The unaudited condensed consolidated financial statements have been prepared on the historical cost basis. The unaudited condensed consolidated financial statements are presented in Hong Kong Dollars ("**HK\$**"), which is the functional currency of the Company and its subsidiaries, and all values are rounded to the nearest thousands ("**HK\$'000**"), unless otherwise indicated.

The preparation of the unaudited condensed consolidated financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires the management to exercise its judgement in the process of applying the accounting policies of the Group.

The unaudited condensed consolidated financial statements have not been audited by the Company's auditors, but have been reviewed by the Company's audit committee (the "**Audit Committee**").

In the current period, the Group has adopted all the new and revised HKFRSs issued by the HKICPA that are relevant to its operations and effective for its accounting year beginning on 1 April 2024. 5. SEGMENT INFORMATION

Operating segment information

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the respective segments and to assess its performance.

As the Group principally engages in the provision of foundation work and machinery rental in Hong Kong, which are subject to similar business risks, and resources are allocated based on what is beneficial to the Group in enhancing the value of the Group as a whole, the Group's chief operating decision maker considers the performance assessment of the Group should be based on the loss before tax of the Group as a whole. As the money lending segment does not meet the quantitative thresholds for determining reportable segments. Therefore, management considers there is only one operating segment under the requirements of HKFRS 8 "Operating Segments".

Geographical information

All of the group's revenue, loss before taxation, assets and liabilities were derived from or located in Hong Kong, and therefore no geographical information is presented.

The following disclosures of fair value measurements use a fair value hierarchy that categorises into three levels the inputs to valuation techniques used to measure fair value:

- Level 1 inputs: quoted prices (unadjusted) in active markets for identical assets and liabilities that the Group can assess at the measurement date.
- Level 2 inputs: other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs: unobservable inputs for the asset or liability.

The following table shows the carrying amounts and fair value of financial assets, including their levels in the fair value hierarchy. It does not include fair value information for financial assets not measured at fair value of the carrying amount is a reasonable approximation of fair value. The Directors are of the view that the general outlook of the industry and the business environment in which the Group operates will remain challenging. With rising geopolitical conflicts and tensions, soaring interest rate, inflationary pressure and challenges associated with post-pandemic economic recovery in both the PRC and Hong Kong. "TEADAYE" (茶大椰) is a top-quality coconut tea brand, with unique and diversified products, high-quality source supply chain, well-known cornerstone investors, highly experienced international management team, solid brand reputation and vibrant brand image in Mainland China.

The Group and the Potential Partners are in the process of negotiating possible forms of cooperation, which may involve collaboration of the Group and the Potential Partners in developing China (including Hong Kong, Macau and Taiwan) and Southeast Asia markets for "TEADAYE" (茶大椰), including selection of trustworthy franchisees, supply chain control, operational agency, franchisees' staff supervision and training, and sustenance of operating standards for franchisees.

The Company adopted a share option scheme which became effective on 22 September 2017 (the “**Old Share Option Scheme**”) and, unless otherwise cancelled or amended, would remain in force for 10 years from that date. The Old Share Option Scheme was terminated and a new share option scheme (the “**New Share Option Scheme**”) was adopted on 25 April 2024 (the “**Adoption Date**”) as approved by the shareholders of the Company (the “**Shareholders**”) by way of poll. Subject to the terms therein, the New Share Option Scheme shall remain in force for the 10 years from the Adoption Date, after such period no further share options will be granted but the provisions of the New Share Option Scheme shall remain in full force and effect in respect of any share options granted before its expiry or termination but not yet exercised.

The purpose of the New Share Option Scheme is to enable the Company to grant share options to selected eligible participants as incentives and/or rewards for their contribution or potential contribution to the Company. Eligible participants include directors (the “**Director(s)**”) and employees (full-time or part-time) of the Company or any of its subsidiaries who in the sole discretion of the Board has contributed or will contribute to the Group.

The maximum number of shares of the Company (the “**Share(s)**”) in respect of which options may be granted under the New Share Option Scheme and any other schemes of the Company shall not, in aggregate, exceed 48,000,344 Shares (representing 10% of the Shares in issue as at the Adoption Date), unless otherwise approved by the Shareholders. The maximum number of Shares issuable to each eligible participant under the New Share Option Scheme within any 12-month period is limited to 1% of the Shares in issue at any time, and any further grant of share options in excess of this limit is subject to the Shareholders’ approval in a general meeting. No service provider sublimit had been adopted under the New Share Option Scheme.

The offer of a grant of share options may be accepted within 7 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the Directors, and commences after a certain vesting period (which is usually not less than 12 months) and ends on a date which is not later than 10 years from the date of the offer of the share options or the expiry date of the New Share Option Scheme, if earlier.

The exercise price of the share options is determinable by the Directors, but may not be less than the highest of (i) the closing price of the Shares on the Stock Exchange on the date of the offer of the share options; (ii) the average of the closing prices of the Shares as shown in the daily quotations sheets of the Stock Exchange for the five trading days immediately preceding the date of the offer; and (c) the nominal value of the Shares on the date of the offer.

For the six months ended 30 September 2024, no share option was granted, exercised, expired or lapsed and there was no outstanding share option under the Old Share Option Scheme nor the New Share Option Scheme.
