MANAGEMENT DISCUSSION AND ANALYSIS

Risk of Intense Competition

The Group's Digital Video Business faces intense competition and such competition puts downward pressure on the price of the products of the Digital Video Business. The Group's market position depends on the ability to estimate and manage competition, including the introduction of new or improved products and services, pricing strategies of competitors and preferences of customers. If the Group fails to maintain competitive price of similar products or services or provide distinctive products or services, it may lose its customers to competitors. Moreover, competition may cause reduction in price, gross profit margin and market share of the Group.

Risk of Unstable Electricity Supply

The New Energy Vehicles Business relies on stable supplies of electricity to charge electric vehicles, in order to ensure the stable supply of electricity and lower the electricity cost, the charging session mainly scheduled from mid night to 4 a.m. whereas the social demand of electricity and electricity fee is at the lowest level.

Charging Safety

The most critical risk of the New Energy Vehicles Business is charging safety, the Group has implemented staff manual to guide the staff how to operate the charging piles and the charging piles will stop automatically when abnormal charging incidents happened so as to keep the high safety level.

Foreign Exchange and Currency Risks

The Group has minimal exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in the functional currencies of the Group entities. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

Contingent Liabilities and Capital Commitments

The Group does not have any contingent liability in the Year under review (2017: Nil). The Group had capital commitment of approximately HK\$252,460,000 in the Year under review (2017: approximately HK\$145,440,000).

MANAGEMENT DISCUSSION AND ANALYSIS

Employees Benefit and Expenses

As at 31 December 2018, there were 307 employees (2017: 292 employees) in the Group. The total amount of employee remuneration incurred for the Year was approximately HK\$42,090,000 (2017: approximately HK\$34,298,000). The Group determines employees' remuneration by the work responsibilities, job performance and professional experience. The Group also provides employees on-job training from time to time to upgrade the knowledge, skills and overall caliber of its employees.

BUSINESS REVIEW AND OUTLOOK

The Group is principally engaged in (1) manufacturing and sales of digital television (“**TV**”), high definition liquid crystal display TV and set-top box as well as provision of application of solutions regarding integration of telecommunication TV and internet in the digital video industry (“**Digital Video Business**”); (2) the construction, application and management of new energy vehicles and related products, charging facilities and intelligent management systems (“**New Energy Vehicles Business**”); (3) the application and management of cloud ecological big data industry (“**Cloud Ecological Big Data Business**”); (4) properties development of big data industrial park commercial and residential properties (“**Properties Development**”); and (5) properties investment for rental income from the big data industrial park (“**Properties Investments**”).

Leveraged on the successful operation of the above-mentioned business of the Group, the Group achieved profit attributable to shareholders of approximately HK\$43,690,000 for the year ended 31 December 2018 (2017: approximately HK\$31,641,000), representing a significant increase of approximately 38% as compared with last year.

Despite the continuing intense competition of the Digital Video Business industry, the Group has secured an increase in turnover from the Digital Video Business to approximately HK\$256,988,000 for the year ended 31 December 2018 (2017: approximately HK\$165,788,000), representing a significant increase of approximately 55% as compared with last year.

The development of the New Energy Vehicles Business in 2018 was promising and recorded turnover of approximately HK\$271,205,000 for the year ended 31 December 2018 (2017: approximately HK\$111,249,000), representing a significant increase of approximately 144% as compared with last year. As at 31 December 2018, the Group was operating 24 electric vehicles charging stations in Hangzhou with 2,779 alternating current chargers of 40KW/H, 18 alternating current chargers of 7KW/H, 237 direct current chargers of 60KW/H, 190 direct current chargers of 80KW/H and 20 direct current chargers of 120KW/H in operation. The Group has established 2 electric vehicles charging stations in Wuhan with 15 alternating current chargers of 7KW/H and 16 alternating current chargers of 40KW/H in operation. The Group is establishing two new energy vehicles charging stations in Nanjing with 6 alternating current chargers of 7KW/H, 10 alternating current chargers of 40KW/H and 12 direct current chargers of 60KW/H and 32 direct current chargers of 120KW/H under construction. The Board is of the view that the PRC Government has emphasized on the use of new energy vehicles and reduction in carbon emissions and recently released “關於進一步完善新能源汽車推廣應用財政補貼政策的通知” which mentioned the increase in support to the establishment of the new energy vehicles charging piles and its related operations and hence the New Energy Vehicles Business is with substantial growth potential. The Group will continue to invest in the New Energy Vehicles Business and further establish electric vehicles charging stations in Hangzhou and other provinces in the PRC to capture the electric vehicles charging market shares with the aim to be one of the largest new energy vehicles charging facilities operators in the PRC.

MANAGEMENT DISCUSSION AND ANALYSIS

The Group recorded turnover of approximately HK\$4,956,000 for the year ended 31 December 2018 (2017: approximately HK\$2,227,000) from the Cloud Ecological Big Data Business, representing a significant increase of approximately 123% as compared with last year. Following the completion of the acquisition of 100% equity interest of Hangzhou Changyun Lu Yun Property Limited* (杭州长运绿云置业有限公司), the industrial park in Hangzhou West Lake District Yunqi Cloud-Town (云栖小镇) owned by Hangzhou Changyun Lu Yun Property Limited* (杭州长运绿云置业有限公司), will be the first big data industrial park of the Group. It is expected that the park will establish a “Cloud Ecological System” to build a new generation of information technology (such as AR/VR, face recognition, digital maps, etc.) and communication technology, such as Internet of Things, big data, cloud computing, (Such as 5G, LTE-V, NB-IOT, etc.) throughout the cloud industry park in all aspects, to create the country’s first all-intelligent perception, interoperability cloud ecological park. The Group will co-operate with the local authorities of West Lake District and Yunqi Cloud Town (云栖小镇) as well as famous cloud computing enterprises such as Aliyun (阿里云) and West Lake Electric (西湖电子) to establish big data industrial park and hence to expand the cloud data business market of the Group.

The Directors will continue to (1) closely evaluate the performance of the above mentioned businesses; (2) invest in the New Energy Vehicles Business, the Cloud Ecological Big Data Business and the properties development of big data industrial park; (3) actively explore new businesses or investments; and (4) consider fund raising opportunities which can strengthen the financial position of the Group in order to enhance the value of the Group which will be in the interests of the Company and shareholders as a whole.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

The Board of the Company believes that corporate governance is essential to the success of the Company and has adopted various measures to ensure that a high standard of corporate governance is maintained to safeguard the interests of our shareholders, investors, customers and staff.

The Company has complied with the code provisions (the “**Code Provision(s)**”) of the Corporate Governance Code (the “**CG Code**”) as set out in Appendix 14 of the Rules Governing the Listing of Securities (the “**Listing Rules**”) on the Stock Exchange, except for certain deviations as specified and explained below with considered reasons for such deviations.

1. Under the Code Provision A.2.1 of the CG Code, among others, the roles of chairman and chief executive should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive should be clearly established and set out in writing.

During the Year and up to the date of this report hereof, the posts of chairman and chief executive were vacant. The Board will keep reviewing the current structure of the Board from time to time and should candidates with suitable knowledge, skill, and experience be identified, the Company will make appointments to fill the posts as and when appropriate.

