

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

MANAGEMENT DISCUSSION AND ANALYSIS

Business Review and Outlook

The Group is a Hong Kong-based contractor specialised in design, procurement and installation services of water circulation systems, including swimming pools, water fountains and water curtains, etc. We provide services mainly to developers, main contractors and subcontractors in various private residential projects and hotel, casino, shopping and recreation complex projects in Hong Kong and Macau. Our services are mainly categorised as (i) management contracting services – design, procurement and installation of water circulation systems, (ii) consultancy services – provision of consultancy services on water circulation systems and (iii) maintenance services – provision of maintenance and repair services for water circulation systems.

During the Reporting Period, the Group's net loss increased from approximately HK\$8.4 million for the nine months ended 31 December 2019 to approximately HK\$13.5 million for the nine months ended 31 December 2020. As mentioned in the first quarterly results announcement of the Company dated 7 August 2020 and the interim results announcement of the Company dated 6 November 2020, the increase in net loss was mainly attributable to substantial drop of revenue recorded by the Group in respect of the Reporting Period during which Hong Kong continued to undergo an economic downturn spawned mainly by the persistent outbreak of coronavirus pandemic. Affected by the extremely weak business sentiment in both Hong Kong and Macau, the number of new construction or property development projects in the market had continuously decreased, which led to extreme competition in tendering for new projects for water circulation systems.

Looking forward, given the uncertainty of the duration of the coronavirus pandemic, it is expected that the pandemic may continue to affect the business environment in Hong Kong and Macau in the foreseeable future. The high labour cost and shortage of experienced labour caused by reduced labour mobility in light of the travel restrictions due to the coronavirus pandemic between Hong Kong, Macau and the mainland China are amongst the challenges which industry peers have faced. It is expected that the Group will continue to face such intense competition to secure new projects amid the downturn of economy while we use our best efforts to manage the progress and costs of projects to enhance our competitiveness in sourcing projects. Although the Directors remain confident in the long term business outlook of Hong Kong and Macau and also the performance of the Group, the financial results of the Group in particular in the Financial Year 2020/2021 and in the first quarter of the Financial Year 2021/2022 may potentially be affected as a result of the adversities.

Riding on our solid experience in design, procurement and installation services of water circulation system and our established business connections with various main contractors and property developers in the industry, the Group will continue to explore the opportunities to diversify or expand our businesses in Hong Kong, Macau and mainland China to strive for the continuous growth of the Group. The Directors will also keep close track of the economic environment and the development of the coronavirus pandemic and evaluate its business strategies from time to time to adapt the challenging market for the sustainable development of the Group and grasp any potential business opportunities to enhance the long-term potential growth in the future and generate the best returns to the shareholders.

Financial Review

Revenue

Our total revenue decreased by approximately HK\$58.2 million or 72.4% from approximately HK\$80.4 million for the nine months ended 31 December 2019 to approximately HK\$22.2 million for the nine months ended 31 December 2020.

The substantial drop in our revenue was recorded by the Group in respect of the Reporting Period during which Hong Kong continued to undergo an economic downturn spawned mainly by the outbreak of coronavirus pandemic. Affected by the extremely weak business sentiment, new construction or property development projects in our operating markets decrease drastically leading to a drop to the number of new projects awarded to the Group and a very keen competition that the Group has ever encountered in tendering for new projects for water circulation systems.

Moreover, the decrease in revenue was also due to the completion of certain mega-size projects during the year ended 31 March 2020 and no new mega-size project has been awarded to the Group during the Reporting Period.

Cost of services

The Group's cost of services mainly consists of (i) consumables; (ii) sub-contracting fees; (iii) staff costs; (iv) consulting fees; (v) labour cost; and (vi) other expenses.

Our cost of services decreased by approximately HK\$53.1 million or 72.7% from approximately HK\$73.1 million for the nine months ended 31 December 2019 to approximately HK\$20.0 million for the nine months ended 31 December 2020. Such decrease was primarily driven by the decrease in cost of consumables of approximately HK\$9.5 million and the decrease in sub-contracting fees of approximately HK\$41.3 million, which were mainly due to the decrease in revenue as discussed above and as a result, less amount of parts and components were procured for the projects and less labour were required to execute the project work.

Gross profit and gross profit margin

Our gross profit decreased by approximately HK\$5.1 million or 69.3% from approximately HK\$7.3 million for the nine months ended 31 December 2019 to approximately HK\$2.2 million for the nine months ended 31 December 2020. Such decrease was primarily attributable to the decrease in revenue.

Our gross profit margin increased from approximately 9.1% for the nine months ended 31 December 2019 to approximately 10.1% for the nine months ended 31 December 2020. The increase was mainly because for the nine months ended 31 December 2019, certain works performed under variation orders carried a relatively lower gross profit margin, while for the nine months ended 31 December 2020, there was no such variation orders.

Other income

Our other income increased from approximately HK\$0.2 million for the nine months ended 31 December 2019 to approximately HK\$1.5 million for the nine months ended 31 December 2020, primarily due to the subsidies received from the HKSAR Government under the Employment Support Scheme during the nine months ended 31 December 2020.

Administrative expenses

Our administrative expenses increased by approximately HK\$1.3 million or 9.7% from approximately HK\$13.7 million for the nine months ended 31 December 2019 to approximately HK\$15.0 million for the nine months ended 31 December 2020, primarily due to the recognition of legal costs of approximately HK\$5.3 million incurred in connection with the arbitration award involving the project located at Kennedy Town as mentioned in the first quarterly results announcement of the Company dated 7 August 2020.

If the aforesaid one-off legal cost was excluded, the administrative expenses of the Group in respect of the Reporting Period decreased by approximately HK\$3.9 million or 28.5% from approximately HK\$13.7 million for the nine months ended 31 December 2019 to approximately HK\$9.8 million for the nine months ended 31 December 2020. It signified the continuous efforts made by the Group in controlling the costs incurred in its ordinary business operation.

Finance costs

Our finance costs slightly decreased by approximately HK\$0.1 million or 4.9% from approximately HK\$2.3 million for the nine months ended 31 December 2019 to approximately HK\$2.2 million for the nine months ended 31 December 2020, primarily due to the settlement of certain bank borrowings in December 2020.

Income tax expenses

For the nine months ended 31 December 2020 and 2019, there was no assessable profits in Hong Kong and Macau and as a result, no income tax expense was provided.

Net Loss

As a result of the foregoing, our net loss increased from approximately HK\$8.4 million for the nine months ended 31 December 2019 to approximately HK\$13.5 million for the nine months ended 31 December 2020.

Dividend

No dividend was declared or proposed by the Board for the nine months ended 31 December 2020 and 2019.

Event after the Reporting Period

The Board is not aware of any significant event subsequent to 31 December 2020 which would materially affect the Group's operating and financial performance.
