

SPIC Guangxi Electric Power Co., Ltd. and Guangxi Lingshan Government Sign Cooperation Agreement on New Energy Project Development

Recently, SPIC Guangxi Electric Power Co., Ltd. (hereinafter "SPIC Guangxi Company") signed a strategic cooperation framework agreement with Guangxi Lingshan Government on the development of new energy project, and the project is planned to have a capacity of 1,000 MW and a total investment of more than RMB10 billion. It is SPIC's first strategic cooperation framework agreement on county-wide new energy project development in Guangxi Zhuang Autonomous Region, laying a solid foundation for SPIC to construct a "new runway" for clean and green energy in Guangxi.

Based on the 200 MW centralized mountain wind farms in operation, SPIC Guangxi Company has carried out all-round in-depth cooperation with Lingshan Government and Lingshan Urban Construction Group Co., Ltd., to give full play to the advantages of the three parties' resources and make every effort to promote the development of new energy projects.

According to the agreement, the first phase will include agri-PV hybrid power + floating PV power, household PV power, smart street lights + PV benches, PV carport + charging post, integrated intelligent energy services for government affairs, and others, to make Lingshan a "clean energy demonstration county" and achieve complementary advantages and mutual benefits.
