

China Tower Signs Strategic Cooperation Agreements with Hikvision and Zhejiang Dahua

(Hong Kong, 5 July 2024) - **China Tower Corporation Limited** (“China Tower”, or the “Company”) (Stock Code: 0788.HK), the world’s largest telecommunications infrastructure service provider, signed strategic cooperation agreements with Hangzhou Hikvision Digital Technology Co., Ltd. (“Hikvision”) and Zhejiang Dahua Technology Co., Ltd. (“Zhejiang Dahua”) recently. Mr. Hu Yangzhong, General Manager of Hikvision; Mr. Fu Liquan, Chairman of Zhejiang Dahua; and Mr. Liu Guofeng, Deputy General Manager of China Tower, attended the signing ceremonies.

According to the agreements, China Tower will establish work coordination mechanisms to actively promote the sharing of advantageous resources and technological synergy with Hikvision and Zhejiang Dahua respectively, so as to fully push forward the national strategy. **First** is to cooperate in the development and innovation of intelligent Internet of Things (IoT) technologies, especially the key technologies and products such as intelligent drone inspection, integration and linkage of cameras and IoT terminals, terminals and edge smart devices, and to strengthen scientific research cooperation. **Secondly**, they will cooperate in the optimization and construction of tower-based smart IoT platforms, improving core technologies such as video and sensor networking, video codec and video data security to fully unleash the value of smart IoT. **Third** is to jointly develop smart application areas. By leveraging their smart application technologies, we will work together to develop smart solutions for complex environments, deepening and expanding the application areas in sectors such as fire prevention in forestry and grassland sector, straw burning ban and water environment pollution control.

About China Tower (Stock Code: 0788.HK)

China Tower is the world's largest telecommunications tower infrastructure service provider, and the Company always adheres to the philosophy of shared development and implements the "One Core and Two Wings" strategy. The Company is principally engaged in the construction, maintenance and operation of base station ancillary facilities such as telecommunications towers, public network coverage in high-speed railways and subways, and large-scale indoor Distributed Antenna Systems (DAS). Meanwhile, relying on unique resources to provide energy application services such as information application and intelligent battery exchange and power backup to the society, the Company strives to build itself into a world-class information and communications infrastructure service provider, and a highly competitive information and new energy applications provider. As of the end of December 2023, the Company's total assets amounted to RMB326,007 million. China Tower operated and managed 2.046 million tower sites across 31 provinces, municipalities and autonomous regions in the PRC, and served over 3.658 million tenants with the tenancy ratio of 1.79.
