INTRODUCTION

References are made to the Announcement dated 1st December, 2008 and the Circular dated 31st December, 2008 in relation to, among other things, the Rights Issue and the Whitewash Waiver.

On 1st December, 2008, the Company announced that it proposed to raise not less than approximately HK$110,248,997.60 before expenses by way of a rights issue of not less than 275,622,494 Rights Shares and not more than 330,842,256 Rights Shares (based on 275,622,494 Shares and 55,219,762 Warrants in issue as at the date of Announcement) at a price of HK$0.40 per Rights Share on the basis of one Rights Share for every existing Share held on the Record Date.

The Whitewash Waiver has been granted by the Executive on 12th January, 2009, which is subject to the approval of the Independent Shareholders by way of poll at the SGM. At the SGM, the ordinary resolutions approving the Rights Issue and the Whitewash Waiver will be proposed for approval by the Independent Shareholders. The resolutions in respect of the Rights Issue and the Whitewash Waiver will be conducted by way of poll. Vigor and the parties acting in concert with it, and those persons who were interested in or involved in the Underwriting Agreement and the Whitewash Waiver will abstain from voting in favour of the resolutions relating to the Rights Issue and the Whitewash Waiver. The Board has been advised by Vigor and the parties acting in concert with it that, as at the Latest Practicable Date, they have no intention to vote against the resolutions approving the Rights Issue and the Whitewash Waiver at the SGM.

The purpose of this Prospectus is to provide Shareholders with further information regarding the Rights Issue and the Whitewash Waiver, and certain financial and other information in respect of the Company.

THE RIGHTS ISSUE

Basis of the Rights Issue:	One Rights Share for every existing Share held on the Record Date
Number of existing Shares in issue:	275,649,760 Shares (275,622,494 Shares as at the date of Announcement, 947 Shares and 26,319 Shares allotted upon exercise of the Warrants by the holder(s) thereof on 6th January, 2009 and 13th January, 2009, respectively)
Number of Rights Shares:	Not less than 275,649,760 Rights Shares (assuming no outstanding Warrants are exercised) and not more than 330,842,256 Rights Shares (assuming all outstanding Warrants are fully exercised)
Underwriter:	Vigor

Number of Underwritten Shares:	not less than 169,165,360 (assuming no outstanding Warrants are exercised) Underwritten Shares and not more than 203,060,976 (assuming all outstanding Warrants are fully exercised) Underwritten Shares. The minimum and maximum number of Rights Shares to be underwritten by Vigor (taking into account the minimum of 106,484,400 Rights Shares and the maximum of 127,781,280 Rights Shares agreed to be taken up by Vigor) are 169,165,360 and 203,060,976 respectively, representing 30.68% of the issued share capital of the Company as enlarged by the Rights Issue and 30.69% of the issued share capital of the Company as enlarged by the Rights Issue and the full exercise of outstanding Warrants on or before the Record Date.

Under the Rights Issue, not less than 275,649,760 nil-paid Rights Shares (assuming no warrants are exercised on or before the Record Date) would be provisionally allotted, representing 100.0% of the existing issued share capital of the Company and 50.0% of the issued share capital of the Company as enlarged by the issue of 275,649,760 Rights Shares

The number of Rights Shares which may be allotted and issued pursuant to the Rights Issue will be increased in proportion to any additional Shares which may be allotted and issued upon the exercise of the Warrants on or before the Record Date. The Company will send the Prospectus Documents, including the Prospectus, the PALs and the EAFs, to the Qualifying Shareholders. The Company will send the Prospectus only to the Excluded Shareholders and holders of Warrants for information purposes.

Having reviewed the register of members as at the Record Date, the Company noted that 9 Shareholders maintained addresses located in the United Kingdom, Switzerland, Malaysia, Singapore, Germany, Koeln, Spain and Thailand. The Company has made enquiries with its legal advisers regarding the feasibility of extending the Rights Issue to the overseas Shareholders, and based on which the Directors have determined that (i) it is expedient for the Rights Issue to be offered to the overseas Shareholders in the United Kingdom, Switzerland, Malaysia, Singapore and Thailand, and (ii) it is inexpedient for the Rights Issue to be offered to the overseas Shareholders in Germany, Koeln and Spain. Accordingly, the Rights Issue will not be extended to 3 overseas Shareholders with registered addresses in Germany, Koeln and Spain (there being in aggregate 0.005% of the issued share capital held by them) and will be extended to 6 overseas Shareholders with registered addresses in the United Kingdom, Switzerland, Malaysia, Singapore and Thailand.

Closure of register of members and warrantholders

The register of members and warrantholders of the Company has been closed from Tuesday, 13th January, 2009 to Friday, 16th January, 2009, both dates inclusive. No transfers of Shares and Warrants will be registered during this period.

Subscription Price

HK$0.40 per Rights Share, payable in full by a Qualifying Shareholder upon acceptance of the provisional allotment of the Rights Shares under the Rights Issue or application for excess Rights Shares or when a renouncee of any provisional allotment of the Rights Shares or a transferee of nil-paid Rights Shares applies for the Rights Shares.

