1. CORPORATE REVIEW

Cash position

The consolidated cash position of the Group as at 31 March was HK\$115 million.

Corporate

Mr. Colin Paterson, who has been the chief executive officer of Brockman Mining Australia Pty Ltd, a wholly owned subsidiary of the Company, was appointed as an executive director of the Company with effect from 25 February 2015. On the same date, Mr. Warren Talbot Beckwith, who has been an executive director of the Company, was re-designated as a non-executive Director of the Company.

The Company continues to review cost savings measures in both the Hong Kong and Perth offices with a view to reducing overheads, whilst still advancing the Access Proposal.

2. MARILLANA IRON ORE PROJECT (100% INTEREST)

2.1 Rail and port infrastructure

Rail Access

In May 2013, Brockman commenced seeking access rights to The Pilbara Infrastructure Pty Ltd's ("TPI's") below-rail infrastructure under the Western Australian Railways (Access) Code 2000 (WA) ("Code"), to allow it to haul up to 20 Mtpa of hematite iron ore product from its Marillana Iron Ore Project ("Marillana"), for a term of 20 years ("Access Proposal"). The access sought proposed to exit the TPI mainline at Port Hedland where North West Infrastructure ("NWI") has a capacity allocation of 50 Mtpa at the proposed SP3 and the SP4 berths for iron ore export from South West Creek in the Inner Harbour.

As part of the Access Proposal, Brockman will procure the necessary spur lines and associated infrastructure to connect Marillana with the TPI railway and to connect it to the proposed NWI facilities in Port Hedland, which will include unloading, stockpiling and ship loading facilities in South West Creek, Port Hedland.

Since May 2013, significant delays have occurred due to the validity challenge launched by TPI in October 2013. Since having the Supreme Court confirm that Brockman's Access Proposal was valid for the purpose of s 8 of the Code in September 2014, Brockman has continued to progress the required information for the Access Proposal under sections 14 and 15 of the Code.

Brockman continues to investigate alternative infrastructure solutions for the Marillana Project.

North West Infrastructure

Brockman remains focused on protecting its foundation shareholding position, to participate in an NWI port development to utilise the capacity allocation of 50 Mtpa at berths SP3 and SP4 at South West Creek in the Port Hedland harbour. It is not expected that the review undertaken by Atlas Iron Limited will have any impact on NWI at this stage.

3. OPHTHALMIA IRON ORE PROJECT (100% INTEREST)

3.1 Ophthalmia exploration

The Ophthalmia Project, located north of Newman in the East Pilbara region of Western Australia, is the most significant iron ore project for the company outside of its flagship Marillana project.

Exploration activities during the quarter were limited to rehabilitation at Ophthalmia.

3.2 Ophthalmia development

The upgraded Mineral Resources and the excellent conversion from Inferred to Indicated Resources as announced 1 December 2014, support the continuing Pre-Feasibility Study (PFS) for a 15 Mtpa DSO mining operation at Ophthalmia. The PFS for Ophthalmia is scheduled for completion by the end of the June quarter. Work during the current period focussed on the finalisation of in-house mine scheduling aspects of the study. The study has been premised on the assumption that there is a rail and port logistics solution from the Marillana mine through to ocean going vessels. Ophthalmia is approximately 80 km south east of Marillana and rail and road transport options have been considered for up to 15Mtpa.
