

Wuhu Electric Power Generating Company Limited Holds "Run Hand in Hand" Corporate Open Day and Parent-Child Fun Sports Day

On May 30, 2024 Wuhu Electric Power Generating Company Limited held the "Run Hand in Hand" Corporate Open Day and Parent-Child Fun Sports Day to welcome International Children's Day, care for and support the growth of employees' children, promote harmonious corporate culture construction, and enhance corporate cohesion and employee sense of belonging.

In the afternoon, children followed the welcoming footprints set up in the plant area to reach the activity venue. Amidst laughter and joy, employees accompanied their children in orderly registration, each child receiving a thoughtful souvenir. During the event, children visited the integrated smart zero-carbon power plant. With explanations in simple terms, employees' families and children gained further understanding of the workplace, experienced the working environment, and felt the company's culture up close.

In the parent-child fun sports section, traditional games such as "Aim Target," "Unity and Cooperation," and "Paper Airplanes" were set up, allowing adults to relive their childhood joy and children to experience the fun of their parents' childhood. The young "athletes" were enthusiastic, with parents fully engaged and cooperative. Cheers and applause filled the air, making the games lively and enjoyable for both children and adults.

Run hand in hand. Throughout, Wuhu Electric Power Generating Company Limited has conveyed warmth through action, bridging communication with employees' families, strengthening bidirectional communication and exchanges between the company, employees, and their families, allowing employees to deeply feel the warmth of the company family.
