FOR IMMEDIATE RELEASE

7 July 2006

**Gross Generation and Net Generation of China Power
Increased by 60.55% and 58.59% in the first half of 2006
compared with the corresponding period of 2005**

China Power International Development Limited (the “Company”, Stock Code : 2380) today announced its gross generation and net generation for the six months ended 30 June 2006.

According to its preliminary statistics, the consolidated gross generation of the power plants of the Company (excluding the power plant of its associated company) for the six months ended 30 June 2006 amounted to 11,884,930MWh, representing an increase of 60.55% compared with the same period of last year. Consolidated net generation was 10,988,071MWh, representing an increase of 58.59% compared with the same period of last year.

The increase in the gross generation of the Company for the first half of 2006 was mainly attributable to (1) the acquisition of Shentou I Power Plant and technical upgrades in the first quarter of 2005, as a result of which total installed capacity of the Company increased by 1,260MW compared with the same period of last year; (2) the strong demand for electricity in regions where the power plants of the Company are located; (3) the strengthened management of the production and improved operating conditions of the power generation units. The decrease in the gross generation of the Company for the second quarter of 2006 over the same period of 2005 was mainly attributable to the repair and maintenance work of power plants that were mostly scheduled in the second quarter of the year.

The respective gross generation of the power plants of the Company and its associated company for the six months ended 30 June 2006 was as follows:

	<u>First half of 2006</u> (MWh)	<u>First half of 2005</u> (MWh)	<u>Changes</u>
