Chairman's Letter

The HAECO Group reported an attributable profit of HK\$1,111 million for the first six months of 2016, which included a gain of HK\$805 million on disposal of the interest of Hong Kong Aero Engine Services Limited (“HAESL”) in Singapore Aero Engine Services Pte. Limited (“SAESL”). This compares with a profit of HK\$254 million for the equivalent period in 2015. Earnings per share increased by 337.4% to HK\$6.68. Revenue increased by 23.9% to HK\$7,103 million.

The Directors have declared a first interim dividend of HK\$0.63 per share (2015: HK\$0.60 per share) and a special interim dividend of HK\$2.35 per share (2015: nil) for the year ending 31st December 2016, which together represent an increase of 396.7% from the first interim dividend paid in 2015. The first interim dividend, which totals HK\$105 million (2015: HK\$100 million), and the special interim dividend, which totals HK\$391 million (2015: nil), will be paid on 20th September 2016 to shareholders registered at the close of business on the record date, being Friday, 2nd September 2016. Shares of the Company will be traded ex-dividend as from Wednesday, 31st August 2016.

Demand for airframe services provided by HAECO in Hong Kong (“HAECO Hong Kong”) was less in the first half of 2016 than in the first half of 2015. Line services benefited from increased aircraft movements and more work being done per movement. More component maintenance manhours were sold in Hong Kong. The operating profit of HAECO ITM Limited (“HAECO ITM”) increased as services were provided for more aircraft, but increased finance charges resulted in reduced attributable profits. The profits of HAESL increased. More engines were overhauled and more work was done per engine.

The agreements for the restructuring of shareholdings in HAESL and SAESL were completed on 30th June 2016. The gain to HAESL arising from selling its 20% shareholding in SAESL was US\$229 million. 45% of the gain to HAESL, equivalent to approximately HK\$805 million, has been included in the profit of the Group for the first half of the year. Under the restructuring, HAECO increased its shareholding in HAESL from 45% to 50% and HAESL no longer has any shareholding in SAESL.

HAECO USA Holdings, Inc. (“HAECO Americas”) made a loss in the first half of 2016 similar to that in the first half of 2015. The airframe services performance was better, but fewer seats were sold.

The pre-tax profit of Taikoo (Xiamen) Aircraft Engineering Company Limited (“HAECO Xiamen”) decreased in the first half of 2016 compared with the first half of 2015. Demand for its airframe services was weak. Its post-tax profit improved as a result of a lower tax rate. Taikoo Engine Services (Xiamen) Company Limited (“TEXL”) performed well, with more engines having been overhauled and more component repair work. Taikoo (Xiamen) Landing Gear Services Company Limited (“HAECO Landing Gear Services”) incurred a loss comparable to the first half of 2015. The overall contribution from the Group's other activities in Mainland China improved.

Chairman's Letter (cont'd)

The Group continued to invest in expanding its facilities and technical capabilities and to improve and widen the range of services it can offer to customers. Total capital expenditure during the first half of 2016 was HK\$328 million. Capital expenditure committed at 30th June 2016 was HK\$1,514 million.

Demand for HAECO Hong Kong's airframe and component maintenance services is expected to be roughly stable in the second half of 2016. Demand for its line services is expected to be firm. Demand for HAECO Americas' airframe services is expected to increase compared with the second half of 2015 but seasonal factors mean that less work will be done than in the first half of 2016. The seat business will continue to be adversely affected by reduction in demand for our older model seats. Forward bookings for cabin integration work are weak but there will be more Panasonic Global Communication Suite work. Demand for HAECO Xiamen's airframe services is expected to be weak in the second half of 2016. HAESL's results in the second half of the year are expected to be adversely affected by reduced demand for its engine overhaul services although results for the whole of 2016 are likely to be better than those of 2015. TEXL's engine output is expected to remain stable. The results of HAECO Landing Gear Services will continue to be adversely affected by strong competition.

The municipal government of Xiamen has announced that the proposed new airport at Xiang'an will commence operations in 2020. This is subject to the National Development and Reform Commission's approval. Management maintains regular communications with the local authorities about the new airport and its opening, which will be material to the operations of the HAECO Group in Xiamen.

HAECO Hong Kong

HAECO Hong Kong's business comprises airframe services, line services at the passenger and cargo terminals at Hong Kong International Airport, component services, materials management and fleet technical management. It recorded a 5.1% increase in adjusted profit in the first half of 2016 compared to the equivalent period in 2015.

