Huijing is extremely honoured to be awarded the “China Property Award of Supreme Excellence” and would like to thank the industry and the public for recognizing the Group’s brand value, business development potential and corporate management, and also for their encouragement. As a Chinese real estate developer focused on the mission of “maintaining a foothold in the Greater Bay Area, penetrating Dongguan, focusing on residential development projects, while taking urban renewal projects as the core, and taking the cultural and tourism-healthy living towns and the scientific and innovative technologies industrial towns as the two wings”, the Group bucked the trend in the past year by achieving a notable improvement in our annual results. The Group will continue to actively seize market development opportunities going forward.

Looking ahead, the Group will continue to take the lead in elevating the quality of life through its mission of “focusing on residential development projects, while taking the urban renewal projects as the core, and taking the cultural and tourism-healthy living towns and the scientific and innovative technologies industrial towns as the two wings”, which constitute the Group’s “one focus, one core, and two wings” blueprint. Furthermore, the Group will continue to uphold the brand philosophy of “Inspiring Growth Together”, promote business development and boost integrated competitiveness so as to reward investors and various sectors of society for their support.

Launched in 2008, “China Property Award of Supreme Excellence” aims to honour and praise the outstanding performance of elite companies in the real estate industry as well as their contributions to the economic prosperity of society. Given that the industry draws significant attention and widespread recognition, the award is viewed as reference by investors for reviewing quality Mainland property companies each year. Selection of awardees by the judging panel is based on six criteria, including business performance, corporate prospects, corporate governance, project execution, brand image and corporate social responsibility.
