MANAGEMENT DISCUSSION & ANALYSIS

FINANCIAL REVIEW

Global Mastermind Holdings Limited (the “Company”) and its subsidiaries (collectively, the “Group”) recorded a loss attributable to owners of the Company of HK\$41,674,000 for the nine months ended 30 September 2016 (for the nine months ended 30 September 2015: HK\$120,270,000), representing basic loss per share of HK1.98 cents (for the nine months ended 30 September 2015: HK15.73 cents).

Revenue and profitability

For the nine months ended 30 September 2016, the consolidated revenue of the Group amounted to HK\$33,830,000, representing a decrease of 15.9% as compared to HK\$40,243,000 for the nine months ended 30 September 2015. The decrease was mainly attributed to the expiry of hotel rooms supply agreement with effect from 1 January 2016. As such, no revenue was generated from the sales of hotel rooms in the current period.

The revenue arising from travel business in Singapore consists of agency commission and service income (both from customers and suppliers) generated from the provision of travel and related products and services, including airtickets, hotel rooms, Free Independent Traveler (“FIT”) packages and ground transportation handling services.

Corporate customers are business travelers who require travel products and services for their travel purposes. Wholesale customers are usually travel services providers who purchase airtickets, hotel rooms, FIT packages and other travel related products. Meetings, Incentives, Conventions and Exhibitions (“MICE”) customers refer to customers who are mainly corporate customers, convention organizers and special projects organizers who require one stop professional MICE/special project/event management services.

The revenue arising from travel agency operation in Hong Kong consists of rendering travel agency services related to air ticketing and air/hotel packages.

Approximately 81.0% or HK\$27,412,000 of the total revenue was derived from the provision of travel and related products and services of which HK\$26,285,000 and HK\$1,127,000 was generated from the market in Singapore and Hong Kong respectively.

The money lending business opened up a new income stream for the Group and the interest income revenue derived from the provision of money lending services amounted to HK\$6,020,000 for the period under review (for the nine months ended 30 September 2015: Nil).

At the end of the reporting period, the Group revalued its equities portfolio at market prices and recognised an unrealised gain of HK\$428,000 (for the nine months ended 30 September 2015: an unrealised loss of HK\$133,000) arising on the change in fair value of financial assets at fair value through profit or loss. Together with a loss of HK\$4,069,000 (for the nine months ended 30 September 2015: HK\$1,000) generated from the sale of financial assets during the period under review, the total amount of the financial assets at fair value recognised to profit or loss was HK\$3,641,000 (for the nine months ended 30 September 2015: HK\$134,000).

Other income

Such decrease was mainly attributed to the decrease of (i) incentive income to HK\$591,000 (for the nine months ended 30 September 2015: HK\$1,066,000); (ii) employment credit from government grants to HK\$830,000 (for the nine months ended 30 September 2015: HK\$1,064,000); and (iii) commercial credit card rebate to HK\$297,000 (for the nine months ended 30 September 2015: HK\$749,000) and by offsetting to the increase in management and administrative income to HK\$1,504,000 (for the nine months ended 30 September 2015: HK\$557,000) during the period under review.

As all of the relevant applicable percentage ratios in respect of the grant of the loan under the loan agreement was more than 5% but less than 25%, the grant of the loan under the loan agreement constituted a discloseable transaction of the Company and was only subject to the announcement requirement under Chapter 19 of the GEM Listing Rules. Details of the Disposal were set out in the Company’s announcements dated 15 September 2016 and 20 September 2016.

Update on the development of new business

SFC accepted the license application for Type 1 (dealing in securities), Type 4 (advising on securities) and Type 9 (asset management) in June 2016. They are currently under review. The Directors expect the license to corporation for Type 9 (asset management) will be granted on or before the end of 2016 and for Type 1 (dealing in securities) and Type 4 (advising on securities) in the first quarter of 2017. In order to fully operate in the first quarter of 2017, the Group are currently setting up the needed information technology infrastructure system, preparing the application for the trading rights from the Stock Exchange and recruiting appropriate candidate for the businesses.

OUTLOOK

In the coming quarters, the travel business environment is continuing to be challenging. The Group's profitability is facing pressure from the rising costs of operations and stiff price driven competition. Our management team will cautiously monitor the market, adopt appropriate measures and business strategies in response to changing market conditions.

In order to maintain the Group's sustainability and preservation of value over the longer term, the Group will continue to look for suitable investment opportunities and projects in other areas characterised by stable cash inflows. We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of these condensed consolidated financial statements consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated financial statements are not prepared, in all material respects, in accordance with the basis of the preparation as set out in note 1 to the condensed consolidated financial statements.

7. IMPAIRMENT LOSS ON INTANGIBLE ASSETS

For the impairment testing, trade name and the customer relationship are allocated to the Group's cash generating units ("CGUs") identified according to business segment which is the travel business segment.

As of 30 June 2016, the management carried out the impairment assessment on the recoverable amount of the travel business's CGUs that was based on its value in use and was determined with the assistance of Ascent Partners Valuation Service Limited, an independent professional qualified valuer not connected with the Group. The calculation uses cash flow projections based on financial budgets approved by management covering a five-year period, and at a discount rate of 15.30% (31 December 2015: 16.35%). Cash flows after the five-year period were extrapolated using a 2.58% (31 December 2015: 2.64%) growth rate in considering the economic condition of the market. The growth rates used to extrapolate cash flow projections beyond the five-year period do not exceed the long-term average growth rate for the industry. Other key assumptions for the value in use calculations relate to the estimation of cash inflows which include budgeted sales and gross margin. Such estimation is based on the unit's past performance and management's expectations for the market development including the fluctuation in the travel business in the current economic environment. Both actual sales and profit generated from the travel business segment in Singapore have fallen below expectation, and therefore the management has revised the cash flow projections. In this regard, the management reviewed the current and expected performance of the travel business indicated that the carrying amounts of the CGUs were above the respective recoverable amounts. On this basis, the directors of the Company concluded that an impairment loss of HK\$8,000,000 was recognised in profit or loss during the six months ended 30 June 2016.

During the three months ended 30 September 2016, the management of the Group further reviewed on the current and expected performance of travel business indicated that the recoverable amount, while reduced as compared with the impairment test conducted in the second quarter this year, was above the respective carrying amount. On this basis, the directors of the Company concluded that there was no material impairment loss identified on the intangible assets in this regard.

As of 30 September 2015, the management reviewed on the current and expected performance of travel business indicated that the carrying amount of the CGUs, was above the respective recoverable amount. On this basis, the directors of the Company concluded that an impairment loss of HK\$15,000,000 was recognised in profit or loss during the three months ended 30 September 2015.
