(Stock Code: 2380)

CONTINUING CONNECTED TRANSACTIONS

Technical Repair and Maintenance Framework Agreement

The Board announces that on 19 December 2013, the Company has entered into the Technical Repair and Maintenance Framework Agreement with CP Maintenance Engineering pursuant to which the parties agreed that the Technicians will provide the Employers, subsidiaries of the Company, with repair and maintenance services for their power generation units and related power generation facilities.

Since the Technicians are indirect subsidiaries of CPI Holding, a controlling shareholder of the Company holding approximately 63.57% of the issued share capital of the Company, the Technicians are therefore connected persons of the Company under the Listing Rules. The transactions contemplated under the Technical Repair and Maintenance Framework Agreement constitute continuing connected transactions of the Company under Chapter 14A of the Listing Rules.

The proposed annual cap of the Technical Repair and Maintenance Framework Agreement for each of the three financial years ending 31 December 2014, 2015 and 2016, is RMB180,000,000 (equivalent to approximately HK\$227,848,000). When it aggregated with the maximum annual cap of the Previous Technical Repair and Maintenance Framework Agreement (which is RMB186,000,000 (equivalent to approximately HK\$235,443,000)), the applicable percentage ratios as defined under Chapter 14 of the Listing Rules fall below 5%, the Framework Agreement is therefore subject to the reporting and announcement requirements but exempt from the independent shareholders' approval under Chapter 14A of the Listing Rules.

Reference is made to the announcement of the Company dated 30 December 2010 in relation to the composite repair and maintenance services agreements which will expire on 31 December 2013.

On 19 December 2013, the Company has entered into the Technical Repair and Maintenance Framework Agreement with CP Maintenance Engineering pursuant to which the parties agreed that the Technicians will provide the Employers, subsidiaries of the Company, with repair and maintenance services for their power generation units and related power generation facilities after the original composite repair and maintenance services agreements expire on 31 December 2013.

TECHNICAL REPAIR AND MAINTENANCE FRAMEWORK AGREEMENT

Date

19 December 2013

Parties

- (i) The Company (representing its subsidiaries, individually the “Employer” or collectively the “Employers”); and
- (ii) CP Maintenance Engineering (representing its subsidiaries, individually the “Technician” or collectively the “Technicians”).

Principal Terms

The term of the Framework Agreement is three years commencing from 1 January 2014 and ending 31 December 2016.

Under the Technical Repair and Maintenance Framework Agreement, the repair and maintenance services for power generation units and related power generation facilities include:

- daily routine repair and maintenance, including protection against frost, heat and other seasonal conditions;
- ongoing technical testing and regular technical improvements to ensure compliance with the requirements and specifications for power generation governed by the relevant PRC authorities;
- planning periodic comprehensive inspection, maintenance, parts replacement, and calibration of measuring apparatus; and
- such other services for the operation of the power generation units and related power generation facilities as agreed between the Employers and the Technicians from time to time.

The service fee payable to relevant Technician from the relevant Employer shall be determined by the following:

- the applicable State tariffs set by the PRC government, if any;
- if there are no such stipulated State tariffs, tariffs recommended by the PRC government;
- if there are neither State tariffs nor recommended tariffs, prices determined in accordance with the tariffs for similar services provided by independent third parties in the prevailing market; and
- in the absence of the above, an agreed price at arm’s length negotiation reflecting the reasonable costs incurred by the relevant Technician in providing the services plus profit basis.

The Employers shall settle the service fee by cash on a monthly basis or payable within 3 months after completion of the required services.

Proposed Annual Cap

It is anticipated that the proposed annual cap of the Technical Repair and Maintenance Framework Agreement for each of the three financial years ending 31 December 2014, 2015 and 2016, is RMB180,000,000 (equivalent to approximately HK\$227,848,000), based on the following factors:

- (a) The historical record;

Actual Usage in 2011 (RMB'000)	Actual Usage in 2012 (RMB'000)	Estimated Usage in 2013 (RMB'000)
122,590	128,870	148,840

- (b) the age, condition and repair and maintenance needs of each power generation unit and facility;
- (c) the expected time cost of technical labour required; and
- (d) the complexity of the repair and maintenance works involved.

The Group will follow the terms set out in the Technical Repair and Maintenance Framework Agreement, the rationale for the proposed annual cap and all the internal control procedures (including quotations from independent third parties) in order to maintain the fairness of the prices and terms of all the relevant services provided by CP Maintenance Engineering are no less favourable than those available from independent third parties.

REASONS AND BENEFITS FOR THE TRANSACTIONS

Repair and maintenance of the power generation units are essential to ensure the safe, effective and efficient operations of the Company's coal-fired power plants. Such repair and maintenance are highly-technical in nature and can only be carried out by engineers and skilled technicians equipped with the relevant technical skills and specialized knowledge. As the relevant Technicians have the relevant technical expertise and specific in-depth knowledge of the relevant power plants of the Company's power generation units and related power generation facilities, the entering into the Technical Repair and Maintenance Framework Agreement will ensure continuity of reliable services, and the safe, effective and efficient operations of the relevant Employers.

The Directors (including the independent non-executive Directors) are of the view that as far as the shareholders of the Company are concerned, the Technical Repair and Maintenance Framework Agreement is entered into in the ordinary course of the Company's business, on normal commercial terms, fair and reasonable and in the interests of the Company and its shareholders as a whole.

None of the Directors has material interest in the transaction of the Technical Repair and Maintenance Framework Agreement or is required to abstain from voting on the Board resolution.

PRINCIPAL BUSINESS OF THE GROUP AND THE TECHNICIANS

The Company is the listed flagship company outside the PRC of CPI Group. The CPI Group is one of the five national power generation groups in China, and operates coal-fired, hydroelectric and nuclear power plants in various locations in the PRC. CPI Holding is wholly-owned by CPI Group. As at the date of this announcement, CPI Group, through CPI Holding, owns approximately 63.57% of the issued share capital of the Company.

The principal business of the Group is to develop, construct, own, operate and manage large power plants in the PRC. The Company owns and operates high-capacity coal-fired power plants and hydro-power plants. The Company also manages on behalf of its controlling shareholder a power plant in the PRC.

The Technicians are indirect subsidiaries of CPI Holding, are principally engaged in the provision of technical repair and maintenance services for power generation units and related power generation facilities.

COMPLIANCE WITH THE LISTING RULES

As at the date of this announcement, CPI Holding owns approximately 63.57% of the issued share capital of the Company. As CPI Holding is the controlling shareholder of the Company, CPI Holding, its subsidiaries and associates both are connected persons of the Company within the meaning of the Listing Rules. Since the Technicians are indirect subsidiaries of CPI Holding, the transactions contemplated under the Technical Repair and Maintenance Framework Agreement constitute continuing connected transactions of the Company under Chapter 14A of the Listing Rules.

The proposed annual cap of the Technical Repair and Maintenance Framework Agreement for each of the three financial years ending 31 December 2014, 2015 and 2016, is RMB180,000,000 (equivalent to approximately HK\$227,848,000). When it aggregated with the maximum annual cap of the Previous Technical Repair and Maintenance Framework Agreement (which is RMB186,000,000 (equivalent to approximately HK\$235,443,000)), the applicable percentage ratios as defined under Chapter 14 of the Listing Rules fall below 5%, the Framework Agreement is therefore subject to the reporting and announcement requirements but exempt from the independent shareholders' approval under Chapter 14A of the Listing Rules.

DEFINITIONS
