suspended in operation

In terms of production and operation sector, in the face of unfavourable factors such as the increasingly fierce competition in the solid waste market and the continuous backslide of environmental protection policies, the Group vigorously expanded the sources of waste and coordinated business, and achieved notable growth in revenues from coordinated sludge treatment and heating and steam supply, with the operation showing the trend of stable improvement. The Group continued its efforts in scientific and technological innovation. In the first half of the year, the Group initiated 30 research and development projects and was granted 10 patents.

We seek to continuously enhance the utilisation rate of production capacity of the existing projects, implement incremental projects in the market, and create a second growth curve through expanding light asset businesses, including entrusted operation and equipment general contracting, so as to promote the Company's operations to a new level.

The interim condensed consolidated financial information has not been audited, but has been reviewed by the Company’s audit committee.

- (1) Under Code Provision C.1.6, independent non-executive directors and other non-executive directors should also attend general meetings and develop a balanced understanding of the views of shareholders. However, certain independent non-executive directors of the Company were unable to attend the 2024 annual general meeting of the Company due to other business engagements.
- (2) Under Code Provision C.2.1, the roles of chairman and chief executive should be separate and should not be performed by the same individual. With effect from 1 February 2024, Mr. Chen assumes the positions of Chairman of the Board and Chief Executive Officer. The Board considers that such arrangement can bring benefits to the Company’s business development and management at present, and will not impair the balance of power and authority between the Board and the management of the Company.
- (3) Under Code Provision C.2.7, the chairman should at least annually hold meetings with the non-executive directors (including independent non-executive directors) without the executive directors present. However, the Company considers it is more effective for non-executive directors to voice their views by individual communication with the chairman of the board.
- (4) Under Code Provision C.5.1, the board should meet regularly and board meetings should be held at least four times a year at approximately quarterly intervals. However, the Company considers it is more efficient to hold board meetings to address emerging issues as appropriate. Sufficient measures have been taken to ensure that there is efficient communication among the directors.