2. Under the Code Provision A.6.7 of the CG Code, the independent non-executive Directors and non-executive directors should attend general meetings and develop a balanced understanding of the views of shareholders. Due to other business engagements, one executive director and three independent non-executive Directors did not attend the annual general meeting (“**AGM**”) held on 4 June 2018.

However, at the AGM, there were at least two executive Directors presented to enable the Board to develop a balanced understanding of the views of the shareholders of the Company.

3. Under the Code Provision E.1.2 of the CG Code, the chairman of the Board should attend the AGM and also invite the chairmen of the audit, remuneration, nomination and any other committees (as appropriate) to attend. In their absence, he should invite another member of the committee or failing this his duly appointed delegate, to attend. These persons should be available to answer questions at the AGM.

Due to other business engagements, the chairman of the audit and remuneration committees did not attend the AGM.

4. Under Code Provision C.2.5 of the CG Code, the Group should have an internal audit function. During the year, the Group conducted a review on the need for setting up an internal audit department. Given the Group’s simple operating structure and the potential cost burden, it was decided that the Group would not set up an internal audit department for the time being and the Board would be directly responsible for risk management and internal control systems of the Group.

The Board has taken remedial steps, actions and measures to make sure that the Company is in all aspects in strict compliance with the Listing Rules and the CG Code.

CORPORATE GOVERNANCE REPORT

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted a code of conduct for securities transactions and dealing (the “**Code of Conduct**”) by Directors on terms no less exacting than the required standard set out in Appendix 10 to Listing Rule (the “**Model Code**”). The Company has made specific enquiry of all Directors as to whether they have complied with the required standard set out in the Model Code and the Code of Conduct during the year ended 31 December 2018.

All the Directors have confirmed that they have complied with the required standards set out in the Model Code and the Code of Conduct throughout the year ended 31 December 2018.

THE BOARD OF DIRECTORS

Composition of the Board

As at 31 December 2018 and up to the date of this report, the composition of the Board was:

Executive Directors:

Mr. Siu Chi Ming
Ms. Wang Liping
Mr. Yin Jianwen

Independent non-executive Directors:

Mr. Wang Ning
Mr. Wu Yinong (*resigned on 17 April 2019*)
Mr. Yuan Qian Fei

To the best knowledge of the Company, there is no financial, business, family or other material/relevant relationships among members of the Board.

The list of Directors of the Company and their roles and functions is posted on the websites of the Company, <http://www.irasia.com/listco/hk/2358>, and the Stock Exchange. Detailed biographies outlining each director’s range of specialist experience and suitability for the successful long-term management of the Group can be found in the Section of “**Directors and Senior Management Profiles**” on pages 9 and 10 of this annual report.

The Role of the Board

The Board formulates overall strategic plans and key policies of the Group, monitors its financial performance, maintains effective oversight over the management, risks assessment, controls over business operations and ensures good corporate governance and compliance with legal and regulatory requirements. The Board members are fully committed to their roles and have acted in good faith to maximise the shareholders’ value in the long run, and have aligned the Group’s goals and directions with the prevailing economic and market conditions. Daily operations and administration are delegated to the management.

CORPORATE GOVERNANCE REPORT

The Board delegates day-to-day operations of the Group to executive Directors and senior management of the Company for different aspects of the business/functions, while reserving certain key matters in making strategic decision for its approval. When the Board delegates aspects of its senior management, it has given clear directions as to the powers of management, in particular, with respect to the circumstances where management shall report back and obtain prior approval from the Board before making decisions or entering into any commitments on behalf of the Company.

Directors' Appointment, Re-election and Removal

Details of the service contracts of each Executive Directors and Independent Non-executive Directors are set out in the header of "**Directors' Service Contracts**" on page 30 of the Directors' Report.

In accordance with the Company's articles of association (the "**Article(s)**"), (i) Directors appointed by the Board to fill a casual vacancy shall hold office until the next following AGM of the Company after appointment and be subject to re-election at such meeting; and (ii) one-third of the Directors for including Executive Directors and Independent Non-executive Directors for the time being (or, if their number is not a multiple of three, the number nearest to but not greater than one-third) are subject to retirement by rotation at every AGM.

Independent Non-executive Directors

In compliance with Rules 3.10(1) and 3.10A of the Listing Rules, the Company has three independent non-executive Directors representing half of the Board. Among the three independent non-executive Directors, Mr. Yuan Qian Fei has appropriate professional qualification in accounting and related financial management expertise as required by Rules 3.10(2) of the Listing Rules. None of the independent non-executive Directors is related to one another.

The independent non-executive Directors are persons of high calibre; with academic and professional qualifications in the fields of accounting, corporate finance and business management. With their experience gained from senior positions held in other companies, they provide strong support towards the effective discharge of the duties and responsibilities of the Board. The independent non-executive Directors do not participate in the day-to-day management of the Company and do not involve themselves in business transactions or relationships with the Company, in order not to compromise their objectivity. In staying clear of any potential conflict of interest, the independent non-executive Directors remain in a position to fulfill their responsibility to provide check and balance to the Board of the Company.

Each of Mr. Wang Ning, Mr. Yuan Qian Fei and Mr. Wu Yinong has entered into a service contract with the Company for a term of one year, subject to re-election by shareholders at the AGM of the Company at least once every three years by rotation. No Director has a service contract which is not determinable by the Group within one year without payment of compensation, other than statutory compensation.

Mr. Wu Yinong has resigned as independent non-executive director, chairman of the nomination committee, member of audit committee and remuneration committee of the Company with effect from 17 April 2019 due to devotion to his personal business development. Following the resignation of Mr. Wu Yinong, the Company has only two independent non-executive directors, two members in Audit Committee which does not meet the requirement under Rule 3.10(1), Rule 3.10A and Rule 3.21 of the Listing Rules. The Company will identify a suitable candidate for the position of independent non-executive director of the Company, chairman of the nomination committee, member of audit committee and remuneration committee within three months from the effective date of resignation of Mr. Wu Yinong to comply with the requirements of Rule 3.10(1), Rule 3.10A and Rule 3.21 of the Listing Rules. Further announcement will be made by the Company as and when appropriate.

CORPORATE GOVERNANCE REPORT

Confirmation of Independence

The Company has received the annual confirmation of independence from all existing independent non-executive Directors in accordance with Rule 3.13 of the Listing Rules.

Directors' Training

According to the Code Provision A.6.5 of the CG Code, all Directors should participate in a programme of continuous professional development to develop and refresh their knowledge and skills to ensure that their contribution to the Board remains informed and relevant. The Company should be responsible for arranging and funding training, placing an appropriate emphasis on the roles, functions and duties of the Directors of the Company.

Directors' training is an ongoing process. During the Year, Directors received regular updates on changes and development to the Group's business and to legislative and regulatory environments in which the Group operate. All Directors are encouraged to attend external forum or training courses on relevant topics when count towards continuous professional development training. The Directors also disclose to the Company their interests as Directors or other offices in other public companies in a timely manner and provide updates to the Company on any subsequent changes.

Board Meetings and Board Practices

The Board holds at least four meetings a year. The Board conducts meeting on a regular basis and on an ad hoc basis, as required by business needs. All Directors are invited to attend the Board meetings in person or by telephone conference.

