

Corporate Governance Report

The Company strives to attain and maintain the highest standards of corporate governance as it believes that effective corporate governance practices are fundamental to enhancing shareholder value and safe guarding shareholder interests. The Company has accordingly adopted sound corporate governance principles that emphasise a quality board of Directors (the "Board"), effective internal control, stringent disclosure practices and transparency and accountability to all stakeholders. It is, in addition, committed to continuously improving these practices and inculcating an ethical corporate culture.

The principles of corporate governance adopted by the Group emphasise a quality board, sound internal control, and transparency and accountability to all stakeholders.

The Company is fully compliant with all code provisions of the Code on Corporate Governance Practices contained in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") for the year ended 31 December 2005.

The Board

The Board is responsible for directing the strategic objectives of the Company and overseeing the management of the business. The Directors are charged with the task of promoting the success of the Company and making decisions in the best interest of the Company.

The Board, led by the Chairman, Mr Li Ka-shing, approves and monitors Group wide strategies and policies, annual budgets and business plans, evaluates the performance of the Company, and supervises the Management. Management is responsible for the day-to-day operations of the Group under the leadership of the Group Managing Director.

As at 31 December 2005, the Board comprised fourteen Directors, including the Chairman, Deputy Chairman, Group Managing Director, Deputy Group Managing Director, Group Finance Director, two Executive Directors, five Independent Non-executive Directors and two Non-executive Directors.

Biographical details of the Directors are set out in the Directors and Senior Management Section on pages 69 to 72.

For a Director to be considered independent, the Board must determine that the Director does not have any direct or indirect material relationship with the Group. In determining the independence of Directors, the Board follows the requirements set out in the Listing Rules.

The roles of the Chairman and the Deputy Chairman are separate from that of the Group Managing Director. Such division of responsibilities helps to reinforce their independence and accountability.

The Chairman, assisted by the Deputy Chairman, Mr Li Tzar Kuoi, Victor, is responsible for providing leadership to, and overseeing the functioning of, the Board to ensure that the Board acts in the best interests of the Group and that Board meetings are planned and conducted effectively. The Chairman is responsible for approving the agenda for each Board meeting, taking into account, where appropriate, matters proposed by Directors for inclusion in the agenda. With the support of Executive Directors and the Company Secretary, the Chairman seeks to ensure that all Directors are properly briefed on issues arising at Board meetings and provided with adequate and accurate information in a timely manner. The Chairman also actively encourages Directors to be fully engaged in the Board's affairs and make contribution to the Board's functions. In addition to Board meetings, the Chairman holds regular meetings with Executive Directors and at least two meetings with Non-executive Directors annually without the presence of Executive Directors. The Board, under the leadership of the Chairman, has adopted good corporate governance practices and procedures and taken appropriate steps to provide effective communication with shareholders.

CORPORATE GOVERNANCE REPORT

The Group Managing Director, Mr Fok Kin-ning, Canning, assisted by the Deputy Group Managing Director, Mrs Chow Woo Mo Fong, Susan, is responsible for managing the businesses of the Group, attending to the formulation and successful implementation of Group policies and assuming full accountability to the Board for all Group operations. Acting as the principal manager of the Group's businesses, the Group Managing Director attends to developing strategic operating plans that reflect the longer-term objectives and priorities established by the Board and is directly responsible for maintaining the operational performance of the Group. Working with the Deputy Group Managing Director and Group Finance Director, Mr Frank John Sixt, other Executive Directors and the executive management team of each core business division, he ensures that the Board is fully apprised of the funding requirements of the businesses of the Group and presents annual budgets to the Board for consideration and approval. With the assistance of the Group Finance Director, the Group Managing Director sees to it that the funding requirements of the businesses are met and he closely monitors the operating and financial results of the businesses against plans and budgets, taking remedial action when necessary. He maintains an ongoing dialogue with the Chairman, the Deputy Chairman and all Directors to keep them fully informed of all major business development and issues. He is also responsible for building and maintaining an effective executive team to support him in his role.

The Board meets regularly, and at least four times a year. Between scheduled meetings, senior management of the Group provides briefings and information to Directors on a regular basis on the activities and development in the businesses of the Group. Throughout the year, Directors participate in the consideration and approval of routine and operational matters of the Company by way of circular resolutions with supporting explanatory write-up, coupled with briefings from the Company Secretary and other executives as required. Details of material or notable transactions of subsidiary and associated companies are provided to the Directors as appropriate. Whenever warranted, additional Board meetings are held. In addition, Directors at all times have full access to information on the Group and independent professional advice whenever deemed necessary by the Directors.

With respect to regular meetings of the Board, Directors receive at least 14 days prior written notice of the meeting and an agenda with supporting Board papers no less than 3 days prior to the meeting. With respect to other meetings called, Directors are given as much notice as is reasonable and practicable in the circumstances.

The Board held four meetings in 2005 and one meeting to date in 2006 with an average attendance rate of approximately 93%.

These objectives are achieved through the adherence to proper Board processes and the timely preparation and dissemination to Directors and Board Committees comprehensive Board agendas and papers.

Financial Statements

The Audit Committee meets and holds discussions with the Group Finance Director and other senior management of the Group on the Interim Report, Annual Report, interim and final results announcement. The Committee reviews and discusses the reports and representations of management with a view of ensuring that the Group's consolidated financial statements are prepared in accordance with accounting principles generally accepted in Hong Kong. It also meets and holds discussions with the Group's principal external auditors, PricewaterhouseCoopers ("PwC"), to consider their reports on the scope and outcome of their independent review of the interim financial report and on their annual audit of the consolidated financial statements.

External Auditors

The Committee reviews and monitors the external auditors' independence and objectivity and the effectiveness of the audit process. The Committee receives each year the letter from PwC confirming their independence and objectivity and holds meetings with PwC to discuss the scope of their audit, approve the fees thereon, and the scope and appropriate fees for any non-audit services requested to be provided by them. The Committee also makes recommendations to the Board on the appointment and retention of the external auditors.

The Group's policy regarding the engagement of PwC for the various services listed below is as follows:

- Audit services – includes audit services provided in connection with the audit of the consolidated financial statements. All such services are to be provided by external auditors.
- Audit related services – includes services that would normally be provided by an external auditor but not generally included in audit fees, for example, audits of the Group's pension plans, due diligence and accounting advice related to mergers and acquisitions, internal control reviews of systems and/or processes, and issuance of special audit reports for tax or other purposes. The external auditors are to be invited to undertake these services that they must or are best placed to undertake in their capacity as auditors.
- Taxation related services – includes all tax compliance and tax planning services, except for those services which are provided in connection with the audit. The Group uses the services of the external auditors where they are best suited. All other significant taxation related work is undertaken by other parties as appropriate.

CORPORATE GOVERNANCE REPORT

- Other services - includes, for example, audits or reviews of third parties to assess compliance with contracts, risk management diagnostics and assessments, and non-financial systems consultations. The external auditors are also permitted to assist management and the Group's internal auditors with internal investigations and fact-finding into alleged improprieties. These services are subject to specific approval by the Audit Committee.
- General consulting services - the external auditors are not eligible to provide services involving general consulting work.

An analysis of the fees of PwC and other external auditors is shown in note 44 to the accounts. In the year ended 31 December 2005, the fees paid to PwC were primarily for audit services.

Review of Risk Management and Internal Control

The Committee assists the Board in meeting its responsibilities for maintaining an effective system of internal control. It reviews the process by which the Group evaluates its control environment and risk assessment process, and the way in which business and control risks are managed. In addition, it discusses with the Group's Internal Auditors the work plan for their audits together with their resource requirements and considers the report of the Group Internal Audit General Manager to the Committee on the effectiveness of internal controls in the Group business operations. In addition, the Committee also receives the report from the Head Group General Counsel on the Group's compliance status on regulatory requirements.

These reviews and reports are taken into consideration by the Committee when it makes its recommendation to the Board for approval of the consolidated financial statements for the year.

Remuneration Committee

The Remuneration Committee comprises three members with expertise in human resources and personnel emoluments. The Committee is chaired by the Chairman Mr Li Ka-shing with Messrs Holger Kluge and Wong Chung Hin, both Independent Non-executive Directors as members. The Committee meets towards the end of each year for the determination of the remuneration package of Directors and senior management of the Group. In addition, the Committee also meets as and when required to consider remuneration related matters.

The responsibilities of the Remuneration Committee are to assist the Board in achieving its objective of attracting, retaining and motivating people of the highest calibre and experience needed to shape and execute strategy across the Group's substantial, diverse and international business operations. The Committee assists the Group in the administration of a fair and transparent procedure for setting remuneration policies including assessing the performance of Directors and senior executives of the Group and determining their remuneration packages. The terms of reference of the Committee adopted by the Board are published on the Group's website.

The remuneration of Directors and senior executives is determined with reference to the performance and profitability of the Group as well as remuneration benchmarks from other local and international companies and prevailing market conditions. Directors and employees also participate in bonus arrangements determined in accordance with the performance of the Group and the individual's performance.

In 2005, all members of the Remuneration Committee met on 10 November 2005 to review background information on market data (including economic indicators, recommendation from Employers' Federation of Hong Kong and 2006 Remuneration Review Guidelines of the Group), headcount and staff costs, the Group's general increase percentages and bonus ratios. Prior to the end of the year, the Committee reviewed and approved the proposed 2005 year end bonus and 2006 remuneration package of Executive Directors and senior management of the Company. Executive Directors, however, do not participate in the determination of their own remuneration.

Recent developments in corporate governance regulations and requirements have increased the responsibilities of Directors and so has the expansion of the businesses of the Group, resulting in increased time and effort required of Directors in the performance of their duties. Director's fees have thus been increased from HK\$50,000 in 2003 to HK\$100,000 since 2004.

Directors' emoluments comprise payments to Directors by the Company and its Group companies in connection with the management of the affairs of the Company and its Group companies. The emoluments of each of the Directors exclude amounts received from the Company's listed subsidiaries or associated companies and paid to the Company. The amounts paid to each Director of the Company for 2005 are as below:

Internal Control and Group Risk Management

Introduction

The Board has overall responsibility for the Group's system of internal control and the assessment and management of risks.

In meeting its responsibility, the Board seeks to increase risk awareness across the Group's business operations and has put in place policies and procedures, including parameters of delegated authority, which provide a framework for the identification and management of risks. The Board also reviews and monitors the effectiveness of the systems of internal control to ensure that the policies and procedures in place are adequate. Reporting and review activities include review by the Executive Directors and the Board and approval of detailed operational and financial reports, budgets and plans provided by the management of the business operations, review by the Board of actual results against the budgets, review by the Audit Committee of the ongoing work of the Group's Internal Audit function and Risk Management function, as well as regular business reviews by Executive Directors and the executive management team of each core business division.

Whilst these procedures are designed to identify and manage risks that could adversely impact the achievement of the Group's business objectives, they do not provide absolute assurance against material mis-statement, errors, losses or fraud.

Internal Control Environment

The Board is overall responsible for monitoring the operations of the businesses within the Group. Executive Directors are appointed to the Boards of all material operating subsidiaries and associates for monitoring of the operations of those companies, including attendance at Board meetings, review and approval of business strategies, budgets, and plans, and setting of key business performance targets. The executive management team of each core business division is accountable for the conduct and performance of each business in the division within the agreed strategies and similarly the management of each business is accountable for its conduct and performance.

The Group's internal control procedures include a comprehensive system for reporting information to the executive management teams of each core business and the Executive Directors.

Business plans and budgets are prepared annually by the management of individual businesses and subject to review and approval by both the executive management teams and the Executive Directors as part of the Group's five-year corporate planning cycle. Reforecasts for the current year are prepared on a quarterly basis, reviewed for differences to the budget and for approval. When setting budgets and reforecasts, management identifies, evaluates and reports on the likelihood and potential financial impact of significant business risks.

The Executive Directors review monthly management reports on the financial results and key operating statistics of each business and hold monthly meetings with the executive management team and senior management of business operations to review these reports, business performance against budgets, forecasts, significant business risk sensitivities and strategies. In addition, finance directors and financial controllers of the executive management teams of each of the major businesses attend monthly meetings with the Group Finance Director and members of his finance team to review monthly performance against budget and forecast, and to address accounting and finance related matters.

The Group maintains a centralised cash management system for its unlisted subsidiary operations and the Group's Treasury function oversees the Group's investment and lending activities. Treasury reports on the Group's cash and liquid investments, borrowings and movements thereof are distributed weekly.

The Group Finance Director has established guidelines and procedures for the approval and control of expenditures. Operating expenditures are subject to overall budget control and are controlled within each business with approval levels for such expenditures being set by reference to the level of responsibility of each executive and officer. Capital expenditures are subject to overall control within the annual budget review and approval process, and more specific control and approval prior to commitment by the Group Finance Director or Executive Directors are required for unbudgeted expenditures and material expenditures within the approved budget. Quarterly reports of actual versus budgeted and approved expenditures are also reviewed.

The General Manager of the Group's internal audit function, reporting to the Group Finance Director on a day to day basis and also directly to the Audit Committee, provides independent assurance as to the existence and effectiveness of the risk management activities and controls in the Group's business operations worldwide. Using risk assessment methodology and taking into account the dynamics of the Group's activities, internal audit derives its yearly audit plan which is reviewed by the Audit Committee, and reassessed during the year as needed to ensure that adequate resources are deployed and the plan's objectives are met. Internal audit is responsible for assessing the Group's internal control system, formulating an impartial opinion on the system, and reporting its findings to the Audit Committee, the Group Finance Director and the senior management concerned as well as following up on all reports to ensure that all issues have been satisfactorily resolved. In addition, a regular dialogue is maintained with the Group's external auditors so that both are aware of the significant factors which may affect their respective scopes of work.

Depending on the nature of business and risk exposure of individual business units, the scope of work performed by the internal audit function includes financial and operations reviews, recurring and surprise audits, fraud investigations and productivity efficiency reviews.

CORPORATE GOVERNANCE REPORT

Reports from the external auditors on internal controls and relevant financial reporting matters are presented to the General Manager of the Group's internal audit function and, as appropriate, to the Group Finance Director and the finance director or financial controller of the relevant executive management team. These reports are reviewed and the appropriate actions taken.

Group Risk Management

The Group Managing Director and the General Manager of the Group's risk management department have the responsibility of developing and implementing risk mitigation strategies including the deployment of insurance to transfer the financial impact of risks.
