10 April 2007

Total Net Generation of China Power for the First Quarter of 2007

China Power International Development Limited (the “Company”, Stock Code: 2380) today announced its total net generation for the first quarter ended 31 March 2007.

According to its preliminary statistics, the consolidated total net generation of the power plants of the Company (excluding the power plant of its associated company) for the first quarter ended 31 March 2007 amounted to 5,245,745 MWh, representing a decrease of approximately 6.55% compared to the same period of last year.

The decrease in the total net generation of the Company in the first quarter of 2007 was mainly attributable to the relatively more maintenance works scheduled for power generation units at Pingwei Power Plant and Yaomeng Power Plant of the Company.

The respective total net generation figures of the power plants of the Company and its associated company for the first quarter ended 31 March 2007 are as follows:
