MANAGEMENT DISCUSSION & ANALYSIS

FINANCIAL REVIEW

Global Mastermind Holdings Limited (the “**Company**”) and its subsidiaries (collectively, the “**Group**”) recorded loss attributable to owners of the Company of HK\$12,687,000 for the three months ended 31 March 2019 (for the three months ended 31 March 2018: HK\$7,087,000), representing basic loss per share of HK0.30 cent (for the three months ended 31 March 2018: HK0.17 cent). The increase in loss attributable to owners of the Company was mainly attributed to (i) the recognition of a net unrealised loss on securities investment; and (ii) the increase in finance costs due to the increase of imputed interest expense on convertible bonds.

Revenue and profitability

An analysis of the Group’s revenue for the three months ended 31 March 2019 and 2018 was as follows:

	2019 <i>HK\$’000</i> (Unaudited)	2018 <i>HK\$’000</i> (Unaudited)

The increase was mainly contributed by the increase in interest income from money lending business and revenue derived from financial services business.

The revenue arising from travel business in Singapore consists of agency commission and service income (both from customers and suppliers) generated from the provision of travel related services, including airtickets, hotel rooms, Free Independent Traveler (“**FIT**”) packages and ground transportation handling services.

Corporate customers are business travelers who require travel products and services for their travel purposes. Wholesale customers are usually travel services providers who purchase airtickets, hotel rooms, FIT packages and other travel related products. Meetings, Incentives, Conventions and Exhibitions (“**MICE**”) customers refer to customers who are mainly corporate customers, convention organisers and special projects organisers who require one stop professional MICE/special project/event management services.

For the three months ended 31 March 2019, approximately 39.0% or HK\$6,133,000 (for the three months ended 31 March 2018: HK\$7,122,000) of the total consolidated revenue was derived from the provision of travel related services.

Following the completion of the disposal of Perfect Well Tours Limited on 27 December 2018, for the three months ended 31 March 2019, all revenue in the travel business segment was derived from the market in Singapore.

The interest income revenue derived from the provision of money lending services amounted to HK\$5,467,000 for the three months ended 31 March 2019 (for the three months ended 31 March 2018: HK\$3,013,000), representing an increase of approximately 81.4% as compared to that of last corresponding period and approximately 34.7% of the total consolidated revenue.

For treasury management business, net realised gain of HK\$918,000 was generated from securities investment (for the three months ended 31 March 2018: Nil), representing 5.8% of the total consolidated revenue for the three months ended 31 March 2019.

For the financial services business, revenue of HK\$3,218,000 (for the three months ended 31 March 2018: HK\$1,907,000), representing approximately 20.5% of the total consolidated revenue for the period under review, was generated, including (i) commission income from securities brokerage of HK\$1,214,000 (for the three months ended 31 March 2018: HK\$580,000); (ii) interest income from margin and IPO financing of HK\$549,000 (for the three months ended 31 March 2018: HK\$162,000); (iii) handling and settlement income arising from securities brokerage of HK\$1,289,000 (for the three months ended 31 March 2018: HK\$1,165,000); and (iv) asset management fee income of HK\$166,000 (for the three months ended 31 March 2018: Nil).

The decrease was mainly attributed to the increase in net exchange loss during the current period.

Expenditure

For the reporting period, staff costs amounted to HK\$14,892,000 (for the three months ended 31 March 2018: HK\$12,004,000). Depreciation and amortisation expenses amounted to HK\$1,416,000 (for the three months ended 31 March 2018: HK\$1,764,000). Other expenses amounted to HK\$6,058,000 (for the three months ended 31 March 2018: HK\$5,854,000).

The increase in staff costs was mainly due to the increase in directors' emoluments during the reporting period.

