Managing Director's Report

BUSINESS REVIEW

Driven by ample liquidity and confidence in synchronized global economic growth, markets around the world performed strongly in 2017 and much of 2018 in spite of quantitative tapering by some of the world's major central banks. Yet just as the world celebrates the best year of economic performance in a decade, dark clouds are rising from the threat of a global trade war started by the U.S., foreseeable interest rate increase, and renewed worries about the sustainability of the Euro after the election in Italy, which points to further instability ahead for the third largest economy in the Euro zone.

After a period of sustained growth in real estate prices, the Chinese government re-introduced many market cooling measures and successfully stabilized prices in tier-one cities and large tier-two cities. At the same time, prices and volume continued to grow in lower tier cities as unsold inventories dropped from previously unhealthy levels. Despite sharp price increases during this real estate growth cycle, the government's policy responses have been appropriate and its strict monetary tightening measures appear to be working. At the 19th National Congress, the Central Government declared its desire to promote rental housing, which is being enthusiastically embraced by many industry players, paving the way for a major new asset class in the real estate industry. Consumption, services, and technology have also rose rapidly to become the major pillars of growth for the economy, spawning many young but world class companies and entrepreneurs.

The flood of liquidity in Hong Kong's banking system has kept interest rates low and the Hong Kong dollar exchange rate near the weak end of the currency peg, pushing both residential and commercial real estate prices to record highs. Tourism numbers have reversed the downward trend of the prior two years to grow 3.2% to 58.5 million arrivals in 2017, and retail spending has also regained the growth trend. In general, all sectors of real estate industry are performing very strongly in Hong Kong despite rising interest rates and warnings from government officials and financial analysts about an impending market correction.

In Thailand, 2017 was another record year for the tourism industry, with arrival numbers growing by 8.57% to 35.4 million for the year. Negative effects on tourism from prior years, such as the crack down on "zero tour" cheap Chinese tours and the mourning effects from the death of HM King Bhumibol, subsided during the course of 2017, leading to strong performance for the hotel and tourism industry. The first quarter of 2018 has seen a continuation of this positive trend. Barring any unexpected events and until the next general election (expected to be February 2019), it is anticipated that the Thai tourism sector will continue to perform strongly for the remainder of the year.

Managing Director's Report

For the year ended 31 March 2018, total turnover (including share of associates) for the Group was HK\$675.8 million, a 34.6% increase from HK\$501.9 million in 2017. The increase in turnover was due mainly to the increase in shareholding in InterContinental Hong Kong from 10% to 30%. On the other hand, due to the loss of rental income after the sale of the Pemberton Building and the decrease in investment income, operating profit during the year dropped to HK\$191.9 million, compared to HK\$227.5 million in 2017. The Group's share of results of associates increased to HK\$133.5 million (2017: HK\$31.2 million), due mainly to operating profits and valuation gains from InterContinental Hong Kong. Furthermore, investment properties contributed fair value gains of HK\$475.5 million (2017: HK\$432.5 million). In the year ended 31 March 2018, the Group's net profits attributable to shareholders amounted to HK\$623.5 million, versus HK\$805.2 million in 2017. The main reasons for the drop in net profits was due to one time gains from sale of the Group's shares in Asia Financial Holdings Limited and sale of the Pemberton Building in 2017, versus no such disposals during the year to 31 March 2018.

Property Investments (Hong Kong and China)

As of 31 March 2018, the Group's investment property Pioneer Place (245,678 sq. ft.) in Kwun Tong, Hong Kong has an improved occupancy rate of 82%, compared to 74% in 2017. For the twelve months period ended 31 March 2018, Pioneer Place contributed rental and related revenues of HK\$56.5 million and a fair value increase of HK\$70.0 million.

The Group owns 60% in the 68 Yee Wo Street Building (229,200 sq. ft.) in Causeway Bay, Hong Kong. This investment property has continued to perform well, with an occupancy rate of 100% as at 31 March 2018. For the fiscal year ended 31 March 2018, the property contributed rental and related revenues of HK\$127.3 million and a fair value increase of HK\$195.4 million.

The Club Lusitano Building (80,100 sq. ft.) in Central, Hong Kong has also continued to perform strongly, enjoying an occupancy rate of 96% and continued rising rental rates. For the fiscal year, the property contributed HK\$54.3 million in rental and related revenues and HK\$179.0 million in fair value increase to the Group.

The Group acquired the holding company that owns the 56,740 sq. ft. commercial podium of Kiu Fat Building (115-119 Queen's Road West) in Sai Ying Pun, Hong Kong in February 2017. During this first year of ownership, the Group had been repositioning the lower and upper ground floor tenancies of the property. As a result, the property currently has a lower occupancy of 66%. For the year, this property contributed HK\$13.0 million in rental and related revenues and HK\$18.6 million in fair value increase to the Group.

The Group has investments in K. Wah Centre (7.7%) and Ciro's Plaza (4.0%) both of which are located in Shanghai, China. During the financial year, both properties performed well with occupancies of 96% and 83% respectively in March 2018.

Hotel Investments (Hong Kong and Thailand)

The Group's investments in the hotel industry have all been made through associate companies.

In June 2017, the Group acquired an additional 20% in InterContinental Hong Kong from our joint venture partner, bringing our total shareholding in the asset to 30%. This additional acquisition valued the hotel at HK\$7.7 billion. The 503 rooms InterContinental Hong Kong is one of the leading 5 star hotels in the territory and world renowned for its commanding harbor view and Michelin star restaurants. The joint venture is currently working on plans to completely upgrade the hotel's guest rooms and facilities, with renovation works expected to commence in 2020. The InterContinental Hong Kong was originally opened as the Regent Hotel Hong Kong until it was acquired by InterContinental Hotel Group (IHG) in 2002. On March 14 this year, IHG announced that it has agreed to acquire a 51% interest in the Regent Hotels brand and plans to position "Regent" as the top brand in its global portfolio. As part of the deal, IHG and our joint venture that owns the InterContinental Hong Kong agreed to relaunch the hotel as the Regent Hotel Hong Kong upon the completion of the planned major renovation works. We are excited about this rebranding as it will return the hotel to its original heritage and benefit from the resources that IHG will put in the repositioning of the Regent brand. For the twelve months ended 31 March 2018, the hotel generated revenues of HK\$1,110.1 million (2017: HK\$1,074.5 million) and operating profit of HK\$409.4 million (2017: HK\$404.9 million). During the period, InterContinental Hong Kong enjoyed an average occupancy rate of 88%.