CORPORATE GOVERNANCE REPORT

Sufficient notices for regular Board meetings and notice of reasonable notice for non-regular Board meetings were given to all Directors so as to ensure that each of them had an opportunity to attend the meetings. Board papers will be given to the Board before the date of the Board meeting by the Company Secretary.

If a substantial shareholder or a Director has a conflict of interest in a matter, the matter will be dealt by a physical Board meeting rather than a written resolution.

BOARD DIVERSITY POLICY

The Company has adopted a board diversity policy which sets out the approach to achieve and maintain diversity on the Board in order to enhance the effectiveness of the Board.

The Company seeks to achieve Board diversity through the consideration of several factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. All Board appointments will be based on meritocracy, and candidates will be considered against objective criteria, having due regard for the benefits of diversity on the Board.

Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, professional experience, skills and knowledge. The ultimate decision will be made upon the merits and contribution that the selected candidates will bring to the Board.

The Nomination Committee will review the board diversity policy from time to time to ensure its continued effectiveness. For the purpose of implementation of the board diversity policy, the following measurable objectives were adopted:

1. at least one-third of the members of the Board shall be independent non-executive Directors; and
2. at least one of the members of the Board shall have obtained accounting or other professional qualifications.

The Board has achieved the measurable objectives in the board diversity policy.

As at the date of this Annual Report, the Board comprises six Directors. Three of them are independent non-executive Directors, thereby promoting critical review and control of the management process. The Board is also characterized by significant diversity, whether considered in terms of gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service.

During the Year, the Board held totally four meetings and reviewed, inter alia, the performance and formulated business strategy of the Group; reviewed and approved the annual and interim results of the Group for the year ended 31 December 2017 and six months ended 30 June 2018 respectively; approved the ESG report for the year ended 2017 and proposed acquisition of a target company.

CORPORATE GOVERNANCE REPORT

Company Secretary

The Company Secretary, Mr. Siu Chi Ming ("**Mr. Siu**"), is responsible for facilitating the Board process, as well as the communications among the Board members, shareholders and management. Mr. Siu also prepares detailed minutes of each meeting. Board minutes would be sent to the Board for comments as soon as practicable. Mr. Siu reports directly to the Board. All Directors also have access to the advice and services of the Company Secretary to ensure that all applicable laws, rules and regulations are followed.

During the Year, Mr. Siu undertook over 15 hours of professional training to update his skills and knowledge.

Access to information

All Directors are kept informed major changes of the Group's business from time to time. They have unrestricted access to the advices from the Company Secretary who is responsible to provide the Board papers and related materials.

Minutes of Board Meeting and Board Committee meetings are kept by the Company Secretary and are open for inspection by any Director. The Directors including independent non-executive Directors may seek legal advices at the Company's expenses to discharge their duties.

CORPORATE GOVERNANCE REPORT

RISK MANAGEMENT AND INTERNAL CONTROL

Under the Code Provision C.2.5 of the CG Code, the Group should have an internal audit function. The Group conducted an annual review on the need of establishing an internal audit department. Given the Group's simple operating structures, it was decided that the Board would be directly responsible for risk management and internal control systems of the Group. Procedures have been designed for safeguarding assets against unauthorized use or disposition, ensuring the maintenance of proper accounting records for the provision of reliable financial information for internal use or for publication, and ensuring compliance with applicable laws, rules and regulations. The procedures provide reasonable but not absolute assurance against material errors, losses or fraud.

The key procedures that the Board has established to provide effective internal control are as follows:

- The Company has established Internal Control Policies and Procedures Manual (the "**IC Manual**") and has a checklist to ensure the compliance with the principles and the code provisions set out in the CG Code in Appendix 14 to the Listing Rules.
- Monthly management reporting system providing financial and operational performance indicators to the management and Directors with financial reporting procedures and time frame for result announcements have been established.
- Formal investment policy states the details of guidelines and procedures to be done for the proposed investment, for every proposed investment, a detail list of documents is needed to provide to the managements and Directors.
- Management structure with defined roles, responsibilities and reporting lines are established. Delegated authorities are documented and communicated.
- Several responsible persons are assigned to handle different accounting procedures for every proposed investment.
- System and procedures to identify, measure, manage and control risks including liquidity, credit, regulatory and operational risks that may have an impact on the Group.

The Board through the Audit Committee had conducted an annual review on the risk management and internal control systems of the Group. The review covered material controls, including financial, operational and compliance controls and risk management functions of the Group. Appropriate measures have been put in place to manage the risks. No major issue was raised for improvement. The improvement of the systems of risk management and internal control is an ongoing process and the Board maintains a continuing commitment to strengthen the Group's control environment and processes.

The Company formulated the inside information policy to provide employees with guidelines on reporting and disseminating inside information, confidentiality and compliance with restrictions on trading. The Company regularly reminds the Directors and employees about due compliance with all policies regarding the inside information.

CORPORATE GOVERNANCE REPORT

SHAREHOLDERS' RIGHT

Pursuant to Article 58, any one or more shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the Company Secretary, to require an EGM to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within 21 days of such deposit the Board fails to proceed to convene such meeting the requisitionist(s) himself or themselves may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company. The requisition in writing should be sent to the Company's office at Flat 8, 49/F., Office Tower, Convention Plaza, 1 Harbour Road, Wanchai, Hong Kong.

The same procedure also applies to any proposal to be tabled at shareholders' meetings for adoption. The Board will review shareholders' enquires on a regular basis. Specific enquiries and suggestions by shareholders can be sent in writing to the Board or the Company Secretary at the above address.

In case of shareholding enquires, shareholders should direct their enquiries to the Company's Hong Kong branch share registrar and transfer office, Computershare Hong Kong Investor Services Limited, via its online holding enquiry at www.computershare.com/hk, or by email to hkinfo@computershare.com.hk or dial its hotline at (852) 2862-8555 or go in person at its public counter at Room 1712-16, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong.

INVESTOR AND SHAREHOLDER RELATION

The Board recognises the importance of good communications with its shareholders and investors. A Shareholders' Communication Policy setting out the principles of the Company in relation to shareholders' communications, with the objectives of ensuring a transparent and timely communication with shareholders via various means, has been established.

The Company's AGM is a valuable forum for the Board to communicate directly with the shareholders and to answer questions shareholders may raise. Separate resolutions are proposed at general meetings for each substantial issue, including the re-election and election of individual Directors. The detailed procedures of conducting a poll are explained to shareholders at the commencement of the AGM, to ensure that shareholders are familiar with such procedures.

The Company's last AGM was held on Monday, 4 June 2018 at 11:00 a.m. at Flat 8, 49/F., Office Tower, Convention Plaza, 1 Harbour Road, Wanchai, Hong Kong. All the resolutions proposed at that meeting were approved by shareholders of the Company by poll. Ms. Wong Sin Fung (<i>Note 1</i>)	Interest of controlled corporation	600,000,000 (L)	10.96
SOYEA Technology Co., Limited	Beneficial owner	493,206,000 (L)	9.01

Notes:

1. The interest in 600,000,000 shares is deemed corporate interest through Alpha Century Assets Limited.
2. The letter "L" denotes a long position and "S" denotes a short position.