The Subscription Price represents:

(i) a discount of approximately 48.05% to the closing price of HK$0.770 per Share as quoted on the Stock Exchange on the Last Trading Date;

(ii) a discount of approximately 49.49% to the average closing price of HK$0.792 per Share as quoted on the Stock Exchange for the 5 consecutive trading days up to and including the Last Trading Date;

(iii) a discount of approximately 52.94% to the average closing price of HK$0.850 per Share as quoted on the Stock Exchange for the 10 consecutive trading days up to and including the Last Trading Date;

(iv) a discount of approximately 52.21% to the average closing price of HK$0.837 per Share as quoted on the Stock Exchange for the 30 consecutive trading days up to and including the Last Trading Date;

(v) a discount of approximately 31.62% to the theoretical ex-right price of HK$0.585 based on the closing price of HK$0.77 per Share as quoted on the Stock Exchange on the Last Trading Date;

(vi) a discount of approximately 97.31% to the audited consolidated net asset value per Share of approximately HK$14.85 as at 31st December, 2007;

(vii) a discount of approximately 95.15% to the unaudited consolidated net asset value per Share of approximately HK$8.25 as at 30th June, 2008;

(viii) a discount of approximately 32.20% to the closing price of HK$0.590 per Share as quoted on the Stock Exchange as at the date of the Circular; and

(ix) a discount of approximately 8.05% to the closing price of HK$0.435 per Share as quoted on the Stock Exchange as at the Latest Practicable Date.

The Subscription Price was arrived at after arm's length basis between the Company and Vigor with reference to the market price of the Shares under the prevailing market conditions. The Directors consider the terms of the Rights Issue to be fair and reasonable and in the best interests of the Group and the Shareholders given the right to all Shareholders to acquire the Rights Shares at a discount to the market price.

Basis of Provisional Allotments

One Rights Share (in nil-paid form) for every existing Share held by Qualifying Shareholders as at the close of business on the Record Date.

Status of the Rights Shares

The Rights Shares (when allotted, issued and fully paid) will rank pari passu with the then existing Shares in issue in all respects. Holders of fully paid Rights Shares will be entitled to receive all future dividends and distributions which may be declared, made or paid after the date of allotment and issue of the Rights Shares.

Certificates for the Rights Shares

Subject to the fulfillment or the waiver in whole or in part by Vigor of the conditions of the Rights Issue, certificates for all fully-paid Rights Shares are expected to be posted by Friday, 13th February, 2009 to those Qualifying Shareholders who have paid for and have accepted the Rights Shares, at their own risk.

Fractions of the Rights Shares

The Company will not provisionally allot fractions of Rights Shares in nil-paid form. All fractions of Rights Shares will be aggregated and all nil-paid Rights Shares arising from such aggregation will be sold in the market and, if a premium (net of expenses) can be achieved, the Company will keep the net proceeds for its own benefit. Any unsold fractions of Rights Shares will be made available for excess application.

Application for excess Rights Shares

Qualifying Shareholders shall be entitled to apply for, any unsold Rights Shares created by adding together fractions of the Rights Shares and any Rights Shares provisionally allotted but not accepted by the Qualifying Shareholders. Application may be made by completing the EAFs and lodging the same with a separate remittance for the excess Rights Shares being applied for. The Board will determine the allotment of the excess Rights Shares on a fair and equitable basis on the following principles:

(1) preference will be given to applications for less than a board lot of Rights Shares where they appear to the Directors that such applications are made to round up odd-lot holdings to whole-lot holdings;

(2) subject to availability of excess Rights Shares after allocation under principle (1) above, the excess Rights Shares will be allocated to Qualifying Shareholders who have applied for excess application based on a pro-rata basis to the excess Rights Shares applied by them, with board lot allocations to be made on a best effort's basis; and

(3) in accordance with any further requirements of the Stock Exchange.

Given that the above arrangement has been adopted by other listed companies and the Company will allow for those without board lot to be topped up and thereafter permit Qualifying Shareholders to apply for excess Rights Shares pro rata, the Board believes that this arrangement is fair and reasonable.

Application for listing

The Company will apply to the Listing Committee of the Stock Exchange for the listing of, and permission to deal in, the Rights Shares in both nil-paid and fully-paid forms. No part of the securities of the Company is listed or dealt in, or on which listing or permission to deal is being or is proposed to be sought, any other stock exchange. The fully-paid Rights Shares will commence dealing on 17th February, 2009.

Nil-paid Rights Shares are expected to be traded in board lots of 4,000 (as the Shares are currently traded on the Stock Exchange in board lots of 1,000). Dealings in the Rights Shares (in both nil-paid and fully-paid forms) will be subject to the payment of stamp duty, Stock Exchange trading fee, transaction levy, investor compensation levy or any other applicable fees and charges in Hong Kong.

Subject to the granting of listing of, and permission to deal in, the Rights Shares on the Stock Exchange, the Rights Shares will be accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the commencement date of dealings in the Rights Shares on the Stock Exchange or such other date as determined by HKSCC. Settlement of transactions between participants of the Stock Exchange on any trading day is required to take place in CCASS on the second trading day thereafter. All activities under CCASS are subject to the General Rules of CCASS and CCASS Operational Procedures in effect from time to time.

Irrevocable Undertaking

As at the Latest Practicable Date, Vigor is interested in an aggregate of 106,484,400 Shares, representing approximately 38.63% of the issued share capital of the Company. Pursuant to the Irrevocable Undertaking, Vigor has irrevocably undertaken to the Company that, subject to the Rights Issue not being terminated, it will subscribe and lodge acceptance for the Rights Shares which will constitute the provisional allotment of Rights Shares in respect of the Shares held by it, being 106,484,400 Rights Shares and any additional Rights Shares which Vigor is entitled as a result of exercise of the Warrants held by it, being 21,296,880 Rights Shares.

As at the Latest Practicable Date, save and except for Vigor, the Board has not received any information from any Shareholders of their intention to take up the Rights Shares to be provisionally allotted to them.