1.38 million airframe services manhours were sold by HAECO Hong Kong in the first half of 2016, 1.4% less than in the first half of 2015. The reduction reflected reduced demand and changes in customers' maintenance schedules. 82.1% of the work was for airlines based outside Hong Kong.

HAECO Hong Kong handled approximately 55,600 aircraft movements (representing an average of 306 per day) in the first half of 2016, an increase of 2.3% compared with the first half of 2015. More work was done per movement. Line services manhours increased accordingly.

Component maintenance manhours sold, together with those sold by HAECO Component Overhaul (Xiamen) Limited ("HAECO Component Overhaul (Xiamen)"), were 0.11 million in the first half of 2016, an increase of 10% compared to the first half of 2015. The increase reflected additional component maintenance capabilities.

Demand for HAECO Hong Kong's airframe and component maintenance services is expected to be roughly stable in the second half of 2016. Demand for line services is expected to be firm. Line services capacity is increasing, with more staff being hired.

Review of Operations (cont'd)

HAECO Americas (owned 100% by HAECO)

HAECO Americas' business comprises airframe maintenance, repair and overhaul services, line services, engine repair services, the manufacture of seats and other aircraft cabin work. It recorded a loss of HK\$59 million in the first half of 2016, the same as that in the same period last year. The airframe services performance was better, but fewer seats were sold.

1.74 million airframe services manhours were sold, 12.3% more than the first half of 2015. More airframes were overhauled. Work was done on a significant aircraft modification programme which started in the second half of 2015. The beneficial effect on profits was partly offset by expenditure to improve efficiency and work flow.

In the cabin and seat business, more Panasonic kit work was done. Fewer seats were sold (approximately 1,800 compared with 2,800 in the first half of 2015). Demand for our older model seats declined and the new ones did not start to be sold until the second quarter.

Demand for HAECO Americas' airframe services is expected to increase compared with the second half of 2015 but seasonal factors mean that less work will be done than in the first half of 2016. The seat business will continue to be adversely affected by reduction in demand for our older model seats. Forward bookings for cabin integration work are weak but there will be more Panasonic Global Communication Suite work.

HAECO Xiamen (owned 58.55% by HAECO)

HAECO Xiamen's business comprises airframe services, line services, private jet work, parts manufacturing and technical training.

HAECO Xiamen recorded a 2.2% increase in attributable profit in the first half of 2016, to HK\$47 million, due to a lower tax rate. Its pre-tax profit decreased because demand for airframe services in the first half of 2016 was weak. Less work was performed for a major North American customer. 1.65 million manhours were sold, 14.1% lower than the same period in 2015.

HAECO Xiamen handled an average of 48 aircraft movements per day in the first half of 2016, 6.7% more than in the first half of 2015. The profit from line services increased accordingly.

The first half year's private jet results were worse than those of the first half of 2015. We started to modify a private jet cabin. The work is expected to be finished in early 2017. HAECO Xiamen became an approved Airbus corporate jet service centre in April.

Parts manufacturing revenue increased by 13.6% in the first half of 2016 compared to the same period in 2015.

Revenue from technical training increased by 35.3% in the first half of 2016 compared with the corresponding period in 2015, mainly due to demand for training related to Boeing 787 aircraft.

Review of Operations (cont'd)

Demand for HAECO Xiamen's airframe services is expected to be weak in the second half of 2016. Less work will be done for a major North American customer. The adverse effect of this will be offset in part by doing more work for customers from outside North America and by narrow body passenger-to-freighter conversion work.

The municipal government of Xiamen has announced that the proposed new airport at Xiang'an will commence operations in 2020. This is subject to the National Development and Reform Commission's approval. Management maintains regular communications with the local authorities about the new airport and its opening, which will be material to the operations of the HAECO Group in Xiamen.

TEXL (owned 67.58% by HAECO and 9.01% by HAECO Xiamen)

TEXL has an engine overhaul facility in Xiamen. It has a service agreement with General Electric under which it provides maintenance, repair and overhaul services on GE90-110B and GE90-115B engines. In the first half of 2016, TEXL completed 25 quick turn repairs and 23 performance restorations on GE90 engines, 10 more performance restorations than in the first half of 2015. With more engines overhauled and more component repair work, TEXL recorded a significantly higher profit in the first half of 2016 than in the first half of 2015.