For the twelve months ended 31 March 2018, the Pullman Bangkok Hotel G (owned by the Group's 49.5% owned associated company) had revenues of Baht 571.6 million (HK\$134.0 million equivalent) (2017: Baht 538.2 million, HK\$119.5 million equivalent) and operating profit of Baht 222.9

million (HK\$52.2 million equivalent) (2017: Baht 201.6 million, HK\$44.8 million equivalent). Average occupancy during the year was 86%.

During the same period, the Pullman Pattaya Hotel G (held by the Group through the same 49.5% owned associate that holds the Pullman Bangkok Hotel G) had revenues of Baht 390.5 million (HK\$91.5 million equivalent) (2017: Baht 366.6 million, HK\$81.4 million equivalent) and operating profit of Baht 157.2 million (HK\$36.8 million equivalent) (2017: Baht 141.6 million, HK\$31.4 million equivalent), with an average occupancy rate of 80%.

InterContinental Hong Kong

PROSPECTS

On 9 May 2018, the Group sold its shares in Dusit Thani Public Company Limited (listed in Thailand) for a total consideration of Baht 434.6 million (equivalent to HK\$106.5 million). This disposal generated a historical profit of HK\$71.1 million to the Group and a 3.6x profit multiple from the original investment cost.

As discussed in past reports, it has been challenging to lease out the last 30% of space at Pioneer Place due to increased competition from new office supply in Kowloon East. In light of that, we are pleased to report that a lease was signed in June 2018 to lease out the last remaining 26,715 sq.ft. of vacant space in Pioneer Place, and the building will enjoy full occupancy when the newly signed tenant moves in around November 2018.

Currently, all of the Group's major investment properties (with the exception of Kiu Fat Building which is undergoing repositioning) and hotels are enjoying high occupancy as well as stable or growing income. In addition, the cash proceeds from the sale of Dusit Thani Public Company Limited shares also add to the healthy liquidity position of the Group. These factors, together with our low debt gearing ratio (total debts/total assets: 22.7%), put the Group in a strong position to take advantage of any opportunities that may arise.

FINANCIAL REVIEW

Liquidity and Financial Resources

The Group continued to enjoy a strong and healthy financial position. At 31 March 2018, the Group's total debts to total assets ratio was 22.7% (31 March 2017: 24.7%) and net debt to total assets ratio was 20.8% (31 March 2017: 19.6%).

BUSINESS REVIEW

A fair review of the business of the Group, including description of the possible risks and uncertainties that the Group may be facing, the important events of the Group and its future prospect of the Group is set out in the “Managing Director’s Report” of the annual report.

An analysis of the Group’s performance for the reporting year using financial key performance indicator and the financial risk management are set out on page 100 and in note 32 to the financial statements respectively.

ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group adheres to environmental sustainability from office throughout the property portfolio. As a responsible corporation, we strive to ensure minimal environmental impacts by carefully managing our energy consumption, water usage, property design and waste production.

At office level, the Company participated in the Green Office Awards Labelling Scheme organized by World Green Organization to implement green initiatives and encourage staff to join environmental related training. At properties level, we advocated e-bill and e-receipt to our tenants and actively launched various energy savings and recycling programmes.

More details of the environmental policies and performance of the Company will be published in the environmental, social and governance report within 3 months after the publication of this annual report.

COMPLIANCE TO LAWS AND REGULATIONS

The Board paid attention to the Group’s policies and practices on compliance with legal and regulatory requirements. External compliance and legal advisers are engaged to ensure transactions and business performed by the Group are within the applicable laws framework. Updates on applicable laws, rules and regulations are brought to the attention of relevant employees and operation units from time to time.

KEY RELATIONSHIPS WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS**(a) Employees**

The Company recognizes the value of employee involvement in effective communications and the need for their contribution to decision making on matters affecting their jobs. The employment policies of the Company embody the principles of equal opportunity and are tailored to meet the needs of the Company and the areas in which it operates. This includes suitable procedures to support the Company's policy that individuals should not be discriminated against on the basis of race, disability, age, gender, sexuality or religion and that they should be considered for employment and subsequent training, career development and promotion on the basis of their aptitudes and abilities.

(b) Customers

Tenants are the Group's main customers. We endeavor to maintain a close and lasting relationship with them and pursue their satisfaction. The tenants can contact our asset management team directly via telephone and emails as and when needed. We also pay attention to the tenant's dissatisfaction and put the best effort to respond instantly to the problem and complaint submitted by the tenants.

(c) Suppliers

The Group seeks to develop long-standing and maintains good relationship with our key suppliers. We select our suppliers prudently and assess them based on criteria such as track record, experience, reputation and history of meeting our standards. We also discussed with the suppliers on areas of improvement so as to increase efficiency and foster long-term business benefits.

EMOLUMENT POLICY

As at 31 March 2018, the number of salaried staff at the holding company level was 17 (2017: 18). The Group ensures that its employees' remuneration packages are competitive. Employees are rewarded on a performance related basis within the general framework of the Group's salary and bonus system. The emoluments of the directors of the Company are determined with reference to his/her position, duties and responsibilities, remuneration policy of the Company and the prevailing market conditions. All the employees in Hong Kong are entitled a defined contribution mandatory provident fund retirement benefits scheme under the Mandatory Provident Fund Scheme Ordinance operated by the Group.

DIRECTORS' RIGHT TO ACQUIRE SHARES OR DEBENTURES

As at 31 March 2018, there were no outstanding options to subscribe for the shares of the Company. There were no other arrangements to which the Company or any of its subsidiaries was a party to enable the directors of the Company to acquire benefits by means of the acquisition of shares, or debentures of the Company or any other body corporate.

DIRECTORS' SERVICE CONTRACTS

No Director, including those proposed for re-election at the forthcoming annual general meeting, has a service contract with the Company or any of its subsidiaries which is not determinable by the employer within one year without payment of compensation other than statutory compensation.

INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS OF SIGNIFICANCE

Save as disclosed under "Connected Transaction" and in note 30 to the financial statements, no Director or an entity connected with a Director, or controlling shareholder has a material beneficial interest, either directly or indirectly, in any transaction, arrangement or contract of significance to the business of the Group to which the Company or any of its subsidiaries is a party during the financial year.

MANAGEMENT CONTRACTS

No contracts concerning the management and administration of the whole or any substantial part of any business of the Company or its subsidiaries were entered into or existed during the financial year.