Save as disclosed above, so far as was known to the Directors or chief executive of the Company, no other person (other than a Director or chief executive of the Company) had any interest or short position in the shares or underlying shares of the Company which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO, or was, directly or indirectly, interested in 5% or more of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of any other member of the Group.

SHARE OPTION SCHEME

The maximum number of unexercised share options currently permitted to be granted under the share option scheme ("**the Scheme**") is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period, is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company's shares at the date of the grant) in excess of HK\$5,000,000, within any 12-month period, are subject to shareholders' approval in a general meeting.

DIRECTORS' REPORT

The offer of a grant of share options may be accepted within 21 days from the date of the offer. The exercise period of the share options granted is determinable by the directors, and commences after a certain vesting period and ends on a date which is not later than five years from the date of the offer of the share options or the expiry date of the Scheme, whichever is earlier.

The exercise price of the share options is determinable by the directors, but may not be less than the higher of (i) the Stock Exchange closing price of the Company's shares on the date of the offer of the share options; and (ii) the average Stock Exchange closing price of the Company's shares for the five trading days immediately preceding the date of the offer.

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

During the year, at 31 December 2018 and up to the date of approval of these financial statements, no share options have been granted under the Scheme.

PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's Articles or the Companies Laws (2004 Revision) of the Cayman Islands which would oblige the Company to offer new shares on a pro rata basis to existing shareholders.

Save as disclosed in the share option scheme disclosures in the paragraph headed "**Share Option Scheme**" above, at no time during the year were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company granted to any Director or their respective spouse or minor children, or were any such rights exercised by them; or was the Company, its holding company, or any of its subsidiaries or fellow subsidiaries a party to any arrangement to enable the Directors to acquire such rights in any other body corporate.

CONTINUING CONNECTED TRANSACTIONS

Save as disclosed in Note 41 "Related Party Transactions" to the consolidated financial statements, there was no other connected transaction of the Group that need to be disclosed pursuant to Chapter 14A of the Listing Rules.

CORPORATE GOVERNANCE

The Company is committed to adopt corporate governance practices. The Company's corporate governance principles and practices are set out in the Corporate Governance Report on pages 11 to 23 of this annual report.

ENVIRONMENTAL POLICY AND PERFORMANCE

As a company focused on New Energy Vehicles Business development, environmental conservation is always one of the Group's concerns. Although the Group does not establish a formal environmental policy, various measures have been implemented to encourage in compliance with environmental legislation and promote awareness towards environmental protection to the employees. It implements green office practices such as double-sided printing and copying, promoting using recycled paper and reducing energy consumption by switching off idle lightings and electrical appliances. The Group will review its environmental practices periodically and will consider implementing further eco-friendly measures and practices in the operation of the Group's businesses.

In accordance with Rule 13.91 of the Listing Rules, the Company will publish an Environmental, Social and Governance ("**ESG**") Report within three months after the publication of this annual report in compliance with the provisions set out in the ESG Reporting Guide in Appendix 27 to the Listing Rules.

COMPLIANCE WITH RELEVANT LAWS AND REGULATIONS

During the year ended 31 December 2018, there was no evidence of non-compliance with the relevant laws and regulations that have significant impacts on the Group as far as the Board is aware.

DIRECTORS' REPORT

AUDIT COMMITTEE

The Company has an Audit Committee in compliance with Rule 3.21 of the Listing Rules for the purpose of reviewing and providing supervision over the Group's financial reporting process and internal control system and providing advice and comments to the Board. The Audit Committee consists of three independent non-executive Directors of the Company.

The Audit Committee of the Company has reviewed the annual results of the Group for the Year including the accounting principles and practices adopted by the Company.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF JIU RONG HOLDINGS LIMITED

(incorporated in the Cayman Islands with limited liability)

OPINION

We have audited the consolidated financial statements of Jiu Rong Holdings Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 39 to 103, which comprise the consolidated statement of financial position as at 31 December 2018, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2018, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSA**s”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

We draw attention to Note 2 to the financial statements which mentions that as at 31 December 2018 the Group had net current liabilities of approximately HK\$343,351,000. This condition indicates a material uncertainty which may cast significant doubt on the Group’s ability to continue as a going concern. Our opinion is not modified in respect of this matter.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

(i) Properties held for sale

Refer to Note 25 to the consolidated financial statements.

The Group tested the amount of properties held for sale for impairment. This impairment test is significant to our audit because the balance of properties held for sale of approximately HK\$361,812,000 as at 31 December 2018 is material to the consolidated financial statements. In addition, the Group's impairment test involves application of judgement and is based on assumptions and estimates.

Our audit procedures included, among others:

- Evaluating the Group's impairment assessment;
- Assessing the net realisable values of the properties held for sale;
- Assessing the competence, independence and integrity of the external valuer engaged by client;
- Obtaining the external valuation reports and meeting with the external valuer to discuss and challenge the valuation process, methodologies used and market evidence to support significant judgments and assumptions applied in the valuation model;
- Checking key assumptions and input data in the valuation model to supporting evidence; and
- Checking arithmetical accuracy of the valuation model.

We consider that the Group's impairment test for properties held for sale is supported by the available evidence.

(ii) Investment properties

Refer to Note 18 to the consolidated financial statements.

The Group tested the amount of investment properties for impairment. This impairment test is significant to our audit because the balance of investment properties of approximately HK\$349,187,000 as at 31 December 2018 is material to the consolidated financial statements. In addition, the Group's impairment test involves application of judgement and is based on assumptions and estimates.

INDEPENDENT AUDITOR'S REPORT

Our audit procedures included, among others:

- Evaluating the Group's impairment assessment;
- Assessing the competence, independence and integrity of the external valuer engaged by client;
- Obtaining the external valuation reports and meeting with the external valuer to discuss and challenge the valuation process, methodologies used and market evidence to support significant judgments and assumptions applied in the valuation model;
- Checking key assumptions and input data in the valuation model to supporting evidence; and
- Checking arithmetical accuracy of the valuation model.

We consider that the Group's impairment test for investment properties is supported by the available evidence.

(iii) Property, plant and equipment

Refer to Note 17 to the consolidated financial statements.

The Group tested the amount of property, plant and equipment for impairment. This impairment test is significant to our audit because the balance of property, plant and equipment of approximately HK\$344,294,000 as at 31 December 2018 is material to the consolidated financial statements. In addition, the Group's impairment test involves application of judgement and is based on assumptions and estimates.

Our audit procedures included, among others:

- Evaluating the Group's impairment assessment;
- Assessing the identification of the related cash generating units;
- Assessing the arithmetical accuracy of the value-in-use calculations;
- Comparing the actual cash flows with the cash flow projections;
- Assessing the reasonableness of the key assumptions (including revenue growth, profit margins, terminal growth rates and discount rates); and
- Checking input data to supporting evidence.

We consider that the Group's impairment test for property, plant and equipment is supported by the available evidence.

INDEPENDENT AUDITOR'S REPORT

(iv) Trade and notes receivables

Refer to Note 26 to the consolidated financial statements.

The Group tested the amount of trade and notes receivables for impairment. This impairment test is significant to our audit because the balance of trade and notes receivables of approximately HK\$245,530,000 as at 31 December 2018 is material to the consolidated financial statements. In addition, the Group's impairment test involves application of judgement and is based on estimates.

