Other than the rights in sharing of profit streams, which has indefinite useful lives, the intangible assets are amortised on a straight-line basis over the following periods:

Trademarks	10 years
Customers relationship	5 years

The above trademarks and customers relationship are disposed of during the period (see note 28(b) to the condensed consolidated financial statements).

14. INTANGIBLE ASSETS (Continued)

Impairment testing of intangible asset with indefinite useful life

For the purpose of impairment testing, rights in sharing of profit streams are allocated at acquisition to the cash-generating unit ("CGU") that are expected to benefit from such intangible asset.

The intangible asset associated with the rights in sharing of profit streams from the gaming promotion business represented the rights in sharing of 0.4% of rolling turnover generated from a casino VIP room located in Macau for an indefinite period of time. Such intangible asset is carried at cost less accumulated impairment, if any.

The junket licences associated with the rights in sharing of the profit streams is renewable annually by the Macau government. The directors of the Company are of the opinion that the Group would renew the junket licences continuously and has the ability to do so. Therefore, the directors of the Company consider that the junket licences associated with the rights in sharing of the profit streams have an indefinite useful life because it is expected to contribute the net cash inflow indefinitely. The junket licences associated with the rights in sharing of the profit streams will not be amortised until its useful life is determined to be finite. Instead, it will be tested for impairment annually and whenever there is an indication that it may be impaired.

At 30th June 2014, the directors of the Company have assessed the recoverable amount of intangible asset by reference to the valuation report issued by Grant Sherman Appraisal Limited, a firm of independent qualified professional valuers, which valued the rights in sharing of profit streams pursuant to the respective junket representative agreement using the discounted cash flow method and determined that intangible asset associated with the rights in sharing of profit streams was impaired by approximately HK\$6,594,000 (six months ended 30th June 2013: HK\$41,036,000).

The recoverable amount of the rights in sharing of profit streams from gaming promotion business is determined based on value in use calculation, which uses cash flow projections based on financial budgets approved by management covering a five-year period and discount rate of 18.87% per annum (31st December 2013: 20.30% per annum) and cash flows beyond the five-year period are extrapolated using a zero growth rate for both periods. This growth rate is based on the relevant industry growth forecasts and does not exceed the average long-term growth rate for the relevant industry. Key assumptions for the value in use calculations relate to the estimation of cash inflows/outflows which include gross margin, growth and discount rate, such estimation is based on past experience and management's expectations for the market development.

The impairment loss recognised during the period solely relates to the Group's right in sharing of profit streams based in Macau. At 30th June 2014, the CGU has been reduced to its recoverable amount of approximately HK\$17,499,000 (31st December 2013: HK\$24,093,000), any adverse change in the assumptions used in the calculation of recoverable amount would result in further impairment loss.

In determining the 'pro-forma' revenue and profit of the Group had Merit Noble been acquired at the beginning of the current period, the directors have:

- calculated depreciation of property, plant and equipment acquired on the basis of the fair values arising in the initial accounting for the business combination rather than the carrying amounts recognised in the pre-acquisition financial statements; and
- determined borrowing costs based on the funding levels, credit ratings and debt/equity position of the Group after business combination.

BUSINESS REVIEW

Continuing Operations

The Group has four continuing reportable segments – (1) hotel and gaming service operations; (2) gaming promotion operations; (3) film distribution operations; and (4) property development operations.

Of the total turnover amount for the period, HK\$597,992,000 or 99% was generated from hotel and gaming service operations, HK\$2,464,000 or 1% was generated from gaming promotion operations, HK\$1,135,000 or 0% was generated from film distribution operations and HK\$83,000 or 0% was generated from property development operations.

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)**BUSINESS REVIEW (Continued)****Continuing Operations (Continued)****Hotel and Gaming Service Operations**

Hotel and gaming service operations included the hotel operation in Hotel Lan Kwai Fong Macau ("Lan Kwai Fong") which was recorded in an indirect subsidiary of the Company, Hotel Lan Kwai Fong (Macau) Limited ("Hotel LKF"); services provided to the casino situated in Lan Kwai Fong (the "Casino LKF") which was recorded in an indirect subsidiary of the Company, Classic Management & Services Company Limited ("Classic") and other ancillary services provided in Lan Kwai Fong. Lan Kwai Fong presents a total of 209 guest rooms, casino situated in the ground, first and 18th floor, restaurants, flower shop, retail shop, spa and medical clinic.

Casino LKF is run by licence holder Sociedade de Jogos de Macau, S.A. ("SJM"). Classic has entered into gaming operation service agreements with SJM. Under the agreements, Classic will share certain percentage of service income from SJM based on the gross wins of mass market table gaming, VIP rooms table gaming and slot machines in Casino LKF. As at 30th June 2014, Casino LKF operated a total of 84 tables, targeting both for the VIP rooms table gaming and the mass market table gaming. It also operated a total of 128 slot machines.

During the short 5-year period since launching, Lan Kwai Fong has been awarded with several international accolades, which included the "5th China Hotel Starlight Awards 2009 – Best Designed Boutique Hotel of China" and the "2012 TripAdvisor Travelers' Choice – Top 25 Trendiest Hotels in China". In respect of promoting the notion of environmental protection, Lan Kwai Fong has won the "AHF Asia Awards 2010 – Leading Green Hotel of Asia" and the "Macau Green Hotel Award 2010 – Bronze Award".

