceeds we receive when we enter into contracts to sell properties prior to their completion. Under PRC law, the following conditions must be fulfilled before the pre-sale of a particular property can commence: (i) the land premium must be paid in full and the land use rights certificate must have been obtained; (ii) the construction works planning permit and the work commencement permit must have been obtained; (iii) the funds contributed to the development of the project must amount to at least 25% of the total amount to be invested in the project and the project progress and the date of completion of the project for use must have been ascertained; and (iv) the pre-sale permit must have been obtained. Upon obtaining a pre-sale permit from the relevant government authorities, we generally enter into pre-sale contracts with our customers. We typically receive an initial payment of at least 20%-30% of the unit purchase price at the execution of the pre-sale contract and the balance typically within 30 days of the execution of the pre-sale contract, by which time the customer is required to have obtained a bank mortgage.
- **Financing:** In November and December 2007, we issued the Original Notes to the Original Investors in a total aggregate principal amount of approximately RMB 3,717.4 million and received US\$495.7 million in proceeds therefrom. In connection with the subscription of the Original Notes, the Original Investors and their affiliates also received from one of our Controlling Shareholders a total of 700,000 Shares for no additional monetary consideration. As at 30 April 2009, we had used approximately US\$464.2 million of the net proceeds from the issuance of the Notes to inject capital into the wholly foreign-owned

FINANCIAL INFORMATION

enterprises owned by our HK Subsidiaries, regional companies and project companies in order to expand our land bank. The balance of the proceeds has been deposited into our account maintained in Hong Kong for future land bank acquisitions. On 9 July 2009, the Investors and the Company signed a legally binding term sheet setting out the principal terms and conditions of the restructuring of the Original Notes. In July and August 2009, the Investors and the Company concluded all the terms and conditions of the restructuring of the Original Notes and executed the Note Restructuring Documents. For further details please refer to the section headed “History, Reorganisation and Group Structure — Financing — Restructuring of Original Notes”. We have incurred a significant amount of interest expense in relation to the Financing. Substantially all of the interest expense has been capitalised as properties under development rather than being expensed in our income statement at the time it was incurred. In future periods, such capitalised interest expense will be expensed in our consolidated income statement as a portion of cost of sales upon the sales of such properties. As a result, such capitalised interest expenses will adversely affect our Group’s gross profit margin upon the sales of properties in 2009 and future periods.

- **Transfer of Blocks Nos. 2, 8, 9 and 10 of Shanghai Bay and Related Arrangements:** In August 2009, pursuant to the Shanghai Bay Arrangements, we transferred our legal ownership interests in Blocks Nos. 2 and 8 of Shanghai Bay, with a total GFA of 56,305 sq. m., to Shanghai Industrial Group. In return, we received a payment of approximately US\$190.2 million (equivalent to RMB1.3 billion) which we used to partially redeem the Original Notes. We expect to receive a second payment in an amount equal to the US\$ equivalent of RMB0.7 billion when we transfer our legal interests in additional Blocks Nos. 9 and 10 of Shanghai Bay with a total GFA of 51,171 sq. m. to Shanghai Industrial Group. We intend to use approximately US\$28 million of such funds to repay the amount outstanding under the bridge loan, the details of which are set out in “Financial Information — Indebtedness and Contingent Liabilities — Bridge Loan”. We expect to deposit the balance of approximately US\$74 million into an account of Bright New that has been pledged as collateral for the Financing and may only be used for operating expenses and permitted uses until such financing is repaid.

Under the Shanghai Bay Arrangements, we have the right and obligation to reacquire the Projects and Shanghai Industrial Group has the right and obligation to resell such Projects to us on 1 December 2011. Assuming we have transferred Blocks Nos. 9 and 10, the consideration for the reacquisition of all of the transferred blocks of the Projects is expected to be RMB2 billion. If the transfer of Blocks Nos. 9 and 10 does not take place, the consideration for the reacquisition of Blocks Nos. 2 and 8 is expected to be RMB1.3 billion. As part of such arrangements, we have also agreed to ensure that Shanghai Industrial Group receives a “shareholder return” (net of tax) for each of the three years ending 31 December 2011, equal to 18% per annum of the consideration paid by Shanghai Industrial Group. The commercial intention for entering into the Shanghai Bay Arrangements was to enable us to obtain financing from, and grant collateral for such financing to, Shanghai Industrial Group in order to refinance a portion of the Financing as a part of the note restructuring. See “Business — Shanghai Bay Financing Arrangements with the Shanghai Industrial Group”.

FINANCIAL INFORMATION

Going forward, we expect to fund our projects by using a combination of sources, including internally generated cash flow, bank loans, and other funds raised from the capital markets from time to time. In particular, as at 30 April 2009, the total contracted capital commitment of our projects amounted to RMB7,440 million. For details of the capital commitment we have made relating to our projects as of 30 April 2009, please refer to Note 32 of Appendix I - Accountant’s Report to this document. Based on the best estimate by our Directors as at the Latest Practicable Date, approximately RMB7,440 million is expected to be invested within five years. Notwithstanding the above and our Directors’ estimate, our access to funds may be affected by various factors, including the factors discussed under the section headed “Risk Factors” in this document and “— Factors Affecting Our Results of Operations” in this section.

BASIS OF PRESENTATION

We are a holding company incorporated in the Cayman Islands. We generate our revenue from the businesses conducted by our subsidiaries located in the PRC. During the Track Record Period, all our revenue was related to property development and sales in the PRC.

Our Group undertook the Reorganisation. Prior to the Reorganisation, our Founder was the sole ultimate shareholder of our Company and of Bright New, which was the holding company of the subsidiaries of our Group. Upon completion of the Reorganisation on 17 September 2007, we acquired the entire shareholding interest in Bright New from our Founder. As a result of the Reorganisation, we became the holding company of our Group.

The consolidated balance sheets, consolidated income statements, consolidated statements of cash flows and consolidated statements of changes in equity of our Group for the Track Record Period include the financial information of the companies comprising our Group as a result of the Reorganisation as if the current group structure had been in existence throughout the Track Record Period, except that the financial information of those companies newly incorporated/established during the Track Record Period and of those companies newly acquired from third parties accounted for using the purchase method of accounting are included in the consolidated financial information of our Group since their respective dates of incorporation/establishment and acquisition. Please refer to Note 2 of Section II of the Accountant’s Report in Appendix I to this document for further description of the basis on which we have prepared our financial information.

Our consolidated financial information as of and for each of the three years ended 31 December 2006, 2007 and 2008 and the four months ended 30 April 2009 were audited by PricewaterhouseCoopers, Certified Public Accountants, Hong Kong. We have prepared our consolidated financial information in accordance with HKFRS, which may differ in material aspects from generally accepted accounting principles in other jurisdictions, such as U.S. GAAP. The consolidated financial information as of and for the four months ended 30 April 2008 has been derived from the unaudited consolidated financial information. We have prepared the unaudited consolidated financial information on the same basis as the audited consolidated financial information.

FINANCIAL INFORMATION

RECENT DEVELOPMENTS

In March 2009, Nantong Zhuowei acquired 100% of the equity interest in Shanghai Mingbao, which primarily provides fitting and decoration services, from independent individuals, for a total cash consideration of RMB2.5 million. Shanghai Mingbao was incorporated in the PRC on 17 January 2004 and had a registered capital of RMB6 million. We subsequently increased the registered capital of Shanghai Mingbao to RMB100 million in June 2009. The acquisition of Shanghai Mingbao does not have a material impact on the financial performance and position of our Group. For further information of the business of Shanghai Mingbao, please refer to the section headed “Business — Other Business”.

On 31 July 2009, a Deed of Amendment was executed amending and restructuring the Original Notes issued in the Financing and the following actions were taken on 17 August 2009 pursuant to such Deed of Amendment:

- (i) the denomination of the Original Notes was changed from RMB to US\$;
- (ii) we paid interest that was due and outstanding on the Original Notes (as converted into US\$) in cash in the aggregate amount of approximately US\$27.2 million (payment was made on 10 August 2009);
- (iii) we redeemed an aggregate principal amount of US\$192.8 million of the Original Notes (as converted into US\$); and
- (iv) the remaining US\$490 million of the Original Notes were replaced by the following two tranches of notes:
 - (a) US\$325 million of Promissory Notes with a tenor of 18 months and a final maturity date of 31 December 2010; and
 - (b) US\$165 million of Convertible Notes with a tenor of two years and a final maturity date of 30 June 2011.

In addition, the Founder agreed to cause Best Era to transfer to the Investors for no additional consideration Shares in an amount equal to 0.5% of the total Shares outstanding.

See “History, Reorganisation and Group Structure — Financing — Restructuring of Original Notes” for further details including further details of the terms of the Promissory Note and Convertible Notes.

FINANCIAL INFORMATION

On 17 August 2009, we obtained a bridge loan of US\$28 million from Yes Plus Limited, an independent third party, to fund a portion of the partial redemption of the Original Notes. The loan bears interest of 10% per annum and is guaranteed by the Founder. According to the loan agreement, we will repay the bridge loan on the earlier of (a) the date on which we receive the US\$ equivalent of RMB0.7 billion for our transfer of Blocks Nos. 9 and 10 of Shanghai Bay to the Shanghai Industrial Group pursuant to the Shanghai Bay Arrangements and (b) the date of redemption or repayment of the Notes.

In August 2009, pursuant to the Shanghai Bay Arrangements, we transferred our legal ownership interests in Blocks No. 2 and 8 of Shanghai Bay, with a total GFA of 56,305 sq. m., to Shanghai Industrial Group. In return, we received a payment of approximately US\$190.2 million (equivalent to RMB1.3 billion) which we used to partially redeem the Original Notes. We expect to receive a second payment of the US\$ equivalent of RMB0.7 billion from Shanghai Industrial Group upon the transfer of our legal interests in Blocks Nos. 9 and 10 of Shanghai Bay with a total GFA of 51,171 sq. m., which we intend to use to repay the amount outstanding under the bridge loan of US\$28 million, the details of which are set out in “History, Reorganisation and Group Structure — Financing”. The balance of such second payment will be approximately US\$74 million, which is expected to be deposited into an account of Bright New that has been pledged as collateral for the Financing and may only be used for operating expenses and other permitted uses until such financing is repaid. Under the Shanghai Bay Arrangements, we have the right and obligation to reacquire the Projects and Shanghai Industrial Group has the right and obligation to resell such Projects to us on 1 December 2011. Assuming we have transferred Blocks Nos. 9 and 10, the consideration for the reacquisition of all of the transferred blocks of the Projects will be RMB2 billion. If the transfer of Blocks Nos. 9 and 10 does not take place, the consideration for the reacquisition of Block Nos. 2 and 8 will be RMB1.3 billion. As part of such arrangements, we have also agreed to ensure that Shanghai Industrial Group receives a “shareholder return” (net of tax) for each of the three years ending 31 December 2011, which amount shall be calculated based on the actual consideration amount paid by Shanghai Industrial Group and shall represent a total rate of return of 18% per annum. The commercial intention for entering into the Shanghai Bay Arrangements was to enable us to obtain financing from, and grant collateral for such financing to, Shanghai Industrial Group in order to refinance a portion of the Financing as a part of the note restructuring. See “Business — Shanghai Bay Financing Arrangements with the Shanghai Industrial Group”.

In April 2009, we reduced the registered capital of three of our onshore WFOE subsidiaries by approximately US\$255 million in aggregate and, in connection therewith, such onshore subsidiaries are now authorised to pay such amounts (once such funds are generated and available) to their respective parent shareholders, three of our offshore Hong Kong subsidiaries. We may use such funds (once such funds are generated and available) to make periodic interest payments on the Convertible Notes and the Promissory Notes and to pay the remaining principal payments thereon as they come due.

FINANCIAL INFORMATION

On 7 September 2009, the Group entered into a strategic cooperation agreement with China Construction Bank, Shenzhen Branch (“CCB Shenzhen”) pursuant to which CCB Shenzhen tentatively agreed to provide the Group credit facilities of up to RMB6 billion. The amount and terms and conditions of each particular utilization that may be requested by the Group thereunder will still be subject to approval by CCB Shenzhen. CCB Shenzhen has undertaken to offer the Group preferential terms and pricing for these services within the range specified by the relevant regulators. The Group has undertaken not to enter into a strategic cooperation agreement with any other bank for three years and not to obtain credit facilities from other banks unless they are on terms that are comparable with or more favorable than those offered by CCB Shenzhen. Either party may terminate the strategic cooperation agreement on thirty days written notice.

FACTORS AFFECTING OUR RESULTS OF OPERATIONS

Our business, financial condition and results of operations have been, and we expect may continue to be, affected by a number of factors, including:

- **Economic growth, speed of urbanisation and demand for residential and commercial properties in China.** China’s economic growth has been primarily concentrated in China’s urban cities, and economic growth, higher standards of living, population growth and urbanisation are primary drivers of demand for the purchase or rental of residential and commercial properties. As we focus on the development of properties in Shanghai, Tianjin, Beijing and other rapidly growing cities in the PRC, China’s economic growth, population growth and urbanisation are important to our operations. The PRC property industry is dependent on the overall economic growth in the PRC and the resultant demand for residential and commercial properties. Developments in the private sector, urbanisation and the resultant demand for properties in China have in the past resulted in increases in sales of our properties. These factors are expected to continue to have a significant impact on our results of operations;
- **Policies in the PRC that affect the development of the real estate industry.** A number of PRC policies heavily impact the real estate industry, including tax policies (including the government incentive grant policy, the preferential income tax policy and the LAT policy), land grant policies, pre-sale policies, policies on interest rates, the availability of mortgages and loans, and other macro-economic policies designed to control the growth of the PRC property market. On 27 May 2009, the State Council issued a Notice on Adjusting Capital Ratios of Fixed Asset Investment Projects (“國務院關於調整固定資產投資項目資本金比例的通知”) which, among others, lowered the minimum capital ratio for ordinary commodity housing projects and affordable housing projects from 35% to 20%. The minimum capital ratio for all other property development projects has been lowered from 35% to 30%. This policy is expected to enhance property developers’ ability to procure project financing. Property developers are exposed to interest rate risks resulting from fluctuations in interest rates on their debts. The PBOC cut rates five times during the last quarter of 2008, reducing the one-year benchmark lending rate by a total of 189 basis points and the deposit rate by a total of 216 basis points. By the end of 2008, the one-year

FINANCIAL INFORMATION

benchmark lending and deposit rates were 5.31% and 2.25%, respectively. Please see the section headed “Risk Factors — Risk Relating to Our Business — Our business may be adversely affected by future increases in interest rates” of this document;

- **Our ability to identify and acquire suitable land for development.** Our success depends on our ability to secure quality land at prices that can enable us to generate reasonable returns. In recent years, land prices in the PRC have generally shown a steady increase. As the PRC economy continues to grow rapidly and demand for residential and commercial properties remains strong, we expect that competition among developers to acquire land that is suitable for property development will continue to intensify, which may further drive increases in land prices. In addition, the public tender, auction and listing-for-sale practices in respect of the grant of state-owned land use rights have contributed to increased competition for development of land and increased land acquisition costs. On the other hand, the PRC government has introduced macro-economic policies over the past several years at both the central and local levels to further regulate the property market in the PRC, with a view to tightening and controlling the supply of land, in particular, in the prime locations across the PRC. As a result of the above, as well as the price variation due to different locations of the land we acquired throughout the three years ended 31 December 2008, our average land costs per sq.m. as recognised in our cost of sales increased by 54.1% from RMB623 in 2006 to RMB960 in 2007, and by 21.4% from RMB960 in 2007 to RMB1,165 in 2008. Our average land costs per sq.m. were RMB741 for the four months ended 30 April 2009. The increase in average land costs per sq.m. will increase our cost of sales, and consequently will have a negative impact on our gross profit margin. Our gross profit margin is also dependent on other factors, including our recognised average selling price and our construction cost. For a more detailed analysis of our gross profit margin, please see the year to year comparison analysis under the section headed “— Consolidated Results of Operations”;
- **Interim fluctuations in results of operations.** We do not recognise revenue until construction of the relevant property has been completed and when the properties have been delivered to the relevant purchasers, i.e., usually when the occupation permit is received and the collectibility of related receivables is reasonably assured. See the section below headed “ — Critical Accounting Policies — Recognition of revenue from and costs of sale of properties” for further information. Because the timing of delivery of our properties varies according to our construction timetable, our results of operations may vary significantly from period to period depending on the GFA and timing of delivery of the properties we sell. Periods in which we deliver more GFA typically generate a higher level of revenue. Periods in which we pre-sell a large amount of GFA, however, may not generate a correspondingly high level of recognised revenue if the properties pre-sold are not delivered within the same period. The effect on our results of operations of the timing of delivery of projects is accentuated by the fact that during any particular period of time we can only undertake a limited number of projects due to the substantial capital requirements for land acquisitions and construction costs as well as our limited supply of land. Our ability to complete a project in accordance with the delivery schedule (and thus to recognise our revenue) is also dependent on the timetable of the construction phase, which is in turn dependent on various factors such as the availability of construction materials, labour

FINANCIAL INFORMATION

efficiency, weather in different project areas, and the availability of suitable land as well as the timing of acquisition of such land. In addition, variance in our sales schedules also caused our selling and marketing expenses to fluctuate throughout the Track Record Period. Accordingly, our results of operations fluctuate and our interim results may not proportionally reflect our annual results. Furthermore, given our presence and expansion, our business is, and will continue to be, subject to seasonality. Consequently, our revenue and profits recognised may experience significant fluctuations;

- **Access to and cost of financing.** Bank and other borrowings have been, and we expect will continue to be, an important source of funding for our property developments. Our access to capital and cost of financing will be affected by the prevailing interest rates on bank loans, which is linked to the PBOC benchmark lending rates, the restrictions imposed by the PRC Government on bank lending for property development, and the general condition of the domestic and global capital markets. If the global financial crisis persists, we may not be able to obtain or renew financing on favourable terms. Our outstanding bank borrowings amounted to RMB3,841.9 million, RMB2,521.7 million, RMB2,167.1 million and RMB1,871.8 million as of 31 December 2006, 2007, 2008 and 30 April 2009, respectively. The weighted average effective interest rates for our bank borrowings as of 31 December 2006, 2007, 2008 and 30 April 2009 were 7.07%, 8.60%, 6.33% and 6.05%, respectively. Our interest costs relating to our bank borrowings during the Track Record Period amounted to RMB232.4 million, RMB303.4 million, RMB213.5 million and RMB49.9 million for the three years ended 31 December 2006, 2007, 2008 and the four months ended 30 April 2009, respectively. On 2 November 2007, we issued registered promissory notes in the aggregate principal amount of RMB1,498,760,000 and on 17 December 2007, we issued the Notes in the aggregate principal amount of RMB2,218,590,000 to the Investors for an aggregate subscription price of US\$500,000,000. The interest expenses we had incurred with respect to the Notes for the years ended 2007, and 2008 and the four months ended 30 April 2009 were RMB136.0 million, RMB995.7 million and RMB363.1 million, respectively. In addition, any increases in interest rates will affect the costs of mortgage financing to potential purchasers of our properties, which in turn may affect demand for our properties.
- **Effects of substantial capitalised interest on future periods.** Substantially all of the borrowing costs (including interest expense) related to the Financing and the borrowing costs related to the Shanghai Bay Arrangements have been or will be capitalised as a part of the cost of acquiring or constructing the projects to which the proceeds of such financing arrangements were applied. These capitalised borrowing costs will not be recognised in our income statements until construction of such projects is completed and these projects are ready for delivery and are sold. The borrowing costs associated with the Financing and with the Shanghai Bay Arrangement are significantly higher than the borrowing costs associated with our previous bank borrowings, which constituted substantially all of our capitalised borrowings prior to the Financing. As a result, to the extent projects have been funded with proceeds from the Financing or proceeds from the Shanghai Bay Arrangement, such capitalised borrowing costs are expected to be significantly higher than the capitalised

FINANCIAL INFORMATION

borrowing costs we have previously recognised in our income statements which were associated with bank borrowings and may adversely affect our Group’s gross profit margin upon the sales of such projects in 2009 and future periods;

- **The performance of and the terms and conditions of our arrangements with the external contractors, such as designers, constructors, sub-constructors and sales and marketing firms with which we cooperate.** We engage external construction constructors, service providers and suppliers to provide us with construction services, various types of construction materials as well as other services such as design and interior decoration. Our primary general construction contractor throughout the Track Record Period was Shanghai Ditong. While we work closely with Shanghai Ditong and retain overall control over the quality and progress of the construction process, both Shanghai Ditong and other general contractors we choose and hire during the process can introduce a performance risk which can have an impact on the results of our operations. For more details, please refer to the section headed “Risk Factors — Risks Relating to Our Business — We rely on the performance of external contractors and suppliers, including Shanghai Ditong, a connected person, to deliver our projects on time and up to our specified quality standards” in this document;

As Shanghai Ditong is one of our connected persons for the purposes of the Listing Rules, our fees payable to Shanghai Ditong for construction services will be subject to the annual capped amounts as disclosed in this document. Accordingly, we will be required to find and engage the services of other construction companies with which we have not worked before. There can be no assurance that the terms offered to us by such other construction companies will be comparable to those provided to us by Shanghai Ditong. The terms and conditions we can get from such constructors may affect our results of operations. For more details, please refer to the section headed “Risk Factors — Risk Relating to Our Business — We have engaged Shanghai Ditong, a connected person, to provide construction services for substantially all our projects during the Track Record Period and, going forward, our use of Shanghai Ditong will be subject to limitations and we cannot assure you that Shanghai Ditong or other construction companies will perform construction services for us on comparable terms” in this document;

- **Price volatility of construction materials.** Our results of operations are affected by price volatility associated with construction materials such as steel and cement. These costs may be reflected in our construction costs and represent a significant portion of our costs of properties sold. We use Shanghai Ditong as our general contractor and directly use a selected number of other contractors for projects such as landscaping and elevator purchase and installation. Shanghai Ditong then sub-contracts most of the construction work, with respect to which it negotiates fixed prices for the items in the contracts, including costs of construction materials. Shanghai Ditong’s process of sub-contracting is designed to ensure a limited impact on our results of operations from fluctuating prices of construction materials. While prices of construction materials may generally rise over time and/or experience sharp rises or declines, such movements are generally absorbed by the sub-contractors of Shanghai Ditong whose contracts with Shanghai Ditong are generally on

FINANCIAL INFORMATION

a fixed-price basis, and do not allow for adjustment of the contract price in consideration of the fluctuations of raw materials such as cement and steel during the contract term. Nonetheless, we expect the general trend of price fluctuation associated with our construction materials will continue and will have an impact on our results of operations over the long term;

- **Expansion into other cities.** The further expansion of our operations may impose increased demands on our management’s resources and affect our results of operations and financial condition. The PRC real estate industry is highly competitive and localised. Each locality typically has its own local property developers which may have better access to information and knowledge of the market than we have. Our competitors with local property developers may create uncertainties as to the level of profitability which we may expect to achieve in certain markets; and
- **Changes in fair value of investment properties.** Our results of operations have in the past been affected by adjustments in the estimated fair value of our investment properties and may continue to be affected by such adjustments in the future. For the year ended 31 December, 2008 and the four months ended 30 April 2009, we recognised fair value gains on our investment properties in the amounts of RMB846.1 million and RMB735.2 million, respectively, which represented 40.6% and 69.4% of our consolidated profit before income tax in those periods, respectively. In accordance with HKFRS, we are required to reassess the fair value of our investment properties on each reporting date, and we include the gains or losses arising from changes in the estimated fair value of such investment properties in our consolidated income statements in the period in which they arise. Pursuant to HKAS 40, our investment properties may be recognised by using either the fair value model or the cost model. We recognise investment properties at their estimated fair value because we are of the view that periodic estimated fair value adjustments in accordance with prevailing market conditions provide a more up-to-date picture of the value of our investment properties. The fair values of our investment properties are based on valuations of such properties conducted by our Property Valuer, using property valuation techniques involving certain assumptions about market conditions. Please see the Property Valuation included in Appendix IV to this document for more details. Investors should be aware that the fair value gains on investment properties included in our income statement reflect unrealised capital gains in the estimated fair value of our investment properties at the relevant reporting date and do not constitute profit generated from our operations or generate any actual cash inflow to us unless and until such investment properties are sold at or above such estimated fair values. Favourable or unfavourable changes in the assumptions of market conditions used by the Property Valuer would result in changes to the fair value of our investment properties and corresponding adjustments to the amount of gains or losses reported in our income statement in the future.

Additional risks include the overall performance of the PRC property sector in the cities in which we operate, increasing competition among property developers in key economic cities, and the impact on us of the applicable PRC rules and regulations governing the PRC real estate market, such as the use of pre-sale proceeds.

FINANCIAL INFORMATION

CRITICAL ACCOUNTING POLICIES

We prepared our consolidated financial information in accordance with HKFRS. In preparing such financial information, we are required to make judgements, estimates and assumptions. We evaluate these estimates based on our historical experience, knowledge and assessment of our current business and other conditions, as well as our expectations regarding the future based on available information and various assumptions, which together form our basis for making judgements about matters that are not readily apparent from other sources. As such, our actual results may differ from these estimates. Some of our accounting policies require a higher degree of judgement than others in their application.

When reviewing our consolidated financial information, you should consider: (i) our critical accounting policies; (ii) the judgement and other uncertainties affecting the application of such policies; and (iii) the sensitivity of reported results to changes in conditions and assumptions. We believe the following accounting policies involve the most significant judgement and estimates used in the preparation of our consolidated financial information.

Recognition of revenue from and costs of sale of properties

Our revenue primarily comprises the proceeds received or receivable from the sale of properties. Our cost of sales consists of costs incurred directly for property development, such as land acquisition costs, construction costs and capitalised interest. Our revenue and cost of sales are recognised when the risks and ownerships of the properties are transferred to the purchasers, which is when construction of the relevant properties has been completed (i.e., usually when the occupation permit is received), the relevant properties have been delivered to the purchasers pursuant to the sale agreements and the collectability of related receivables is reasonably assured. Monies received from pre-sales but prior to completion of our properties are recorded as advanced proceeds received from our customers under current liabilities on our consolidated balance sheets.

Completed properties held for sale and properties under development

Completed properties held for sale and properties under development are stated at the lower of cost and net realisable value.

We make estimates of the net realisable value of completed properties by reference to the available market data including the most recent sale transactions and market survey reports available from independent property valuers, after taking into account the anticipated costs of selling these properties. Properties under development are classified as current assets on our consolidated balance sheets unless the construction period of the relevant property development project is expected to be completed beyond our normal operating cycle. Our initial payments for leasehold land and land use rights included in this category of assets are measured at amortised cost less accumulated impairment losses.

We make estimates of the net realisable value of properties under development by reference to the estimated future discounted cash flows to be derived from such properties. The estimates require judgements as to the anticipated sale prices by reference to recent sale transactions in nearby

FINANCIAL INFORMATION

locations, rates of new property sales, marketing costs (including price discounts required to stimulate sales) and the expected costs for the completion of properties, the legal and regulatory framework and general market conditions. Our estimates may be inaccurate and estimates may need to be adjusted in later periods.

If there is an increase in costs for the completion of properties or a decrease in anticipated selling price, the net realisable value will decrease and this may result in provisions for completed properties held for sale and properties under development. Such provisions require the use of judgement and estimates by our management, taking into account the location of the property, the quality of the building, and the valuation of similar properties in the local market. Where the expectation is different from the original estimate, the carrying value and provision for properties in the periods in which such estimate is changed will be adjusted accordingly.

In respect of the properties under development for future use as investment properties, the Group has recently adopted the amendment to Hong Kong Accounting Standard 40 for the year ended 31 December 2008. Pursuant to the adoption of the amendment, property that is under construction or development for future use as investment property is measured at fair value under the fair value model and the gains or losses arising from changes in the fair value are accounted for as gains or losses upon revaluation in our consolidated income statements. Upon the adoption of the amendment, there was no impact on our financial information as at and for the years then ended 31 December 2006 and 2007. Fair value gains of RMB846.1 million and RMB274.9 million, and the related deferred taxation expense of RMB211.5 million and RMB68.7 million, were recognised in our consolidated income statements for the year ended 31 December 2008 and the four months ended 30 April 2009, respectively.

Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of assets which require a substantial period of time to complete and prepare for their intended use or sale are capitalised as part of the cost of such properties. All other borrowing costs are recorded in the consolidated income statements in the year in which they are incurred. In general, we capitalise the borrowing costs incurred from the commencement of each property development project and cease capitalising these costs when the assets are substantially ready for their intended use or sale. Borrowing costs incurred after the completion of a property development project or otherwise not directly attributable to the acquisition and/or construction of the project are recorded in our consolidated income statements as finance costs in the period in which they are incurred. Investment income earned on the temporary investment of specific borrowings pending their expenditure on the relevant project is deducted from the borrowing cost capitalised.

Substantially all of the borrowing costs (including interest expense) related to the Financing and borrowing costs related to the Shanghai Bay Arrangement have been capitalised as a part of the cost of acquiring or constructing the projects to which the proceeds of such financing arrangements were applied. These capitalised borrowing costs will not be recognised in our consolidated income statements until construction of such projects is completed and these projects are ready for delivery and are sold. The borrowing costs associated with the Financing and with the Shanghai Bay Arrangement are significantly higher than the borrowing costs associated with our previous bank

FINANCIAL INFORMATION

borrowings, which constituted substantially all of our capitalised borrowings prior to the Financing. As a result, to the extent projects have been funded with proceeds from the Financing or proceeds from the Shanghai Bay Arrangement, such capitalised borrowing costs are expected to be significantly higher than capitalised borrowing costs we have previously recognised in our consolidated income statements which were associated with bank borrowings.

Provision for the PRC Land Appreciation Tax (“LAT”)

Under PRC tax laws and regulations, our PRC subsidiaries are subject to LAT collectible by the local tax authorities and levied at progressive rates ranging from 30% to 60% on the appreciation of land value, calculated as the proceeds of sales of properties less deductible expenditures including payments made for obtaining land use rights, construction and infrastructure costs, related taxes and all property development costs. We recognise LAT as an income tax expense and make necessary provisional payments according to the current tax laws and regulations. We recognise LAT based on the appreciation of land value, which is calculated based on the proceeds from the sale of completed properties less deductible expenditures, including charges associated with obtaining land use rights, and other property development related expenditures. We prepay 1% of our pre-sale proceeds as an LAT prepayment in accordance with the requirements of the PRC tax authorities. The tax authorities determine the final LAT liabilities of our Group after completion of our property development projects. This final determination may differ from the amounts that we had estimated. Our projects may go through different phases over multiple periods of time, in which revised tax laws may be enacted and implemented. Thus, upon final assessment of the LAT, after all phases of a project are completed, our final LAT liabilities may differ from our initial estimates. Further, the implementation and settlement of such taxes vary among the regional tax jurisdictions across the PRC and we must wait until each local PRC tax authority assesses the LAT in order to have a finalised calculation and payment amount. Accordingly, significant judgement is required in determining the amount of land appreciation and related taxes for the purpose of preparing our financial information. As such, our final tax liabilities could be different from the amounts that we estimated and such discrepancies may impact our income tax expense in the periods during which such taxes are finalised with local tax authorities.

Deferred income tax

Significant judgement is required in determining our provisions for deferred income tax. Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in our consolidated financial information. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that, at the time of such transaction, affects neither the accounting nor taxable profit or loss, such as goodwill. Deferred income tax is determined using the tax rates that have been applicable or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

FINANCIAL INFORMATION

Deferred income tax is provided on temporary differences arising from investments in subsidiaries, except where the timing of the reversal of the temporary differences can be controlled by our Group and it is probable that the temporary differences will not be reversed in the foreseeable future.

SELECTED INCOME STATEMENT ITEMS

Revenue

All of our revenue consists of proceeds from the sale of properties. See “— Critical Accounting Policies — Recognition of revenue from and costs of sale of properties” above. Our revenue for a given period depends primarily on the number of properties we sell and deliver in such period and the prices realised for these properties.

We recognise our revenue after our properties have been sold and delivered. We typically pre-sell our properties prior to their completion in accordance with the PRC pre-sale regulations. We do not, however, recognise the proceeds from pre-sales of properties until we have completed the construction of these properties and the properties have been delivered to the purchasers and the collectibility of related receivables is reasonably assured. There is typically a time gap of about one year between the time we commence pre-sale of properties under development and the delivery of the properties. We record the proceeds received from the pre-sold properties as “Advanced proceeds received from customers”, a current liability in our consolidated balance sheets.

FINANCIAL INFORMATION

The table below sets forth, for the year/period indicated and on a project basis, our revenue.

	Year ended 31 December						Four months ended 30 April					
	2006			2007			2008			2009		
	GFA Sold and Delivered	Recognised Average Selling Price ⁽¹⁾	RMB per sq.m.	GFA Sold and Delivered	Recognised Average Selling Price ⁽¹⁾	RMB per sq.m.	GFA Sold and Delivered	Recognised Average Selling Price ⁽¹⁾	RMB per sq.m.	GFA Sold and Delivered	Recognised Average Selling Price ⁽¹⁾	RMB per sq.m.

Notes:

(1) Calculated as revenue recognised divided by total GFA sold and delivered for the relevant year/period.

FINANCIAL INFORMATION

In 2006, we delivered 265,937 sq.m. of GFA at an overall recognised average selling price of RMB6,461 per sq.m.. Sunshine Venice made up the majority of our sales and the initial phase of Sunshine Holiday also was completed and contributed 76,654 sq.m. of GFA to our sales in 2006. The recognised average selling price at Sunshine Venice was RMB7,260 per sq.m. in 2006, while Sunshine Holiday had a recognised average selling price of RMB4,467 per sq.m. in 2006 as property prices in Tianjin were generally lower than those in Shanghai.

In 2007, we delivered 278,352 sq.m. of GFA at an overall recognised average selling price of RMB6,438 per sq.m.. Three new projects, Shanghai Park Avenue, No. 1 City Promotion and Sunny Town, made their initial sales and accounted for approximately three quarters of our revenue and GFA sold and delivered in 2007. Sunshine Venice continued to record sales in 2007 though at a reduced recognised average selling price of RMB6,826 per sq.m., reflecting bulk sales of approximately 40,000 sq.m. made to the local government in 2007. Two of the new projects, located in Wuxi and Shenyang, respectively, had recognised average selling prices of RMB4,360 per sq.m. and RMB3,613 per sq.m., respectively, in 2007 as property prices in Wuxi and Shenyang generally are lower than those in Shanghai. However, the new project in Shanghai, Shanghai Park Avenue, had a substantially higher average selling price of RMB21,390 per sq.m., reflecting its favourable location in Shanghai.

In 2008, we delivered 436,907 sq.m. of GFA at an overall recognised average selling price of RMB9,038 per sq.m.. Six new projects and/or phases, Sunshine Venice (Phase IIIB), Chateau De Paris (Phase I (retail)), Chateau De Paris (Phase II), Sunshine Holiday (Phase II), Classical Life (Phase I and II) and Sunny Town (Phase II), recorded sales in 2008 and accounted for approximately 75.5% of our revenue in 2008. Shanghai Park Avenue continued to record sales in 2008 at a recognised average selling price of RMB28,674 per sq.m., representing an increase of 34.1% from 2007. Chateau De Paris (Phase II) had a recognised average selling price of RMB21,869 per sq.m.. Sunshine Holiday (Phase II) had a recognised average selling price of RMB6,142 per sq.m. and accounted for approximately 24.8% of our total revenue in 2008.

In the four months ended 30 April 2009, we delivered 98,021 sq.m. of GFA at an overall recognised average selling price of RMB9,528 per sq.m., compared to 73,278 sq.m. of GFA in the four months ended 30 April 2008 at an overall recognised average selling price of RMB13,317 per sq.m.. Sunshine Venice (Phase III B) continued to record sales in the four months ended 30 April 2009 at a recognised average selling price of RMB9,982 per sq.m. and accounted for approximately 87.4% of our total revenue for such period.

Cost of sales

Our cost of sales consists primarily of the costs incurred directly from our property development activities which include construction costs, land costs, capitalised interest, and business taxes and other levies. We recognise cost of sales with respect to a property when we recognise our revenue from such property which generally occurs when construction is completed and such property is delivered. Our average cost of sales per sq.m. for the years ended 31 December 2006 and 2007 remained relatively stable at RMB4,103 and RMB4,185, respectively, but increased by 25.4% to RMB5,249 for the year ended 31 December 2008. Our average cost of sales per sq.m. for the four months ended 30 April 2009 was RMB4,906, representing a 22.3% decrease compared to the same period in 2008.

FINANCIAL INFORMATION

The following table sets out the breakdown of our cost of sales for the three years ended 31 December 2008 and the four months ended 30 April 2008 and 2009:

	Year ended 31 December					Four months ended 30 April		
	2006 RMB'000	2007 RMB'000	2008 RMB'000	06-07 % change	07-08 % change	2008 RMB'000	2009 RMB'000	Apr 08 - Apr 09 % change
	(unaudited)							
Construction costs.....	810,063	764,392	1,489,035	(5.6)%	94.8%	280,693	342,731	22.1%
Land costs.....	165,735	267,228	508,943	61.2%	90.5%	106,636	72,592	(31.9)%
Capitalised interest.....	20,112	34,023	74,668	69.2%	119.5%	21,134	13,422	(36.5)%
Business taxes and other levies	95,202	99,175	220,693	4.2%	122.5%	54,103	52,102	(3.7)%
Total	<u>1,091,112</u>	<u>1,164,818</u>	<u>2,293,339</u>	<u>6.8%</u>	<u>96.9%</u>	<u>462,566</u>	<u>480,847</u>	<u>4.0%</u>

Construction costs

Construction costs represent costs for the design and construction of a property project. These costs consist primarily of fees paid to our contractors, including contractors responsible for civil engineering construction, landscaping, construction installation, infrastructure expenses, raw material costs, design costs and salary-related expenses for on-site staff. In 2007, our construction costs were RMB764.4 million, representing a decrease of 5.6% compared to RMB810.1 million in 2006. In 2008, our construction costs were RMB1,489.0 million, representing an increase of 94.8% from RMB764.4 million in 2007. The increase was primarily due to an increase in the proportion of our construction of up-market residential properties and the increase in GFA sold and delivered during 2008. Our average construction cost per sq.m. for the Track Record Period, calculated as our construction costs recognised divided by GFA sold and delivered during the relevant period, was RMB3,046, RMB2,746, RMB3,408 and RMB3,497 for the years ended 2006, 2007, 2008 and the four months ended 30 April 2009, respectively. The decrease in average construction cost from 2006 to 2007 was primarily attributable to the increased sales of low-rise buildings, which generally have lower construction costs per sq.m. compared to our construction costs for high-rise buildings, which comprised most of our sales for 2006. The increase in average construction cost from 2007 to 30 April 2009 was primarily due to an increase in the proportion of our construction of up-market buildings, which is also reflected in the increase in the average selling price. Our construction costs are affected by a number of factors such as:

- the difference in the positioning and types of our projects, including the requirements relating to the design and interior decoration for different property types, which would in turn result in the difference of our construction costs incurred;
- price movements for construction materials, including steel and cement. Market prices of such items may fluctuate and thus impact our costs. Please refer to the section above headed “Factors Affecting Our Results of Operations — Price volatility of construction materials” for further information; and
- decisions relating to the investments in ancillary facilities, such as whether to supplement our properties with playgrounds, gymnasiums, and other recreational facilities.

FINANCIAL INFORMATION

Since we engage contractors to procure raw materials, most of our construction materials costs are accounted for as part of the contractor fees upon settlement with the relevant contractors during the Track Record Period.

Land costs

Land costs include costs relating to the acquisition of the rights to occupy, use and develop land, including land premiums, demolition and resettlement costs, and land-related taxes. Our land costs in 2007 were RMB267.2 million, representing an increase of 61.2% from RMB165.7 million in 2006, and our land costs in 2008 were RMB508.9 million, representing an increase of 90.5% from RMB267.2 million in 2007. The increases in land costs in 2006, 2007 and 2008 were primarily due to the increase in GFA sold and delivered from 265,937 sq.m. in 2006 to 278,352 sq.m. in 2007 to 436,907 sq.m. in 2008 and the increase in average land costs per sq.m.. Our land costs for the four months ended 30 April 2009 was RMB72.6 million, representing a decrease of 31.9% from RMB106.6 million for the same period in 2008. The decrease was primarily attributable to 87.4% of our total revenue for the four months ended 30 April 2009 coming from the sale of Sunshine Venice (Phase IIIB), whose average land costs per sq.m. were lower compared to Shanghai Park Avenue, the sale of which represented 60.9% of our total revenue for the four months ended 30 April 2008.

Capitalised interest

We also capitalise a portion of our interest expenses to the extent that such costs are directly attributable to the costs of the acquisition, construction or development of our properties. The interest expenses are capitalised as they are incurred along with the development of a project and the recognition of the relevant expenditure, until completion or suspension of the construction phase. Interest expenses incurred after completion of a construction phase are then recognised in our consolidated income statements as finance costs.

Our capitalised interest included in cost of sales for 2007 was RMB34.0 million, representing an increase of 69.2% from RMB20.1 million in 2006. Our capitalised interest included in cost of sales for 2008 was RMB74.7 million, representing an increase of 119.5% from RMB34.0 million in 2007. The increases in capitalised interest in cost of sales in 2007 and 2008 were primarily due to the increases in GFA sold and delivered. Our capitalised interest in cost of sales for the four months ended 30 April 2009 was RMB13.4 million, representing a decrease of 36.5% from RMB21.1 million for the same period in 2008. The decrease was primarily due to higher interest rates and higher capitalised interest associated with Shanghai Park Avenue, the sale of which represented 60.9% of our total revenue for the four months ended 30 April 2008. Substantially all of the borrowing costs (including interest expense) relating to the Financing and the Shanghai Bay Arrangements have not yet been recognised as a capitalised interest expense included in cost of sales. See “Effects of substantial capitalised interest on future periods”. The amounts of capitalised interest under completed properties held for sale were approximately RMB8.5 million, RMB7.4 million and RMB57.3 million as at 31 December 2006, 2007 and 2008, respectively, and RMB38.5 million as at 30 April 2009. The amounts of capitalised interest under properties under development were approximately RMB266.0 million, RMB608.7 million and RMB1,488.5 million as at 31 December 2006, 2007 and 2008, respectively, and RMB1,868.6 million as at 30 April 2009. Please see Notes 10 and 11 to the Group’s consolidated financial information as set out in Appendix I.

FINANCIAL INFORMATION

Business taxes and other levies

Business taxes and other levies in 2007 totalled RMB99.2 million, representing a 4.2% increase from that of RMB95.2 million in 2006. Business taxes and other levies in 2008 totalled RMB220.7 million, representing an increase of 122.5% from that of RMB99.2 million in 2007, which was primarily due to a significant increase in our sales. Our business taxes and other levies for the four months ended 30 April 2009 was RMB52.1 million, remaining stable compared to RMB54.1 million for the four months ended 30 April 2008 as a result of relatively flat sales for these periods.

Gross profit

Gross profit represents revenue less cost of sales. Our gross profit for the four months ended 30 April 2009 decreased by 11.7% to RMB453.1 million from RMB513.2 million for the same period in 2008. Our gross profit in 2008 was RMB1,655.6 million, an increase of 164.0% from RMB627.1 million in 2007. Our gross profit in 2007 was RMB627.1 million, remaining stable compared with RMB627.0 million in 2006. Our gross profit margins for the Track Record Period were 36.5%, 35.0%, 41.9% and 48.5% for 2006, 2007, 2008 and the four months ended 30 April 2009, respectively. The decrease in our gross profit margin from 52.6% for the four months ended 30 April 2008 to 48.5% for the same period in 2009 was primarily because Shanghai Park Avenue, which contributed 60.9% of our revenue for the four months ended 30 April 2008, had a higher gross profit margin than Sunshine Venice (Phase IIIB), which contributed 87.4% of our total revenue for the same period in 2009, partially offset by a decrease in average construction cost per sq.m.. The increase from 2007 to 2008 was primarily due to an increase in sales of up-market residential properties in key central cities, which were sold at a much higher average selling price.

Other gains/(losses)

Other gains for the four months ended 30 April 2009 were RMB735.1 million, primarily due to a recognition of a fair value gain relating to our investment properties in Shanghai. The other losses for the same period in 2008 were RMB22.1 million, primarily due to foreign exchange losses on the Notes from the financing as a result of RMB appreciation. Other gains for the year ended 2008 were RMB825.6 million, which were primarily due to a recognition of fair value gain relating to our investment properties in Shanghai. Other losses for the year ended 2007 were RMB34.5 million, which were primarily due to foreign exchange losses on the Notes from the financing as a result of RMB appreciation.

Other income

Our other income consists primarily of rental income, interest income and subsidies received from the government. We received government grants of RMB7.4 million and RMB3.2 million for 2006 and 2007, respectively, as a recognition of the substantial tax payment we had made to the local governments. Local government subsidies are discretionary in nature.

Selling and marketing expenses

Selling and marketing expenses consist primarily of agency fees relating to the sale of properties, advertising and promotional expenses such as newspaper, magazine, pamphlets and billboard advertisements, and salaries and commissions for our sales staff.

FINANCIAL INFORMATION

Administrative expenses

Our administrative expenses consist primarily of salary and welfare payments relating to our management staff, rental costs of our offices, travelling and entertainment expenses, auditors' remuneration and legal and other professional fees.

Finance costs

Our finance costs consist primarily of interest costs net of capitalised interest. We capitalise the borrowing costs attributable to the amount of borrowings used in our project construction when the development of properties commences and the relevant expenditure and finance cost is incurred. This ceases when the development is in suspension or the construction work is completed. Interest expense incurred after completion of development is recognised in our consolidated income statement as finance costs.