DEALINGS IN SHARES OF THE COMPANY DURING THE PAST SIX MONTHS PRIOR TO THE DATE OF THE ANNOUNCEMENT

During the period commencing on the date falling 6 months preceding the date of the Announcement up to and including the Latest Practicable Date, the Company repurchased a total of 578,000 of its own shares through on-market transactions on the Stock Exchange at a total purchase price of HK$1,377,680, the latest of which happened on 23rd October, 2008 where 100,000 Shares were purchased by the Company at an aggregate consideration of HK$70,000. These share repurchases have been reported to the Stock Exchange. The shares repurchased have been cancelled and the issued share capital of the Company was reduced by the nominal value thereof.

The repurchases of the Shares during the past six months were effected by the Company pursuant to the general mandate approved by Shareholders with a view to benefiting Shareholders as a whole by enhancing the net asset value per share and earnings per share of the Group.

A ruling dated 12th January, 2009 has been granted by the Executive to the Company that the repurchases of Shares by the Company during the last 6 months prior to the Announcement do not constitute disqualifying transactions for the purpose of paragraph 3(a) of Schedule VI to the Takeovers Code.

Vigor's shareholding interest in the Company had proportionately increased from 38.56% to 38.63% as a result of repurchases made by the Company during the last 6 months prior to the Announcement. Save as aforesaid above, none of Vigor or parties acting in concert with it had dealt for value in the securities of the Company during the period commencing on the date falling 6 months preceding the date of the Announcement up to and including the Latest Practicable Date.

WARNING OF THE RISKS OF DEALING IN THE SHARES, WARRANTS AND THE NIL-PAID RIGHTS SHARES

Existing Shares have been dealt with on an ex-rights basis from Friday, 9th January, 2009. The Rights Shares will be dealt with in their nil-paid form from Wednesday, 21st January, 2009 to Monday, 2nd February, 2009 (both dates inclusive). If prior to 4:00 p.m. on Monday, 9th February, 2009 (or such later date as the Underwriter may agree with the Company), Vigor terminates the Underwriting Agreement (see sub-section headed "Termination of the Underwriting Agreement" above) or the conditions of the Rights Issue cannot be fulfilled (or, if appropriate, waived), the Rights Issue will not proceed.

Any dealings in the Shares and the Warrants from the date of the Announcement up to the date on which all the conditions of the Rights Issue are fulfilled (or, if appropriate, waived), and any dealings in the Rights Shares in their nil-paid form between Wednesday, 21st January, 2009 to Monday, 2nd February, 2009, both days inclusive, are accordingly subject to the risk that the Rights Issue may not become unconditional or may not proceed. Any Shareholders or other persons contemplating any dealings in the Shares, the Warrants or the Rights Shares in their nil-paid forms are recommended to consult their own professional advisers.

REASONS FOR THE RIGHTS ISSUE AND USE OF PROCEEDS

The Directors consider that the Rights Issue provides an opportunity for the Group to raise long term fundings and to reorganize its capital structure.

The estimated net proceeds of the Rights Issue is approximately HK$107,259,904 (assuming none of the outstanding Warrants is exercised on or before the Record Date), which is intended to be used for reduction of short term borrowings (comprising, amongst other things, secured and interest bearing securities margin financing) and to the extent not used will be for investment when opportunities arise and for general working capital of the Group. The estimated amount of expenses for the Rights Issue is approximately HK$3,000,000 and is payable to professionals and advisers of the Company in respect of the Rights Issue.

FUND RAISING

The Company did not have any capital raising activities during the 12 months' period immediately preceding the Latest Practicable Date.

ADJUSTMENT TO THE WARRANTS

Under the terms of the instrument creating the Warrants, adjustments to the exercise price or number of the warrants granted may be required upon the completion of the Rights Issue and the Placing. If necessary, such adjustment(s) will be set out in the Company's announcement of results of acceptance of the Rights Issue and the Placing and the adjustment(s) will be reviewed and confirmed by the auditors of the Company.

APPLICATION FOR GRANTING OF WHITEWASH WAIVER

Assuming Vigor has taken up its maximum underwriting commitment of 169,165,360 Rights Shares assuming no exercise of the rights attached to the Warrants on or before the Record Date pursuant to the Underwriting Agreement, Vigor and the parties acting in concert with it will increase their aggregate shareholding from approximately 38.63 per cent. of the existing issued share capital of the Company to 69.32 per cent. of the issued share capital of the Company of 551,299,520 Shares as enlarged by the issue of Rights Shares. Assuming Vigor has taken up its maximum underwriting commitment of 203,060,976 Rights Shares assuming full exercise of the rights attached to the warrants on or before the Record Date pursuant to the Underwriting Agreement, Vigor and the parties acting in concert with it will increase their aggregate shareholding from approximately 38.63 per cent. of the existing issued share capital of the Company to approximately 69.31 per cent. of the issued share capital of the Company of 661,684,512 Shares as enlarged by the Rights Issue.

Under Rule 26 of the Takeovers Code, Vigor and the parties acting in concert with it will be required to make a mandatory general offer for all the issued Shares not already owned or agreed to be acquired by Vigor or the parties acting in concert with it. The Whitewash Waiver has been granted by the Executive on 12th January, 2009. Subject to the approval of the Independent Shareholders by way of poll at the SGM, the obligation of Vigor and the parties acting in concert with it to make a mandatory general offer under Rule 26 of the Takeovers Code will be waived.

Shareholders and investors should also be aware that there is a possibility that, upon completion of the Rights Issue, Vigor, acting as the Underwriter, together with its concert parties will hold more than 50% voting rights in the Company and that Vigor and the parties acting in concert with it may increase their shareholdings without incurring further obligation of making mandatory general offers pursuant to Rule 26 of the Takovers Code.

