China Power International Development Limited

中國電力國際發展有限公司

(incorporated in Hong Kong with limited liability)

(Stock Code: 2380)

Power Generation and Electricity Sold for the First Half of 2016

China Power International Development Limited (the “Company”) announces that based on the Company’s preliminary statistics, for the six months ended 30 June 2016, the combined total power generation of the Company and its subsidiaries (collectively, the “Group”) amounted to 33,823,021MWh, representing an increase of 14.97% over the same period last year while its combined total electricity sold amounted to 32,550,127MWh, representing an increase of 15.35% over the same period last year.

During the first half of 2016, the Group’s hydropower plants principally located in Hunan Province recorded significant growth in power generation was mainly due to the abundant rainfall during the period and optimization of watershed management. In addition, the contribution from the new large capacity coal-fired power generating units as well as the new wind power plant and photovoltaic power stations that commenced operation, led to the increased total power generation and electricity sold in the first half as compared with the corresponding period last year.

The respective total power generation and total electricity sold of the Group’s main power generating units for the six months ended 30 June 2016 are as follows:

Wholly-owned or controlled Power Plant	Total Power Generation (MWh)			Total Electricity Sold (MWh)		
	First Half of 2016	First Half of 2015	Changes	First Half of 2016	First Half of 2015	Changes

Notes:

- (1) The two new coal-fired power generating units of Pingwei III of total installed capacity of 2,000MW commenced commercial operation during May and September 2015 respectively.
- (2) Yaomeng, was formerly named as Yaomeng II.
- (3) The hydropower generation in Sichuan Province continued to squeeze the space for coal-fired power generation of Fuxi, resulted in the significant decline in power generation for the first half of 2016.
- (4) For Wan Mi Po hydropower plant, its electricity sold for the first half of 2016 was higher than that of its power generation because of some electricity sales rewarded by the grid corporation during the period.
- (5) New power generating units that commenced commercial operation:

Power Plant	Type of Power Plant	Installed Capacity (MW)	Timeline for Commercial Operation
Donggangling	Wind power	50	December 2015
Luoyang Yituo	Photovoltaic power	6	March 2016
Jiaoganghu	Photovoltaic power	20	January to June 2016
Shuocheng District	Photovoltaic power	50	May 2016
Datong	Photovoltaic power	100	June 2016

The figures set out in this announcement have not yet been audited and may differ with the final actual figures. **Investors are reminded to exercise caution when dealing in the shares of the Company.**

By order of the Board
China Power International Development Limited
Yu Bing
Executive Director

Hong Kong, 19 July 2016

As at the date of this announcement, the directors of the Company are: executive directors Yu Bing and Wang Zichao, non-executive directors Wang Binghua and Guan Qihong, and independent non-executive directors Kwong Che Keung, Gordon, Li Fang and Tsui Yiu Wa, Alec.