Our audit procedures included, among others:

- Assessing the Group's procedures on granting credit limits and credit periods to customers;
- Assessing the Group's relationship and transaction history with the customers;
- Evaluating the Group's impairment assessment;
- Assessing ageing of the debts;
- Assessing creditworthiness of the customers;
- Checking subsequent settlements from the customers; and
- Assessing the disclosure of the Group's exposure to credit risk in the consolidated financial statements.

We consider that the Group's impairment test for trade and notes receivables is supported by the available evidence.

(v) Investment in an associate

Refer to Note 20 to the consolidated financial statements.

The Group tested the amount of investment in an associate for impairment. This impairment test is significant to our audit because the balance of investment in an associate of approximately HK\$163,989,000 as at 31 December 2018 is material to the consolidated financial statements. In addition, the Group's impairment test involves application of judgement and is based on estimates.

INDEPENDENT AUDITOR'S REPORT

Our audit procedures included, among others:

- Evaluating the Group's impairment assessment;
- Assessing the competence, independence and integrity of the external valuer engaged by client;
- Obtaining the external valuation reports and meeting with the external valuer to discuss and challenge the valuation process, methodologies used and market evidence to support significant judgments and assumptions applied in the valuation model;
- Checking key assumptions and input data in the valuation model to supporting evidence; and
- Checking arithmetical accuracy of the valuation model.

We consider that the Group's impairment test for investment in an associate is supported by the available evidence.

OTHER INFORMATION

The directors are responsible for the other information. The other information comprises all the information in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

RESPONSIBILITIES OF DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of our responsibilities for the audit of the consolidated financial statements is located at the HKICPA's website at: <http://www.hkicpa.org.hk/en/standards-and-regulations/standards/auditing-assurance/auditre/>. This description forms part of our auditor's report.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

1. GENERAL INFORMATION

Jiu Rong Holdings Limited (the “**Company**”) is a public limited liabilities company incorporated in the Cayman Islands. Its shares are listed on The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”). The address of its registered office is at Century Yard, Cricket Square, Hutchins Drive, P.O.Box 2681 GT., George Town, Grand Cayman, British West Indies. The address of its principal place of business is Flat 8, 49/F., Office Tower, Convention Plaza, 1 Harbour Road, Wan Chai, Hong Kong.

The Company is an investment holding company. The principal activities of its subsidiaries are set out in note 19 to the consolidated financial statements.

The consolidated financial statements are presented in Hong Kong Dollars (“**HK\$**”), unless otherwise stated.

2. GOING CONCERN BASIS

As at 31 December 2018, the Group had net current liabilities of approximately HK\$343,351,000. This condition indicates the existence of a material uncertainty which may cast significant doubt on the Group’s ability to continue as a going concern. Therefore, the Group may be unable to realise its assets and discharge its liabilities in the normal course of business.

Having taken into account (i) the estimated proceeds from the sales of properties in the next twelve months from the end of the financial year; (ii) indication from lenders to postpone the settlement of certain amount of loans due to those lenders to a date after twelve months from the end of the financial year; (iii) the net cash inflow from New Energy Vehicles Business in the next twelve months from the end of the financial year; and (iv) the estimated proceeds from the placing of shares (if any); are satisfied that the Group will have sufficient working capital for its present requirements. The directors are therefore of the opinion that it is appropriate to prepare the consolidated financial statements on a going concern basis. Should the Group be unable to continue as a going concern, adjustments would have to be made to the consolidated financial statements to adjust the value of the Group’s assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets and liabilities as current assets and liabilities, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

3. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

In the current year, the Group has adopted all the new and revised Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) that are relevant to its operations and effective for its accounting year beginning on 1 January 2018. HKFRSs comprise Hong Kong Financial Reporting Standards; Hong Kong Accounting Standards; and Interpretations. The adoption of these new and revised HKFRSs did not result in significant changes to the Group’s accounting policies, presentation of the Group’s consolidated financial statements and amounts reported for the current year and prior years except as stated below.

A. HKFRS 9 (2014) “Financial Instruments”

Financial assets at fair value through profit and loss are now classified as investments at fair value through profit and loss and equity investments at fair value through other comprehensive income.

HKFRS 9 (2014) has been applied retrospectively and resulted in changes in the consolidated amounts reported in the consolidated financial statements as follows:

	31 December 2017 HK\$’000
Increase in equity investments at fair value through other comprehensive income	29,850
Increase in investments at fair value through profit or loss	3,643
Decrease in financial assets at fair value through profit and loss	(33,493)

B. HKFRS 15 “Revenue from Contracts with Customers”

HKFRS 15 has been applied retrospectively and resulted in changes in the consolidated amounts reported in the consolidated financial statements as follows:

	31 December 2017 HK\$’000
Increase in contract liabilities	2,676
Decrease in other payables and accruals	(2,676)

The Group has not applied the new HKFRSs that have been issued but are not yet effective. The Group has already commenced an assessment of the impact of these new HKFRSs but is not yet in a position to state whether these new HKFRSs would have a material impact on its results of operations and financial position.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

4. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA, accounting principles generally accepted in Hong Kong and the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

These consolidated financial statements have been prepared under the historical cost convention, as modified by the investments at fair value through profit and loss which are carried at their fair values.

The preparation of consolidated financial statements in conformity with HKFRSs requires the use of certain key assumptions and estimates. It also requires the directors to exercise its judgements in the process of applying the accounting policies. The areas involving critical judgements and areas where assumptions and estimates are significant to these consolidated financial statements, are disclosed in note 4 to the consolidated financial statements.

The significant accounting policies applied in the preparation of these consolidated financial statements are set out below.

(a) Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31 December. Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The Group has power over an entity when the Group has existing rights that give it the current ability to direct the relevant activities, i.e. activities that significantly affect the entity's returns.

When assessing control, the Group considers its potential voting rights as well as potential voting rights held by other parties, to determine whether it has control. A potential voting right is considered only if the holder has the practical ability to exercise that right.

Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date the control ceases.

The gain or loss on the disposal of a subsidiary that results in a loss of control represents the difference between (i) the fair value of the consideration of the sale plus the fair value of any investment retained in that subsidiary and (ii) the Company's share of the net assets of that subsidiary plus any remaining goodwill relating to that subsidiary and any related accumulated foreign currency translation reserve.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(a) Consolidation (continued)

Intragroup transactions, balances and unrealised profits are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

(b) Associates

Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of an entity but is not control or joint control over those policies. The existence and effect of potential voting rights that are currently exercisable or convertible, including potential voting rights held by other entities, are considered when assessing whether the Group has significant influence. In assessing whether a potential voting right contributes to significant influence, the holder's intention and financial ability to exercise or convert that right is not considered.

Investment in an associate is accounted for in the consolidated financial statements by the equity method and is initially recognised at cost. Identifiable assets and liabilities of the associate in an acquisition are measured at their fair values at the acquisition date. The excess of the cost of acquisition over the Group's share of the net fair value of the associate's identifiable assets and liabilities is recorded as goodwill. The goodwill is included in the carrying amount of the investment and is tested for impairment together with the investment at the end of each reporting period when there is objective evidence that the investment is impaired. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition is recognised in consolidated profit or loss.