Save for the placing of the Convertible Bonds pursuant to the Placing Agreement and the underwriting arrangement of Vigor under the Underwriting Agreement, there is no arrangement (whether by way of option, indemnity or otherwise) in relation to the shares of Vigor or the Shares which might be material to the Rights Issue as required to be disclosed pursuant to Note 8 to Rule 22 of the Takeovers Code. There is no agreement or arrangement to which Vigor is a party which relates to the circumstances in which it may or may not invoke or seek to invoke a pre-condition or a condition to the Rights Issue. There are no securities in the Company which Vigor or persons acting in concert with it has borrowed or lent.

INTENTIONS FOR THE GROUP

It is the intention of the existing Directors that the Group will continue with its existing businesses. Vigor does not intend to introduce any major changes to the business of the Group or re-deploy or dispose of any of the assets of the Group other than in the ordinary course of business. With regard to the acquisition by the Group of further assets, Vigor has no intention to do so. Vigor has no intention for redundancies nor similar proposals for employees of the Group notwithstanding current and market conditions.

PROCEDURES FOR ACCEPTANCE

An application form is enclosed with this Prospectus which entitles the Qualifying Shareholders to accept the number of Rights Shares less than or equal to your assured allotment shown on it. It should be noted that unless the application form, together with the appropriate remittance, have been lodged with the registrar of the Company by not later than 4:00 p.m. on Thursday, 5th February, 2009, that assured entitlement and all rights thereunder will be deemed to have been declined and will be cancelled.

The application form contains full information regarding the procedures to be followed if the Qualifying Shareholders wish to apply for a number of Shares different from that in your assured allotment.

All cheques or cashier's orders will be presented for payment following receipt and any interest earned on such monies (if any) will be retained for the benefit of the Company. Any application form in respect of which a cheque or cashier's order is dishonoured on first presentation is liable to be rejected, and in that event the assured entitlement and all rights thereunder will be deemed to have been declined and will be cancelled.

The application form is for use only by the person(s) named therein and is not transferable.

Application for excess Rights Shares

Qualifying Shareholders may apply, by way of excess application, for any Rights Shares in provisional allotment of other Qualifying Shareholders but not applied for by them, any Rights Shares arising from the aggregation of fractional entitlements and any Rights Shares not offered to the Excluded Shareholders.

Application for excess Rights Shares should be made by completing the EAF enclosed with this Prospectus (if despatched to a Qualifying Shareholder) for excess Rights Shares and lodging the same with a separate remittance for the full amount payable in respect of the excess Rights Shares being applied for in accordance with the instructions printed thereon, with the Registrar at 26th Floor, Tesbury Centre, 28 Queen's Road East, Wanchai, Hong Kong by not later than 4:00 p.m. on Thursday, 5th February, 2009. All remittances must be made in Hong Kong dollars and cheques must be drawn on an account with, or banker's cashier orders must be issued by, a licensed bank in Hong Kong and made payable to "COL Capital Limited – Excess Application Account" and crossed "Account Payee Only". The Registrar will notify the Qualifying Shareholders of any allotment of the excess Rights Shares made to them.

It should be noted that unless the duly completed and signed EAF together with the appropriate remittance, have been lodged with the Registrar by not later than 4:00 p.m. on Thursday, 5th February, 2009, the EAF is liable to be rejected.

All cheques or cashier orders will be presented for payment immediately following receipt and all interest earned on such application monies will be retained for the benefit of the Company. Any PAL or EAF in respect of which the cheque or cashier order is dishonoured on first presentation is liable to be rejected, and in that event the relevant entitlements of the Qualifying Shareholders under the Rights Issue will be deemed to have been declined and will be cancelled.

In the event that applications are received for the Rights Shares in excess of provisional entitlements, the Directors will allocate the Rights Shares in excess of provisional entitlements at their discretion, but on a fair and reasonable basis as far as practicable.

Both PAL and EAF are for the use by the person(s) named therein only and are not transferable.

No receipt will be issued in respect of any application monies received.

Any Rights Shares not applied for by the Qualifying Shareholders will be taken up by the Underwriter or subscribers procured by the Underwriter.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31st December, 2007

1. General

The Company is incorporated in Bermuda as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The addresses of the registered office and principal place of business of the Company are disclosed on page 2 of the annual report.

The consolidated financial statements are presented in Hong Kong dollars ("HKD"), which is the same as the functional currency of the Company.

The Company is an investment holding company. The activities of its principal subsidiaries are set out in note 39.

2. Application of new and revised Hong Kong Financial Reporting Standards ("HKFRS")

In the current year, the Group has applied, for the first time, the following new standard, amendment and interpretations ("new HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), which are effective for the Group's financial year beginning 1st January, 2007.

HKAS 1 (Amendment)	Capital disclosures
HKFRS 7	Financial instruments: Disclosures
HK(IFRIC) – INT 7	Applying the restatement approach under HKAS 29 Financial reporting in hyperinflationary economies
HK(IFRIC) – INT 8	Scope of HKFRS 2
HK(IFRIC) – INT 9	Reassessment of embedded derivatives
HK(IFRIC) – INT 10	Interim financial reporting and impairment

The adoption of the new HKFRSs had no material effect on how the Group's results and financial position for the current or prior accounting periods have been prepared and presented. Accordingly, no prior year adjustment has been required.

The Group has applied the disclosure requirements under HKAS 1 (Amendment) and HKFRS 7 retrospectively. Certain information presented in prior year under the requirements of HKAS 32 has been removed and the relevant comparative information based on the requirements of HKAS 1 (Amendment) and HKFRS 7 has been presented for the first time in the current year.

The Group has not early applied the following new and revised standards or interpretations that have been issued but are not yet effective.

