

Mr. Gao Ping Meets Mr. Teng Yingming, Chairman of Chongqing Expressway Group Co., Ltd.

On July 18, 2023, Mr. Gao Ping, President of CPID, met with Mr. Teng Yingming, Chairman of Chongqing Expressway Group Co., Ltd. (Chongqing Expressway) and his delegation at CPID headquarters, and both sides had in-depth discussions and exchanges of views, and reached a consensus on continuously promoting strategic cooperation and promoting the implementation of cooperation projects related to the integration of transportation and energy.

Mr. Gao welcomed Mr. Teng and his delegation, and introduced CPID's development history, achievements in green and low-carbon transition and development, as well as CPID's technical advantages and strategic layout in the fields of integrated smart energy, energy storage, green electric transportation, color PV power, rural revitalization and others in recent years. Mr. Gao said that Chongqing Expressway, as a leading enterprise in Chongqing's transportation industry, has high-quality high-speed road network, navigation channels, shipping and power generation resources, CPID will continue to expand its technological advantages, industrial advantages and market advantages in the new energy field, and actively explore strategic cooperation with Chongqing Expressway in the fields of green transportation, green shipping, energy storage, color PV power, integrated wind, solar and hydro power and energy storage bases and rural revitalization, and continue to explore new fields and new tracks to help both sides realize their carbon peaking and carbon neutrality goals with green development and innovation drive.

Mr. Teng appreciated CPID's practical achievements in promoting the implementation of China's carbon peaking and carbon neutrality goals, practicing green and low-carbon transition and development, and rural revitalization, and introduced the existing industrial layout of Chongqing Expressway and the future green development strategic plan. Mr. Teng said that Chongqing Expressway is willing to effectively play its own advantages, and sincerely hopes to cooperate with CPID in the field of shipping and power generation, battery-swap electric heavy-duty trucks, pumped storage, distributed new energy, etc., fully implement the strategic cooperation agreement signed with CPID last month, and make every effort to promote cooperation between both sides as early as possible to implement the cooperative affairs, and jointly make more contributions to the high-quality development of Chongqing Municipality.

The meeting was attended by Mr. Liu Guoqiang, Deputy General Manager of Chongqing Expressway, the heads of Investment Management Department, Market Development Department, Digital Transportation Company, Security Industry Company of Chongqing Expressway, and the heads of Strategic Planning Department, Development Department, Marketing and Fuel Management Center and Qiyuan Core Power Co., Ltd. of CPID.
