

**EVERBRIGHT GREENTECH ACHIEVES DUAL PROJECT
MILESTONES WITH YANCHENG JIANHU COMPLETION AND
CHANGZHOU SHANFENG (PHASE III) CONTRACT WIN**

Hong Kong, 21 May 2026 – China Everbright Greentech Limited (“Everbright Greentech” or the “Company”) (SEHK: 1257.HK) is pleased to announce that its wholly-owned subsidiary, Everbright Ecological Remediation (Jiangsu) Limited, has recently achieved two notable milestones in its ecological management and remediation business. The Ecological Environmental Management Project in Yanhe Town, Jianhu County, Yancheng City (the “Yancheng Jianhu Project”) has successfully passed the final completion acceptance inspection, while the company has also won the bid for the Remediation and Control Works (Planning Adjustment) of the former Changzhou Shanfeng Chemical Plant Site (“Changzhou Shanfeng (Phase III) Remediation Project”). These developments highlight Everbright Greentech’s established technical expertise and competitive position in the ecological and environmental management sector.

During the execution of the Yancheng Jianhu Project, the project team consistently adhered to stringent standards of safety, quality and environmental protection, overcoming technical challenges with a disciplined and meticulous approach. All construction works were completed efficiently, achieving a record of zero safety and environmental incidents throughout the project lifecycle. All acceptance criteria were verified as compliant, enabling the project to successfully pass completion acceptance. The project has delivered tangible improvements to the local ecological environment and received positive recognition from both the client and relevant regulatory authorities.

Separately, the successful award of the Changzhou Shanfeng (Phase III) Remediation Project reflects continued market recognition of Everbright Greentech’s overall capabilities and further strengthens the Company’s presence in the regional ecological remediation sector. Building on this development, the Company will continue to leverage its expertise in contaminated land remediation, environmental management

Press Release

and risk control, while maintaining strict adherence to construction requirements to ensure high-quality and standards-compliant project delivery.

Dr. Zhu Fugang, Chairman of Everbright Greentech, said, “We are encouraged by the positive developments in our ecological restoration and environmental management business. The successful completion of the Yancheng Jianhu Project reflects the team’s solid engineering capabilities and robust safety management, while the award of the Changzhou Shanfeng (Phase III) Remediation Project underscores strong market recognition of our technical expertise and service delivery. Looking ahead, as China advances its ‘Beautiful China’ initiative, the ecological and environmental sector is expected to benefit from expanding development opportunities. Building on this momentum, the Company will continue to focus on its core ecological management business, prioritising high-quality project execution, enhancing quality and efficiency, while further strengthening its competitive position in the industry. Through practical action and determined effort, we remain committed to contributing to the nation’s ecological civilisation development, driving the Company’s high-quality growth and delivering sustainable long-term value for shareholders and society.”