HKAS 1 (Revised)	Presentation of financial statements[1]
HKAS 23 (Revised)	Borrowing costs[1]
HKAS 27 (Revised)	Consolidated and separate financial statements[2]
HKFRS 2 (Amendment)	Vesting conditions and cancellations[1]
HKFRS 3 (Revised)	Business combinations[2]
HKFRS 8	Operating segments[1]
HK(IFRIC) – INT 11	HKFRS 2: Group and treasury share transactions[3]
HK(IFRIC) – INT 12	Service concession arranagements[4]
HK(IFRIC) – INT 13	Customer loyalty programmes[5]
HK(IFRIC) – INT 14	HKAS 19 – The limit on a defined benefit asset, minimum funding requirements and their interaction[4]

1 *Effective for accounting periods beginning on or after 1st January, 2009.*

2 *Effective for accounting periods beginning on or after 1st July, 2009.*

3 *Effective for accounting periods beginning on or after 1st March, 2007.*

4 *Effective for accounting periods beginning on or after 1st January, 2008.*

5 *Effective for accounting periods beginning on or after 1st July, 2008.*

The Directors of the Company anticipate that the application of these standards or interpretations will have no material impact on the results and the financial position of the Group except for the adoption of HKFRS 3 (Revised) Business Combinations and HKAS 27 (Revised) Consolidation and Separate Financial Statements. HKFRS 3 (Revised) may affect the accounting for business combination for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1st July, 2009. HKAS 27 (Revised) will affect the accounting treatment on changes in a parent's ownership interest in a subsidiary that do not result in a loss of control, which will be accounted for as equity transactions.

3. Significant accounting policies

The consolidated financial statements have been prepared on the historical cost basis except for certain properties and financial instruments, which are measured at fair values, as explained in the accounting policies set out below.

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated on consolidation.

Minority interests in the net assets of consolidated subsidiaries are presented separately from the Group's equity therein. Minority interests in the net assets consist of the amount of those interests at the date of the original business combination and the minority's share of changes in equity since the date of the combination. Losses applicable to the minority in excess of the minority's interest in the subsidiary's equity are allocated against the interests of the Group except to the extent that the minority has a binding obligation and is able to make an additional investment to cover the losses.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and securities trading and investment in the normal course of business, net of discounts and sales related taxes.

Trading of securities is recognised on trade date basis when the relevant contracts are executed.

Sales of goods are recognised when goods are delivered and title has passed.

Dividend income from investments is recognised when the Group's rights to receive payment have been established.

Interest income from a financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

On initial recognition, investment properties are measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair value using the fair value model. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use or no future economic benefits are expected from its disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated income statement in the year in which the item is derecognised.

Property, plant and equipment

Property, plant and equipment, other than construction in progress, are stated at cost or fair value less subsequent accumulated depreciation and accumulated impairment losses.

Construction in progress includes property, plant and equipment in the course of construction for production or for its own use purposes. Construction in progress is carried at cost less any recognised impairment loss. Construction in progress is classified to the appropriate category of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at their revalued amounts, being the fair value at the date of revaluation less any subsequent accumulated depreciation and any subsequent accumulated impairment losses. Revaluations are performed with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair values at the balance sheet date.

Any revaluation increase arising on the revaluation of buildings is credited to the building revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised as expense, in which case the increase is credited to the consolidated income statement to the extent of the decrease previously charged. A decrease in carrying amount arising on revaluation of an asset is dealt with as an expense to the extent that it exceeds the balance, if any, on the building revaluation reserve relating to a previous revaluation of that asset. On the subsequent sale or retirement of a revalued property, the attributable revaluation surplus is transferred to retained profits.

Depreciation is provided to write off the cost or fair value of items of property, plant and equipment, other than construction in progress, over their estimated useful lives and after taking into account of their estimated residual value, using the straight-line method.

Where an item of property, plant and equipment together with the relevant prepaid lease payment, if any, is transferred to an investment property, any difference between the carrying amount and the fair value of that item at the date of transfer is recognised in building revaluation reserve. On the subsequent sale or retirement of the asset, the relevant revaluation reserve will be transferred directly to retained profits.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the consolidated income statement in the year in which the item is derecognised.

Interests in associates

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, investments in associates are carried in the consolidated balance sheet at cost as adjusted for post-acquisition changes in the Group's share of the net assets of the associates, less any identified impairment losses. When the Group's share of losses of associates equals or exceeds its interest in that associates (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. An additional share of losses is provided for and a liability is recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that associate.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associates recognised at the date of acquisition is recognised as goodwill. The goodwill is included within the carrying amount of the investment and is assessed for impairment as part of the investment.

Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

Where a group entity transacts with an associate of the Group, profits and losses are eliminated to the extent of the Group's interest in the relevant associate.

For acquisition of associates which involved successive share purchases for which the investment was previously accounted for at fair value with changes in fair value included in profit or loss, cumulative changes in the fair value of previously held ownership interests are reversed through profit or loss and retained profits respectively. The investee's profit or loss, changes in the investee's retained profits and other equity balances after each exchange transaction are included in the profit or loss, retained profits or the relevant reserves respectively to the extent that they relate to the previously held ownership interests.

Non-current assets held for sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of the assets' (disposal groups') previous carrying amount and fair value less costs to sell.

Prepaid lease payments

Prepaid lease payments of land under operating lease are charged to the consolidated income statement on a straight-line basis over the lease terms.