Income tax expense

Our income tax expense line item reflects income taxes we pay in the PRC, including corporate income tax, LAT and any deferred income tax.

No Hong Kong profits tax was provided for the three years ended 31 December 2006, 2007 and 2008 and for the four months ended 30 April 2008 and 2009 as our Group did not have any assessable profits in Hong Kong.

No Cayman Islands profits tax was provided for the three years ended 31 December 2006, 2007 and 2008 and for the four months ended 30 April 2008 and 2009 as our Group did not have any profits in the Cayman Islands.

The LAT in the PRC is levied at progressive rates ranging from 30.0% to 60.0% on the appreciation of land value, being the proceeds of sales of properties less deductible expenditures including payments made for obtaining land use rights and all property development expenditures after adjusting for an expansion factor, which is included in our consolidated income statements as income tax expense.

On 16 March 2007, the National People's Congress of the PRC enacted the PRC Corporate Income Tax Law under which a uniform corporate income tax rate of 25.0% will be imposed on the taxable income of both domestic enterprises and foreign invested enterprises beginning on 1 January 2008, and the original tax privilege available to foreign invested enterprises will be cancelled. For more information about the new PRC Corporate Income Tax Law, please refer to the section headed "Taxation — Income Tax" in Appendix V to this document. We believe the introduction of the new PRC Corporate Income Tax Law will enable us to enjoy a lower tax rate than the effective tax rate applicable to us in the past.

As of 31 December 2006, we applied the income tax rate of 33.0% in the calculation of our deferred tax assets. Pursuant to the new PRC Corporate Income Tax Law, the corporate income tax rate applicable to our domestic subsidiaries in the PRC decreased from 33.0% to 25.0% effective from 1

FINANCIAL INFORMATION

January 2008. Accordingly, the tax rate used in calculating deferred income tax assets and liabilities of our domestic subsidiaries as at 31 December 2007 was adjusted to the lower tax rate of 25.0%. The effect of the change in corporate income tax rate was recognised in the consolidated income statement for the year ended 31 December 2007.

CONSOLIDATED RESULTS OF OPERATIONS

The following tables set forth selected data from our consolidated income statements for the three years ended 31 December 2006, 2007 and 2008 and the four months ended 30 April 2008 and 2009:

	Year ended 31 December						Four months ended 30 April			
	2006	% of	2007	% of	2008	% of	2008	% of	2009	% of
	RMB'000	Revenue	RMB'000	Revenue	RMB'000	Revenue	RMB'000	Revenue	RMB'000	Revenue

Note:

- (1) Other (losses)/gains, net included a recognition of estimated fair value gains on investment properties of RMB846.1 million and RMB735.2 million for the year ended 31 December 2008 and for the four months ended 30 April 2009, respectively. These fair value gains are unrealised. See “— Factors Affecting Our Results of Operations — Changes in fair value of investment properties”.

FINANCIAL INFORMATION

The following discussion is based on the consolidated financial information of our Group.

Four months ended 30 April 2009 compared to four months ended 30 April 2008

Revenue. Our revenue for the four months ended 30 April 2009 was RMB934.0 million, representing a decrease of 4.3% compared to RMB975.8 million for the same period in 2008, primarily due to a significant decrease in the average selling price from RMB13,317 per sq.m. for the four months ended 30 April 2008 to RMB9,528 per sq.m. for the same period in 2009, partially offset by an increase in GFA sold and delivered from 73,278 sq. m. in the four months ended 30 April 2008 to 98,021 sq.m. in the corresponding period in 2009. The decrease in the average selling price was primarily because Shanghai Park Avenue, which contributed 60.9% of our revenue for the four months ended 30 April 2008, had a higher average selling price than Sunshine Venice (Phase IIIB), which contributed 87.4% of our total revenue for the same period in 2009.

Cost of sales. Cost of sales for the four months ended 30 April 2009 was RMB480.8 million, representing an increase of 4.0% compared to RMB462.6 million for the same period in 2008. This was primarily due to an increase in GFA sold and delivered in the four months ended 30 April 2009, partially offset by a decrease in average construction cost from RMB3,831 per sq.m. in the four months ended 30 April 2008 to RMB3,497 per sq.m. in the corresponding period in 2009.

Gross profit. We recorded a gross profit of RMB453.1 million for the four months ended 30 April 2009, representing a decrease of 11.7% compared to RMB513.2 million for the same period in 2008. Our gross profit margin decreased from 52.6% for the four months ended 30 April 2008 to 48.5% for the same period in 2009. The decrease in our gross profit margin resulted primarily from Shanghai Park Avenue, which contributed 60.9% of our revenue for the four months ended 30 April 2008, having a higher gross profit margin than Sunshine Venice (Phase IIIB), which contributed 87.4% of our total revenue for the same period in 2009, partially offset by a decrease in average construction cost per sq.m..

Other income. Other income for the four months ended 30 April 2009 was RMB6.7 million, representing a decrease of 6.1% compared to RMB7.1 million for the same period in 2008, primarily due to a decrease in interest income as a result of lower interest rates and a decrease in our average cash balances.

Other gains/(losses). Other gains for the four months ended 30 April 2009 were RMB735.1 million, primarily due to a recognition of a fair value gain on our investment properties in Shanghai. The other losses for the same period in 2008 were RMB22.1 million, primarily due to foreign exchange losses on the Notes from the financing as a result of RMB appreciation.

Selling and marketing expenses. Our selling and marketing expenses were RMB34.3 million for the four months ended 30 April 2009, representing a decrease of 26.0% from RMB46.3 million for the same period in 2008. This was primarily due to an increase in marketing activities incurred in connection with the pre-sale campaign for Shanghai Park Avenue and Sunshine Venice for the four months ended 30 April 2008.

FINANCIAL INFORMATION

Administrative expenses. Our administrative expenses were RMB90.3 million for the four months ended 30 April 2009, representing an increase of 38.7% from RMB65.1 million for the same period in 2008, primarily due to an increase in our headcount and their corresponding salaries and welfare costs and an increase in rental expense as a result of the expansion of our operations.

Finance costs. Our finance costs were RMB11.4 million for the four months ended 30 April 2009, representing a decrease of 37.0% from RMB18.1 million for the same period in 2008, which was primarily due to a decrease in interest rates and a slightly higher interest capitalisation rate.

Profit before income tax. Profit before income tax for the four months ended 30 April 2009 was RMB1,059.0 million, representing an increase of 187.2% compared to RMB368.8 million for the same period in 2008. The significant increase in profit before income tax was primarily attributable to a recognition of fair value gain on our investment properties in the four months ended 30 April 2009.

Income tax expenses. Notwithstanding the increase in our profit before income tax for the four months ended 30 April 2009 by 187.2% to RMB1,059.0 million compared to RMB368.8 million for the same period in 2008, our income tax expenses increased only by 47.1% to RMB285.5 million for the four months ended 30 April 2009 from RMB 194.0 million for the same period in 2008. This was primarily due to the significant decrease in our provision for PRC land appreciation tax for the four months ended 30 April 2009 as Shanghai Park Avenue, which accounted for 60.9% of the total sales in the corresponding period in 2008, had a much higher value-added rate compared to projects sold and delivered in the same period in 2009. Our effective income tax rate, with LAT included in income tax expense, was 27.0% for the four months ended 30 April 2009, compared to 52.6% for the same period in 2008. Our effective income tax rate, with LAT included as part of operating costs, was 26.3% for the four months ended 30 April 2009, compared to 28.4% for the same period in 2008.

Profit attributable to equity owners of our Group. Profit attributable to equity owners of our Group for the four months ended 30 April 2009 was RMB773.5 million, representing a significant increase of 342.7% compared to RMB174.7 million for the same period in 2008. Profit attributable to equity owners of our Group as a percentage of revenue was 82.8% for the four months ended 30 April 2009, compared to 17.9% for the same period in 2008, primarily due to a recognition of fair value gain on our investment properties.

Year ended 31 December 2008 compared to year ended 31 December 2007

Revenue. Revenue for 2008 was RMB3,949.0 million, representing a significant increase of 120.4% compared to RMB1,791.9 million in 2007, primarily due to an increase in GFA sold and delivered from 278,352 sq.m. in 2007 to 436,907 sq.m. in 2008 and an increase in sales of up-market residential properties, resulting in an increase in average selling price from RMB6,438 per sq.m. in 2007 to RMB9,038 per sq.m. in 2008. This increase of GFA sold and delivered came primarily from new projects including Chateau De Paris (Phase II), Sunshine Holiday (Phase II) and Sunshine Venice (Phase IIIB) as well as existing projects such as Shanghai Park Avenue.

FINANCIAL INFORMATION

Cost of sales. Cost of sales in 2008 was RMB2,293.3 million, representing an increase of 96.9% compared to RMB1,164.8 million in 2007. This was primarily due to an increase in GFA sold and delivered in 2008 and higher average construction cost per sq.m. for our up-market residential properties.

Gross profit. We recorded a gross profit of RMB1,655.6 million in 2008, representing an increase of 164.0% from RMB627.1 million in 2007. Our gross profit margin increased significantly from 35.0% in 2007 to 41.9% in 2008. The increase in gross profit margin was primarily due to an increase in sales of up-market residential properties, such as Shanghai Park Avenue and Chateau De Paris (Phase II), which were sold at a much higher average selling price and margin.

Other income. Other income in 2008 was RMB21.4 million, representing an increase of 24.5% compared to RMB17.2 million in 2007, primarily due to rental income arising from certain properties in Chateau De Paris (Phase II) and Sunshine Venice and interest income generated by increased bank balances.

Other gains/(losses). Other gains in 2008 were RMB825.6 million, which were primarily due to a recognition of fair value gain on our investment properties in Shanghai. Other losses in 2007 were RMB34.5 million, which were primarily due to foreign exchange losses on the Notes from the financing as a result of RMB appreciation.

Selling and marketing expenses. Our selling and marketing expenses were RMB150.5 million in 2008, representing an increase of 94.4% from RMB77.4 million in 2007. This was primarily due to an increase in promotion activities intended to improve our corporate image and marketing activities connected to the pre-sale of our properties.

Administrative expenses. Our administrative expenses were RMB214.8 million in 2008, representing an increase of 103.3% from RMB105.7 million in 2007, which was primarily due to an increase in our headcount and their corresponding salaries and welfare costs.

Finance costs. Our finance costs in 2008 were RMB54.5 million, representing a decrease of 44.0% from RMB97.2 million in 2007, which was primarily due to an increase in capitalised interest as a result of an increase in the number of projects under construction and development.

Profit before income tax. Profit before income tax in 2008 was RMB2,082.8 million, representing an increase of 532.1% compared with RMB329.5 million in 2007. The significant increase in profit before income tax was primarily attributable to an increase in sales of up-market residential properties, such as Shanghai Park Avenue and Chateau De Paris (Phase II), which were sold at a much higher average selling price, and a recognition of fair value gain on our investment properties in 2008.

Income tax expenses. Our income tax expenses in 2008 increased by 273.9% to RMB827.8 million from RMB221.4 million in 2007. The increase in income tax expenses was primarily due to a significant increase in our profit and an increase in land appreciation tax and deferred income tax liability as a result of a recognition of fair value gain on our investment properties in 2008. Our effective income tax rate, with LAT included in income tax expense, was 39.7% in 2008, representing a decrease from 67.2% in 2007. Our effective income tax rate, with LAT included as part of operating

FINANCIAL INFORMATION

costs, was 27.0% in 2008, representing a decrease from 49.7% in 2007. The substantial decrease in effective income tax rates, with LAT included in income tax, or included as part of operating costs, was primarily due to the change of PRC corporate income tax from 33% in 2007 to 25% in 2008. The recognition of deferred income tax liability at 25% in respect of the fair value gain on investment properties, which accounted for 40.6% of the total profit before income tax for the year ended 31 December 2008, also reduced the effective tax rate in 2008.

Profit for the year attributable to equity owners of our Group. Profit for the year attributable to equity owners of our Group in 2008 was RMB1,255.0 million, representing a significant increase of 1,061.0% compared with RMB108.1 million in 2007, primarily due to an increase in gross profit margin arising from up-market residential properties, and a recognition of fair value gain on our investment properties. Profit for the year attributable to equity owners of our Group as a percentage of revenue increased from 6.0% in 2007 to 31.8% in 2008.

Year ended 31 December 2007 compared to year ended 31 December 2006

Revenue. Revenue for 2007 was RMB1,791.9 million, an increase of 4.3% compared to RMB1,718.1 million in 2006, primarily due to an increase in GFA sold and delivered from 265,937 sq.m. in 2006 to 278,352 sq.m. in 2007. This increase in GFA sold and delivered came primarily from new projects including Shanghai Park Avenue, No. 1 City Promotion and Sunny Town as well as existing projects such as Sunglow Xinjing. The recognised average selling price for Sunshine Venice decreased by 6.0% from RMB7,260 in 2006 to RMB6,826 in 2007, due to bulk sales to the local government.

Cost of sales. Cost of sales in 2007 was RMB1,164.8 million, an increase of 6.8% compared to RMB1,091.1 million in 2006. This was primarily due to an increase in additional GFA of 12,415 sq.m. delivered during 2007. This figure was also influenced by a higher land acquisition cost in Shanghai and was partially offset by a decrease in construction costs due to the relatively lower construction cost for certain projects in cities such as Shenyang and Wuxi.

Gross profit. We recorded a gross profit of RMB627.1 million in 2007, remaining stable compared with RMB627.0 million in 2006 and a decrease in gross profit margin from 36.5% in 2006 to 35.0% in 2007. The slight decrease in gross profit margin was due to an increase in average cost of sales per sq.m.. The increase in average cost of sales per sq.m. was due to the increase in land costs, which was partially offset by a decrease in construction costs.

Other income. Other income in 2007 was RMB17.2 million, an increase of 14.1% compared to RMB15.1 million in 2006, primarily due to interest income generated by increased bank balances.

Other losses. Other losses in 2007 were RMB34.5 million, with nil recorded in 2006. The other losses in 2007 were primarily due to foreign exchange losses against the appreciation of the RMB. Our Financing was borrowed in U.S. dollars and, when the proceeds remitted into the PRC, we suffered exchange rate losses due to appreciation of the RMB against the U.S. dollar.

FINANCIAL INFORMATION

Selling and marketing expenses. Our selling and marketing expenses were RMB77.4 million in 2007, an increase of 66.4% from RMB46.5 million in 2006. This was primarily due to an increase in marketing activities connected to the pre-sale campaign for Shanghai Bay and Sunshine Venice.

Administrative expenses. Our administrative expenses were RMB105.7 million in 2007, an increase of 5.5% from RMB100.2 million in 2006, which was primarily due to an increase in our headcount and their corresponding salaries and welfare costs, while remaining stable as a percentage of revenues.

Finance costs. Our finance costs in 2007 were RMB97.2 million, an increase of 31.9% from RMB73.7 million in 2006, which was primarily due to an increase in interest rates and an increase in average bank borrowings during 2007.

Profit before income tax. Profit before income tax in 2007 was RMB329.5 million, a decrease of 21.9% compared with RMB421.7 million in 2006. The decrease in profit before income tax was primarily attributable to an increase in finance costs and selling and marketing expenses for new projects, as well as the recognition of exchange losses associated with our Financing.

Income tax expenses. Our income tax expenses in 2007 increased by 36.3% to RMB221.4 million from RMB162.5 million in 2006. The increase in income tax expenses was primarily due to provisions for LAT for Shanghai Park Avenue, which had no LAT provided in 2006 because no apartment in this project was delivered in 2006. Our effective income tax rate, with LAT included in income tax expense, was 67.2% in 2007, an increase from 38.5% in 2006. Our effective income tax rate, with LAT included as part of operating costs, was 49.7% in 2007, an increase from 38.5% in 2006.

Profit for the year attributable to equity owners of our Group. Profit for the year attributable to equity owners of our Group in 2007 was RMB108.1 million, a decrease of 58.3% compared with RMB259.2 million in 2006, primarily due to the provision of LAT for Shanghai Park Avenue, recognition of foreign exchange losses, increase in selling and marketing expenses, and finance costs. Profit for the year attributable to equity owners of our Group as a percentage of revenue decreased from 15.1% in 2006 to 6.0% in 2007. Our return on equity ratio, calculated as the net profit divided by the shareholders' equity, was 16.1% in 2006.

FINANCIAL INFORMATION

The following table sets forth our completed properties held for sale, our properties under development, advances from pre-sale proceeds and investment properties as at 30 April 2009.

Notes:

- (1) In this Financial Information section, the classification of properties into “completed properties held for sale” and “properties under development” is on the same basis as adopted in the preparation of the Accountant’s Report set out in Appendix I to this document.
- (2) Land costs of Royal Mansion Phase II is included.
- (3) We expect that the pre-sale proceeds from these projects will be recognised as revenue in 2009.
- (4) Investment properties as at 31 December 2008 comprised Shanghai Bay Phase III, which was still under development, with the fair value of RMB1,104 million.

FINANCIAL INFORMATION

DESCRIPTION OF CERTAIN BALANCE SHEET ITEMS

Trade and other receivables and prepayments

Trade and other receivables comprise receivables arising from trade receivables, other receivables and prepayments.

	31 December			30 April
	2006	2007	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000
Trade receivables:	28,663	32,360	4,419	6,354
Third parties	28,663	32,360	4,419	6,354
Other receivables:	3,068,108	1,286,663	43,647	59,187
Related parties	3,008,426	1,243,556	—	—
Third parties	59,682	43,107	43,647	59,187
Prepayments:	1,393,316	1,788,276	2,547,833	2,364,294
Related parties	1,013,559	653,586	1,170,403	1,114,621
Third parties	379,757	1,134,690	1,377,430	1,249,673
	4,490,087	3,107,299	2,595,899	2,429,835

We set out below the ageing analysis of our trade receivables at the balance sheet dates:

	As at 31 December			As at
	2006	2007	2008	30 April
	RMB'000	RMB'000	RMB'000	RMB'000
Not yet due.....	1,557	5,787	300	1,800
Within 6 months	23,744	13,150	250	2,588
Between 7 and 12 months	—	859	—	10
Between 13 months and 3 years	3,362	12,564	3,869	1,956
Total	28,663	32,360	4,419	6,354

We had trade, other receivables and prepayments of RMB4,490.1 million, RMB3,107.3 million, RMB2,595.9 million and RMB2,429.8 million as at 31 December 2006, 2007, 2008 and 30 April 2009, respectively.

FINANCIAL INFORMATION

Trade receivables primarily consist of the amount of sales proceeds due to us where the purchaser has initially deposited a down payment but has not yet remitted the balance under the sales contract. Trade receivables were RMB28.7 million, RMB32.4 million, RMB4.4 million and RMB6.4 million as at 31 December 2006, 2007, 2008 and 30 April 2009, respectively. Out of the RMB6.4 million trade receivables balance as at 30 April 2009, RMB1.8 million had been settled as of 30 June 2009. As at 31 December 2008, our trade receivables decreased by 86.3% primarily because trade receivables in 2007 from Shanghai Park Avenue, No. 1 City Promotion and Sunshine Holiday were settled in early 2008. As at 31 December 2007, our trade receivables increased by 12.9% as a result of the increase in sales towards the end of 2007. Our trade receivables aged over 12 months were mainly residual balances owed to us by government bodies from the purchase of our properties. Our Directors are of the view that such amount is recoverable given the financial strength of these debtors.

Other receivables were RMB3,068.1 million, RMB1,286.7 million, RMB43.6 million and RMB59.2 million as at 31 December 2006, 2007, 2008 and 30 April 2009, respectively. Other receivables from related parties primarily comprised of non-trade balances and other advances due from Shanghai Ditong, our Founder, companies controlled by our Founder and his family members. As of 31 December 2008, all such other receivables from related parties had been fully settled. Our other receivables from independent third parties primarily comprised of other advances, government grants receivable and temporary prepayments for land acquisition before the formal land acquisition agreements are signed. Other advances represented monies lent to related parties and independent third parties, certain of which were interest bearing. Commerce and Finance Law Offices, our PRC counsel, has advised us that such lending activity did not comply with the General Principles of Lending Activities (貸款通則) issued by the People’s Bank of China, which generally prohibit direct loans between companies. The penalty imposed for such lending activities is a fine equal to one to five times the interest collected on such loans, payable by the lenders. Pursuant to the relevant loan agreements, the interest we could have collected amounted to RMB2.9 million, RMB11.4 million and RMB0.6 million for the three years ended 31 December 2008. We confirm that we have never collected any interest from those third parties and related parties during the Track Record Period and we did not recognise the income on these loans in our consolidated income statements during the Track Record Period. Therefore, Commerce and Finance Law Offices is of the opinion that there should be no penalty under PRC laws and regulations imposed on us arising from these events. In April 2008, we terminated the loan agreements and permanently waived the related interest income. As at the date of this document, all of such interest-bearing advances have been fully settled. Our other receivables in 2008 decreased by 96.6% primarily due to the settlement of other receivables due from related parties. Our other receivables in 2007 decreased by 58.1% primarily due to partial settlement of receivables due from Shanghai Ditong, our Founder, companies controlled by close family members of and an associated company of our Founder in 2007.

FINANCIAL INFORMATION

Prepayments

We set out below the breakdown of our prepayments:

	As at 31 December			As at 30 April
	2006	2007	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000
- Shanghai Ditong	988,709	643,863	1,165,395	1,107,529
- Land cost	305,300	931,599	1,038,977	913,917
- Prepaid business tax and surcharges	46,417	138,881	206,975	212,363
- Others	52,890	73,933	136,486	130,485
Total	<u>1,393,316</u>	<u>1,788,276</u>	<u>2,547,833</u>	<u>2,364,294</u>

Our prepayments were RMB1,393.3 million, RMB1,788.3 million, RMB2,547.8 million and RMB2,364.3 million as at 31 December 2006, 2007, 2008 and 30 April 2009, respectively. Prepayments mainly represent construction costs pre-paid to Shanghai Ditong, prepayment of land related costs, and prepayment of business tax and surcharges. Our prepayments as at 30 April 2009 decreased by 7.2% compared to RMB2,547.8 million as at 31 December 2008, primarily due to a refund of a RMB120 million deposit. The refund was due to our return of a certain piece of land in Harbin as a result of our intention to manage and apply the Company's working capital in a more prudent and cost-conscious manner in light of the financial crisis and credit crunch, both globally and in the PRC. Therefore, the Company returned a certain piece of land in Harbin and received a full refund of the RMB120 million deposit without any penalty. Our prepayments as at 31 December 2008 increased by 42.5% compared to RMB1,788.3 million as at 31 December 2007, primarily due to the increase in prepaid business tax and surcharges and the increase in prepayments to Shanghai Ditong as a result of an increase in the number of projects under construction and development. Our prepayments as at 31 December 2007 increased by 28.3% compared to RMB1,393.3 million as at 31 December 2006, primarily due to an increase in prepaid land costs and business tax and surcharges but was partially offset by the decrease in prepayments to Shanghai Ditong.

FINANCIAL INFORMATION

Trade and other payables

We set out below the breakdown of our trade and other payables:

	31 December			30 April
	2006	2007	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000
Trade payables:	973,053	646,661	742,094	510,642
Related parties	524,923	479,233	523,513	274,025
Third parties	448,130	167,428	218,581	236,617
Other payables:	2,208,983	769,488	379,040	450,019
Related parties	1,829,757	389,893	4,500	—
Third parties	379,226	379,595	374,540	450,019
Other taxes payable	33,621	22,512	64,101	64,404
	<u>3,215,657</u>	<u>1,438,661</u>	<u>1,185,235</u>	<u>1,025,065</u>

We set out below the ageing analysis of our trade payables as of the balance sheet dates:

	As at 31 December			As at 30 April
	2006	2007	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000
Within 6 months	734,181	508,757	586,932	443,320
Between 7 and 12 months	1,024	1,794	87,499	15,858
Between 13 months and 5 years	237,848	136,110	67,663	51,464
Total	<u>973,053</u>	<u>646,661</u>	<u>742,094</u>	<u>510,642</u>

Our Directors believe that it is in line with the industry norm to have trade payables aged more than 12 months, as the balance of trade payables will be settled after the completion of the construction work, which may occur more than a year after the trade payables are incurred. We had trade payables of RMB973.1 million, RMB646.7 million, RMB742.1 million and RMB510.6 million as at 31 December 2006, 2007, 2008 and 30 April 2009, respectively. Out of the balance of RMB510.6 million of trade payables as at 30 April 2009, RMB219.2 million had been settled as of 30 June 2009.

Our trade payables primarily consist of construction costs payable to Shanghai Ditong and other suppliers. Our trade payables as at 30 April 2009 decreased by 31.2% compared to 2008 primarily due to the partial settlement of construction costs due to Shanghai Ditong. Our trade payables in 2008 increased by 14.8% compared to 2007 primarily due to our increased number of projects under construction and development including Sunshine Venice (Phase IIIB), Shanghai Bay (Phase I), Sunny Town (Phase III) and Sunshine Bordeaux (Phase I). Our trade payables in 2007 decreased by 33.5% compared to 2006 primarily due to the settlement of unpaid land premiums for two projects, namely Shanghai Park Avenue and Sunshine Venice, which were brought forward.

FINANCIAL INFORMATION

Other payables were RMB2,209.0 million, RMB769.5 million, RMB379.0 million and RMB450.0 million as of 31 December 2006, 2007, 2008 and 30 April 2009, respectively. Other payables primarily arose from (i) advances made by Shanghai Ditong, related parties and independent third parties and (ii) advances received from certain government bodies for the purchase of our properties. Advances made by Shanghai Ditong, related parties and independent third parties to us were made for our working capital purposes and some were interest-bearing. We have been advised by our PRC counsel, Commerce and Finance Law Offices, that the interest-bearing portion of loans advanced from the other parties to our Company did not comply with the General Principles of Lending Activities. The parties who provided such loans may be subject to a fine equal to one to five times of the interest collected on the loans. Our Company, as the borrower, however, will not be subject to any penalty under the PRC laws and regulations. Our other payables as at 30 April 2009 increased by 18.7% compared to 31 December 2008 primarily due to the net increase in advances from third parties. Our other payables as at 31 December 2008 decreased by 50.7% compared to 31 December 2007 primarily due to the settlement of other payables due to related parties. Our other payables in 2007 decreased by 65.2% primarily due to repayments to Shanghai Ditong and a related party.

Other taxes payable primarily consist of business taxes payable, deed taxes, urban land-use taxes and stamp duties. We expect to remit such amounts towards the end of 2009.

LIQUIDITY AND CAPITAL RESOURCES

We have funded our projects principally from proceeds from pre-sales of properties, bank loans, shareholders contributions, the Financing and the Shanghai Bay Arrangement. For the three years ended 31 December 2006, 2007, 2008 and the four months ended 30 April 2009, we maintained a current ratio (calculated as the total current assets divided by the total current liabilities) at 1.75, 1.18, 1.01 and 1.00, respectively. The decrease of the current ratio in 2008 was mainly due to the increase in current liabilities from RMB10,746.5 million to RMB11,529.3 million as a result of accrued interest on the Notes, which in turn increased the total balance of our borrowings. The decrease of the current ratio in 2007 was mainly due to the increase of our current liabilities from RMB5,564.5 million in 2006 to RMB10,746.5 million in 2007, primarily because of the issuance of the Notes and an increase in advanced proceeds received from our customers in relation to pre-sales.

FINANCIAL INFORMATION

The following table presents selected cash flow data from our consolidated statements of cash flows for the periods indicated:

	Year ended 31 December			Four months ended 30 April	
	2006	2007	2008	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
				(unaudited)	
Net cash (used in)/generated from operating activities	(2,209,647)	1,960,823	(2,726,410)	(2,432,175)	351,170
Net cash (used in)/generated from investing activities	(957,459)	1,769,325	783,437	615,631	(39,989)
Net cash generated from/(used in) financing activities	3,109,702	(606,515)	(935,672)	(692,377)	(280,849)
Net (decrease)/increase in cash and cash equivalents	<u>(57,404)</u>	<u>3,123,633</u>	<u>(2,878,645)</u>	<u>(2,508,921)</u>	<u>30,332</u>
Cash and cash equivalents	<u>112,187</u>	<u>3,199,105</u>	<u>297,221</u>	<u>671,723</u>	<u>327,524</u>

Cash flow from operating activities

We derive our cash flow from operations principally from the pre-sale and sale of properties. Our cash outflow from operations is principally for investments in property under development. We are subject to certain restrictions on how we use pre-sale proceeds as described in the section headed “Summary of PRC Laws Relating to the Property Sector — Property Transactions — Sale of Commodity Properties” in Appendix VII to this document.

In the four months ended 30 April 2009, we had a net cash inflow from operating activities of RMB351.2 million, compared to a net cash outflow of RMB2,432.2 million in the same period in 2008. This net cash inflow primarily consisted of net cash inflow from operations before changes in working capital of RMB340.6 million and cash inflows from changes in operating assets and liabilities of RMB73.2 million, offset by income tax payments of RMB15.9 million and interest payments of RMB46.8 million. Our cash inflows from changes in operating assets and liabilities were primarily due to a decrease of RMB168.1 million in trade and other receivables and prepayments and a decrease of RMB91.5 million in properties under development and completed properties held for sale, partially offset by a decrease in trade and other payables of RMB182.7 million.

In 2008, we had a net cash outflow from operating activities of RMB2,726.4 million, consisting of cash outflows from changes in operating assets and liabilities of RMB3,180.3 million, an income tax payment of RMB271.3 million and interest payments of RMB590.7 million, offset by cash inflow from operations before changes in working capital of RMB1,316.0 million. Our cash outflows from changes in operating assets and liabilities were due primarily to an increase in properties under development and completed properties held for sale of RMB1,643.3 million and increase in trade and other receivables and other prepayments of RMB999.0 million, partially offset by an increase in trade and other payables of RMB198.6 million.

FINANCIAL INFORMATION

In 2007, we had a net cash inflow from operating activities of RMB1,960.8 million, consisting of net cash inflow from operations before changes in working capital of RMB458.9 million and cash inflows from changes in operating assets and liabilities of RMB1,928.7 million, offset by income tax payments of RMB84.6 million and interest payments of RMB342.1 million. Our cash inflows from changes in operating assets and liabilities were primarily due to additional advanced proceeds received from customers of RMB3,420.7 million, partially offset by a decrease in trade and other payables of RMB314.6 million and an increase in trade and other receivables and prepayments of RMB380.8 million. Our net cash inflow from operating activities in 2007 improved significantly from 2006 primarily due to the increase in advanced proceeds received from customers, from an outflow of RMB643.9 million in 2006 to an inflow of RMB3,420.7 million in 2007.

In 2006, we had a net cash outflow from operating activities of RMB2,209.6 million, consisting of cash outflows from changes in operating assets and liabilities of RMB2,412.7 million, an income tax payment of RMB40.9 million and interest payments of RMB251.7 million, offset by cash inflow from operations before changes in working capital of RMB495.7 million. Our cash outflows from changes in operating assets and liabilities were primarily due to an increase in properties under development and completed properties held for sale of RMB1,248.2 million and increase in trade and other receivables and other prepayments of RMB713.0 million, partially offset by an increase in trade and other payables of RMB222.1 million.

Cash flow from investing activities

Our investing activities mainly comprise advances, including advances to independent third parties as well as to related parties, acquisitions of subsidiaries and purchases of property and equipment.

In the four months ended 30 April 2009, we had a net cash outflow from investing activities of RMB40.0 million, compared to a net cash inflow of RMB615.6 million from investing activities in the same period in 2008. This net cash outflow in the four months ended 30 April 2009 primarily comprised purchases of property and equipment of RMB32.4 million and cash outflow in the construction of investment properties of RMB4.0 million.

In 2008, we had a net cash inflow from investing activities of RMB783.4 million, which primarily comprised settlement of advances to related parties and third parties of RMB791.4 million and interest income of RMB7.9 million, partially offset by purchases of property and equipment of RMB16.9 million.

In 2007, we had a net cash inflow from investing activities of RMB1,769.3 million, which primarily comprised net advances from related parties and third parties of RMB1,763.6 million and interest income of RMB6.7 million, partially offset by purchases of property and equipment of RMB5.1 million.

In 2006, we had a net cash outflow from investing activities of RMB957.5 million. This net outflow primarily consisted of net advances to related parties and third parties of RMB957.9 million and outflow incurred by the purchase of property and equipment of RMB4.9 million, partially offset by interest income of RMB3.5 million.

FINANCIAL INFORMATION

Cash flow from financing activities

Our financing activities consist primarily of deemed distributions to our equity owners, bank borrowings, Notes borrowings, and capital contributions by our subsidiaries’ then shareholders prior to the acquisitions by us.

In the four months ended 30 April 2009, we had a net cash outflow from financing activities of RMB280.8 million, compared to a net cash outflow of RMB692.4 million in the same period in 2008. This outflow primarily consisted of repayment of bank loans of RMB415.4 million, partially offset by the inflow of new bank loans of RMB120 million.

In 2008, we had a net cash outflow from financing activities of RMB935.7 million. This outflow primarily comprised repayment of bank loans of RMB1,062.6 million and repayment of advances from related parties and third parties of RMB362.1 million, partially offset by the inflow of new bank loans of RMB489.0 million.

In 2007, we had a net cash outflow from financing activities of RMB606.5 million. This outflow primarily comprised repayment of and proceeds from advances from related parties and third parties of RMB1,475.4 million, payments of RMB2,333.7 million made to our Founder for the acquisition of regional and project companies pursuant to the Reorganisation and a net decrease in borrowings of RMB640.2 million, partially offset by our Financing of RMB3,717.4 million. The payments of RMB2,333.7 million made to our Founder for the acquisition of regional and project companies were determined with reference to valuations of these companies as at 31 May 2007 prepared by an independent valuer.

In 2006, we had a net cash inflow from financing activities of RMB3,109.7 million. This inflow primarily comprised a net increase in bank borrowings of RMB1,641.9 million, advances and repayments from related parties and third parties of RMB787.8 million, as well as capital contributions by our subsidiaries’ then shareholders prior to the acquisitions by us of RMB680.0 million.

Net current assets position

Our net current assets as at 31 July 2009 were RMB2,037.9 million, comprising current assets of RMB14,414.7 million and current liabilities of RMB12,376.8 million. As of the same date, our current assets consisted of properties under development of RMB9,110.6 million, completed properties held for sale of RMB856.8 million, inventories of RMB10.6 million, trade and other receivables and prepayments of RMB3,675.1 million, prepaid taxes of RMB94.7 million, restricted cash of RMB77.0 million and cash and cash equivalents of RMB589.9 million. As at 31 July 2009, our current liabilities consisted of advanced proceeds received from customers of RMB4,823.2 million, trade and other payables of RMB1,150.4 million, income tax payable of RMB864.5 million and borrowings of RMB5,538.7 million.

FINANCIAL INFORMATION

Restricted cash

Restricted cash represents guaranteed deposits for the mortgage loan facilities granted by the banks to the purchasers of our Group's properties. Such cash is restricted from being used or transferred before the repayment of the respective bank loans. As at 31 December 2006, 2007, 2008 and 30 April 2009 and 31 July 2009, the outstanding amount of restricted cash deposited was RMB97.6 million, RMB66.7 million, RMB84.5 million, RMB96.4 million and RMB77.0 million, respectively.

Working capital

As at 31 December 2006, 2007, 2008, and 30 April 2009 and 31 July 2009, our cash and cash equivalents (excluding restricted cash) amounted to RMB112.2 million, RMB3,199.1 million, RMB297.2 million, RMB327.5 million and RMB590.0 million, respectively.

Taking into account, among others, available banking facilities and cash flow from our operations, our Directors are of the opinion that we have sufficient working capital for our present requirements, that is for the next 12 months from the date of this document.

Related party transactions

With respect to our related party transactions, as set out in Note 33 of the Accountant's Report in Appendix I to this document, our Directors confirm that these transactions were conducted on normal commercial terms and/or on terms that are not less favourable than terms available from independent third parties which are considered fair and reasonable and in the interest of our Shareholders as a whole. All non-trade balances with related parties have been fully settled up to the date of this document and will be discontinued.

Capital expenditures

For the three years ended 31 December 2006, 2007 and 2008 and the four months ended 30 April 2009, we incurred capital expenditures in the amounts of RMB4.9 million, RMB5.1 million, RMB16.9 million and RMB36.5 million, respectively.

Contractual commitment

We were contractually committed to spend RMB6,439.4 million as at 31 December 2006, RMB6,907.0 million as at 31 December 2007, RMB8,004.7 million as at 31 December 2008, and RMB7,440.1 million as at 30 April 2009 on expenditures required for our property developments, primarily consisting of land costs and costs of construction materials.

FINANCIAL INFORMATION

The following table sets forth our contractual commitments as of the dates indicated:

	As of 31 December			As at 30 April
	2006	2007	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000
Land use rights.....	532,522	1,237,070	2,911,901	2,286,901
Property development expenditures.....	5,906,903	5,669,911	5,092,779	5,153,218
Total.....	6,439,425	6,906,981	8,004,680	7,440,119

The Company expects to settle the outstanding balance of contractual commitments as at 30 April 2009, using a combination of, among others, bank loans and cash flow from operating activities.

Operating Lease

The following table summarises our operating lease commitments as of the following dates:

	As at 31 December			As at 30 April
	2006	2007	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000
Not later than one year	3,671	12,338	20,845	20,818
Later than one year and not later than five years ..	8,518	27,102	32,676	29,223
Later than five years	49,527	49,146	48,607	49,174
Total	61,716	88,586	102,128	99,215

The majority of our operating lease commitments that are for more than five years represent our commitment under lease agreements with independent third parties for office areas in Beijing and Shenzhen, which we use as office buildings for the Company and for subleasing. The lease agreement for the office building in Beijing has a term of 40 years. The lease for the office space in Shenzhen will expire in 2012 for one of the two floors and 2013 for the other.

INDEBTEDNESS AND CONTINGENT LIABILITY STATEMENTS

As at 31 July 2009, being the latest practicable date for the purpose of our indebtedness statement, we had total banking facilities of RMB7,715.3 million, consisting of used banking facilities of RMB3,285.3 million and unused banking facilities of RMB4,430 million.

FINANCIAL INFORMATION

Borrowings

Our borrowings as at 31 December 2006, 2007, 2008, 30 April 2009 and 31 July 2009 were as follows:

<u>Group</u>	As at 31 December			As at 30 April	As at 31 July
	2006	2007	2008	2009	2009

Bank borrowings	7.07%	8.60%	6.33%	6.05%	5.98%
Borrowings from a related party	N/A	0%	N/A	N/A	N/A
Notes borrowing	N/A	42.01%	24.30%	24.30%	24.30%

FINANCIAL INFORMATION

The carrying amounts of all our borrowings during the three years ended 31 December 2008 were denominated in Renminbi. The Promissory Notes and Convertible Notes issued in 2009 are denominated in US dollars.

Our gearing ratio, calculated as our total borrowings divided by total assets, as at 31 December 2006, 2007, 2008 and 30 April 2009 and 31 July 2009 was 39.0%, 53.9%, 49.2%, 46.3% and 47.4%, respectively. The increase in 2007 was mainly due to the issuance of the Notes with an aggregate principal amount of RMB equivalent of USD500 million on 2 November 2007 and on 17 December 2007.

Banks Borrowings

Our bank borrowings of RMB3,841.9 million, RMB2,521.7 million, RMB2,167.1 million, RMB1,871.8 million and RMB3,214.3 million as at 31 December 2006, 2007, 2008, and 30 April 2009 and 31 July 2009, respectively, were secured by certain properties under development and completed properties held for sale.

Financing

In November and December 2007, we issued promissory notes to the Original Investors in a total aggregate principal amount of approximately RMB3,717.4 million (the “Original Notes”) and received US\$495.7 million in proceeds therefrom. Interest accrued on the Original Notes at the rate of 10% per annum and was payable semi annually on 2 May and 2 November of each year. The entire principal amount of the Original Notes was payable on 2 November 2009. In connection with the subscription of the Original Notes, the Original Investors and their affiliates also received from one of our Controlling Shareholders a total of 700,000 Shares for no additional monetary consideration. We made interest payments of RMB158.8 million and RMB186.9 million on the Original Notes on 2 May 2008 and 2 November 2008, respectively. We did not make interest payments on the Original Notes on 2 May 2009 as we were negotiating to restructure them. On 31 July 2009, a Deed of Amendment was executed amending and restructuring the Original Notes and the following actions were taken on 17 August 2009 pursuant to such Deed of Amendment: (a) the denomination of the Original Notes was changed from RMB to US\$; (b) we paid interest that was due and outstanding on the Original Notes (as converted into US\$) in cash in the aggregate amount of approximately US\$27.2 million; (c) we redeemed an aggregate principal amount of US\$192.8 million of the Original Notes (as converted into US\$); and (d) the remaining US\$490 million of the Original Notes were replaced by the following two tranches of notes: (i) US\$325 million of Promissory Notes with a tenor of 18 months and a final maturity date of 31 December 2010; and (ii) US\$165 million of Convertible Notes with a tenor of two years and a final maturity date of 30 June 2011 but which are mandatorily convertible. See “History, Reorganisation and Group Structure — Financing — Restructuring of the Original Notes” for further details including further details of the terms of the Promissory Note and Convertible Notes.

FINANCIAL INFORMATION

Shanghai Bay Arrangements

In August 2009, pursuant to a series of related agreements (the “Shanghai Bay Arrangements”), we transferred our legal ownership interests in Blocks Nos. 2 and 8 of Shanghai Bay, with a total GFA of 56,305 sq. m., to an indirect wholly-owned subsidiary of Shanghai Industrial Holdings Limited, a company listed on the Hong Kong Stock Exchange (together with its subsidiaries, “Shanghai Industrial Group”). In return, we received a payment of approximately US\$190.2 million (equivalent to RMB1.3 billion) which we used to partially redeem the Original Notes.

Shanghai Industrial Group is obligated to make a second payment to us in an amount equal to the US\$ equivalent of RMB0.7 billion when we transfer our legal interests in additional Blocks Nos. 9 and 10 of Shanghai Bay with a total GFA of 51,171 sq. m. to Shanghai Industrial Group. We intend to use approximately US\$28 million of such funds to repay the amount outstanding under the bridge loan, the details of which are set out in “History, Reorganisation and Group Structure — Financing”. We will deposit the balance of approximately US\$74 million into an account of Bright New that has been pledged as collateral for the Financing and may only be used for operating expenses and permitted uses until such financing is repaid.

Under the Shanghai Bay Arrangements, we have the right and obligation to reacquire the Projects and Shanghai Industrial Group has the right and obligation to resell such Projects to us on 1 December 2011. Assuming we have transferred Blocks Nos. 9 and 10, the consideration for the reacquisition of all of the transferred blocks of the Projects will be RMB2 billion. If the transfer of Blocks Nos. 9 and 10 does not take place, the consideration for the reacquisition of Blocks Nos. 2 and 8 will be RMB1.3 billion. As part of such arrangements, we have also agreed to ensure that Shanghai Industrial Group receives a “shareholder return” (net of tax) for each of the three years ending 31 December 2011, equal to 18% per annum of the consideration paid by Shanghai Industrial Group. The commercial intention for entering into the Shanghai Bay Arrangements was to enable us to obtain financing from, and grant collateral for such financing to, Shanghai Industrial Group in order to refinance a portion of the Financing as a part of the Note restructuring. See “Business — Shanghai Bay Financing Arrangements with the Shanghai Industrial Group”.

Bridge Loan

On 17 August 2009, we obtained a bridge loan of US\$28 million from Yes Plus Limited, an independent third party, to fund a portion of the partial redemption of the Original Notes. The loan bears interest of 10% per annum, and is guaranteed by the Founder. The Founder’s guarantee shall be released and discharged. According to the loan agreement, we are required to repay the bridge loan on the earlier of (a) the date on which we receive the US\$ equivalent of RMB0.7 billion for our transfer of Blocks Nos. 9 and 10 of Shanghai Bay to the Shanghai Industrial Group pursuant to the Shanghai Bay Arrangements, and (b) the date of redemption or repayment of the Notes. The bridge loan is subordinated to the Notes. We expect that we may repay the bridge loan on the date that we receive the US\$ equivalent of RMB0.7 billion for the transfer of Blocks Nos. 9 and 10 of Shanghai Bay to the Shanghai Industrial Group.

FINANCIAL INFORMATION

Guarantees

We have arranged bank financing for certain purchasers of our property units and provided guarantees to secure the obligations of such purchasers for repayments. Such guarantees terminate upon the earlier of: (i) issuance of the real estate ownership certificate which will generally be available within an average period of one to two years upon the completion of guarantee registration; or (ii) the satisfaction of the mortgage loan by the purchasers of our properties.

Pursuant to the terms of the guarantees, upon any default in mortgage payments by these purchasers, we are responsible to repay the outstanding mortgage principal together with accrued interest and penalty owed by the defaulted purchasers to the banks and we are entitled to take over the legal title and possession of the related properties. Our guarantee period starts from the date of the grant of the respective mortgage.

As at 31 December 2006, 2007, 2008, and 30 April 2009 and 31 July 2009, the amount of outstanding guarantees for mortgages were approximately RMB528.6 million, RMB1,860.8 million, RMB2,662.1 million, RMB3,112.4 million and RMB3,555.7 million, respectively.

As at 31 December 2007, completed properties held for sale with carrying values of approximately RMB118.2 million were pledged as collateral for certain borrowings of three related companies. As at 31 December 2008, such pledge has been fully released. No completed properties held for sale were pledged as collateral for borrowings of other companies as at 31 December 2006, 31 December 2008, 30 April 2009 and 31 July 2009.