PERMITTED INDEMNITY PROVISION

The Company's Bye-laws provides that all directors or other officers of the Company shall be entitled to be indemnified out of the Company's fund against all losses or liabilities which he or she may incur or sustain in or about the execution of the duties of his or her office or otherwise in relation thereto. In addition, the Company has maintained appropriate directors' and officers' liability insurance throughout the financial year, which provides appropriate cover for certain legal actions brought against its directors and officers.

PRE-EMPTIVE RIGHTS

No pre-emptive rights exist in Bermuda, the jurisdiction in which the Company was incorporated.

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

Good corporate governance provides a framework that is essential for effective management, healthy corporate culture, successful business growth and better shareholders' value. The Group's corporate governance practices emphasize a well-balanced quality Board, effective risk management and internal control and accountability to shareholders. The Board has adopted the principles of good governance provided by the Code on Corporate Governance Practices (the "CG Code") in the Appendix 14 of the Listing Rules.

Due to prior business commitment, Dr. Charles Wai Bun Cheung, JP, an independent non-executive director, was unable to attend the 2017 annual general meeting of the Company. Save for the above, the Company has complied with the code provision set out in the CG Code throughout the year ended 31 March 2018.

THE BOARD OF DIRECTORS

Responsibilities of the Board

The Company is headed by an effective Board which is accountable to shareholders for the long-term performance and interests of the Company. The Board is responsible for directing business affairs of the Group which include determining the corporate objectives and business strategies, setting appropriate policies to manage risks and performing the corporate governance function. On the other hand, the Board delegated the management with the day to day running and operational matters of the Group and the management is held accountable for the performance of the Company.

Regarding the corporate governance duties, the Board as a whole is responsible for developing and reviewing the policies and practices on corporate governance and the legal and regulatory compliance; reviewing and monitoring the code of conduct and ethical behavior applicable to the Directors and employee; reviewing and monitoring the training and continuous professional development of Directors; and reviewing the Company's compliance with the CG Code and disclosure in the corporate governance report.

During the year under review, the Board has reviewed the corporate governance practices of the Company and the disclosure in this corporate governance report. It also monitored the training and continuous professional development of Directors regularly.

Decisions on important matters, including those affect the Group's strategic policies, annual and interim results, material transactions and funding exercises are reserved to the Board whereas the Group's general operations decisions are reserved to the management. The respective functions to the Board and the management have been formalized and set out in writing.

Composition of the Board

The Board currently comprises eight Directors, including five Executive Directors and three Independent Non-executive Directors. The number of Independent Non-executive Directors in the Company represents more than one-third of the Board, which satisfied the requirement under Rule 3.10(A) of the Listing Rules. The biographical details of the Directors including their names, positions and relationships are set out on pages 17 to 19. In particular, Mrs. Rossana Wang Gaw (Chairman) is the mother of Mr. Goodwin Gaw (Vice Chairman), Mr. Kenneth Gaw (Managing Director) and Ms. Christina Gaw (Executive Director). Save as aforesaid, none of the members of the Board is related to one another.

The Company has maintained on its website and that of Stock Exchange an updated list of Directors identifying their roles and functions and disclosed the names of Directors, including those Independent Non-executive Directors, in all corporate communications.

Chairman and Managing Director

The roles of the Chairman and the Managing Director of the Company are separate to reinforce their respective independence and accountability.

The Chairman provides leadership to and oversees the effective functioning of the Board with good corporate governance practices. With the support of the senior management, the Chairman ensures that all Directors receive adequate, complete and reliable information, and are properly briefed on issues arising at Board meetings and that all key and appropriate issues are discussed by the Board in a timely manner.

The Managing Director heads the management and focuses on implementing objectives, policies and strategies approved and delegated by the Board. He has the executive responsibilities over the Company's day-to-day management and operation.

During the year under review, the Chairman of the Company is Mrs. Rossana Wang Gaw and the Managing Director is Mr. Kenneth Gaw.

Independent Non-executive Director

Each Independent Non-executive Director is appointed for a term of three years and is subject to retirement by rotation and re-election at the annual general meeting of the Company in accordance with the provisions of the Bye-Laws. The Independent Non-executive Directors possess appropriate professional qualifications or accounting or related financial management expertise under Rule 3.10 of the Listing Rules. Their active participation in the Board and committee meetings brings an objective and independent voice that protects the minority interests. The Company has received in writing the annual confirmation of independence pursuant to Rule 3.13 of the Listing Rules from each of the Independent Non-executive Directors and considers them to be independent of the management and free of any relationship that could materially interfere with the exercise of their independent judgment.

Directors and Officers Liability Insurance

Appropriate insurance cover on directors' and officers' liabilities has been in force to protect the Directors and officers of the Group from their risk exposure arising from the business of the Group. The insurance coverage is reviewed and renewed on annual basis.

Board Meetings and Procedures

The Board meets regularly, and at least four times a year, to review the business development and discuss any matters arising from corporate governance, risk management, accounting and financing. Additional meetings will be held upon the request of the members when they think necessary. Every Director is entitled to have full access to information on the Group and may, in appropriate circumstances, take independent professional advice at the Company's expense.

In respect of regular Board meetings, at least 14 days' notice is normally given to all Directors and all Directors can include matters for discussion in the agenda if necessary. Agenda and accompanying Board papers in respect of regular Board meetings are sent out in full to all Directors within reasonable time before the Board meetings, which enable the Board to make an informed decision on the matters. Draft minutes of every Board meeting are circulated to all Directors for their comment within a reasonable time after the Board meeting is held. All the minutes are kept by the Company Secretary and available for inspection by any Director.

All Directors, including the Independent Non-executive Directors, have devoted a reasonable amount of time and effort to the business affairs of the Company. The decisions made are collective decisions of all Directors after thorough discussion at the Board meetings. According to the current Board practices, any material transaction, which involves a conflict of interest for a substantial shareholder or a director, will be considered and dealt with by the Board at a duly convened Board meeting and the director concerned will abstain from voting.

During the financial year, four Board meetings, the 2017 Annual General Meeting and one extraordinary general meeting were held. The composition of the Board and attendance record of each Director at these meetings are set out below:

Directors	Number of Board Meeting attended	Number of General Meeting attended

Stephan Tan	4/4	2/2

Directors' Induction and Training

On appointment to the Board, each newly appointed director receives a comprehensive induction package covering policies and procedures of the Company as well as the general, statutory and regulatory obligations of being a director to ensure that he is sufficiently aware of his responsibilities under the Listing Rules and other relevant regulatory requirements.

