THIRD QUARTERLY REPORT 2019

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of Hao Bai International (Cayman) Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company and its subsidiaries (collectively, the “Group”). NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION

For the nine months ended 31 December 2019

1. General

Hao Bai International (Cayman) Limited (the "Company") is an exempted company with limited liability incorporated in the Cayman Islands and its shares are listed on GEM of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The directors of the Company consider the Company's immediate and ultimate holding company is Harmony Asia International Limited, a company incorporated in Samoa. The Company's registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands. The address of its principal place of business was located at Workshop Unit A, 7/F, Wah Shing Industrial Building, No.18 Cheung Shun Street, Kowloon, Hong Kong.

The principal activity of the Company is investment holding and the Company together with its subsidiaries (the "Group") are principally engaged in provision of design, procurement and installation services of water circulation systems.

2. Principal accounting policies

These unaudited condensed consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"), which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance. These unaudited condensed consolidated financial statements also comply with the applicable disclosure requirements of the GEM Listing Rules.

The unaudited condensed consolidated financial statements are presented in Hong Kong Dollar ("HK\$"), which is also the functional currency of the Company and all amounts have been rounded to the nearest thousand (HK\$'000), unless otherwise indicated.

These unaudited condensed consolidated financial statements have been prepared on a basis consistent with the accounting policies adopted in the 2019 consolidated financial statements except for the adoption of the below new and revised HKFRSs that have become effective from 1 April 2019.

The unaudited condensed financial statements have not been audited by the Company's external auditor, but has been reviewed by the audited committee of the Company.

HKFRS 16: Leases

HKFRS 16 significantly changes the lessee accounting by replacing the dual model under HKAS 17 with a single model which requires a lessee to recognise assets and liabilities for the rights and obligations created by leases unless the exemptions apply. In subsequent measurement, depreciation (and, if applicable, impairment loss) and interest are recognised on the right-of-use assets and the lease liabilities respectively. Besides, among other changes, it requires enhanced disclosures to be provided by lessees and lessors.

2. Principal accounting policies (continued)

HKFRS 16: Leases (continued)

The Group has elected to apply the cumulative effect transition method and recognised the cumulative effect of initial adoption as an adjustment to the opening balance of components of equity at 1 April 2019 (i.e. the date of initial application). Therefore, the comparative information has not been restated for the effect of HKFRS 16. No reclassification and adjustment arising from the new leasing standard was recognised in the opening balance on 1 April 2019 as the effect on the financial results and financial position of the Group was insignificant.

On the first adoption of HKFRS 16, the Group has used the following practical expedients permitted by the standard:

- the use of a single discount rate to a portfolio of leases with reasonably similar characteristics;
- reliance on previous assessments on whether leases are onerous;
- accounting for operating leases with remaining lease term of less than 12 months as at 1 April 2019 as short-term leases;
- the exclusion of initial direct costs for measurement of the right-of-use assets at the date of initial application; and
- the use of hindsight in determining the lease term when the contract contains option to extend or terminate the lease.

The Group has also elected not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date, the Group relied on its assessment made by applying HKAS 17 and HK(IFRIC) – Int 4 Determining whether an Arrangement contains a Lease.

On adoption of HKFRS 16, the Group recognised right-of-use assets and lease liabilities in relation to leases which had previously been classified as operating leases under HKAS 17. The lease liabilities was measured at the present value of the remaining minimum lease payments, discounted using the Group's incremental borrowing rates as of 1 April 2019, with the relevant interest charged to profit or loss over the lease period. The Group applied single discount rate to a portfolio of leases with reasonably similar characteristics in Hong Kong. The weighted average incremental borrowing rates applied to the lease liabilities in Hong Kong on 1 April 2019 was 5.875%. The right-of-use assets of approximately HK\$2,537,000 were recognised at cost, representing the amount of initial measurement of the lease liabilities. The right-of-use assets were depreciated over the lease period on a straight-line basis. The interest expense in respect of lease liabilities and depreciation of right-of-use assets charged to profit or loss during the nine months ended 31 December 2019 was approximately HK\$84,000 and HK\$1,474,000 respectively. The operating lease expenses on leases with remaining lease term of less than 12 months as at 1 April 2019 recognised in profit or loss during the nine months ended 31 December 2019 amounted to approximately HK\$430,000.

The Group has not early applied the new and revised HKFRSs that have been issued but are not yet effective.

MANAGEMENT DISCUSSION AND ANALYSIS

Business Review and Outlook

The Group is a Hong Kong-based contractor specialised in design, procurement and installation services of water circulation systems, including swimming pools, water fountains and water curtains, etc. We provide services mainly to developers, main contractors and subcontractors in various private residential projects and hotel, casino, shopping and recreation complex projects in Hong Kong and Macau. Our services are mainly categorised as (i) management contracting services – design, procurement and installation of water circulation systems, (ii) consultancy services – provision of consultancy services on water circulation systems and (iii) maintenance services – provision of maintenance and repair services for water circulation systems.

