## 2024 ANNUAL REPORT

\* For identification purpose only

## **CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)**

**GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.**

**Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to higher market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.**

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

*This report, for which the directors (the “Directors”) of C&N Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief (1) the information contained in this report is accurate and complete in all material respects and not misleading and deceptive; (2) there are no other matters the omission of which would make any statement herein or this report misleading; (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.*

# Chairman's Statement

## TO OUR SHAREHOLDERS

On behalf of the board (the "Board") of directors (the "Directors") of C&N Holdings Limited (the "Company", together with its subsidiaries, the "Group"), I present the annual results of the Group for the year ended 31 December 2024, together with the comparative figures for the year ended 31 December 2023.

Our customers are mainly logistics service providers along the supply chain in Singapore and Hong Kong. The cargoes that we transport for our customers include various types of plastic resin, scrap steel, paper products and others. These cargoes are mainly for import/export business, hence any disruptions in the global trade economy will directly impact our customers, and hence the Group.

## REVIEW

Our Group's revenue comprised of revenue from provision of transport and storage services to the logistics industry in Singapore and Hong Kong. For the year ended 31 December 2024, the revenue of the Group increased by approximately S\$2,344,000 or approximately 10.0% to approximately S\$25,808,000 compared to the year ended 31 December 2023.

The Group's gross profit of approximately S\$1,243,000 for the year ended 31 December 2023 to increased to approximately S\$2,745,000 for the year ended 31 December 2024. Gross profit margin increased from 5.3% for the year ended 31 December 2023 to 10.6% for the year ended 31 December 2024. The increase in gross profit margin is mainly due to the decrease in cost of diesel as compared to the year ended 31 December 2023.

The Group recorded a loss for the year of approximately S\$412,000 for the year ended 31 December 2024 compared to a loss for the year of approximately S\$5,114,000 for the year ended 31 December 2023.

## PROSPECTS

Considering 2025 to be an unprecedented year, Singapore is forecasting its gross domestic product ("GDP") forecast to grow at 1% to 3%. We have already witnessed the impact of COVID-19 on trade activities in 2021, and we believe that the economy and our Group is better prepared for any potential disruptions resulting. The coming year promises to continue to be a challenging and volatile year for the Group. Management is constantly monitoring the global trade economy and in constant discussion with our customers to understand the situation and their needs. Besides, in order to increase shareholder's return, the Group will put efforts to evaluate the feasibility of obtaining necessary licenses to carry out various transport management services to the logistics industry in other Asian countries.

## APPRECIATION

On behalf of the Board, I would like to thank shareholders and our business partners, suppliers and customers for their continuous support to the Group. My heartfelt appreciation also goes to our management and colleagues for their dedication and valuable contributions to the Group in the past year. We will pragmatically develop our business and strive for the best return for our shareholders.

**Fung Mee Kuen**

# Management Discussion and Analysis

## BUSINESS REVIEW

The Group is a provider of transport and storage services to the logistics industry in Singapore and Hong Kong, offering trucking and hubbing services to the customers. Trucking services refer to the delivery of cargo, primarily containers, from our customers' designated pick up point to their designated delivery point. Hubbing services refer to the handling and storage of laden and empty containers at the Group's logistics yard or other locations designated by the customers.

Led by our experienced management team, we have developed a reputation as a reliable transport and hubbing services provider equipped with a large vehicle fleet that is capable of handling large volumes of customer orders.

Our customers are mainly logistics service providers along the supply chain in Singapore and Hong Kong, the cargoes that we transport for our customers include various types of plastic resin, scrap steel, waste paper products and others. These cargoes are mainly raw materials used in factory production, hence the resumption of activities in ports and factories will directly have a positive impact on our customers, and hence the Group.

## FINANCIAL REVIEW

### Revenue

The Group's revenue comprised of revenue from provision of transport and hubbing services to the logistics industry in Singapore and Hong Kong. For the year ended 31 December 2024, the revenue of the Group increased by approximately S\$2,344,000 or approximately 10.0% to approximately S\$25,808,000 compared to the year ended 31 December 2023. The increase was mainly attributable to the increase in revenue from trucking services. The following table sets forth the revenue of the Group by revenue type for the periods indicated:

	2024		2023	
	S\$'000	%	S\$'000	%
Trucking services	24,571	95.2	21,336	90.9
Hubbing services	1,237	4.8	2,127	9.1
	<b>25,808</b>	<b>100.0</b>	23,463	100.0

### Revenue from trucking services

Revenue from trucking services increased by approximately S\$3,235,000 to approximately S\$24,571,000 for the year ended 31 December 2024, representing an 15.2% increase. The increase was mainly due to increase in trading volume.

# Management Discussion and Analysis

## Revenue from hubbing services

Revenue from hubbing services decreased by 41.8% or approximately S\$890,000. It is common for customers to request for us to truck the containers, and also provide storage space for these containers while waiting for vessels to arrive at port before we can truck the containers over for loading. Customers that require hubbing services are generally those whom have large volume in the import and export of goods, who are mainly freight forwarders and global logistics companies.

However, the increase/decrease in hubbing revenue will not be proportionate to the trend in revenue from trucking services due to the following reasons: (i) different customers and different job orders may have different service requirements, such as different sizes of containers and number of storage days, hence revenue earned will differ; and (ii) not all our customers require hubbing services.

For the year ended 31 December 2024, the vessels started to arrive more timely reducing the need for extended hubbing hence the decrease in revenue from hubbing services.

## Gross (loss)/profit

The overall gross profit of approximately S\$1,243,000 for the year ended 31 December 2023 increased to approximately S\$2,745,000 for the year ended 31 December 2024, mainly due to the decrease in cost of diesel as compared to the year ended 31 December 2023. The overall gross profit margin from 5.3% for the year ended 31 December 2023 increased to profit of 10.6% for the year ended 31 December 2024. The table below sets forth a breakdown of gross profit and gross profit margin by revenue type for the periods indicated:

	2024		2023	
	S\$'000	Gross profit margin	S\$'000	Gross profit/(loss) margin
Trucking services	2,220	9.0	2,729	12.8
Hubbing services	525	42.4	(1,486)	(69.9)
	<b>2,745</b>	<b>10.6</b>	1,243	5.3

## Gross (loss)/profit from trucking services

The gross profit margin for trucking services decreased from approximately 12.8% for the year ended 31 December 2023 to profit of approximately 9.0% for the year ended 31 December 2024 mainly due to the increase in cost of diesel as compared to the year ended 31 December 2023. As more than a third of the costs for trucking services pertained to fixed costs like wages and depreciation, an increase in cost of diesel will decrease the gross profit margin.

## Gross (loss)/profit from hubbing services

The gross profit margin for hubbing services decreased from loss of 69.9% for the year ended 31 December 2023 to profit of approximately 42.4% for the year ended 31 December 2024 mainly due to more timely arrival of vessels that resulted in the decrease in need from customers for hubbing services.

# Management Discussion and Analysis

## Other income and gains

Other income and gains decreased by approximately S\$102,000 from approximately S\$175,000 for the year ended 31 December 2023 to approximately S\$73,000 for the year ended 31 December 2024. The decrease was mainly attributed to the decrease of gain on disposals of property, plant and equipment as compared to the year ended 31 December 2023.

## Administrative expenses

Administrative expenses comprised mainly of office expenses, staff costs, auditor's remuneration and compliance costs. Total administrative expenses decreased to approximately S\$2,965,000 for the year ended 31 December 2024 from approximately S\$6,297,000 for the year ended 31 December 2023.

## Income tax expense

The Group's income tax expense was amounted to approximately S\$9,000 for the year ended 31 December 2023, while there was no income tax expense for the year ended 31 December 2024.

## Loss for the year

Due to the combined effect of the aforesaid factors, we recorded a loss of approximately S\$412,000 for the year ended 31 December 2024, representing a decrease of approximately S\$4,702,000 as compared to the loss of approximately S\$5,114,000 for the year ended 31 December 2023.

## Liquidity and Financial Resources and Capital Structure

As at 31 December 2024, the Group had total assets of approximately S\$16,865,000 (2023: approximately S\$17,588,000), which is financed by total liabilities and shareholders' equity (comprising share capital, share premium and retained earnings) of approximately S\$2,924,000 (2023: approximately S\$3,465,000) and approximately S\$13,941,000 (2023: approximately S\$14,123,000) respectively. The current ratio as at 31 December 2024 of the Group was approximately 3.9 times (2023: approximately 3.1 times).

As at 31 December 2024, the Group had cash and cash equivalents of approximately S\$624,000 (2023: approximately S\$1,665,000) which were placed with major banks in Singapore and Hong Kong.

The bank borrowings and lease liabilities of the Group as at 31 December 2024 was approximately S\$1,076,000 (2023: approximately S\$1,568,000). The gearing ratio (calculated based on bank borrowings and lease liabilities divided by total equity) of the Group as of 31 December 2024 was 7.7% (2023: 11.1%).

## Foreign Exchange Exposure

The Group transacts mainly in Singapore dollars, which is the functional currency of all the Group's operating subsidiaries. However, the Group retains a large part of its proceeds from the Share Offer in Hong Kong dollars which contributed to a foreign exchange loss of approximately S\$3,000 (2023: loss of approximately S\$112,000) as Hong Kong dollars depreciated (2023: depreciated) against Singapore dollars.

# Management Discussion and Analysis

## Future Plans for Material Investments and Capital Assets

Save as disclosed in the Company's prospectus dated 6 October 2017 (the "Prospectus") and in this report, the Group did not have other plans for material investments or capital assets as of 31 December 2024.

## Material Acquisitions and Disposals of Subsidiaries, Associates and Joint Ventures

## Employee Information and Remuneration Policies

As at 31 December 2024, the Group had an aggregate of 121 employees (2023: 130).

The employees of the Group are remunerated according to their job scope and responsibilities. The local employees are also entitled to discretionary bonus depending on their respective performance. The foreign workers are employed on one or two year contractual basis and are remunerated according to their work skills.

Total staff costs, including Directors' emoluments, amounted to approximately S\$6,567,000 for the year ended 31 December 2024 (2023: approximately S\$6,852,000).

The Group did not experience any significant problem with our employees or disruptions to our operations due to labour disputes, nor did the Group experience any difficulty in the recruitment and retention of experienced employees. The Group continues to maintain a good relationship with our employees.

# Management Discussion and Analysis

## Prospects

The Group continues to strive towards providing customers with timely delivery and storage of their containers, continuing our growth strategy and enhancing overall competitiveness and market share in Singapore. The Singapore economy has decelerated considerably since the end of last year. The slowdown is largely due to contractions in the trade-related sectors amid the ongoing global manufacturing and trade downturn, especially in electronics.

The year promises to continue to be a challenging and volatile year for the Group. Management is constantly monitoring the global trade economy and in constant discussion with our customers to understand the situation and their needs.

The future plans of the Group are detailed in the section headed “Future Plans and Use of Proceeds” in the Prospectus. As disclosed in the Prospectus, the Company expects to: (a) maintain growth in the industry and enhance overall competitiveness and market share in Singapore; (b) increase service capacity through the acquisition of new vehicles; (c) enhance and expand the Group’s workforce to keep up with the Group’s business expansion; (d) purchase a new office to incorporate an increase in workforce; and (e) enhance the Group’s information technology system. With the uncertainty in the global trade economy, the Group is cautious with its expansion plans.

## Pledge of Assets

As at 31 December 2024, the carrying amounts of the Group’s properties and bank deposits of S\$948,053 and S\$535,373 respectively were pledged for the Group’s secured bank borrowings.

## Share Option Scheme

The Company has a share option scheme (the “Share Option Scheme”) which was approved and adopted by the sole shareholder of the Company by way of written resolutions passed on 25 September 2017. Details of the Share Option Scheme can be found on pages 53 to 56 of this annual report.

Code Provision A.2.1 of the CG Code provides that the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Currently, the Company does not has a director acting as the chairman and the chief executive officer. Therefore, the Directors consider there is no deviation from Code Provision A.2.1 of Appendix 15 to the GEM Listing Rules.

The Board will continue to review the effectiveness of the corporate governance structure of our Group in order to assess whether separation of the roles of the chairman and chief executive officer is necessary.

## Directors' Independence

The Board has reviewed the relationship among all Directors and is satisfied that they are independent from any financial, business, family or other material/relevant relationship(s).

Each independent non-executive director has provided their annual independence confirmations based on which the Board is satisfied that all independent non-executive directors are independent and in compliance with the independence guidelines set out in the GEM Listing Rules 5.09.

## Directors' Training and Continuous Professional Development

Directors are aware of Code Provision A.6.5 regarding continuing professional development programme for directors. Every director is required to keep abreast of his responsibilities as a Director and of the conduct, business activities and development of the Company.

On appointment to the Board, each Director receives a comprehensive induction package covering business operations, policy and procedures of the Company as well as the general, statutory and regulatory obligations of being a Director to ensure that he/she is sufficiently aware of his/her responsibilities under the GEM Listing Rules and other relevant regulatory requirements.

The Directors are regularly updated and apprised of the amendments to or updates on the relevant laws, rules, regulations and guidelines, particularly the effects of such new or amended laws, rules, regulations and guidelines on directors specifically, and the Company and the Group generally. On an ongoing basis, Directors are encouraged to keep up-to-date on all matters relevant to the Group and to attend briefings, seminars and relevant training courses as appropriate.

During the year ended 31 December 2024, all Directors have participated in continuing professional development by attending training courses organised by the Company and reading relevant materials on topics related to corporate governance and regulatory matters. The Directors have confirmed that they have received the trainings as follows:

## Stakeholder's Feedback

Stakeholders' feedbacks on our ESG matters are highly welcomed. We will consider stakeholders' comments serious and take relevant actions (if any) to improve our overall ESG performance.

Our Stakeholders can provide their feedback to us at [business@cnlimited.com](mailto:business@cnlimited.com).

## CARE FOR OUR ENVIRONMENT

We have taken into account factors concerning environmental protection, and will continue to devote operating and financial resources on environmental compliance as required under applicable laws or regulations. These relate to air and greenhouse gas emissions ("GHG"), discharges into water and land, and generation of hazardous and non-hazardous waste, including, but not limited to The Environmental Protection and Management Act (Chapter 94A of Statutes of Singapore) ("EPMA").

### Environment

#### *Air & GHG Emission management*

The principal greenhouse gas ("GHG") emissions of the Group are direct GHG emissions from gasoline generated through logistic operation, energy indirect GHG emissions generated mainly from purchased electricity, and indirect GHG emissions mainly generated from paper consumption. We have implemented certain operational measures and minimized consumption by improving the efficiency of our workflow.

#### *Conservation Practices*

During daily operation and office administration, the Group generates GHG emissions directly or indirectly through resource consumption. To properly manage our GHG emissions, the Group actively adopts conservation and monitoring measures. We adopt digitized office to minimize paper usage, conduct regular vehicle maintenance and monitor fuel consumption, phase out any vehicles that fail to satisfy the standards of the national emission policy, purchase regular diesel and gasoline for vehicles, and conduct annual inspections to ensure the compliance with national emission standards, encouraging

# Environmental, Social and Governance Report

modern telecommunication system to avoid unnecessary travel arrangement; and encouraging employees to switch off IT devices such as computers and monitors when not in use. These are some of our conservation practices to increase our employees' awareness of reducing GHG emissions.

## **Our Environmental Compliance Status**

In the reporting period, the Group has complied with relevant laws and regulations that have a significant impact on the Group relating to air and greenhouse gas emissions, discharges into water and land, and generation of hazardous and non-hazardous waste, including but not limited to:

- ☑ Environmental Public Health Act (EPHA) of Singapore.
- ☑ Environmental Protection and Management Act (EPMA) of Singapore.
- ☑ Hazardous Waste (Control of Export, Import and Transit) Act (HWA) of Singapore.

## **Use of Resources**

### **Consumption Efficiency Management**

The energy consumed by the Group in the operation are mainly electricity and diesel. The major energy consumption of the Group during its daily operation is electricity consumption in the operation, and gasoline consumption via logistic operation.

The Group regards reducing energy consumption and recycling of resources as priorities during operating processes. We keep improving our efficient minded management system and have implemented various resource conservation protocol and introduce more systematic software, which enable us to increase the efficiency of operation and thus reduce the consumption of diesel.

The Group is committed to establishing an electronic automated office. The office makes full use of the online system, while general business notices, communication and data transmissions are conducted through the internet system, and has established electronic workflows. Printing and copying are minimized to the largest extent to reduce paper usage, while double-side printing is also encouraged in the office.

The Group has formulated rules and regulations to achieve the goal of energy saving and efficient consumption. The relevant specific measures such as selecting energy-efficient equipment and electrical appliances, turning off all unnecessary lights, air conditioners, computers and other office equipment in office areas, forbidding the run of idle vehicles and equipment.

### **Water consumption**

In Singapore, water is supplied by the government and post no sourcing risk to our operation.

# Environmental, Social and Governance Report

The water consumption of the Group mainly comes from the office water consumption. We encourage all employees to develop the habit of conserving water consciously. The Group also discharges domestic sewage in our office premise during daily operation, which is discharged into the urban sewage pipe network. As water is supplied by the Government in Singapore and in consideration of our minimal water consumption needs, we do not have issues with sourcing water.

## Waste Management

Our operation did not generate significant amount of non-hazardous waste, including water wastage/pollution. The non-hazardous wastes generated by the Group's business activities are domestic waste and paper. Such wastes will eventually be collected and processed by general waste service providers.

## The Environment and Natural Resources

Through a series of measures to conserve electricity and diesel that have been introduced above, the Group continues to explore possible measure towards the building of a reliable, resilient and sustainable corporation that pioneers in the logistic industry in Singapore. The Group is committed to providing employees with a comfortable and green working environment to enhance work efficiency. The Group maintains office discipline and environmental hygiene and keeps the personal office area and public areas clean and tidy. We will deal with any identified problems and potential risks in time to maintain a sound working environment.

Our operation policy and process comply with all relevant environmental laws and regulations in relation to the waste disposal and environmental pollution management including Environmental Public Health Act, and Environmental Public Health (General Waste Collection) Regulations. In the Reporting Period, no non-compliance of the relevant regulations regarding emissions or environmental issues has been identified.

The ESG committee suggests a target reduction program on natural resource consumption as shown as below in the way of closely monitoring to minimize unnecessary usage and other principal mentioned in previous section.

RESOURCES	ACCUMULATED TARGET REDUCTION IN % ACHIEVING ON				
	2025	2026	2027	2028	2029
DIESEL <sup>1</sup>	1%	1.4%	1.6%	1.8%	2.0%
ELECTRICITY <sup>2</sup>	1.5%	1.7%	1.9%	2.1%	2.3%
WATER <sup>3</sup>	1.5%	1.7%	1.9%	2.1%	2.3%

Reduction plans

- <sup>1</sup> enhance the maintenance and overhaul of equipment and maintain the condition of all vehicle regularly.
- <sup>2</sup> Promote and adopt energy-saving equipment. Turn off all unnecessary lights, air-conditioning and equipment.
- <sup>3</sup> Conduct checking and maintenance on water pipes to avoid any leakage of faucets and gaskets as well as other issues in the water supply system on a regular basis.

## Climate Changes Impact

In assessing the climate changes impact on the Group, the Group takes reference to the recommendations and approach set out by The Task Force of Climate-related Financial Disclosure (“TCFD”).

The ESG Committee measures the climate change impact by the following two dimensions:

### Physical Risk

- Referring to direct damage to assets and indirect impacts from supply chain disruption that may have financial implications for the Group. Physical risk can be event driven (as “Acute Events risk”) or gradually shifted over in a period of time (as “Chronic Shift risk”).

### Transition Risk

- Referring to a situation where the transition to a lower-carbon economy may entail extensive policy, legal, technology, and market changes to address mitigation and adaptation requirements related to climate change.

The ESG Committee has also put the following into the considerations:

1. The overall climate change situation and government initiatives in Singapore, such as
  - A. The Singapore Green Plan 2012 (SGP2012)
  - B. The Sustainable Singapore Blueprint (SSB) 2015
  - C. Climate Action Plan: Take Action Today, For a Carbon-Efficient Singapore
2. The trends and practices of the logistic industry in Singapore.
3. The particular business model and features of operations of the Group, of which the key features are:

#### Singapore's Feature

- Promoting the use of electricity cars
- Vehicle and Fuel standards are tightening
- No direct physical risk at large for Singapore at large

#### Industry's Feature

- Disruptive technology has not emerged yet
- No industry-specific regulation yet

#### Group's Features

- We have been optimizing our transportation route
- We have been using Euro VI standards trucks

# Environmental, Social and Governance Report

The ESG Committee has considered all relevant risks in relation to climate changes impact and believes that the Group is more likely to be subject to 1) Political & legal risk 2) Reputation risk and 3) Chronic Shift risk as graphically presented below.

### <Risk Level Consideration in relation to Climate Change Impact>

To the best judgement of the Group, the Group is considered to be subjected to the following climate change impacts to which the Group has developed relevant action plans to manage them as presented in below table. The Group is committed to monitor and update our climate changes impact from time to time.