All Board members are encouraged to update their knowledge of and familiarity with the business environment related to the Group through active participation at Board meetings and enrolling in a wide range of professional development courses and seminars relating to the Listing Rules, Companies Ordinance, corporate governance practices and professional skills at the Company's expense. The Company provides Directors with regular updates on the performance, financial position and latest development of the Group. Directors are also updated on any material changes in the Listing Rules, Companies Ordinance, rules and regulatory requirements related to directors' duties and responsibilities from time to time.

Corporate Governance Report

Risk Management and Internal Control

The Board is responsible for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Company's strategic objectives, and ensuring that the Company establishes and maintains an appropriate and effective risk management and internal control systems. The Board should oversee the management in the design, implementation and monitoring of the risk management and internal control systems, and the management should provide a confirmation to the Board on the effectiveness of the systems.

The Board, through the Audit Committee, assesses the effectiveness of the Group's risk management and internal control systems, which covers all material controls, including financial, operational and compliance controls, on at least annual basis, reviews the effectiveness of the internal audit function, and also considers the adequacy of resources, staff qualifications and experience, training programmes and budgets.

The Company's risk management and internal control systems have five components, including control environment, risk assessment, control activities, information and communication, and monitoring which are embedded in each business unit or functional area.

The management with the coordination of different business units implements the risk management and internal control systems in accordance to the Board's direction. They meet regularly to review and identify any significant management and operational risks and each of identified risks is assessed of its impact and likelihood. Various controls or safeguards are taken to address the significant risks. Timely and accurate information are effectively communicated among operational staff and the management. Material issues, particularly any incidence of control failings or weaknesses that may cause material impact on the business of the Group is to be reported to the Board and the Audit Committee on a timely basis.

The internal audit function undertaken by the internal auditor is also established to monitor the Group's internal governance and strive to provide an objective assurance to the Board on the adequacy, efficiency and effectiveness of the Group's risk management and internal control systems maintained by the management and to provide recommendations for improvement. The annual internal audit plan is reviewed and approved by the Audit Committee.

In the year under review, the Board has, through the Audit Committee and the external auditor, conducted the review of effectiveness of the Group's risk management and internal control systems, including all material financial, operational and compliance controls and assessed the adequacy of resources, qualification and experience of the staff of the Company's accounting and financial reporting function, and their training programs and budgets and the review of the internal audit function for the year ended 31 March 2018. The result of assessment is satisfactory and the Board was not aware any significant issues that would have an adverse impact on the effectiveness and adequacy of the systems of the Group. Also the management provided a confirmation to the Audit Committee and the Board on the effectiveness of the systems.

BOARD COMMITTEES

Remuneration Committee

The Remuneration Committee consists of three Independent Non-executive Directors, including Mr. Arnold Tin Chee Ip (Chairman), Dr. Charles Wai Bun Cheung, JP and Mr. Stephen Tan. The responsibilities and functions of the Remuneration Committee are set out in its terms of reference and are available on the websites of the Company and the Stock Exchange.

The principal duties of the Remuneration Committee are to make recommendations to the Board regarding the Company's remuneration policy and structure; to assess the performance of executive directors; and to formulate and review the remuneration packages of all the Directors and senior executives.

The remuneration packages of Directors and senior management are reviewed and determined by the Remuneration Committee with reference to his/her position, duties and responsibilities, remuneration policy of the Company and the prevailing market conditions. Sufficient resources are provided to the Committee to discharge its duty. The Committee can consult the Chairman and the Managing Director about their proposals relating to the remuneration of the Executive Directors and have access to independent professional advice at the Company's expense if necessary.

The Committee also reviewed the continuing connected transaction and monitored the integrity of the financial statements and paid attention to any changes in accounting policies and practices and their impact on the Group's financial statements. In addition, the Audit Committee assisted the Board in meeting its responsibilities for maintaining an effective systems of risk management and internal control and the internal audit function during the financial year. The Committee reviewed the risk management and internal control systems report and internal audit report prepared by the management/internal auditor and discussed the same with the external auditor to ensure the effectiveness and efficiency of the Group's operation. The external auditor and the Audit Committee were satisfied that the overall financial and operational controls for the Group continued to be effective. The work and finding of the Audit Committee were reported to the Board.

Nomination Committee

The Nomination Committee consists of three Independent Non-executive Directors and two Executive Directors. Mrs. Rossana Wang Gaw is the Chairman of the Nomination Committee whereas Mr. Kenneth Gaw, Dr. Charles Wai Bun Cheung, JP, Mr. Arnold Tin Chee Ip and Mr. Stephen Tan are the Committee members. The responsibilities and functions of the Nomination Committee are set out in its terms of reference are available on the websites of the Company and the Stock Exchange.

The principal duties of the Nomination Committee are to review the structure, size and composition of the Board; to assess the independence of the Independent Non-executive Directors; and to make recommendation to the Board on selection of candidates for directorship and on appointment or reappointment of directors.

The Company adopted a board diversity policy with the aim of achieving diversity on the Company's board of directors. Our board diversity policy considers that board diversity includes a number of different aspects, such as professional experiences, business perspectives, skills, knowledge, gender, age, cultural and educational background, ethnicity and length of service. Under the board diversity policy, the Nomination Committee has responsibility in leading the progress for Board appointments: when there is a vacancy or an addition director, the Committee will identify suitable candidates internally and externally for nomination.

The Committee will assess the candidates based on a range of diversity perspectives stated above before recommended to the Board. All directors so appointed by the Board are subject to election by shareholders at the forthcoming general meeting.

Corporate Governance Report

Opinion

We have audited the consolidated financial statements of Pioneer Global Group Limited (the “Company”) and its subsidiaries (collectively referred to as “the Group”) set out on pages 36 to 98, which comprise the consolidated statement of financial position as at 31 March 2018, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 March 2018, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“the HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAs”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (“the Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditor's Report