The Group's share of an associate's post-acquisition profits or losses is recognised in consolidated profit or loss, and its share of the post-acquisition movements in reserves is recognised in the consolidated reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

Unrealised profits on transactions between the Group and its associates are eliminated to the extent of the Group's interests in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) Foreign currency translation

(i) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "**functional currency**"). The consolidated financial statements are presented in Hong Kong Dollars, which is the Company's presentation currency and functional currency.

(ii) *Transactions and balances in each entity's financial statements*

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

(iii) *Translation on consolidation*

The results and financial position of all the Group entities that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- All resulting exchange differences are recognised in the foreign currency translation reserve.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities and of borrowings are recognised in the foreign currency translation reserve. When a foreign operation is sold, such exchange differences are recognised in consolidated profit or loss as part of the gain or loss on disposal.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual values over the estimated useful lives on a straight-line basis. The estimated useful lives are as follows:

Medium term leasehold buildings	50 years or over the lease terms, whichever is shorter
Plant and machinery	4 – 15 years
Motor vehicles	6 years
Leasehold improvement	4 – 9 years

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period.

Construction in progress represents plant and machinery under construction and pending installation, and is stated at cost less impairment losses. Depreciation begins when the relevant assets are available for use.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

(e) Investment properties

Investment properties are land and/or buildings held to earn rentals and/or for capital appreciation. An investment property (including property that is being constructed or developed for future use as investment property) is measured initially at its cost including all direct costs attributable to the property.

After initial recognition, the investment property is stated at cost less accumulated depreciation and impairment losses. The depreciation is calculated using the straight line method to allocate the cost to the residual value over its estimated useful life of 32 years.

(e) Investment properties (continued)

The gain or loss on disposal of an investment property is the difference between the net sales proceeds and the carrying amount of the property, and is recognised in profit or loss.

(f) Leases

The Group as lessee

(i) Operating leases

Leases that do not substantially transfer to the Group all the risks and rewards of ownership of assets are accounted for as operating leases. Lease payments (net of any incentives received from the lessor) are recognised as an expense on a straight-line basis over the lease term.

The Group as lessor

(i) Operating leases

Leases that do not substantially transfer to the lessees all the risks and rewards of ownership of assets are accounted for as operating leases. Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

(g) Properties for sale under development

Properties for sale under development are stated at the lower of cost and net realisable value. Costs include acquisition costs, prepaid land lease payments, construction costs, borrowing costs capitalised and other direct costs attributable to such properties. Net realisable value is determined by reference to sale proceeds received after the reporting period less selling expenses, or by estimates based on prevailing market condition. On completion, the properties are reclassified to properties held for sale at the then carrying amount.

(h) Properties held for sale

Properties held for sale are stated at the lower of cost and net realisable value. Costs of properties include acquisition costs, prepaid land lease payments, construction costs, borrowing costs capitalised and other direct costs attributable to such properties. Net realisable value is determined by reference to sale proceeds received after the reporting period less selling expenses, or by estimates based on prevailing market condition.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted average basis. The cost of finished goods and work in progress comprises raw materials, direct labour and an appropriate proportion of all production overhead expenditure, and where appropriate, subcontracting charges. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

(j) Recognition and derecognition of financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets are derecognised when the contractual rights to receive cash flows from the assets expire; the Group transfers substantially all the risks and rewards of ownership of the assets; or the Group neither transfers nor retains substantially all the risks and rewards of ownership of the assets but has not retained control on the assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in profit or loss.

(k) Financial assets

Financial assets are recognised and derecognised on a trade date basis where the purchase or sale of an asset is under a contract whose terms require delivery of the asset within the timeframe established by the market concerned, and are initially recognised at fair value, plus directly attributable transaction costs except in the case of investments at fair value through profit or loss. Transaction costs directly attributable to the acquisition of investments at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets of the Group are classified under the following categories:

- Financial assets at amortised cost;
- Equity investments at fair value through other comprehensive income; and
- Investments at fair value through profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) Financial assets (continued)

(i) *Financial assets at amortised cost*

Financial assets (including trade and other receivables) are classified under this category if they satisfy both of the following conditions:

- the assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

They are subsequently measured at amortised cost using the effective interest method less loss allowance for expected credit losses.

(ii) *Equity investments at fair value through other comprehensive income*

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments that are not held for trading as at fair value through other comprehensive income.

Equity investments at fair value through other comprehensive income are subsequently measured at fair value with gains and losses arising from changes in fair values recognised in other comprehensive income and accumulated in the equity investment revaluation reserve. On derecognition of an investment, the cumulative gains or losses previously accumulated in the equity investment revaluation reserve are not reclassified to profit or loss.

Dividends on these investments are recognised in profit or loss, unless the dividends clearly represent a recovery of part of the cost of the investment.

(iii) *Investments at fair value through profit or loss*

Financial assets are classified under this category if they do not meet the conditions to be measured at amortised cost and the conditions of debt investments at fair value through other comprehensive income unless the Group designates an equity investment that is not held for trading as at fair value through other comprehensive income on initial recognition.

Investments at fair value through profit or loss are subsequently measured at fair value with any gains or losses arising from changes in fair values recognised in profit or loss. The fair value gains or losses recognised in profit or loss are net of any interest income and dividend income. Interest income and dividend income are recognised in profit or loss.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(l) Loss allowances for expected credit losses

The Group recognises loss allowances for expected credit losses on financial assets at amortised cost. Expected credit losses are the weighted average of credit losses with the respective risks of a default occurring as the weights.

At the end of each reporting period, the Group measures the loss allowance for a financial instrument at an amount equal to the expected credit losses that result from all possible default events over the expected life of that financial instrument (“**lifetime expected credit losses**”) for trade receivables, or if the credit risk on that financial instrument has increased significantly since initial recognition.

If, at the end of the reporting period, the credit risk on a financial instrument (other than trade receivables) has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to the portion of lifetime expected credit losses that represents the expected credit losses that result from default events on that financial instrument that are possible within 12 months after the reporting period.

The amount of expected credit losses or reversal to adjust the loss allowance at the end of the reporting period to the required amount is recognised in profit or loss as an impairment gain or loss.

(m) Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents represent cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term highly liquid investments which are readily convertible into known amounts of cash and subject to an insignificant risk of change in value. Bank overdrafts which are repayable on demand and form an integral part of the Group’s cash management are also included as a component of cash and cash equivalents.

(n) Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument under HKFRSs. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(o) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(p) Trade and other payables

Trade and other payables are stated initially at their fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

(q) Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(r) Revenue from contracts with customers

Revenue is measured based on the consideration specified in a contract with a customer with reference to the customary business practices and excludes amounts collected on behalf of third parties. For a contract where the period between the payment by the customer and the transfer of the promised product or service exceeds one year, the consideration is adjusted for the effect of a significant financing component.

The Group recognises revenue when it satisfies a performance obligation by transferring control over a product or service to a customer. Depending on the terms of a contract and the laws that apply to that contract, a performance obligation can be satisfied over time or at a point in time. A performance obligation is satisfied over time if:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance;
- the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If a performance obligation is satisfied over time, revenue is recognised by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the customer obtains control of the product or service.

