

China Power Holds Talks and Signs Strategic Cooperation Memorandum with Xiamen Municipal Government

On March 28, 2024, Mr. Gao Ping, President and Executive Director of China Power, and his delegation visited Xiamen to meet with Mr. Huang Xiaozhou, Member of the Standing Committee of the Xiamen Municipal Committee and Deputy Mayor of Xiamen City. Both sides had in-depth discussions on "central-local enterprise cooperation", green energy development and industrial integration.

China Power presented its operational development over the past three years, including new energy development and layout in strategic emerging industries. In particular, they highlighted the achievements in battery-swap electric heavy-duty trucks, intrinsic safety of energy storage, geothermal development technologies, full-color PV modules, rural energy revolution, and rural revitalization. They expressed their hope for enhanced cooperation to support Xiamen's low-carbon urban development.

Mr. Huang warmly welcomed Mr. Gao and his delegation, and expressed his gratitude for China Power's investment in Xiamen. He hoped that both sides could seize this signing opportunity to jointly create a beautiful Xiamen, and build a golden brick energy innovation demonstration city.