Financial instruments

As at the Latest Practicable Date, we have not entered into any financial instruments for hedging purposes.

Off-balance sheet commitments and arrangements

As at the Latest Practicable Date, we had not entered into any material off-balance sheet transactions or arrangements.

Disclaimer

Save as disclosed above, as at 31 July 2009, we did not have any outstanding loan capital issued or agreed to be issued, bank overdrafts, loans, debt securities, borrowings or other similar indebtedness, liabilities under acceptance (other than normal trade bills) or acceptance credits, debentures, mortgages, charges, finance leases, hire purchase commitments, guarantees or other material contingent liabilities.

Our Directors confirm that there has not been any material change in the indebtedness position or the contingent liabilities of the Group since 31 July 2009.

FINANCIAL INFORMATION

PROPERTY INTERESTS

The value of our property interests as of 31 July 2009 as valued by Jones Lang LaSalle Sallmanns Limited, an independent property valuer of our Company, was RMB30,837 million. There was a net revaluation surplus, representing the excess market value of the properties over their book value as of 30 April 2009 (after adjusting for properties acquired or sold during the period from 1 May 2009 to 31 July 2009). Further details of our property interests and the text of the letter and valuation certificates of these property interests prepared by Jones Lang LaSalle Sallmanns Limited are set out in Appendix IV to this document.

Disclosure of the reconciliation of the valuation of the interests in properties attributable to us and such property interests in our consolidated balance sheets as of 30 April 2009 as required under Rule 5.07 of Listing Rules is set forth below:

	RMB in millions
Net book value as of 30 April 2009	
Buildings under construction included in property and equipment ⁽¹⁾	395
Properties under development	7,483
Completed properties held for sale.....	1,074
Investment properties.....	2,145
	11,097
Movement for the period from 1 May 2009 to 31 July 2009 ⁽²⁾	1,461
Net book value as of 31 July 2009	12,558
Valuation surplus	18,279
Valuation as of 31 July 2009	30,837

(1) Among the property and equipment amounting to an aggregate of approximately RMB422 million as of 30 April 2009, only the buildings under construction amounting to approximately RMB395 million were included in the valuation in Appendix IV.

(2) Movement for the period from 1 May 2009 to 31 July 2009 mainly represented RMB530 million of new purchases of properties and land use rights, RMB931 million of costs incurred for construction of properties under development and investment properties, offset by sales of properties, depreciation and amortisation.

MARKET RISKS

Interest rate risk

We are exposed to interest rate risks resulting from fluctuations in interest rates on our debts. Most of our bank loans bear interest rates that are subject to adjustment by our lenders in accordance with changes made by the PBOC. If the PBOC raises interest rates, our interest cost with respect to variable rate borrowings will increase. In addition, to the extent that we may need to raise debt financing in the future, upward fluctuations in interest rates will increase the cost of new debt. An increase in interest rates may also adversely affect our prospective purchasers’ ability to obtain

FINANCIAL INFORMATION

financing and depress overall housing demand in China. We currently do not use and we do not expect to use any derivative instruments to modify the nature of our debt so as to manage our interest rate risks. Please also see the section headed “Risk Factors — Risk Relating to Our Business — Our business may be adversely affected by future increases in interest rates” of this document.

Commodities risk

While we are exposed to the increase in prices of raw materials for our property developments, primarily steel and cement, such exposure is mitigated by our contracting arrangements with Shanghai Ditong, and Shanghai Ditong’s sub-contracting activities. Our purchase costs of steel and cement are generally accounted for as part of our contractor fees paid to Shanghai Ditong. Our contractors generally procure basic building materials such as cement and steel. However, we are still exposed to the risks of the increase in the costs of raw materials over time as rising prices for construction materials affect our construction costs in the form of increased fees payable to our contractors. We currently do not and do not expect to engage in commodities hedging activities.

Inflation

According to National Bureau of Statistics of China, China’s overall national inflation rate, as represented by changes in the general consumer price index, was approximately 1.5%, 4.8% and 5.9% for the years ended 31 December 2006, 2007 and 2008, respectively. The inflation rate in China has been subject to an upward trend since 2007. Inflation has not had a significant effect on our business during the Track Record Period. However, there can be no assurance as to the impact of a sustained increase in inflation on our business, financial condition, results of operations or prospects.

Foreign exchange risk

We conduct our operations in the PRC and most of our transactions, if not all, are settled in RMB. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and net investments in our foreign operations. In addition, the conversion of RMB into foreign currencies is subject to the rules and regulations of foreign exchange control promulgated by the PRC Government. We do not have a foreign currency hedging policy. However, our Directors monitor our foreign exchange exposure closely and may, depending on the circumstances and trends of foreign currency, consider adopting significant foreign currency hedging policy in the future.

Credit risk

Credit risk is managed on a Group basis. Our Group’s credit risk arises from cash deposits, and trade and other receivables. Our management has policies to continuously monitor our exposures to these credit risks. Our Group has policies to ensure that sales are made to customers with an appropriate credit history and deposits are placed with banks with appropriate credit ratings. The Group has arranged bank financing for certain purchasers of property units and provided guarantees to secure obligations of such purchasers for repayments. Detailed disclosure regarding these guarantees can be found in Note 34 to the Accountant’s Report in Appendix I to this document. Our management makes periodic collective assessments as well as individual assessments on the

FINANCIAL INFORMATION

recoverability of trade and other receivables based on historical payment records, the length of the overdue period, the financial strength of the debtors and whether there are any disputes with the debtors. Our Directors believe that our Group does not have a significant concentration of credit risk.

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash from operating activities and the availability of funding through an adequate amount of committed credit facilities. Aside from certain amounts of discretionary cash available, we maintain flexibility in funding by keeping committed credit lines available. We regularly prepare financial plans and submit such plans to our banks, which usually grant us credit lines for such financial plans.

DISCLOSURE REQUIRED UNDER CHAPTER 13 OF THE LISTING RULES

Our Directors have confirmed that, as of the Latest Practicable Date, there are no circumstances which would give rise to a disclosure requirement under Rule 13.13 to 13.19 of the Listing Rules.

DIVIDENDS AND DIVIDEND POLICY

Subject to the Companies Law, we, through a general meeting, may declare dividends in any currency but no dividend shall be declared in excess of the amount recommended by our Board. Our articles of association provide that dividends may be declared and paid out of our profit, realised or unrealised, or from any reserve set aside from profits which our Directors determine is no longer needed. With the sanction of an ordinary resolution, dividends may also be declared and paid out of a share premium account or any other fund or account which can be authorised for this purpose in accordance with the Companies Law.

Future dividend payments will also depend upon the availability of dividends received from our subsidiaries in the PRC. PRC laws require that dividends be paid only out of the net profit calculated according to PRC accounting principles, which differ in many aspects from the generally accepted accounting principles in other jurisdictions, including HKFRS. PRC laws also require foreign investment enterprises to set aside part of their net profit as statutory reserves, which are not available for distribution as cash dividends. Distributions from our subsidiaries in the PRC may also be restricted if they incur debts or losses or in accordance with any restrictive covenants in bank credit facilities, convertible bond instruments or other agreements that we or our subsidiaries in the PRC may enter into in the future.

The amount of dividends, if any, eventually declared and distributed to our Shareholders will also depend upon our general business conditions, financial performance, operating requirements, capital commitment and requirements, interests of our Shareholders, and other conditions that our Directors may deem relevant or appropriate.

FINANCIAL INFORMATION

DISTRIBUTABLE RESERVES

The Companies Law does not regulate the source of funds which we may use to declare and pay a dividend, whilst common law provides that dividends may be declared and paid out of profits. Furthermore, under the Companies Law, our share premium account is distributable to Shareholders if immediately following the date on which we propose to distribute the dividend, we will be in a position to pay our debts as they fall due in the ordinary course of business. As at 30 April 2009, we had reserve of RMB156.3 million that is available for distribution to our Shareholders.

PROFIT FORECAST FOR THE YEAR ENDING 31 DECEMBER 2009

Below we have provided a profit forecast solely in respect of our forecasted net profit for the year ending 31 December 2009. In order to provide you with greater transparency as to the basis of our profit forecast, we have disclosed in this section relevant information in respect of five of our major projects that will contribute more than 80% of our revenue for the year ending 31 December 2009. Such information is included in this document to assist the reader to better understand and assess the reasonableness of the assumptions on which our profit forecast is based.

Basis of preparation

The Directors have prepared the forecast of our Group’s consolidated net profit attributable to equity holders of our Company for the year ending 31 December 2009 based on the audited consolidated results of our Group for the year ended 31 December 2008 and the four months ended 30 April 2009, the unaudited management accounts for the two months ended 30 June 2009, and our forecast of the consolidated results of our Group for the remaining six months of the year ending 31 December 2009. The forecast for the year ending 31 December 2009 has been prepared on the basis of accounting policies consistent with those adopted for the purpose of the Accountant’s Reports in Appendix I to this document and the assumptions set forth below.

Principal assumptions for the profit forecast

The principal assumptions adopted by the Directors of the Company in preparing the profit forecast are as follows:

- There will be no material changes in the existing governmental policies, political, legal, financial or economic conditions in China, Hong Kong or any other country or territory in which we currently operate or which are otherwise material to our revenues;
- With respect to the real estate industry in particular, the PRC Government will not impose material changes or additional austerity measures to dampen sales or prices of the PRC real estate market;
- There will be no changes in legislation, regulations or rules in China, Hong Kong or any other country or territory in which we operate or with which we have arrangements or agreements, which may materially adversely affect our business;

FINANCIAL INFORMATION

- There will be no material change in the bases or rates of taxation in the countries or territories in which we operate, except as otherwise disclosed in this document; and
- There will be no material change in interest rates or foreign currency exchange rates from those prevailing;
- Specific assumptions in respect of calculation of the capital value of the investment properties as at 31 December 2009:
 - (i) the current financial, economic and political conditions which prevail in the PRC and which are material to the rental income generated by the investment properties will remain unchanged;
 - (ii) the conditions in which the investment properties are being operated and which are material to revenue and costs of the properties will be unchanged;
 - (iii) the leases that expire will be renewed on normal commercial terms; and
 - (iv) investment properties which are under construction will be developed and completed in accordance with our latest development plan.

Such specific assumptions are consistent with those in the valuation undertaken by Jones Lang LaSalle Sallmanns Limited, our independent valuer in Appendix IV of the document.

Under HKFRS, changes in the fair value of investment properties will be reflected in our consolidated financial information, through our consolidated income statement. Changes in the fair value of our investment properties are accounted for as other gains/ losses, net in our consolidated income statement.

The investment properties were valued by our independent valuer as at 31 July 2009. The investment approach was adopted to assess the market value of the investment properties.

For investment properties under construction, the valuer has adopted the direct comparison approach by making reference to comparable sales evidence as available in the relevant market and has also taken into account the accrued construction cost and professional fees relevant to the stage of construction as at the date of valuation and the remainder of the cost and fees expected to be incurred for completing the development.

For completed investment properties, the valuer has adopted an income approach which takes into account the rental income of the properties derived from the existing leases or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have then been capitalised to determine the market value at an appropriate capitalisation rate. Where appropriate, reference has also been made to comparable sale transactions as available in the relevant market.

The Group arrived at the estimated fair value gain on investment properties based on (i) the market value of such investment properties as at 30 April 2009 valued by the independent valuer and

FINANCIAL INFORMATION

(ii) our estimated capital value as at 31 December 2009 based on the anticipated property-specific market trends of the properties carried out by the independent valuer. We expect the fair value of our investment properties as at 31 December 2009, and in turn any fair value changes, to continue to be dependent on market conditions and other factors that are beyond our control, and to be based on the market movement assumptions supplied by an independent professional valuer involving the use of assumptions that are, by their nature, subjective and uncertain.

In accordance with the Company’s accounting policies, properties designated as investment properties should be measured at their fair values and the changes in fair value are recognised in the consolidated income statements. The fair value gain or loss of investment properties is estimated based on certain property valuation techniques which involve, *inter alia*, certain estimates, including comparable sales in the relevant market, current market rental and the forecasted rental movement for similar properties in a similar location and condition. The Company forecasts that rents for the retail and office property markets in Shanghai for the year ending 31 December 2009 will increase between 0-5% and 0-4%, respectively.

Summary of the property development of major projects

The following table provides a summary of the property development projects up to 31 July 2009 that together are projected to contribute more than 80% of the revenue of the Company in 2009 (“Major Projects”):

Key projects/project phases to be delivered in 2009	Up to July 2009					Actual/Expected completion date
	Sales proceeds received	Pre-sales/sales GFA	2008 average selling price per sq.m. in respect of properties pre-sold/sold	First seven months of 2009 average selling price per sq.m. in respect of properties pre-sold/sold		
	(RMB million)	(sq.m.)				
Shanghai Bay, Shanghai (Phase I)	1,407	53,243	29,581	31,292	Nov-09	
Sunshine Venice, Shanghai (Phase IIIA) ..	4	560	8,478	9,173	Sep-06	
Sunshine Venice, Shanghai (Phase IIIB) ..	1,178	122,717	13,293	15,898	Nov-08/Aug-09	
Chateau De Paris, Shanghai (Phase II)	214	8,995	32,339	28,987	Aug-08	
Shanghai Park Avenue, Shanghai	523	28,011	27,790	7,037	Apr-07	
Sunshine Holiday, Tianjin (Phase II)	1	487	8,485	n/a	Sep-08	
Sunshine Holiday, Tianjin (Phase IIIA)	567	77,199	8,238	7,143	Oct-09	

FINANCIAL INFORMATION

As of 31 July 2009, the construction progress with respect to the major projects to be completed in 2009 is as follows (excluding those projects/phases that had been completed as at 31 July 2009):

Shanghai Bay Phase I: The project comprises four 31-32 storey blocks, two 28-storey blocks and one 24-storey block. We topped out the seven blocks between October and December 2007. In October 2007, we commenced working on interior and exterior decoration and installation of various equipment and facilities, which are expected to be completed by the end of November 2009.

Sunshine Venice Phase IIIB: The project comprises 28 blocks of buildings, from 3-storey townhouses to 25-storey residential buildings. Given the large scale nature of the project, we topped out each block at different dates, with the last block being topped out in May 2008. Work on interior and exterior decoration and installation of various equipment and facilities commenced in May 2008 and 8 blocks out of the 28 blocks had been completed by November 2008. We have obtained 13 blocks' certificate of completion and delivered such blocks to purchasers in the first half of 2009, an other 2 blocks are expected to be delivered in August 2009 and the remaining 5 blocks are expected to be delivered in the fourth quarter of 2009.

Sunshine Holiday Phase IIIA: The project comprises 8 blocks of 25-27 storey buildings and is expected to be completed by September 2009. Construction of the project commenced in September 2007. The 8 blocks were topped out between June and December 2008. Interior and exterior decoration and installation of various equipment and facilities for the 8 blocks were commenced in June 2008. We expect to obtain certificates of completion in October 2009.

Sensitivity analysis

(i) *Sensitivity analysis on targeted average selling price*

The following table illustrates the sensitivity of the net profit attributable to the equity holders of our Company to the targeted average selling price for the year ending 31 December 2009.

% change in targeted selling prices per sq.m.	-15%	-10%	-5%	+5%	+10%
Impact on the net profit attributable to equity holders of our Company targeted for the year 2009 (RMB'000)	(487,000)	(327,000)	(161,000)	157,000	312,000

If the targeted average selling prices for all projects rise by 10%, the Group's net profit for the year ending 31 December 2009 will be RMB2,308,000 thousand, i.e. 15.6% higher than the Group's targeted 2009 net profit.

If the targeted average selling prices for all projects rise by 5%, the Group's net profit for the year ending 31 December 2009 will be RMB2,153,000 thousand, i.e. 7.9% higher than the Group's targeted 2008 net profit.

FINANCIAL INFORMATION

If the targeted average selling prices for all projects decline by 5%, the Group's net profit for the year ending 31 December 2009 will be RMB1,835,000 thousand, i.e. 8.1% lower than the Group's targeted 2009 net profit.

If the targeted average selling prices for all projects decline by 10%, the Group's net profit for the year ending 31 December 2009 will be RMB1,669,000 thousand, i.e. 16.4% lower than the Group's targeted 2009 net profit.

If the targeted average selling prices for all projects decline by 15%, the Group's net profit for the year ending 31 December 2009 will be RMB1,509,000 thousand, i.e. 24.4% lower than the Group's targeted 2009 net profit.

As 88.4% of the forecasted revenue has been pre-sold, the change in average selling price should only apply to those yet to be sold and therefore the actual impact on the Group's net profit in 2009 should be significantly smaller.

(ii) *Sensitivity analysis on targeted GFA sold and delivered*

The following table illustrates the sensitivity of the net profit attributable to shareholders of our Company to the targeted GFA sold and delivered for the year ending 31 December 2009.

% change in targeted GFA sold and delivered.....	-15%	-10%	-5%
Impact on the net profit attributable to equity holders of our Company targeted for the year 2009 (RMB'000)	(266,000)	(177,000)	(89,000)

If the targeted GFA sold and delivered for all projects decline by 5%, the Group's net profit for the year ending 31 December 2009 will be RMB1,908,000 thousand, i.e. 4.5% lower than the Group's targeted 2009 net profit.

If the targeted GFA sold and delivered for all projects decline by 10%, the Group's net profit for the year ending 31 December 2009 will be RMB1,819,000 thousand, i.e. 8.9% lower than the Group's targeted 2009 net profit.

If the targeted GFA sold and delivered for all projects decline by 15%, the Group's net profit for the year ending 31 December 2009 will be RMB1,731,000 thousand, i.e. 13.3% lower than the Group's targeted 2009 net profit.

FINANCIAL INFORMATION

(iii) *Sensitivity analysis on fair value changes of investment properties*

The total forecasted amount of fair value gain on investment properties for the year ending 31 December 2009 is RMB800 million and its related deferred taxation expense is RMB200 million. The following table illustrates the sensitivity of the net profit attributable to the equity holders of the Company (net of deferred tax effect) to levels of revaluation increase/decrease on investment properties for the year ending 31 December 2009:

Changes in revaluation increase percentage on investment properties compared to our estimated revaluation increase percentage on investment properties	-15%	-10%	-5%	5%	10%	15%
Impact on the net profit attributable to equity holders of our Company targeted for the year 2009 (RMB'000)	(90,000)	(60,000)	(30,000)	30,000	60,000	90,000

If the estimated fair value of investment properties rises/declines by 5%, the Group's net profit for the year ending 31 December 2009 will be RMB2,026,000 thousand/ RMB1,966,000 thousand, respectively, i.e. 1.5% higher/lower, respectively, than the Group's targeted 2009 net profit.

If the estimated fair value of investment properties rises/declines by 10%, the Group's net profit for the year ending 31 December 2009 will be RMB2,056,000 thousand/ RMB1,936,000 thousand, respectively, i.e. 3.0% higher/lower, respectively, than the Group's targeted 2009 net profit.

If the estimated fair value of investment properties rises/declines by 15%, the Group's net profit for the year ending 31 December 2009 will be RMB2,086,000 thousand/ RMB1,906,000 thousand, respectively, i.e. 4.5% higher/lower, respectively, than the Group's targeted 2009 net profit.

The above illustrations are intended for reference only and any variation could exceed the ranges given. The above sensitivity analyses are not meant to be exhaustive. While we have considered for the purposes of the profit forecast what we believe is the best estimate of the targeted average selling price, GFA to be sold and delivered, and fair value changes of investment properties for the year ending 31 December 2009, the average selling price, GFA to be sold and delivered, and fair value changes of investment properties as at the relevant time may differ materially from our estimate and are dependent on market conditions and other factors which are beyond our control.

FINANCIAL INFORMATION

Profit forecast for the year ending 31 December 2009

Forecast consolidated net profit attributable to the Shareholders of our Company (net of fair value gains on investment properties (net of deferred tax effect))	Not less than RMB1,396.0 million
Forecast gross fair value gain on investment properties	RMB800.0 million
Less: Provision for deferred tax liabilities on fair value gain on investment properties	RMB(200.0 million)
Forecast fair value gain on investment properties (net of deferred tax)	RMB600.0 million
Forecast consolidated net profit attributable to the Shareholders of our Company	Not less than RMB1,996.0 million

NO MATERIAL ADVERSE CHANGE

Our Directors confirm that there has been no material adverse change in our financial or trading position or prospects of our Group since 30 April 2009.

FUTURE PLANS

FUTURE PLANS

We intend to continue to strengthen our market position in Shanghai, Tianjin and Beijing. By maintaining a strong presence in these key economic cities, we believe we can enhance our brand profile, increase our pricing power and margins. We will also continue expanding our business into other high growth cities and into the hotel, retail and office property sectors in China to diversify and enhance the stability of our future revenue streams. Our future plans are in line with our business model and long term strategies, details of which are set out in the section headed “Business — Strategies” in this document.

APPENDIX I

ACCOUNTANT’S REPORT

The following is the text of a report, prepared for the purpose of incorporation in this document, received from the Company’s reporting accountant, PricewaterhouseCoopers, Certified Public Accountants, Hong Kong.

羅兵咸永道會計師事務所

PricewaterhouseCoopers
22/F, Prince's Building
Central, Hong Kong

[●]

The Directors
Glorious Property Holdings Limited

[●]

Dear Sirs,

We set out below our report on the financial information (the “Financial Information”) of Glorious Property Holdings Limited (the “Company”) and its subsidiaries (together, the “Group”) set out in Section I to III below, for inclusion in [●]. The Financial Information comprises the consolidated balance sheets of the Group as at 31 December 2006, 2007, 2008 and 30 April 2009, the balance sheets of the Company as at 31 December 2007, 2008 and 30 April 2009, and the consolidated income statements, the consolidated statements of changes in equity and the consolidated statements of cash flows for each of the years ended 31 December 2006, 2007 and 2008 and the four months ended 30 April 2008 and 2009 (the “Relevant Periods”), and a summary of significant accounting policies and other explanatory notes.

The Company was incorporated in the Cayman Islands on 27 July 2007 as an exempted company with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. Pursuant to a group reorganisation as described in Note 1 of Section II headed “Reorganisation” below, which was completed in September 2007, the Company became the holding company of the subsidiaries comprising the Group (the “Reorganisation”).

As at the date of this report, the Company has direct and indirect interests in the subsidiaries as set out in Note 1 of Section II below. All of these companies are private companies.

APPENDIX I**ACCOUNTANT’S REPORT**

All companies comprising the Group have adopted 31 December as their financial year end date. Details of the financial statements of the companies comprising the Group that are subject to audit and the names of the respective auditors are set out in Note 1 of Section II below.

For the purpose of this report, the directors of the Company have prepared consolidated financial statements of the Company for the Relevant Periods, in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (the “Underlying Financial Statements”). We have audited the Underlying Financial Statements for each of the years ended 31 December 2006, 2007 and 2008 and the four months ended 30 April 2009 in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”).

The Financial Information has been prepared based on the Underlying Financial Statements with no adjustment made thereon.

Directors’ responsibility

The directors of the Company are responsible for the preparation and true and fair presentation of the Underlying Financial Statements in accordance with HKFRSs.

For the financial information for each of the years ended 31 December 2006, 2007 and 2008 and the four months ended 30 April 2009, the directors of the Company are responsible for the preparation and true and fair presentation of the financial information in accordance with HKFRSs. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and the true and fair presentation of the financial information that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

For the financial information for the four months ended 30 April 2008, the directors of the Company are responsible for the preparation and the presentation of the financial information in accordance with the accounting policies set out in Note 2 of Section II below which are in conformity with HKFRSs.

Reporting accountant’s responsibility

For the financial information for each of the years ended 31 December 2006, 2007 and 2008 and the four months ended 30 April 2009, our responsibility is to express an opinion on the financial information based on our examination and to report our opinion to you. We examined the Underlying Financial Statements used in preparing the financial information and carried out such additional procedures as we considered necessary in accordance with the Auditing Guideline 3.340 “Prospectuses and the Reporting Accountant” issued by HKICPA.

APPENDIX I**ACCOUNTANT’S REPORT**

For the financial information for the four months ended 30 April 2008, our responsibility is to express a conclusion on the financial information based on our review and to report our conclusion to you. We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of the financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Opinion and review conclusion

In our opinion, the financial information for each of the years ended 31 December 2006, 2007 and 2008 and the four months ended 30 April 2009, for the purpose of this report, gives a true and fair view of the state of affairs of the Company as at 31 December 2007 and 2008 and 30 April 2009 and of the state of affairs of the Group as at 31 December 2006, 2007 and 2008 and 30 April 2009 and of the Group’s results and cash flows for the respective years and period then ended.

Based on our review, which does not constitute an audit, nothing has come to our attention that causes us to believe that the financial information for the four months ended 30 April 2008, for the purpose of this report, is not prepared, in all material respects, in accordance with the accounting policies set out in Note 2 to Section II below which are in conformity with HKFRSs.

APPENDIX I

ACCOUNTANT’S REPORT

II NOTES TO THE CONSOLIDATED FINANCIAL INFORMATION

1 General Information and Group Reorganisation

(a) General information

Glorious Property Holdings Limited (the “Company”) was incorporated in the Cayman Islands on 27 July 2007 as an exempted company with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands and is the holding company of its subsidiaries (together, the “Group”). During the Relevant Periods, the subsidiaries of the Company were principally engaged in the development of real estate projects in the People’s Republic of China (the “PRC”).

(b) Reorganisation

Mr. Zhang Zhi Rong (hereinafter referred to as the “Founder”) established various companies in the PRC engaging in the property development business. As part of the Reorganisation, the Founder incorporated Best Era International Limited (“Best Era”), which then established Bright New Investments Limited (“Bright New”). Both Best Era and Bright New were incorporated in the British Virgin Islands (“BVI”). In May 2007, Bright New acquired from a company owned by the Founder five BVI companies namely Allied Honest Holdings Limited, East Harbour Development Limited, Vieward Group Limited, Regal World Development Limited and Grand Target Group Limited (collectively referred to as the “BVI Subsidiaries”). In 2006, the BVI Subsidiaries acquired five Hong Kong companies namely Rich Tech International Enterprise Limited, Extreme (Asia) Limited, Venture Hong Kong Group Limited, Worldex Investment Development Limited, and Cheston Holdings Limited (collectively referred to as the “HK Subsidiaries”) from a third party. In May 2007, the HK Subsidiaries acquired all the interest in the registered capital of nine wholly foreign owned enterprises (the “WFOEs”) from third parties. At the respective dates of acquisition, all these BVI Subsidiaries, HK Subsidiaries and WFOEs did not have business operations except for investment holding.

In June 2007, the WFOEs acquired the entire equity interest in four companies namely Shanghai Yijing Property Development Co., Ltd., Wuxi Wangjiarui Co., Ltd., Tianjin Yangguang Xindi Investment Co., Ltd. and Liaoning Yangguang Xindi Property Development Co., Ltd. (collectively referred to as the “Regional Companies”), all of which were incorporated in the PRC, from the Founder at an aggregate cash consideration of RMB1,289,020,000. During the period from May to June 2007, the Regional Companies acquired the entire or remaining equity interest of other nine PRC incorporated project companies (the “Project Companies”) at an aggregate cash consideration of RMB1,044,634,000 from the Founder. The considerations for the acquisitions of the Regional Companies and Project Companies were determined with reference to valuations of these companies as at 31 May 2007 prepared by an independent valuer and were settled in cash.

On 27 July 2007, the Company was incorporated by Best Era. On 17 September 2007, the Company acquired the entire share capital of Bright New from Best Era by issuing 900 shares of the Company’s ordinary shares.

Upon the completion of the Reorganisation, the Company became the holding company of the subsidiaries comprising the Group. Best Era also became the immediate and ultimate holding company of the Company.

During 2007, Best Era transferred 0.7% equity interest in the Company to the Investors in relation to the Notes borrowing as further mentioned in note 19(a). Immediately after such transfer, the Company is owned as to 99.3% by Best Era.

APPENDIX I

ACCOUNTANT’S REPORT

(c) Acquisitions

In 2009, the Group acquired the entire interest in Shanghai Mingbao Construction Co. Ltd. (“Shanghai Mingbao”) at cash consideration of RMB2,500,000, the purpose of which is to acquire the business licence held by Shanghai Mingbao. For details of this acquisition, please refer to note 36.

In 2008, the Group acquired the entire interests in two companies namely Nantong Rongsheng Building Real Estate Development Co., Ltd. (南通熔盛大廈房地產開發有限公司) (“Nantong Rongsheng”) and Tianjin Tianxingjian Real Estate Investment Co., Ltd. (天津天行建房地產投資有限公司) (“Tianjin Tianxingjian”) at cash considerations of RMB31,803,000, and RMB454,180,000 respectively, the purpose of which is to acquire the land use rights or property development projects owned by these companies. For details of these acquisitions, please refer to note 36.

In 2008, the Group also acquired 45% equity interest in Shanghai Chuangmeng International Architectural Design Co., Ltd. (上海創盟國際建築設計有限公司) (formerly known as Shanghai Haichao Architectural Design Institute, Shanghai Haichao Architectural Design Co., Ltd. and Shanghai Chuangmeng Architectural Design Co., Ltd.) at cash consideration of RMB4,500,000 from the Founder.

The English names of the PRC companies and statutory auditors referred to above in this note represent management’s best efforts in translating the Chinese names of those companies as no English names have been registered or available.

2 Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of the Financial Information are set out below. These policies have been consistently applied during the Relevant Periods, unless otherwise stated.

(a) Basis of presentation

For the purpose of this report, the Financial Information has been prepared to reflect the Reorganisation of a business under common control, in which certain companies comprising the Group are ultimately controlled by the Founder. Accordingly, the Reorganisation has been accounted for as a reorganisation of business under common control using the principles of merger accounting as prescribed in Hong Kong Accounting Guideline 5 “Merger Accounting for Common Control Combination” issued by the HKICPA.

The consolidated income statements, consolidated statements of cash flows and consolidated statements of changes in equity of the Group for the Relevant Periods include the Financial Information of the companies comprising the Group as a result of the Reorganisation as if the current group structure had been in existence throughout the Relevant Periods, except that the Financial Information of those companies newly set up during the Relevant Periods and of those companies accounted for using purchase method of accounting are included in the Financial Information of the Group since their respective dates of establishment/incorporation and acquisition.

The Financial Information has been prepared in accordance with the HKFRSs under the historical cost convention, as modified by the revaluation of investment properties and financial assets at fair value through profit or loss.

The preparation of Financial Information in conformity with the HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the Financial Information, are disclosed in note 4 below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the accounting periods of the Group. The following sets out the changes in accounting policies for the current and prior accounting periods reflected in this Financial Information.

APPENDIX I

ACCOUNTANT’S REPORT

(i) Amendment and interpretations effective in 2008

HKICPA has issued certain new and revised HKFRSs which are effective for accounting periods beginning on or after 1 January 2008.

HKAS 39 & HKFRS 7 (Amendments)	Amendments to HKAS 39 Financial Instruments: Recognition and Measurement and HKFRS 7 Financial Instruments: Disclosures — Reclassification of Financial Assets
HK(IFRIC) - Int 11	HKFRS 2 — Group and Treasury Share Transactions
HK(IFRIC) - Int 12	Service Concession Arrangements
HK(IFRIC) - Int 14	HKAS 19 — The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction

These amendments to standards and interpretations did not result in substantial changes to the Group’s accounting policies.

(ii) Amendment to standard early adopted by the Group in 2008

The Group has early adopted the following amendment to standard in the preparation of the Financial Information for the year ended 31 December 2008.

HKAS 40	Investment Property
---------	---------------------

Earlier adoption is permitted and the adoption of the above amendment has resulted in the changes in the Group’s accounting policy relating to valuation of property that is under construction or development. Pursuant to the amendment, property that is under construction or development for future use as investment property is within the scope of HKAS 40, such property is measured at fair value under the fair value model. As the Group had no properties under construction which were designated as investment properties as at 31 December 2006 and 2007, there was no impact on the Financial Information as at and for the years then ended 31 December 2006 and 2007 upon the adoption of the amendment. This amendment to HKAS 40 has been applied prospectively.

(iii) Standards and amendments effective in 2009

The following new standards and amendments to standards are mandatory for the first time for the financial year beginning 1 January 2009.

- HKAS 1 (revised), ‘Presentation of financial statements’. The revised standard prohibits the presentation of items of income and expenses (that is ‘non-owner changes in equity’) in the statement of changes in equity, requiring ‘non-owner changes in equity’ to be presented separately from owner changes in equity. All ‘non-owner changes in equity’ are required to be shown separately in income statement.
- HKFRS 8, ‘Operating segments’. HKFRS 8 replaces HKAS 14, ‘Segment reporting’. It requires a ‘management approach’ under which segment information is presented on the same basis as that used for internal reporting purposes. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker, who makes strategic decisions.
- Amendment to HKFRS 7, ‘Financial instruments: disclosures’. The amendment increases the disclosure requirements about fair value measurement and reinforces existing principles for disclosure about liquidity risk.

APPENDIX I**ACCOUNTANT’S REPORT**

The following new standards, amendments to standards and interpretations are mandatory for the first time for the financial year beginning 1 January 2009, but have no significant impact on the Group’s Financial Information for the current and prior accounting periods.

HKAS 23 (Revised)	Borrowing Costs
HKAS 32 (Amendment)	Puttable Financial Instruments and Obligations Arising on Liquidation
Amendments to HKFRS 1	First-time adoption of HKFRS and HKAS 27 - Consolidated and Separate Financial Statements - Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate
HKFRS 2 (Amendment)	Share-based Payment Vesting Conditions and Cancellations
HK(IFRIC)-Int 13	Customer Loyalty Programmes
HK(IFRIC)-Int 15	Agreements for the Construction of Real Estate
HK(IFRIC)-Int 16	Hedges of a Net Investment in a Foreign Operation
Improvements to HKFRS — Amendments to:	
HKAS 1 (Revised)	Presentation of Financial Statement
HKAS 2	Inventories
HKAS 7	Cash Flow Statements
HKAS 16	Property, Plant and Equipment
HKAS 19	Employee Benefits
HKAS 20	Accounting for Government Grants and Disclosure of Government Assistance
HKAS 23 (Revised)	Borrowing Costs
HKAS 27	Consolidated and Separate Financial Statements
HKAS 28	Investments in Associates
HKAS 29	Financial Reporting in Hyperinflationary Economies
HKAS 31	Interests in Joint Ventures
HKAS 36	Impairment of Assets
HKAS 38	Intangible Assets
HKAS 39	Financial Instruments: Recognition and Measurement
HKAS 41	Agriculture
Other minor amendments to:	
HKAS 8	Accounting Policies, Changes in Accounting Estimates and Errors
HKAS 10	Events After the Balance Sheet Date
HKAS 18	Revenue
HKAS 34	Interim Financial Reporting

APPENDIX I**ACCOUNTANT’S REPORT**

(iv) Amendments and interpretations that are not yet effective and have not been early adopted by the Group

The following new standards, amendments and interpretations have been issued but are not yet effective for the period ended 30 April 2009 and which the Group has not early adopted:

HKAS 27 (Revised)	Consolidated and Separate Financial Statements (effective for annual periods beginning on or after 1 July 2009)
HKAS 39 (amendment)	Financial Instruments: Recognition and measurement (effective for annual periods beginning on or after 1 July 2009)
HKFRS 1 (Revised)	First-time adoption of HKFRS (effective for annual periods beginning on or after 1 July 2009)
Amendments to HKFRS 2	Share-based Payment Group Cash-settled share-based Payment Transactions (effective for annual periods beginning on or after 1 January 2010)
HKFRS 3 (Revised)	Business Combination (effective for annual periods beginning on or after 1 July 2009)
HK(IFRIC) - Int 17	Distributions of non-cash assets to owners (effective for annual periods beginning on or after 1 July 2009)
HK(IFRIC) - Int 18	Transfer of assets from customers (effective for annual periods beginning on or after 1 July 2009)
Improvements to HKFRS — Amendments to:	
HKAS 1	Presentation of Financial Statements (effective for annual periods beginning on or after 1 January 2010)
HKAS 7	Statement of Cash Flows (effective for annual periods beginning on or after 1 January 2010)
HKAS 17	Leases (effective for annual periods beginning on or after 1 January 2010)
HKAS 18	Revenue (effective for annual periods beginning on or after 1 July 2009)
HKAS 36	Impairment of Assets (effective for annual periods beginning on or after 1 January 2010)
HKAS 38	Intangible Assets (effective for annual periods beginning on or after 1 July 2009)
HKAS 39	Financial Instruments: Recognition and Measurement (effective for annual periods beginning on or after 1 January 2010)
HKFRS 2	Share-based Payment (effective for annual periods beginning on or after 1 July 2009)
HKFRS 5	Non-current assets held for sales and discontinued operations (First and second amendments to be effective for annual periods beginning on or after 1 July 2009 and 1 January 2010, respectively)
HKFRS 8	Operating Segments (effective for annual periods beginning on or after 1 January 2010)
HK(IFRIC) - Int 9	Reassessment of Embedded Derivatives (effective for annual periods beginning on or after 1 July 2009)
HK(IFRIC) - Int 16	Hedges of a Net Investment in a Foreign Operation (effective for annual periods beginning on or after 1 July 2009)

The Group has already commenced an assessment of the impact of these new HKFRSs but is not yet in a position to state whether these new HKFRSs would have a significant impact on its results of operations and financial position.

APPENDIX I

ACCOUNTANT’S REPORT

(b) Consolidation

The Financial Information include the financial statements of the Company and all of its subsidiaries.

(i) Subsidiaries

Subsidiaries are all entities (including special purpose vehicles) over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that the control ceases.

In the Company’s balance sheet, the investment in subsidiaries are stated at cost less provision for impairment losses (note 2(g)). The results of subsidiaries are accounted by the Company on the basis of dividend received and receivable.

(ii) Business combination under common control

The Financial Information incorporates the financial statements of the combining entities or businesses in which the common control combination occurs as if they had been consolidated from the date when the combining entities or businesses first came under the control of the controlling party.

The net assets of the combining entities or businesses are consolidated using the existing book values from the controlling parties’ perspective. No amount is recognised in respect of goodwill or excess of acquirer’s interest in the net fair value of the acquiree’s identifiable assets, liabilities and contingent liabilities over cost at the time of common control combination, to the extent of the continuation of the controlling party’s interest. All differences between the cost of acquisition (fair value of consideration paid) and the amounts at which the assets and liabilities are recorded have been recognised directly in equity as part of the capital reserve.

The consolidated income statements includes the results of each of the combining entities or businesses from the earliest date presented or since the date when combining entities or businesses first came under common control, where there is a shorter period, regardless of the date of the common control combination.

The comparative amounts in the Financial Information are presented as if the entities or business had been consolidated at the earliest balance sheet date presented or when they first came under common control, whichever is the later.

A uniform set of accounting policies is adopted by those entities. All intra-group transactions, balances and unrealised gains on transactions between combining entities or businesses are eliminated on consolidation.

Transaction costs, including professional fees, registration fees, costs of furnishing information to shareholders, costs or losses incurred in combining operations of the previously separate businesses, etc., incurred in relation to the common control combination that is to be accounted for by using merger accounting are recognised as an expense in the period in which they are incurred.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated but considered an impairment indicator of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

APPENDIX I**ACCOUNTANT’S REPORT**

(iii) *Purchase method of accounting*

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group, except for those acquisitions which qualify as a common control combination and are therefore accounted for using the merger accounting.

The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group’s share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in the consolidated income statement.

(iv) *Associates*

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting and are initially recognised at cost. The Group’s investment in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition (note 2(g)).

The Group’s share of its associates post-acquisition profits or losses is recognised in the consolidated income statement, and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group’s share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group’s interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Dilution gains and losses in associates are recognised in the consolidated income statement.

(c) **Foreign currency translation**

(i) *Functional and presentation currency*

Items included in the financial statements of each of the companies comprising the Group are measured using the currency of the primary economic environment in which the company operates (the “functional currency”). The Financial Information is presented in Renminbi (“RMB”), which is the Company’s functional and presentation currency.

(ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated income statements.

APPENDIX I

ACCOUNTANT’S REPORT

(iii) *Group companies*

The results and financial positions of all the companies comprising the Group (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each balance sheet of the companies comprising the Group are translated at the closing rate at the date of that balance sheet;
- Income and expenses for each income statement of the companies comprising the Group are translated at average exchange rates; and
- All resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations, and of borrowings and other currency instruments designated as hedges of such investments, are taken to shareholders’ equity. When a foreign operation is partially disposed of or sold, exchange differences that were recorded in equity are recognised in the consolidated income statement as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

(d) **Property and equipment**

Property and equipment are stated at historical cost less accumulated depreciation and any impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset’s carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Repairs and maintenance are expensed in the consolidated income statement during the financial period in which they are incurred.

Depreciation on property and equipment is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, as follows:

Computer and office equipment	5 years
Motor vehicles	5 years
Furniture, fitting and equipment	5 years
Leasehold improvements	Over the lease terms of 1 to 5 years

The assets’ residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset’s carrying amount is written down immediately to its recoverable amount if the asset’s carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the consolidated income statements.

Properties under construction in progress are stated at historical cost less impairment losses. Historical cost includes expenditure that is directly attributable to the development of the properties which comprises land costs, construction costs, borrowing costs and professional fees incurred during the development period. On completion, the properties are transferred to land and buildings within property and equipment.

APPENDIX I

ACCOUNTANT’S REPORT

No depreciation is provided for properties under construction in progress. The carrying amount of properties under construction is written down immediately to its recoverable amount if the assets carrying amount are greater than their estimated recoverable amount (note 2(g)).

(e) Investment properties

Property that is held for long-term rental yields and is not occupied by the Group is classified as investment property. Land held under operating leases are classified and accounted for as investment property when the rest of the definition of investment property is met. The operating lease is accounted for as if it were a finance lease. Investment property is carried at fair value, representing open market value determined annually by external valuers. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If the information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections. These valuations are reviewed annually by an independent and professionally qualified valuer, changes in fair values are recorded in the consolidated income statement as part of “other gains/losses, net”.

Property that is currently being constructed or developed for future use as investment property is classified as investment properties and stated at fair value. Where fair value of investment property under construction is not reliably measurable, the property is measured at cost until the earlier of the date of construction is completed or the date at which fair value becomes reliably measurable.

If an item of completed properties held for sale becomes an investment property because its use has changed, any difference resulting between the carrying amount and the fair value of this item at the date of transfer is recognised in the consolidated income statement.

(f) Intangible asset

Intangible asset represented the licence which was recorded at cost of acquisition on initial recognition. The licence has a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of licence over their estimated useful lives of 5 years.

(g) Impairment of non-financial assets

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its recoverable amount.

The recoverable amount is the higher of an asset’s fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating unit). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

(h) Financial assets

The Group classifies its financial assets in the following categories: at fair value through profit or loss, and loans and receivables. The classification depends on the purposes for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(i) *Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Assets in this category are classified as current assets.

APPENDIX I

ACCOUNTANT’S REPORT

(ii) *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets. Loans and receivables are classified as “trade and other receivables” in the consolidated balance sheet (note 2(m)).

Regular purchases and sales of financial assets are recognised on the trade-date - the date on which the Group commits to purchase or sell the asset. Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the consolidated income statement. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Financial assets at fair value through profit or loss are subsequently carried at fair value and loans and receivables are carried at amortised cost using the effective interest method.

Gains or losses arising from changes in the fair value of the “financial assets at fair value through profit or loss” category are presented in the consolidated income statement within “Other gains/losses, net”, in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the income statement as part of other income when the Group’s right to receive payments is established.

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Group established fair value by using valuation techniques. These include the use of recent arm’s length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis and option pricing models, making maximum use of market inputs and relying as little as possible on entity-specific inputs.

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a Group of financial assets is impaired. Impairment testing of trade and other receivables is described in note 2(m).

(i) **Properties under development**

Properties under development are stated at the lower of cost and net realisable value. Net realisable value is determined by reference to the sale proceeds of properties sold in the ordinary course of business, less applicable variable selling expenses and the anticipated costs to completion based on prevailing marketing conditions.

Development cost of property primarily comprises land costs, construction costs, borrowing costs and professional fees incurred during the development period. On completion, the properties are transferred to completed properties held for sale.

Properties under development are classified as current assets unless the construction period of the relevant property development project is expected to complete beyond normal operating cycle.

(j) **Completed properties held for sale**

Completed properties remaining unsold at the balance sheet date are stated at the lower of cost and net realisable value. Cost comprises development costs attributable to the unsold properties. Net realisable value is determined by reference to the sale proceeds of properties sold in the ordinary course of business, less applicable variable selling expenses, or by management estimates based on prevailing marketing conditions.

(k) **Land use rights**

Land use rights are up-front payments to acquire long-term interest in leasehold properties, which are stated at cost and are amortised on a straight-line basis over the lease period to the consolidated income statement. The amortisation during the period of construction of the properties is capitalised as cost of properties under development.

APPENDIX I**ACCOUNTANT’S REPORT**

(l) Inventories

Inventories are stated at the lower of cost or net realisable value. Cost is determined using the weighted average method. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

(m) Trade and other receivables

Trade and other receivables are recognised initially at fair value plus transaction costs that are directly attributable to the acquisition, and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade and other receivables is established when there is objective evidence that the entity will not be able to collect all amounts due according to the original terms of receivables.

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the receivable is impaired. The amount of the provision is the difference between the asset’s carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the assets is reduced through the use of an allowance account, and the amount of the loss is recognised in the consolidated income statement within “administrative expenses”. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against “administrative expenses” in the consolidated income statement.