Relevant Climate Change risk	Indicator	Potential Climate Change Impact on the Group
<b>Political &amp; Legal risk</b>	Singapore is on a trend of acquiring trucks and mover, eventually most type of vehicles to meet Euro VI emission standards.	The Group has been adopting a plan of using Euro VI compliant Vehicle.
<b>Political &amp; Legal risk</b>	Fuel cost may rise or may be subject to direct or indirect environmental tax.	The Group has a plan to negotiate a cost sharing scheme with customers if such risk is materialized.
<b>Reputation risk</b>	Our customers may have an expectation that require the Group to be environmentally friendly.	We have already put in place an ISO 14001 certified Environmental Management System.

Notes to above table:

- <sup>1</sup> GHG emissions data is presented in terms of carbon dioxide equivalent and are based on, but not limited to, “Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purposes) in Hong Kong” 2010 Edition and Appendix II: Reporting Guidance on Environmental KPIs” issued by the Hong Kong Stock Exchange.
- <sup>2</sup> Intensity is calculated by the emissions by the Group’s revenue for FY2024 (approximately S\$25.81 million).
- <sup>3</sup> Major source of Scope 1 emission came from usage of Diesel.
- <sup>4</sup> Major source of Scope 2 emission came from usage of purchased electricity.
- <sup>5</sup> Major source of Scope 3 emission came from processing fresh water and sewage by government departments.
- <sup>6</sup> Our operation does not generate hazardous waste.
- <sup>7</sup> Domestic waste totals have been deemed immaterial to our operations. Thus, we do not maintain relevant record.
- <sup>8</sup> Packaging material usage is insignificant in our operation process. Thus, we do not maintain relevant record.

## CARE FOR OUR EMPLOYEE

We believe that employees are the most important asset of an enterprise and the core driving force for continuous development. We are committed to improving the employment system and striving to provide employees with comprehensive protection of their rights and interests.

As we uphold the principles of openness, fairness, and impartiality, we advocate employee diversity and resolutely oppose discrimination, striving to eliminate any injustice to candidates and employees arising from factors such as gender, age, race, religious beliefs and gender orientations.

# Environmental, Social and Governance Report

## Employment and Labour Standards

Our Human Resource Department is responsible for monitoring the employment matters of the Group. All our employees are subjected to proper evaluation and approval by management at appropriate level before they are hired, remunerated, promoted or terminated. All our employees are treated in the principle of equal opportunity in the ways that they are hired, compensated and promoted in accordance to the merits and contributions they bring to the Group, which can be subjectively and fairly measured in accordance to their educations, experience, qualification, loyalty, efficiency and achievements at works.

We have established standard contractual process, operational procedures and effective system (e.g. attendance recording) to ensure our employee are remunerated fairly in accordance to our approved remuneration policy and working in a friendly environment where their working hours, entitled holidays and other benefits such as pension contribution are protected in accordance to the relevant laws and regulations.

We do not tolerate any forms of harassments and discrimination at our workplace or amongst our employees. We take proactive steps to ensure we are not engaged in any forms of forced labour and child labour, including verification of their identities at inception and on regular basis.

In daily operation, we encourage our employees to communicate with their department head or our Human Resources Department to express their views, needs and concerns. In addition, the Group has established a whistleblowing policy and related reporting mechanism through which our employees and any third parties can report their concerns over fraud, misconduct and/or non-compliance to our Executive Director who is responsible for reviewing the concerns and commence investigations when necessary.

## Workforce Composition

As at 31 December 2024, the Group has a total full-time workforce of 121 employees (2023: 130) inclusive of the 2 Directors of the Board, with breakdowns presented:

By geographical region, 109 staffs are residing and operating in Singapore and 12 staffs are residing and operating in Hong Kong. During the year, the Group did not employ part-time or temporary staff, including the use of agents and outsourced staff. The overall employee turnover rate of the year is 6.9%, with further breakdowns by different categories presented.

The ESG Committee has made an assessment and considered our turnover relatively healthy and stable.

# Environmental, Social and Governance Report

Note: The turnover rate is arrived based on dividing the number of leavers over the year by the averaged total of employee of 2023 and 2024 reporting periods.

## Overall Employment Compliance Status

During the reporting period, the Group has complied with relevant laws and regulations, including those listed below that have a significant impact on the Group relating to compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination, other benefits and welfare and preventing child and forced labour.

- The Employment Act (Cap. 91)
- The Employment of Foreign Manpower Act (Cap. 91A)
- The Employment of Foreign Manpower (Work Passes) Regulations 2012
- The Employment of Children and Young Persons Regulations
- The Employees' Compensation Ordinance of Singapore
- The Central Provident Fund Act (Chapter 36)

## Welfares and safeguards

A sustainable and stable workforce is the means to better facilitate every parties, creating common values with the hope to deliver up-standard quality service for a sustainable development and future.

To achieve the goal, we also put a strong emphasis on ensuring comprehensive welfares and safeguards for employees. The Group implemented a compensation and benefits system to further provide employees with competitive remuneration. On top of legislated requirements relating to employee compensation, our full-time employees are entitled to medical care, dental benefits, business travel accident insurance, matrimonial leave and paternity leave.

# Environmental, Social and Governance Report

We are eager to provide a harmonious working environment for our employees. We offer various leisure and gathering events to light up the office atmosphere and enhance bonding among employees.

## Health and Safety

We are committed to providing a safe and healthy workplace to all our employees. Occupational health and safety concerns primarily stem from the use, handling, storage, transportation and maintenance of the equipment within the premises and in the customers' job sites. The Group believes that health and safety at work involves both the prevention of harm and the promotion of employees' well-being.

To provide and maintain a safe, clean and environmentally friendly working condition for employees, the Group has established protocol and guidelines regarding safety and health, which are in line with relevant laws and regulations in Singapore including, but not limited to The Workplace Safety and Health ("WSH") Act and The Workplace Safety and Health (Incident Reporting) Regulations of Singapore.

Health and safety requirements are incorporated into the Group's policies for all employees to comply with, which can be assessed in our safe work procedures and employee handbook (e.g. smoking and abuse of alcohol and drugs are prohibited in the workplace).

The Group provides induction programs and safety training programs to new employees such that they can be familiar with our protocol in relation to health and safety matters as quickly as they can. The Group also maintains the risk management system including procedures of identification and prevention of risks and hazards in the working area and follow-up actions for accidents or personal injuries.

In the past three years, we have not encountered any work-related fatalities.

There are occasions where minor traffic accidents occurred in the course of our logistic operation. Whenever our drivers are injured in the accidents, we have always fairly compensated them and the related costs are fairly covered by our insurance policy.

The following table indicates our rate of work-related injuries, to which the Directors consider satisfactory.

<b>Work-related injuries table</b>	<b>FY2022</b>	<b>FY2023</b>	<b>FY2024</b>

## **Special Note: Our Effort to Fight COVID-19**

In relation to the COVID-19, our Group and operations have fulfilled all the lockdown and quarantine requirement imposed in Singapore. In addition, we have also established a contingency plan that includes but not limited to the following safety measures:

1. We must sanitize our workplace regularly
2. We allow flexible working place and hours, including work from home when necessary
3. We require the maintenance of a social distance of at least 1 meter at our workplace

# Environmental, Social and Governance Report

4. We require our employee to wear mask all the time
5. We require our employee to report their temperature twice daily
6. We use the SafeEntry apps to keep record of our check-in at our workplace
7. We develop a reporting mechanism to timely escalate suspected/confirmed cases to our management
8. We develop evacuation procedures for suspected/confirmed cases

## Overall Health and Safety Compliance Status

In the reporting period, the Group has complied with relevant laws and regulations, including but not limited to the below listed, that have a significant impact on the Group relating to providing a safe working environment and protecting employees from occupational hazards.

- Workplace Safety and Health Act (CHAPTER 354A) of Singapore
- The Workplace Safety and Health (Incident Reporting) Regulations of Singapore.

## Development and Training

It is our policy to provide sufficient and relevant training to our employee for the purpose of their development in respect of professional knowledge, industry skill, physical health and safety and compliance awareness.

At oversight and management level, our Group has provided annual trainings to our Directors and Senior Management on topics of corporate governance and regulatory compliance to ensure they are updated with latest regulatory requirements or market trends.

### Occupational Training

At operational level, we provide induction and refresher courses to ensure that the drivers are up to date with the latest safety regulations, while our customers may also conduct their own safety courses for our drivers who operate within their premises.

For example, regular toolbox meeting with drivers were regularly conducted. The constant on-the-job training mainly cover the areas of health and work safety, occupational skills and knowledge and compliance, such as driver safety. Since these are incorporated into the normal operations, we do not record it in detail. We consider each driver, who are usually male employee, should have received at least 6 hours of training in the reporting period.

### Compliance Training

We also provide external training courses on topic of governance and compliance which are mainly provided by relevant professionals. In the reporting period, we have arranged a two-hours training course for our Directors and Senior Officers on the topic of listing rules and anti-corruption.

# Environmental, Social and Governance Report

## Anti-Corruption Training

For Anti-Corruption training, the Group has rolled out a continuous training plan under which our Management will roll out a training plan to our general office and drivers on a rotation basis with a target to achieve a 100% full training coverage in 4 years.

Our anti-corruption training shall take reference to the relevant guidelines published by anti-corruption authorities in Singapore and Hong Kong.

## ANTI-CORRUPTION SYSTEM

Our business model and operating procedures are inherently subjected to lower risk of anti-corruption and money laundering.

By our Anti-corruption policy, we prohibit all forms of bribery, extortion, fraud and money laundering and require all employees to strictly abide by professional ethics. All employees are expected to have high degree of integrity, to act fairly and professionally, and to abstain from engaging in bribery activities or any activities which might exploit their positions against the Group's interest.

Nevertheless, our internal control system covers these areas are highlighted below:

### 1. Established Policy

Expected behaviors and Prohibited acts, such as bribery, management collusion and money laundering are set out in the anti-corruption policy and anti-money laundering policy, which are communicated to our directors, management and employees from time to time.

### 2. Daily Management

Our Executive Director and Human Resources Director are highly involved in our daily operations. They are responsible for detecting and dealing with any identified or suspected corrupted acts. We encourage our employees to report to them of any concerns too.

### 3. Whistleblowing

We have established a whistleblowing policy and related reporting mechanism to facilitate goodwill whistleblowing that will be handled by our Executive Director who will be instructed by the Board to conduct necessary investigation of goodwill whistleblowing cases. Our whistleblowing policy is circulated to our management and employee with a guarantee that goodwill whistleblowers are protected from any forms of discrimination, retaliations and/or harassment.