As the engine types overhauled by TEXL get older, they need more maintenance. TEXL's engine output is expected to be stable in the second half of 2016.

HAESL (45% owned by HAECO until 30th June 2016, 50% owned by HAECO thereafter)

HAESL repairs and overhauls Rolls-Royce engines and engine components at Tseung Kwan O in Hong Kong. Excluding the profit on disposal of its interest in SAESL, it recorded a 32.1% increase in profit in the first half of 2016 compared to the first half of 2015. More engines (60 compared with 53 in the first half of 2015) were overhauled and more work was done per engine.

SAESL, in which HAESL had a 20% interest until 30th June 2016, recorded a 47.8% decrease in profit in the first half of 2016 compared to the first half of 2015. Fewer engines were overhauled and less work was done per engine.

The agreements entered into in November 2015 for the restructuring of shareholdings in HAESL and SAESL were completed on 30th June 2016. The gain to HAESL arising from selling its 20% shareholding in SAESL under the restructuring was US\$229 million. 45% of the gain to HAESL, equivalent to approximately HK\$805 million, has been included in the profit of the Group for the first half of 2016. Under the restructuring, HAECO increased its shareholding in HAESL from 45% to 50%. HAESL is now owned as to 50% by HAECO and 50% by Rolls-Royce. HAESL no longer has any shareholding in SAESL.

HAESL's results in the second half of the year are expected to be adversely affected by reduced demand for its engine overhaul services although results for the whole of 2016 are likely to be better than those of 2015. HAESL expects to start generating revenue from overhauling Trent XWB engines (which power Airbus A350 aircraft) in 2017.

Review of Operations (cont'd)

Other Principal Subsidiary and Joint Venture Companies

HAECO ITM (owned 70% by HAECO) provides inventory technical management services to Cathay Pacific and other airlines. HAECO ITM provided inventory technical management services for 270 aircraft in the first half of 2016, an increase of 5.5% over the equivalent period in 2015. Operating profit increased, but increased finance charges resulted in reduced attributable profits.

HAECO Landing Gear Services (owned 63.80% by HAECO and 10% by HAECO Xiamen) overhauls landing gear in Xiamen. It recorded a loss in the first half of 2016 which was comparable to that in the corresponding period last year. Its results were adversely affected by strong competition.

HAECO Component Overhaul (Xiamen) (100% owned) made a smaller loss in the first half of 2016 than in the equivalent period in 2015. It did more work.

Shanghai Taikoo Aircraft Engineering Services Company Limited (“HAECO Shanghai”) (owned 60% by HAECO and 15% by HAECO Xiamen) provides line services in Shanghai and Nanjing. The average number of aircraft movements handled per day was 46 in the first half of 2016, 15% more than that of 2015. Its profit increased accordingly.

Singapore HAECO Pte. Limited (“HAECO Line Services (Singapore)”) (100% owned) provides lines services in Singapore. It recorded a small profit in the first half of 2016.

Taikoo Spirit AeroSystems (Jinjiang) Composite Company Limited (“HAECO Spirit AeroSystems”) (owned 41.8% by HAECO and 10.76% by HAECO Xiamen) repairs and overhauls composite structures at Jinjiang in Fujian Province in Mainland China. It did more work and made more profit before tax in the first half of 2016 than in the first half of 2015. Profit after tax fell, as it no longer had tax losses to utilise.

Currency Hedging

HAECO Xiamen tries to mitigate its exposure to increases in the value of the Renminbi by retaining surplus funds in Renminbi and by selling US dollars forward. At 30th June 2016, HAECO Xiamen had sold forward a total of US\$21 million to fund part of its Renminbi requirements for 2016 and 2017. The weighted average exchange rate applicable to these forward sales was RMB6.64 to US\$1. Because of a decrease in the value of the Renminbi, losses of HK\$1 million were incurred on forward foreign exchange contracts in the first half of 2016.

Report on Review of Condensed Interim Financial Statements

TO THE BOARD OF DIRECTORS OF HONG KONG AIRCRAFT ENGINEERING COMPANY LIMITED

(incorporated in Hong Kong with limited liability)

Introduction

We have reviewed the condensed interim financial statements set out on pages 15 to 35, which comprise the consolidated statement of financial position of Hong Kong Aircraft Engineering Company Limited (the “Company”) and its subsidiaries (together the “Group”) as at 30 June 2016 and the related consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of cash flows and consolidated statement of changes in equity for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on condensed interim financial statements to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of these interim financial statements in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on these interim financial statements based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed interim financial statements are not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”.