During the Reporting Period, the Directors continued to observe the challenges that the Group has been facing under the external macroeconomic slowdown. The outbreak of the Pneumonia infected by Novel Coronavirus (新型冠狀病毒感染的肺炎) (the “2019-nCoV”) has led to deteriorating markets in both Hong Kong and Macau. It is expected the Group will continue to face intense competition to secure projects amid the downturn of economy while we use our best efforts to manage the progress and costs of projects to enhance our competitiveness in sourcing projects.

Riding on our solid experience in design, procurement and installation services of water circulation system and our established business connection with various main contractors and property developers in the industry, the Group will explore the opportunities to expand our businesses into other building related contracting services in Hong Kong, Macau and China to maintain the continuous growth of the Group. With the Group’s proven track record, experienced management team and reputation in the market, the Directors consider that the Group is well-positioned, well-equipped and confident to compete against its competitors and sustain its development amid the increasingly challenging external business environment. The Directors will keep close track of the economic environment and evaluate its business strategies from time to time to adapt the challenging market for the sustainable development of the Group and grasp the opportunities to enhance the long-term potential growth in the future.

Financial Review

Revenue

Our total revenue decreased by approximately HK\$18.6 million or 18.7% from approximately HK\$99.0 million for the nine months ended 31 December 2018 to approximately HK\$80.4 million for the nine months ended 31 December 2019. The decrease in our revenue was attributable to the combined effect of:

- (i) the decrease in the revenue derived from management contracting services by approximately HK\$15.9 million or 16.4%, from approximately HK\$96.3 million for the nine months ended 31 December 2018 to approximately HK\$80.4 million for the nine months

ended 31 December 2019. Such decrease was primarily derived from decrease in revenue from project located at Tseung Kwan O of approximately HK\$18.1 million due to the completion of the project.

- (ii) the decrease in the revenue derived from consultancy services by approximately HK\$2.7 million due to the absence of revenue from such segment for the nine months ended 31 December 2019.

Cost of services

The Group's cost of services mainly consists of (i) consumables; (ii) sub-contracting fees; (iii) staff costs; (iv) consulting fees; (v) labour cost; and (vi) other expenses.

Our cost of services decreased by approximately HK\$5.8 million or 7.3% from approximately HK\$78.9 million for the nine months ended 31 December 2018 to approximately HK\$73.1 million for the nine months ended 31 December 2019. Such decrease was primarily driven by the decrease in cost of consumables of approximately HK\$11.8 million due to the decreasing amount of parts and components procured for our projects. Such decrease was partially offset by the increase in sub-contracting fees of approximately HK\$6.3 million due to the increasing number of labour works that required more labour to execute the project work as certain projects got closer to the later stage for installation.

Gross profit and gross profit margin

Our gross profit decreased by approximately HK\$12.8 million or 63.5% from approximately HK\$20.1 million for the nine months ended 31 December 2018 to approximately HK\$7.3 million for the nine months ended 31 December 2019. Such decrease was primarily attributable to the decrease in revenue as discussed above and the decrease in gross profit margin.

Our gross profit margin decreased from approximately 20.3% for the nine months ended 31 December 2018 to approximately 9.1% for the nine months ended 31 December 2019. The decrease was mainly due to i) certain works performed under variation orders during the Reporting Period which carried a relatively lower gross profit margin; ii) the decrease in revenue derived from projects in Macau which generally enjoy a relatively higher gross profit margin as compared to projects in Hong Kong; iii) the absence of revenue derived from consultancy services which typically have relatively higher gross profit margin; and iv) the decrease in revenue for the Reporting Period as certain mega-sized projects have been approaching their completion date with lesser amount of work done, and substantial amounts of revenue for the said mega-size projects had already been recognised in prior periods.

Other income

Our other income increased from approximately HK\$192,000 for the nine months ended 31 December 2018 to approximately HK\$235,000 for the nine months ended 31 December 2019, primarily due to the increase in interest income on the time deposit.

Administrative expenses

Our administrative expenses decreased by approximately HK\$1.2 million or 8.2% from approximately HK\$14.9 million for the nine months ended 31 December 2018 to approximately HK\$13.7 million for the nine months ended 31 December 2019, primarily due to the decrease in legal and professional fees, rental expenses and bank handling charge. Such decrease was partially off-set by the increase in staff cost and depreciation of leased assets.

Finance costs

Our finance costs increased by approximately HK\$0.4 million or 19.6% from approximately HK\$1.9 million for the nine months ended 31 December 2018 to approximately HK\$2.3 million for the nine months ended 31 December 2019, primarily due to the increase in the level of bank borrowings to finance the projects which have been at early stage during the period.

Income tax expenses

For the nine months ended 31 December 2019, there were no assessable profits in Hong Kong and Macau and as a result, no income tax expense was provided.

Net (loss) profit

As a result of the foregoing, the Company recorded a net loss of approximately HK\$8.4 million for the nine months ended 31 December 2019 as compared to a net profit of approximately HK\$3.0 million for the nine months ended 31 December 2018.

Dividend

No dividend was declared or proposed by the Board for the nine months ended 31 December 2019 and 2018.

Event after the Reporting Period

The Board is not aware of any significant event subsequent to 31 December 2019 which would materially affect the Group's operating and financial performance.