### 4. Training

The Group has rolled out a continuous training plan on anti-corruption to enhance the ethic awareness of our employees.

# Environmental, Social and Governance Report

## Overall Anti-Corruption Compliance Status

The Group has not encountered any corruption cases in the past 3 years.

In the reporting period, the Group has complied with relevant laws and regulations, including but not limited, to the below listed that have a significant impact on the Group relating to bribery, extortion, fraud and money laundering.

Prevention of Bribery Ordinance Cap. 201 of Hong Kong

Prevention of Corruption Act of Singapore

In the Reporting Period, the Group has no suspicious or confirmed cases relating to bribery, extortion, fraud and money laundering.

## CRITICAL SUPPLIERS' MANAGEMENT

As of 31 December 2024, the Group is engaged with 4 critical suppliers in the area of port, diesel, tyres and land rental, who are of most relevance and significance to our businesses. These critical suppliers are all located in Singapore. The Group believes that managing the environmental and social risks of these critical suppliers will facilitate the sustainability of the Group and prevention of related financial and operational impact to the Group.

### Suppliers' Selection

We established a stringent supplier selection process which also takes environmental and social risk control of suppliers into account. As we only have a handful of long-time-history critical suppliers, our Executive Director and Senior Management monitor their performance very closely on daily basis, including whether they would use and provide us any environmental unfriendly products.

In the Reporting Period, we are not aware of any environmental or social non-compliance committed by our critical suppliers.

### Suppliers' Code of Conduct

The Group has also developed a suppliers' code of conduct and expect our suppliers and business partners shall understand and share our values and be compliant with all relevant laws and regulations in relation to environmental protection, labor protection and anti-corruption. By our code requirement, the Group shall take appropriate remedial actions on suppliers if their operations go against our environmental and social values and/or principles.

In the course of selecting our suppliers, the Group has been keeping environmentally preferable products and services as an important indicator, among all key considerations such as costs, quality of service and requirements of suppliers. The Group has assessed our critical suppliers, including the following dimensions and form a view that they are providing products and service that meet the relevant environmental and social standards.

- The products supplied by our material suppliers meet the quality standards of the Group.
- They are subject to their own licensing requirements, including the protection of their labors.

## QUALITY SERVICE MANAGEMENT

As a leading transport and storage service provider in Singapore, our Group offers trucking and hubbing services to our customers locally and globally. We listen to the voices of our customers by providing responsive and attentive workforce equipped with up-to-date tools & equipment. The Group believes it can effectively extend its ESG values and manage relevant environmental and social risks so as to maintain and enhance the Group's competitive advantage.

In the Reporting Period, we have maintained a sizable logistic fleet, comprising of prime movers, trailers, reach stackers, forklifts, lorries and light vehicles. We provide our services through our qualified drivers responsible for handling and storage of empty containers and laden at our logistics yard, which is regarded as hubbing services, and for providing timely and quality cargo delivery service from pick up station to delivery station designated by customers, which is regarded as trucking service.

We have also invested and applied certain technological device and systems that would promote workflow timeliness and accuracy and abate the workload of our staff. For example, our operational system facilitates the matching and reconciliation of key operation data with our key business partners' database automatically on a daily basis.

### Our value chain

Our Group's main business segment falls within the Transportation services of the value chain in Port logistic services. Being a leading transportation and logistics group in Singapore, the Group endeavors to up-keep the reputation, and build and excel in the business performance. Over the years, the Group managed to have a stable and close relationship with a list of suppliers who keep providing quality goods and services in contribution to our business.

### Quality management

The Group emphasizes the quality management of its services and is committed to providing customers with reliable and flexible services. Our quality control policy can be divided into two segments and they have provided a solid platform for us to deliver our services in a reliable and flexible manner to meet our customer's ever-changing demand and market needs.

We have implemented a number of management principles to ensure our workforce provides reliable and controllable services in various stages of operation, as tabled below.

# Environmental, Social and Governance Report

As a logistic service provider, the Group is not subjected to product or service recall risk. In situations where there are unresolved matters, our Executive Director will work with our client and supplier to resolve the matter. The Group has also established relevant quality and safety inspection protocol which standardizes order handling. Our customer service department plays a key role in understanding and confirming client's needs and expectation of each order, setting out direction prior to launching any project, and actively coordinating projects with customers in the course of providing services.

## **Operational quality control mechanism**

### **1. Vehicle selection**

The selection of the brand and model of vehicles to purchase is important as it impacts on the ability of our Group to deliver reliable trucking services in a timely manner and concurrently provide a safe working environment for our drivers.

### **2. Regular vehicle inspection**

Regular vehicle maintenance regime for our vehicles is implemented. All vehicles in our fleet are subject to regular inspection as regulated by the Land Transport Authority of Singapore ("LTA") with the view that vehicles which are not roadworthy can be a potential hazard to other road users and that regular inspections help to minimise vehicular breakdowns and road accidents.

### **3. Safety courses for drivers**

As our drivers are operating heavy vehicles such as prime movers, reach stackers and lorries, we require all drivers to attend relevant safety courses. We conduct in-house safety courses for all our drivers. Our customers and suppliers may also conduct their own safety courses for our drivers who operate within their premises.

The Group does not have any recall procedures due to the nature of our service. Any failure to deliver on the first time due to either external or internal hurdles will be re-scheduled timely with customers' approval and be delivered again within our customers' expectation.

In the reporting period, the Group did not encounter any of the following situations:

- i. recalls or damage claim related to our services on the ground of safety and health reasons; and
- ii. material customer complaints that lead to or likely to lead to product recall or compensations.

# Environmental, Social and Governance Report

## Advertising and Labeling

In our course of operation, we are not required to handle advertising, labelling, and privacy matters of customers, suppliers, and business partners. We have confidentiality policy implemented and included in Employee handbook to require our employee to maintain confidentiality with respect to confidential information pertaining to our operations.

The Group did not identify any non-compliance in relation to service liability.

## Intellectual Property Rights, Consumer Data and Privacy Policy

The Group highly respects Intellectual property rights protection and consumer data. In the course of operation, we might have access to the intellectual properties or confidential data of customers, such as patents, trademark, copyrights and trade secrets (e.g. design of products), personalized information or contractual documents.

It is our principle that we will only use and/or store these intellectual properties or customer data in accordance to the purpose they are originally provided to us or collected by us. We have procedures to ensure these intellectual properties and customer data are stored in a safe manner, physically and digitally, with restricted access by authorized persons only. We prohibit all kinds of unauthorized use or leakage of intellectual properties by our Group's employee. Our Group will take appropriate actions against breach of Intellectual property rights and consumer data, including termination of employment or legal proceeding. All collected personal data is treated confidentially and kept securely, accessible by designated personnel only.

## Overall Service Liabilities Compliance

In the Reporting Period, the Group is in compliance with relevant laws and regulations that have a significant impact on us and are relating to health and safety, advertising, labelling and privacy matters relating to products and services provided and methods of redress.

## We care our community

As a responsible corporation, the Group has been working towards to building a beautiful and healthy community and maintaining communication and interaction with the community to contribute to the development of the community.

## **PRINCIPAL ACTIVITIES AND BUSINESS REVIEW**

The principal activity of the Company is investment holding. Details of the principal activities of the subsidiaries are set out in note 1 to the financial statements. The business of the Group comprises the provision of transport and storage services to the logistics industry in Singapore and Hong Kong, offering trucking and hubbing services to customers. There were no significant changes in the nature of the Group's principal activities during the year.

A review of the business of the Group as well as discussion and analysis of the Group's performance during the year and the material factors underlying its financial performance and financial position can be found in the section headed "Management Discussion and Analysis" set out on pages 5 to 11 of this annual report. This discussion forms part of this Directors' report.

## **PRINCIPAL RISKS AND UNCERTAINTIES**

Further discussion and analysis of the principal risks and uncertainties facing the Group can be found in the "Management Discussion and Analysis" set out on pages 5 to 11 of the annual report. The above section forms part of this report.

## **RESULTS AND DIVIDENDS**

The Group's loss for the year ended 31 December 2024 and the Group's financial position at that date are set out in the financial statements on pages 64 to 127.

The Board takes into account of the Group's overall results of operation, financial position and capital requirements, among other factors, in considering the declaration of dividends. The Directors do not recommend the payment of any dividend for the year ended 31 December 2024.

## **SHARE CAPITAL**

Details of movements in the share capital of the Company during the year are set out in note 24 to the financial statements.

## **PROPERTY, PLANT AND EQUIPMENT**

Details of movements in the property, plant and equipment of the Group during the year are set out in note 13 to the financial statements.

## **PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES OF THE COMPANY**

Neither the Company, nor any of its subsidiaries purchased, redeemed or sold any of the Company's listed securities during the year ended 31 December 2024.

## **PRE-EMPTIVE RIGHTS**

There are no provisions for pre-emptive rights under the Company's Articles of Association or the laws of the Cayman Islands, being the jurisdiction in which the Company was incorporated, which would oblige the Company to offer new shares on a pro rata basis to existing shareholders unless otherwise required by the Stock Exchange.

## **RESERVES**

Details of movements in reserves of the Group for the year ended 31 December 2024 are set out in the consolidated statement of changes in equity.

# Report of the Directors

## DISTRIBUTABLE RESERVES

The Company did not have reserves available for cash distribution as at 31 December 2024, calculated under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands, as it has accumulated losses. However, the amount of approximately S\$25.4 million included in the Company's share premium account may be distributed as dividends provided that immediately following the date on which the dividend is proposed to be paid, the Company is able to pay its debts as they fall due in the ordinary course of business.

## MAJOR CUSTOMERS AND SUPPLIERS

In the year under review, sales to the Group's five largest customers accounted for 80.6% of the total sales for the year and sales to the largest customer included therein amounted to 43.2%. Purchases from the Group's five largest suppliers accounted for 40.8% of the total purchases for the year and purchase from the largest supplier included therein amounted to 15.0%. The Group maintains good relationships with its customers and suppliers.

None of the Directors or any of their close associates or any shareholders (which, to the best knowledge of the directors, own more than 5% of the Company's share capital) had any beneficial interest in the Group's five largest customers or suppliers.

## USE OF PROCEEDS FROM RIGHTS ISSUE

As at 31 December 2024, the Company has fully utilised the net proceeds raised from the rights issue in accordance with the intended use of proceeds set out in the prospectus. Details of the intended uses and utilised amount are set out on page 9 of the annual report.

## ENVIRONMENTAL POLICIES

The Group is committed to building an environmentally-friendly corporate environment that focuses on conserving natural resources. We believe that everyone can make a difference — a small step from each employee will go a long way to reducing our carbon footprint on the earth. As a responsible Group, we strive to keep improving the efficient use of the natural resources, and aim to develop energy saving culture.