Financial instruments

Financial assets and financial liabilities are recognised on the consolidated balance sheet when a group entity becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

The Group's financial assets are classified into one of the three categories, including investments held for trading, loans and receivables and available-for-sale financial assets. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. The accounting policies adopted in respect of each category of financial assets are set out below.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective interest basis for debt instruments.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near future;
- it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

At each balance sheet date subsequent to initial recognition, investments held for trading are measured at fair value, with changes in fair value recognised directly in profit or loss in the period in which they arise. The net gain or loss recognise in profit or loss excludes any dividend or interest earned in the financial assets.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. At each balance sheet date subsequent to initial recognition, loans and receivables including loan notes, debt component of convertible bonds, debtors, loan receivables, pledged bank deposits and bank balances are carried at amortised cost using the effective interest method, less any identified impairment losses.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated or not classified as loans and receivables, held-to-maturity instruments or financial assets at fair value through profit or loss. At each balance sheet date subsequent to initial recognition, available-for-sale financial assets are measured at fair value. Changes in fair value are recognised in equity, until the financial asset is disposed of or is determined to be impaired, at which time, the cumulative gain or loss previously recognised in equity is removed from equity and recognised in profit or loss.

Impairment of financial assets

Financial assets, other than investments held for trading, are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been impacted.

For an available-for-sale equity investment, a significant or prolonged decline in the fair value of that investment below its cost is considered to be objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty;
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial assets, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments and observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, an impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of debtors and loan receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When debtors or loan receivables are considered uncollectible, they are written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date of impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Impairment losses on available-for-sale equity investments will not be reversed in profit or loss in subsequent periods. Any increase in fair value subsequent to impairment loss is recognised directly in equity.

Financial liabilities and equity

Financial liabilities and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted in respect of financial liabilities and equity instruments are set out below.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Interest expense is recognised on an effective interest basis.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing in the near future; or
- it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Other financial liabilities

Other financial liabilities including creditors and other borrowings are subsequently measured at amortised cost, using the effective interest method.

Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Derivative financial instruments

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each balance sheet date. The resulting gain or loss is recognised in profit or loss immediately.

Embedded derivatives

Derivatives embedded in non-derivative host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at fair value with changes in fair value recognised in profit or loss.

Derecognition

Financial assets are derecognised when the rights to receive cash flows from the assets expire or, the financial assets are transferred and the Group has transferred substantially all the risks and rewards of ownership of the financial assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised directly in equity is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted average method.

Impairment losses

At each balance sheet date, the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under that standard.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, such that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another standard, in which case the reversal of the impairment loss is treated as a revaluation increase under that standard.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted at the balance sheet date.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Borrowing costs

All borrowing costs are recognised as and included in finance costs in the consolidated income statement in the period in which they are incurred.

Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognised in the consolidated income statement on a straight-line basis over the term of the relevant lease.

The Group as lessee

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are recognised as a reduction of rental expense over the lease term on a straight-line basis.

Leasehold land and building

The land and building elements of a lease of land and building are considered separately for the purpose of lease classification, unless the lease payments cannot be allocated reliably between the land and building elements, in which case, the entire lease is generally treated as a finance lease and accounted for as property, plant and equipment. To the extent the allocation of the lease payments can be made reliably, leasehold interests in land are accounted for as operating leases.

Retirement benefits scheme

Payments to the Group's defined contribution scheme or Mandatory Provident Fund Scheme are charged as an expense when employees have rendered service entitling them to the contributions.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity, in which cases, the exchange differences are also recognised directly in equity.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Company (i.e. Hong Kong dollars) at the rate of exchange prevailing at the balance sheet date, and their income and expenses are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised as a separate component of equity (the translation reserve). Such exchange differences are recognised in profit or loss in the period in which the foreign operation is disposed of.

4. Key sources of estimation uncertainty

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Income taxes

As at 31st December, 2007, no deferred tax asset has been recognised in the Group's consolidated balance sheet in relation to the estimated unused tax losses and deductible temporary differences of approximately HK$744 million (2006: HK$1,235 million) and HK$9.4 million (2006: HK$34 million) respectively. The realisability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future. In cases where the actual future profits generated are more than expected, further recognition of deferred tax asset in relation to unutilised tax losses may arise, which would be recognised in the consolidated income statement for the period in which such a recognition takes place.

5. Financial instruments

Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Directors of the Company considers share capital and retained earnings are the capital of the Group. The Group's overall strategy remains unchanged from prior years.

The Directors of the Company review the capital structure by considering the cost of capital and the risks associated with each class of capital. Based on recommendations of the Directors, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the repayment of existing debt.

Financial risk management objectives and polices

The Group's major financial instruments include equity investments, loan notes, convertible bonds, loan receivables, debtors, creditors, other borrowings and bank balances. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Currency risk

Foreign exchange risk is the risk of loss due to adverse movement in foreign exchange rate relating to foreign currency denominated loan receivables, deposits and other borrowings with banks and financial institutions. The Group currently does not have a foreign currency hedging policy. However, the management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities at the reporting date are as follows:

	Assets		Liabilities	
	2007	**2006**	**2007**	**2006**
	HK$'000	*HK$'000*	*HK$'000*	*HK$'000*
United States Dollars ("USD")	130,921	80,225	11,014	–
Renminbi ("RMB")	107,221	81,512	–	–

Sensitivity analysis

As HKD is pegged to USD, the Group does not expect any significant movements in the USD/HKD exchange rates.

The following table details the Group's sensitivity to a 5% increase and decrease in HKD against RMB and all other variables were held constant. 5% is the sensitivity rate used by management in the assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding RMB denominated monetary items and adjusts its translation at the year end for a 5% change in RMB rates. A positive number below indicates an increase in profit for the year where RMB strengthen 5% against HKD. For a 5% weakening of RMB against HKD there would be an equal and opposite impact on the profit for the year.

	2007	**2006**
	HK$'000	*HK$'000*
Increase in profit for the year	5,361	4,075

Price risk

(i) Equity price risk

The Group is exposed to equity price risk through its available-for-sale investments and investments held for trading. The management manages the exposure by maintaining a portfolio of equity investments with different risk profiles.

Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to equity price risks at the reporting date.

If the prices of the respective equity instruments had been 5% higher/lower and all other variables were held constant, the Group:

- profit for the year ended 31st December, 2007 increase/decrease by HK$180,861,000 (2006: increase/decrease by HK$84,526,000) as a result of the changes in fair value of held-for-trading investments; and

- investment revaluation reserve would increase/decrease by HK$41,088,000 (2006: increase/decrease by HK$26,805,000) for the Group as a result of the changes in fair value of available-for-sale investments.

(ii) Foreign currencies risk on non-monetary items

The Group is engaged in securities trading and investments which are denominated in foreign currencies and is therefore exposed to foreign currency price risk. Approximately 15% of the Group's securities trading are denominated in currencies other than the functional currency of the group entity.

The carrying amounts of the Group's foreign currency denominated investments held for trading and available-for-sale investments at the reporting date are as follows:

	2007	**2006**
	HK$'000	*HK$'000*
USD	66,740	20,737
Australian Dollars	186,330	482,620
Malaysian Ringgit	97,483	57,701
New Taiwan Dollars	263,909	115,607

Sensitivity analysis

The following table details the Group's sensitivity to a 5% increase and decrease in HKD against foreign currencies and all other variables were held constant. USD is not included in sensitivity analysis. As HKD is pegged to USD, the Group does not expect any significant movements in the USD/HKD exchange rate. 5% is the sensitivity rate used by management in the assessment of the reasonably possible change in foreign exchange rates. A positive number below indicates an increase in profit for the year where foreign currencies strengthen 5% against HKD. For a 5% weakening of foreign currencies against HKD there would be an equal and opposite impact on the profit for the year and the investment revaluation reserve.

	2007	**2006**
	HK$'000	*HK$'000*
Increase in profit for the year	14,191	27,016
Increase in investment revaluation reserve for the year	13,195	5,780

Interest rate risk

The Group's fair value interest rate risk relates primarily to fixed rate loan notes, fixed rate convertible bonds and fixed rate loan receivables. The Group's cash flow interest rate risk relates to its variable rate loan receivables and other borrowings.

The Group currently does not have an interest rate hedging policy. However, the management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arises.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of interest rate arising from the Group's variable-rate loan receivables and variable-rate other borrowings.

If the interest rate of loan receivables and other borrowings had been 100 basis point higher/lower, the Group's profit would decrease/increase by HK$9,168,000 (2006: HK$1,679,000). This is mainly attributable to the increase in loan receivables and other borrowings.

Credit risk

The Group's credit risk are primarily attributable to trade debtors, loan notes, convertible bonds, loan receivables and bank balances.

The Group's maximum exposure to credit risk which will cause a financial loss to the Group in the event of the counterparties' failure to perform their obligations as at 31st December, 2007 in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated balance sheet.

The Group's bank balances are deposited with banks of high credit ratings in Hong Kong.

The Group has significant concentration of credit risk on loan notes, convertible bonds and loan receivables as the credit risk on loan rates, convertible bonds and loan receivables are mainly attributable from certain limited counterparties. Other than these, there is no significant concentration of credit risk in trade debtors as the exposure spread over a number of counter-parties and customers.

In order to minimise credit risk, management has delegated a team to be responsible for the determination of credit limits, credit approvals and other monitoring procedures. In addition, management reviews the recoverable amount of each individual debt, loan notes, convertible bonds, and loan receivables regularly to ensure that adequate impairment losses are recognised for irrecoverable debts. In this regard, management considers that the Group's credit risk is significant reduced.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of borrowings and ensures compliance with loan covenants.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. For derivative financial instruments, the Group has approximately HK$81,689,000 contractual cash outflow in return with listed securities within 1 year.

For non-derivative financial liabilities, the table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows.

Fair value

The fair values of financial assets and financial liabilities are determined as follows:

- the fair values of financial assets with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market bid prices and the fair values of the unit trusts have been determined by reference to the published price quotations;

- the fair values of other financial assets and financial liabilities (excluding derivative financial instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using the relevant prevailing market rates as input; and

- for the option derivative, the fair value is estimated using option pricing model (for example, the binomial model).

The Directors consider that the carrying amounts of financial assets and financial liabilities recorded in the consolidated financial statements approximate their fair value.

Business segments

For management purposes, the Group is currently organised into three operating divisions – securities trading and investments, financial services and property investment. These divisions are the basis on which the Group reports its primary segment information.

The Group was also involved in the business of mobile phone distribution which was discontinued on 31th March, 2007 *(see note 13)*.

The following table provides an analysis of the Group's revenue by geographical market:

NOTES:–

1. Basis of preparation

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

2. Principal accounting policies

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain properties and financial instruments, which are measured at revalued amounts or fair values, as appropriate.

The accounting policies used in the condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31st December, 2007.

In the current interim period, the Group has applied, for the first time, the following new interpretations ("new HKFRSs") issued by the HKICPA, which are effective for the Group's financial year beginning on 1st January, 2008.

HK(IFRIC) – INT 11	HKFRS 2 – Group and treasury share transactions
HK(IFRIC) – INT 12	Service concession arrangements
HK(IFRIC) – INT 14	HKAS 19 – The limit on a defines benefit asset, minimum funding requirements and their interaction

The adoption of these new HKFRSs had no material effect on the results or financial position of the Group for the current or prior accounting periods. Accordingly, no prior period adjustment has been made.

The Group has not early applied the following new, revised and amended standards or interpretation that have been issued but are not yet effective.