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	How our audit addressed the key audit matters
Valuation of investment properties	
<p>Refer to note 12 to the consolidated financial statements.</p> <p>As at 31 March 2018, the carrying amount of the Group's investment properties amounted to approximately HK\$7,158,000,000 as disclosed in note 12 to the consolidated financial statements, unrealised gain on fair value changes of investment properties of approximately HK\$475,497,000 was recognised in profit or loss.</p> <p>All the Group's investment properties are measured at fair value based on valuations performed by an independent qualified professional valuer engaged by the Company. Details of the valuation techniques and key inputs used in the valuations are disclosed in note 12 to the consolidated financial statements. Given that the valuation was significant to the Group and that the fair value estimate itself is subjective, we have identified the valuation of the investment properties as one of the key audit matters.</p>	<p>We reviewed the valuation report prepared by the independent valuer engaged by the Company. We discussed with the management of the Company and the valuer the appropriateness of the valuation approach and key assumptions being used in determining the fair value of the investment properties as at 31 March 2018.</p> <p>We compared the market transactions and market rental with similar properties and locations.</p> <p>We evaluated the valuer's competence, capabilities and objectivity.</p>
Valuation of associates	
<p>Refer to note 13 to the consolidated financial statements.</p> <p>As at 31 March 2018, the carrying amount of the Group's interest in associates amounted to approximately HK\$2,111,862,000 as disclosed in note 13 to the consolidated financial statements. Included in this balance, Supreme Key Limited ("Supreme Key") is a material associate of the Group amounted to approximately HK\$1,473,519,000. The major investment of Supreme Key is investment property, which is measured at fair value based on valuation performed by an independent qualified professional valuer. Given that the fair value estimate itself is subjective, we have identified the valuation of the investment property of Supreme Key as one of the key audit matters.</p>	<p>We were not the statutory auditor of the financial statements of Supreme Key. We discussed with the asset manager of Supreme Key, a company engaged by the major investor carrying management services of Supreme Key and its subsidiaries, and management of the Group the performance of the associate and how the associate prepared the financial statements, in particular, whether the accounting policies used by the associate in preparing its financial statements were in line with the Group's policies. With regard to the associate's investment property, we performed the procedures which are same as those procedures as we have conducted for addressing the key audit matter "Valuation of the Group's investment properties" as set out above.</p>

Other Information

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with Section 90 of Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

(continued)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2018

1. SIGNIFICANT ACCOUNTING POLICIES

(a) General information

Pioneer Global Group Limited is a limited liability company, incorporated in Bermuda with its shares listed on The Stock Exchange of Hong Kong (the “Stock Exchange”). The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information of the annual report. The principal activity of the Company is investment holding and the principal activities of its major subsidiaries and associates are shown in notes 35 and 36 respectively.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”) which is the functional currency of the Company.

(b) Statement of compliance

The consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) and by the Hong Kong Companies Ordinance.

The accounting policies and methods of computation used in the preparation of the consolidated financial statements are consistent with those used in the consolidated financial statements for the year ended 31 March 2017, except for the changes as set out below.

During the current year, the Group has applied the following amendments to HKFRSs issued by the HKICPA which are relevant to its operations.

Amendments to HKAS 7	Disclosure Initiative
Amendments to HKAS 12	Recognition of Deferred Tax Assets for Unrealised Losses
Amendments to HKFRS 12	Part of the Annual Improvements to HKFRSs 2014-2016 Cycle

Except as described below, the application of the amendments to HKFRSs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Amendments to HKAS 7 Disclosure Initiative

The Group has applied these amendments for the first time in the current year. The amendments require an entity to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both cash and non-cash changes.

A reconciliation between the opening and closing balances of financing liabilities is provided in note 26. Based on the transition provisions of the amendments, the Group has not disclosed comparative information for the prior year. Apart from the additional disclosure in note 26, the application of these amendments has had no impact on the Group’s consolidated financial statements.

(b) Statement of compliance *(continued)*

HKFRS 9, Financial instruments

HKFRS 9 introduces new requirements for the classification and measurement of financial assets, financial liabilities and impairment requirements for financial assets.

Key requirements of HKFRS 9

All recognized financial assets that are within the scope of HKFRS 9 are required to be subsequently measured at amortized cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are generally measured at fair value through other comprehensive income (“FVTOCI”). All other financial assets are measured at their fair value at subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognized in profit or loss.

In relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognized.

Based on the Group’s financial instruments and risk management policies as at 31 March 2018, the directors of the Company preliminarily anticipate the following potential impacts on initial application of HKFRS 9 which are still subject to changes until assessment is final.

(b) Statement of compliance *(continued)*

HKFRS 9, Financial instruments *(continued)*

Classification and measurement

Listed debt instruments classified as available for sale investments carried at fair value: these are held within a business model whose objective is achieved both by collecting contractual cash flows and selling the listed debt instruments in the open market, and the contractual terms give rise to cash flows on specified dates that are solely payments of principal and interest on the principal outstanding. Accordingly, the listed debt instruments will continue to be subsequently measured at FVTOCI upon the application of HKFRS 9, and the fair value gains or losses accumulated in the investment revaluation reserve will continue to be subsequently reclassified to profit or loss when the listed debentures are derecognized or reclassified.

Listed and unlisted equity securities classified as available for sale investments carried at fair value: these securities qualified for designation as measured at FVTOCI under HKFRS 9, however, the fair value gains or losses accumulated in the investment revaluation reserve amounting to HK\$204,494,000 as at 31 March 2018 will no longer be subsequently reclassified to profit or loss under HKFRS 9 on disposal, which is different from the current treatment. This will affect the amounts to be recognized in the Group's profit or loss and other comprehensive income but will not affect total comprehensive income.

Impairment

In general, the directors of the Company anticipate that the application of the expected credit loss model of HKFRS 9 will result in earlier provision of credit losses which are not yet incurred in relation to the Group's financial assets measured at amortized costs and other items that subject to the impairment provisions upon application of HKFRS 9 by the Group.

The Group has not yet quantified the impact.

HKFRS 15, Revenue from contracts with customers

HKFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18, Revenue, HKAS 11, Construction contracts and the related interpretations when it becomes effective.

The core principle of HKFRS 15 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under HKFRS 15, an entity recognizes revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in HKFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by HKFRS 15.

In 2016, the HKICPA issued Clarifications to HKFRS 15 in relation to the identification of performance obligations, principal versus agent considerations, as well as licensing application guidance.

The directors of the Company anticipate that the application of HKFRS 15 in the future may result in more disclosures, however, they do not anticipate that the application of HKFRS 15 will have a material impact on the timing and amounts of revenue recognized in the respective reporting periods.

HKFRS 16, Leases

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. HKFRS 16 will supersede HKAS 17, Leases and the related interpretations when it becomes effective.

HKFRS 16 distinguishes lease and service contracts on the basis of whether an identified asset is controlled by a customer. Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognized for all leases by lessees, except for short-term leases and leases of low value assets.

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. For the classification of cash flows, the Group currently presents upfront prepaid lease payments as investing cash flows in relation to leasehold lands for owned use and those classified as investment properties while other operating lease payments are presented as operating cash flows. Upon application of HKFRS 16, lease payments in relation to lease liability will be allocated into a principal and an interest portion which will be presented as financing and operating cash flows respectively by the Group.

