## VOLUNTARY ANNOUNCEMENT

### SYS6055 INJECTION OBTAINS CLINICAL TRIAL APPROVAL IN CHINA

The Board of Directors (the “**Board**”) of CSPC Pharmaceutical Group Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) is pleased to announce that SYS6055 Injection (the “**Product**”) developed by the Group has obtained approval from the National Medical Products Administration of the People’s Republic of China (NMPA) to conduct clinical trials in China.

The Product is the first in vivo CAR-T product approved for clinical trials in China. By directly generating CAR-T cells targeting CD19 in vivo through lentiviral vectors, it can specifically recognize and eliminate target cells, thereby achieving therapeutic effect. Compared with traditional CAR-T products, the Product offers potential advantages in cost, accessibility and immediacy. Preclinical studies demonstrated that the Product could specifically generate CAR-T cells in vivo, exhibiting significant tumor inhibition effect and a favorable safety profile, as well as cost and time advantages. It is expected to provide a better treatment option for patients with B-cell lymphoma.

The indication for this clinical trial approval is relapsed/refractory aggressive B-cell lymphoma. In addition, the Product also has the potential to be used for the treatment of other CD19-positive B-cell malignancies and autoimmune diseases, providing a promising clinical development value.

By order of the Board  
**CSPC Pharmaceutical Group Limited**  
**Cai Dong Chen**  
*Chairman*

Hong Kong, 29 January 2026