The environmental, social and governance report is set out on page 25 to 48 of the annual report.

## COMPLIANCE WITH LAWS AND REGULATIONS

To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, our Group has complied in material respects with the relevant laws and regulations that have a significant impact on the business and operation of our Group during the year ended 31 December 2024.

Mr. Chua Kang Lim ("Mr. Chua")	3,230,250 (Note) Long position	1.94%	Interest of controlled company and beneficial owner

Note: 2,910,250 shares are held by Ventris Global Limited ("Ventris"). The entire issued share capital of Ventris is legally and beneficially owned by Mr. Chua. Mr. Chua is deemed to be interested in the shares of the Company in which Ventris is interested under Part XV of the SFO.

## DIRECTORS' INTEREST IN THE SHARES OF VENTRIS, AN ASSOCIATED CORPORATION OF THE COMPANY

Director	Capacity/Nature of interest	Number of shares in Ventris	Percentage of shareholding in Ventris
Mr. Chua	Beneficial owner	1 Long position	100%

Save as disclosed above, as at 31 December 2024, none of the Directors or the Chief Executive of the Company had any interests or short positions in the shares, debentures or underlying shares of the Company or any of its associated corporations (within the meaning of Part XV of the SFO), which were required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which they were taken or deemed to have under such provisions of the SFO) or which were required, pursuant to section 352 of the SFO, to be entered in the register referred to therein or which were required, pursuant to Rules 5.46 to 5.67 of the GEM Listing Rules, to be notified to the Company and the Stock Exchange.

## SHARE OPTION SCHEME

The Company adopted a share option scheme (the "Share Option Scheme") which became effective on 18 October 2017. The following is a summary of the principal terms and conditions of the Share Option Scheme.

### (a) Purpose of the Share Option Scheme

The purpose of the Share Option Scheme is to enable our Company to grant options to any employee, adviser, consultant, service provider, agent, customer, partner or joint-venture partner of our Company or any subsidiary (including any director of our Company or any subsidiary) who is in full-time or part-time employment with or otherwise engaged by our Company or any subsidiary at the time when an option is granted to such employee, adviser, consultant, service provider, agent, customer, partner or joint-venture partner or any person who, in the absolute discretion of our Board has contributed or may contribute to our Group (the "Eligible Participants"), as incentive or reward for their contribution to our Group to subscribe for the shares of the Company thereby linking their interest with that of our Group.

# Report of the Directors

## **(b) Grant and acceptance of options**

Subject to the terms of the Share Option Scheme, our Directors may, in its absolute discretion make offer to the Eligible Participants. An offer shall be made to an Eligible Participant in writing in such form as our Directors may from time to time determine and shall remain open for acceptance by the Eligible Participant concerned for a period of 21 days from, and inclusive of, the date upon which it is made provided that no such offer shall be open for acceptance after ten years from the adoption date of the Share Option Scheme or the termination of the same or after the Eligible Participant to whom the offer is made ceased to be an Eligible Participant.

An offer shall be deemed to have been accepted by an Eligible Participant concerned in respect of all shares which are offered to such Eligible Participant when the duplicate letter comprising acceptance of the offer duly signed by the Eligible Participant, together with a non-refundable remittance in favour of our Company of HK\$1.00 by way of consideration for the grant thereof is received by our Company within such time as may be specified in the offer (which shall not be later than 21 days from, and inclusive of, the offer date).

Any offer may be accepted by an Eligible Participant in respect of less than the total number of shares which are offered provided that it is accepted in respect of a board lot for dealing in the shares on the Stock Exchange or an integral multiple thereof.

## **(c) Subscription Price**

The subscription price for shares under the Share Option Scheme shall be determined at the discretion of our Directors but in any event will not be less than the highest of (a) the closing price of the shares on the Stock Exchange as shown in the daily quotations sheet of the Stock Exchange on the offer date of the particular option, which must be a business day; (b) the average of the closing prices of the shares as shown in the daily quotations sheets of the Stock Exchange for the five business days immediately preceding the offer date of that particular option; and (c) the nominal value of a Share on the offer date of the particular option.

## **(d) Maximum number of shares**

(i) Subject to (iii) below, the maximum number of shares in respect of which options may be granted at any time under the Share Option Scheme together with options which may be granted under any other share option schemes for the time being of our Group shall not exceed such number of shares as equals 10% of the issued share capital of our Company at the effective date of the Share Option Scheme, i.e. the Listing Date. On the basis of a total of 640,000,000 shares in issue as at the Listing Date, the relevant limit is 64,000,000 shares which represent 10% of the issued shares on the Listing Date and the date of this annual report. Our Company may seek approval by the Shareholders in general meeting to refresh the 10% limit provided that the total number of shares available for issue under options which may be granted under the Share Option Scheme and any other schemes of our Group in these circumstances must not exceed 10% of the issued share capital of our Company at the date of approval of refreshing of the limit. Options previously granted under the Share Option Scheme and any other share option schemes of our Group (including those outstanding, cancelled, lapsed in accordance with the Share Option Scheme or any other share option schemes and exercised options) will not be counted for the purpose of calculating the limit as refreshed.

- (ii) Our Company may seek separate approval by the Shareholders in general meeting for granting options beyond the 10% limit provided the options in excess of the limit are granted only to Eligible Participant specifically identified by our Company before such approval is sought. Our Company will send a circular to the Shareholders containing a generic description of the specified Eligible Participant who may be granted such options, the number and terms of the options to be granted, the purpose of granting options to the specified Eligible Participant with an explanation as to how the terms of the options serve such purpose, and such information as may be required under the GEM Listing Rules from time to time.
- (iii) The limit on the number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other options granted and yet to be exercised under any other share option schemes of our Group must not exceed 30% of the shares in issue from time to time. No options may be granted under the Share Option Scheme or any other share option schemes of our Group if this will result in the limit being exceeded.
- (iv) Unless approved by the Shareholders in the manner set out below, the total number of shares issued and to be issued upon exercise of the options granted to each grantee (including both exercised and outstanding options) in any 12-month period must not exceed 1% of the shares in issue. Where any further grant of options to an Eligible Participant would result in the shares issued and to be issued upon exercise of all options granted and to be granted to such person (including exercised, cancelled and outstanding options) in the 12-month period up to and including the date of such further grant representing in aggregate over 1% of the shares in issue, such further grant must be separately approved by the Shareholders in general meeting with such Eligible Participant and his/her close associates (or his/her associates if the Eligible Participant is a connected person of our Company) abstaining from voting. Our Company must send a circular to the Shareholders and the circular must disclose the identity of the Eligible Participant, the number and terms of the options to be granted (and options previously granted to such Eligible Participant), and such information as may be required under the GEM Listing Rules from time to time. The number and terms (including the subscription price) of options to be granted to such Eligible Participant must be fixed before our Shareholders' approval and the date of meeting of our Board for proposing such further grant should be taken as the date of grant for the purpose of calculating the subscription price.
- (v) Each grant of options to any of our Directors, chief executive or substantial shareholders of our Company, or any of their respective associates must be approved by the independent non-executive Directors (excluding the independent non-executive Director who is the proposed grantee of the option (if any)). Where any grant of options to a substantial shareholder or an independent non-executive Director, or any of his/her respective associates, would result in the shares issued and to be issued upon exercise of all options already granted and to be granted (including options exercised, cancelled and outstanding) to such person in the 12-month period up to and including the date of such grant: (i) representing in aggregate over 0.1 per cent. of the Shares in issue; and (ii) having an aggregate value, based on the closing price of the Shares at the date of each grant, in excess of HK\$5 million, such further grant of options must be approved by the shareholders. The Company must send a circular to the shareholders. All the grantee, his/her associates and all core connected persons of our Company must abstain from voting at such general meeting, except that any of them may vote against the relevant resolution at the general meeting provided that his/her intention to do so has been stated in the circular. Any vote taken at the meeting to approve the grant of such options must be taken on a poll.

# Report of the Directors

## (e) Exercise of options

An option may be exercised at any time during the period to be determined and identified by our Board to each grantee at the time of making an offer for the grant of an option, but in any event no later than 10 years from the date of grant but subject to the early termination of the Share Option Scheme.

Although there is no specified minimum period under the Share Option Scheme for which an option must be held or the performance target which must be achieved before an option can be exercised under the terms and conditions of the Share Option Scheme, our Directors may make such grant of options, subject to such terms and conditions in relation to the minimum period of such options to be held and/or the performance targets to be achieved as our Directors may determine in their absolute discretion.

Movements in the share options granted under the Share Option Scheme during the year ended 31 December 2024 is set out below:

On behalf of the board of directors

**Fung Mee Kuen**

*Executive Director*

Hong Kong

31 March 2025

**To the shareholders of C&N Holdings Limited**

*(Incorporated in the Cayman Islands with limited liability)*

## **OPINION**

We have audited the consolidated financial statements of C&N Holdings Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 64 to 127, which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards issued by the International Accounting Standards Board (“IASB”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## **BASIS FOR OPINION**

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). Our responsibilities under those standards are further described in the Auditor’s responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **KEY AUDIT MATTER**

Key audit matter is that matter that, in our professional judgement, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

The key audit matter we identified is allowance for expected credit losses (“ECL”) on trade receivables.

# Independent Auditor's Report

## KEY AUDIT MATTER (continued)

### Key Audit Matter

#### Allowance for ECL on trade receivables

As at 31 December 2024, trade receivables of the Group amounted to \$7,786,066, net of allowance for ECL of \$195,627.

In determining the amount of the allowance for ECL of trade receivables, management's judgements and estimates are required in considering the age of the outstanding balances, existence of disputes, recent historical payment patterns, any other available information concerning the creditworthiness of customers together with the default rate of the industry and forward-looking growth rate.

Allowance for ECL on trade receivables is considered as a key audit matter due to the significance of the trade receivables balance to the consolidated financial statements overall as a whole and the involvement of significant judgements and estimates was involved in determining the allowance for ECL of trade receivables.

The material accounting policy information, critical judgements, key estimates, and the relevant disclosures related to trade receivables are included in notes 2.3, 3, 16 and 31 to the Group's consolidated financial statements.

### How our audit addressed the Key Audit Matter

Our procedures in relation to allowance for ECL on trade receivables included but not limited to:

- Obtaining an understanding of and evaluating the Group's credit policies and internal control on ECL assessment;
- With the assistance of auditor's expert, assessing the reasonableness of the Group's ECL models by examining the model inputs used by management to form such judgements, including testing the accuracy of the historical default data, evaluating whether the historical default rates are appropriately adjusted based on current economic conditions and forward looking information;
- Recalculating the amount of allowance for ECL on trade receivables and assessing the appropriateness and adequacy of the ECL as at 31 December 2024;
- Reviewing settlements after the financial year end relating to the trade receivables as at 31 December 2024; and
- Reviewing the appropriateness of the disclosures made in the consolidated financial statements.