Under HKAS 17, the Group has already recognized an asset and a related finance lease liability for finance lease arrangement. The application of HKFRS 16 may result in potential changes in classification of these assets depending on whether the Group presents right-of-use assets separately or within the same line item at which the corresponding underlying assets would be presented if they were owned.

In contrast to lessee accounting, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease.

Furthermore, extensive disclosures are required by HKFRS 16.

As at 31 March 2018, the Group does not have any non-cancellable operating lease commitments. For future arrangements that will meet the definition of a lease under HKFRS 16, the Group will recognise a right-of-use asset and a corresponding liability in respect of all these leases unless they qualify for low value or short-term leases upon the application of HKFRS 16.

Furthermore, the application of new requirements may result in changes in measurement, presentation and disclosure as indicated above.

(c) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 March 2018 incorporate the financial statements of the Company and its subsidiaries (the “Group”) and the Group’s interest in associates.

The measurement basis used in the preparation of the financial statements is the historical cost basis except that investment properties, available for sale investments and financial assets at fair value are stated at their fair values as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2, Share-based Payment, leasing transactions that are within the scope of HKAS 17, Leases, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in HKAS 2, Inventories or value in use in HKAS 36, Impairment of Assets.

A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For financial instruments and investment properties which are transacted at fair value and a valuation technique that unobservable inputs are to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that the results of the valuation technique equal the transaction price.

(d) Basis of consolidation

The financial statements of the Group include the financial statements of the Company and its direct and indirect subsidiary companies and also incorporate the Group's interest in associates on the basis set out in note 1(f) below. Results of subsidiaries and associates acquired or disposed of during the year are included as from their effective dates of acquisition to 31 March 2018 or up to the dates of disposal as the case may be. The acquisition of subsidiaries is accounted for using the acquisition method.

(e) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has right to, variable returns from its involvement with entity and had the ability to affect those returns through its power over the entity. When assessing whether the Group has power of controls, only substantive rights held by the Group are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. All intra-group transactions, balances and realized surplus and deficits on transactions between group companies have been eliminated. Non-controlling interests ("NCI") represent the proportion of the results and net assets of subsidiaries not attributable to the Group.

In the Company's statement of financial position (see note 33), the investment in subsidiaries is stated at cost less any impairment losses.

(f) Associates

An associate is an entity over which the investor has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

An investment in an associate is accounted for in the consolidated financial statements under the equity method and is initially recognized in the consolidated statement of financial position at cost and adjusted thereafter for the post acquisition change in the Group's share of the associate's net assets, unless it is classified as held for sale. The consolidated statement of profit or loss includes the Group's share of the post-acquisition, post-tax results of the associates for the year, including any impairment loss on goodwill relating to the investments in associates recognized for the year.

1. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(f) **Associates** *(continued)*

The financial statements of associates used for equity accounting purpose are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances.

In the Company's statement of financial position (see note 33), the investment in associates is stated at cost less impairment losses.

(g) **Investment properties**

Investment properties are land and/or buildings, which are owned or held under a leasehold interest to earn rental income and/or for capital appreciation. Investment properties are stated in the consolidated statement of financial position at fair value. Any gain or loss arising from a change in fair value is recognized in profit or loss.

Subsequent costs are capitalized in the asset's carrying amount, only when it is probable that future economic benefits associated with the item will flow to the Group.

(h) **Property, plant & equipment**

Property, plant & equipment are stated in the consolidated statement of financial position at cost less accumulated depreciation and impairment losses. Depreciation is calculated to write off the cost over their estimated useful lives on the reducing balance method at 10-25% p.a..

(i) **Financial assets**

The Group classifies its financial assets in the categories of financial assets at fair value, loans and receivables (including debtors and cash & bank balances) and available for sale investments. When financial assets are recognized initially, they are measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value) are deducted from fair value on initial recognition. Transaction costs that are directly attributable to financial assets at fair value are recognized immediately to profit or loss. The Group determines the classification of its investments after initial recognition and, where allowed and appropriate, re-evaluates this designation at each financial year end.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2018

1. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(i) Financial assets *(continued)*

The financial instruments are grouped into 3 levels based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety.

Level 1: fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: fair value measurements are those derived from inputs other than quoted prices included with level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

All regular way purchases and sales of investments are recognized on the trade date i.e. the date that the Group commits to purchase the assets. Regular way purchases or sales are purchases or sales of investments that require delivery of assets within the period generally established by regulation or convention in the market place.

(i) *Financial assets at fair value*

Financial assets held for short term trading purposes is classified as 'financial assets at fair value'. Derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses arising from changes in fair value are recognized in profit or loss.

(ii) *Available for sale investments*

Available for sale investments are those non-derivative financial assets that are designated as available for sale or are not classified in any other categories of financial assets. After initial recognition, available for sale investments are measured at fair value with gains or losses being recognized in other comprehensive income and accumulated in a separate component of equity until the investment is derecognized or the investment is determined to be impaired at which time the cumulative gain or loss previously reported in equity is reclassified to profit or loss.

If any objective evidence exists for impairment of available for sale investments, the accumulated loss which is measured as the difference between the acquisition cost and the current fair value, is reclassified to profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2018

1. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(i) Financial assets *(continued)*

(ii) Available for sale investments *(continued)*

In respect of equity investments, impairment losses previously recognized in profit or loss are not reversed through profit or loss. Any increase in fair value subsequently to an impairment loss is recognized in other comprehensive income and accumulated under the heading of investment revaluation reserve. In respect of debt investments, impairment losses are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

(j) Impairment of assets

At each year end date, the Group reviews the carrying amounts of its tangible and intangible assets other than financial assets excluding investment in subsidiaries and associates to determine whether there is any indication that those assets have suffered an impairment loss. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years.

(k) Leases

(i) Operating lease

Leases whereby substantially all the rewards and risks of ownership of assets remain with the leasing company are considered as operating leases. Rental income and expenses under operating leases are accounted for on a straight-line basis over the respective periods of the leases.

(ii) Finance lease

Assets acquired pursuant to finance leases and hire purchase contracts that transfer to the Group substantially all the rewards and risks of ownership are accounted for as if purchased.

Finance leases are capitalized at the inception of the leases at the lower of the fair value of the leased assets or the present value of the minimum lease payments. Lease payments are treated as consisting of capital and interest elements. The capital element of the leasing commitment is included as a liability and the interest element is charged to profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2018

1. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(l) Debtors

Receivables from debtors are recognized initially at fair value and subsequently stated at amortized cost using the effective interest method, less allowance for doubtful debt. When doubtful debts are identified, provisions are made and recognized in profit or loss.