Trade and other receivables are included in current assets, except for those mature after 12 months of the balance sheet date which are classified as non-current assets.

(n) Cash and cash equivalents

Cash and cash equivalent includes cash in hand and at banks and deposits held at call with banks with original maturities of three months or less. Bank deposits which are restricted to use are not included in the cash and cash equivalents.

(o) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(p) Trade and other payables

Payables are recognised initially at fair value and subsequently measured at amortised costs using the effective interest method.

(q) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the consolidated income statement over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless there is an unconditional right to defer settlement of the liability for at least 12 months after the respective balance sheet date.

(r) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. All other borrowing costs are charged to the consolidated income statement in the year in which they are incurred.

APPENDIX I

ACCOUNTANT’S REPORT

(s) **Deferred income tax**

The income tax expenses for the period comprise current and deferred tax. Tax is recognised in the consolidated income statement.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates position taken in tax return with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial Information. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using the tax rates that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference can be controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

(t) **Employee benefits**

(i) *Employee leave entitlements*

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the balance sheet date.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) *Retirement benefits*

In accordance with the rules and regulations in the PRC, the PRC based employees of the Group participate in various defined contribution retirement benefit plans organised by the relevant municipal and provincial governments in the PRC under which the Group and the PRC based employees are required to make monthly contributions to these plans calculated as a percentage of the employees’ salaries.

The municipal and provincial governments undertake to assume the retirement benefit obligations of all existing and future retired PRC based employees payable under the plans described above. Other than the monthly contributions, the Group has no further obligation for the payment of retirement and other post retirement benefits of its employees. The assets of these plans are held separately from those of the Group in independently administrated funds managed by the PRC governments.

The Group also participates in a pension scheme under the rules and regulations of the Mandatory Provident Fund Scheme Ordinance (“MPF Scheme”) for all employees in Hong Kong. The contributions to the MPF Scheme are based on minimum statutory contribution requirement of the lower of 5% of eligible employees’ relevant aggregate income and HK\$1,000. The assets of this pension scheme are held separately from those of the Group in independently administrated funds.

APPENDIX I**ACCOUNTANT’S REPORT**

The Group’s contributions to the defined contribution retirement schemes are expensed as incurred.

(u) Share-based payments

In relation to the provision of certain loans by the Investors, Best Era, which is the Company’s immediate holding company and is wholly owned by the Founder has transferred 0.7% equity interest in the Company to the Investors (note 19 (a)) as arrangement fees for the loans. The fair value of the 0.7% equity interest is recognised as part of the transaction costs for obtaining the loans. It is offset against the loans and form part of the borrowing costs as determined by using the effective interest method (note 2(q)).

(v) Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sales of properties and services in the ordinary course of the Group’s activities. Revenue is shown, net of discount and is recognised as follows:

(i) Sales of properties

Revenue from sale of properties is recognised when the risks and rewards of the properties are transferred to the purchasers, which occurs when the construction of relevant properties has been completed and the properties have been delivered to the purchasers and collectibility of related receivables is reasonably assured. Deposits and instalments received on properties sold prior to the date of revenue recognition are included in the consolidated balance sheet as advanced proceeds received from customers under current liabilities.

(ii) Interest income

Interest income is recognised on a time-proportion basis using the effective interest method.

(w) Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions. Government grants relating to costs are deferred and recognised in the consolidated income statement over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate. Where the grant relates to an asset, it is included in non-current liabilities as deferred government grants and are credited to the consolidated income statement on a straight-line basis over the expected lives of the related assets.

(x) Leases

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

(i) The Group is the lessee

Payments made under operating leases (net of any incentives received from the lessor), including up-front prepayment made for the land use rights, are charged to the consolidated income statement or capitalised in the properties under development (note 2(i)) on a straight-line basis over the period of the lease.

(ii) The Group is the lessor

Properties leased out under operating leases, that management intends to sell in the ordinary course of business, are included in completed properties held for sale. Properties leased out under operating leases, that management intends to hold for long-term rental yields, are included in investment properties.

APPENDIX I

ACCOUNTANT’S REPORT

(y) Dividend distribution

Dividend distribution to the then equity holders of the companies comprising the Group during the Relevant Periods is recognised as a liability in the Group’s consolidated financial information in the period in which the dividends are appropriately authorised and no longer at the discretion of the entity.

(z) Financial guarantee

Financial guarantee liabilities are recognised in respect of the financial guarantee provided by the Group for property purchasers.

Financial guarantee liabilities are recognised initially at fair value plus transaction costs that are directly attributable to the issue of the financial guarantee liabilities. After initial recognition, such contracts are measured at the higher of the present value of the best estimate of the expenditure required to settle the present obligation and the amount initially recognised less cumulative amortisation.

Financial guarantee liabilities are derecognised from the balance sheet when, and only when, the obligation specified in the contract is discharged or cancelled or expired.

(aa) Provisions and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognised but is disclosed in the notes to the Financial Information. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognised as a provision.

(ab) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is responsible for making strategic decisions, allocating resources and assessing performance of the operating segments.

3 FINANCIAL RISK MANAGEMENT

(a) Financial risk factors

The Group’s major financial instruments include cash and bank deposits, trade and other receivables, financial assets at fair value through profit and loss, trade and other payables and borrowings. Details of these financial instruments are disclosed in the respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The Company manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

APPENDIX I

ACCOUNTANT’S REPORT

(i) *Foreign currency exchange risk*

The Group’s property development projects are all located in the PRC and all the related transactions are settled in RMB. The Company and certain of the Group’s intermediate holding companies operate in Hong Kong which have recognised assets and liabilities in currencies other than RMB. The directors consider the exposures to those assets and liabilities to be insignificant. As at 31 December 2007, the Group holds a significant amount of United States dollars (“USD”), which represented the Notes (see note 19(a)) drew down from the Investors in November and December 2007 in the form of USD cash. As the conversion of RMB into foreign currencies is subject to the rules and regulations of foreign exchange control promulgated by the PRC government, the USD cash have not yet been converted into RMB for the Group’s property development projects as at 31 December 2007. For the year ended 31 December 2008, the majority of the USD cash have been converted into RMB.

The Group does not have a foreign currency hedging policy. However, management of the Group monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

As at 31 December 2006, all of the Group’s financial assets and liabilities were denominated in RMB. As at 31 December 2007 and 31 December 2008 and 30 April 2009, if RMB had strengthened by 5% against USD, with all other variables held constant, post-tax profit for the year ended 31 December 2007 and 2008 and 30 April 2009 would have been approximately RMB78 million, RMB1 million and RMB1 million lower.

(ii) *Interest rate risk*

As the Group has no significant assets that bear floating interest rates, the Group’s income and operating cash flows are substantially independent of changes in market interest rates. The Group’s receivables that carry fixed interest rates expose the Group to fair value interest rate risk.

The Group’s exposures to changes in interest rates are mainly attributable to its borrowings (note 19). Borrowings issued at variable rates expose the Group to cash flow interest risk. Borrowings issued at fixed rates exposed the Group to fair value interest rate risk. The Group has not used any interest rate swaps to hedge its exposure to interest rate risk.

The Group analyses its interest rate exposure on a dynamic basis and will consider the interest rate exposure when enter into any refinancing, renewal of existing positions and alternative financing transactions.

(iii) *Price risk*

The Group is not exposed to material equity securities price risk and commodity price risk as the Group only has very minimal investments in securities that are exposed to price risk.

(iv) *Credit risk*

Credit risk is managed on a group basis. The Group’s credit risk arises from cash deposits, trade and other receivables. Management has policies in place to monitor the exposures to these credit risks on an on-going basis.

For banks and financial institutions, deposits are only placed with reputable banks. For credit exposures to customers, generally, the Group requires full payment from customers before delivery of properties. Credit terms are only granted to customers for very rare cases upon obtaining approval from the Company’s senior management after assessing the credit history of those customers. The Group has set out policies to ensure follow-up action is taken to recover overdue debts and the Group reviews regularly the recoverable amount of each individual trade and other receivable to ensure that adequate impairment losses are made for irrecoverable amounts.

The Group has arranged bank financing for certain purchasers of the Group’s properties and provided guarantees to secure obligations of such purchasers for repayments. Detailed disclosure of these guarantees is made in note 34.

APPENDIX I

ACCOUNTANT’S REPORT

(v) *Liquidity risk*

Management of the Group aims to maintain sufficient cash from operating activities and the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying businesses, the Group maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors the Group’s liquidity by preparing and reviewing rolling cashflow forecast that covers (i) monthly cash flow forecast for the coming month and (ii) quarterly cash flow forecast for the next six-month period.

The table below analyses the Group’s financial liabilities into relevant maturity groupings based on the remaining period from the balance sheet date to the contractual maturity date. As the amounts disclosed in the table are the contractual undiscounted cash flows, these amounts will not reconcile to the amounts disclosed on the consolidated balance sheets for borrowings and trade and other payables.

	<u>Less than 1 year</u>	<u>Between 1 and 2 years</u>	<u>Between 2 and 5 years</u>	<u>Total</u>
	<u>RMB’000</u>	<u>RMB’000</u>	<u>RMB’000</u>	<u>RMB’000</u>
At 31 December 2006				
Borrowings	1,376,395	377,903	2,518,162	4,272,460
Trade and other payables	3,225,340	—	—	3,225,340
Financial guarantee	528,603	—	—	528,603
Total	<u>5,130,338</u>	<u>377,903</u>	<u>2,518,162</u>	<u>8,026,403</u>
At 31 December 2007				
Borrowings	5,623,985	973,047	1,499,146	8,096,178
Trade and other payables	1,444,548	—	—	1,444,548
Financial guarantee	1,860,806	—	—	1,860,806
Total	<u>8,929,339</u>	<u>973,047</u>	<u>1,499,146</u>	<u>11,401,532</u>
At 31 December 2008				
Borrowings	6,983,177	565,479	—	7,548,656
Trade and other payables	1,193,093	—	—	1,193,093
Financial guarantee	2,662,065	—	—	2,662,065
Total	<u>10,838,335</u>	<u>565,479</u>	<u>—</u>	<u>11,403,814</u>
At 30 April 2009				
Borrowings	6,591,444	632,552	—	7,223,996
Trade and other payables	1,035,427	—	—	1,035,427
Financial guarantee	3,112,399	—	—	3,112,399
Total	<u>10,739,270</u>	<u>632,552</u>	<u>—</u>	<u>11,371,822</u>

(b) **Capital risk management**

The Group regards its shareholders’ equity as capital. The Group’s objectives when managing capital are to safeguard the Group’s ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

APPENDIX I

ACCOUNTANT’S REPORT

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as total borrowings divided by total assets, as shown in the consolidated balance sheets. During the Relevant Periods, the Group’s strategy was to maintain a gearing ratio below 60%. The gearing ratios as at 31 December 2006, 2007 and 2008 and 30 April 2009 were as follows:

	31 December			30 April
	2006	2007	2008	2009
	RMB’000	RMB’000	RMB’000	RMB’000
Total borrowings	<u>3,841,890</u>	<u>6,866,885</u>	<u>6,474,125</u>	<u>6,541,832</u>
Total assets	<u>9,844,308</u>	<u>12,728,305</u>	<u>13,158,222</u>	<u>14,127,597</u>
Gearing ratio	<u>39%</u>	<u>54%</u>	<u>49%</u>	<u>46%</u>

The increase in gearing ratio for the years ended 31 December 2007, 2008 and for the four months ended 30 April 2009 was resulted primarily from the issuance of the Notes borrowing as further mentioned in note 19(a).

(c) Fair value estimation

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Group is the current bid price.

The carrying amounts of the Group’s financial assets and liabilities including cash and cash equivalents, trade and other receivables, trade and other payables approximate their fair values due to their short maturities. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cashflows at the current market interest rate that is available to the Group for similar financial instruments.

4 Critical Accounting Estimates and Judgements

Estimates and judgements used in preparing the Financial Information are evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that may have a significant effect on the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Income tax and deferred income tax

Significant judgement is required in determining the provision for income tax. There are many transactions and calculations for which the ultimate determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such difference will impact the income tax and deferred tax provision in the period in which such determination is made.

Deferred income tax assets relating to certain temporary differences and tax losses are recognised when management considers to be probable that future taxable profit will be available against which the temporary differences or tax losses can be utilised. The outcome of their actual utilisation may be different.

APPENDIX I

ACCOUNTANT’S REPORT

(b) Land appreciation tax

The Group is subject to land appreciation tax in the PRC. However, the implementation and settlement of these taxes varies among various tax jurisdictions in cities of the PRC, and the Group has not finalised its land appreciation taxes calculation and payments with any local tax authorities in the PRC. Accordingly, significant judgement is required in determining the amount of the land appreciation and its related taxes. The Group recognised these land appreciation taxes based on management’s best estimates according to the understanding of the tax rules. The final tax outcome could be different from the amounts that were initially recorded, and these differences will impact the income tax expense and deferred income tax provisions in the periods in which such taxes have been finalised with local tax authorities.

(c) Estimated valuation of investment properties

Investment properties are stated at fair value based on the valuation performed by an independent and professionally qualified valuer.

In determining the fair value, the valuer has based on property valuation techniques which involve, inter alia, certain estimates including comparable sales in the relevant market, current market rents for similar properties in the same location and condition, appropriate discount rates and expected future market rents. In relying on the valuation report, management has exercised their judgement and is satisfied that the method of valuation is reflective of the current market condition.

5 Segment Information

Management has determined the operating segments based on the reports reviewed by the chief operating decision-maker that are used to make strategic decisions.

Management regularly reviews the operating results by property development projects. As property development projects are all located in the PRC, their revenue are primarily derived from the sales of properties, and are related and subject to common risk and returns, all property development projects are aggregated into a single reportable segment in accordance with HKFRS 8 “Operating segments”. No segment information is presented.

	<u>513,600</u>	<u>357,893</u>	<u>1,201,268</u>	<u>1,073,625</u>

The completed properties held for sale are all located in the PRC.

As at 31 December 2006, 2007 and 2008 and 30 April 2009, completed properties held for sale of carrying values of approximately RMB41,408,000, RMB10,133,000, RMB315,590,000 and RMB73,364,000 were pledged as collateral for the Group’s borrowings, respectively (note 19).

As at 31 December 2007, completed properties held for sale of carrying values of approximately RMB118,232,000 were pledged as collateral for certain borrowings of three related companies. The Group’s maximum credit risk exposure as at 31 December 2007 was the carrying value of the collaterals of approximately RMB118,232,000. As at 31 December 2008, such pledge has been fully released. No completed properties held for sale were pledged as collateral for borrowings of other companies as at 31 December 2006, 31 December 2008 and 30 April 2009.

(a) The movements of land use rights are as follows:

	Year ended 31 December			Four months ended

Related parties (note 33(c))	1,013,559	653,586	1,170,403	1,114,621
Third parties	379,757	1,134,690	1,377,430	1,249,673
	<u>4,490,087</u>	<u>3,107,299</u>	<u>2,595,899</u>	<u>2,429,835</u>
Company		31 December		30 April
		2007	2008	2009
		RMB'000	RMB'000	RMB'000
Prepayments to third parties		<u>3,781</u>	<u>48,067</u>	<u>57,279</u>

(a) Trade receivables are mainly arisen from sales of properties. Proceeds in respect of sales of properties are to be received in accordance with the terms of the related sales and purchase agreements and customers are generally required to settle the receivables within 30 days after the date of signing the sales and purchase agreements. The ageing analysis of trade receivables at the balance sheet dates is as follows:

	31 December			30 April
	2006	2007	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000
Not yet due	1,557	5,787	300	1,800
Within 6 months	23,744	13,150	250	2,588
Between 7 and 12 months	—	859	—	10
Between 13 months and 3 years	3,362	12,564	3,869	1,956
	<u>28,663</u>	<u>32,360</u>	<u>4,419</u>	<u>6,354</u>

As at 31 December 2006, 2007 and 2008 and 30 April 2009, trade receivables of RMB27,106,000, RMB26,573,000, RMB4,119,000 and RMB4,554,000 were overdue but not impaired. Trade receivables that are past due but not impaired relate to certain customers that have a good track record with the Group. Based on past experience, management believes that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully receivable. All trade receivables were denominated in RMB.

APPENDIX I

ACCOUNTANT’S REPORT

(b) Other receivables due from third parties are unsecured, interest-free and repayable on demand.

As at 31 December 2006, 2007 and 2008 and 30 April 2009, the fair values of the Group’s and the Company’s trade and other receivables approximate their carrying amounts. The maximum exposure to credit risk at each balance sheet date is the carrying value of each class of receivables mentioned above. The Group does not hold any collateral as security. None of the receivables from third parties is either past due or impaired.

As at 31 December 2006 and 2007, the Group’s receivables due from Shanghai Ditong amounted to RMB1,301,875,000 and RMB782,984,000 respectively, representing 42.0% and 59.4% of the Group’s total trade and other receivables as at each balance sheet date. As set out in note 33(c)(i), the other receivables due from Shanghai Ditong has been fully settled subsequent to 31 December 2007.

14 Financial assets at fair value through profit or loss

	31 December			30 April
	2006	2007	2008	2009
	RMB’000	RMB’000	RMB’000	RMB’000
Listed securities				
— Equity securities in the PRC	—	4,591	—	—
Unlisted securities				
— funds in the PRC	—	16,500	—	—
Market value of listed and unlisted securities	—	21,091	—	—

Cash flows associated with financial assets at fair value through profit or loss are presented within “operating activities” in the consolidated statements of cash flows.

Changes in fair value of financial assets at fair value through profit or loss are recorded in “other (losses)/gains, net” in the consolidated income statements (note 24).

The fair value of all equity securities is based on their current bid prices in an active market.

15 Restricted cash

Restricted cash represents guaranteed deposits for the mortgage loan facilities granted by the banks to the purchasers of the Group’s properties. Such restrictions will be released at the earlier of (i) getting agreement from the banks for releasing such restriction, and (ii) the property ownership certificates have been provided to the banks.

Allotment of new shares of HK\$0.01 each (f)	90,000,000	900,000	866
Ordinary shares of HK\$0.01 each at 31 December 2007, 31 December 2008 and 30 April 2009	100,000,000	1,000,000	962

- (a) The Company was incorporated in the Cayman Islands on 27 July 2007 with an authorised share capital of HK\$380,000 divided into 3,800,000 shares of HK\$0.1 each. On the same date, the Company issued and allotted 100 nil-paid shares to Best Era.
- (b) On 17 September 2007, the Company acquired the entire share capital of Bright New from Best Era in the consideration of (i) issuing 900 ordinary shares of HK\$0.1 each and (ii) by crediting as fully paid at par 100 shares in the name of Best Era.
- (c) On 18 October 2007, the Company further allotted and issued 999,000 shares to Best Era at par.
- (d) Pursuant to a resolution on 18 October 2007, every issued and unissued ordinary share of HK\$0.1 was sub-divided into 10 shares of HK\$0.01 each such that the Company had an authorised share capital of HK\$380,000 divided into 38,000,000 shares of HK\$0.01 each and 10,000,000 shares of HK\$0.01 each in issue.
- (e) Pursuant to a resolution on 2 November 2007, the Company's authorised share capital was increased from HK\$380,000 to HK\$3,800,000 by the creation of an additional 342,000,000 shares of HK\$0.01 each.
- (f) On 2 November 2007, the Company further allotted 90,000,000 shares of HK\$0.01 each to Best Era at par.
- (g) Pursuant to a resolution on 17 June 2008, the Company's authorised share capital was increased from HK\$3,800,000 to HK\$380,000,000 by the creation of an additional 37,620,000,000 shares of HK\$0.01 each.
- (h) Pursuant to a board resolution dated 9 September 2009, conditional on the share premium account of the Company being credited, the Company will capitalise an amount of HK\$55,250,000 standing to the credit of its share premium account in paying up in full at par 5,525,000,000 shares, each of which will be allotted and issued to the shareholders.

APPENDIX I

ACCOUNTANT’S REPORT

18 Reserves

(a) Company reserves

	Other reserve (note (d))	Accumulated losses	Total
	RMB’000	RMB’000	RMB’000

Total comprehensive loss for the period	—	(363,018)	(363,018)
Balance at 30 April 2009	<u>156,290</u>	<u>(1,562,022)</u>	<u>(1,405,732)</u>

(b) Merger reserve

Merger reserve arises from merger accounting for Reorganisation.

Movement of merger reserve during the Relevant Periods includes paid in capital of the subsidiaries acquired in the Reorganisation and cash considerations of RMB2,333,654,000 paid to the Founder for the acquisition of interests in subsidiaries and assets and liabilities related to the Regional Companies and Project Companies pursuant to the Reorganisation (note 1(b)) which have been treated as a deemed distribution to the equity owner in the consolidated statements of changes in equity. Details of the movement in merger reserve are set out in the consolidated statement of changes in equity.

As a result, merger reserve as at 31 December 2007 represents the difference between the cash consideration and the paid-in capital of the subsidiaries acquired in the Reorganisation.

(c) Statutory reserve

In accordance with the relevant regulations and their articles of association, the Company’s subsidiaries incorporated in the PRC are required to allocate at least 10% of their after-tax profit according to PRC accounting standards and regulations to the general statutory reserve until such reserve has reached 50% of registered capital. Appropriations to the enterprise expansion fund and staff welfare and bonus fund are at the discretion of the respective board of directors of the subsidiaries. These reserves can only be used for specific purposes and are not distributable or transferable in the form of loans, advances, or cash dividends. During the years ended 31 December 2006 and 2007 and 2008, appropriations to the general statutory reserve amounted to approximately RMB13,059,000, RMB22,730,000 and RMB32,373,000 respectively.

(d) Other reserve

It represents the 0.7% equity interest in the Company contributed by Best Era in connection with the Notes borrowing (note 19(a)).

APPENDIX I

ACCOUNTANT’S REPORT

19 Borrowings

Group	31 December			30 April
	2006	2007	2008	2009
	RMB’000	RMB’000	RMB’000	RMB’000
Borrowings included in non-current liabilities:				
Bank borrowings - secured	2,671,890	2,317,730	537,000	609,560
Borrowings included in current liabilities:				
Bank borrowings - secured	1,170,000	204,000	1,630,110	1,262,200
Borrowing from a related party - unsecured (note 33(c))	—	680,000	—	—
Notes borrowing - secured (a)	—	3,665,155	4,307,015	4,670,072
	<u>1,170,000</u>	<u>4,549,155</u>	<u>5,937,125</u>	<u>5,932,272</u>
Total borrowings	<u>3,841,890</u>	<u>6,866,885</u>	<u>6,474,125</u>	<u>6,541,832</u>

The Group’s borrowings are all denominated in RMB.

The Group’s bank borrowings of approximately RMB3,481,890,000, RMB2,521,730,000, RMB2,167,110,000 and RMB1,871,760,000 as at 31 December 2006 and 2007 and 2008 and 30 April 2009 respectively were secured by certain properties under development and completed properties held for sale of the Group (note 10 and 11). Please refer to note (a) for the securities in relation to the Notes borrowing.

Company	31 December		30 April
	2007	2008	2009
	RMB’000	RMB’000	RMB’000
Borrowings included in current liabilities:			
Notes borrowing - secured (a)	<u>3,665,155</u>	<u>4,307,015</u>	<u>4,670,072</u>

(a) On 2 November 2007, the Company and certain investors (the “Investors”) entered into a subscription agreement (as amended by a supplemental agreement dated 17 December 2007) (collectively, the “Subscription Agreement”) pursuant to which the Company agreed to issue and the Investors agreed to subscribe for the RMB denominated, interest bearing, registered promissory notes with an aggregate principal amount of the RMB equivalent of USD500 million (the “Notes”) to the Investors or their respective nominee(s). The Notes were drawn on 2 November 2007 and 17 December 2007 for USD200 million and USD300 million respectively and the principal amount of the Notes was fixed at RMB3,717 million, representing the RMB equivalent of USD500 million at the date of drawdown. In relation to the issue of the Notes, Best Era has transferred 0.7% equity interest in the Company to the Investors and the value of such shareholding of RMB156,290,000, which was determined based on a business valuation of the Group as at 31 October 2007 performed by an independent valuer, is regarded as a shareholder’s contribution and forms part of the borrowing cost of the Notes.

The Notes shall be redeemed by the Company at the earlier of (i) at the second anniversary of the date of first drawdown and (ii) the date of a qualified initial public offering.

APPENDIX I

ACCOUNTANT’S REPORT

In consideration of the Investors agreeing to enter into the Subscription Agreement and to subscribe for the Notes pursuant to the terms and conditions thereunder, the following securities were created in favour of the Investors:

- a share mortgage over 89.3% of the shares of the Company executed by Best Era to secure the Founder’s obligation under the transaction agreements in connection with the Notes (the “Note Documents”);
- a share mortgage over 526,400 shares in Rongsheng Heavy Industries Group Co., Ltd. executed by Fine Profit Enterprises Limited, a BVI company controlled by the Founder and engaging in heavy industries business, to secure the respective obligations of the Founder and the Company under the Note Documents;
- a guarantee executed by the Founder to secure the obligations of the Company under the Note Documents;
- a debenture executed by the Company to secure its obligations under the Note Documents;
- guarantees executed by each of the BVI Subsidiaries and HK Subsidiaries to secure the obligations of the Company under the Note Documents;
- share mortgages executed by each of the Company, Bright New and the BVI Subsidiaries to secure the obligations of the Company under the Note Documents; and
- share pledges over the paid up capital of the WFOEs executed by each of the HK Subsidiaries to secure the obligations of the Company under the Note Documents.

All the above securities created pursuant to the above security documents shall be released upon the repayment of all sums due for the Notes.

(b) The maturities of the Group’s total borrowings at respective balance sheet dates are as follows:

	31 December			30 April
	2006	2007	2008	2009
	RMB’000	RMB’000	RMB’000	RMB’000
Within 1 year	1,170,000	4,549,155	5,937,125	5,932,272
After 1 and within 2 years	187,000	857,730	537,000	609,560
After 2 and within 5 years	2,484,890	1,460,000	—	—
	<u>3,841,890</u>	<u>6,866,885</u>	<u>6,474,125</u>	<u>6,541,832</u>

As at 31 December 2007 and 2008 and 30 April 2009, the Company’s borrowings of RMB3,665,155,000, RMB4,307,015,000 and RMB4,670,072,000 are all repayable within one year.

(c) The fair values of the Group’s current borrowings approximate their carrying amounts at each balance sheet dates for the reason that the impact of discounting is not significant or the current borrowings carry floating rate interests.

The fair values of the Group’s non-current borrowings approximate their carrying amounts at each balance sheet as all the non-current borrowings carry floating rate interests.

APPENDIX I

ACCOUNTANT'S REPORT

(d) The weighted average effective interest rates at each of the balance sheet dates of the Relevant Periods were as follows:

Group	31 December			30 April
	2006	2007	2008	2009
Bank borrowings	7.07%	8.60%	6.33%	6.05%
Borrowing from a related party	N/A	0%	N/A	N/A
Notes borrowing	N/A	42.01%	24.30%	24.30%

Company	31 December		30 April
	2007	2008	2009
Notes borrowing	42.01%	24.30%	24.30%

(e) The exposure of the Group's borrowings to interest-rate changes and the contractual repricing dates (or maturity date whichever is earlier) are as follows:

	31 December			30 April
	2006	2007	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000
Within 6 months	3,841,890	6,675,085	6,474,125	6,541,832
Between 6 and 12 months	—	—	—	—
Between 1 and 5 years	—	191,800	—	—
	<u>3,841,890</u>	<u>6,866,885</u>	<u>6,474,125</u>	<u>6,541,832</u>

20 Deferred income tax

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset tax assets against tax liabilities and when the deferred income taxes relate to the same tax authority.

	31 December			30 April
	2006	2007	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000
Deferred income tax assets				
— to be realised after more than 12 months	48,457	47,347	11,571	22,674
— to be realised within 12 months	17,280	11,613	15,249	8,506
	<u>65,737</u>	<u>58,960</u>	<u>26,820</u>	<u>31,180</u>
Deferred income tax liabilities				
— to be realised after more than 12 months	—	—	172,937	351,091
— to be realised within 12 months	—	—	—	—
	<u>—</u>	<u>—</u>	<u>172,937</u>	<u>351,091</u>
Deferred income tax asset/(liabilities), net	<u>65,737</u>	<u>58,960</u>	<u>(146,117)</u>	<u>(319,911)</u>

APPENDIX I

ACCOUNTANT’S REPORT

The movement of the deferred income tax assets/(liabilities) is as follows:

	31 December			30 April
	2006	2007	2008	2009
	RMB’000	RMB’000	RMB’000	RMB’000
Beginning of the year/period	47,933	65,737	58,960	(146,117)
Recognised in the consolidated income statements (note 29)	<u>17,804</u>	<u>(6,777)</u>	<u>(205,077)</u>	<u>(173,794)</u>
End of the year/period	<u><u>65,737</u></u>	<u><u>58,960</u></u>	<u><u>(146,117)</u></u>	<u><u>(319,911)</u></u>

Movement in deferred income tax assets/(liabilities) during the Relevant Periods, without taking into consideration the offsetting of balances within the same tax jurisdiction, is as follows:

Deferred tax income assets/(liabilities)

	Tax losses	Other expenses	Fair value gains	Total
	RMB’000	RMB’000	RMB’000	RMB’000
	At 1 January 2006	47,933	—	—
Credited to the consolidated income statements	<u>17,804</u>	<u>—</u>	<u>—</u>	<u>17,804</u>
At 31 December 2006	65,737	—	—	65,737
(Charged)/credited to the consolidated income statements	<u>(14,065)</u>	<u>7,288</u>	<u>—</u>	<u>(6,777)</u>
At 31 December 2007	51,672	7,288	—	58,960
Credited/(charged) to the consolidated income statements	<u>2,216</u>	<u>4,228</u>	<u>(211,521)</u>	<u>(205,077)</u>
At 31 December 2008	53,888	11,516	(211,521)	(146,117)
Credited/(charged) to the consolidated income statements	<u>10,003</u>	<u>—</u>	<u>(183,797)</u>	<u>(173,794)</u>
At 30 April 2009	<u><u>63,891</u></u>	<u><u>11,516</u></u>	<u><u>(395,318)</u></u>	<u><u>(319,911)</u></u>

Deferred income tax assets are recognised for tax losses carried forward to the extent that the realisation of the related benefit through the future taxable profits is probable. As at 31 December 2006, 2007 and 2008 and 30 April 2009, there were unrecognised tax losses of approximately RMB3,567,000, RMB7,814,000, RMB28,111,000 and 38,009,000 to be carried forward for deduction against future taxable profits.

Mr. Han Ping (a).....	—	—	—	—	—

Note a: Resigned on 16 March 2009.

APPENDIX I

ACCOUNTANT'S REPORT

During the Relevant Periods, no director received any emolument from the Group as an inducement to join or leave the Group or compensation for loss of office, no director waived or has agreed to waive any emoluments.

Except for Mr. Liu Ning who joined the Group in June 2005, all other executive directors joined the Group before 1 January 2005.

(b) *Five highest paid individuals*

The five individuals whose emoluments were the highest in the Group in each of the years ended 31 December 2006, 2007 and 2008 and four months ended 30 April 2008 and 2009 include 4, 3, 1, 1 and 1 directors, respectively. Their emoluments are reflected in the analysis presented above. The emoluments payable to the remaining 1, 2, 4, 4 and 4 individuals in each of the years ended 31 December 2006, 2007 and 2008 and four months ended 30 April 2008 and 2009, respectively, are as follows:

	Year ended 31 December			Four months ended 30 April	
	2006	2007	2008	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000 (unaudited)	RMB'000
Salaries and other benefits	<u>1,038</u>	<u>1,410</u>	<u>6,031</u>	<u>1,658</u>	<u>1,871</u>

The emoluments fell within the following bands:

	Number of individuals				
	Year ended 31 December			Four months ended 30 April	
	2006	2007	2008	2008	2009
RMB Nil to RMB1,000,000	—	1	—	4	4
RMB1,000,001 to RMB1,500,000....	1	1	3	—	—
RMB1,500,001 to RMB2,000,000....	—	—	1	—	—
	<u>1</u>	<u>2</u>	<u>4</u>	<u>4</u>	<u>4</u>

APPENDIX I

ACCOUNTANT’S REPORT

29 Income tax expenses

	Year ended 31 December			Four months ended 30 April	
	2006	2007	2008	2008	2009
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
				(unaudited)	
Current income tax					
- PRC corporate income tax	179,927	100,066	259,627	84,355	102,162
- PRC land appreciation tax	358	114,551	363,102	124,785	9,522
	<u>180,285</u>	<u>214,617</u>	<u>622,729</u>	<u>209,140</u>	<u>111,684</u>
Deferred income tax (note 20)					
- Origination and reversal of temporary differences	(17,804)	(9,159)	205,077	(15,093)	173,794
- Impact of change in tax rate.....	—	15,936	—	—	—
	<u>(17,804)</u>	<u>6,777</u>	<u>205,077</u>	<u>(15,093)</u>	<u>173,794</u>
	<u>162,481</u>	<u>221,394</u>	<u>827,806</u>	<u>194,047</u>	<u>285,478</u>

The income tax on the Group’s profit before income tax differs from the theoretical amount that would arise using the enacted tax rate of the home country of the companies comprising the Group as follows:

	Year ended 31 December			Four months ended 30 April	
	2006	2007	2008	2008	2009
	RMB’000	RMB’000	RMB’000	RMB’000	RMB’000
				(unaudited)	
Profit before income tax	421,665	329,488	2,082,797	368,773	1,059,016
Calculated at PRC corporate income tax rate of 33% (25% for year/period ended 31 December 2008 and 30 April 2008 and 2009).....	139,149	108,731	520,699	92,193	264,754
Expenses not deductible for tax	12,253	19,832	17,063	4,902	4,304
Tax losses not recognised as deferred income tax assets	460	1,401	5,074	2,181	2,474
Provision for land appreciation tax	358	114,551	363,102	124,785	9,522
Tax effect on land appreciation tax	(118)	(37,802)	(90,776)	(31,196)	(2,380)
Effect of change in tax rate (a)	—	15,936	—	—	—
Others	10,379	(1,255)	12,644	1,182	6,804
Income tax expenses	<u>162,481</u>	<u>221,394</u>	<u>827,806</u>	<u>194,047</u>	<u>285,478</u>

APPENDIX I

ACCOUNTANT’S REPORT

PRC corporate income tax is provided at the rate of 33% for each of the years ended 31 December 2006 and 2007 and 25% for the year ended 31 December 2008 and for the four months ended 30 April 2008 and 2009 of the profits for the PRC statutory financial reporting purpose, adjusted for those items, which are not assessable or deductible for the PRC corporate income tax purpose.

No Hong Kong profits tax has been provided for the years ended 31 December 2007 and 2008 and for the four months ended 30 April 2008 and 30 April 2009 as there is no assessable profit for these periods. No Hong Kong profits tax was provided for the year ended 31 December 2006 as the Group did not have any companies having business in Hong Kong during the year.

PRC land appreciation tax (“LAT”) is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds of sales of properties less deductible expenditures including lease charges of land use rights and all property development expenditures, which is included in the consolidated income statements as income tax. The Group has estimated the tax provision for LAT according to the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon completion of the property development projects and the tax authorities might disagree with the basis on which the provision for LAT is calculated.

- (a) On 16 March 2007, the National People’s Congress approved the Corporate Income Tax Law of the PRC (the “new CIT Law”). The new CIT Law reduces the corporate income tax rate from 33% to 25% with effect from 1 January 2008. Accordingly, the deferred income tax assets/liabilities of the Group that are expected to be reversed on or after 1 January 2008 were adjusted by using tax rate of 25%. The effect on the change in corporate income tax rate was recognised in the consolidated income statement for the year ended 31 December 2007.

30 Earnings per share

No earnings per share information is presented for the years ended 31 December 2006 and 2007 as its inclusion, for the purpose of this report, is not considered as meaningful due to the Reorganisation and the basis of preparation of the Financial Information as disclosed in note 1 above.

Basic earnings per share for the year ended 31 December 2008 and for the four months ended 30 April 2008 and 2009 is calculated by dividing the profit attributable to the equity holders of the Company by the weighted average number of ordinary shares in issue during the year/period.

	Year ended 31 December 2008	Four months ended 30 April	
	RMB’000	2008 RMB’000	2009 RMB’000
Profit attributable to equity holders of the Company	<u>1,254,991</u>	<u>174,726</u>	<u>773,538</u>
Weighted average number of shares in issue (thousand).....	<u>100,000</u>	<u>100,000</u>	<u>100,000</u>

The earnings per share as presented above has not taken into account the proposed capitalisation issue as described in note 17(h).

	<u>61,716</u>	<u>88,586</u>	<u>102,128</u>	<u>99,215</u>

33 Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. In the opinion of the directors of the Company, the related party transactions were carried out in the normal course of business and at terms mutually negotiated between the Group and the respective related parties.

APPENDIX I

ACCOUNTANT'S REPORT

The following transactions were carried out with related parties:

(a) **Purchase of services:**

	Year ended 31 December			Four months ended 30 April	
	2006	2007	2008	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000 (unaudited)	RMB'000
<i>Continuing Transactions:</i>					
Purchase of construction services					
— Shanghai Ditong, a company controlled by close family member of the Founder	<u>1,033,139</u>	<u>1,019,730</u>	<u>1,185,545</u>	<u>249,711</u>	<u>195,278</u>
<i>Non-continuing Transactions:</i>					
Purchase of construction services:					
— Other companies controlled by close family member of the Founder	75,636	3,700	2,117	1,393	—
— Companies controlled by the Founder	<u>1,100</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>
	<u>76,736</u>	<u>3,700</u>	<u>2,117</u>	<u>1,393</u>	<u>—</u>
Purchase of gardening services:					
— A company controlled by the Founder	<u>3,609</u>	<u>2,529</u>	<u>3,204</u>	<u>2,919</u>	<u>—</u>
Purchase of property design services:					
— An associated company of the Founder/the Group (i)	<u>12,631</u>	<u>17,524</u>	<u>10,656</u>	<u>3,395</u>	<u>2,598</u>
Purchase of consultancy services:					
— A company controlled by the Founder	33,884	17,658	3,333	1,111	1,111
— An associated company of the Founder	6,000	—	—	—	—
— Other companies controlled by close family member of the Founder	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>	<u>—</u>
	<u>39,884</u>	<u>17,658</u>	<u>3,333</u>	<u>1,111</u>	<u>1,111</u>
Commission fees paid/payable to:					
— Other companies controlled by close family member of the Founder	<u>16,926</u>	<u>6,082</u>	<u>18,872</u>	<u>4,885</u>	<u>6,104</u>

- (i) During the years ended 31 December 2006, 2007 and 2008 and the four months ended 30 April 2008 and 2009, the Group purchased the property design services from a related company, which was an associated company of the Founder prior to the acquisition of an associate in 2008 as set out in note 1(c). Subsequent to the acquisition, such related company became an associate of the Group.

APPENDIX I

ACCOUNTANT’S REPORT

- (i) Non-trading balances due from related parties included in other receivables are unsecured, interest-free and repayable on demand. None of the receivables from related parties is either past due or impaired.
- (ii) Trading balances due to related parties are unsecured, interest-free and repayable on demand.
- (iii) Non-trading balances due to related parties included in other payables are unsecured and repayable on demand. Of which approximately RMB66,190,000, RMB66,190,000 bear interest at rate of 8% per annum as at 31 December 2006 and 2007 respectively. Approximately RMB20,000,000 bears interest at 7.34% per annum as at 31 December 2006 whereas the rest of approximately RMB1,743,567,000, RMB323,703,000 and RMB4,500,000 are interest-free as at 31 December 2006, 2007 and 2008 respectively.
- (iv) The borrowing from a related party was interest-free, unsecured and repayable within one year from drawdown.

APPENDIX I

ACCOUNTANT'S REPORT

(d) Other transactions with related companies

As disclosed in note 11 above, as at 31 December 2007, the Group's completed properties held for sale of carrying value of approximately RMB118,232,000 were pledged as collateral for certain borrowings of three related companies. As at 31 December 2008, such pledge has been released.

(e) Key management compensation

	Year ended 31 December			Four months ended 30 April	
	2006	2007	2008	2008	2009
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Salaries and other short-term employee benefits	4,749	5,927	8,177	2,212	2,576

(unaudited)

34 Financial guarantees

The Group has arranged bank financing for certain purchasers of the Group's property units and provided guarantees to secure obligations of such purchasers for repayments. Such guarantees terminate upon the earlier of (i) issuance of the real estate ownership certificate which will generally be available within an average period of one to two years upon the completion of guarantee registration; or (ii) the satisfaction of mortgaged loan by the purchasers of properties.

Pursuant to the terms of the guarantees, upon default in mortgage payments by these purchasers, the Group is responsible to repay the outstanding mortgage principals together with accrued interest and penalty owed by the defaulted purchasers to the banks and the Group is entitled to take over the legal title and possession of the related properties. The Group's guarantee period starts from the dates of grant of the mortgages. As at 31 December 2006, 2007 and 2008 and 30 April 2009, the amount of outstanding guarantees for mortgages were approximately RMB528,603,000, RMB1,860,806,000, RMB2,662,065,000 and RMB3,112,399,000 respectively. The maximum credit risk exposure at each balance sheet date is the amount of outstanding guarantees.

The directors consider that the likelihood of default in payments by purchasers is minimal and therefore the financial guarantees measured at fair value is immaterial.

APPENDIX I

ACCOUNTANT’S REPORT

36 Acquisitions

In 2008, the Group acquired 100% of the equity interests in Nantong Rongsheng at cash consideration of RMB31,803,000. Nantong Rongsheng has signed certain land acquisition agreements and had fully paid the land premium at the date of acquisition. Prior to the acquisition by the Group, Nantong Rongsheng had no business activities except for the holding of the land use right acquisition agreements.

In 2008, the Group acquired 100% of the equity interests in Tianjin Tianxingjian at cash consideration of RMB454,180,000. Tianjin Tianxingjian owned certain land use rights in Tianjin before the acquisition by the Group. Prior to the acquisition by the Group, Tianjin Tianxingjian had no business activities except for the holding of the land use rights.

The activities of Nantong Rongsheng and Tianjin Tianxingjian do not constitute a business and the Group’s intention of such acquisition is to acquire the land use rights held by these two companies for future property developments. Accordingly, such acquisition is accounted for as if it is an acquisition of the underlying land use rights.

The allocation of acquisition considerations are as follows:

	At date of acquisition		
	Nantong Rongsheng	Tianjin Tianxingjian	Combined
	RMB’000	RMB’000	RMB’000
Property and equipment	48	—	48
Properties under development	157	53,408	53,565
Cash	4,693	4	4,697
Prepayment and other receivables	101,011	—	101,011
	<u>105,909</u>	<u>53,412</u>	<u>159,321</u>
Accruals and other payables	76,078	2	76,080
Net asset	29,831	53,410	83,241
Surplus on properties under development	1,972	400,770	402,742
Acquisition considerations	<u>31,803</u>	<u>454,180</u>	<u>485,983</u>
			RMB’000
Total acquisition consideration			485,983
Less: cash acquired			<u>(4,697)</u>
Cash outflow on acquisition (i)			<u>481,286</u>

(i) The cash outflow on the above acquisitions is presented within the operating activities in the consolidated statements of cash flows.

In 2009, the Group acquired 100% of the equity interest in Shanghai Mingbao at cash consideration of RMB2,500,000. Shanghai Mingbao owned business licence to conduct national interior and exterior decoration and renovation in the PRC. It’s the Group intention of such acquisition to acquire the business licence held by Shanghai Mingbao. Other than business licence, no other material assets and liabilities were acquired. As at 30 April 2009, the unsettled consideration of RMB500,000 was included in the other payables in the consolidated balance sheet.

APPENDIX I

ACCOUNTANT’S REPORT

37 Share option schemes

On 17 June 2008, the board of directors approved the below share option schemes:

- (i) share options to be granted to selected participants as incentives or rewards for their contribution to the Group (the “Share Option Scheme”). The exercise price per share under the Share Option Scheme will be a price determined by the Company’s directors, but shall not be less than the highest of (i) the closing price of the Company’s shares as stated in the daily quotations sheet issued by the Hong Kong Stock Exchange Limited (the “Stock Exchange”) on the date of grant; (ii) the average closing price of the Company’s shares as stated in the Stock Exchange’s daily quotation for the five trading days immediately preceding the date of the offer of grant; and (iii) the nominal value of the Company’s share. No option has been granted under the Share Option Scheme up to the date of this report;
- (ii) share options to be granted to the directors, employees, officers, consultants, and business associates of the Group (the “Pre-IPO Share Option Scheme”). The exercise price per share under the Pre-IPO Share Option Scheme shall be equal to 40% discount to the price that the Company’s shares to be issued pursuant to the initial public offering of the Company’s shares as detailed in the Company’s offering document dated 30 June 2008. On 17 June 2008, options to subscribe for an aggregate of 56,625,000 shares have been conditionally granted to 14 grantees, subject to the condition that the Group completes the IPO within six months from the date of adopting this Pre-IPO Share Option Scheme.

The Share Option Scheme and Pre-IPO Share Option Scheme are both conditional to the successful listing of the Company’s shares on the Stock Exchange. On 17 December 2008, as the Group has not completed the IPO, the Share Option Scheme and the Pre-IPO Share Option Scheme were cancelled and abandoned, and any options granted or agreed to be granted pursuant to the Pre-IPO Share Option Scheme were then forfeited.

On 9 September 2009, pursuant to the written resolution:

- (i) the directors approved a pre-IPO share option scheme. Up to the date of the report, 84,000,000 options have been granted to certain directors and employees of the Group.
- (ii) the directors approved a share option scheme. No options have been granted up to the date of the report.