HKAS 1 (Revised)	Presentation of financial statements[1]
HKAS 23 (Revised)	Borrowing costs[1]
HKAS 27 (Revised)	Consolidated and separate financial statements[2]
HKAS 32 & 1 (Amendments)	Puttable financial instruments and obligations arising on liquidation[1]
HKFRS 2 (Amendment)	Vesting conditions and cancellations[1]
HKFRS 3 (Revised)	Business combinations[2]
HKFRS 8	Operating segments[1]
HK(IFRIC) – INT 13	Customer loyalty programmes[3]
HK(IFRIC) – INT 15	Agreements for the construction of real estate[1]
HK(IFRIC) – INT 16	Hedges of a net investment in a foreign operation[4]

[1] *Effective for accounting periods beginning on or after 1st January, 2009.*

[2] *Effective for accounting periods beginning on or after 1st July, 2009.*

[3] *Effective for accounting periods beginning on or after 1st July, 2008.*

[4] *Effective for accounting periods beginning on or after 1st October, 2008.*

The adoption of HKFRS 3 (Revised) may affect the accounting for business combination for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1st July, 2009. HKAS 27 (Revised) will affect the accounting treatment for changes in a parent's ownership interest in a subsidiary that do not result in a loss of control, which will be accounted for as equity transactions.

The directors of the Company anticipate that the application of the other new, revised and amended standards or interpretation will have no material impact on the results and financial position of the Group.

5. STATEMENT OF INDEBTEDNESS

As at the close of business on 31st December, 2008, being the latest practicable date for the purpose of this indebtedness statement prior to the printing of this Prospectus, the Group had outstanding borrowings of approximately HK$854,682,000 comprising unsecured term loan of HK$300,000,000, secured term loan of HK$65,000,000 and securities margin loans of approximately HK$489,682,000. The securities margin loans were secured by the Group's pledged marketable securities.

As at 31st December, 2008, the Group's investments held for trading, available-for-sale investments and securities brokers house deposit with respective carrying values of HK$773,077,000, HK$108,323,000 and HK$1,167,000 were pledged to securities brokers houses to secure short term credit facilities granted to the Group.

These indemnities related to the use of the Tricom tradename, the infringement of the permitted use of properties, the guarantees granted to Tricom to secure banking facilities and tax liabilities.

The Directors consider it is not possible to estimate the financial effect of the indemnities and warranty given.

7. LITIGATION

8. FUTURE PROSPECTS OF THE GROUP

Prospects

The outlook for the global financial markets remains gloomy given the lack of confidence of consumers and investors due to the mounting concerns over the well-being of the global financial system, the economic downturn in US and the growth alert for China. As the performance of the Group's investment portfolio is measured by the market-to-market accounting standards, the Group's overall performance in the second half of 2008 will be adversely affected under the prevailing turbulent financial market environment. Although the situation will be difficult and volatile, the Group however believes that there will be attractive investment opportunities available as companies and businesses become grossly undervalued. The Group will seek to take advantage of the investment and business opportunities as they arise to enhance value for its shareholders.

9. MATERIAL CHANGE

As at the Latest Practicable Date, save as disclosed in the interim report 2008 of the Group and that the performance of the Group's investment portfolio is measured by the mark-to-market accounting standards, and therefore the Group's overall performance in the second half of 2008 will be adversely affected under the prevailing turbulent financial market environment, there are no material change in the financial or trading position or outlook of the Group since 31st December, 2007, being the date of which the latest published audited financial statements of the Group were made up.

7. LITIGATION

(a) In November, 1998, a writ was issued against the Company's subsidiaries, Hongkong Digital Television Limited ("Digital TV", formerly Star Interactive Television Limited) and Star Telecom Services Limited ("STSL", formerly Hong Kong Star Internet Limited) by nCube Corporation ("nCube"), claiming the sum of approximately US$1,980,000 (equivalent to approximately HK$15,305,000) plus interest in relation to the alleged purchase of two MediaCube 3000 systems by Digital TV from nCube. The claim of nCube against STSL was on the basis of a chop of STSL on the contract between Digital TV and nCube. STSL had taken legal advice and had been advised that it was very unlikely that STSL would be held liable to the claim of nCube. Digital TV was also opposing the claim of nCube and had taken legal advice.

As advised by its lawyers, Digital TV had reasonable grounds in defending the claim and, accordingly, had not made any provision in the consolidated financial statements in connection with the claim. Digital TV filed a defence in this section on 14th December, 1998 and nCube had failed to take further action since that date. There was no progress since then in respect of the litigation.

(b) Stellar One Corporation ("Stellar One") served a statutory demand under Section 178 of the Companies Ordinance for the sum of approximately US$1,152,000 (equivalent to approximately HK$8,983,000) upon Digital TV in November, 1998. Stellar One filed a winding up petition against Digital TV in December, 1998 which was vigorously opposed by Digital TV. Digital TV applied for an order for security for the costs against Stellar One. On 4th May, 1999, the Court ordered Stellar One to pay HK$200,000 to the court as security for the costs of Digital TV on or before 7th May, 1999. Stellar One failed to pay that amount to the court.

The petition was dismissed in November, 1999 and Stellar One was to pay Digital TV its cost of the petition, which amounted to HK$254,000. Stellar One had indicated that it would proceed to arbitration in Honolulu to recover the alleged amount. Digital TV took legal advice and was advised that the arbitration proceedings had not commenced as of the date of this document. As advised by its lawyers, Digital TV had reasonable grounds in defending the claims and, accordingly, had not made any provision in the consolidated financial statements in connection with the claims.

Save and except for the matters specified above, neither the Company nor any of its subsidiaries is engaged in any litigation or claims of material importance and, so far as the Directors are aware, no litigation or claims of material importance are pending or threatened by or against any companies of the Group.