(m) Cash and cash equivalents

Cash and cash equivalents comprise cash and bank balances, deposits with banks repayable within three months from the date of placement, less bank overdrafts and advances from banks repayable within three months from the date of advance.

(n) Bank loans and interest-bearing borrowings

Bank loans and interest-bearing borrowings are recognized initially at fair value, net of transaction costs incurred. Transaction costs are incremental costs that are directly attributable to raising of the bank loans and interest-bearing borrowings. They are subsequently stated at amortized cost. Any difference between the cost and the redemption value is recognized in profit or loss over the period of the bank loans and interest-bearing borrowings using the effective interest rate method.

(o) Creditors

Payables to creditors are recognized initially at fair value and subsequently stated at amortized cost using the effective interest method, unless the effect of discounting would be immaterial, in which case they are stated at cost. Creditors are classified as current liabilities if payment is due within one year or less; otherwise, they are presented as non-current liabilities.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2018

1. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(p) Revenue recognition

(i) Rental income

Rental income is recognized on a straight-line basis over the periods of the leases.

(ii) Rendering of services

Services income is recognized when the services are rendered and billed to clients.

(iii) Dividend income

Dividend income from investments is recognized when the right to receive payment have been established.

(iv) Interest income

Interest income is recognized on a time proportion basis, by reference to the principal outstanding and at the effective interest applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

(q) Foreign currencies

The functional and presentation currency of the Company, subsidiaries and associates which operate in Hong Kong is in Hong Kong dollars. Certain overseas subsidiaries and associates which operate overseas are in their respective local currencies.

Foreign currency transactions are recorded at the applicable exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the year end date are translated at the applicable rates ruling at that date. Exchange differences are dealt with in profit or loss. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

On consolidation, the statement of profit or loss of overseas subsidiaries and associates are translated into Hong Kong dollars at the weighted average exchange rates for the year, and their statements of financial position are translated into Hong Kong dollars at the exchange rates ruling at the year end date. The resulting translation differences are recognized in other comprehensive income.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2018

1. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(r) Employee benefits

The Group participates in a defined contribution mandatory provident fund retirement benefits scheme in compliance with the Mandatory Provident Fund Schemes Ordinance. The assets of this scheme are held separately from those of the Group and administered independently. The Group's contributions are recognized in the statement of profit or loss when incurred. The amount of contributions by the Group is based on a specified percentage of the monthly relevant income of the eligible employees. Forfeited contributions of the fund will be used to reduce the existing retirement scheme costs.

(s) Taxation

Income tax expense represents the sum of the tax currently payable and the deferred tax.

The tax currently payable is based on the taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of profit or loss because it excludes items of income or expenses that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted at the reporting date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences, and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the assets to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realized. Deferred tax is recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2018

1. SIGNIFICANT ACCOUNTING POLICIES *(continued)*

(s) Taxation *(continued)*

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income tax levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(t) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalized as part of the cost of those assets. Capitalization of such borrowing costs ceases when the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognized on a time apportionment basis, taking into account the principal and the effective interest rates. They are charged to the profit or loss in the period in which they are incurred.

(u) Related parties

(i) A person or a close member of that person's family is related to the Group if that person:

- (1) has control or joint control over the Group;
- (2) has significant influence over the Group; or
- (3) is a member of key management personnel of the Group or the Group's holding company.

(ii) An entity is related to the Group if any of the following conditions apply:

- (1) The entity and the Group are members of the same Group (which means that each holding company, subsidiary and fellow subsidiary is related to the others).
- (2) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (3) Both entities are joint ventures of the same third party.
- (4) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (5) The entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group.

(u) Related parties *(continued)*

- (ii) An entity is related to the Group if any of the following conditions apply: *(continued)*
 - (6) The entity is controlled or jointly controlled by a person identified in (i).
 - (7) A person identified in (i)(1) has significant influence over the entity or is a member of key management personnel of the entity (or of the holding company of the entity).
 - (8) The entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the holding company of the reporting entity.

2. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 1, the directors of the Company are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgments in applying accounting policies

The following are the critical judgments, apart from these involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognized in the consolidated financial statements.

Deferred taxation on investment properties

For the purposes of measuring deferred tax liabilities arising from investment properties of subsidiaries and associates that are measured using the fair value model, the directors of the Company have reviewed the Group's investment properties portfolio and concluded that the fair value of the Group's investment properties located in Hong Kong will be recovered through sale. Therefore, in measuring the Group's deferred taxation on investment properties located in Hong Kong, the directors of the Company have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is not rebutted.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2018

2. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(continued)*

Deferred taxation on investment properties *(continued)*

For the Group's investment properties located in the People's Republic of China ("PRC"), the directors of the Company concluded that they are being held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. Therefore, in determining the Group's deferred taxation arising from investment properties located in the PRC, the directors of the Company determined that the presumption that investment properties measured using the fair value model are recovered through sale is rebutted.

As a result, the Group has not recognized any deferred tax on changes in fair value of investment properties located in Hong Kong as the Group is not subject to any income taxes on disposal of its investment properties. In respect of those investment properties located in the PRC, the Group recognized additional deferred taxes relating to Enterprise Income Tax upon disposal on changes in fair value of such investment properties as appropriate.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year.

Valuation of investment properties

At the end of the reporting period, the Group's investment properties are stated at fair value of HK\$7,158,000,000 (2017: HK\$6,675,600,000) based on the valuations conducted by AA Property Services Limited, independent professional valuers, with reference to market evidence of transaction prices for similar properties in the same location and conditions and where appropriate by capitalization of rental income from properties.

In relying on the valuations, the management of the Group has exercised their judgments and is satisfied that the method of valuation is reflective of the current market conditions. Details of the carrying amounts of investment properties as at 31 March 2018 are disclosed in note 12.

Valuation of available for sale investments

At the end of the reporting period, the Group's available for sale investments are stated at fair value of HK\$530,141,000 (2017: HK\$513,740,000) based on market-observable data to the extent it is available. When level 1 inputs are not available, the Group establishes appropriate valuation techniques and inputs for level 2 and level 3 fair value measurements.

In relying on the valuations, the management of the Group has exercised their judgements and is satisfied that the method of valuation is reflective of current market conditions. Details of the carrying amounts of available for sale investments as at 31 March 2018 are disclosed in note 14.

