The Board is pleased to announce that after trading hours on 18 February 2022, the Purchaser (being a wholly-owned subsidiary of the Company) entered into the Purchase Contract with the Supplier, pursuant to which the Purchaser shall purchase the Wind Power Equipment from the Supplier at the Consideration.

PURCHASE CONTRACT

The principal terms of the Purchase Contract are as follows:

It is expected that all the Wind Power Equipment shall be delivered to the Purchaser before 31 December 2022. The Consideration shall be payable in cash, which will be financed by internal resources and/or borrowings of the Group.

The Performance Guarantee shall lapse on the first day of the warranty period of the Wind Power Equipment.

The Supplier will provide a warranty period of five years in respect of the Wind Power Equipment.

INFORMATION OF THE PARTIES TO THE PURCHASE CONTRACT

The Company is an investment holding company. The Group is principally engaged in (i) investing in wind and solar power projects; and (ii) offering professional technical services and integrated solutions to the wind and solar power generation projects.

The Purchaser is a wholly-owned subsidiary of the Company and is principally engaged in the trading of equipment for new energy.

The Supplier is principally engaged in the research, development and supply of wind power equipment in the PRC. Insofar as the Company is aware, the Supplier is beneficially owned by several shareholders, of which only one shareholder (namely Mr. Zhang Lei) owns more than 30% interest in the Supplier. To the best of the Directors' knowledge, information and belief after having made all reasonable enquiries, the Supplier and its ultimate beneficial owners are third parties independent of the Company and its connected persons.

REASONS FOR AND BENEFIT OF THE TRANSACTION

It is in the ordinary and usual course of business of the Group to build wind power plants in the PRC, including the Wind Power Project. The Wind Power Equipment to be acquired will be used for the Wind Power Project.

The Group evaluated the terms of the Purchase Contract based on, among other factors, the specifications and needs of the Wind Power Project, the credentials and experience of the Supplier, the quality of the products and the services, the products warranty and the terms offered by other suppliers to the Group. The Directors consider that the terms of the Purchase Contract are on normal commercial terms, fair and reasonable, and in the interests of the Company and its shareholders as a whole.

The highest Applicable Percentage Ratio for the Previous Purchase Contracts on an aggregated basis is less than 5%. As the Previous Purchase Contracts were entered within a 12-month period before the date of the Purchase Contract, the transactions contemplated under the Purchase Contract and the Previous Purchase Contracts shall be aggregated under Chapter 14 of the Listing Rules resulting in a highest Applicable Percentage Ratio on an aggregated basis exceeding 5% but less than 25%.
