

Mr. He Xi Meets with Mr. Li Zhen, Chairman of Gotion High-tech

On February 1, 2023, Mr. He Xi, Chief Engineer (New Energy) of SPIC and Chairman of CPID, met with Mr. Li Zhen, Chairman of Gotion High-tech, and his delegation at CPID's headquarters.

Mr. He welcomed Mr. Li and his delegation and introduced CPID's development history and general situation, focusing on CPID's active support to China's carbon peaking and carbon neutrality goals and vigorous promotion of electrochemical energy storage, green electric transportation and international business. Mr. He said that Gotion High-tech had strong technical advantages and mature industrial system in power batteries and its international business had also achieved excellent results, and expressed that CPID was actively cultivating the green energy emerging industry, and there is a broad space for cooperation with Gotion High-tech. Mr. He hoped that both sides would strengthen communication and accelerate practical cooperation in new energy storage deployment, battery swap products, energy storage security technology, development of energy storage standards, green power supply, capital operation and international business.

Mr. Li introduced the general situation, product development and business layout of Gotion High-tech, focusing on the international energy storage development environment and Gotion's achievements in international business, and expressed the desire to cooperate with CPID. Mr. Li said that both sides could carry out all-round cooperation in international business expansion, energy storage projects, lithium resources, energy storage security products, green power supply, capital operation, etc.

Mr. Fu Jinsong, Vice President and Chairman of Labor Union of CPID, Mr. Shou Rufeng, Vice President of CPID, and Mr. Zhang Hongli, Vice President of Gotion High-tech Engineering Research Institute, attended the meeting.
