**THIRD QUARTERLY RESULTS ANNOUNCEMENT
FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2016**

**CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET
("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED
(THE "STOCK EXCHANGE")**

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

*This announcement, for which the directors (the "**Directors**") of Capital Finance Holdings Limited (the "**Company**") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "**GEM Listing Rules**") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement in this announcement misleading.*

9. DISCONTINUED OPERATIONS (Continued)

The earnings (loss) per share information of the discontinued operations was as follows:

	Three months ended 30 September		Nine months ended 30 September	
	2016 (Unaudited)	2015 (Unaudited) (Restated)	2016 (Unaudited)	2015 (Unaudited) (Restated)
Earnings (Loss) per share from discontinued operations attributable to owners of the Company:				
Basic (Hong Kong cents)	-	0.45	0.14	(1.81)
Diluted (Hong Kong cents)	-	0.18	0.14	(1.81)

The basic and diluted earnings (loss) per share from discontinued operations are calculated by dividing the earnings (loss) from discontinued operations, net of tax, attributable to owners of the Company by the weighted average number of ordinary shares for basic earnings (loss) per share computation and weighted average number of ordinary shares for diluted earnings (loss) per share computation respectively. The denominators used are the same as those detailed in Note 10.

10. (LOSS) EARNINGS PER SHARE

The calculations of basic (loss) earnings per share for the current and prior periods are based on the profit (loss) for the periods attributable to the owners of the Company, and the weighted average number of ordinary shares in issue during the current and prior periods.

The calculations of diluted (loss) earnings per share for the current and prior periods are based on the profit (loss) for the periods attributable to the owners of the Company. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the current and prior periods and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

As the Company's outstanding convertible bonds had an anti-dilutive effect to the basic loss per share calculation for the three and nine months ended 30 September 2016 and nine months ended 30 September 2015, the conversion of the above potential dilutive shares is not assumed in the computation of diluted (loss) earnings per share. Therefore the basic and diluted (loss) earnings per share for the three and nine months ended 30 September 2016 and nine months ended 30 September 2015 are equal.

For the three months ended 30 September 2015, the diluted earnings per share would reduce if the Company's outstanding convertible bonds were taken into account, as those convertible bonds had a dilutive effect to the basic earnings per share and hence the potential dilutive shares is assumed in the computation of diluted earnings per share.

11. GOODWILL (Continued)

Goodwill arising in prior years related to (i) the acquisition of equity interest in China Indonesia Friendship Coal Trading Company Limited ("**CIFC**", together with its 90%-owned subsidiary, China Energy Trading Company Limited ("**China Energy**"), are collectively referred to as the "**CIFC Group**") and was allocated to the coal trading cash generating unit (the "**Coal Trading CGU**"); (ii) the acquisition of Prima Finance Holdings Limited and its subsidiaries (collectively referred to as the "**Prima Finance Group**"); and (iii) the Auto-serve Group because the considerations paid for these acquisitions effectively included amounts in relation to the benefits originated from fast growing pawn broker business, business potential of the consulting business and the software development and sales business, expected synergies, future market development and the assembled workforce of the acquired businesses. These benefits are not recognised separately from goodwill because they do not meet the recognition criteria for identifiable intangible assets. None of the goodwill recognised is expected to be deductible for income tax purposes.

Goodwill attributable to the Coal Trading CGU was fully impaired in prior years and was disposed of during the previous financial period ended 31 December 2015.

Goodwill acquired through business combinations in prior years has been allocated to the CGUs as follows for impairment test:

Short-term Financing CGU: Goodwill-Prima Finance Group.

Software CGU: Goodwill-Auto-serve Group.

Short-term Financing CGU

As at 31 March 2015, in light of keen competition from the internet financing sector and the continuous reduction in the benchmark lending rate and the lowering of reserve requirement ratio as announced by the People's Bank of China, which are expected to have a negative impact on the revenue and growth rate of the Short-term Financing CGU, based on the business value calculation, the recoverable amount of the Short-term Financing CGU fell below its then carrying amount. Accordingly, the goodwill allocated to the Short-term Financing CGU was impaired by approximately HK\$275,934,000 during the nine months ended 30 September 2015 with the key assumptions stated below.

As at 30 September 2016, the Group is of the opinion, with reference to an assessment performed on the similar basis with 30 June 2016 professional valuation performed by Greater China Appraisal Limited, that there is no impairment of goodwill in respect of the Short-term Financing CGU, as its recoverable amount exceeds its carrying value.

The recoverable amounts of the Short-term Financing CGU have been determined from the calculations of fair-value-less-cost-of-disposal based on cash flows projections derived from the financial budgets approved by the management covering a 10-year period, and are extrapolated to cash flows beyond such projected periods.

A 10-year financial budget is adopted for the Short-term Financing CGU because the management is confident on the predictability of the key inputs to the cash flow projection.

11. GOODWILL (Continued)
Software CGU

As at 31 March 2015, the management of the Group is of the opinion, based on the business value calculation, the Software CGU is partially impaired by approximately HK\$7,605,000 which was charged to profit or loss for the nine months ended 30 September 2015 with the key assumptions stated below.

The impairment is mainly due to the increase in fair value of the consideration as a result of increase in the share price of the Company at the date of completion of the acquisition since the negotiation and conclusion of the acquisition consideration, which in turn has resulted in a significant amount of goodwill recognised in connection with the acquisition of the Auto-serve Group.

As at 30 September 2016, no impairment loss on the Software CGU was considered necessarily as the Auto-serve Group in which the Software CGU is attributable to was disposed of during the Period and a gain on disposal was recognised in the profit or loss, details of which are set out in Note 9(c) and Note 13(b).

Other information on fair value measurement of the CGUs

The quantitative information of the significant unobservable inputs and the description of valuation techniques used in the fair value measurement for the CGUs containing goodwill or intangible assets with indefinite useful life, including the sensitivity analysis to changes in unobservable inputs are as follow:

CGUs	Fair value hierarchy	Valuation technique	Unobservable inputs	Relationship of unobservable inputs to fair value
Short-term Financing CGU	Level 3	Income approach	Perpetual growth rate	The higher the perpetual growth rate, the higher the fair value
			Discount rate	The higher the discount rate, the lower the fair value

There were no transfers into or out of level 3 for the above fair value measurement of the CGUs during the Period (2015: Nil).

12. CONTINGENT CONSIDERATION

During the Period, the fair value gain on contingent consideration – consideration shares of approximately HK\$1,141,000 (Nine months ended 30 September 2015: approximately HK\$22,500,000) was attributed to the fair value measurement of contingent consideration – consideration shares of which was valued with reference to the trading price of the Company's shares, the latest financial information of the Auto-serve Group, the Auto-serve Group's financial performance forecast and other relevant indicators.

In relation to the disposal of Auto-serve Group, a termination agreement was entered by the Company and other related parties where the contingent consideration shares payable of approximately HK\$26,241,000 by the Company were terminated on 24 March 2016.