## OTHER INFORMATION

The directors of the Company (the "Directors") are responsible for the other information. The other information comprises the information in the Company's Annual Report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## RESPONSIBILITIES OF THE DIRECTORS AND AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the Directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The Audit Committee assists the Directors in discharging their responsibilities for overseeing the Group's financial reporting process.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

# Independent Auditor's Report

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

## **AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (continued)**

From the matters communicated with the Audit Committee, we determine the matter that was of most significance in the audit of the consolidated financial statements of the current period and is therefore the key audit matter. We describe this matter in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## 2.1 BASIS OF PREPARATION

The Group’s consolidated financial statements have been prepared in accordance with IFRS Accounting Standards which include all individual International Financial Reporting Standard (“IFRS”), International Accounting Standards (“IASs”) and Interpretations promulgated by the International Accounting Standards Board (“IASB”) and the disclosure requirements of the Hong Kong Companies Ordinance. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”). Material accounting policy information adopted by the Group are disclosed in note 2.3.

The consolidated financial statements have been prepared under the historical cost convention. The consolidated financial statements are presented in Singapore dollars (“S\$” or “\$”), which is also the functional currency of the Company except when otherwise indicated.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 2.1 BASIS OF PREPARATION (continued)

### Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “Group”) for the year ended 31 December 2024. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

### Separate financial statements

In the Company’s statement of financial position, an investment in a subsidiary is stated at cost less impairment losses, unless the investment is classified as held for sale. Cost includes direct attributable costs of investments. The results of subsidiaries are accounted for by the Company on basis of dividend received or receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee’s net assets including goodwill.

## 2.2 ADOPTION OF NEW AND AMENDMENT TO IFRS ACCOUNTING STANDARDS

### Application of new and revised IFRS Accounting Standards

The Group has applied the following amendments to IFRS Accounting Standards issued by the IASB for the first time, which are mandatorily effective for the annual period beginning on or after 1 January 2024 for the preparation of the consolidated financial statements:

Amendments to IAS 1	Classification of Liabilities as Current or Non-current
Amendments to IAS 1	Non-current Liabilities with Covenants
Amendments to IFRS 16	Lease Liability in a Sale and Leaseback
Amendments to IAS 7 and IFRS 7	Supplier Finance Arrangements

The application of the amendments to IFRS Accounting Standards in the current year had no material impact on the Group's financial positions and performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

### New and amendments to IFRS Accounting Standards issued but not yet effective

The Group has not applied any new and amendments to IFRS Accounting Standards that have been issued but are not yet effective for the financial year beginning 1 January 2024. These new and amendments to IFRS Accounting Standards include the following which may be relevant to the Group.

	<b>Effective for accounting periods beginning on or after</b>
Amendments to IAS 21 and IFRS 1 — Lack of Exchangeability	1 January 2025
Amendments to IFRS 9 and IFRS 7 — Classification and Measurement of Financial Instruments	1 January 2026
Annual Improvements to IFRS Accounting Standards — Volume 11	1 January 2026
Amendments to IFRS 9 and IFRS 7 — Contracts Referring Nature-Dependent Electricity	1 January 2026
IFRS 18 — Presentation and Disclosure in Financial Statements	1 January 2027
Amendments to IFRS 10 and IAS 28 — Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	To be determined by the IASB

The Group is in the process of making an assessment of what the impact of these amendments and new standard is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements except for the new standard mentioned below.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 2.2 ADOPTION OF NEW AND AMENDMENT TO IFRS ACCOUNTING STANDARDS (continued)

### IFRS 18 “Presentation and Disclosure in Financial Statements”

IFRS 18 will replace IAS 1 “Presentation of Financial Statements”, introducing new requirements that will help to achieve comparability of the financial performance of similar entities and provide more relevant information and transparency to users. Even though IFRS 18 will not impact the recognition or measurement of items in the consolidated financial statements, IFRS 18 introduces significant changes to the presentation of financial statements, with a focus on information about financial performance present in the statement of profit or loss, which will affect how the Group present and disclose financial performance in the financial statements. The key changes introduced in IFRS 18 relate to (i) the structure of the statement of profit or loss, (ii) required disclosures for management-defined performance measures (which are referred to alternative or non-GAAP performance measures), and (iii) enhanced requirements for aggregation and disaggregation of information.

The directors of the Company are currently assessing the impact of applying IFRS 18 on the presentation and the disclosures of the consolidated financial statements.

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION

### Impairment of non-financial assets

The carrying amounts of non-financial assets are reviewed at each reporting date for indications of impairment and where an asset is impaired, it is written down as an expense through the consolidated statement of profit or loss to its estimated recoverable amount. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. If this is the case, recoverable amount is determined for the CGU to which the asset belongs. Recoverable amount is the higher of value in use and the fair value less costs of disposal of the individual asset or the CGU.

Value in use is the present value of the estimated future cash flows of the asset or CGU. Present values are computed using pre-tax discount rates that reflect the time value of money and the risks specific to the asset or CGU whose impairment is being measured.

Impairment losses for CGU are allocated first against the goodwill of the unit and then pro rata amongst the other assets of the CGU. Subsequent increases in the recoverable amount caused by changes in estimates are credited to profit or loss to the extent that they reverse the impairment unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Property, plant and equipment

Property, plant and equipment are held for use in the production or supply of goods or services, or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

When the Group make payments for ownership interests of properties which includes both leasehold land and building elements, the entire consideration is allocated between the leasehold land and the building elements in proportion to the relative fair values at initial recognition. To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land is presented as “right-of-use assets” in the consolidated statement of financial position. When the consideration cannot be allocated reliably between non-lease building element and undivided interest in the underlying leasehold land, the entire properties are classified as property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are recognised in profit or loss during the period in which they are incurred.

Depreciation of property, plant and equipment is calculated at rates sufficient to write off their cost less their residual value over the estimated useful life on a straight-line basis. The principal annual rates are as follows:

Motor vehicles	5 years to 10 years
Computers	1 year
Properties	26 years
Leasehold improvements	2 years

The residual values, useful lives and depreciation method are reviewed and adjusted, if appropriate, at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss on disposal of property, plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in profit or loss.

### Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

#### *Computer software*

Purchased computer software is stated at cost, less any impairment losses, and is amortised on the straight-line basis over its estimated useful lives of 5 years.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

#### *The Group as a lessee*

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets which are primarily laptops and office furniture. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. Lease payments to be made under reasonably certain extension options are also included in the measurement of the lease liability. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received;
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases held by Sub 2 Limited, which does not have recent third-party financing; and
- makes adjustments specific to the lease, eg term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the group entities use that rate as a starting point to determine the incremental borrowing rate.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Leases (continued)

*The Group as a lessee (continued)*

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

When the Group obtains ownership of the underlying leased assets at the end of the lease term, upon exercising purchase options, the cost of the relevant right-of-use assets and the related accumulated depreciation and impairment loss are transferred to property, plant and equipment/the carrying amount of the relevant right-of-use asset is transferred to property, plant and equipment.

Refundable rental deposits paid are accounted under IFRS 9 and initially measured at fair value.

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Investments and other financial assets

#### *Initial recognition and measurement*

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

Purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset.

### Investments and other financial assets (continued)

#### *Subsequent measurement*

The subsequent measurement of financial assets depends on their classification as follows:

#### *Financial assets at amortised cost (debt instruments)*

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

#### *Derecognition of financial assets*

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset; or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

### Impairment of financial assets

The Group recognises a loss allowance for ECL on investments in debt instruments that are measured at amortised cost, trade and other receivables, pledged deposits and bank balances. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Impairment of financial assets (continued)

The Group always recognises lifetime ECL for trade receivables. The ECL on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

#### *Significant increase in credit risk*

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument at the reporting date with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;

# Notes to The Consolidated Financial Statements

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Impairment of financial assets (continued)

#### Significant increase in credit risk (continued)

- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- (i) the financial instrument has a low risk of default;
- (ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group considers a financial asset to have low credit risk when the asset has external credit rating of "investment grade" in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of "performing". Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Impairment of financial assets (continued)

#### *Definition of default*

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable.

- when there is a breach of financial covenants by the counterparty; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

#### *Credit-impaired financial assets*

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the counterparty;
- a breach of contract, such as a default or past due event;
- the lender(s) of the counterparty, for economic or contractual reasons relating to the counterparty's financial difficulty, having granted to the counterparty a concession(s) that the lender(s) would not otherwise consider; or
- it is becoming probable that the counterparty will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

#### *Write-off policy*

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, including when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over one year past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

# Notes to The Consolidated Financial Statements

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Impairment of financial assets (continued)

#### *Measurement and recognition of ECL*

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Financial liabilities and equity instruments

Financial liabilities and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument under IFRS Accounting Standards. The accounting policies adopted for specific financial liabilities and equity instruments are set out below.

#### *Equity instruments*

An equity instrument is any contract that evidence a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

#### *Financial liabilities*

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

#### *Financial liabilities at amortised cost*

Financial liabilities including trade payables, other payables and accruals and bank borrowings are subsequently measured at amortised cost, using the effective interest method.

#### *Trade and other payables*

Trade and other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method unless the effect of discounting would be immaterial, in which case they are stated at cost.

#### *Borrowings*

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless, at the end of the reporting period, the Group has a right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the Group is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Group is required to comply with after the reporting period do not affect the classification at the reporting date.

### Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows. Cash and cash equivalents are assessed for ECL.

# Notes to The Consolidated Financial Statements

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditures expected to settle the obligation. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow is remote.

### Income tax

Income tax represents the sum of the current tax and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit recognised in profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of transaction does not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, based on tax rates that have been enacted or substantively enacted by the end of the reporting period. Deferred tax is recognised in profit or loss, except when it relates to items recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity.

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Income tax (continued)

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 requirements to right-of-use assets and lease liabilities separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis, or to realise the asset and settle the liability simultaneously.

### Goods and services tax ("GST")

Revenues, expenses and assets are recognised net of the amount of GST except where the GST incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable.

Receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the consolidated statement of financial position.

### Government grants

A government grant is recognised when there is reasonable assurance that the Group will comply with the conditions attaching to it and that the grant will be received.

Government grants that become receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income and gains".