(s) Other revenue

- (i) Interest income is recognised on a time-proportion basis using the effective interest method.
- (ii) Rental income is recognised on a straight-line basis over the lease term.

(t) Employee benefits

(i) *Employee leave entitlements*

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) *Pension obligations*

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged to profit or loss represents contributions payable by the Group to the funds.

(iii) *Termination benefits*

Termination benefits are recognised at the earlier of the dates when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs and involves the payment of termination benefits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(u) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation is determined by applying a capitalisation rate to the expenditures on that asset. The capitalisation rate is the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset.

All other borrowing costs are recognised in the profit or loss in the period in which they are incurred.

(v) Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants relating to income are deferred and recognised in profit or loss over the period to match them with the costs they are intended to compensate.

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Government grants relating to the purchase of assets are deducted from the carrying amount of the assets. The grant is recognised in profit or loss over the life of a depreciable asset by way of a reduced depreciation charge.

Government grants relating to the purchase of assets are recorded as deferred income and recognised in profit or loss on a straight-line basis over the useful lives of the related assets.

Repayment of a grant related to income is applied first against any unamortised deferred income set up in respect of the grant. To the extent that the repayment exceeds any such deferred income, or where no deferred income exists, the repayment is recognised immediately in profit or loss. Repayment of a grant related to an asset is recorded by increasing the carrying amount of the asset or reducing the deferred income by the amount repayable. The cumulative additional depreciation that would have been recognised in profit or loss to date in the absence of the grant is recognised immediately in profit or loss.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(w) Taxation

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

(x) Related parties

A related party is a person or entity that is related to the Group.

- (a) A person or a close member of that person's family is related to the Group if that person:
- (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Company or of a parent of the Company.
- (b) An entity is related to the Group (reporting entity) if any of the following conditions applies:
- (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employers are also related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Company or to a parent of the Company.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(y) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purpose of allocating resources to, and assessing the performance of the Group's various lines of business in different geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

(z) Impairment of assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets except deferred tax assets, investments, inventories and receivables to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

(aa) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

(ab) Events after the reporting period

Events after the reporting period that provide additional information about the Group's position at the end of the reporting period or those that indicate the going concern assumption is not appropriate are adjusting events and are reflected in the financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes to the financial statements when material.

5. KEY ESTIMATES

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

(a) *Impairment of properties held for sale*

Properties held for sale are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets exceeds its recoverable amount. The recoverable amount is determined with reference to the fair value less costs of disposal. Where the fair value less costs of disposal are less than expected or there are unfavourable events and change in facts and circumstance which result in revision of fair value less costs of disposal, a material impairment loss may arise.

(b) *Impairment of investment properties*

Investment properties are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets exceeds its recoverable amount. The recoverable amount is determined with reference to the fair value less costs of disposal. Where the fair value less costs of disposal are less than expected or there are unfavourable events and change in facts and circumstance which result in revision of fair value less costs of disposal, a material impairment loss may arise.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

5. KEY ESTIMATES (continued)

Key sources of estimation uncertainty (continued)

(c) *Impairment of property, plant and equipment*

Property, plant and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets exceeds its recoverable amount. The recoverable amount is determined with reference to the present value of estimated future cash flows. Where the future cash flows are less than expected or there are unfavourable events and change in facts and circumstance which result in revision of future estimate cash flows, a material impairment loss may arise.

(d) *Impairment of trade and notes receivables*

Impairment of trade and notes receivables is made based on an assessment of the recoverability of trade and notes receivables. The assessment of impairment of receivables involves the use of estimates and judgments. An estimate for doubtful debts is made when collection of the full amount is no longer probable, as supported by objective evidence using available contemporary and historical information to evaluate the exposure. Bad debts are written off as incurred. Where the actual outcome or expectation in the future is different from the original estimates, such differences will affect the carrying amount of trade and notes receivables and thus the impairment loss in the period in which such estimate is changed.

(e) *Impairment of investment in an associate*

The Group assesses whether investment in an associate have suffered any impairment in accordance with the accounting policy. The recoverable amount of investment in an associate have been determined based on value in use calculations or market valuations. These calculations require the use of judgement and estimates, in particular of future revenue or cash flow. Management believes that any reasonable possible deviation from any of these assumptions would not cause the aggregate carrying amounts of investment in an associate to exceed their recoverable amount.

(f) *Property, plant and equipment and depreciation*

The Group determines the estimated useful lives, residual values and related depreciation charges for the Group's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives and residual values of property, plant and equipment of similar nature and functions. The Group will revise the depreciation charge where useful lives and residual values are different to those previously estimated, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

6. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance.

During the reporting period, the capital structure of the Group consist of debt which includes interest-bearing loans and equity attributable to owners of the Company, comprising issued share capital and reserves. The Directors review the capital structure on a regular basis. As part of this review, the Directors consider the cost of capital and the associated risks, and take appropriate actions to adjust the Group's capital structure. The Group's overall strategy remains unchanged from prior periods.

7. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign currency risk, interest rate risk, credit risk, liquidity risk and price risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

(a) Foreign currency risk

The Group has minimal exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in the functional currencies of the Group entities. The Group currently does not have a foreign currency hedging policy in respect of foreign currency transactions, assets and liabilities. The Group will monitor its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

(b) Interest rate risk

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group does not consider that it has any significant exposure to the risk of changes in market interest rates from its bank deposits as a reasonably possible change of 25 basis points in the interest rates would have no material impact on the Group's consolidated profit or loss for the years ended 31 December 2018 and 2017.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

7. FINANCIAL RISK MANAGEMENT (continued)

(c) Credit risk

The carrying amount of the cash and bank balances, investments and trade and other receivables included in the consolidated statement of financial position represents the Group's maximum exposure to credit risk in relation to the Group's financial assets.

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to director's approval. Receivable balances are monitored on an ongoing basis to ensure that the Group's exposure to bad debts is not significant.

At the end of the reporting period, the Group had a certain concentration of credit risk as 29.0% (2017: 41.9%) of the total trade receivables was due from the Group's five largest customers. Details of the credit quality of the trade receivables that are neither past due nor impaired were set out in Note 26 to the consolidated financial statements.

Cash and bank balances are deposits at banks with sound credit ratings. Given their high credit ratings, the Group does not expect to have any associated credit risk.

The credit risk on investments is limited because the counterparty is a well-established securities broker firm in PRC.

The Group considers whether there has been a significant increase in credit risk of financial assets on an ongoing basis throughout each reporting period by comparing the risk of a default occurring as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. Especially the following information is used:

- internal credit rating;
- significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of borrowers.

A significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment. A default on a financial asset is when the counterparty fails to make contractual payments within 60 days of when they fall due.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. The Group normally categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than 360 days past due. Where loans or receivables have been written off, the Group, if practicable and economical, continues to engage in enforcement activity to attempt to recover the receivable due.

7. FINANCIAL RISK MANAGEMENT (continued)

(c) Credit risk (continued)

The Group uses two categories for non-trade loan receivables which reflect their credit risk and how the loan loss provision is determined for each of the categories. In calculating the expected credit loss rates, the Group considers historical loss rates for each category and adjusts for forward looking data.