38 Subsequent events

- (a) On 11 June 2009, the Group entered into a sale and purchase agreement (the “Sale and Purchase Agreement”) with S.I. Properties Holdings Limited (the “Purchaser”), a wholly-owned subsidiary of Shanghai Industrial Holdings Limited which is listed on The Stock Exchange of Hong Kong Limited, regarding the transfer of the entire equity interest in its subsidiary, Better Score Limited, to the Purchaser at a total consideration of RMB2 billion (the “Transaction”).

Pursuant to the Transaction:

- (i) Block Nos. 2, 8, 9 and 10 of Shanghai Bay (the “Properties”) will be transferred to the wholly-owned subsidiary of Better Score Limited. Other than the holding of the Properties, Better Score Limited and its subsidiaries are restricted in terms of their business scope;
- (ii) the Group retains the right to manage and control over the operational and financial matters of the Properties, including the development, construction and the sale of the Properties;

APPENDIX I**ACCOUNTANT'S REPORT**

- (iii) the Purchaser will be entitled to a fixed return from the Properties;
- (iv) the Group and the Purchaser has a non-cancellable options to acquire and to dispose the legal and beneficial interests in the Properties from the Purchaser and to the Group, respectively on 1 December 2011 (or such other date the parties may mutually agree).

On the basis that the risks and rewards of the Properties have not been transferred from the Group to the Purchaser, the directors are of their opinion that the Transaction, in substance, is a loan arrangement in accordance with the HKFRS. As a result, at the completion of the Transaction:

- (i) the Group continues to consolidate the Properties;
 - (ii) the consideration of RMB2 billion is regarded as a financial liability and measured at amortised cost using the effective interest method;
 - (iii) the fixed return payable to the Purchaser is regarded as finance costs.
- (b) As part of the financing, the Company and the Investors entered into the Deed of Amendment setting out the principal terms and conditions of the restructuring of the Notes. On 17 August 2009, the following notes restructuring transactions occurred pursuant to the terms of the Deed of Amendment:
- (i) the denomination of the Notes shall be changed from RMB to USD;
 - (ii) the Company shall pay to each Investor the amount of outstanding cash interest in the aggregate amount of approximately USD27 million;
 - (iii) the Company shall partially redeem the Notes held by the Investors in the aggregate principal amount of approximately USD193 million; and
 - (iv) after the partial redemption of the Notes as mentioned in (iii) above, the remaining outstanding Notes in the aggregate amount of USD490 million shall be restructured into the following two tranches:
 - Promissory Notes with a tenure of 18 months in the aggregate principal amount of USD325 million, which bear interest rates at 6% per annum within the first six-month period; 10% per annum after expiry of the first six-month period; and 15% per annum after the first twelve-month period. Subject to the acceleration event as defined in the Deed of Amendment, the Promissory Notes will bear interest rate at 18% per annum.
 - Convertible Notes with a tenure of two years in the aggregate principal amount of USD165 million.

APPENDIX I**ACCOUNTANT’S REPORT**

III SUBSEQUENT FINANCIAL STATEMENTS

No audited financial statements have been prepared for the Company and its subsidiaries in respect of any period subsequent to 30 April 2009. In addition, no dividend or distribution has been declared, made or paid by the Company or its subsidiaries in respect of any period subsequent to 30 April 2009.

Yours faithfully,
PricewaterhouseCoopers
Certified Public Accountants
Hong Kong

APPENDIX IV**PROPERTY VALUATION**

The following is the text of a letter, summary of values and valuation certificates, prepared for the purpose of incorporation in this document received from Jones Lang LaSalle Sallmanns Limited, an independent valuer, in connection with its valuation as at 31 July 2009 of the property interests of the Group.

The Board of Directors
Glorious Property Holdings Limited
Unit 3702A
37th Floor, Tower 2,
Lippo Centre, No. 89 Queensway,
Hong Kong

Dear Sirs,

In accordance with your instructions to value the properties in which Glorious Property Holdings Limited (the "Company") and its subsidiaries (hereinafter together referred to as the "Group") have interests in the People's Republic of China (the "PRC") and Hong Kong, we confirm that we have carried out inspections, made relevant enquiries and searches and obtained such further information as we consider necessary for the purpose of providing you with our opinion of the capital values of the property interests as at 31 July 2009 (the "date of valuation").

Our valuation of the property interests represents the market value which we would define as intended to mean "the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently, and without compulsion".

We have valued the property interests in Group I (except for the commercial units of property no. 2) which are held by the Group for sale and property interests in Group IV which are held by the Group for future development by direct comparison approach assuming sale of the property interest in its existing state with the benefit of immediate vacant possession and by making reference to comparable sales transactions as available in the relevant market.

For the purpose of our valuation, real estate developments for future development are those for which the Construction Work Commencement Permits have not yet been issued while the State-owned Land Use Rights Certificates have been obtained; real estate developments for sale are those for which the Construction Work Completion and Inspection Certificate/Tables or Building Ownership Certificates/Real Title Certificates thereof have been issued by the relevant local authority, these also include those property interests which have been contracted to be sold, but the formal assignment procedures of which have not yet been completed.

APPENDIX IV**PROPERTY VALUATION**

In valuing the property interests in Group II and property nos. 17 and 19 in Group III which are currently under development, we have assumed that they will be developed and completed in accordance with the latest development proposals provided to us by the Group. In arriving at our opinion of value, we have adopted the direct comparison approach by making reference to comparable sales evidence as available in the relevant market and have also taken into account the accrued construction cost and professional fees relevant to the stage of construction as at the date of valuation and the remainder of the cost and fees expected to be incurred for completing the development.

For the purpose of our valuation, real estate developments under development are those for which the Construction Work Commencement Permits have been issued while the Construction Work of Completion and Inspection Certificates/Tables of the buildings thereof have not been issued.

We have valued the property interests in Group III (except for property nos. 17 and 19) which are held by the Group for investment and the commercial units of property no. 2 in Group I by income approach by taking into account the net rental income of the properties derived from the existing leases or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have then been capitalised to determine the market value at an appropriate capitalisation rate. Where appropriate, reference has also been made to the comparable sale transactions as available in the relevant market.

For the property interests in Group V, which are property interests contracted to be acquired by the Group, the Group has entered into agreements with the relevant owner of the properties or the relevant government authorities. Since the Group has not yet obtained the State-owned Land Use Rights Certificates and/or the payment of the land premium has not yet been fully settled as at the date of valuation, we have attributed no commercial value to the property interests.

We have attributed no commercial value to the property interests in Group VI and VII, which are rented by the Group, due either to the short-term nature of the lease or the prohibition against assignment or sub-letting or otherwise due to the lack of substantial profit rent.

Our valuation has been made on the assumption that the seller sells the property interests in the market without the benefit of a deferred term contract, leaseback, joint venture, management agreement or any similar arrangement, which could serve to affect the values of the property interests.

No allowance has been made in our report for any charge, mortgage or amount owing on any of the property interests valued nor for any expense or taxation which may be incurred in effecting a sale. Unless otherwise stated, it is assumed that the properties are free from encumbrances, restrictions and outgoings of an onerous nature, which could affect their values.

In valuing the property interests, we have complied with all requirements contained in Chapter 5 and Practice Note 12 of the Rules Governing the Listing of Securities issued by The Stock Exchange of Hong Kong Limited; the RICS Valuation Standards (6th Edition) published by the Royal Institution of Chartered Surveyors; and the HKIS Valuation Standards on Properties (1st Edition 2005) published by the Hong Kong Institute of Surveyors.

APPENDIX IV**PROPERTY VALUATION**

As the Group is in compliance with paragraph 3(b) of Practice Note 16 of the Rules Governing the Listing of Securities issued by The Stock Exchange of Hong Kong Limited and section 6 of Companies Ordinance (Exemption of Companies and Prospectuses from Compliance with Provisions) Notice, the full details of the individual leased properties under operating leases have been excluded from the valuation certificates in our valuation report to this document, of which a summary is included in the Summary of Values and the certificate for leased properties.

We have relied to a very considerable extent on the information given by the Group and have accepted advice given to us on such matters as tenure, planning approvals, statutory notices, easements, particulars of occupancy, lettings, and all other relevant matters.

We have been shown copies of various title documents including State-owned Land Use Rights Certificates, Building Ownership Certificates, Real Estate Title Certificates and official plans relating to the property interests and have made relevant enquiries. Where possible, we have examined the original documents to verify the existing title to the property interests in the PRC and any material encumbrance that might be attached to the property interests or any tenancy amendment. We have relied considerably on the advice given by the Company’s PRC legal advisers — Commerce and Finance Law Offices, concerning the validity of the property interests in the PRC.

We have not carried out detailed measurements to verify the correctness of the areas in respect of the properties but have assumed that the areas shown on the title documents and official site plans handed to us are correct. All documents and contracts have been used as reference only and all dimensions, measurements and areas are approximations. No on-site measurement has been taken.

We have inspected the exterior and, where possible, the interior of the properties. However, we have not carried out investigation to determine the suitability of the ground conditions and services for any development thereon. Our valuation has been prepared on the assumption that these aspects are satisfactory and that no unexpected cost and delay will be incurred during construction. Moreover, no structural survey has been made, but in the course of our inspection, we did not note any serious defect. We are not, however, able to report whether the properties are free of rot, infestation or any other structural defect. No tests were carried out on any of the services.

We have had no reason to doubt the truth and accuracy of the information provided to us by the Group. We have also sought confirmation from the Group that no material factors have been omitted from the information supplied. We consider that we have been provided with sufficient information to arrive an informed view, and we have no reason to suspect that any material information has been withheld.

Unless otherwise stated, all monetary figures stated in this report are in Renminbi (RMB).

APPENDIX IV**PROPERTY VALUATION**

Our valuation is summarised below and the valuation certificates are attached.

Yours faithfully,
for and on behalf of
Jones Lang LaSalle Sallmanns Limited
Paul L. Brown
B.Sc. FRICS FHKIS
Director

Note: Paul L. Brown is a Chartered Surveyor who has 26 years' experience in the valuation of properties in the PRC and 29 years of property valuation experience in Hong Kong, the United Kingdom and the Asia-Pacific region.

The land premium was RMB493,700,000.
3. Pursuant to a State-owned Land Use Rights Certificate - Xi Xin Guo Yong (2005) No. 192, the land use rights of No.1 City Promotion Phase I and Phase IV (comprising this property and property no. 22) with a site area of approximately 85,583.40 sq.m. have been granted to Wuxi Wangjiarui for various terms of 40 years expiring on

APPENDIX IV

PROPERTY VALUATION

29 September 2044 for commercial use, 70 years expiring on 29 September 2074 for residential use and 50 years expiring on 29 September 2054 for other use. As advised by the Group, the Group is applying for the separate State-owned Land Use Rights Certificate for a portion of the parcel of land with a site area of approximately 58,916.60 sq.m, on which the property is situated, for residential use. For the remaining portion of the parcel of land with a site area of approximately 26,666.80 sq.m., the Group is applying for the separate State-owned Land Use Rights Certificate for hotel use.

4. Pursuant to 3 Construction Work Planning Permits - Xi Xin Gui Jian Xu Nos. 2005-192, 2006-15 and 2006-27 in favour of Wuxi Wangjiarui, No.1 City Promotion Phase I has been approved for construction.
5. Pursuant to 2 Construction Work Commencement Permits - Xi Xin Jian Shi Xu (2005) No.B74 and (2006) No.B41 in favour of Wuxi Wangjiarui, permission by the relevant local authority has been given to commence the construction of No.1 City Promotion Phase I.
6. Pursuant to 2 Pre-sale Permits - (2005) Yu Shou Zhun Zi Di No.068 and (2007) Yu Shou Zhun Zi Di No.086 in favour of Wuxi Wangjiarui, the Group is entitled to sell the buildings of No.1 City Promotion Phase I to purchasers.
7. Pursuant to 5 Construction Work Completion and Inspection Certificates, the construction of No.1 City Promotion Phase I has been completed and passed the acceptance inspection.
8. We have been provided with a legal opinion regarding the property interest by the Company’s PRC legal advisers, which contains, *inter alia*, the following:
 - a. The Group has paid the land premium in respect of the property in full and pursuant to a State-owned Land Use Rights Certificate, the Group has acquired the land use rights to the property. During the terms of the land use rights, the Group is entitled to occupy, use, lease, mortgage, transfer or otherwise dispose of the property.
 - b. The Group has obtained from the PRC Government all requisite approvals in respect of the construction of the property.
 - c. The Group is entitled to sell the property and legally owned the unsold units of the property.
 - d. The Group should not have any legal impediment to obtain the relevant Building Ownership Certificate.
9. A summary of major certificates/approvals is shown as follows:

a. State-owned Land Use Rights Grant Contract	Yes
b. State-owned Land Use Rights Certificate	Yes
c. Construction Work Planning Permit	Yes
d. Construction Work Commencement Permit	Yes
e. Pre-sale Permit	Yes
f. Construction Work Completion and Inspection Certificate/Table	Yes.

		Service facilities	21,138.00	
		Sub-total:	<u>123,653.00</u>	
		Total:	<u>778,295.96</u>	

As advised by the Group, the underground commercial area of the property is scheduled to be completed in June 2014 and the remainder of the property is scheduled to be completed in December 2012.

As advised by the Group, the total construction cost is estimated to be approximately RMB9,041,657,000, of which RMB3,257,127,000 had been paid up to the date of valuation.

The land use rights of the property have been granted for various terms with the expiry dates on 30 August 2054 and 30 August 2074 for public facility and residential uses.

Notes:

1. Shanghai Xintai Property Development Co., Ltd. ("Shanghai Xintai") is a wholly-owned subsidiary of the Company.
2. Pursuant to 6 Real Estate Title Certificates - Hu Fang Di Xu Zi(2004) Nos. 044905, 044907 to 044909 and Hu Fang Di Xu Zi(2005) Nos. 009499 and 009500, the land use rights of 6 parcels of land of the property with a total site area of approximately 161,894 sq.m. have been granted to Shanghai Xintai for various terms with the expiry dates on 30 August 2054 and 30 August 2074 for public facility and residential uses.

APPENDIX IV

PROPERTY VALUATION

3. Pursuant to 7 Construction Work Planning Permits - Hu Gui Jian (2005) 00051122F02913, Hu Gui Jian (2006)00060802F02355, Hu Gui Jian (2006) 00060925F03030, Hu Gui Jian (2008) 00080318F00613, Hu Gui Jian (2008) 0008119F02660, Hu Gui Jian (2008) 00080529F01241 and Hu Gui Jian (2009) FA31000020091630, issued by the Planning Administration Bureau of Shanghai in favour of Shanghai Xintai, Shanghai Bay Phases I, IIA and a hotel building of Phase III have been approved for construction.
4. Pursuant to 7 Construction Work Commencement Permits in favour of Shanghai Xintai, permission by the relevant local authority has been given to commence construction work with respect to the portions mentioned in note 3.
5. Pursuant to 3 Pre-sale Permits - Xu Hui Fang Di (2007) Yu Zi Nos. 0000936, 0001061 and 0000412 in favour of Shanghai Xintai, the Group is entitled to sell 7 buildings of Phase I with a total gross floor area of approximately 188,271.72 sq.m. to purchasers.
6. As advised by the Group, various residential units of phase I with a total gross floor area of approximately 111,587.11 sq.m. were contracted to be sold at a total consideration of RMB3,447,309,372.69 but have not been handed over to the purchasers. In arriving at our opinion on the capital value of the property, we have taken into account the contracted prices of such portions of the property.
7. In the valuation of this property, we have deducted the additional value of the land interest which is contributed by the underground commercial units of Phase II due to absence of proper Construction Work Planning Permit and Construction Work Commencement Permit. However, for reference purpose, we are of the opinion that the above additional value of the land interest contributed to the property as at the date of valuation would be RMB1,746,290,000 assuming all relevant permits have been obtained and the planned gross floor area of approximately 148,751.3 sq.m. have been approved.
8. We have been provided with a legal opinion regarding the property interest by the Company’s PRC legal advisers, which contains, *inter alia*, the following:
 - a. The Group has paid the land premium in respect of the property in full and pursuant to various Real Estate Title Certificates, the Group has acquired the land use rights of the property. During the terms of the land use rights, the Group is entitled to occupy, use, lease, mortgage, transfer or otherwise dispose of the property. A portion of the property with a site area of 178,734 sq.m. is subject to a mortgage, the Group is entitled to occupy and use but cannot lease, mortgage, transfer or otherwise dispose of the portion of the property without prior written consent of the corresponding creditor.
 - b. The Group has obtained from the PRC Government requisite approvals in respect of the construction of Phase I, portion of Phase II and the hotel building of Phase III.
 - c. After obtaining relevant construction permits, the Group should not have any legal impediment to develop the property.
 - d. The Group is freely entitled to sell the 7 buildings of the property mentioned in note 5.
9. A summary of major certificates/approvals is shown as follows:

a. Real Estate Title Certificate (For land only)	Yes
b. Construction Work Planning Permit	Portion
c. Construction Work Commencement Permit	Portion
d. Pre-sale Permit	Portion

Notes:

1. Liaoning Yangguang Xindi Property Development Co., Ltd. ("Liaoning Yangguang Xindi") is a wholly-owned subsidiary of the Company.
2. Pursuant to a State-owned Land Use Rights Grant Contract dated 21 October 2008 entered into between Shenyang Planning and State-owned Land Resource Bureau and Liaoning Yangguang Xindi, the land use rights of a parcel

APPENDIX IV

PROPERTY VALUATION

of land with a site area of approximately 61,028 sq.m. were contracted to be granted to Liaoning Yangguang Xindi for terms expiring on 21 October 2058 for residential use and 21 October 2048 for commercial use. The land premium was RMB167,155,692.

3. Pursuant to a State-owned Land Use Rights Certificate - Shen Yang Guo Yong (2008) Di No. 0240, the land use rights of a parcel of land with a site area of approximately 61,028 sq.m. have been granted to Liaoning Yangguang Xindi for terms expiring on 21 October 2058 for residential use and 21 October 2048 for commercial use.
4. Pursuant to a Land Pre-auction Agreement, a parcel of land with a site area of approximately 200,300 sq.m. (comprising the remaining portion of this property with a site area of approximately 34,405.7 sq.m. and the land of property no. 35) has been agreed to be granted to Liaoning Yangguang Xindi at a consideration of RMB548,621,700. The Group has paid the consideration in full.
5. Pursuant to a Construction Land Planning Permit — Di Zi Di No. 210100200900094 in favour of Liaoning Yangguang Xindi, permission towards the planning of a parcel of land with a site area of approximately 34,405.7 sq.m. has been granted to Liaoning Yangguang Xindi.
6. As advised by the Group, the relevant land grant procedures of the land use rights of the property with a site area of approximately 34,405.7 sq.m. are in process. In the valuation of this property, we have attributed no commercial value to such portion of the land because the land use rights are not vested in the Group. However, for reference purpose, we are of the opinion that the capital value of the portion of the land as at the date of valuation would be RMB160,980,000 assuming all relevant title certificates have been obtained and the property could be freely transferred.
7. Pursuant to a Construction Work Planning Permit - Jian Zi Di No. 210100200900001 in favour of Liaoning Yangguang Xindi, 14 buildings of Sunny Town Phase III with a total gross floor area of approximately 61,829 sq.m. have been approved for construction.
8. Pursuant to 2 Construction Work Commencement Permits - No.210107200904020101 and 210107200907300101 in favour of Liaoning Yangguang Xindi, permission by the relevant local authority has been given to commence the construction mentioned in note 6.
9. Pursuant to a Pre-sales Permit - Shen Fang Yu Shou Di No. 09112 in favour of Liaoning Yangguang Xindi, the Group is entitled to sell portion of the property with a total gross floor area of approximately 36,228.24 sq.m. to purchasers.
10. We have been provided with a legal opinion regarding the property interest by the Company’s PRC legal advisers, which contains, *inter alia*, the following:
 - a. The Group has paid the land premium in respect of the property in full and pursuant to a State-owned Land Use Rights Certificate, the Group has acquired the land use rights to portion of the property with a site area of approximately 61,028 sq.m. During the terms of the land use rights, the Group is entitled to occupy, use, lease, mortgage, transfer or otherwise dispose of the property.
 - b. The Group has obtained from the PRC Government all requisite approvals in respect of the construction of 14 buildings of the property.
 - c. The Group is entitled to sell portion of the property with a total gross floor area of approximately 36,228.24 sq.m..
11. A summary of major certificates/approvals is shown as follows:

a. State-owned Land Use Rights Grant Contract	Yes
b. State-owned Land Use Rights Certificate	Yes
c. Construction Work Planning Permit	Portion
d. Construction Work Commencement Permit	No

As advised by the Group, such buildings will be demolished soon.	413,020,000

Notes:

1. Anhui Hengmao Property Development Co., Ltd. (“Anhui Hengmao”) is a wholly-owned subsidiary of the Company.
2. Pursuant to a State-owned Land Use Rights Grant Contract - He Di Shi Qu Jing Ying (2008) No. 39, the land use rights of Hefei Villa Glorious Phases I to IV (comprising this property and property no.14) with a site area of approximately 72,478.30 sq.m. were contracted to be granted to Anhui Hengmao for a term of 40 and 70 years for residential, commercial and office uses. The total land premium was RMB380,511,075.
3. Pursuant to a State-owned Land Use Rights Certificate - He Guo Yong (2008) No. 365, the property use rights of Hefei Villa Glorious Phases I to IV (comprising this property and property no.14) with a site area of approximately 65,178.9 sq.m. have been granted to Anhui Hengmao for various terms expiring on 30 April 2078 for residential use and 30 April 2048 for commercial and office uses respectively.
4. In the valuation of this property, we have attributed no commercial value to a portion of the land with a site area of approximately 7,299.4 sq.m. without any title certificate. However, for reference purpose, we are of the opinion that the capital value of the portion of the land as at the date of valuation would be RMB23,400,000 assuming all relevant title certificates have been obtained, the property could be freely transferred, the old buildings have been demolished and the Group has no liability in the relocation costs.
5. We have been provided with a legal opinion regarding the property interest by the Company’s PRC legal advisers which contains, *inter alia*, the following:
 - a. The Group has paid the land premium in respect of the site in full and pursuant to a State-owned Land Use Rights Certificate, the Group has acquired the land use rights to the site with a site area of approximately 65,178.9 sq.m. During the terms of the land use rights, the Group is entitled to occupy, use, lease, mortgage, transfer or otherwise dispose of the land use rights to such portion of the property.

APPENDIX IV**PROPERTY VALUATION**

- b. The Group should not have any legal impediment in obtaining the land use rights to the remaining portion of the property with a site area of approximately 7,299.4 sq.m.

- c. According to a Mortgage Contract, the land use rights of portion of the land with a site area of approximately 23,666.67 sq.m. registered on the State-owned Land Use Rights Certificate — He Guo Yong (2008) No. 365 are mortgaged to Anhui Branch of China Construction Bank dated 20 March 2009 for a loan expiring on 19 March 2011. The Group cannot transfer as gift, assign, sell, lease, further mortgage or otherwise dispose of the mortgage portion of the property to any third party without prior written consent of the corresponding creditor.

- 6. A summary of major certificates/approvals is shown as follows:
 - a. State-owned Land Use Rights Grant Contract Yes
 - b. State-owned Land Use Rights Certificate Portion
 - c. Construction Work Planning Permit No
 - d. Construction Work Commencement Permit No

31.	3 parcels of land of Baoshan Gaojing located at the western side of Gaojing Road and the northern side of Yin’gao West Road Baoshan District Shanghai The PRC	The property comprises 3 parcels of land with a total site area of approximately 368,957 sq.m.. As advised by the Group, the property is planned to be developed into a residential development with a total planned gross floor area of approximately 898,709 sq.m..	A number of old buildings are erected on the property. As advised by the Group, such buildings will be demolished soon.	No commercial value

Notes:

1. Shanghai Shengtong Property Development Co., Ltd. (“Shanghai Shengtong”) is a wholly-owned subsidiary of the Company.
2. Pursuant to a Land Acquisition Agreement - Hu Bao Zheng (2003) No. 73 entered into between Shanghai Baoshan Land Reserve Center and Shanghai Baoshan Construction Land Office, Shanghai Baoshan Construction Land Office was entitled to use a parcel of land with a site area of approximately 368,957 sq.m. at a total consideration of RMB74,482,692.49. The consideration will be paid by Shanghai Shengtong. As advised by the Group, Shanghai Shengtong has paid up the relevant consideration to Shanghai Baoshan Construction Land Office.
3. Pursuant to a Supplementary Agreement — Bao Zheng Xie Bu (2007) No. 2 entered into between Shanghai Baoshan Land Reserve Center and Shanghai Shengtong, the consideration mentioned in note 2 was changed to RMB189,674,808. The consideration will be paid to the People’s Government of Baoshan District by Shanghai Shengtong.
4. Pursuant to a Document — Hu Bao Fu Tu (2004) No. 85 issued by the People’s Government of Baoshan District, the land use rights of a parcel of land with a site area of approximately 63,734 sq.m would be granted to Shanghai Shengtong for a term of 70 years for residential use.
5. Pursuant to a Document — Hu Bao Fu Tu (2004) No. 267 issued by the People’s Government of Baoshan District, the land use rights of a parcel of land with a site area of approximately 142,642.80 sq.m will be granted to Shanghai Shengtong for a term of 70 years for residential use
6. As advised by the Group, the residential development, known as Baoshan Gaojing, will be developed into 2 phases. Phase I and phase II have a total site area of approximately 206,376.8 sq.m. and 162,580.20 sq.m. respectively.
7. As at the date of valuation, the property has not been assigned to the Group and thus the title of the property has not been vested in the Group. Therefore we have attributed no commercial value to the property. However, for reference purpose, we are of the opinion that the capital value of the property as at the date of valuation would

APPENDIX IV**PROPERTY VALUATION**

be RMB6,818,000,000 assuming all relevant title certificates have been obtained, the property could be freely transferred, the old buildings have been demolished and the Group has no liability in the relocation costs.

8. We have been provided with a legal opinion regarding the property interest by the Company’s PRC legal advisers which states that after completing the land auction procedure, obtaining the State-owned Land Use Rights Grant Contract and paying up the land premium, the Group should have no material legal impediment to obtain the Real Estate Title Certificate of the property.

41.	25 leased properties located in the PRC	<p>The properties comprise 25 buildings or units with a total lettable area of approximately 20,344.38 sq.m. and were mainly completed in various stages between 1994 and 2007.</p> <p>The properties are rented to the Group from various independent third parties for various terms.</p>	The properties are currently occupied by the Group for office purpose.	No commercial value

Notes:

1. Pursuant to 25 Tenancy Agreements entered into between the Group and various independent third parties, 25 buildings or units with a total lettable area of approximately 20,344.38 sq.m. are rented to the Group from various independent third parties for various terms at a total annual rent of RMB16,228,236.96.
2. We have been provided with a legal opinion on the legality of the Tenancy Agreements to the properties issued by the Company's PRC legal advisers, which contains, *inter alia*, the following:
 - a. The Tenancy Agreements are legal, valid and binding.
 - b. The Group has the rights to occupy the properties within the terms of the Tenancy Agreements for their designated use.
 - c. Pursuant to various Building Ownership Certificates/Real Estate Title Certificates, Lease Registration Certificates or consent letters of lessors, 21 buildings or units with a total lettable area of approximately 15,137.04 sq.m. are legally owned by the lessors and the lessors have the rights to lease the properties to the Group.
 - d. For the remaining 4 buildings or units with a total lettable area of approximately 5,207.34 sq.m., the relevant lessors have not submitted the Tenancy Agreements to the relevant local authorities for registration, but non-registration could not affect the validity of the Tenancy Agreements.

Major taxes applicable to property developers

INCOME TAX

According to the “Income Tax Law of The People’s Republic of China for Enterprises with Foreign Investment and Foreign Enterprises” enacted by National People’s Congress on 9 April 1991 and enforced on 1 July 1991 and its detailed rules enacted by the State Council on 30 June 1991, the rate of enterprise income tax for foreign investment enterprises and enterprise income tax for entities and premises engaged in production and operation by foreign enterprises in China shall be 30%, and the rate of local income tax shall be 3%.

According to the PRC Enterprise Tax Law enacted by the National People’s Congress on 16 March 2007 and enforced from 1 January 2008 onwards, a uniform income tax rate of 25% will be applied towards foreign investment enterprise and foreign enterprises which have set up production and operation facilities in the PRC as well as PRC enterprises.

BUSINESS TAX

Pursuant to the “Interim Regulations of the People’s Republic of China on Business Tax” enacted by the State Council on 13 December 1993 and enforced on 1 January 1994 and its “Detailed Implementation Rules on the Provisional Regulations of The People’s Republic of China on Business Tax” issued by the Ministry of Finance on 25 December 1993, the tax rate on transfer of immovable properties, their superstructures and attachments is 5%.

LAND APPRECIATION TAX

According to the requirements of the Provisional Regulations of The People’s Republic of China on Land Appreciation Tax (the “Land Appreciation Provisional Regulations”) which was enacted on 13 December 1993 and effected on 1 January 1994, and the Detailed Implementation Rules on the Provisional Regulations of The People’s Republic of China on Land Appreciation Tax (the “Land Appreciation Detailed Implementation Rules”) which was enacted on 27 January 1995 and enforced back to 1 January 1994, any appreciation amount gained from taxpayer’s transfer of property shall be subject to land appreciation tax. Land appreciation tax shall be subject to a regime of four level progressive rates: 30% on the appreciation amount not exceeding 50% of the sum of deductible items; 40% on the appreciation amount exceeding 50% but not exceeding 100% of the sum of deductible items; 50% on the appreciation amount exceeding 100% but not exceeding 200% of the sum of deductible items; and 60% on the appreciation amount exceeding 200% of the sum of deductible items. The related deductible items aforesaid include the following:

- amount paid for obtaining the land use right;
- costs and expenses for development of land;
- costs and expenses of new buildings and ancillary facilities, or estimated prices of old buildings and constructions;

APPENDIX V**TAXATION**

- related tax payable for transfer of property;
- other deductible items as specified by MOF.

According to the requirements of the Land Appreciation Provisional Regulations, the Land Appreciation Detailed Implementation Rules and the Notice issued by the MOF in respect of the Levy and Exemption of Land Appreciation Tax for Development and Transfer Contracts signed before 1 January 1994 which was announced by the MOF and State Administration of Taxation on 27 January 1995, Land Appreciation Tax shall be exempted under any one of the following circumstances:

- Taxpayers building ordinary standard residential properties for sale (i.e. residential properties built in accordance with the local standard for general civilian residential properties. Deluxe apartments, villas, resorts etc. are not under the category of ordinary standard residential properties), where the appreciation amount does not exceed 20% of the sum of deductible items;
- Property taken over and repossessed according to laws due to the construction requirements of the State;
- Due to redeployment of work or improvement of living standard, individuals transfer originally self-used residential property, of which they have been living there for 5 years or more, and after obtaining tax authorities’ approval;
- For property transfer contract which were signed before 1 January 1994, whenever the properties are transferred, the Land Appreciation Tax shall be exempted;
- If the property assignments were signed before 1 January 1994 or the project proposal has been approved and that capital was injected for development in accordance with the conditions agreed, the Land Appreciation Tax shall be exempted if the properties are transferred within 5 years after 1 January 1994 for the first time. The date of signing the contract shall be the date of signing the Sale and Purchase Agreement. Particular property projects which are approved by the Government for the development of the whole piece of land and long-term development, of which the properties are transferred for the first time after the 5-year tax-free period, after auditing being conducted by the local financial and tax authorities, and approved by MOF and the State Administration of Taxation, the tax-free period would then be appropriately prolonged.

After the issuance of the “Land Appreciation Provisional Regulations” and the “Land Appreciation Detailed Implementation Rules”, due to the relatively long period required for property development and transfer, many districts, while they were implementing the regulations and rules, did not mandatorily require the property development enterprises to declare and pay the Land Appreciation Tax. Therefore, in order to assist the local tax authorities in the collection of Land Appreciation Tax, the MOF, State Administration of Taxation, the Ministry of Construction and the Ministry of Land and Resource had separately and jointly issued several notices to restate the following: After the assignments are signed, the taxpayers should declare the tax to the local tax authorities where the properties are located, and pay the Land Appreciation Tax in accordance with

the amount as calculated by the tax authority and within the specified time limit. For those who fail to acquire proof of tax payment or tax exemption from the tax authorities, the property administration authority shall not process the relevant title change procedures, and shall not issue the property title certificate.

State Administration of Taxation also issued the “Notice issued by State Administration of Taxation in respect of the Serious Handling of Administration Work in relation to the Collection of Land Appreciation Tax” on 10 July 2002 to request local tax authorities to modify the management system of Land Appreciation Tax collection and operation procedures, to build up a proper tax return system for Land Appreciation Tax, to improve the methods of pre-levying for the pre-sale of properties. That notice also pointed out that the preferential policy of Land Appreciation Tax exemption for first time transfer of properties under property development contracts signed before 1 January 1994 or project proposal that has been approved and capital was injected for development, is expired, and that such tax shall be levied again.

State Administration of Taxation issued the “Notice of State Administration of Taxation in respect of the Strengthening of Administration Work in relation to the Collection of Land Appreciation Tax” on 2 August 2004 and the “Notice of State Administration of Taxation in respect of the Further Strengthening of Administration Work in relation to the Collection of Land Appreciation Tax and Land Use Tax in Cities and Towns” on 5 August 2004. The aforesaid notices point out that the administration work in relation to the collection of land appreciation tax should be further strengthened. The preferential policy of Land Appreciation Tax exemption for first time transfer of properties under property development contracts signed before 1 January 1994 is expired and such tax shall be levied again. Where such taxes were still not levied, the situation should be corrected immediately. Also, the notice required that the system of tax declaration and tax sources registration in relation to the land appreciation tax should be further improved and perfected.

On 2 March 2006, the MOF and State Administration of Taxation issued the “Notice of Certain Issues Regarding Land Appreciation Tax”. The notice clarifies the relevant issues regarding land appreciation tax as follows:

(i) As to the Tax Collection and Exemption in the Sale of Ordinary Standard Residential Properties Built by Taxpayer

The notice sets out the recognised standards for ordinary standard residential properties. Where any developers build ordinary standard residential properties as well as other commercial properties, the value of land appreciation shall be assessed separately. In respect of ordinary standard residential properties for which application for tax exemption has been filed with the tax authority at the locality of the property before the notice is issued and for which land appreciation tax exemption has been granted by the tax authority on the basis of the standards of ordinary residential properties originally set down by the people’s government of the province, autonomous region or municipality directly under the Central Government, no adjustment shall be retroactively made.

(ii) As to the Advance Collection of Land Appreciation Tax as well as the Settlement

All regions shall further improve the measures for the advance collection of land appreciation tax, and decide the advance collection rate in a scientific and reasonable manner, and adjust it at a proper time according to the level of value appreciation in the property industry and market conditions within the region and on the basis of the specific property categories, namely, ordinary standard residential properties, non-ordinary standard residential properties and commercial properties. After a project is completed, the relevant settlement shall be handled in a timely manner, with any overpayment refunded or any underpayment being made up;

If any tax pre-payment is not paid within the advance collection period, an overdue fines shall be imposed additionally as of the day following the expiration of the prescribed advance collection period, according to the relevant provisions of the Tax Collection and Administration Law and its detailed rules for implementation;

As to any property project that has been completed and gone through the acceptance as well, where the floor area of the property as transferred makes up 85% or more in the salable floor area, the tax authority may require the relevant taxpayer to conduct the settlement of land appreciation tax on the transferred property according to the matching principles regarding the proportion between the income as generated from the transfer of property and the amount under the item of deduction. The specific method of settlement shall be prescribed by the local tax authority of a province, autonomous region, municipality directly under the Central Government, or a city under separate state planning;

On 28 December 2006, the State Administration of Taxation issued the Notice on the Administration of the Settlement of Land Appreciation Tax of Property Development Enterprises, which came into effect on 1 February 2007. The notice set out further provisions concerning the settlement of land appreciation tax by property developers by clarifying details regarding units responsible for settlement of land appreciation tax, requirements, materials to be submitted, auditing and verification, recognition of revenue of indirect sale and self-use properties, deductible items and handling of transfer after tax is imposed and settled etc. Local provincial tax authorities can formulate their own implementation rules according to the notice and local situation.

DEED TAX

Pursuant to the “Interim regulations of the People’s Republic of China on Deed Tax” enacted by the State Council on 7 July 1997 and enforced on 1 October 1997, the transferee, whether an entity or individual, of the title to a land site or building in the PRC shall have to pay deed tax. The rate of deed tax is 3%-5%. The governments of provinces, autonomous regions and municipalities directly under the central government may, within the foresaid range, determine and report their effective tax rates to the MOF and the State Administration of Taxation for the record. Pursuant to the “Implementation Provisions on Deed Tax in Guangdong Province” enacted by the People’s Government of Guangdong on 10 June 1998, and enforced on 1 October 1997, the rate of deed tax within Guangdong is 3%.

APPENDIX V**TAXATION**

URBAN LAND USE TAX

Pursuant to the “Provisional Regulations of the People’s Republic of China Governing Land Use Tax in Cities and Towns” enacted by the State Council on 27 September 1988 and enforced on 1 November 1988, the land use tax in respect of urban land is levied according to the area of relevant land. The annual tax shall be between RMB0.2 and RMB10 per sq.m. of urban land collected according to the tax rate determined by local tax authorities. According to the “Notice on Land Use Tax Exemption of Foreign Investment Enterprises and Institutions of Foreign Enterprises in China” enacted by the MOF on 2 November 1988 and the “Approval on Land Use Tax Exemption of Foreign Investment Enterprises” issued by the State Administration of Taxation on 27 March 1997, land use fee instead of land use tax shall be collected from a foreign investment enterprise. However, the Provisional Regulations of the People’s Republic of China Governing Land Use Tax in Cities and Towns was revised by the State Council on 31 December 2006. As of 1 January 2007, land use tax shall be collected from foreign investment enterprise. The annual tax shall be between RMB0.6 and RMB30.0 per sq.m. of urban land.

BUILDINGS TAX

Under the “Interim Regulations of the People’s Republic of China on Buildings Tax” enacted by the State Council on 15 September 1986 and enforced on 1 October 1986, buildings tax shall be 1.2% if it is calculated on the basis of the residual value of a building, and 12% if it is calculated on the basis of the rental.

STAMP DUTY

Under the “Interim regulations of the People’s Republic of China on Stamp Duty” enacted by the State Council on 6 August 1988 and enforced on 1 October 1988, for property rights transfer instruments, including those in respect of property ownership transfer, the rate of stamp duty shall be 0.05% of the amount stated therein; for permits and certificates relating to rights, including property title certificates and land use rights certificates, stamp duty shall be levied on an item basis of RMB5 per item.

MUNICIPAL MAINTENANCE TAX

Under the “Interim Regulations of the People’s Republic of China on Municipal Maintenance Tax” enacted by the State Council on 8 February 1985, any taxpayer, whether an entity or individual, of product tax, value-added tax or business tax shall be required to pay municipal maintenance tax. The tax rate shall be 7% for a taxpayer whose domicile is in an urban area, 5% for a taxpayer whose domicile is in a county and a town, and 1% for a taxpayer whose domicile is not in any urban area or county or town. Under the “Circular Concerning Temporary Exemption from Municipal Maintenance Tax and Education Surcharge For Enterprises with Foreign Investment and Foreign Enterprises” and the “Approval on Exemption of Municipal Maintenance Tax and Education Surcharge in Foreign-Invested Freightage Enterprises” issued by State Administration of Taxation on 25 February 1994 and on 14 September 2005 respectively, whether foreign investment enterprises are

subject to municipal maintenance tax shall be determined in accordance with notices issued by the State Council; and such tax is not applicable to enterprises with foreign investment for the time being, until further explicit stipulations are issued by the State Council.

EDUCATION SURCHARGE

Under the “Interim Provisions on Imposition of Education Surcharge” enacted by the State Council on 28 April 1986 and revised on 7 June 1990 and 20 August 2005, a taxpayer, whether an entity or individual, of product tax, value-added tax or business tax shall pay an education surcharge, unless such obliged taxpayer is instead required to pay a rural area education surcharge as provided by the “Notice of the State Council on Raising Funds for Schools in Rural Areas”. Under the supplementary Notice Concerning Imposition of Education Surcharge” issued by the State Council on 12 October 1994, the “Circular Concerning Temporary Exemption from Municipal Maintenance Tax and Education Surcharge For Enterprises with Foreign Investment and Foreign Enterprises” and the “Reply on Exemption of Municipal Maintenance Tax and Education Surcharge in Foreign-Invested Freightage Enterprises” issued by State Administration of Taxation on 25 February 1994 and on 14 September 2005 respectively, whether foreign investment enterprises are subject to the education surcharge shall be determined in accordance with notices issued by the State Council; and such tax is not applicable to enterprises with foreign investment for the time being, until further explicit stipulations are issued by the State Council.

APPENDIX VI

SUMMARY OF THE CONSTITUTION OF THE COMPANY AND CAYMAN ISLANDS LAW

Set out below is a summary of certain provisions of the Memorandum and Articles of the Company and of certain aspects of Cayman company law.

The Company was incorporated in the Cayman Islands as an exempted company with limited liability on 27 July 2007 under the Companies Law. The Memorandum and the Articles comprise its constitution.

1. MEMORANDUM OF ASSOCIATION

- (a) The Memorandum states, inter alia, that the liability of members of the Company is limited to the amount, if any, for the time being unpaid on the Shares respectively held by them and that the objects for which the Company is established are unrestricted (including acting as an investment company), and that the Company shall have and be capable of exercising all the functions of a natural person of full capacity irrespective of any question of corporate benefit, as provided in section 27(2) of the Companies Law and in view of the fact that the Company is an exempted company that the Company will not trade in the Cayman Islands with any person, firm or corporation except in furtherance of the business of the Company carried on outside the Cayman Islands.
- (b) The Company may by special resolution alter its Memorandum with respect to any objects, powers or other matters specified therein.

2. ARTICLES OF ASSOCIATION

The Articles were adopted on 9 September 2009. The following is a summary of certain provisions of the Articles:

(a) Directors

- (i) Power to allot and issue shares and warrants

Subject to the provisions of the Companies Law and the Memorandum and Articles and to any special rights conferred on the holders of any shares or class of shares, any share may be issued with or have attached thereto such rights, or such restrictions, whether with regard to dividend, voting, return of capital, or otherwise, as the Company may by ordinary resolution determine (or, in the absence of any such determination or so far as the same may not make specific provision, as the board may determine). Subject to the Companies Law, the rules of any Designated Stock Exchange (as defined in the Articles) and the Memorandum and Articles, any share may be issued on terms that, at the option of the Company or the holder thereof, they are liable to be redeemed.

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

The board may issue warrants conferring the right upon the holders thereof to subscribe for any class of shares or securities in the capital of the Company on such terms as it may from time to time determine.

Subject to the provisions of the Companies Law and the Articles and, where applicable, the rules of any Designated Stock Exchange (as defined in the Articles) and without prejudice to any special rights or restrictions for the time being attached to any shares or any class of shares, all unissued shares in the Company shall be at the disposal of the board, which may offer, allot, grant options over or otherwise dispose of them to such persons, at such times, for such consideration and on such terms and conditions as it in its absolute discretion thinks fit, but so that no shares shall be issued at a discount.

Neither the Company nor the board shall be obliged, when making or granting any allotment of, offer of, option over or disposal of shares, to make, or make available, any such allotment, offer, option or shares to members or others with registered addresses in any particular territory or territories being a territory or territories where, in the absence of a registration statement or other special formalities, this would or might, in the opinion of the board, be unlawful or impracticable. Members affected as a result of the foregoing sentence shall not be, or be deemed to be, a separate class of members for any purpose whatsoever.

(ii) Power to dispose of the assets of the Company or any subsidiary

There are no specific provisions in the Articles relating to the disposal of the assets of the Company or any of its subsidiaries. The Directors may, however, exercise all powers and do all acts and things which may be exercised or done or approved by the Company and which are not required by the Articles or the Companies Law to be exercised or done by the Company in general meeting.

(iii) Compensation or payments for loss of office

Pursuant to the Articles, payments to any Director or past Director of any sum by way of compensation for loss of office or as consideration for or in connection with his retirement from office (not being a payment to which the Director is contractually entitled) must be approved by the Company in general meeting.

(iv) Loans and provision of security for loans to Directors

There are provisions in the Articles prohibiting the making of loans to Directors.

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

- (v) Disclosure of interests in contracts with the Company or any of its subsidiaries.

A Director may hold any other office or place of profit with the Company (except that of the auditor of the Company) in conjunction with his office of Director for such period and, subject to the Articles, upon such terms as the board may determine, and may be paid such extra remuneration therefor (whether by way of salary, commission, participation in profits or otherwise) in addition to any remuneration provided for by or pursuant to any other Articles. A Director may be or become a director or other officer of, or otherwise interested in, any company promoted by the Company or any other company in which the Company may be interested, and shall not be liable to account to the Company or the members for any remuneration, profits or other benefits received by him as a director, officer or member of, or from his interest in, such other company. Subject as otherwise provided by the Articles, the board may also cause the voting power conferred by the shares in any other company held or owned by the Company to be exercised in such manner in all respects as it thinks fit, including the exercise thereof in favour of any resolution appointing the Directors or any of them to be directors or officers of such other company, or voting or providing for the payment of remuneration to the directors or officers of such other company.