### Revenue recognition

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Revenue recognition (continued)

(a) *Rendering of services*

The majority of revenue is derived from the provision of transport management service, such as trucking and hubbing of customer products.

Trucking income is recognised over time when services are provided because the customer simultaneously receives and consumes the benefits provided by the Group. The revenue is recognised by reference to the progress towards complete satisfaction of the relevant performance obligation. The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, the best depict the Group's performance in transferring control of goods and services.

Hubbing income is recognised over the respective storage periods on a straight-line basis because the customer simultaneously receives and consumes the benefits provided by the Group.

(b) *Interest income*

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

### Contract liabilities

A contract liability is recognised when the customer pays consideration before the Group recognises the related revenue. A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Employee benefits

#### (a) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the end of the reporting period. Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

#### (b) Pension obligations

The Group contributes to defined contribution retirement schemes which are available to all employees. Contributions to the schemes by the Group and employees are calculated as a percentage of employees' basic salaries. The retirement benefit scheme cost charged to the profit or loss represents contributions payable by the Group to the funds.

### Share-based payments

The Group issues equity-settled share-based payments to certain employees. Equity-settled share-based payments are measured at the fair value (excluding the effect of non-market based vesting conditions) of the equity instruments at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non-market based vesting conditions.

### Foreign currency translation

#### Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in S\$, which is the Company's functional currency.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 2.3 MATERIAL ACCOUNTING POLICY INFORMATION (continued)

### Foreign currency translation (continued)

#### *Transactions and balances in each entity's financial statements*

Transactions in foreign currencies are translated into the functional currency on initial recognition using the exchange rates prevailing on the transaction dates. Monetary assets and liabilities in foreign currencies are translated at the exchange rates at the end of each reporting period. Gains and losses resulting from this translation policy are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. The transaction date is the date on which the company initially recognises such non-monetary assets or liabilities. Non-monetary items that are measured at fair value in foreign currencies are translated using the exchange rates at the dates when the fair values are determined.

#### *Translation on consolidation*

The results and financial position of all foreign operations (none of which has the currency of hyperinflationary economy) that have a functional currency different from the Company's presentation currency are translated into the Company's presentation currency as follows:

- Assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- Income and expenses are translated at average exchange rates for the period (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the exchange rates on the transaction dates); and
- All resulting exchange differences are recognised in other comprehensive income and accumulated in the foreign exchange reserve.

On consolidation, exchange differences arising from the translation of monetary items that form part of the net investment in foreign entities are recognised in other comprehensive income and accumulated in the foreign exchange reserve.

# Notes to The Consolidated Financial Statements

## 3. CRITICAL JUDGEMENTS AND KEY ESTIMATES

In applying the Group's accounting policies, which are described in note 2, the directors of the Company are required to make judgements (other than those involving estimations) that have a significant impact on the amounts recognised and to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

### Critical judgements in applying accounting policies

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the consolidated financial statements:

#### *Revenue from contracts with customers*

The Group applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

#### (a) *Identifying performance obligations in a bundled service of trucking services and hubbing services*

The Group provides trucking services that are either provided separately or bundled together with the providing of hubbing services to a customer. The Group determined that both trucking services and hubbing services are each capable of being distinct. Trucking services mainly refer to the transportation of containers using prime movers or the transportation of loose goods using lorries and other ancillary services. Hubbing services refer to container storage services provided through container yards leased by the Group. For trucking business, the Group needs to deliver the goods to the designated point while hubbing business, the Group has to sublet their yards to their customers to allow them to store their containers. In addition, the trucking services and hubbing services are not highly interdependent or highly interrelated, because the Group would be able to provide the trucking services even if the customer declined hubbing services. Consequently, the Group has allocated a portion of the transaction price to the trucking services and the hubbing services based on relative standalone selling prices.

#### (b) *Determining the timing of satisfaction of trucking services and hubbing services*

The Group concluded that revenue from trucking services and hubbing services is recognised over time because the customer simultaneously receives and consumes the benefits provided by the Group. The Group determined that trucking income is recognised over time when customer simultaneously receives and consumes the benefit provided by the Group's performance as the Group performs, using output method, and hubbing income is recognised over the respective periods on a straight-line basis because the customer simultaneously receives and consumes the benefits provided by the Group.

#### *Significant increase in credit risk*

ECL under general approach are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. IFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Group takes into account qualitative and quantitative reasonable and supportable forward-looking information.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 3. CRITICAL JUDGEMENTS AND KEY ESTIMATES (continued)

### Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

#### *Impairment of non-financial assets*

The Group assesses whether there are any indicators of possible impairment for all non-financial assets (including the right-of-use assets) at the end of the reporting period. Non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. Impairment exists when the carrying value of an asset or cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal or its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow ("DCF") model. The cash flows are derived from the budget and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

The carrying amount of property, plant and equipment and right-of-use assets at 31 December 2024 were \$6,495,796 and \$862,853 (2023: \$7,835,653 and \$503,704) respectively. No impairment was recognised for property, plant and equipment and right-of-use assets during the year ended 31 December 2024 (2023: impairment of property, plant and equipment of \$427,798 and nil for right-of-use assets).

#### *Allowance for ECL on trade receivables*

The Group uses a provision matrix to calculate ECL for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECL is a significant estimate. The amount of ECL is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast economic conditions may also not be representative of a customer's actual default in the future. The information about the ECL on the Group's trade receivables is disclosed in note 31.

At 31 December 2024, the carrying amount of trade receivables is \$7,786,066 (net allowance for ECL of \$195,627 (2023: \$6,221,430 (net allowance for ECL of \$32,750))).

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 3. CRITICAL JUDGEMENTS AND KEY ESTIMATES (continued)

### Key sources of estimation uncertainty (continued)

#### *Allowance for ECL on deposits and other receivables*

The Group makes allowance for impairment of deposits and other receivables based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward-looking estimates at the end of reporting period. The amount of the impairment loss based on ECL model is measured at the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition. Where the future cash flows are less than expected, or being revised downward due to changes in facts and circumstances, a material impairment loss may arise.

At 31 December 2024, the carrying amount of deposits and other receivables is \$560,804, net allowance for ECL of \$4,722 (2023: \$533,841, net allowance for ECL of \$4,865).

## 4. SEGMENT INFORMATION

The chief operating decision maker has been identified as the directors of the Company. The directors of the Company review the Group's internal reporting for the purposes of resource allocation and assessment of segment performance which focused on the category of services. The Group has identified two reportable segments as follows:

The trucking segment — the provision of cargo transportation and other related services. The Group offers cargo transportation services, primarily of containers, from customers' designated pick up points to their designated delivery points within Singapore and Hong Kong.

The hubbing segment — the offering of the Group's container storage facility at its logistics yard to its customers.

Segment results do not include unallocated administrative expenses, other income, other gains and losses, finance costs and income tax expense.

Segment assets exclude, pledged deposits, cash and bank balances and other unallocated head office and corporate assets as these assets are managed on a group basis.

Segment liabilities exclude bank borrowings and other unallocated head office and corporate liabilities as these liabilities are managed on a group basis.

## 11. DIVIDENDS

The Directors do not recommend the payment of any dividend in respect of the year ended 31 December 2024 (2023: Nil).

## 12. LOSS PER SHARE

	2024 \$	2023 \$
Loss for the year attributable to the owners of the Company	<b>(411,626)</b>	(5,114,357)
Issued ordinary shares at the beginning of the year	<b>166,835,200</b>	834,176,000
Effect of share consolidation (note 24(i))	–	(792,467,200)
Effect of rights issue (note 24(i))	–	107,333,744
Weighted average number of ordinary shares	<b>166,835,200</b>	149,042,544

The calculation of the basic and loss per share is based on the loss for the year attributable to owners of the Company and the weighted average number of ordinary shares in issue.

For the purpose of calculation of basic and diluted loss per share for the year ended 31 December 2023, the share consolidation being effective on 4 January 2023 (note 24(i)) was deemed to be effective throughout the period from 1 January 2023 to 3 January 2023.

For the purpose of calculation of diluted loss per share, no adjustment has been made to the weighted average number of ordinary shares as the Company's outstanding share options have no dilutive effect for the years ended 31 December 2024 and 2023.

## 13. PROPERTY, PLANT AND EQUIPMENT (continued)

### Assets pledged as securities

The Group's properties with an aggregate carrying amount of \$948,053 (2023: \$1,007,264) were pledged to secure the Group's bank borrowings as at 31 December 2024 (note 22).

### Impairment assessment

For the impairment assessment, management identified business operations in Hong Kong and Singapore as two separate CGUs. As at 31 December 2023, management assessed the impairment of its property, plant and equipment and right-of-use assets because both Hong Kong's CGU and Singapore's CGU were loss-making.

As at 31 December 2023, management estimated the fair value less cost of disposal of the motor vehicles and properties using a direct comparison approach. The fair value measurement was categorised under Level 3 of the fair value hierarchy. The valuation of motor vehicles and properties assumes that the owner sells the motor vehicles and properties in its existing state without the inclusion of deferred term contracts, leasebacks, joint ventures, management agreements or any similar arrangements which that could affect the value of the motor vehicles and properties. Furthermore, no account has been given to any options or rights of pre-emption that may impact the sale of motor vehicles and properties, and no allowance has been made for the motor vehicles and properties to be sold as one lot or to a single purchaser. Other key assumptions include the transaction prices of recent transactions of similar motor vehicles and properties with similar conditions or similar locations.

As at 31 December 2023, the impairment of the remaining leasehold improvement was also assessed based on its value in use of Hong Kong's CGU. Management determined the recoverable amounts of Hong Kong's CGU using the income approach which relies on the management's cash flow projections.

The value in use calculation using discounted cash flow ("DCF") methods is based on the financial budgets approved by the directors of the Company and valued by an independent professional valuer covering a five-year with pre-tax discount rate. Cash flows beyond five year period have been extrapolated using estimated growth rate does not exceed the average growth rate for the relevant markets. Set out below the key assumptions adopted in the DCF:

	2023
Gross profit margin (% of revenue)	5%
Growth rate	2.5%
Discount rate	11.4%

The above key assumptions were used in the value in use calculation of the Group's Hong Kong CGU. The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing:

**Gross profit margin** — The basis used to determine the value assigned to the budgeted gross profit margin is the average gross profit margin expected to achieve since the year when trucking and hubbing activities are provided.

**Growth rate** — The growth rate does not exceed the average growth rate for the industry and the country in which the Group's operates.

**Discount rate** — The discount rate used is pre-tax and reflects specific risks relating to the Group's operations.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 13. PROPERTY, PLANT AND EQUIPMENT (continued)

### Impairment assessment (continued)

According to the impairment assessment above, impairment of leasehold improvement of S\$427,798 had been recognised for the year ended 31 December 2023.