Notes to the Interim Financial Statements

1. Basis of preparation and accounting policies

- (a) The unaudited condensed interim financial statements have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of The Listing Rules of The Stock Exchange of Hong Kong Limited.

The financial information relating to the year ended 31st December 2015 that is included in the Interim Report 2016 as comparative information does not constitute the Company's statutory annual consolidated financial statements for that year but is derived from those financial statements.

The non-statutory accounts (within the meaning of section 436 of the Companies Ordinance (Cap. 622) (the "Ordinance") in this document are not specified financial statements (within such meaning). The specified financial statements for the year ended 31st December 2015 have been delivered to the Registrar of Companies in Hong Kong in accordance with section 664 of the Ordinance. An auditor's report has been prepared on those specified financial statements. That report was not qualified or otherwise modified, did not refer to any matter to which the auditor drew attention by way of emphasis without qualifying the report and did not contain a statement under section 406(2) or 407(2) or (3) of the Ordinance.

The accounting policies, methods of computation and presentation used in the preparation of the interim financial statements are consistent with those described in the 2015 annual financial statements except for those noted in 1(b) below.

- (b) The following amendments were required to be adopted by the Group effective from 1st January 2016:

HKAS 1 (Amendment)	Disclosure Initiative
HKAS 16 and HKAS 38 (Amendments)	Clarification of Acceptable Methods of Depreciation and Amortisation
HKFRSs (Amendment)	Annual Improvements to HKFRSs 2012-2014 Cycle
HKFRS 11 (Amendment)	Accounting for Acquisitions of Interests in Joint Operations

The adoption of these amendments has had no significant impact on the Group's financial statements.

2. Critical accounting estimates and judgements

The preparation of the interim financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. Those areas involving a higher degree of judgement or complexity and areas where assumptions and estimates are significant to the Group's consolidated financial statements are detailed in the 2015 annual financial statements.

Notes to the Interim Financial Statements (cont'd)

3. Financial risk management

- (a) In the normal course of business, the Group is exposed to financial risks attributable to interest rates, currencies, credit and liquidity.

The interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's 2015 annual financial statements. There have been no changes in the Group's financial risk management structure, policies and procedures since the year end.

- (b) The tables below analyse financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Unobservable inputs for the asset or liability (level 3).

Financial instruments that are measured at fair value are included in the following fair value hierarchy:

	Level 2	Level 3	Total carrying amount
	HK\$M	HK\$M	HK\$M
Assets as per consolidated statement of financial position			
At 30th June 2016			
Derivatives not qualifying as hedges	1	-	1
Total	1	-	1
Liabilities as per consolidated statement of financial position			
At 30th June 2016			
Derivatives used for hedging	5	-	5
Put option over a non-controlling interest in a subsidiary company	-	75	75
Total	5	75	80
At 31st December 2015			
Derivatives used for hedging	3	-	3
Put option over a non-controlling interest in a subsidiary company	-	74	74
Total	3	74	77

Notes to the Interim Financial Statements (cont'd)

3. Financial risk management (cont'd)

(b) The following table presents the change in level 3 instrument:

	Put option over a non-controlling interest in a subsidiary company <u>HK\$M</u>
At 1st January 2016	74
Change in fair value recognised in profit or loss during the period	<u>1</u>
At 30th June 2016	<u>75</u>
Total loss for the period included in profit or loss in respect of financial instrument held at 30th June 2016	<u>1</u>
Change in unrealised loss for the period included in profit or loss in respect of financial instrument held at 30th June 2016	<u>1</u>

There has been no change in valuation techniques for level 2 and level 3 fair value hierarchy classifications.

The fair value of derivatives in Level 2 is determined based on quotes from market makers or alternative market participants supported by observable inputs. The most significant inputs are market interest rates and exchange rates.

The fair value of the put option over a non-controlling interest in a subsidiary company in Level 3 is determined using discounted cash flow valuation technique. The significant unobservable inputs used in the fair value measurement are the terminal growth rate into perpetuity and discount rate.