Category	Definition	Loss provision
Performing	Low risk of default and strong capacity to pay	12 month expected losses
Non-performing	Significant increase in credit risk	Lifetime expected losses

The Group's loan receivable is considered to have low risk and under the "Performing" category because the debtor has a low risk of default and has strong ability to meet his obligations.

(d) Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The maturity profile of the Company's financial liabilities as at the end of reporting period, based on the contracted undiscounted payments, was as follows:

2018

	On demand/ less than 1 year HK\$'000	Between 1 and 2 years HK\$'000	Between 2 and 5 years HK\$'000	Over 5 years HK\$'000	Total undiscounted cash flow HK\$'000	Carrying amounts HK\$'000

(e) Price risk

The Group's equity investments at fair value through other comprehensive income are measured at fair value at the end of each reporting period. Therefore, the Group is exposed to equity security price risk. The directors manage this exposure by maintaining a portfolio of investments with difference risk profiles.

At 31 December 2018, if the share prices of the investments increase/decrease by 10%, the investment revaluation reserve would have been approximately HK\$2,756,000 (2017: HK\$2,985,000) higher/lower, arising as a result of the fair value gain/loss of the investments.

(g) Fair value

Fair value estimates are made at a specific point in time and are based on relevant market information and information about the financial instruments. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The carrying amounts of the Group's financial assets and financial liabilities as reflected in the consolidated statement of financial position approximate their respective fair values.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2018

8. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.

Level 2 inputs: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs: unobservable inputs for the asset or liability.

The Group's policy is to recognise transfers into and transfers out of any of the three levels as of the date of the event or change in circumstances that caused the transfer.

9. REVENUE AND OPERATING SEGMENT INFORMATION

(a) Reportable segments

The chief operating decision-maker has been identified as the Board of Directors. The Board of Directors reviews the Group's internal reporting in order to assess performance and allocate resources. The Group determines its operating segments based on the reports reviewed by the chief operating decision-maker that are used to make strategic decisions.

The Group has five (2017: five) reportable segments. The segments are managed separately as each business segment offers different products and requires different business strategies. The following summary describes the operations in each of the Group's reportable segments:

- (i) Digital Video Business: manufacturing and sales of digital television ("TV"), high definition liquid crystal display TV and set-top box as well as provision of application of solutions regarding integration of tele-communication, TV and internet in the digital audio visual industry.
- (ii) New Energy Vehicles Business: construction, application and management of new energy vehicles and related products, charging facilities and intelligent management systems and sales of new energy vehicles spare parts.
- (iii) Cloud Ecological Big Data Business: application and management of cloud ecological big data industry.
- (iv) Properties Development: properties development of an industrial park.
- (v) Properties Investment: properties investment for rental income in an industrial park.

The revenue is analysed as follows:

Revenue	2018 HK\$'000	2017 HK\$'000
Sale of digital video products	256,988	165,788
Provision of new energy vehicles charging services income and sales of new energy vehicles spare parts	271,205	111,249

Digital Video Business

The Group manufactures and sells TV, high definition liquid crystal display TV and set-top box as well as provision of application of solutions regarding integration of telecommunication, TV and internet in the digital audio visual industry. Sales are recognised when control of the products has transferred, being when the products are delivered to a customer, there is no unfulfilled obligation that could affect the customer's acceptance of the products and the customer has obtained legal titles to the products.

Sales to customers are normally made with credit terms of 30 to 360 days. For new customers, deposits or cash on delivery may be required. Deposits received are recognised as a contract liability.

A receivable is recognised when the products are delivered to the customers as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

New Energy Vehicles Business

The Group provides construction, application and management of new energy vehicles and related products, charging facilities, intelligent management systems and sales of new energy vehicles spare parts. The New Energy Vehicles charging services income is recognised when the charging service is rendered and there is no unfulfilled obligation that could affect the customer's acceptance of the service. The charging services incomes are normally made with credit terms of payment on demand.

The sales of new energy vehicles spare parts are recognised when control of the products has transferred, being when the products are delivered to a customer, there is no unfulfilled obligation that could affect the customer's acceptance of the products and the customer has obtained legal titles to the products.

A receivable is recognised when the products are delivered to the customers as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

Non-current assets	38,651	29,850

Note: During the year, the Group invested RMB10,000,000 for 20% interest in an investment fund (the "Fund") which is managed by a fund manager (the "Fund Manager") and the Fund invested in several PRC incorporated companies (the "PRC Companies"). After the Fund Manager assessment, as the PRC Companies are still in early operational stage, the cost of the Fund approximated its fair value as at 31 December 2018 since there is insufficient and recent information available to measure fair value.

The above investments are intended to be held for the medium to long-term. Designation of these investments as equity investments at fair value through other comprehensive income can avoid the volatility of the fair value changes of these investments to the profit or loss.

37. RESERVES (continued)

(c) Nature and purpose of reserves

(i) *Share premium account*

Under the Companies Law of the Cayman Islands, the funds in the share premium account of the Company are distributable to the shareholders of the Company provided that immediately following the date on which the dividend is proposed to be distributed, the Company will be in a position to pay off its debts as they fall due in the ordinary course of business.

(ii) *Contributed surplus*

The Group's contributed surplus represents the difference between the nominal value of the shares of the subsidiaries acquired pursuant to the group reorganisation, over the nominal value of the Company's shares issued in exchange therefore.

(iii) *Statutory surplus reserve*

In accordance with the relevant regulation in the PRC, the subsidiaries operating in the PRC are required to transfer 10% of their profits after tax, as determined under the accounting regulations in the PRC, to the statutory surplus reserve, until the balance of the fund reaches 50% of their respective registered capital. The statutory surplus reserve and the expansion reserve are non-distributable, and are subject to certain restrictions set out in the relevant regulations in the PRC. These reserves can be used either to offset against accumulated losses or be capitalised as paid-up capital. However, such balance of the statutory surplus reserve must be maintained at a minimum of 25% of paid-up capital after the above mentioned usages.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

38. SHARE OPTION SCHEME

Pursuant to an ordinary resolution passed at an annual general meeting of the Company held on 29 May 2014, the Company approved and adopted a share option scheme (the “**Scheme**”). The purpose of the Scheme is to provide incentives and/or rewards to any director, consultant, advisor person including full-time or part-time employee of the Company and its subsidiaries, at the sole discretion of the board, for their contribution to, and their continuing efforts to promote the interests of the Company. The Scheme became effective on 30 May 2014 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The Scheme

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period, is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders’ approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company’s shares at the date of the grant) in excess of HK\$5,000,000, within any 12-month period, are subject to shareholders’ approval in a general meeting.

The offer of a grant of share options may be accepted within 21 days from the date of the offer. The exercise period of the share options granted is determinable by the directors, and commences after a certain vesting period and ends on a date which is not later than five years from the date of the offer of the share options or the expiry date of the Scheme, whichever is earlier.

The exercise price of the share options is determinable by the directors, but may not be less than the higher of (i) the Stock Exchange closing price of the Company’s shares on the date of the offer of the share options; and (ii) the average Stock Exchange closing price of the Company’s shares for the five trading days immediately preceding the date of the offer.

Share options do not confer rights on the holders to dividends or to vote at shareholders’ meetings.

During the year, at 31 December 2018 and up to the date of approval of these consolidated financial statements, no share options have been granted under the Scheme.