Management believes that any reasonable possible change in any of these assumptions would not cause the carrying amount to CGUs to exceed their recoverable amounts.

## 14. LEASES

### The Group as a lessee

The Group has lease contracts for various items of motor vehicles and yard used in its operations. Leases for yard generally have lease terms of 3 years (2023: 3 years), while motor vehicles generally have lease terms of 3 years (2023: 3 years). Other equipment generally has lease terms of 12 months or less and/or is individually of low value. The Group is restricted from assigning and subleasing the leased assets outside the Group.

### (a) Right-of-use assets

## 16. TRADE RECEIVABLES

	2024 \$	2023 \$
External parties	<b>7,981,693</b>	6,254,180
Less: Allowance for ECL	<b>(195,627)</b>	(32,750)
	<b>7,786,066</b>	6,221,430

Trade receivables are all non-interest-bearing and are generally repayable on terms of 30 to 90 days (2023: 30 to 90 days).

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice dates and net of loss allowance, is as follows:

	2024 \$	2023 \$
Less than 30 days	<b>3,323,355</b>	4,584,082
31 to 60 days	<b>1,413,289</b>	1,285,607
61 to 90 days	<b>142,976</b>	348,715
More than 90 days	<b>2,906,446</b>	3,026
Total	<b>7,786,066</b>	6,221,430

An impairment analysis is performed at each reporting date using a provision matrix to measure the allowance for ECL. The provision rates are based on the days past due for groupings of various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written off if past due for more than one year and are not subject to enforcement activity. Details of the Group's ECL assessment on trade receivables are set in note 31.

Trade receivables denominated in Hong Kong dollars ("HK\$") amounted to \$4,215,562 (2023: \$2,695,107) as at 31 December 2024.

## 28. SETTLEMENT GUARANTEE

As at 31 December 2024, settlement guarantee of \$670,000 (2023: \$670,000) was given by the financial institutions and insurance companies on behalf of the Group to certain suppliers. If the Group fails to settle its deposits to the supplier, such supplier may demand the financial institutions and insurance companies to pay to it the sum or sum stipulated in such demand. The Group will become liable to compensate the financial institutions and insurance companies accordingly. The settlement guarantee will be released only if (i) the Group settles all its deposit payment outstanding to the supplier; or (ii) submits a request to cancel the settlement guarantee to the financial institutions and insurance companies. The settlement guarantee was granted by the financial institutions and insurance companies under the facility with the Company as the guarantor.

As at 31 December 2024 and 2023, no provision of guarantee was recognised as the amounts of the guarantee are insignificant, management of the Group do not consider it probable that a claim will be made against the Company under the above guarantee.

## 29. RELATED PARTY TRANSACTIONS

Total	1,852,077	1,986,171

### (b) Fair value of financial instruments

As at 31 December 2024 and 2023, the carrying amounts of the Group's financial assets and financial liabilities as reflected in the consolidated statement of financial position approximate their respective fair values.

## 31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group is exposed to financial risks arising from its operations and the use of financial instruments.

The main risks arising from the Group's financial instruments are foreign currency risk, interest rate risk, credit risk and liquidity risk. The Board reviews and agrees policies for managing each of these risks and they are summarised below.

#### Foreign currency risk

The Group has minimal exposure to foreign currency risk as most of its business transactions, assets and liabilities are principally denominated in the functional currencies of the Group entities (S\$ and HK\$). The Group's operating subsidiaries conduct their business transactions principally in their respective functional currencies. The Group currently does not have a foreign currency hedging policy. The Group monitors its foreign currency exposure closely and will consider hedging significant foreign currency exposure should the need arise.

# Notes to The Consolidated Financial Statements

For the year ended 31 December 2024

## 31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### Foreign currency risk (continued)

Sensitivity analysis on foreign currency risk has not been presented as the reasonably possible changes in foreign exchange rates will not have significant impact on the Group's consolidated financial statements.

### Interest rate risk

The Group's cash flow interest rate risk primarily relates to bank deposits, pledged deposits and variable-rate bank borrowings. It is the Group's policy to keep its borrowing at floating rate of interest so as to minimise the fair value interest rate risk.

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates. The Group's exposure to interest rate risk arises primarily from bank balances, pledged deposits, bank borrowings and lease liabilities.

Sensitivity analysis on cash flow interest rate risk has not been presented as the reasonably possible changes in market interest rate will not have significant impact on the Group's consolidated financial statements.

### Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

Individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Trade receivables are due within 30 to 90 days (2023: 30 to 90 days) from the date of billing. Normally, the Group does not obtain collateral from customers.

For financial assets whose impairment losses are measured using expected credit loss model, the Group assesses whether their credit risk has increased significantly since their initial recognition, and applies a three-stage impairment model to calculate their impairment allowance and recognise their expected credit losses, as follows:

Stage 1: If the credit risk has not increased significantly since its initial recognition, the financial asset is included in stage 1.

Stage 2: If the credit risk has increased significantly since its initial recognition but not yet deemed to be credit-impaired, the financial instrument is included in stage 2.

Stage 3: If the financial instrument is credit-impaired, the financial instrument is included in stage 3.

### Maximum exposure and year-end staging

The tables below show the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December.

\* For trade receivables which the Group applies the simplified approach for impairment, the information based on the provision matrix is disclosed below.

\*\* The credit quality of the financial assets included in deposits and other receivables is considered to be “normal” when they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition. Otherwise, the credit quality of the financial assets is considered to be “doubtful”.

#### Trade receivables

The Group measures loss allowances for trade receivables at an amount equal to lifetime ECL. As the Group's historical credit loss experience does not indicate significantly different loss patterns for different customer segments, the loss allowance based on days past due for groupings of various customer segments with similar loss patterns.

The following table provides information about the Group's exposure to credit risk and ECL for trade receivables:

	2024		
	Expected loss rate %	Gross carrying amount \$	Loss allowance \$
Current (not past due)	0.57	5,737,149	32,987
1–30 days past due	0.49	575,607	2,798
31–60 days past due	0.45	3,111	14
61–90 days past due	0.16	2,475	4
More than 90 days past due	9.61	1,663,351	159,824
		<b>7,981,693</b>	<b>195,627</b>
		2023	
	Expected loss rate %	Gross carrying amount \$	Loss allowance \$
Current (not past due)	0.51	5,405,196	27,502
1–30 days past due	0.24	813,081	1,969
31–60 days past due	0.03	22,373	6

More than 90 days past due	99.45	3,287	3,269
		<b>6,254,180</b>	<b>32,750</b>

Expected loss rates are based on actual loss experience. The above expected loss rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the Group's view of economic conditions over the expected lives of the trade receivables.

## 31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### Credit risk (continued)

Trade receivables (continued)

The movements in the loss allowance for impairment of trade receivables are as follows:

	2024 \$	2023 \$
At 1 January	32,750	47,593
Impairment losses recognised/(reversed) for the year	199,885	(14,399)
Written-off	(41,476)	–
Exchange alignment	4,468	(444)
At 31 December	<b>195,627</b>	32,750

Deposits and other receivables

The following table provides information about the Group's exposure to credit risk and ECL for deposits and other receivables:

	2024		
	Expected loss rate %	Gross carrying amount \$	Loss allowance \$
Current (not past due)	0.83	565,526	4,722

	2023		
	Expected loss rate %	Gross carrying amount \$	Loss allowance \$
Current (not past due)	0.90	538,706	4,865

For deposits and other receivables, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on deposits and other receivables has not increased significantly since initial recognition, the Group measures the loss allowance for deposits and other receivables at an amount equal to 12-month ECL.

### Credit risk (continued)

*Deposits and other receivables (continued)*

The movements in the loss allowance for impairment of deposits and other receivables are as follows:

	2024	2023
	\$	\$
At 1 January	4,865	241,903
Impairment loss reversed for the year	(289)	(236,731)
Exchange alignment	146	(307)
At 31 December	4,722	4,865

### Credit risk concentration profile

The Group manages concentration of credit risk by monitoring the individual profile of its trade receivables on an ongoing basis.

As at 31 December 2024, approximately 65% (2023: 43%) of the Group's trade receivables were due from the top three customers. In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limit and credit approvals.

### Bank balances and pledged deposits

The Group mainly transacts with banks with high credit ratings. The credit risk for bank balances and pledged deposits as at 31 December 2024 and 2023 is considered as not material as such amounts are placed in reputable banks with high credit ratings assigned by international credit-rating agencies.

The Group assessed 12-month ECL on these balances by reference to probability of default and recovery rate by credit rating grades published by international credit-rating agencies and concluded that the ECL are insignificant as at 31 December 2024 and 2023 and thus no impairment loss was recognised.

### Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting financial obligations due to a shortage of funds.

The Group's exposure to liquidity risk arises in the general funding of the Group's operating and financing activities. The Group's cash and bank balances and operating cash flows are actively managed to ensure adequate working capital requirements and that repayment and funding needs are met.

The table below summarises the maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted repayment obligations.

	<b>2,754,987</b>	<b>465,592</b>	<b>86,084</b>	<b>3,306,663</b>

*note:* As at 31 December 2023, the aggregate undiscounted principal amounts of these bank borrowings amounted to \$300,000. Taking into account the Group's financial position, the directors of the Company did not believe that it was probable that the banks would exercise their discretionary rights to demand immediate repayment. The directors of the Company believe that such bank loans will be repaid within 1 to 5 years after the end of the reporting period in accordance with the scheduled repayment dates set out in the loan agreements. As at December 2023, the aggregate principal and interest cash outflows amounted to \$307,612.

## 31. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### Capital management

The primary objective of the Group's capital management is to safeguard its ability to continue as a going concern in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares, the issue of new debts, redemption of existing debts or selling assets to reduce debts. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2024 and 2023.

The externally imposed capital requirements for the Group is to maintain its listing on the Stock Exchange it has to have a public float of at least 25% (2023: 25%) of the shares.

The Group receives a report from the share registrars showing the non-public float and it demonstrates continuing compliance with the 25% limit throughout the both years.

The gearing ratios which are total bank borrowings and lease liabilities divided by the total equity as at the end of the reporting period were as follows:

	2024 \$	2023 \$
Bank borrowings	245,123	300,000
Lease liabilities	831,062	1,267,613
	<b>1,076,185</b>	1,567,613
Total equity	<b>13,941,171</b>	14,123,158
Gearing ratio	<b>7.7%</b>	11.1%

Breaches in meeting the financial covenants would permit the bank to immediately call borrowings. There have been no breaches in the financial covenants of any interest-bearing borrowings for the years ended 31 December 2024 and 2023.
