

Jiangsu Electric Power Market Management Committee Delegates Visit SPIC Shandong Energy

On May 15th, Zhang Ming, Director of the Jiangsu Electric Power Market Management Committee, and his delegation visited SPIC Shandong Energy Development Co., Ltd. ("SPIC Shandong Energy") for research and exchange. The visit focused on the current development status of the Shandong electric power market and the effective marketing practices of SPIC Shandong Energy.

The delegation toured the power trading hall to learn about the company's power trading workflow. They gathered information on new energy initiatives, energy storage systems, power sales auxiliary decision-making systems, the virtual power plant platform, and the latest technological advancements. Attendees shared insights based on their local power market operating experiences, discussed recent policies, and addressed current challenges.