The Group had shared revenue and segment profit of approximately HK\$597,992,000 (2013: HK\$631,745,000) and HK\$128,149,000 (2013: HK\$136,630,000) from the hotel and gaming service operations, decreases of 5% and 6% respectively. Revenue in the hotel and gaming service operations mainly comprised of hotel room income of HK\$56,666,000 (2013: HK\$53,414,000), food and beverage sales of HK\$19,244,000 (2013: HK\$15,878,000), services income received from mass market table gaming of approximately HK\$465,637,000 (2013: HK\$482,711,000) representing a decrease of 4%, services income received from VIP rooms table gaming of HK\$47,702,000 (2013: HK\$73,929,000 representing a decrease of 35% and service income received from slot machines of HK\$8,743,000 (2013: HK\$5,813,000) representing an increase of 50%. For the six months ended 30 June 2014, the total casino revenue gross win in Macau market was approximately HK\$187.5 billion, increased by 12.6% from last corresponding period. Those casinos located in Cotai have achieved a higher growth rate than those located in Macau Peninsula in the first half of 2014. Despite market share migration from Macau Peninsula to Cotai, we were able to maintain our overall market share and profit margin in this segment by effective marketing plan and cost control measure. Mass market table gaming operations are more profitable than VIP rooms table gaming operations and thus Casino LKF had spent resources to expand its market share in the mass market table gaming operations and targeted the high end customers in the mass market table gaming and was continued to be successful during this period. During the period, the average monthly revenue from (i) mass market table gaming of approximately HK\$77,606,000 (2013: HK\$80,452,000) and (ii) VIP rooms table gaming of HK\$7,950,000 (2013: HK\$12,322,000). Besides, the occupancy rate of Hotel LKF during the period increased by 5% to an average of about 99%.

BUSINESS REVIEW (Continued)

Continuing Operations (Continued)

Gaming Promotion Operations

The Group had shared revenue and segment loss of approximately HK\$2,464,000 (2013: HK\$3,688,000) and HK\$4,710,000 (2013: HK\$37,949,000) from the gaming promotion operations, decreases of 33% and 88% respectively.

Since years before, the revenue in sharing of profit streams from investments in the profit receiving company, Ocho Sociedade Unipessoal Limitada ("Ocho"), one of the gaming promoters at one of the VIP rooms at the Grand Lisboa Casino in Macau had apparently decreased. One of the characteristic of the VIP rooms gaming is that the majority of the business volume is highly volatile. Ocho had lost its competitive advantage as it cannot offer a better than market commission to its quality sub-junkets or customers as they were attracted by other large and well equipped new hotels and casinos in Macau. The decrease in revenue sharing also impact and decrease the expected cash inflow from this operation and thus impairment loss in respect of intangible assets of HK\$6,594,000 (2013: HK\$41,036,000) was recognised. This impairment amount was based on the recoverable amount of intangible asset by reference to the valuation report issued by a firm of independent qualified professional valuers using discounted cash flow method each period.

Film Distribution Operations

Film distribution operations included production and distribution of motion pictures and television drama series and provision of other film related services. During the six months ended 30 June 2014, the Group did not distributed any new film.

MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

PROSPECT

During the first few months in the year 2014, the Group had carried out a number of restructuring procedures which intended to focus its resources on its high return businesses such as the hotel and gaming services operation and other gaming related services businesses in Macau instead of those poor performance and deteriorating businesses.

Hotel and gaming service operations in Lan Kwai Fong is considered to be the core profit and cash contributor of the Group in the coming few years. The successful transformation of Lan Kwai Fong to a boutique hotel that embraces gaming, recreation and tourist accommodation has solidified our role in Macau's hotel and gaming industry. The development of the Sites would also be benefited by the profit and cash flow derived from the principal core business of our Lan Kwai Fong. The foundation of the Group's various investments in Macau will be enhanced and synergistically boosted.

The Group started to strive to achieve healthy and stable growth by enhancing profitability and diversifying its businesses progressively in other gaming related business.

Macau continues its strong upward growth with market-wide gaming revenue. For the six months ended 30th June 2014, the total casino revenue gross win in Macau market was approximately HK\$187.5 billion, increased by 12.6% from last corresponding period. The directors are confident with the gaming industry in Macau. The Company intends to participate in the gaming promotion business of VIP through the Proposed Acquisition as announced in 25th February 2014. The directors believe that the Proposed Acquisition will allow the Group to have greater control over the management and marketing of the VIP gaming floor in Casino LKF as well as to receive a higher percentage of gross gaming income generated by the VIP gaming floor.

The Group had entered Loan 1, Loan 2 and Loan 3 on 4th April 2014, 17th April 2014 and 17th July 2014 respectively which provided the Group with a long period of time to negotiate the terms and conditions of acquisition of those junket companies exclusively and to consider whether to invest in those junket companies in addition to stable and regular interest income from them.

The appointment of Mr. Mung as co-chairman of the Board has strengthened the expertise of the Board. Besides, the Share Subscription and the CB Subscription, if approved by the shareholders and independent shareholders of the Company respectively will introduce a strategic investor to the Company while strengthening the financial position of the Group.

With the expertise of the management of the Group in the casino industry, the Group is optimistic regarding its future investments in other gaming related businesses identified and in its performance for the rest of the year.