For the period under review, the finance costs of HK\$2,358,000 (for the three months ended 31 March 2018: HK\$200,000), out of which (i) HK\$169,000 was attributed to the interest on short term bank borrowings (for the three months ended 31 March 2018: HK\$200,000); (ii) HK\$113,000 was attributed to the interest expense on lease liabilities (for the three months ended 31 March 2018: Nil); and (iii) HK\$2,076,000 was attributed to the imputed interest expense on the convertible bonds issued on 13 November 2018 (for the three months ended 31 March 2018: Nil).

BUSINESS REVIEW

Travel business

During the period under review, the performance of the segment in travel business was not satisfactory. Operating under the atmosphere of a slowing global and Singapore domestic economy and fierce competition in the industry exerted pressure on the Group's travel business in Singapore which led to a decrease in revenue to HK\$6,133,000 for the three months ended 31 March 2019 (for the three months ended 31 March 2018: HK\$6,889,000). No revenue was generated from the travel business in Hong Kong after the disposal of Perfect Well Tours Limited on 27 December 2018 (for the three months ended 31 March 2018: HK\$233,000). No revenue was generated from Advising on Corporate Finance Business during the reporting period.

OUTLOOK

The travel business environment is continuing to be challenging. The Group’s profitability of travel business in Singapore is facing pressure from the rising costs of operations and stiff price driven competition. Our management team will cautiously monitor the market, adopt appropriate measures and business strategies in response to changing market conditions.

The Group will adopt a conservative investment approach towards its treasury management business in the coming quarters. The management will cautiously monitor China and Hong Kong equity markets, change the Group’s equity portfolio mix from time to time and realise the equities held by the Group into cash as and when appropriate.

For the money lending business, the management will adopt a more cautious approach during their assessments and approval of new loans in order to mitigate its credit risk.

For the financial services business, the management believes that the provision of the Advising on Corporate Finance Business will increase and broaden the income stream in the future. In addition, the Group will adopt a more cautious approach to the credit control of its margin financing business.

EVENTS AFTER THE REPORTING PERIOD

NOTES TO THE QUARTERLY FINANCIAL INFORMATION

FOR THE THREE MONTHS ENDED 31 MARCH 2019

1. BASIS OF PREPARATION

The quarterly financial information has been prepared in accordance with the applicable disclosure requirements of Chapter 18 of the Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”). The quarterly financial information does not include all the information required for a complete set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and should be read in conjunction with the Group’s annual consolidated financial statements for the year ended 31 December 2018 (the “**2018 Financial Statements**”).

The principal accounting policies applied in preparing this quarterly financial information are set out in note 3 to the 2018 Financial Statements, except for the adoption of the new and amendments to HKFRSs set out in note 2 below.

2. PRINCIPAL ACCOUNTING POLICIES

The amounts included in this quarterly financial information have been computed based on the accounting policies adopted by the Group which are in accordance with HKFRSs issued by the HKICPA applicable to interim periods. However, it does not contain sufficient information to constitute an interim financial report as defined in HKFRSs.

The quarterly financial information has been prepared under the historical cost basis, except for certain properties and financial instruments that are measured at fair values at the end of each reporting period, as appropriate.

The accounting policies used in the quarterly financial information for the three months ended 31 March 2019 are consistent with those followed in the preparation of the 2018 Financial Statements, except as described below.

2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

In the current period for the three months ended 31 March 2019, the Group has applied, for the first time, the following new and amendments to HKFRSs issued by the HKICPA which are mandatory effective for the annual period beginning on or after 1 January 2019 for the preparation of the Group's condensed consolidated financial statements:

HKFRS 16	Leases
HK(IFRIC) – Int 23	Uncertainty over Income Tax Treatments
Amendments to HKFRS 9	Prepayment Features with Negative Compensation
Amendments to HKAS 19	Plan Amendment, Curtailment or Settlement
Amendments to HKAS 28	Long-term Interests in Associates and Joint Ventures
Amendments to HKFRSs	Annual Improvements to HKFRSs 2015 – 2017 Cycle

Except as described below for HKFRS 16, the application of other new and amendments to HKFRSs in the current period has had no material impact on the financial performance for the current and prior periods and/or disclosures set out in the quarterly financial information.