Subject to the Companies Law and the Articles, no Director or proposed or intended Director shall be disqualified by his office from contracting with the Company, either with regard to his tenure of any office or place of profit or as vendor, purchaser or in any other manner whatsoever, nor shall any such contract or any other contract or arrangement in which any Director is in any way interested be liable to be avoided, nor shall any Director so contracting or being so interested be liable to account to the Company or the members for any remuneration, profit or other benefits realised by any such contract or arrangement by reason of such Director holding that office or the fiduciary relationship thereby established. A Director who to his knowledge is in any way, whether directly or indirectly, interested in a contract or arrangement or proposed contract or arrangement with the Company shall declare the nature of his interest at the meeting of the board at which the question of entering into the contract or arrangement is first taken into consideration, if he knows his interest then exists, or in any other case, at the first meeting of the board after he knows that he is or has become so interested.

A Director shall not vote (nor be counted in the quorum) on any resolution of the board approving any contract or arrangement or other proposal in which he or any of his associates is materially interested, but this prohibition shall not apply to any of the following matters, namely:

- (aa) any contract or arrangement for giving to such Director or his associate(s) any security or indemnity in respect of money lent by him or any of his associates or obligations incurred or undertaken by him or any of his associates at the request of or for the benefit of the Company or any of its subsidiaries;
- (bb) any contract or arrangement for the giving of any security or indemnity to a third party in respect of a debt or obligation of the Company or any of its subsidiaries for which the Director or his associate(s) has himself/themselves assumed responsibility in whole or in part whether alone or jointly under a guarantee or indemnity or by the giving of security;

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

- (cc) any contract or arrangement concerning an offer of shares or debentures or other securities of or by the Company or any other company which the Company may promote or be interested in for subscription or purchase, where the Director or his associate(s) is/are or is/are to be interested as a participant in the underwriting or sub-underwriting of the offer;
- (dd) any contract or arrangement in which the Director or his associate(s) is/are interested in the same manner as other holders of shares or debentures or other securities of the Company by virtue only of his/their interest in shares or debentures or other securities of the Company;
- (ee) any contract or arrangement concerning any other company in which the Director or his associate(s) is/are interested only, whether directly or indirectly, as an officer or executive or a shareholder or in which the Director and any of his associates are not in aggregate beneficially interested in 5 percent. or more of the issued shares or of the voting rights of any class of shares of such company (or of any third company through which his interest or that of any of his associates is derived); or
- (ff) any proposal or arrangement concerning the adoption, modification or operation of a share option scheme, a pension fund or retirement, death, or disability benefits scheme or other arrangement which relates both to Directors, his associates and employees of the Company or of any of its subsidiaries and does not provide in respect of any Director, or his associate(s), as such any privilege or advantage not accorded generally to the class of persons to which such scheme or fund relates.

(vi) Remuneration

The ordinary remuneration of the Directors shall from time to time be determined by the Company in general meeting, such sum (unless otherwise directed by the resolution by which it is voted) to be divided amongst the Directors in such proportions and in such manner as the board may agree or, failing agreement, equally, except that any Director holding office for part only of the period in respect of which the remuneration is payable shall only rank in such division in proportion to the time during such period for which he held office. The Directors shall also be entitled to be prepaid or repaid all travelling, hotel and incidental expenses reasonably expected to be incurred or incurred by them in attending any board meetings, committee meetings or general meetings or separate meetings of any class of shares or of debentures of the Company or otherwise in connection with the discharge of their duties as Directors.

Any Director who, by request, goes or resides abroad for any purpose of the Company or who performs services which in the opinion of the board go beyond the ordinary duties of a Director may be paid such extra remuneration (whether by way of salary, commission, participation in profits or otherwise) as the board may determine and such extra remuneration shall be in addition to or in substitution for any ordinary remuneration as a Director. An

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

executive Director appointed to be a managing director, joint managing director, deputy managing director or other executive officer shall receive such remuneration (whether by way of salary, commission or participation in profits or otherwise or by all or any of those modes) and such other benefits (including pension and/or gratuity and/or other benefits on retirement) and allowances as the board may from time to time decide. Such remuneration may be either in addition to or in lieu of his remuneration as a Director.

The board may establish or concur or join with other companies (being subsidiary companies of the Company or companies with which it is associated in business) in establishing and making contributions out of the Company's monies to any schemes or funds for providing pensions, sickness or compassionate allowances, life assurance or other benefits for employees (which expression as used in this and the following paragraph shall include any Director or ex-Director who may hold or have held any executive office or any office of profit with the Company or any of its subsidiaries) and ex-employees of the Company and their dependents or any class or classes of such persons.

The board may pay, enter into agreements to pay or make grants of revocable or irrevocable, and either subject or not subject to any terms or conditions, pensions or other benefits to employees and ex-employees and their dependents, or to any of such persons, including pensions or benefits additional to those, if any, to which such employees or ex-employees or their dependents are or may become entitled under any such scheme or fund as is mentioned in the previous paragraph. Any such pension or benefit may, as the board considers desirable, be granted to an employee either before and in anticipation of, or upon or at any time after, his actual retirement.

(vii) Retirement, appointment and removal

At each annual general meeting, one third of the Directors for the time being (or if their number is not a multiple of three, then the number nearest to but not less than one third) will retire from office by rotation provided that every Director shall be subject to retirement at an annual general meeting at least once every three years. The Directors to retire in every year will be those who have been longest in office since their last re-election or appointment but as between persons who became or were last re-elected Directors on the same day those to retire will (unless they otherwise agree among themselves) be determined by lot. There are no provisions relating to retirement of Directors upon reaching any age limit.

The Directors shall have the power from time to time and at any time to appoint any person as a Director either to fill a casual vacancy on the board or as an addition to the existing board. Any Director appointed to fill a casual vacancy shall hold office until the first general meeting of members after his appointment and be subject to re-election at such meeting and any Director appointed as an addition to the existing board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election. Neither a Director nor an alternate Director is required to hold any shares in the Company by way of qualification.

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

A Director may be removed by an ordinary resolution of the Company before the expiration of his period of office (but without prejudice to any claim which such Director may have for damages for any breach of any contract between him and the Company) and may by ordinary resolution appoint another in his place. Unless otherwise determined by the Company in general meeting, the number of Directors shall not be less than two. There is no maximum number of Directors.

The office or director shall be vacated:

- (aa) if he resigns his office by notice in writing delivered to the Company at the registered office of the Company for the time being or tendered at a meeting of the Board;
- (bb) becomes of unsound mind or dies;
- (cc) if, without special leave, he is absent from meetings of the board (unless an alternate director appointed by him attends) for six (6) consecutive months, and the board resolves that his office is vacated;
- (dd) if he becomes bankrupt or has a receiving order made against him or suspends payment or compounds with his creditors;
- (ee) if he is prohibited from being a director by law;
- (ff) if he ceases to be a director by virtue of any provision of law or is removed from office pursuant to the Articles.

The board may from time to time appoint one or more of its body to be managing director, joint managing director, or deputy managing director or to hold any other employment or executive office with the Company for such period and upon such terms as the board may determine and the board may revoke or terminate any of such appointments. The board may delegate any of its powers, authorities and discretions to committees consisting of such Director or Directors and other persons as the board thinks fit, and it may from time to time revoke such delegation or revoke the appointment of and discharge any such committees either wholly or in part, and either as to persons or purposes, but every committee so formed shall, in the exercise of the powers, authorities and discretions so delegated, conform to any regulations that may from time to time be imposed upon it by the board.

(viii) Borrowing powers

The board may exercise all the powers of the Company to raise or borrow money, to mortgage or charge all or any part of the undertaking, property and assets (present and future) and uncalled capital of the Company and, subject to the Companies Law, to issue debentures, bonds and other securities of the Company, whether outright or as collateral security for any debt, liability or obligation of the Company or of any third party.

APPENDIX VI

SUMMARY OF THE CONSTITUTION OF THE COMPANY AND CAYMAN ISLANDS LAW

Note: These provisions, in common with the Articles in general, can be varied with the sanction of a special resolution of the Company.

(ix) Proceedings of the Board

The board may meet for the despatch of business, adjourn and otherwise regulate their meetings as they think fit. Questions arising at any meeting shall be determined by a majority of votes. In the case of an equality of votes, the chairman of the meeting shall have an additional or casting vote.

(x) Register of Directors and Officers

The Companies Law and the Articles provide that the Company is required to maintain at its registered office a register of directors and officers which is not available for inspection by the public. A copy of such register must be filed with the Registrar of Companies in the Cayman Islands and any change must be notified to the Registrar within thirty (30) days of any change in such directors or officers.

(b) Alterations to constitutional documents

The Articles may be rescinded, altered or amended by the Company in general meeting by special resolution. The Articles state that a special resolution shall be required to alter the provisions of the Memorandum, to amend the Articles or to change the name of the Company.

(c) Alteration of capital

The Company may from time to time by ordinary resolution in accordance with the relevant provisions of the Companies Law:

- (i) increase its capital by such sum, to be divided into shares of such amounts as the resolution shall prescribe;
- (ii) consolidate and divide all or any of its capital into shares of larger amount than its existing shares;
- (iii) divide its shares into several classes and without prejudice to any special rights previously conferred on the holders of existing shares attach thereto respectively any preferential, deferred, qualified or special rights, privileges, conditions or restrictions as the Company in general meeting or as the directors may determine;
- (iv) sub-divide its shares or any of them into shares of smaller amount than is fixed by the Memorandum, subject nevertheless to the provisions of the Companies Law, and so that the resolution whereby any share is sub-divided may determine that, as between the holders of the shares resulting from such sub-division, one or more of the shares may have any such

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

preferred or other special rights, over, or may have such deferred rights or be subject to any such restrictions as compared with the others as the Company has power to attach to unissued or new shares; or

- (v) cancel any shares which, at the date of passing of the resolution, have not been taken, or agreed to be taken, by any person, and diminish the amount of its capital by the amount of the shares so cancelled.

The Company may subject to the provisions of the Companies Law reduce its share capital or any capital redemption reserve or other undistributable reserve in any way by special resolution.

(d) Variation of rights of existing shares or classes of shares

Subject to the Companies Law, all or any of the special rights attached to the shares or any class of shares may (unless otherwise provided for by the terms of issue of that class) be varied, modified or abrogated either with the consent in writing of the holders of not less than three-fourths in nominal value of the issued shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares of that class. To every such separate general meeting the provisions of the Articles relating to general meetings will mutatis mutandis apply, but so that the necessary quorum (other than at an adjourned meeting) shall be two persons holding or representing by proxy not less than one-third in nominal value of the issued shares of that class and at any adjourned meeting two holders present in person or by proxy whatever the number of shares held by them shall be a quorum. Every holder of shares of the class shall be entitled on a poll to one vote for every such share held by him, and any holder of shares of the class present in person or by proxy may demand a poll.

The special rights conferred upon the holders of any shares or class of shares shall not, unless otherwise expressly provided in the rights attaching to the terms of issue of such shares, be deemed to be varied by the creation or issue of further shares ranking *pari passu* therewith.

(e) Special resolution-majority required

Pursuant to the Articles, a special resolution of the Company must be passed by a majority of not less than three-fourths of the votes cast by such members as, being entitled so to do, vote in person or, in the case of such members as are corporations, by their duly authorised representatives or, where proxies are allowed, by proxy at a general meeting of which notice of not less than twenty-one (21) clear days' and not less than ten (10) clear business days specifying the intention to propose the resolution as a special resolution, has been duly given. Provided that, if permitted by the Designated Stock Exchange (as defined in the Articles) except in the case of an annual general meeting, if it is so agreed by a majority in number of the members having a right to attend and vote at such meeting, being a majority together holding not less than ninety-five (95) per cent. in nominal value of the shares giving that right and, in the case of an annual general meeting, if so agreed by all Members entitled to attend and vote thereat, a resolution may be proposed and passed as a special resolution at a meeting of which notice of less than twenty-one (21) clear days' and less than ten (10) clear business days, has been given.

APPENDIX VI**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

A copy of any special resolution must be forwarded to the Registrar of Companies in the Cayman Islands within fifteen (15) days of being passed.

An ordinary resolution is defined in the Articles to mean a resolution passed by a simple majority of the votes of such members of the Company as, being entitled to do so, vote in person or, in the case of corporations, by their duly authorised representatives or, where proxies are allowed, by proxy at a general meeting held in accordance with the Articles.

(f) Voting rights

Subject to any special rights or restrictions as to voting for the time being attached to any shares by or in accordance with the Articles, at any general meeting on a poll every member present in person or by proxy or, in the case of a member being a corporation, by its duly authorised representative shall have one vote for every fully paid share of which he is the holder but so that no amount paid up or credited as paid up on a share in advance of calls or instalments is treated for the foregoing purposes as paid up on the share. A member entitled to more than one vote need not use all his votes or cast all the votes he uses in the same way.

At any general meeting a resolution put to the vote of the meeting is to be decided by way of a poll.

If a recognised clearing house (or its nominee(s)) is a member of the Company it may authorise such person or persons as it thinks fit to act as its representative(s) at any meeting of the Company or at any meeting of any class of members of the Company provided that, if more than one person is so authorised, the authorisation shall specify the number and class of shares in respect of which each such person is so authorised. A person authorised pursuant to this provision shall be deemed to have been duly authorised without further evidence of the facts and be entitled to exercise the same powers on behalf of the recognised clearing house (or its nominee(s)) as if such person was the registered holder of the shares of the Company held by that clearing house (or its nominee(s)).

Where the Company has any knowledge that any shareholder is, under the rules of the Designated Stock Exchange (as defined in the Articles), required to abstain from voting on any particular resolution of the Company or restricted to voting only for or only against any particular resolution of the Company, any votes cast by or on behalf of such shareholder in contravention of such requirement or restriction shall not be counted.

(g) Requirements for annual general meetings

An annual general meeting of the Company must be held in each year, other than the year of adoption of the Articles (within a period of not more than 15 months after the holding of the last preceding annual general meeting or a period of 18 months from the date of adoption of the Articles, unless a longer period would not infringe the rules of any Designated Stock Exchange (as defined in the Articles)) at such time and place as may be determined by the board.

APPENDIX VI**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

(h) Accounts and audit

The board shall cause true accounts to be kept of the sums of money received and expended by the Company, and the matters in respect of which such receipt and expenditure take place, and of the property, assets, credits and liabilities of the Company and of all other matters required by the Companies Law or necessary to give a true and fair view of the Company's affairs and to explain its transactions.

The accounting records shall be kept at the registered office or at such other place or places as the board decides and shall always be open to inspection by any Director. No member (other than a Director) shall have any right to inspect any accounting record or book or document of the Company except as conferred by law or authorised by the board or the Company in general meeting.

A copy of every balance sheet and profit and loss account (including every document required by law to be annexed thereto) which is to be laid before the Company at its general meeting, together with a printed copy of the Directors' report and a copy of the auditors' report, shall not less than twenty-one (21) days before the date of the meeting and at the same time as the notice of annual general meeting be sent to every person entitled to receive notices of general meetings of the Company under the provisions the Articles; however, subject to compliance with all applicable laws, including the rules of the Designated Stock Exchange (as defined in the Articles), the Company may send to such persons summarised financial statements derived from the Company's annual accounts and the directors' report instead provided that any such person may by notice in writing served on the Company, demand that the Company sends to him, in addition to summarised financial statements, a complete printed copy of the Company's annual financial statement and the directors' report thereon.

Auditors shall be appointed and the terms and tenure of such appointment and their duties at all times regulated in accordance with the provisions of the Articles. The remuneration of the auditors shall be fixed by the Company in general meeting or in such manner as the members may determine.

The financial statements of the Company shall be audited by the auditor in accordance with generally accepted auditing standards. The auditor shall make a written report thereon in accordance with generally accepted auditing standards and the report of the auditor shall be submitted to the members in general meeting. The generally accepted auditing standards referred to herein may be those of a country or jurisdiction other than the Cayman Islands. If so, the financial statements and the report of the auditor should disclose this fact and name such country or jurisdiction.

(i) Notices of meetings and business to be conducted thereat

An annual general meeting shall be called by notice of not less than twenty-one (21) clear days and not less than twenty (20) clear business days and any extraordinary general meeting at which it is proposed to pass a special resolution shall (save as set out in sub-paragraph (e) above) be called by notice of at least twenty-one (21) clear days and not less than ten (10) clear business days. All other extraordinary general meetings shall be called by notice of at least fourteen (14) clear days and not less than ten (10) clear business days. The notice must specify the time and place of the meeting and, in the case of special business, the general nature of that business. In addition notice of every general

APPENDIX VI

SUMMARY OF THE CONSTITUTION OF THE COMPANY AND CAYMAN ISLANDS LAW

meeting shall be given to all members of the Company other than such as, under the provisions of the Articles or the terms of issue of the shares they hold, are not entitled to receive such notices from the Company, and also to the auditors for the time being of the Company.

Notwithstanding that a meeting of the Company is called by shorter notice than that mentioned above, it shall be deemed to have been duly called if it is so agreed:

- (i) in the case of a meeting called as an annual general meeting, by all members of the Company entitled to attend and vote thereat; and
- (ii) in the case of any other meeting, by a majority in number of the members having a right to attend and vote at the meeting, being a majority together holding not less than ninety-five (95) per cent in nominal value of the issued shares giving that right.

All business shall be deemed special that is transacted at an extraordinary general meeting and also all business shall be deemed special that is transacted at an annual general meeting with the exception of the following, which shall be deemed ordinary business:

- (aa) the declaration and sanctioning of dividends;
 - (bb) the consideration and adoption of the accounts and balance sheet and the reports of the directors and the auditors;
 - (cc) the election of directors in place of those retiring;
 - (dd) the appointment of auditors and other officers;
 - (ee) the fixing of the remuneration of the directors and of the auditors;
 - (ff) the granting of any mandate or authority to the directors to offer, allot, grant options over or otherwise dispose of the unissued shares of the Company representing not more than twenty (20) per cent in nominal value of its existing issued share capital; and
 - (gg) the granting of any mandate or authority to the directors to repurchase securities of the Company.
- (j) Transfer of shares**

All transfers of shares may be effected by an instrument of transfer in the usual or common form or in a form prescribed by the Designated Stock Exchange (as defined in the Articles) or in such other form as the board may approve and which may be under hand or, if the transferor or transferee is a clearing house or its nominee(s), by hand or by machine imprinted signature or by such other manner of execution as the board may approve from time to time. The instrument of transfer shall be executed by or on behalf of the transferor and the transferee provided that the board may dispense with the execution of the instrument of transfer by the transferee in any case in which it thinks fit, in its

APPENDIX VI

SUMMARY OF THE CONSTITUTION OF THE COMPANY AND CAYMAN ISLANDS LAW

discretion, to do so and the transferor shall be deemed to remain the holder of the share until the name of the transferee is entered in the register of members in respect thereof. The board may also resolve either generally or in any particular case, upon request by either the transferor or the transferee, to accept mechanically executed transfers.

The board in so far as permitted by any applicable law may, in its absolute discretion, at any time and from time to time transfer any share upon the principal register to any branch register or any share on any branch register to the principal register or any other branch register.

Unless the board otherwise agrees, no shares on the principal register shall be transferred to any branch register nor may shares on any branch register be transferred to the principal register or any other branch register. All transfers and other documents of title shall be lodged for registration and registered, in the case of shares on a branch register, at the relevant registration office and, in the case of shares on the principal register, at the registered office in the Cayman Islands or such other place at which the principal register is kept in accordance with the Companies Law.

The board may, in its absolute discretion, and without assigning any reason, refuse to register a transfer of any share (not being a fully paid up share) to a person of whom it does not approve or any share issued under any share incentive scheme for employees upon which a restriction on transfer imposed thereby still subsists, and it may also refuse to register any transfer of any share to more than four joint holders or any transfer of any share (not being a fully paid up share) on which the Company has a lien.

The board may decline to recognise any instrument of transfer unless a fee of such maximum sum as any Designated Stock Exchange (as defined in the Articles) may determine to be payable or such lesser sum as the Directors may from time to time require is paid to the Company in respect thereof, the instrument of transfer, if applicable, is properly stamped, is in respect of only one class of share and is lodged at the relevant registration office or registered office or such other place at which the principal register is kept accompanied by the relevant share certificate(s) and such other evidence as the board may reasonably require to show the right of the transferor to make the transfer (and if the instrument of transfer is executed by some other person on his behalf, the authority of that person so to do).

The registration of transfers may be suspended and the register closed on giving notice by advertisement in a relevant newspaper and, where applicable, any other newspapers in accordance with the requirements of any Designated Stock Exchange (as defined in the Articles), at such times and for such periods as the board may determine and either generally or in respect of any class of shares. The register of members shall not be closed for periods exceeding in the whole thirty (30) days in any year.

(k) Power for the Company to purchase its own shares

The Company is empowered by the Companies Law and the Articles to purchase its own Shares subject to certain restrictions and the Board may only exercise this power on behalf of the Company subject to any applicable requirements imposed from time to time by any Designated Stock Exchange (as defined in the Articles).

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

(l) Power for any subsidiary of the Company to own shares in the Company

There are no provisions in the Articles relating to ownership of shares in the Company by a subsidiary.

(m) Dividends and other methods of distribution

Subject to the Companies Law, the Company in general meeting may declare dividends in any currency to be paid to the members but no dividend shall be declared in excess of the amount recommended by the board.

The Articles provide dividends may be declared and paid out of the profits of the Company, realised or unrealised, or from any reserve set aside from profits which the directors determine is no longer needed. With the sanction of an ordinary resolution dividends may also be declared and paid out of share premium account or any other fund or account which can be authorised for this purpose in accordance with the Companies Law.

Except in so far as the rights attaching to, or the terms of issue of, any share may otherwise provide, (i) all dividends shall be declared and paid according to the amounts paid up on the shares in respect whereof the dividend is paid but no amount paid up on a share in advance of calls shall for this purpose be treated as paid up on the share and (ii) all dividends shall be apportioned and paid pro rata according to the amount paid up on the shares during any portion or portions of the period in respect of which the dividend is paid. The Directors may deduct from any dividend or other monies payable to any member or in respect of any shares all sums of money (if any) presently payable by him to the Company on account of calls or otherwise.

Whenever the board or the Company in general meeting has resolved that a dividend be paid or declared on the share capital of the Company, the board may further resolve either (a) that such dividend be satisfied wholly or in part in the form of an allotment of shares credited as fully paid up, provided that the shareholders entitled thereto will be entitled to elect to receive such dividend (or part thereof) in cash in lieu of such allotment, or (b) that shareholders entitled to such dividend will be entitled to elect to receive an allotment of shares credited as fully paid up in lieu of the whole or such part of the dividend as the board may think fit. The Company may also upon the recommendation of the board by an ordinary resolution resolve in respect of any one particular dividend of the Company that it may be satisfied wholly in the form of an allotment of shares credited as fully paid up without offering any right to shareholders to elect to receive such dividend in cash in lieu of such allotment.

Any dividend, interest or other sum payable in cash to the holder of shares may be paid by cheque or warrant sent through the post addressed to the holder at his registered address, or in the case of joint holders, addressed to the holder whose name stands first in the register of the Company in respect of the shares at his address as appearing in the register or addressed to such person and at such addresses as the holder or joint holders may in writing direct. Every such cheque or warrant shall, unless the holder or joint holders otherwise direct, be made payable to the order of the holder or, in the case of joint holders, to the order of the holder whose name stands first on the register in respect of such shares, and shall be sent at his or their risk and payment of the cheque or warrant by the bank on which

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

it is drawn shall constitute a good discharge to the Company. Any one of two or more joint holders may give effectual receipts for any dividends or other moneys payable or property distributable in respect of the shares held by such joint holders.

Whenever the board or the Company in general meeting has resolved that a dividend be paid or declared the board may further resolve that such dividend be satisfied wholly or in part by the distribution of specific assets of any kind.

All dividends or bonuses unclaimed for one year after having been declared may be invested or otherwise made use of by the board for the benefit of the Company until claimed and the Company shall not be constituted a trustee in respect thereof. All dividends or bonuses unclaimed for six years after having been declared may be forfeited by the board and shall revert to the Company.

No dividend or other monies payable by the Company on or in respect of any share shall bear interest against the Company.

(n) Proxies

Any member of the Company entitled to attend and vote at a meeting of the Company is entitled to appoint another person as his proxy to attend and vote instead of him. A member who is the holder of two or more shares may appoint more than one proxy to represent him and vote on his behalf at a general meeting of the Company or at a class meeting. A proxy need not be a member of the Company and shall be entitled to exercise the same powers on behalf of a member who is an individual and for whom he acts as proxy as such member could exercise. In addition, a proxy shall be entitled to exercise the same powers on behalf of a member which is a corporation and for which he acts as proxy as such member could exercise if it were an individual member. Votes may be given either personally (or, in the case of a member being a corporation, by its duly authorised representative) or by proxy.

(o) Call on shares and forfeiture of shares

Subject to the Articles and to the terms of allotment, the board may from time to time make such calls upon the members in respect of any monies unpaid on the shares held by them respectively (whether on account of the nominal value of the shares or by way of premium). A call may be made payable either in one lump sum or by instalments. If the sum payable in respect of any call or instalment is not paid on or before the day appointed for payment thereof, the person or persons from whom the sum is due shall pay interest on the same at such rate not exceeding twenty (20) per cent. per annum as the board may agree to accept from the day appointed for the payment thereof to the time of actual payment, but the board may waive payment of such interest wholly or in part. The board may, if it thinks fit, receive from any member willing to advance the same, either in money or money's worth, all or any part of the monies uncalled and unpaid or instalments payable upon any shares held by him, and upon all or any of the monies so advanced the Company may pay interest at such rate (if any) as the board may decide.

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

If a member fails to pay any call on the day appointed for payment thereof, the board may serve not less than fourteen (14) clear days' notice on him requiring payment of so much of the call as is unpaid, together with any interest which may have accrued and which may still accrue up to the date of actual payment and stating that, in the event of non-payment at or before the time appointed, the shares in respect of which the call was made will be liable to be forfeited.

If the requirements of any such notice are not complied with, any share in respect of which the notice has been given may at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the board to that effect. Such forfeiture will include all dividends and bonuses declared in respect of the forfeited share and not actually paid before the forfeiture.

A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares but shall, notwithstanding, remain liable to pay to the Company all monies which, at the date of forfeiture, were payable by him to the Company in respect of the shares, together with (if the board shall in its discretion so require) interest thereon from the date of forfeiture until the date of actual payment at such rate not exceeding twenty (20) per cent. per annum as the board determines.

(p) Inspection of register of members

Pursuant to the Articles the register and branch register of members shall be open to inspection for at least two (2) hours on every business day by members without charge, or by any other person upon a maximum payment of HK\$2.50 or such lesser sum specified by the board, at the registered office or such other place at which the register is kept in accordance with the Companies Law or, upon a maximum payment of HK\$1.00 or such lesser sum specified by the board, at the Registration Office (as defined in the Articles), unless the register is closed in accordance with the Articles.

(q) Quorum for meetings and separate class meetings

No business shall be transacted at any general meeting unless a quorum is present when the meeting proceeds to business, but the absence of a quorum shall not preclude the appointment of a chairman.

Save as otherwise provided by the Articles the quorum for a general meeting shall be two members present in person (or, in the case of a member being a corporation, by its duly authorised representative) or by proxy and entitled to vote. In respect of a separate class meeting (other than an adjourned meeting) convened to sanction the modification of class rights the necessary quorum shall be two persons holding or representing by proxy not less than one-third in nominal value of the issued shares of that class.

A corporation being a member shall be deemed for the purpose of the Articles to be present in person if represented by its duly authorised representative being the person appointed by resolution of the directors or other governing body of such corporation to act as its representative at the relevant general meeting of the Company or at any relevant general meeting of any class of members of the Company.

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

(r) Rights of the minorities in relation to fraud or oppression

There are no provisions in the Articles relating to rights of minority shareholders in relation to fraud or oppression. However, certain remedies are available to shareholders of the Company under Cayman law, as summarised in paragraph 3(f) of this Appendix.

(s) Procedures on liquidation

A resolution that the Company be wound up by the court or be wound up voluntarily shall be a special resolution.

Subject to any special rights, privileges or restrictions as to the distribution of available surplus assets on liquidation for the time being attached to any class or classes of shares (i) if the Company shall be wound up and the assets available for distribution amongst the members of the Company shall be more than sufficient to repay the whole of the capital paid up at the commencement of the winding up, the excess shall be distributed *pari passu* amongst such members in proportion to the amount paid up on the shares held by them respectively and (ii) if the Company shall be wound up and the assets available for distribution amongst the members as such shall be insufficient to repay the whole of the paid-up capital, such assets shall be distributed so that, as nearly as may be, the losses shall be borne by the members in proportion to the capital paid up, or which ought to have been paid up, at the commencement of the winding up on the shares held by them respectively.

If the Company shall be wound up (whether the liquidation is voluntary or by the court) the liquidator may, with the authority of a special resolution and any other sanction required by the Companies Law divide among the members in specie or kind the whole or any part of the assets of the Company whether the assets shall consist of property of one kind or shall consist of properties of different kinds and the liquidator may, for such purpose, set such value as he deems fair upon any one or more class or classes of property to be divided as aforesaid and may determine how such division shall be carried out as between the members or different classes of members. The liquidator may, with the like authority, vest any part of the assets in trustees upon such trusts for the benefit of members as the liquidator, with the like authority, shall think fit, but so that no contributory shall be compelled to accept any shares or other property in respect of which there is a liability.

(t) Untraceable members

Pursuant to the Articles, the Company may sell any of the shares of a member who is untraceable if (i) all cheques or warrants in respect of dividends of the shares in question (being not less than three in total number) for any sum payable in cash to the holder of such shares have remained uncashed for a period of 12 years; (ii) upon the expiry of the 12 year period, the Company has not during that time received any indication of the existence of the member; and (iii) the Company has caused an advertisement to be published in accordance with the rules of the Designated Stock Exchange (as defined in the Articles) giving notice of its intention to sell such shares and a period of three months, or such shorter period as may be permitted by the Designated Stock Exchange (as defined in the Articles), has elapsed since the date of such advertisement and the Designated Stock Exchange (as defined in the Articles) has been notified of such intention. The net proceeds of any such sale shall belong to the Company and upon receipt by the Company of such net proceeds, it shall become indebted to the former member of the Company for an amount equal to such net proceeds.

APPENDIX VI**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

(u) Subscription rights reserve

The Articles provide that to the extent that it is not prohibited by and is in compliance with the Companies Law, if warrants to subscribe for shares have been issued by the Company and the Company does any act or engages in any transaction which would result in the subscription price of such warrants being reduced below the par value of a share, a subscription rights reserve shall be established and applied in paying up the difference between the subscription price and the par value of a share on any exercise of the warrants.

3. CAYMAN ISLANDS COMPANY LAW

The Company is incorporated in the Cayman Islands subject to the Companies Law and, therefore, operates subject to Cayman law. Set out below is a summary of certain provisions of Cayman company law, although this does not purport to contain all applicable qualifications and exceptions or to be a complete review of all matters of Cayman company law and taxation, which may differ from equivalent provisions in jurisdictions with which interested parties may be more familiar:

(a) Operations

As an exempted company, the Company’s operations must be conducted mainly outside the Cayman Islands. The Company is required to file an annual return each year with the Registrar of Companies of the Cayman Islands and pay a fee which is based on the amount of its authorised share capital.

(b) Share capital

The Companies Law provides that where a company issues shares at a premium, whether for cash or otherwise, a sum equal to the aggregate amount of the value of the premiums on those shares shall be transferred to an account, to be called the “share premium account”. At the option of a company, these provisions may not apply to premiums on shares of that company allotted pursuant to any arrangement in consideration of the acquisition or cancellation of shares in any other company and issued at a premium. The Companies Law provides that the share premium account may be applied by the company subject to the provisions, if any, of its memorandum and articles of association in (a) paying distributions or dividends to members; (b) paying up unissued shares of the company to be issued to members as fully paid bonus shares; (c) the redemption and repurchase of shares (subject to the provisions of section 37 of the Companies Law); (d) writing-off the preliminary expenses of the company; (e) writing-off the expenses of, or the commission paid or discount allowed on, any issue of shares or debentures of the company; and (f) providing for the premium payable on redemption or purchase of any shares or debentures of the company.

No distribution or dividend may be paid to members out of the share premium account unless immediately following the date on which the distribution or dividend is proposed to be paid, the company will be able to pay its debts as they fall due in the ordinary course business.

The Companies Law provides that, subject to confirmation by the Grand Court of the Cayman Islands (the “Court”), a company limited by shares or a company limited by guarantee and having a share capital may, if so authorised by its articles of association, by special resolution reduce its share capital in any way.

APPENDIX VI

SUMMARY OF THE CONSTITUTION OF THE COMPANY AND CAYMAN ISLANDS LAW

The Articles includes certain protections for holders of special classes of shares, requiring their consent to be obtained before their rights may be varied. The consent of the specified proportions of the holders of the issued shares of that class or the sanction of a resolution passed at a separate meeting of the holders of those shares is required.

(c) Financial assistance to purchase shares of a company or its holding company

Subject to all applicable laws, the Company may give financial assistance to Directors and employees of the Company, its subsidiaries, its holding company or any subsidiary of such holding company in order that they may buy Shares in the Company or shares in any subsidiary or holding company. Further, subject to all applicable laws, the Company may give financial assistance to a trustee for the acquisition of Shares in the Company or shares in any such subsidiary or holding company to be held for the benefit of employees of the Company, its subsidiaries, any holding company of the Company or any subsidiary of any such holding company (including salaried Directors).

There is no statutory restriction in the Cayman Islands on the provision of financial assistance by a company to another person for the purchase of, or subscription for, its own or its holding company's shares. Accordingly, a company may provide financial assistance if the directors of the company consider, in discharging their duties of care and acting in good faith, for a proper purpose and in the interests of the company, that such assistance can properly be given. Such assistance should be on an arm's-length basis.

(d) Purchase of shares and warrants by a company and its subsidiaries

Subject to the provisions of the Companies Law, a company limited by shares or a company limited by guarantee and having a share capital may, if so authorised by its articles of association, issue shares which are to be redeemed or are liable to be redeemed at the option of the company or a shareholder. In addition, such a company may, if authorised to do so by its articles of association, purchase its own shares, including any redeemable shares. However, if the articles of association do not authorise the manner of purchase, a company cannot purchase any of its own shares unless the manner of purchase has first been authorised by an ordinary resolution of the company. At no time may a company redeem or purchase its shares unless they are fully paid. A company may not redeem or purchase any of its shares if, as a result of the redemption or purchase, there would no longer be any member of the company holding shares. A payment out of capital by a company for the redemption or purchase of its own shares is not lawful unless immediately following the date on which the payment is proposed to be made, the company shall be able to pay its debts as they fall due in the ordinary course of business.

A company is not prohibited from purchasing and may purchase its own warrants subject to and in accordance with the terms and conditions of the relevant warrant instrument or certificate. There is no requirement under Cayman Islands law that a company's memorandum or articles of association contain a specific provision enabling such purchases and the directors of a company may rely upon the general power contained in its memorandum of association to buy and sell and deal in personal property of all kinds.

APPENDIX VI**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

Under Cayman Islands law, a subsidiary may hold shares in its holding company and, in certain circumstances, may acquire such shares.

(e) Dividends and distributions

With the exception of section 34 of the Companies Law, there is no statutory provisions relating to the payment of dividends. Based upon English case law, which is regarded as persuasive in the Cayman Islands, dividends may be paid only out of profits. In addition, section 34 of the Companies Law permits, subject to a solvency test and the provisions, if any, of the company’s memorandum and articles of association, the payment of dividends and distributions out of the share premium account (see paragraph 2(m) above for further details).

(f) Protection of minorities

The Cayman Islands courts ordinarily would be expected to follow English case law precedents which permit a minority shareholder to commence a representative action against or derivative actions in the name of the company to challenge (a) an act which is ultra vires the company or illegal, (b) an act which constitutes a fraud against the minority and the wrongdoers are themselves in control of the company, and (c) an irregularity in the passing of a resolution which requires a qualified (or special) majority.

In the case of a company (not being a bank) having a share capital divided into shares, the Court may, on the application of members holding not less than one fifth of the shares of the company in issue, appoint an inspector to examine into the affairs of the company and to report thereon in such manner as the Court shall direct.

Any shareholder of a company may petition the Court which may make a winding up order if the Court is of the opinion that it is just and equitable that the company should be wound up or, as an alternative to a winding up order, (a) an order regulating the conduct of the company’s affairs in the future, (b) an order requiring the company to refrain from doing or continuing an act complained of by the shareholder petitioner or to do an act which the shareholder petitioner has complained it has omitted to do, (c) an order authorising civil proceedings to be brought in the name and on behalf of the company by the shareholder petitioner on such terms as the Court may direct, or (d) an order providing for the purchase of the shares of any shareholders of the company by other shareholders or by the company itself and, in the case of a purchase by the company itself, a reduction of the company’s capital accordingly.

Generally claims against a company by its shareholders must be based on the general laws of contract or tort applicable in the Cayman Islands or their individual rights as shareholders as established by the company’s memorandum and articles of association.

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

(g) Management

The Companies Law contains no specific restrictions on the power of directors to dispose of assets of a company. However, as a matter of general law, every officer of a company, which includes a director, managing director and secretary, in exercising his powers and discharging his duties must do so honestly and in good faith with a view to the best interests of the company and exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

(h) Accounting and auditing requirements

A company shall cause proper books of account to be kept with respect to (i) all sums of money received and expended by the company and the matters in respect of which the receipt and expenditure takes place; (ii) all sales and purchases of goods by the company; and (iii) the assets and liabilities of the company.

Proper books of account shall not be deemed to be kept if there are not kept such books as are necessary to give a true and fair view of the state of the company's affairs and to explain its transactions.

(i) Exchange control

There are no exchange control regulations or currency restrictions in the Cayman Islands.

(j) Taxation

Pursuant to section 6 of the Tax Concessions Law (1999 Revision) of the Cayman Islands, the Company has obtained an undertaking from the Governor-in-Cabinet:

- (1) that no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciation shall apply to the Company or its operations; and
- (2) that the aforesaid tax or any tax in the nature of estate duty or inheritance tax shall not be payable on or in respect of the shares, debentures or other obligations of the Company.

The undertaking for the Company is for a period of twenty years from 7 August 2007.

The Cayman Islands currently levy no taxes on individuals or corporations based upon profits, income, gains or appreciations and there is no taxation in the nature of inheritance tax or estate duty. There are no other taxes likely to be material to the Company levied by the Government of the Cayman Islands save certain stamp duties which may be applicable, from time to time, on certain instruments executed in or brought within the jurisdiction of the Cayman Islands. The Cayman Islands are not party to any double tax treaties.

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

(k) Stamp duty on transfers

No stamp duty is payable in the Cayman Islands on transfers of shares of Cayman Islands companies except those which hold interests in land in the Cayman Islands.

(l) Loans to directors

There is no express provision in the Companies Law prohibiting the making of loans by a company to any of its directors.

(m) Inspection of corporate records

Members of the Company will have no general right under the Companies Law to inspect or obtain copies of the register of members or corporate records of the Company. They will, however, have such rights as may be set out in the Company's Articles.

An exempted company may, subject to the provisions of its articles of association, maintain its principal register of members and any branch registers at such locations, whether within or without the Cayman Islands, as the directors may, from time to time, think fit. There is no requirement under the Companies Law for an exempted company to make any returns of members to the Registrar of Companies of the Cayman Islands. The names and addresses of the members are, accordingly, not a matter of public record and are not available for public inspection.

(n) Winding up

A company may be wound up compulsorily by order of the Court; voluntarily; or, under supervision of the Court. The Court has authority to order winding up in a number of specified circumstances including where it is, in the opinion of the Court, just and equitable to do so.

A company may be wound up voluntarily when the members so resolve in general meeting by special resolution, or, in the case of a limited duration company, when the period fixed for the duration of the company by its memorandum expires, or the event occurs on the occurrence of which the memorandum provides that the company is to be dissolved, or, the company does not commence business for a year from its incorporation (or suspends its business for a year), or, the company is unable to pay its debts. In the case of a voluntary winding up, such company is obliged to cease to carry on its business from the time of passing the resolution for voluntary winding up or upon the expiry of the period or the occurrence of the event referred to above.

For the purpose of conducting the proceedings in winding up a company and assisting the Court, there may be appointed one or more than one person to be called an official liquidator or official liquidators; and the Court may appoint to such office such qualified person or persons, either provisionally or otherwise, as it thinks fit, and if more persons than one are appointed to such office, the Court shall declare whether any act hereby required or authorised to be done by the official liquidator is to be done by all or any one or more of such persons. The Court may also determine whether any and what security is to be given by an official liquidator on his appointment; if no official

APPENDIX VI

SUMMARY OF THE CONSTITUTION OF THE COMPANY AND CAYMAN ISLANDS LAW

liquidator is appointed, or during any vacancy in such office, all the property of the company shall be in the custody of the Court. A person shall be qualified to accept an appointment as an official liquidator if he is duly qualified in terms of the Insolvency Practitioners Regulations. A foreign practitioner may be appointed to act jointly with a qualified insolvency practitioner.

In the case of a members’ voluntary winding up of a company, the company in general meeting must appoint one or more liquidators for the purpose of winding up the affairs of the company and distributing its assets. A declaration of solvency must be signed by all the directors of a company being voluntarily wound up within twenty-eight (28) days of the commencement of the liquidation, failing which, its liquidator must apply to Court for an order that the liquidation continue under the supervision of the Court.

Upon the appointment of a liquidator, the responsibility for the company’s affairs rests entirely in his hands and no future executive action may be carried out without his approval. A liquidator’s duties are to collect the assets of the company (including the amount (if any) due from the contributories), settle the list of creditors and, subject to the rights of preferred and secured creditors and to any subordination agreements or rights of set-off or netting of claims, discharge the company’s liability to them (*pari passu* if insufficient assets exist to discharge the liabilities in full) and to settle the list of contributories (shareholders) and divide the surplus assets (if any) amongst them in accordance with the rights attaching to the shares.

As soon as the affairs of the company are fully wound up, the liquidator must make up an account of the winding up, showing how the winding up has been conducted and the property of the company has been disposed of, and thereupon call a general meeting of the company for the purposes of laying before it the account and giving an explanation thereof. At least twenty-one (21) days before the final meeting, the liquidator shall send a notice specifying the time, place and object of the meeting to each contributory in any manner authorised by the company’s articles of association and published in the Gazette in the Cayman Islands.

(o) Reconstructions

There are statutory provisions which facilitate reconstructions and amalgamations approved by a majority in number representing seventy-five (75) per cent. in value of shareholders or class of shareholders or creditors, as the case may be, as are present at a meeting called for such purpose and thereafter sanctioned by the Court. Whilst a dissenting shareholder would have the right to express to the Court his view that the transaction for which approval is sought would not provide the shareholders with a fair value for their shares, the Court is unlikely to disapprove the transaction on that ground alone in the absence of evidence of fraud or bad faith on behalf of management.

(p) Compulsory acquisition

Where an offer is made by a company for the shares of another company and, within four months of the offer, the holders of not less than ninety (90) per cent. of the shares which are the subject of the offer accept, the offeror may at any time within two months after the expiration of the said four months, by notice in the prescribed manner require the dissenting shareholders to transfer their shares

APPENDIX VI

**SUMMARY OF THE CONSTITUTION OF
THE COMPANY AND CAYMAN ISLANDS LAW**

on the terms of the offer. A dissenting shareholder may apply to the Court within one month of the notice objecting to the transfer. The burden is on the dissenting shareholder to show that the Court should exercise its discretion, which it will be unlikely to do unless there is evidence of fraud or bad faith or collusion as between the offeror and the holders of the shares who have accepted the offer as a means of unfairly forcing out minority shareholders.

(q) Indemnification

Cayman Islands law does not limit the extent to which a company's articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the court to be contrary to public policy (e.g. for purporting to provide indemnification against the consequences of committing a crime).

4. GENERAL

Conyers Dill & Pearman, the Company's special legal counsel on Cayman Islands law, have sent to the Company a letter of advice summarising certain aspects of Cayman Islands company law. Any person wishing to have a detailed summary of Cayman Islands company law or advice on the differences between it and the laws of any jurisdiction with which he is more familiar is recommended to seek independent legal advice.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

I. LEGAL SUPERVISION RELATING TO PROPERTY SECTOR IN THE PRC

A. Establishment of a property development enterprise

Pursuant to the “Law of the People’s Republic of China on Administration of Urban Property” (the “Urban Property Law”) enacted by the Standing Committee of the National People’s Congress on 5 July 1994 enforced on 1 January 1995 and revised on 30 August 2007, a property developer is defined as “an enterprise which engages in the development and operation of property for the purposes of making profits”. Under the “Regulations on Administration of Development of Urban Property” (the “Development Regulations”) enacted by the State Council and enforced on 20 July 1998, a property development enterprise must satisfy the following requirements: (1) has a registered capital of not less than RMB1 million and (2) have four or more full-time professional property/construction technicians and two or more full-time accounting officers, each of whom shall hold the relevant qualifications. The Development Regulations also stipulated that people’s governments of the provinces, autonomous regions and/or municipalities directly under the central government may impose more stringent requirements regarding the registered capital and qualifications of professional personnel of a property development enterprise according to the local circumstances.

Pursuant to the Development Regulations, application for registration has to be submitted to the department of administration of industry and commerce above county level for the establishment of property development enterprise. The property development enterprise must file for record with the property development authority in the location of the registration authority, within 30 days of the receipt of its Business License.