Information about fair value measurements using significant unobservable inputs (Level 3) in the period under review is as follows:

Description	Unobservable inputs	Unobservable inputs (%)	Relationship of unobservable inputs to fair value	Possible reasonable change	Impact on valuation (HK\$M)
Put option over a non-controlling interest in a subsidiary company	Terminal growth rate into perpetuity	2%	The higher the terminal growth rate, the higher the fair value	+/-1%	51 / (35)
	Discount rate	7.5%	The higher the discount rate, the lower the fair value	+/-1%	(58) / 83

Notes to the Interim Financial Statements (cont'd)

3. Financial risk management (cont'd)

- (b) The Group's finance department includes a team that performs the valuations of financial instruments required for financial reporting purposes, including Level 3 fair values. This team reports to Group Director Finance. Discussions of valuation processes and results are held between Group Director Finance and the valuation team at least once every six months, in line with the Group's external reporting dates.

4. Segment information

The Group is engaged in commercial aircraft overhaul, modification and maintenance mainly in Hong Kong, Mainland China and the United States. Management has determined the operating segments based on the reports used by the Executive Directors of the Board to assess performance and allocate resources. The Executive Directors of the Board consider the business primarily from an entity perspective.

The segment information provided to the Executive Directors of the Board for the reportable segments for the period is as follows:

Property, plant and equipment and leasehold land and land use rights are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The Directors do not consider there to be any additional impairment provision required at 30th June 2016.

The municipal government of Xiamen has announced that the proposed new airport at Xiang'an will commence operations in 2020. This is subject to the National Development and Reform Commission's approval. Management has engaged an independent consultant to perform preliminary compensation assessments in order to evaluate the recoverable amounts of the Group's property, plant and equipment and land use rights at the existing Xiamen airport (with net book value totalling HK\$1,421 million at the end of 30th June 2016) which might be affected by the proposal to develop a new airport and has concluded that there was no impairment loss on those assets at 30th June 2016. Management maintains regular communications with the local authorities about the new airport and its opening, which will be material to the operations of the HAECO Group in Xiamen.

Notes:

- Revenue from joint venture companies mainly came from the provision to HAESL of engine component repairs on a commercial arm's length basis. Revenue from other related parties mainly came from the provision of aircraft maintenance service.
- These transactions fall under the definition of "continuing connected transactions" in Chapter 14A of the Listing Rules.
- Purchases from joint venture companies comprised mainly the provision of labour support charge by HAESL.
- Amounts due from and due to joint venture companies and other related parties at 30th June 2016 are disclosed in note 14 and note 15 to the interim financial statements.

Supplementary Information

Corporate governance

The Company complied with all the code provisions set out in the Corporate Governance Code (the “CG Code”) contained in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) throughout the accounting period covered by the interim report with the following exceptions which it believes do not benefit shareholders:

- Sections A.5.1 to A.5.4 of the CG Code in respect of the establishment, terms of reference and resources of a nomination committee. The Board has considered the merits of establishing a nomination committee but has concluded that it is in the best interests of the Company and potential new appointees that the Board collectively reviews and approves the appointment of any new Director as this allows a more informed and balanced decision to be made by the Board as to suitability for the role.

The Company has adopted codes of conduct regarding securities transactions by Directors and by relevant employees (as defined in the CG Code) on terms no less exacting than the required standard set out in the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) set out in Appendix 10 to the Listing Rules.

On specific enquiries made, all Directors have confirmed that, in respect of the accounting period covered by the interim report, they have complied with the required standard set out in the Model Code and the Company’s code of conduct regarding Directors’ securities transactions.

The interim results have been reviewed by the Audit Committee of the Company and by the external auditors.

Directors' particulars

Changes in the particulars of the Directors are set out as follows:

1. D.C.L. Tong retired as an Independent Non-Executive Director of the Company at the conclusion of the 2016 annual general meeting held on 6th May 2016 (“2016 AGM”).
2. The Hon. Sir Michael Kadoorie ceased to be an Alternate Director of the Company when his appointor ceased to be a Director of the Company with effect from the conclusion of the 2016 AGM.
3. J.L. Lewis was appointed as an Independent Non-Executive Director of the Company with effect from the conclusion of the 2016 AGM.

Directors’ interests

At 30th June 2016, the register maintained under Section 352 of the Securities and Futures Ordinance (“SFO”) showed that a Director held the following interests in the shares of John Swire & Sons Limited, an associated corporation of the Company (within the meaning of Part XV of the SFO):