3. SEGMENT INFORMATION

Segment information is presented in respect of the Group's primary business segments. In accordance with the internal financial reporting of the Group provided to the chief operating decision maker (i.e. Board of Directors) for the purposes of allocating resources to segments, assessing their performance and making strategic decisions, the operating and reportable segments are:

- (i) property and hotels – investment in property and hotels that earn rental and hotel operating income; and
- (ii) investments and others – other investments that generate dividend and interest income.

The following is an analysis of the Group's turnover and result by reportable and operating segments for the year under review:

Segment Result

For the year ended 31 March 2018 (31 March 2017)

12. INVESTMENT PROPERTIES (continued)

Investment properties have been valued at 31 March 2018 and 2017 by AA Property Services Limited, independent professional valuers, who have recognized relevant professional qualifications and experiences in valuation of properties. The directors of the Company had on-going discussions with the surveyors upon producing the valuation reports in respect of valuation assumption use and other inputs relevant for the valuations of the Group's investment properties.

The following table presents the investment properties measured at fair value at 31 March 2018 and 2017 on a recurring basis, categorized into level 3 under the fair value hierarchy as defined in HKFRS 13, Fair Value Measurement. Inputs used in determining fair value measurement are categorized into different levels based on the extent of observable and unobservable inputs being used in the valuation technique.

14. AVAILABLE FOR SALE INVESTMENTS (continued)

The unlisted equity investments at fair value outside Hong Kong consist of two major investments. The first investment is a 9.75% ownership in a Malaysian private company with principal operation in property development in Malaysia (“Malaysian Investment”). The fair value of the investment as at 31 March 2018 was HK\$105,537,000 (2017: HK\$51,045,000). The other investment is a 4% ownership in a British Virgin Islands incorporated company which indirectly holds an investment property in Shanghai, PRC for rental income (“Shanghai Investment”). The fair value of this investment as at 31 March 2018 was HK\$91,022,000 (2017: HK\$60,923,000).

The fair value measurement of the Malaysian Investment was classified as level 3 as at 31 March 2017 and was measured using discounted cash flow model. However, the measurement was changed from level 3 to level 2 as at 31 March 2018 because there was a sale of ownership by other shareholder in April 2018, thus the directors of the Company considered measuring fair value with reference to recent market transaction in 2018 is most appropriate reflecting the investment value to the extent it is available, of which the sale price was a level 2 inputs.

The fair value measurement of the Shanghai Investment was classified as level 3 of which the significant portion of the fair value of the investment comes from the investment property. The fair value of the investment property as at 31 March 2018 amounted to RMB4,411,000,000 (equivalent to approximately HK\$5,408,327,000) (2017: RMB3,876,000,000, equivalent to approximately HK\$4,325,616,000). The fair value of the investment property was measured by an independent valuer engaged by the management of the investee.

Below is a summary of the valuation techniques used and the key inputs to the valuation of the investment property:

Valuation technique	Significant unobservable inputs	Range or weighted average of unobservable inputs	Relationship of unobservable inputs to fair value	
Commercial property	Income capitalization method	Investment yield	5.0%-6.0% (2017: 5.8%-6.5%)	The higher the investment yield, the lower the fair value
	Market rent	Office portion	RMB9.22/m ² /day (2017: RMB8.92/m ² /day)	The higher the market rent, the higher the fair value
		Retail portion	RMB12.12/m ² /day (2017: RMB11.20/m ² /day)

Trade and other payables	5,359	3,318
	2,284,663	2,280,587

The Group's principal financial instruments comprise secured bank loans and cash and short-term deposits and available for sale investments. The main purpose of these financial instruments is to raise finance for the Group's operation. The Group has various other financial assets and liabilities such as trade debtors and trade creditors, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk, liquidity risk and equity price risk. The Board of Directors reviews and agrees policies for managing each of these risks and they are summarized below.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2018

32. FINANCIAL RISKS MANAGEMENT *(continued)*

(b) Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's bank borrowings and short-term bank deposits with a floating interest rate. The interest rates and terms of repayment of the Group's bank borrowings are disclosed in note 21 to the financial statements.

The following table demonstrates the sensitivity to a reasonable possible change in interest rates, with all other variables held constant, of the Group's profit before taxation (through the impact on floating rate borrowings and floating rate bank deposits) and the Group's equity.

	Change in basis points	Change in profit before taxation HK\$'000	Change in equity HK\$'000

32. FINANCIAL RISKS MANAGEMENT *(continued)*

(c) Foreign currency risk

The Group's financial assets and financial liabilities are substantially denominated in Hong Kong dollars or United States dollars. As Hong Kong dollars are pegged to United States dollars, the management considers that the foreign currency risk to the Group is not significant.

The Group's exposure to foreign currency risk is primarily through its investment in available for sale investments and financial assets at fair value which are denominated in Thai baht, Malaysian ringgit, Euro and Canadian dollars. The following table demonstrates the sensitivity at the year end date to a reasonable possible change in the foreign exchange rate, with all other variables held constant, of the Group's profit before taxation and the Group's equity.

	Change in exchange rate %	Change in profit before taxation HK\$'000	Change in equity HK\$'000

32. FINANCIAL RISKS MANAGEMENT (continued)

(d) Credit risk

The Group's exposure to credit risk is mainly attributable to bank deposits and investments. Bank deposits are placed with high-quality financial institutions with good credit ratings. Investments are those listed securities and investment funds of counterparties that have high credit standing, the equity share price movements are closely monitored by the management.

The Group is also exposed to counterparties credit risk from its operating activities, primarily attributable to rental income. The directors of the Company believe that our tenants are having high credit quality and the Group has policy in place to ensure that the properties are rented to tenants with an appropriate credit history. The Group has no concentration of credit risk and had no significant outstanding balances due by tenants at the reporting date. Accordingly, the overall credit risk is considered minimal.

(e) Liquidity risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank facilities.

The maturity profile of the Group's financial liabilities as at the year end date, based on the contracted undiscounted payments, was as follows:

At 31 March 2018

	Weighted average interest rate %	Within 1 year or on demand HK\$'000	1 to 2 years HK\$'000	3 to 5 years HK\$'000	Total HK\$'000

32. FINANCIAL RISKS MANAGEMENT (continued)

(g) Capital management

The primary objective of the Group's capital management is to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximize shareholders' value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes during the years ended 31 March 2018 and 31 March 2017.

The Group monitors capital using a gearing ratio, which is net debt divided by total assets. Net debt includes interest bearing bank borrowings less cash and bank balances. The gearing ratios as at the year end dates were as follows:

	2018	2017
	HK\$'000	HK\$'000