Under the “Notice on Adjusting the Portion of Capital Fund for Fixed Assets Investment of Certain Industries” issued by the State Council on 26 April 2004, the portion of capital fund of property projects (excluding economically-affordable housing projects) has been increased from 20% or above to 35% or above.

B. Foreign-invested property development enterprises

Foreign-invested property development enterprises can be established in the form of sino-foreign equity joint venture, sino-foreign co-operative joint venture or wholly-owned foreign enterprise according to the Industrial Guidance Catalogue and other laws and administrative regulations relating to foreign investment enterprises. Prior to the application for registration to the department of administration of industry and commerce, the enterprise must be approved by the authorities of commerce and obtain an Approval Certificate for a Foreign Investment Enterprise.

On Oct 31 2007, China’s National Development and Reform Commission (NDRC) and the Ministry of Commerce (MOFCOM) promulgated the new Industrial Guidance Catalogue of Foreign Investments (2007 Revision) (“the 2007 Catalogue”). The 2007 Catalogue has taken effect on 1 December, 2007. The major changes on Real Estate industry in the 2007 Catalogue are the followings: (1) the development and construction of ordinary residential houses has been removed from the encouraged category; (2) the restricted category has been adjusted as the followings: (i) the development of a whole land lot which shall be operated only by sino-foreign equity joint venture or

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

sino-foreign co-operate joint venture; (ii) the construction and operation of up-market hotels, villas, premium office buildings, international conference centres; (iii) housing agents, brokerages and the second-tier real estate market; (3) the construction and operation of large scale theme park has been removed from the Real Estate industry to the Culture, Sports and Entertainment Industries which is still in the restricted category. It means that the enterprise investing in such projects will not be regarded as a real estate development company; (4) the construction and operation of golf courts has been removed from the restricted category to the prohibited category.

On 11 July 2006, the PRC Ministry of Construction, the Ministry of Commerce, the National Development and Reform Commission, the People's Bank of China, the State Administration of Industry and Commerce and the State Administration for Foreign Exchange jointly enacted the "Circular on Standardising the Admittance and Administration of Foreign Capital in the Property Market" (Jianzhufang 2006 171). According to this Circular, the admittance and administration of the foreign capital in property market must comply with the following requirements:

- (a) Foreign institutions or individuals purchasing property in China not for their own use shall follow the principle of commercial existence and apply for establishment of foreign investment enterprises under the regulations of foreign investment in property. The foreign institutions and individuals can only carry on their business pursuant to the approved business scope after obtaining the approvals from the relevant authorities and upon completion of the relevant registrations.
- (b) If the total investment of a foreign-invested property development enterprise exceeds or equals to USD10 million, the registered capital must not be less than 50% of the total investment. If the total investment is less than USD10 million, the amount of the registered capital shall follow the existing regulations.
- (c) For the establishment of a foreign-invested property development enterprise, the commerce authorities and the department of administration of industry and commerce are in charge of granting approval for establishment and effecting registration of the foreign invested property development enterprise and issuing the Approval Certificate for a Foreign Investment Enterprise and the Business License which are only effective for one year. After settlement of the consideration of land use right, the enterprises should apply for the land use rights certificate by presenting the above-mentioned certificate and license. With the land use rights certificate, the enterprises will receive an official Approval Certificate for a Foreign Investment Enterprise from the commerce authorities, and shall replace the business license with one that has the same operation term as the formal Approval Certificate for Foreign Investment Enterprise in the department of administration of industry and commerce, and then it shall apply for tax registration with the tax authorities.
- (d) Transfers of projects of or shares in foreign-invested property development enterprises, and the acquisitions of domestic property development enterprises by foreign investors should follow strictly the relevant laws, regulations and policies to obtain the approvals. The investor should submit: (a) the guarantee letters for the performance of the State-owned Land Use Right Grant Contracts, Construction Land Planning Permit and Construction

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

Work Planning Permit; (b) Certificate of Land Use Right; (c) the certification on alteration of archival files issued by construction authorities; d) the certification on the payment of tax issued by the relevant tax authorities.

- (e) While merging and acquiring domestic property development enterprises by way of share transfer or other means, or the purchase of shares from the Chinese party in a sino-foreign equity joint venture, the foreign investors shall properly resettle the employees, settle the bank loans and pay all the consideration at a time with its internal fund. The foreign investors with unfavourable record shall not be allowed to conduct any of the aforesaid activities.

On 23 May 2007, MOFCOM and SAFE jointly issued the "Notice Concerning Further Strengthening and Regulating the Examination, Approval and Supervision of Direct Foreign Investment in Real Estate" (關於進一步加強、規範外商直接投資房地產業審批和監管的通知) (Shang Zi Han 2007 No. 50). The Notice provides stricter controlling measures including, among others:

- (a) Where the application is filed for establishment of a property company, the land use right, the ownership of the property should be obtained first, or the pre-assignment/ purchase agreement has already been concluded with the land administration authority, land developer/ owner of the property. If the above requirements have not been satisfied, the approval authority shall not approve the application.
- (b) Acquisition of or investment in domestic property enterprises by way of return investment (including the same actual controlling person) shall be strictly controlled. Oversea investors may not avoid approval for foreign investment in property by way of changing the actual controlling person of the domestic real estate enterprise. Once the foreign exchange authority has found the foreign-invested property enterprise established by way of deliberately avoiding and false representation, it shall take action against the enterprise's conduct of remittance of capital and interest accrued without approval, and the enterprise shall bear the liability for cheated purchase and evasion of foreign exchange.
- (c) Agreement as to any fixed return or of the same effect for either party of a foreign-invested real property enterprise is prohibited.
- (d) Local examination and approval authorities must make a filing with MOFCOM for recording their approvals of establishment of foreign-invested real estate enterprises.
- (e) Local SAFE administrative authorities and designated foreign exchange banks shall not conduct foreign exchange purchase and settlement process in respect of capital projects for any foreign-invested real property enterprises who fail to satisfy the MOFCOM for filing requirement or annual review procedure.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

On 10 July 2007, the SAFE promulgated “Notice of the list of first batch of foreign-invested real estate projects that have been filed with the MOFCOM” (國家外匯管理局綜合司關於下發第一批通過商務部備案的外商投資房地產項目名單的通知) (Hui Zhong Fa 2007 No. 130), ceasing to conduct any foreign debt registration and foreign debt settlement process filed subsequent to 1 June 2007 for all foreign-invested property enterprises. The Notice provides that:

- (a) For a foreign-invested property enterprise (both newly-established and through capital increase, same below) which has obtained the approval certificate from the competent authorities of the MOFCOM and filed with the MOFCOM after and including (same below) 1 June 2007, the branch institutes will not conduct the foreign debt registration and foreign debts settlement approval process.
- (b) For a foreign-invested property enterprise which has obtained the approval certificate from the local competent authorities of the MOFCOM but has not filed with the MOFCOM after and including 1 June 2007, the branch institutes will not conduct foreign exchange registration (or change the registration) and the purchase and settlement process for capital projects.

C. Qualifications of a property developer

(a) *Classifications and assessment of a property development enterprises’ qualification*

Under the “Regulations on Administration of Development of Urban Property”, a property developer must file for record of its establishment to the property development authority in the location of the registration authority within 30 days after receiving its business license. The property development authority shall assess the qualification classification of the property developer, which is filing for record by considering its assets, professional personnel and development and operation records. A property development enterprise shall only engage in property development projects in compliance with its approved qualification.

Under the “Provisions on Administration of Qualifications of Property Developers” (the “Provisions on Administration of Qualifications”) enacted by the Ministry of Construction and entered into force on 29 March 2000, a property developer shall apply for registration of its qualifications according to the Provisions on Administration of Qualifications. An enterprise may not engage in the development and sale of property without a qualification classification certificate for property development.

In accordance with the Provisions on Administration of Qualifications, qualifications of a property development enterprise are classified into four classes: class 1, class 2, class 3 and class 4. Different classes of qualification should be examined and approved by the corresponding authorities. The class 1 qualification shall be subject to preliminary examination by the construction authority under the people’s government of the relevant province, autonomous region or municipality directly under the central government and final approval by the construction authority under the State Council. Procedures for assessing class 2 or lower qualifications developers shall be formulated by the construction authority under the people’s government of the relevant province, autonomous region or

APPENDIX VII**SUMMARY OF PRC LAWS RELATING TO
THE PROPERTY SECTOR**

municipality directly under the central government. A developer, which passes the qualification examination will be issued with a qualification certificate of the relevant class by the qualification assessment authority. After a newly established property developer reports its establishment to the property development authority, the latter shall issue a provisional qualification certificate to the eligible developer within 30 days of receipt of the report. The provisional qualification certificate shall be effective for one year from the date of its issuance. The property development authority can extend the validity period for not more than two years after considering the actual business situation of the enterprise. The property developer shall apply for qualification classification by the property development authority within one month before the expiry of the provisional qualification certificate. Any enterprise engages in the operation of property development without obtaining a qualification certificate will be ordered by the property development authority to rectify the irregularity within a certain period of time, and will be imposed a fine between RMB50,000 and RMB100,000. A property development enterprise failing to rectify the irregularity within the required period of time will have its qualification certificate suspended and a proposal will be sent to the industrial and commercial administration authority for the suspension of business license of such property development enterprise.

(b) *The business scope of a property developer*

Under the “Provisions on Administration of Qualifications”, a developer of any qualification classification may engage in the development and sale of property within its approved scope of business and is not allowed to engage in business which exceeded the approved scope of its qualification classification. A class 1 property developer may undertake a property development project anywhere in the country without any limit of the scale of property project. A property developer of class 2 or lower may undertake a project with a gross floor area of less than 250,000 sq.m. and the specific scope of business shall be determined by the construction authority under the people’s government of the relevant province, autonomous region or municipality.

(c) *The annual inspection of a property developer’s qualification*

Pursuant to “Provisions on Administration of Qualifications”, the qualification of a property developer should be annually inspected. The construction authority under the State Council or the entrusted institution is responsible for carrying out the annual inspection of class 1 property developer’s qualification. Procedures for annual inspection of developers of class 2 or lower qualifications shall be formulated by the construction authority under the people’s government of the relevant province, autonomous region or municipality. Any enterprise fails to comply with the qualification requirement or operation requirements will have its qualification classification down-graded or qualification certificate cancelled.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

D. Development of a property project

(a) *Land for property development*

Under the “Interim Regulations of the People’s Republic of China on Assignment and Transfer of the Right to Use State-owned Land in Urban Areas” (the “Interim Regulations on Assignment and Transfer”) promulgated and enforced by the State Council on 19 May 1990, a system of assignment and transfer of the right to use State-owned land is adopted. A land user shall pay a premium to the State as consideration for the assignment of the land use rights within certain terms, and a land user may transfer, lease, mortgage or otherwise commercially exploit the land use right within his terms of use. Under the Interim Regulations on Assignment and Transfer and the Urban Property law, the land administration authority under the local government of the relevant city or county shall enter into an assignment contract with the land user for an assignment of land use right. The land user shall pay the assignment price as stipulated in the assignment contract. After paying the assignment price in full, the land user shall register with the land administration authority and obtain a Land Use Right Certificate. The Certificate is an evidence of the acquisition of land use rights. The “Regulations on Administration of Development of Urban Property” provide that the land use rights for a site intended for property development shall be obtained by way of an assignment except for those land use rights, which may be obtained by way of allocation pursuant to the PRC laws or the stipulations of the State Council.

Under the “Regulations on the Assignment of State-Owned Land Use Right through Competitive bidding, Auction and Listing-for-Sale” (“2002 Regulations”), as amended by the 2007 Regulations on 28 September 2007 enacted by the Ministry of Land and Resources on 9 May 2002 and enforced on 1 July 2002, land for commercial use, tourism, entertainment and commodity housing development shall be assigned by way of competitive bidding, public auction or listing-for-sale. The procedures are as follows:

- i. The land authority under the people’s government of the city and county (the “assignor”) shall make an announcement at least 20 days prior to the date of the proposed competitive bidding, public auction or listing-for-sale. The announcement should include basic particulars such as land parcel, qualification requirement of the bidder and auction applicants, methods and criteria on confirming the winning tender or winning bidder, and other conditions such as the deposit of the bid.
- ii. The assignor shall conduct a qualification verification of the bidding applicants and auction applicants, inform the applicants who satisfy the requirements set out in the announcement and invite them to attend the competitive bidding, public auction or listing-for-sale.
- iii. After determining the winning tender or the winning bidder by the competitive bidding, public auction or listing-for-sale, the assignor and the winning tender or winning bidder shall then enter into a confirmation. The assignor should return the bidding or tender deposit to other bidding or auction applicants.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

- iv. The assignor and the winning tender or winning bidder shall enter into a contract for State-owned land use right assignment according to the time and venue set out in the confirmation. The deposit of the bid paid by the winning tender or winning bidder will be used to set off part of the assignment price of the state-owned land use rights.
- v. The winning tender or winning bidder should apply for the land registration after paying off the assignment price in accordance with the State-owned land use right assignment contract. The people’s government above the city and county level should issue the “Land Use Permit for State-Owned Land”.

According to the “Notice of the Ministry of Land and Resources on Relevant Issues Concerning the Strengthening of Examination and Approval of Land Use in Urban Construction” enacted by the Ministry of Land and Resources on 4 September 2003 (the “Notice”). Commencing from the day of distribution of the Notice, land use for luxurious commodity houses shall be stringently controlled, and applications for land use for building villas shall be stopped. On 21 March 2004, the Ministry of Land and Resources together with the Ministry of Supervision promulgated the “Notice in Respect of Enforcing and Supervising The Transfer of Operative Land Use Rights Through Tenders, Bidding and Public Auction (關於繼續開展經營性土地使用權招標拍賣掛牌出讓情況執法監察工作的通知)”, which expressly required that after 31 August 2004, no land use rights transfer in the form of agreement by the excuse of historical difficulties will be allowed. On 30 May 2006, the Ministry of Land and Resources issued the “Urgent Notice of Further Strengthening the Administration of the Land”. It is expressly prescribed in this Notice that land for property development must be assigned by way of competitive bidding, public auction or Listing-for-sale; the rules of stopping the development project for villas should be strictly enforced; and all supply of land for such purpose and handling of related land use procedure will be ceased from the day of the Notice’s issuance.

Under the “Urgent Notice of Further Strengthening the Administration of the Land”, the land authority should rigidly execute the “Model Text of the State-owned Land Use Right Assignment Contract” and “Model Text of the State-owned Land Use Right Assignment Supplementary Agreement (for Trial Implementation)” jointly enacted by the Ministry of Land Resources and SAIC. The document of the land assignment should ascertain the requirement of planning, construction and land use such as the restriction of the dwelling size, plot ratio and the time limit of starting and completion. All these should be agreed in the Land Use Right Assignment Contract.

On 28 September 2007, the Ministry of Land Resources promulgated the Regulation on Bidding, Auction and Listing Required for Assignment of State Owned Construction Land (《招標拍賣掛牌出讓國有建設用地使用權規定》) (“this Regulation”) (“2007 Regulations”). This Regulation specifies that the assignee of state owned construction land use right shall fully pay up the premium for the land use right in accordance with the state owned land assignment agreement before it could proceed with the relevant procedures for land use right registration and apply for a state owned construction land use right certificate. No assignee could be granted a state owned construction land use right certificate for the land in proportion to the partial payment of the premium that the assignee has paid up. In 2007, it is provided in detail that operative lands for properties to be used for industrial, commercial, tourism, entertainment and commodity residential purposes as well as lands with two or more prospective users must be granted only through competitive bidding.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

On 2 January 2007, the National People’s Congress promulgated the “Laws on Urban and Rural Planning (城鄉規劃法)” which provided that for construction projects having obtained rights to use State-owned lands by way of grant, after the rights to use State-owned lands grant contract have been verified, the construction entity shall apply for a permit for construction site planning from the relevant municipal or county or city or rural planning authority.

(b) *Development of a property project*

i. *Commencement of a property project and the idle land*

Under the Urban Property Law, those who have obtained the land use right through an assignment must develop the land in accordance with the terms of use and within the period of commencement prescribed in the contract for the land use rights assignment. According to the “Measures on Disposing Idle Land” enacted and enforced by the Ministry of Land and Resources on 28 April 1999, the land can be defined as idle land under any of the following circumstances:

- development and construction of the land is not commenced within the prescribed time limit after obtaining the land use right without consent from the people’s government who approved the use of the land;
- where the “Contract on Paid Use of the Right to Use State-Owned Land” or the “Approval Letter on Land Used for Construction” has not prescribed the date of commencing the development and construction, the development and construction of the land is not commenced at the expiry of one year from the date when the “Contract on Paid Use of the Right to Use State-Owned Land” became effective or when the administrative department of land issued the “Approval Letter on Land Used for Construction”;
- the development and construction of the land has been commenced but the area of the development and construction that has been commenced is less than one-third of the total area to be developed and constructed or the invested amount is less than 25% of the total amount of investment, and the development and construction have been continuously suspended for one year or more without an approval; and
- other circumstances prescribed by the laws and the administrative regulations.

The municipality or county-level municipality administrative department shall, after a piece of land which has been ascertained as idle land, notify the concerned land user and draft a proposal on methods of disposal of the idle land including but not limited to extending the time period for development and construction (provided that the extension shall be no longer than one year), changing the use of the land, arranging for temporary use, ascertaining a new land user by competitive bidding, public auction. The administrative department of land under the people’s government of city or county level shall, after the proposal on disposal has been approved by the original people’s government who approved the use of the land, arrange for implementation of the proposal. To the land which is obtained by assignment and is within the scope of city

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

planning, if the work has not been commenced after one year from the prescribed date of commencement, a surcharge on idle land equivalent to less than 20% of the assignment price may be levied; if the work has not been commenced after two years from the prescribed date of commencement, the land can be confiscated without any compensation. However, the preceding stipulations shall not apply if the delay is caused by force majeure; acts of government or acts of other relevant departments under the government; or by the indispensable preliminary work.

The State Council promulgated the “Notice on Promoting the Saving and Intensification of Use of Land (Guo Fa No.2008) (關於促進節約集約用地的通知(國發2008 3號))” on 3 January 2008, which required that policy in respect of unused land shall be strictly implemented. If the land approved for development left idle for more than two years, it must be recovered for reused without any compensation by the government according to applicable laws and regulations. Even if the land may not be recovered according to relevant laws and regulations, the land shall be disposed of in time and used efficiently through altering usage of the land, equivalent exchange etc. For lands left unused for over one year but less than two years, an idle land fees shall be levied at a rate equal to 20% of the price for the land granted or allocated.

ii. *Planning of a property project*

According to the “Measures for Control and Administration of Assignment and Transfer of Right to Use Urban State-owned Land” enacted by the Ministry of Construction on 4 December 1992 and enforced on 1 January 1993 and the “Notice of the Ministry of Construction on Strengthening the Planning Administration of Assignment and Transferring Right to Use State-owned Land” enacted and enforced by the Ministry of Construction on 26 December 2002, after signing an assignment contract, a property developer shall apply for a Opinion on Construction Project’s Site Selection and a Permit for Construction Site Planning from the city and county planning authority with the assignment contract. After obtaining a Permit for Construction Site Planning, a property developer shall organise the necessary planning and the design work with regard to planning and design requirements; and apply for a Permit for Construction Work Planning from city planning authority with the relevant approval documents. On 30 June 2001, a permit for housing demolition and removal was obtained pursuant to the “Regulations for the Administration of Demolition and Removal in Urban Areas (城市房屋拆遷管理條例)”, and the “Notice on Controlling the Scale of Demolition and Removal and Strengthening Administration of Demolition and Removal (關於控制城鎮房屋拆遷規模嚴格拆遷管理的通知)” issued by the State Council on 6 June 2001.

iii. *Construction of a property project*

After obtaining the Permit for Construction Work Planning, a property developer shall apply for a Construction Permit from the construction authority under the local people’s government above the county level according to the “Measures for the Administration of Construction Permits for Construction Projects” enacted by the Ministry of Construction on 15 October 1999 and revised and enforced on 4 July 2001.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

iv. *Completion of a property project*

According to the “Regulations on Administration of Development of Urban Property”, the “Regulation on the Quality Management of Construction Projects” enacted and enforced by the State Council on 30 January 2000, the “Interim Measures for Reporting Details Regarding Acceptance Examination Upon Completion of Buildings and Municipal Infrastructure” enacted by the Ministry of Construction in April 2000 and the “Interim Provisions on Acceptance Examination Upon Completion of Buildings and Municipal Infrastructure” enacted and enforced by the Ministry of Construction on 30 June 2000, after completion of work for a project, a property developer shall apply for the acceptance examination upon completion to the property development authority under the people’s government on or above the county level and report details of the acceptance examination, upon which the “Record of acceptance examination upon project completion”. For a housing estate or other building complex project, an acceptance examination shall be conducted upon completion of the whole project and where such a project is developed in phases, separate acceptance examination may be carried out for each completed phase.

E. Property Construction

(a) *the Bid and Tender Law of the People’s Republic of China*

Under the Bid and Tender Law of the People’s Republic of China 《中華人民共和國招標投標法》 promulgated by the Standing Committee of the National People’s Congress dated 30 August 1999 and implemented on 1 January 2000, tender is compulsory with respect to construction projects within the territory of the PRC such as large-scale infrastructure and public utilities relating to social public interests or public security, including the investigation, design, construction, construction supervision thereof as well as procurements pertaining to important equipment and materials in connection with project construction. The tender is divided into open tender and invited tender. Any entity or individual shall not nullify related projects that must be offered to tender as statutory required or circumvent tender through any other means. The successful tenderer, on the basis of contractual covenant or upon the tenderee’s consent, may contract to others the non-principal non-critical works in the tender project. The individual accepting such contracting shall be equipped with appropriate qualifications and shall not subcontract his portion of works. The successful tenderer shall be accountable to the tenderee for the subcontracted project while the subcontractor shall bear joint liability for the same. To conduct bidding and tendering activities within the PRC territory, relevant entity or individual shall comply with the above regulation.

(b) *The Rules on the Shanghai Bidding of Construction Management Interim Procedures*

According to the rules on the Shanghai Bidding of Construction Management Interim Procedures 《上海市建設工程施工招標投標管理暫行辦法》 approved by Shanghai Government Order No. 54 amended and re-issued on 19th December 1997, where in Shanghai (including the Commission and the Office of the Council, the district and county) of the annual fixed assets investment plan construction projects should be carried out in accordance with this approach construction tender. The tender will be required to have legal personality is the building of a unit or the total project contractor. The

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

bidding could be the city business license holders of the construction and installation enterprises, project contracting companies and other provinces and cities under the Shanghai Municipal Construction Enterprise Management sector of the construction. In the selection process, the selected bidding group is made up of the tender, the tender’s superior departments, the preparation of bidding price, the designer and so on. Through voting, score or the other ways, the final award will be decided by the selected bidding group. In addition, the process of decision should be supervised under the office of Shanghai Municipal Construction Enterprise Management or the Construction Management of district and county. Then, the bidding notice should be delivered to the successful bidder within 2 days after the decision of the selected bidding group. The tender should subscribe the Construction Contracting Contract with the successful bidder within 15 days from the date of delivery of the bidding notice.

F. Property Transactions

(a) *Transfer of property*

According to the “Urban Property Law” and the “Provisions on Administration of Transfer of Urban Property” enacted by the Ministry of Construction on 7 August 1995 and revised on 15 August 2001, a property owner may sell, give or otherwise legally transfer a property to another person or legal entity. When transferring a building, the ownership of the building and the land use rights attached to the site on which the building is situated are transferred simultaneously. The parties to a transfer shall enter into a property transfer contract in writing and register the transfer with the property administration authority having jurisdiction over the location of the property within 90 days of the execution of the transfer contract.

Where the land use rights were originally obtained by assignment, the real property may only be transferred on the condition that: (a) the assignment price has been paid in full for the assignment of the land use rights as provided by the assignment contract and a land use right certificate has been obtained; (b) the development has been carried out according to the assignment contract; and with respect to a project in which buildings are being developed, development representing more than 25% of the total investment has been completed.

If the land use rights were originally obtained by assignment, the term of the land use rights after transfer of the property shall be the remaining portion of the original term provided by the land use right assignment contract after deducting the time that has been used by the former land users. In the event that the transferee intends to change the use of the land provided in the original assignment contract, consent shall first be obtained from the original assignor and the planning administration authority under the local government of the relevant city or county and an agreement to amend the land use right assignment contract or a new land use right assignment contract shall be signed in order to, inter alia, adjust the land use right assignment price accordingly.

If the land rights were originally obtained by allocation, transfer of the real property shall be subject to the approval of the government vested with the necessary approval power as required under the regulations of the State Council. If the people’s government vested with the necessary approval

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

power approves such a transfer, the transferee shall complete the formalities for transfer of the land use rights, unless the relevant statutes require no transfer formalities, and pay the transfer price according to the relevant statutes.

(b) *Sale of commodity properties*

Under the “Regulatory Measures on the Sale of Commodity Properties” enacted by the Ministry of Construction on 4 April 2001 and enforced on 1 June 2001, sale of commodity properties can include both pre-completion and post-completion sales.

i. *Permit of pre-completion sale of commodity properties*

According to the “Regulations on Administration of Development of Urban Property” and the “Measures for Administration of Pre-completion Sale of Commodity Properties” (the “Pre-completion Sale Measures”) enacted by the Ministry of Construction on 15 November 1994 and revised on 15 August 2001 and 20 July 2004 respectively, the pre-completion sale of commodity properties shall be subject to a permit system, under which a property developer intending to sell a commodity building before its completion shall make the necessary pre-completion sale registration with the property development authority of the relevant city or county to obtain a permit of pre-completion sale of commodity properties. A commodity building may only be sold before completion provided that: (a) the assignment price has been paid in full for the assignment of the concerned land use rights and a land use rights certificate has been issued; (b) a Permit for Construction Work Planning and a Permit for Construction of Work have been obtained; (c) the funds invested in the development of the commodity properties put to pre-completion sale represent 25% or more of the total investment in the project and the progress of work and the completion and delivery dates have been ascertained; and (d) the pre-completion sale has been registered and a Permit for Pre-completion Sale of Commodity Properties has been obtained.

In addition, according to the “Regulations on Administration of Pre-completion Sale of Commodity Properties of Guangdong Province” enacted by the Standing Committee of Guangdong Provincial People’s Congress on 22 August 1998 and revised on 14 October 2000, and the “Notice on Adjusting Conditions of Image and Progress for Commodity Building Pre-sale Project in Guangdong Province” issued by the Guangdong Provincial Construction Bureau in January 2001, the following conditions shall be fulfilled for pre-completion sale of commodity properties in Guangdong: (a) the property developer has obtained a real property development qualification certificate and a business license; (b) the construction quality and safety monitoring procedures have been performed; (c) the structural construction and the topping-out must have been completed in respect of properties of not more than seven stories (including seven stories), and at least two-third of the structural construction must have been completed in respect of properties of more than seven stories; (d) a special property pre-completion sale account with a commercial bank in the place where the project is located has been opened; and (e) the properties pre-completion sale project and its land use rights are free from any third party rights.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

ii. *Management of pre-completion sale proceeds of commodity properties*

According to the Pre-completion Sale Measures, the proceeds obtained by a property developer from the advance sale of commercial houses must be used for the construction of the relevant projects. The specific measures for the supervision on proceeds from the advance sale of commodity properties shall be formulated by the property administrative departments.

iii. *Conditions of the sale of post-completion commodity properties*

Under the “Measures for Administration of Sale of Commodity Properties”, commodity properties may be put to post-completion sale only when the following preconditions have been satisfied: (a) The property development enterprise offering to sell the post-completion properties shall have a enterprise legal person business license and a qualification certificate of a property developer; (b) The enterprise has obtained a land use right certificate or other approval documents of land use; (c) The enterprise has the permit for construction project planning and the permit for construction; (d) The commodity commodities have been completed and been inspected and accepted as qualified; (e) The relocation of the original residents has been well settled; (f) The supplementary essential facilities for supplying water, electricity, heating, gas, communication, etc. have been made ready for use, and other supplementary essential facilities and public facilities have been made ready for use, or the schedule of construction and delivery date of have been specified; (g) The property management plan has been completed.

Before the post-completion sale of a commodity building, a property developer shall submit the Property Development Project Manual and other documents showing that the preconditions for post-completion sale have been fulfilled to the property development authority for making a record.

iv. *Regulations on sale of commodity properties*

According to the “Regulations on Administration of Development of Urban Property” and the Pre-completion Sale Measures, for the pre-completion sale of a commodity building, the developer shall sign a contract on the pre-sale of the commodity building with the purchaser. The developer shall, within 30 days upon signing the contract, apply for registration and record of contract for pre-completion sale commodity building to the relevant administrative departments governing the property and land administration department of the city or country governments. Property administrative department shall take the initiative to apply network information technology to gradually implement web-based registration of pre-sale contracts.

Pursuant to the “Circular of the General Office of the State Council on Forwarding the Opinion of the Ministry of Construction and Other Department on Doing a Good Job of Stabilising House Prices” on 9 May 2005, there are several regulations concerning commodity properties sale:

- The buyer of a commodity building is prohibited from conducting any transfer of the pre-sale of the commodity building that he has bought but is still under construction.

APPENDIX VII**SUMMARY OF PRC LAWS RELATING TO
THE PROPERTY SECTOR**

Before completion and delivery of an advance sale commodity building to the advance buyer, and before the advance buyer obtains the individual property ownership certificate, the administrative department of property shall not handle any transfer of the commodity building. If there is discrepancy in the name of the applicant for property ownership and the name of the advance buyer in the advance sales contract, the property ownership registration administration shall not records the application of property ownership;

- Apply a real name system for house purchase; carry out an immediate archival filing network system for pre-sale contracts of commodity properties.

On 6 July 2006, the Ministry of Construction, NDRC, and the SAIC jointly enacted a Notice on Reorganising and Regulating Order in the Property Transactions, the details of which are as follows:

- The developer should start to sell the commodity properties within 10 days after receiving "Permit for Pre-completion Sale of commodity properties". Without this permit, the pre-completion sale of commodity properties, as well as subscription (including reservation, registration and number-selecting) and acceptance of the any kind of pre-sale payments, is forbidden;
- The property administration authority should establish an immediate network system for advance sales contracts of commodity properties and a system for the publication of property transaction information. The basic situation of the commodity building, the schedule of the sale and the rights status should be duly, truly and fully published in the network system and on the locale of sale. The advance buyer of a commodity building is prohibited from conducting any transfer of the advance sale of the commodity building that he has bought but is still under construction;
- Without the "Permit for Pre-completion Sale of commodity properties", no advertisement of the pre-completion sale of commodity properties can be allowed to publish;
- Property development enterprises with a record of serious irregularity or enterprises which do not satisfy the requirements of pre-completion sale of commodity properties is not allowed to take part in sale activities;
- The property administration authority should strictly carry out the regulations of the pre-completion sale contract registration and records and apply the real name system for property purchase.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

(c) *Mortgages of Property*

Under the “Real Rights Law of the People’s Republic of China” enacted by the National People’s Congress on 16 March 2007 and enforced on 1 October 2007, the “Urban Property Law” and the “The Security Law of the People’s Republic of China” enacted by the Standing Committee of the National People’s Congress on 30 June 1995 and enforced on 1 October 1995, and the “Measures on the Administration of Mortgage of Buildings in Urban Areas” enacted by the Ministry of Construction in May 1997 and revised on 15 August 2001, mortgage refers to the act of a debtor, or a third party, who, without transferring the occupancy of the properties, charge those properties as security for the creditor’s rights; when the debtor fails to pay his debt, the creditor has a right to obtain compensation, in accordance with the stipulations of this law, by converting the properties into money or seek preferential payments from the proceeds from the auction or sale of the concerned properties. The creditor’s rights that the mortgagor mortgaged shall not exceed the value of the properties mortgaged. After being mortgaged, the balance of value of the properties that exceeded the creditor’s rights can be mortgaged for a second time, but the sum of the mortgage shall not exceed the value of the balance. When a mortgage is created on the ownership of a building on state-owned land legally obtained, a mortgage shall be simultaneously created on the land use right of the land on which the building is erected. When the land use rights of State-owned lands acquired through means of assignment is mortgaged, the buildings on the land shall also be mortgaged at the same time. The land use rights of town and village enterprises cannot be mortgaged individually. When the buildings of the town and village enterprises are mortgaged, the land use rights occupied by the buildings shall also be mortgaged at the same time. The mortgager and the mortgagee shall sign a mortgage contract in writing. Within 30 days after a property mortgage contract has been signed, the parties to the mortgage shall register the mortgage with the property administration authority at the location where the property is situated. A property mortgage contract shall become effective on the date of registration of the mortgage. If a mortgage is created on the property in respect of which a property ownership certificate has been obtained legally, the registration authority shall make an entry under the “third party rights” item on the original property ownership certificate and then issue a Certificate of Third Party Rights to Property to the mortgagee. If a mortgage is created on the commodity building put to pre-completion sale or under construction, the registration authority shall record the details on the mortgage contract. If construction of a real property is completed during the term of a mortgage, the parties involved shall re-register the mortgage of the real property after issuance of the certificates evidencing the ownership of the property.

(d) *Lease of buildings*

Under the “Urban Property Law” and the “Measures for Administration of Leases of Buildings in Urban Areas” enacted by the Ministry of Construction on 28 April 1995 and enforced on 1 June 1995, the parties to a lease of a building shall enter into a lease contract in writing which shall be effective upon signing by both parties. A system which has been adopted for registering leases of buildings. When a lease contract is signed, amended or terminated, the parties shall register the details with the property administration authority under the local government of the city or county in which the building is situated. The term of a leased building and the related land shall not be more than 20 years.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

G. Property financing

According to the “Notice of the People’s Bank of China on Regulating Home Financing Business” enacted by the People’s Bank of China (the “PBOC”) on 19 June 2001, all banks must comply with the following requirements before granting residential development loans, individual home mortgage loans and individual commercial flat loans:

- (a) Housing development loans from banks shall only be granted to property development enterprises with approved development qualifications and high credit ratings. Such loans shall be offered to residential projects with good market potential. While the borrowing enterprise must have an amount of own capital no less than 30% of the total investment required of the project, the project itself must have been issued with a Land Use Rights Certificates, Construction Land Planning Permit, Construction Work Planning Permit and Permit of Construction Work.
- (b) In respect of the grant of individual home mortgage loans, the ratio between the loan amount and actual value of the security (the “Mortgage Ratio”) shall never exceed 80%. Where an individual applies for a home purchase loan to buy a pre-completion house, the said property must have achieved the stage of “topping-out of the main structure completed” for multi-story buildings or “two-thirds of the total investment completed” for high-rise buildings.
- (c) In respect of the grant of individual commercial flat loans, the Mortgage Ratio under the application for commercial flat loans shall not exceed 60% with a maximum loan period of 10 years and the subject commercial properties have already been completed.

The PBOC issued the Circular on Further Strengthening the Management of Loans for Property Business on 5 June 2003 to specify the requirements for banks to provide loans for the purposes of property development and individual home mortgage as follows:

- (a) The property loan by commercial banks to property development enterprises shall be granted only under the title of property development loan and it is strictly forbidden to extent such loans as current capital loan for property development project or other loan item. No lending of any type shall be granted for projects which have not obtained the Land Use Right Certificates, Construction Land Permit, Construction Planning Permit and Construction Work Permit.
- (b) Commercial banks shall not grant loans to property developers to pay off land premium. and
- (c) Commercial banks may only provide mortgage loans to individual buyers when the main structural buildings have been topped out. When a borrower applies for individual home loans for his first residential unit, the down payment remains to be 20%. In respect of his loan application for additional purchase of residential unit(s), the percentage of the first instalment shall be increased.

Pursuant to the Guidance on Risk Management of Property Loans of Commercial Banks issued by China Banking Regulatory Commission on 2 September 2004, any property developer applying for property development loans shall have at least 35% of capital funds required for the development.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

According to the “Notice of the People’s Bank of China on the Adjustment of Commercial Bank Housing Loan Policies and the Interest Rate of Excess Reserve Deposit”, enacted by PBOC on 16 March 2005, starting from 17 March 2005, the down payment of individual home increased from 20% to 30% in cities and areas where property prices grow too quickly. The commercial banks can independently determine scope of such property price rise according to specific situations in different cities or areas.

On 24 May 2006, the State Council forwarded the “Opinion of the Ministry of Construction and Other Departments on Adjusting the Housing Supply Control Structure and Stabilising the Property Prices. The regulations provide the following:

- (a) Tightening the control of advancing loan facilities. The commercial banks are not allowed to advance their loan facilities to property developers who do not have the required 35% or more of the total capital for the construction projects. The commercial banks should be prudent in granting loan facilities and/or revolving credit facilities in any form to the property developers who have a large number of idle lands and unsold commodity properties. The commercial banks shall not accept mortgages of commodity properties remaining unsold for three years or longer, and the commercial banks shall not accept such commodity building as collateral for loans.
- (b) From 1 June 2006 and onward, purchasers need to pay a minimum of 30% of the purchase price as down payment. However, if purchasers purchase apartments with a floor area of 90 sq.m. or less for residential purposes, the existing requirement of 20% of the purchase price as down payment remains unchanged.

According to “Circular on Standardising the Admittance and Administration of Foreign Capital in Property Market” enforced on 11 July 2006, foreign-invested property development enterprises which have not paid up their registered capital fully, or failed to obtain a Land Use Right Certificate, or with under 35% of the capital for the project, will not be allowed to obtain a loan in or outside China, and foreign exchange administration departments shall not approve any settlement of foreign loans by such enterprises.

On 27 September 2007, the PBOC, CBRC jointly issued the “Notice on Strengthening the Administration of Commercial Real Estate Credit Loans” (《關於加強商業性房地產信貸管理的通知》), which further stipulates stringent requirements to the grant of loans in respect to the second and subsequent purchases of housing by individuals. For those who has used credit loans to purchase a housing and applied for purchasing the second (inclusive) or more housing, the down payment shall not be less than 40% of the total purchase price, while the interest rate of such loan shall not be lower than 1.1 times of the benchmark interest rate of the same grade for the same period as announced by the PBOC. Moreover, the ratio of the down payment and the level of the interest rate of the loan shall be substantially adjusted upwards according to the number of purchases. The specific increase range will be determined by commercial banks at their own discretion based on the relevant principles of credit risk management.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

H. Insurance of a property project

There are no mandatory provisions in the PRC laws, regulations and government rules which require a property developer to take out insurance policies for its property projects.

In light of the “Construction Law of the People’s Republic of China” enacted by the Standing Committee of the National People’s Congress on 1 November 1997 and enforced on 1 March 1998, construction enterprises must take out accident and casualty insurance for workers engaged in dangerous operations and pay insurance premium. In the “Opinions of the Ministry of Construction on Strengthening the Insurance of Accidental Injury in the Construction Work” by the Ministry of Construction on 23 May 2003, the Ministry of Construction further emphasises the importance of the insurance of accidental injury in the construction work and put forward the detailed opinions of guidance. The “Guidance on the Insurance of Accidental Injury in the Construction Work of Guangdong Province” enacted by construction department of Guangdong Province on 8 September 2004 prescribes the scope, object, term, coverage, amount and premium of insurance for accidental injury. Besides, the Guidance especially emphasises that the persons who have been already insured of work-related injury insurances still need to be insured of accidental injury insurance when he or she takes part in the on-site construction work. According to the common practice of the property industry in Guangdong, except for the accidental injury insurance, construction companies are usually required to submit insurance proposals in the course of tendering and bidding for construction projects. Construction companies shall pay for the insurance premium at their own costs and take out various types of insurance to cover their liabilities, such as property risks, third party’s liability risk, performance guarantee in the course of construction and all-risks associated with the construction and installation work throughout the construction period. The insurance cover for all the aforementioned risks shall cease immediately after the completion and acceptance upon inspection of construction.

I. Measures on Adjusting the Structure of Housing Supply and Stabilising Housing Price

The General Office of the State Council enacted the “Circular on Stabilising Housing Price” on 26 March 2005, requiring measures to be taken to restrain the housing price from increasing too fast and to promote the healthy development of the property market. On 9 May 2005, the General Office of the State Council issued the Opinion of the Ministry of Construction and other Departments on Doing a Good Job of Stabilising House Prices, the opinion provides that:

(a) *Intensifying the planning and control and improving the supply structure of houses*

Where the housing price is in excessive growth and where the supply of ordinary commodity houses with medium or low price and economical houses is insufficient, construction of residential properties should mainly involve projects of ordinary commodity houses with medium or low price and economical houses. The construction of low-density, upmarket houses shall be strictly controlled. With respect to construction projects of medium-or low-price ordinary commodity houses, before any grant of land, the municipal planning authority shall, according to the level of control required, set out conditions for planning and design such as height of buildings, plot ratio and green space. The property authority shall, in collaboration with other relevant authorities, set forth such controlling requirements as sale price, type and apartment sizes. Such conditions and requirements will be set out

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

as preconditions of land assignment to ensure an effective supply of small or medium-sized houses at moderate and low prices. The local government must intensify the supervision of planning permit for property development projects. Housing projects that have not been commenced within two years must be examined again, and those that turn out to be not in compliance with the planning permits will be revoked.

(b) *Intensifying the control over the supply of land and rigorously enforcing the administration of land*

Where the price of land for residential use and residential properties grows too fast, the proportion of land for residential use to the total land supply should be appropriately raised, and the land supply for the construction of ordinary commodity houses with medium or low price and economical house should be emphatically increased. Land supply for villa construction shall continue to be suspended, and land supply for up-market housing property construction shall be strictly restricted.

(c) *Adjusting the policies of business tax on residential property house transfer and strictly regulating the collection and administration of tax*

From 1 June 2005, business tax on transfer of a residential property by an individual within two years from purchase will be levied on the basis of the full amount of the sale proceeds. Transfer of an ordinary residential property by an individual two years or more after purchase shall be exempted for business tax. For transfer of a house other than ordinary residential property by an individual two years or more after purchase, the business tax will be levied on the basis of the balance between the proceeds from selling the property and the purchase price.

(d) *Strictly Rectifying and Regulating the Market Order and Seriously Investigating into and Punishing Any Irregular and Rule-breaking Sales*

The buyer of a pre-completion commodity property is prohibited from conducting any transfer of the pre-sale commodity property that he has bought but is still under construction. A real name system for property purchase should be applied, and an immediate archival filing network system for advance sales contracts of commodity properties should be carried out.

On 24 May 2006, the State Council forwarded the “Opinion on Adjusting the Housing Supply Structure and Stabilising Property Prices (《關於調整住房供應結構穩定住房價格的意見》) (the “Opinion”) of the Ministry of Construction and other relevant government authorities. The Opinion provides the following:

i. *Adjusting the Housing Supply Structure*

- Developers must focus on providing small to medium sized ordinary commodity properties at low to mid-level prices to cater to the demands of local residents;

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

- As of 1 June 2006, newly approved and newly commenced building construction projects must have at least 70% of the total construction work area designated for small apartments with floor areas of 90 sq.m. or below (including economically affordable apartments). If municipalities directly under the Central Government, cities listed on state plans (省會城市) and provincial capital cities (計劃單列市) have special reasons to adjust such prescribed ratio, they must obtain special approval from the Ministry of Construction. Construction projects that have been approved but have not yet obtained a construction permit must follow the prescribed ratio.
- ii. *Further adjustments by tax, loan and land policies*
- From 1 June 2006, business tax will be levied on the full amount of the sale proceeds on conveyance of residential properties within a period of five years from the date of purchase. If an individual sells his ordinary standard apartment after five or more years from the date of purchase, business tax will normally be exempted. If an individual sells his non-ordinary apartment after five or more years from the date of purchase, business tax will be levied on the balance between the selling price and the purchase price;
 - Commercial banks are not allowed to advance loan facilities to property developers who do not have the required 35% or more of the total capital for the construction projects. The commercial banks should be prudent in granting loan facilities and/or revolving credit facilities in any form to the property developers who have a large number of idle lands and unsold commodity apartments. Banks shall not accept mortgages of commodity apartments remaining unsold for three years or more;
 - From 1 June 2006 and onward, purchasers need to pay a minimum of 30% of the purchase price as down payment. However, if purchasers buy apartments of 90 sq.m. or less for residential purposes, the existing requirement of 20% of the purchase price as down payment remains unchanged;
 - At least 70% of the total land supply for residential property development must be used for developing small-to-medium-sized low-cost public housing. Based on the restrictions of residential property size ratio and residential property price, land supply will be granted by way of auction to the property developer who offers the highest bid. Land supply for villa construction shall continue to be suspended, and land supply for low-density and large-area housing property construction shall be strictly restricted;
 - The relevant authorities will levy a higher surcharge against those property developers who have not commenced the construction work for longer than one year from the commencement date stipulated in the construction contract and will order them to set a date for commencing the construction work and a date of completion. The relevant authorities will confiscate without compensation the land from those property developers who have not commenced the construction work beyond two years from

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

the commencement date stipulated in the construction contract without proper reasons. The relevant authorities will dispose of the idle land of those property developers who have suspended the construction work consecutively for one year without an approval, have invested less than one-fourth of the total proposed investment and have developed less than one-third of the total proposed construction area.

iii. *Reasonably Monitoring the Scope and Progress of Demolition of Urban Housing*

The management and reasonable control of the scope and progress of the demolition of urban housing should be strengthened to halter the excessive property growth triggered by passive means.

iv. *Further Rectifying and Regulating the Order of Property Properties Market*

- In order to ensure that the prescribed ratio regarding types and sizes is followed, the relevant authorities will need to re-examine the approval of those construction projects which have been granted planning permit but have not been commenced. The relevant authorities will ensure that no Planning Permit (規劃許可證), Construction Permit (施工許可證) or Permit for Pre-Sale of Commodity Properties (商品房預售許可證) is issued to those construction projects which do not satisfy the controlling requirements, in particular, the prescribed ratio requirement. If the property developers, without an approval, alter the architectural design, the construction items, and exceed the prescribed ratio, the relevant authorities have the power to dispose of the property and to confiscate the property in accordance with the law;
- The property administration authority and the administration of industry and commerce will investigate illegal dealings such as contract fraud cases in accordance with the law. The illegal conduct of pre-completion sale of commodity apartments without satisfying all the conditions will be ordered to stop and be imposed a proper administrative penalty in accordance with the law. For those property developers who maliciously manipulate the supply of commodity housing, the relevant authorities will imposed a proper administrative penalty including revoking the business licenses of those serious offenders and will pursue personal liability for those concerned.

v. *Gradually relieving the housing demands for low-income families*

To expedite the establishment of low-cost public housing supply system in various cities and counties; to monitor and regulate the construction of economically affordable apartments; to aggressively develop the second-hand property market and property rental market.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

vi. *Improving information disclosure system and system for collecting property statistics*

On 6 July 2006, the Ministry of Construction promulgated a supplemental Opinion on Carrying Out the Residential Property Size Ratio in Newly-Built Residential Buildings (Jianzhufang 2006 No. 165) (《關於落實新建住房結構比例要求的若干意見》) (“the Supplemental Opinion”). The Supplemental Opinion provides the following:

- As of 1 June 2006, of the newly approved and newly commenced construction projects in different cities including town and counties (from 1 June 2006 and onward), at least 70% of the total construction area must be used for building small apartments with unit floor area of 90 sq.m. or below (including economically affordable apartments);
- The relevant authorities in different localities must strictly follow the prescribed ratio requirement in their respective locality. The relevant authorities must ensure the conditions of newly built commodity apartments including the planning and the design, and must ensure that the property size ratio is adhered to. If a property developer has not followed the ratio requirement without providing proper reasons, the town planning authorities will not issue a Planning Permit. If the property developer has not followed the requirements of the Planning Permit, the relevant authority censoring the planning documents will not issue a certification, the construction authority will not issue a Construction Permit, and the property authority will not issue a Permit for pre-completion sale of the commodity apartments.

