

For Immediate Release

November 26, 2007

The 2nd Generating Unit of Pingwei Power Plant II of China Power Commenced Commercial Operation

China Power International Development Limited (the "Company", stock code: 2380) today announced that the second 600MW supercritical coal-fired generating unit of Anhui Huainan Pingwei No.2 Electric Power Company Limited ("Pingwei Power Plant II") passed the 168-hour full load pilot run on November 24, 2007.

Pingwei Power Plant II, a wholly-owned subsidiary of the Company, planned to construct two 600MW supercritical coal-fired generating units installed with flue and gas desulphurisation facilities, as approved by the National Development and Reform Commission of the PRC at the end of 2005. Thus far, the two generating units have commenced commercial operation, and the Company has a total attributable installed capacity of 7,215MW.

China Power International Development Limited

The Company's shares were listed on the Main Board of the Stock Exchange of Hong Kong Limited on October 15, 2004. The Company is the flagship company of China Power Investment Corporation (one of the five national power generating groups in China) and its principal business is to develop, construct, operate and manage power plants in China. The Company has 100% ownership in its four large-capacity coal-fired power plants under commercial operation, and 50% equity interest in the associated company Changshu Power Plant. The Company wholly-owns or has a controlling interest in two large-capacity coal-fired power plants which are under construction. Meanwhile, the Company also owns a 21.92% stake in Shanghai Electric Power Co., Ltd., which is listed on Shanghai Stock Exchange. Currently, China Power has a total attributable installed capacity of 7,215MW.