HKFRS 16 “Leases”

HKFRS 16 “Leases” replaces the previous standard HKAS 17 “Leases” and effective for annual periods beginning on or after 1 January 2019. The date of initial application of HKFRS 16 for the Group is 1 January 2019.

Impact on Lessee Accounting

Former operating leases

The Group assesses whether a contract is or contains a lease, at inception of a contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee, except for short-term leases. For short-term leases (lease term of 12 months or less) and leases of low-value assets, the Group has opted to recognise a lease expense on a straight-line basis as permitted by HKFRS 16.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

HKFRS 16 “Leases” *(Continued)*

Impact on Lessee Accounting *(Continued)*

Former operating leases *(Continued)*

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

Former finance leases

The main difference between HKFRS 16 and HKAS 17 with respect to assets formerly held under a finance lease is the measurement of residual value guarantees provided by a lessee to a lessor. This change did not have a material effect on the Group's condensed consolidated financial statements.

Impact on Lessor Accounting

HKFRS 16 does not change substantially how a lessor accounts for leases. Under HKFRS 16, the Group continues to classify leases as operating leases under HKAS 17.

3. INTEREST INCOME FROM MONEY LENDING BUSINESS

During the three months ended 31 March 2019, the Group generated income of HK\$5,467,000 (for the three months ended 31 March 2018: HK\$3,013,000) from money lending business.

4. BROKERAGE COMMISSION INCOME AND INTEREST INCOME FROM MARGIN FINANCING

During the three months ended 31 March 2019, the Group generated brokerage commission income of HK\$1,214,000 (for the three months ended 31 March 2018: HK\$580,000) and interest income from margin financing of HK\$549,000 (for the three months ended 31 March 2018: HK\$159,000).

5. NET (LOSS) GAIN ON SECURITIES INVESTMENT

Net realised gain or loss on securities investment represents the proceeds from sale of financial assets at fair value through profit or loss less the carrying amounts of respective financial assets measured at fair value at the end of last financial year, and the dividend income when the Group's right to receive the dividends is established. Net unrealised gain or loss represents the remaining fair value changes on the financial assets at fair value through profit or loss.

	2019 HK\$'000 (Unaudited)	2018 HK\$'000 (Unaudited)
The tax charge comprises:		
Hong Kong Profits Tax – current period	428	451

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

Accordingly, for the three months ended 31 March 2019, Hong Kong Profits Tax was calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million. Hong Kong Profits Tax was calculated at 16.5% on the estimated assessable profits for the three months ended 31 March 2018.

Singapore Corporate Income Tax is calculated at 17% in accordance with the relevant laws and regulations in Singapore for both periods. No provision for Singapore Corporate Income Tax has been made as the subsidiary operating in Singapore had no assessable profit for both periods.

9. LOSS PER SHARE

The calculation of the basic and diluted loss per share attributable to owners of the Company is based on the following data:

	Three months ended 31 March	
	2019 HK\$'000 (Unaudited)	2018 HK\$'000 (Unaudited)
Loss		
Loss for the period attributable to owners of the Company for the purposes of basic and diluted loss per share	(12,687)	(7,087)

Number of shares		
Weighted average number of ordinary shares for the purposes of basic and diluted loss per share	4,262,867	4,262,867

For the three months ended 31 March 2019, the computation of diluted loss per share does not assume the conversion of the Company's outstanding convertible bonds (for the three months ended 31 March 2018: the exercise of the Company's outstanding share options) since their assumed conversion would result in a decrease in loss per share.

10. INTERIM DIVIDEND

No dividend was paid, declared or proposed during the three months ended 31 March 2019 and 2018, nor has any dividend been proposed since the end of both reporting periods.