In the case of construction projects that were granted approval before 1 June 2006 but that were not granted a construction work permit by that date, the relevant local governments in different localities should ascertain the details of the projects and ensure that the prescribed residential property size ratio requirement is complied with.

II. LEGAL SUPERVISION RELATING TO PROPERTY MANAGEMENT SECTOR IN THE PRC

A. Foreign-invested property service enterprises

According to the “Foreign Investment Industrial Guidance Catalogue”, property management falls within the Category of Permitted Foreign Investment Industries. According to the “Foreign Investment Industrial Guidance Catalogue” and the relevant requirements set out under the laws and the administrative regulations on foreign investment enterprises, a foreign invested property service enterprise can be set up in the form of Sino-foreign equity joint venture, Sino-foreign cooperative joint venture or wholly foreign owned enterprise. Before the administration of Industry and Commerce registers a foreign investment enterprise as a foreign-invested property service enterprise, the foreign-invested property service enterprise should obtain an approval from the relevant department of commerce and receive a “foreign investment enterprise approval certificate”.

APPENDIX VII

SUMMARY OF PRC LAWS RELATING TO THE PROPERTY SECTOR

B. Qualifications of a property service enterprise

According to the “Regulation on Property Management” enacted by the State Council on 8 June 2003, enforced on 1 September 2003 and revised on 26 August 2007, the state implements a qualification scheme system in monitoring the property service enterprises. According to the “Measures for Administration of Qualifications of Property Service Enterprises” enacted by the Ministry of Construction on 17 March 2004, enforced on 1 May 2004 and revised on 26 November 2007, a newly established property service enterprise shall, within 30 days from the date of receiving its business license, apply to the relevant local bureau in charge of the property management under the local government or to the municipalities directly under the Central Government for a grading assessment. The departments of qualification examination and approval will check and issue a “property management qualification certificate” corresponding to their grading assessment results.

According to the “Measures for the Administration on Qualifications of Property Service Enterprises”, and revised on 26 November, 2007 the qualifications of a property service enterprise shall be classified as class one, class two and class three. The competent construction department of the State Council shall be responsible for issuance and administration of the qualification certificate of the class one property service enterprises. The competent construction departments of the people’s governments of provinces and autonomous regions shall be responsible for issuance and administration of the qualification certificate of the class two property service enterprises, and the competent realty departments of the people’s governments of municipalities directly under the Central Government shall be responsible for issuance and administration of the qualification certificate of the classes two and three property service enterprises. The competent realty departments of the people’s governments of the cities divided into districts shall be responsible for the issuance and administration of the qualification certificate of the class three property service enterprises.

The property service enterprises with the class one qualification may undertake various property management projects. The property service enterprises with the class two qualification may undertake the property management business of residential management projects of less than 300,000 sq.m. and the non-residential management projects of less than 80,000 sq.m. The property service enterprises with the class three qualification may undertake the property management business of residence projects of less than 200,000 sq.m. and non-residence projects under 50,000 sq.m.

C. Employment of a property service enterprise

According to the “Regulation on Property Management”, the general meeting of owners can select and dismiss the property service enterprises if the consent of both the owners holding 1/2 or more of the private building area out of the total building area and 1/2 or more of the relevant property owners has been obtained. If, before the formal employment of a property management by the owners or the general meeting, the construction unit is to employ a property service enterprise, it shall enter into a preparation stage property services contract in writing with the property service enterprise.

APPENDIX VIII

SHANGHAI BAY ARRANGEMENTS

Shanghai Bay Arrangements

Transfer of the Projects

On 11 June 2009, the Founder and Bright New entered into the Better Score Sale and Purchase Agreement with S.I. Properties and Shanghai Industrial Holdings Limited. The total consideration payable by S.I. Properties under the Better Score Sale and Purchase Agreement was the US\$ equivalent of RMB2.0 billion. The consideration was determined following arm’s length negotiations between Bright New and S. I. Properties taking into account the market value of the Projects in their existing state at the time. The capital value of the Projects as at 30 April 2009 as valued by Jones Lang LaSalle Sallmanns Limited was approximately RMB2.8 billion. Pursuant to the Better Score Sale and Purchase Agreement, Bright New agreed to transfer its entire issued share capital in Better Score Limited to S.I. Properties on the condition that S.I. Properties would provide us with an amount in the US\$ equivalent of RMB1.3 billion. S.I. Properties is a wholly-owned subsidiary of Shanghai Industrial Holdings Limited, a company whose securities are listed on the Stock Exchange. Our Group and our Controlling Shareholders are independent of and unrelated with S.I. Properties, its controlling shareholder(s) and/or its subsidiaries. At the time of the above transfer, Better Score Limited indirectly held Block Nos. 2 and 8 of Shanghai Bay.

On 10 August 2009, we received a payment of approximately US\$190.2 million (equivalent to RMB1.3 billion) which we used to partially redeem the Original Notes. S.I. Properties is obligated to make a second payment to us in an amount equal to the US\$ equivalent of RMB0.7 billion when we transfer our legal interests in additional Blocks Nos. 9 and 10 of Shanghai Bay to S.I. Properties. We intend to use approximately US\$28 million of such funds to repay the amount outstanding under the bridge loan, the details of which are set out in “History, Reorganisation and Group Structure — Financing”. We will deposit the balance of approximately US\$74 million into an account of Bright New that has been pledged as collateral for the Financing and may only be used for operating expenses and permitted uses until such financing is repaid.

Following the above mentioned transfer, Better Score Limited became a wholly-owned subsidiary of S.I. Properties and indirectly holds the legal and beneficial interests in Block Nos. 2 and 8 of Shanghai Bay through Shanghai Penghui, which is a wholly-owned subsidiary of Nantong Jiju, which in turn is a wholly-owned subsidiary of Greater Base Limited, a direct wholly-owned subsidiary of Better Score Limited.

Compulsory buy-back and management of the Projects

As an integral part of the above arrangement:

- (i) Shanghai Xintai, Nantong Jiju, Shanghai Penghui, the Founder and Shanghai Industrial Holdings Limited entered into the Shanghai Penghui Share Transfer Agreement on 5 August 2009. It is stated in the Shanghai Penghui Share Transfer Agreement that Shanghai Xintai (or such person or persons of our Group nominated by it) has a right and an obligation to buy-back from Nantong Jiju, and Nantong Jiju has a right and an obligation to transfer back to Shanghai Xintai (or such person or persons of our Group nominated by it), the entire

APPENDIX VIII

SHANGHAI BAY ARRANGEMENTS

equity interest in Shanghai Penghui on 1 December 2011 (or such other date as Shanghai Xintai and Nantong Jiju may mutually agree). The parties shall sign the relevant transfer documents within thirty days thereafter. Upon exercise of such buy-back, Shanghai Xintai shall pay to Nantong Jiju an amount equal to RMB2.0 billion (if Block Nos. 9 and 10 of Shanghai Bay are transferred), which is equivalent to the aggregate principal amount received by our Group under the Better Score Sale and Purchase Agreement.

During the term of the Shanghai Penghui Share Transfer Agreement, if, among other things, (a) Shanghai Xintai fails to acquire Shanghai Penghui due to material litigation, or (b) Shanghai Xintai fails to ensure that Shanghai Penghui distributes shareholder’s return in accordance with the Management Agreement and Shanghai Xintai, the Founder or Bright New fails to reimburse such shortfall to the Purchaser or Nantong Jiju (such events are collectively referred to as “**Non-performing Events**”), Nantong Jiju shall have the right to (x) issue a notice requiring Shanghai Xintai to take remedial action; (y) issue a notice requiring Shanghai Xintai to immediately acquire Shanghai Penghui and pay a penalty payment of 8.0% of the RMB equivalent of the total consideration paid by S.I. Properties under the Better Score Sale and Purchase Agreement if Shanghai Penghui fails to take remedial action as stated in (x) above, such interest rate of 8.0% was determined by the parties by reference to what the parties considered to be the typical borrowing costs of a PRC property developer at the time, and (z) terminate the Shanghai Penghui Share Transfer Agreement if Shanghai Xintai fails to acquire Shanghai Penghui and pay penalty payment in accordance with (y) above.

In the event the Shanghai Penghui Share Transfer Agreement is terminated in accordance with the above, Nantong Jiju shall have the right to dispose of the entire equity interest of Shanghai Penghui and/or its assets. However, if Nantong Jiju decides to dispose of its entire equity interest in Shanghai Penghui and/or its assets upon termination of the Shanghai Penghui Share Transfer Agreement, Nantong Jiju has agreed (a) not to dispose of the equity interest in Shanghai Penghui and/or any of its underlying assets to any related persons of Nantong Jiju; (b) to notify Shanghai Xintai of the proposed disposal within seven days after the relevant proposal is formulated; and (c) to dispose of its equity interest in Shanghai Penghui to Shanghai Xintai provided that, prior to the time when Nantong Jiju has executed all of the necessary documents for its internal corporate approval in connection with such proposed disposal, Shanghai Xintai, upon receipt of the notice referred to (b) above, will be able to purchase all of the equity interest in Shanghai Penghui in accordance with the Shanghai Penghui Share Transfer Agreement and pay Nantong Jiju all penalty payments in full.

If Nantong Jiju exercises its right to dispose of Shanghai Penghui (and/or its underlying assets) upon termination of the Shanghai Penghui Share Transfer Agreement, but the net proceeds from such disposal are less than the amount that Nantong Jiju is entitled to receive under the Shanghai Penghui Share Transfer Agreement (including the principal amount equivalent to RMB2.0 billion (if Block Nos. 9 and 10 of Shanghai Bay are transferred) under the Shanghai Penghui Share Transfer Agreement, the unpaid shareholder’s return under the Management Agreement and any outstanding penalty payment) (“**Nantong Jiju Entitlement**”), Shanghai Xintai and the Founder shall reimburse Nantong Jiju the shortfall

APPENDIX VIII

SHANGHAI BAY ARRANGEMENTS

amount. In the event that the net proceeds from the disposal of Shanghai Penghui (and/or its underlying assets) exceed Nantong Jiju Entitlement, Nantong Jiju shall: (a) return the excess amount to Shanghai Xintai (in case of sale of Shanghai Penghui); or (b) retain the excess amount in Shanghai Penghui and transfer Shanghai Penghui back to Shanghai Xintai (upon request by Shanghai Xintai) at nil consideration (in case of disposal of the underlying assets of Shanghai Penghui).

- (ii) Shanghai Xintai, Nantong Jiju, the Founder and Shanghai Penghui entered into the Management Agreement on 5 August 2009 pursuant to which Shanghai Xintai agreed to continue to manage the construction and sale of the Projects, as well as other daily operations of Shanghai Penghui, for the period commencing from the date of the Management Agreement and ending on the date of the occurrence of a termination event as specified in the Management Agreement (the "**Management Period**"). Termination events include, among others, the completion of the relevant business registration procedures for the transfer of the entire equity interest of Shanghai Penghui to Shanghai Xintai pursuant to the Shanghai Penghui Share Transfer Agreement. Shanghai Xintai shall be solely responsible for managing the financial and operational matters regarding the construction and operations of the Projects and it shall also be responsible for paying all construction and installation fees (including renovation fees), basic construction fees, and outstanding land premium (if any) in respect of the Projects (such amounts shall be treated as a part of the account payables in Shanghai Penghui's account). The operations of Shanghai Penghui bank account(s) shall be managed by designated persons of Shanghai Penghui, such designated persons include a representative of Shanghai Xintai and a representative of Nantong Jiju. During the Management Period, save for the development and operations of the Projects, Shanghai Penghui cannot carry out other business operations and it shall not engage any other person to manage the construction, operation and financial matters of the Projects.

As part of the Shanghai Bay Arrangements, S.I. Properties, through Nantong Jiju, shall receive a shareholder's return (net of tax) for each of the three years ending 31 December 2011 representing a total rate of return of 18% per annum. Such shareholder's return is calculated based on the actual consideration amount paid by S.I. Properties and the date of payment of the consideration.

Our source of funding for payments of the shareholder's return to S.I. Properties for the three years ending 31 December 2011 and the buy back of the Projects in 2011 is primarily the pre-sale proceeds of the Projects. To the extent that the pre-sale proceeds of the Projects are not sufficient for this purpose, Shanghai Xintai shall settle the balance through its own resources such as bank loans and cash flow generated from its business operations.

APPENDIX VIII

SHANGHAI BAY ARRANGEMENTS

Collateral and Guarantee

As security for the performance of Bright New and Shanghai Xintai under the Better Score Sale and Purchase Agreement, the Shanghai Penghui Share Transfer Agreement and the Management Agreement, the following collateral and guarantee were provided:

(1) *Guarantee provided by Tianjin Yangguang Xindi*

Pursuant to the Better Score Sale and Purchase Agreement, Tianjin Yangguang Xindi provided a joint and several guarantee in the guaranteed amount of RMB500,000,000 in favour of Nantong Jiju.

(2) *Pledge of Block 6 Development*

Pursuant to the Better Score Sale and Purchase Agreement, if prior to 31 December 2011 Block No. 6 of Shanghai Bay ("**Block 6 Development**") is developed to a stage that it can be pledged (i.e. Certificate of Real Estate Ownership (房地產權證), Plot Planning Permission (建設用地規劃許可證), Construction Project Planning Permission (建設工程規劃許可證), Building Construction Permit (建築工程施工許可證) have all been obtained), Shanghai Xintai shall pledge Block 6 Development in favour of Nantong Jiju for a pledge value of RMB350 million. When Block 6 Development is developed to a stage such that it can be pre-sold, the Purchaser and Nantong Jiju shall begin the pre-sale of the Block 6 Development and the proceeds from such pre-sale shall be deposited into the designated bank account of Shanghai Penghui, such account shall be managed by designated persons of Shanghai Penghui, which include a representative of Shanghai Xintai and a representative of Nantong Jiju, until the pledge is released or we acquire the entire equity interest of Shanghai Penghui. The Purchaser has agreed to unconditionally release the pledge over Block 6 Development upon the earlier of (i) the pre-sale proceeds of Block 6 Development actually received by Shanghai Penghui amounting to an aggregate of RMB350 million and (ii) the acquisition of the entire equity interest of Shanghai Penghui by Shanghai Xintai in accordance with the Shanghai Penghui Share Transfer Agreement. Shanghai Xintai shall be entitled to all of the pre-sale proceeds exceeding the RMB350 million received by Shanghai Penghui.

In the event that on 31 December 2011 Block 6 Development has not been developed to a stage such that it can be pledged and Shanghai Xintai does not acquire the entire equity interest of Shanghai Penghui in accordance with the Shanghai Penghui Share Transfer Agreement, Shanghai Xintai shall pay RMB350 million to Nantong Jiju.

(3) *Guarantee by the Founder*

The Founder entered into the Better Score Sale and Purchase Agreement, Management Agreement and Shanghai Penghui Share Transfer Agreement as a guarantor, guaranteeing (i) the due and punctual performance and discharge by Bright New of its obligations under or pursuant to the Better Score Sale and Purchase Agreement; (ii) the due and punctual performance by Shanghai Xintai of its obligations under the Shanghai Penghui Share Transfer Agreement; and (iii) the payment obligations of Shanghai Xintai under the Management Agreement. Such guarantee will be replaced by a guarantee to be provided by our Company.

APPENDIX VIII**SHANGHAI BAY ARRANGEMENTS**

Nature of the above arrangements

The Directors are of the view that whilst the legal and beneficial interest in Better Score Limited and the Projects have been transferred to S.I. Properties, the abovementioned arrangements and effectively a financing arrangement for the reasons set out below:

- (i) S.I. Properties has a right and an obligation under the Shanghai Penghui Share Transfer Agreement to transfer the legal and beneficial interests in the Projects back to us on 1 December 2011 (or such other date as Shanghai Xintai and Nantong Jiju may mutually agree);
- (ii) Other than (a) the shareholder's return pursuant to the Management Agreement, (b) the repayment of the principal amount equivalent to RMB2.0 billion (if Block Nos. 9 and 10 are transferred) upon exercise of the buy-back obligation by us as set out in the Shanghai Penghui Share Transfer Agreement and (c) the right to dispose of Shanghai Penghui upon termination of the Shanghai Penghui Share Transfer Agreement, S.I. Properties does not, and will not, have any right with respect to the Projects.
- (iii) We have retained the right to manage and control operational and financial matters with respect to the Projects, including the development, construction and the sale of the Projects.
- (iv) We have assumed the risk of depreciation in the value of the Projects and are entitled to any appreciation gain the Projects may bring.
- (v) Upon the occurrence of the Non-performing Events as described in the Shanghai Penghui Share Transfer Agreement, Nantong Jiju shall have the right to dispose of the entire interest of Shanghai Penghui and/or its assets. In the event that the net proceeds from the disposal of Shanghai Penghui and/or its underlying assets exceed Nantong Jiju Entitlement, Nantong Jiju shall: (a) return the excess amount to Shanghai Xintai (in case of sale of Shanghai Penghui); or (b) retain the excess amount in Shanghai Penghui and transfer Shanghai Penghui back to Shanghai Xintai (upon request by Shanghai Xintai) at nil consideration (in case of disposal of the underlying assets of Shanghai Penghui).

The above arrangement is reflected in the accountant's report set out in Appendix I to the document. On that basis, the Directors have concluded that the arrangement, in substance, should be regarded as a loan transaction in accordance with the Hong Kong Financial Reporting Standards, given that the risk and reward of the Projects have not been transferred to Nantong Jiju and therefore the results and balance sheet of Shanghai Penghui will be fully consolidated into our consolidated financial statements.

Our PRC legal counsel opined that the Shanghai Penghui Share Transfer Agreement and the Management Agreement and the transactions contemplated therein are legal, valid, binding, and are in compliance with relevant PRC rules and regulations. Our PRC legal counsel further opined that the transfer of the Projects together with the related arrangements are not considered loan transactions and thus the General Principles of Loans (貸款通知) are not applicable.

APPENDIX VIII

SHANGHAI BAY ARRANGEMENTS

Reasons for entering into the Shanghai Bay Arrangements

One of the key benefits for entering into the Shanghai Bay Arrangements was to repay a portion of the Original Notes (as converted into US\$) in the aggregate principal amount of US\$192,775,841 as part of the restructuring as described in “*History, Reorganisation and Group Structure — Financing — Restructuring of Original Notes*”. As at 31 December 2008, the weighted average effective interest rate of the Original Notes was approximately 24.3% . In addition, since Renminbi (which is the denominator of the Original Notes) has appreciated since the Original Notes were issued, thereby further increasing the Company’s financing costs with respect to the Original Notes, our Directors believe that it would be beneficial to the financial position of our Group to refinance a portion of the Original Notes with the proceeds from the Shanghai Bay Arrangements due to the relatively lower interest rate payable with respect to such proceeds. At the time of entering into the Shanghai Bay Arrangements, our Group had not encountered any difficulties in obtaining financing for any of its projects. However, our Company did not seek to obtain any offshore financing (but instead opted for the Shanghai Bay Arrangements) to repay the Original Notes because it would not have been possible for our Group to provide the security package that the relevant offshore financial institutions would have demanded.

Definitions used in this Appendix

Terms (other than those defined in the Definitions section) shall have the following meaning:

“Better Score Sale and Purchase Agreement”	the sale and purchase agreement dated 11 June 2008 and entered into by and among the Founder, Bright New, Shanghai Industrial Holdings Limited and S.I. Properties (as supplemented by a supplemental agreement dated 30 July 2009) in relation to the transfer of the entire issued share capital of Better Score Limited
“Management Agreement”	the management agreement dated 5 August and entered into by and among Shanghai Xintai, Nantong Jiju, the Founder and Shanghai Penghui in relation to the management of the Projects and other daily operations of Shanghai Penghui
“Shanghai Penghui Share Transfer Agreement”	the share transfer agreement dated 5 August 2009 and entered into by and among Shanghai Xintai, Nantong Jiju, Shanghai Penghui, the Founder and Shanghai Industrial Holdings Limited in relation to the acquisition of Shanghai Penghui
“S.I. Properties”	S.I. Properties Holdings Limited, an indirect wholly-owned subsidiary of Shanghai Industrial Holdings Limited and an independent third party

APPENDIX X**STATUTORY AND GENERAL INFORMATION**

A. FURTHER INFORMATION ABOUT THE COMPANY**1. Incorporation**

Our Company was incorporated in the Cayman Islands under the Companies Law as an exempted company with limited liability on 27 July 2007. The Company has established a place of business in Hong Kong at Unit 3702A, 37th Floor, Tower Two, Lippo Centre, 89 Queensway, Admiralty, Hong Kong and is registered in Hong Kong under Part XI of the Companies Ordinance, with Mr. Ching Yu Lung of Unit 3702A, 37th Floor, Tower Two, Lippo Centre, 89 Queensway, Admiralty, Hong Kong appointed as the authorised representative of the Company for the acceptance of service of process and notices on behalf of the Company in Hong Kong. As the Company is incorporated in the Cayman Islands, it operates subject to the Companies Law and to its constitution, which comprises the Memorandum and the Articles. A summary of various provisions of the constitution of the Company and relevant aspects of the Companies Law is set out in Appendix VI to this document.

2. Change in and transfer of share capital of the Company

The authorised share capital of the Company as of the date of its incorporation was HK\$380,000 divided into 3,800,000 shares of par value HK\$0.10 each. On 27 July 2007, one nil-paid share of par value HK\$0.10 each was allotted and issued to Codan Trust Company (Cayman) Limited and such share was transferred to Best Era on the same date and subsequently paid up. 99 shares of par value HK\$0.10 each were also allotted and issued to Best Era on 27 July 2007 and subsequently paid up. On 17 September 2007, Best Era transferred 50,000 shares of Bright New, representing the entire issued share capital of Bright New, to the Company in consideration of (i) the crediting as fully paid at par the 100 nil paid shares registered in name of Best Era, and (ii) the allotment and issue of 900 shares of par value HK\$0.10 each, credited as fully paid up, to Best Era. On 18 October 2007, 999,000 shares of par value HK\$0.10 each were allotted and issued to Best Era for cash at par and on the same date, every issued and unissued share of par value HK\$0.10 each was sub-divided into 10 Shares of HK\$0.01 each, such that the Company had an authorised share capital of HK\$380,000 divided into 38,000,000 Shares of HK\$0.01 each. Best Era held 10,000,000 Shares after the sub-division of Shares.

Pursuant to certain share transfer agreements all dated 18 October 2007, Best Era transferred 7,770 Shares to Goldman Sachs Investments Limited, 10,360 Shares to Goldman Sachs RE Investments Holdings Limited, 2,590 Shares to WH Debt Acquisition (Delaware) LLC, 10,500 Shares to Deutsche Bank A.G., acting through its London branch and 38,780 Shares to D. E. Shaw Composite Investments Asia 2 (Cayman) Limited.

On 2 November 2007, the authorised share capital of the Company was increased from HK\$380,000 to HK\$3,800,000 by the creation of an additional 342,000,000 Shares of HK\$0.01 each; and 90,000,000 Shares were allotted and issued to Best Era, which held 99,930,000 Shares after such allotment of Shares. On the same date, Best Era, pursuant to a Charge Over Shares in Glorious Property Holdings Limited dated 2 November 2007, charged 89,300,000 Shares to DB Trustees (Hong Kong) Limited (in its capacity as Security Trustee for the Noteholders (as defined in the Investor Rights Agreement dated 2 November 2007 entered into by and among the Company, the Founder,

APPENDIX X**STATUTORY AND GENERAL INFORMATION**

DESCIA, DB, Goldman Sachs RE Investments Holdings Limited, Villa (Delaware) LLC and WH Debt Acquisition (Delaware) LLC) and apart from charging the Shares, Best Era, pursuant to certain share transfer agreements all dated 2 November, 2007, transferred 69,930 Shares to Goldman Sachs Investments Limited, 93,240 Shares to Goldman Sachs RE Investments Holdings Limited, 23,310 Shares to WH Debt Acquisition (Delaware) LLC, 94,500 Shares to DB and 349,020 Shares to DESCIA. On 26 November 2007, pursuant to a share transfer agreement, Goldman Sachs Investments Ltd. transferred 69,930 Shares to Villa (Cayman) Ltd. and on 19 February 2008, Goldman Sachs Investments Limited further transferred 7,770 Shares to Villa (Cayman) Ltd.. On 7 March 2008, pursuant to a share transfer agreement, DB transferred 91,000 Shares to Euro Crown Limited.

On 17 June 2008, the authorised share capital of the Company was increased from HK\$3,800,000 to HK\$380,000,000 by the creation of additional 37,620,000,000 Shares of HK\$0.01 each.

3. Corporate reorganisation

The companies comprising the Group underwent the Reorganisation. The Reorganisation involved the following:

- (a) Establishment/Acquisition of BVI and Hong Kong companies to acquire interests of wholly foreign owned enterprises;
- (b) Acquisition of project companies by regional companies;
- (c) Acquisition of regional companies by wholly foreign owned enterprises; and
- (d) Incorporation of the Company.

For details, please refer to the paragraph “Corporate Reorganisation” in the section headed “History, Reorganisation and Group Structure”.

4. Changes in share capital of subsidiaries

The Company’s subsidiaries are referred to in the Accountant’s Report, the text of which is set out in Appendix I to this document. The following sets out the changes to the share capital made by the subsidiaries of the Company during the two years preceding the date of this document:

(a) ***Fusheng Nantong***

On 7 November 2007, the registered capital of Fusheng Nantong was increased from US\$20,060,000 to US\$29,960,000.

(b) ***Fuda Nantong***

- (i) On 7 November 2007, the registered capital of Fuda Nantong was increased from US\$29,880,000 to US\$97,880,000.

APPENDIX X**STATUTORY AND GENERAL INFORMATION**

(ii) On 28 April 2009, the registered capital of Fuda Nantong was decreased from US\$97,880,000 to US\$12,880,000.

(c) ***Yonghe Nantong***

(i) On 7 November 2007, the registered capital of Yonghe Nantong was increased from US\$29,800,000 to US\$98,800,000.

(ii) On 17 April 2009, the registered capital of Yonghe Nantong was decreased from US\$98,800,000 to US\$14,800,000.

(d) ***Henghui Nantong***

(i) On 7 November 2007, the registered capital of Henghui Nantong was increased from US\$15,000,000 to US\$99,990,000.

(ii) On 28 April 2009, the registered capital of Henghui Nantong was decreased from US\$99,990,000 to US\$13,990,000.

(e) ***Nantong Jigui***

On 7 November 2007, the registered capital of Nantong Jigui was increased from US\$10,000,000 to US\$29,990,000.

(f) ***Nantong Jiangle***

On 7 November 2007, the registered capital of Nantong Jiangle was increased from US\$15,000,000 to US\$29,800,000.

(g) ***Nantong Lehua***

On 7 November 2007, the registered capital of Nantong Lehua was increased from US\$1,500,000 to US\$29,800,000.

(h) ***Nantong Huangshi Hui***

On 7 November 2007, the registered capital of Nantong Huangshi Hui was increased from US\$15,000,000 to US\$29,990,000.

(i) ***Shanghai Yijing***

On 14 January 2008, the registered capital of Shanghai Yijing was increased from RMB50,000,000 to RMB563,587,214.

(j) ***Beijing Yangguang Xindi***

On 22 November 2007, the registered capital of Beijing Yangguang Xindi was increased from RMB29,000,000 to RMB129,000,000.

APPENDIX X**STATUTORY AND GENERAL INFORMATION**

(k) *Tianjin Yangguang Xindi*

- (i) On 15 November 2007, the registered capital of Tianjin Yangguang Xindi was further increased from RMB250,000,000 to RMB448,143,370.
- (ii) On 10 January 2008, the registered capital of Tianjin Yangguang Xindi was further increased from RMB448,143,370 to RMB806,039,565.

(l) *Liaoning Yangguang Xindi*

- (i) On 16 November 2007, the registered capital of Liaoning Yangguang Xindi was increased from RMB50,000,000 to RMB796,515,593.
- (ii) On 7 January 2008, the registered capital of Liaoning Yangguang Xindi was further increased from RMB796,515,593 to RMB1,333,502,300.

(m) *Wuxi Wangjiarui*

- (i) On 31 January 2007, the registered capital of Wuxi Wangjiarui was increased from RMB250,000,000 to RMB350,000,000.
- (ii) On 16 November 2007, the registered capital of Wuxi Wangjiarui was further increased from RMB350,000,000 to RMB739,830,227.
- (iii) On 9 January 2008, the registered capital of Wuxi Wangjiarui was further increased from RMB739,830,227 to RMB1,197,911,767.

(n) *Beijing Hetian Hexin*

On 16 July 2008, the registered capital of Beijing Hetian Hexin was increased from RMB30,000,000 to RMB130,000,000.

(o) *Suzhou Hongsheng*

- (i) On 25 July 2007, the registered capital of Suzhou Hongsheng was increased from RMB25,000,000 to RMB50,000,000.
- (ii) On 25 January 2008, the registered capital of Suzhou Hongsheng was further increased from RMB50,000,000 to RMB170,000,000.

(p) *Nantong Zhuowei*

- (i) On 30 November 2007, the registered capital of Nantong Zhuowei was increased from RMB80,000,000 to RMB130,000,000.
- (ii) On 24 January 2008, the registered capital of Nantong Zhuowei was further increased from RMB130,000,000 to RMB 155,000,000.

APPENDIX X**STATUTORY AND GENERAL INFORMATION**

(q) *Tianjin Hongyun*

- (i) On 15 January 2007, the registered capital of Tianjin Hongyun was further increased from RMB28,000,000 to RMB58,000,000.
- (ii) On 12 February 2007, the registered capital of Tianjin Hongyun was increased from RMB58,000,000 to RMB88,000,000.

(r) *Tianjian Tianxingjian*

On 27 February 2008, the registered capital of Tianjian Tianxingjian was increased from RMB10,000,000 to RMB53,480,000.

(s) *Shanghai Shuntianlong*

On 13 April 2009, the registered capital of Shanghai Shuntianlong was increased from RMB100,000 to RMB30,000,000.

(t) *Shanghai Qiwei*

On 15 June 2009, the registered capital of Shanghai Qiwei was increased from RMB5,000,000 to RMB100,000,000.

(u) *Shanghai Mingbao*

On 15 June 2009, the registered capital of Shanghai Mingbao was increased from RMB6,000,000 to RMB100,000,000.

(v) *Anhui Hengmao*

On 18 December 2007, the registered capital of Anhui Hengmao was increased from RMB289,830,277 to RMB509,830,277.

(w) *Shanghai Hongye*

On 19 August 2008, the registered capital of Shanghai Hongye was increased from RMB50,000,000 to RMB150,000,000.

The principal purpose of reducing the registered capital of Fuda Nantong, Yonghe Nantong and Henghui Nantong is to create cash reserves offshore, which may be used to repay portion of the Convertible Notes and the Promissory Notes that remain outstanding and the periodic interest payments of the Convertible Notes and the Promissory Notes. As at the Latest Practicable Date, such cash reserves had not been funded.

Save as set out above, there has been no alteration in the share capital of any of the subsidiaries of the Company within the two years immediately preceding the date of this document.

APPENDIX X**STATUTORY AND GENERAL INFORMATION**

5. Particulars of subsidiaries

The Group has interests in a number of major PRC subsidiaries. Set out below is a summary of corporate information of these PRC subsidiaries:

(a) *Fusheng Nantong*

Date of Establishment	:	27 June 2005
Place of Establishment	:	Nantong
Nature	:	Wholly foreign owned enterprise
Number of Directors	:	1
Registered Capital	:	US\$29,960,000
Shareholder	:	Venture Group — 100% interest
Nature of Business	:	Residential property development, construction and operation

(b) *Fuda Nantong*

Date of Establishment	:	1 August 2006
Place of Establishment	:	Nantong
Nature	:	Wholly foreign owned enterprise
Number of Directors	:	1
Registered Capital	:	US\$12,880,000
Shareholder	:	Rich Tech — 100% interest
Nature of Business	:	Residential property development, construction and operation

(c) *Yonghe Nantong*

Date of Establishment	:	10 April 2006
Place of Establishment	:	Nantong
Nature	:	Wholly foreign owned enterprise
Number of Directors	:	1
Registered Capital	:	US\$14,800,000

APPENDIX X

STATUTORY AND GENERAL INFORMATION

(c) *Domain Name*

As of the Latest Practicable Date, the Group was the registered owner of the following domain name:

<u>Domain name</u>	<u>Place of Registration</u>	<u>Registered Owner</u>	<u>Registration date</u>	<u>Expiry date</u>
www.gphl.com.hk.....	Hong Kong	Company	3 October 2007	16 February 2013
www.gloriousphl.com.cn	PRC	Company	9 January 2008	9 January 2011

The information contained on our websites is not part of this document.

Save as disclosed herein, there are no other trade or service marks, patents, other intellectual or industrial property rights which are material to the business of the Group.

3. Related party transactions

Details of the related party transactions that we have entered into are set forth in note 33 of the Accountant’s report, the text of which is set out in Appendix I to this document.

C. FURTHER INFORMATION ABOUT OUR DIRECTORS AND SUBSTANTIAL SHAREHOLDERS

1. Directors

(a) *Disclosure of interest — interests and short positions of the Directors and the chief executives of the Company in the shares, underlying shares and debentures of the Company and its associated corporations*

The interest or short position of Directors or chief executives of the Company in the shares, underlying shares and debentures of the Company or its associated corporations (within the meaning of Part XV of the SFO) which will be required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interest or short positions which they were taken or deemed to have under such provisions of the SFO) or which will be required, pursuant to section 352 of the SFO, to be entered in the register referred to therein, or which will be required to be notified to the Company and the Stock Exchange pursuant to the Model Code for Securities Transactions by Directors of Listed Companies in the Listing Rules are expected to be as follows:

(i) *Interest in our Company*

<u>Name of Director</u>	<u>Capacity</u>	<u>Number of Shares</u>	<u>Approximate shareholding percentage (%)</u>
Mr. Zhang Zhi Rong (<i>Note 2</i>)	Interest of a controlled corporation	[●] ^(L)	[●]

APPENDIX X

STATUTORY AND GENERAL INFORMATION

Notes:

1. The letter “L” denotes the person’s long position in such shares.
2. Mr. Zhang Zhi Rong owns the entire issued share capital of Best Era and is deemed to be interested in [●] Shares held by Best Era.

(ii) *Interest in an associated corporation of our Company*

Name of Director	Name of associated corporation	Number of shares	Shareholding Percentage
Mr. Zhang Zhi Rong	Best Era International Limited	50,000	100%
Mr. Zhang Zhi Rong (<i>Note 1</i>).....	Shanghai Chuangmeng International Architectural Design Co., Ltd.	—	3%

Note:

1. Ms. Gao Wei Ping holds 3% equity interests of Shanghai Chuangmeng. Since Mr. Zhang Zhi Rong is the spouse of Ms. Gao, he is deemed to be interested in the 3% equity interests of Shanghai Chuangmeng held by Ms. Gao.

(b) *Particulars of service contracts*

Each of the executive Directors has entered into a service contract with the Company for a term of three years subject to termination by not less than three months’ notice in writing served by either party on the other. Each of the executive Directors is entitled to their respective basic salaries set out below. Each of the executive Directors is entitled to a discretionary bonus of a sum to be determined by the Board at its absolute discretion. An executive Director may not vote on any resolution of the Directors regarding the amount of bonus payable to him.

Each of the independent non-executive Directors has entered into an appointment letter with the Company for a term of one year. Each of the independent non-executive Directors is entitled to their respective annual fees set out below. The appointments are subject to the provisions of retirement by rotation of Directors under the Articles.

APPENDIX X

STATUTORY AND GENERAL INFORMATION

(c) *Directors’ remuneration*

An aggregate of approximately RMB3,848,000 and RMB1,288,000 were paid to the Directors as remuneration for the year ended 31 December 2008 and the first four months ended 30 April 2009. The current annual director’s fees and remuneration of the executive and independent non-executive Directors for the year ending 31 December 2009 are as follows:

Name of Director	Approximate annual director’s remuneration (RMB)
Executive Directors	
Mr. Zhang Zhi Rong	2,055,000
Mr. Ding Xiang Yang	1,535,000
Mr. Cheng Li Xiong	1,444,000
Mr. Yan Zhi Rong	702,000
Mr. Xia Jing Hua	702,000
Mr. Li Xiao Bin	1,666,000
Mr. Liu Ning	702,000
Independent non-executive Directors	
Mr. Liu Shun Fai.....	53,000
Mr. Yim Ping Kuen	53,000
Mr. Wo Rui Fang.....	53,000
Mr. Han Ping	53,000

Under the arrangement currently in force, the estimated aggregate amount of remuneration, excluding discretionary bonuses, payable by the Group to the Directors for the year ending 31 December 2009 will be approximately RMB9,016,000.

Further details of the terms of the above service contracts are set out in the paragraph headed “Particulars of service contracts” above.

APPENDIX X

STATUTORY AND GENERAL INFORMATION

2. Substantial Shareholders

So far as the Directors are aware, the following persons will have beneficial interests or short positions in any Shares or underlying Shares of our Company which would fall to be disclosed to our Company under the provisions of Division 2 and 3 of Part XV of the SFO, or who are directly and/or indirectly interested in 10% or more of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of our Company and are therefore regarded as substantial shareholders of our Company under the Listing Rules:

Shareholder	Number of Shares directly or indirectly to be held	Approximate percentage of shareholding in our Company		
		Direct interest	Indirect interest	Aggregate direct and indirect interest
		(%)	(%)	(%)
Mr. Zhang Zhi Rong (<i>Note 2</i>)	[●]	—	[●]	[●]
Best Era International Limited	[●]	[●]	—	[●]

3. Disclaimers

Save as disclosed herein and as at the Latest Practicable Date:

- (a) none of the Directors or chief executive of the Company has any interest or short position in the Shares, underlying Shares or debentures of the Company or any of its associated corporation (within the meaning of the SFO) which will have to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO or which will be required, pursuant to Section 352 of the SFO, to be entered in the register referred to therein, or which will be required to be notified to the Company and the Stock Exchange pursuant to the Model Code for Securities Transactions by Directors of Listed Companies once the Shares are listed;
- (b) none of the Directors or experts referred to under the heading “Consents of experts” in this Appendix has any direct or indirect interest in the promotion of the Company, or in any assets which have within the two years immediately preceding the date of this document been acquired or disposed of by or leased to any member of the Group, or are proposed to be acquired or disposed of by or leased to any member of the Group;
- (c) none of the Directors or experts referred to under the heading “Consents of experts” in this Appendix is materially interested in any contract or arrangement subsisting at the date of this document which is significant in relation to the business of the Group;

APPENDIX X

STATUTORY AND GENERAL INFORMATION

- (d) none of the Directors has any existing or proposed service contracts with any member of the Group (excluding contracts expiring or determinable by the employer within one year without payment of compensation (other than statutory compensation));
- (e) none of the Directors knows of any person (not being a Director or chief executive of the Company) who will have an interest or short position in the Shares or underlying Shares of the Company which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of SFO or be interested, directly or indirectly, in 10% or more of the nominal value of any class of share capital carrying voting rights to vote in all circumstances at general meetings of any member of the Group;
- (f) none of the experts referred to under the heading “Consents of experts” in this Appendix is interested beneficially or otherwise any shareholding in any member of the Group or has any right or option (whether legally enforceable or not) to subscribe for or to nominate persons to subscribe for securities in any member of the Group; and
- (g) so far as is known to the Directors, none of the Directors, their respective associates or shareholders of the Company who are interested in more than 5% of the issued share capital of the Company has any interests in the five largest customers or the five largest suppliers of the Group.

D. OTHER INFORMATION

1. Convertible Notes

The Company granted certain Convertible Notes in the aggregate principal amount of US\$165,000,000, which are mandatorily convertible. Details of the Convertible Notes, see the section headed “History, Reorganisation and Group Structure — Financing — Convertible Notes”.

2. Estate duty and Tax indemnity

Mr. Zhang Zhi Rong and Best Era (the “Indemnifiers”) have entered into a deed of indemnity with and in favour of the Company (for itself and as trustee for each of its subsidiaries) (being the contract referred to in paragraph (80) of the paragraph headed “Summary of material contracts” in this Appendix) to provide indemnities on a joint and several basis in respect of, *inter alia*, (1) Hong Kong estate duty which is or becomes payable by any member of the Group, by virtue of section 35 or section 43 of the Estate Duty Ordinance (Chapter 111 of the Laws of Hong Kong); and (2) taxation falling on any of the Group Companies resulting from or by reference to any income, profits or gains earned, accrued or received (or deemed to be so earned, accrued or received).

The Indemnifiers will, however, not be liable under the deed of indemnity:

- (i) to the extent that provision or allowance has been made for such taxation or taxation claims in the audited combined accounts of the Group companies or any of them for the three years ended 31 December, 2008 and the four months ended 30 April 2009 (the “Accounts”); or

APPENDIX X

STATUTORY AND GENERAL INFORMATION

- (ii) to the extent that such taxation falling on any member of the Group in respect of any period commencing on or after 30 April 2009 unless liability for such taxation would not have arisen but for some act or omission of, or transactions entered into by the Group companies or any of them (whether alone or in conjunction with some other act, omission or transaction, whenever occurring) otherwise than in the ordinary course of business (other than pursuant to a binding commitment existing at the date of this deed of indemnity); or
- (iii) to the extent provisions or reserve made such taxation in the Accounts is finally established to be an overprovision or an excessive reserve; or
- (iv) to the extent that the taxation claim arises or is incurred as a result of the imposition of taxation as a consequence of any retrospective change in the law coming into force after the date of the deed of indemnity or to the extent that such taxation claim arises or is increased by an increase in rates of taxation after such date with retrospective effect.

The Directors have been advised that no material liability for estate duty is likely to fall on the Company or any of its subsidiaries in the Cayman Islands, Hong Kong, BVI or PRC.

3. Litigation

As of the Latest Practicable Date, no member of the Group was engaged in any litigation or arbitration of material importance and no litigation or claim of material importance is known to the Directors to be pending or threatened by or against any member of the Group.

4. Miscellaneous

- (a) Save as disclosed in this document, and, where applicable, as at the Latest Practicable Date:
 - (i) within approximately two years preceding the date of this document, no share or loan capital of the Company or any of its subsidiaries has been issued or agreed to be issued or is proposed to be fully or partly paid either for cash or a consideration other than cash;
 - (ii) no share or loan capital of the Company or any of its subsidiaries is under option or is agreed conditionally or unconditionally to be put under option;
 - (iii) within the two years preceding the date of this document, no commissions, discounts, brokerages or other special terms have been granted or agreed to be granted in connection with the issue or sale of any share or loan capital of the Company or any of its subsidiaries;
 - (iv) within approximately two years preceding the date of this document, no commission has been paid or is payable for subscription, agreeing to subscribe, procuring subscription or agreeing to procure subscription of any share in the Company or any of its subsidiaries; and
 - (v) no founder, management or deferred shares of the Company or any of its subsidiaries have been issued or agreed to be issued and no amount or benefit had been paid or given within two preceding years or is intended to be paid or given to any promoter.

APPENDIX X**STATUTORY AND GENERAL INFORMATION**

- (b) The Directors confirm that there has been no material adverse change in the financial or trading position or prospects of the Group since 30 April 2009 (being the date to which the latest audited combined financial statements of the Group were made up).
- (c) There has been no interruption in the business of the Group which may have or has had a significant effect on the financial position of the Group in the 12 months preceding the date of this document.
- (d) No company within the Group is presently listed on any stock exchange or traded on any trading system.
