China Power Announced Total Gross Generation and Total Net Generation for the First Quarter of 2011

China Power International Development Limited (the “Company”, stock code: 2380) announced today its gross generation and total net generation for the first quarter ended 31 March 2011.

According to its preliminary statistics, the consolidated gross generation of the power plants of the Company (excluding the power plant of its associated company) amounted to 12,843,954 MWh for the first quarter ended 31 March 2011, representing a year-on-year increase of 20.81% while its consolidated net generation totalled to 12,174,320 MWh, representing a year-on-year increase of 21.79%.

The change in the gross generation for the first quarter of 2011 was mainly attributable to (1) strong power demand, (2) better water flows.

The respective gross generation and total net generation figures of the power plants of the Company for the first quarter ended 31 March 2011 are as follows:
