China Power Announced its Gross Generation and Total Net Generation for the First Half of 2008

China Power International Development Limited (the “Company”, Stock Code: 2380) today announced its gross generation and total net generation for the first half ended 30 June 2008.

According to its preliminary statistics, the consolidated gross generation of the Company (excluding the power plant of its associated company) amounted to 16,869,253 MWh for the first half ended 30 June 2008, representing a year-on-year increase of 36.89% while its consolidated net generation totalled to 15,730,410 MWh, representing a year-on-year increase of 37.61%.

The increase in the total net generation for the first half of 2008 was mainly attributable to (1) the commence of operation of unit No.3, 4 of Pingwei Power Plant II, unit No. 5,6 of Yaomeng Power Plant II and unit No.1 of Dabieshan power plant. (2) improved reliability over operation for units of each power plant due to the strengthened management of the production.
