COMPANY PROFILE

The Group is principally engaged in the credit guarantee and investment business and asset management business in the People's Republic of China (the "PRC"), and trading of metal and minerals and party products businesses.

As at December 31, 2015, the Group had 59 employees, 32 of them are located in Hong Kong.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

For the year ended December 31, 2015 ("Current Year"), the economy of China was uncertain and the global economic volatility increased significantly especially in the second half year, the Company maintained the conservative strategy in managing the credit guarantee and investment business. Combining with the effect of the market shrinkage of the trading business of party products, the revenue of the Group dropped by half. In order to maintain the steady revenue, the Company has widened its financial platform by obtained the Private Investment Fund Manager Registration granted by the Asset Management Association of China and acquired a company which is in development of an internet financial platform for the trading of asset management products.

During the year, the Company has completed a placing of new shares under a specific mandate to place 4,000,000,000 shares and the net proceeds from it was approximately HK\$395 million. The HK\$147.5 million and HK\$102 million of it were used to settle the other short term loan and the convertible bonds.

FINANCIAL REVIEW

For the Current Year, the Group's turnover was HK\$67.4 million, representing a significant drop of 48.3% from HK\$130.4 million for the year ended December 31, 2014 ("Prior Year"), due to market shrinkage of the trading business as mentioned above.

Gross profit during Current Year was HK\$6.1 million, representing a decrease of 60.6% from HK\$15.4 million for the Prior Year. In terms of gross profit margin, the relevant figure for the Current Year was 9.0%, representing a decrease of 2.8% from 11.8% for Prior Year. The decreases in both gross profit and gross profit margin were mainly due to the loss of trading of metal and mineral business.

Other revenue was HK\$1.7 million in the Current Year, which decreased from the HK\$4.2 million of the Prior Year. For operating expenses, the relevant figure for the Current Year was HK\$36.9 million, representing an increase of 58.1% from HK\$23.3 million for the Prior Year as addition administrative expenses induced as the expansion of the financial platform.

Finance cost during the Current Year was HK\$29.5 million which decreased from HK\$62.0 million of the Prior Year. Such decrease was mainly due to the financial cost reduced as the repayment of outstanding loan in amount of HK\$147.5 million and the redemption of convertible bonds in amount of HK\$102 million during the year.

In current year, the Group has impaired the goodwill and the trade receivable arose from the credit guarantee and investment business in amount of HK\$2.0 million and HK\$0.7 million respectively (2014: impaired the other receivable amounting to HK\$13.6 million), as the unfavorable business environment of the credit guarantee and investment business.

LIQUIDITY AND FINANCIAL RESOURCES

As at December 31, 2015, net current assets were HK\$270.1 million (2014: net current liabilities were HK\$28.4 million). Current ratio as at December 31, 2015 was 6.26 (2014: 0.89). The increase in both of net current assets and current ratio were mainly due to the completion of the placing of new shares during the Current Year. The Group has no bank borrowing as at December 31, 2015 (2014: HK\$1.1 million which is secured by the corporate guarantees provided by the Company) and therefore the gearing ratio was zero (2014: 0.5% which is total bank borrowings divided by total assets). As at December 31, 2015, the Group had cash and bank balances of HK\$116.8 million (2014: HK\$55.1 million) which was mainly denominated in Renminbi ("RMB"), HK dollars and US dollars.

MANAGEMENT DISCUSSION AND ANALYSIS

As at December 31, 2015, the Group had prepayments, deposits and other receivables of HK\$164.7 million which represents an increase of HK\$27.8 million (20.3%) from HK\$136.9 million as at December 31, 2014. The increase was mainly attributable to HK\$20 million prepayment made for the development of internet financial platform and HK\$4.7 million as the deposits for the acquisition of the license corporations regulated by Securities and Futures Commission ("SFC").

The Group has no structured investment products, foreign exchange contracts and investments in listed shares, bond and debentures as at December 31, 2015.

No significant exchange risk is expected as the Group's cash, borrowings, income and expenses are settled in Hong Kong dollars, RMB or US dollars. As the exchange rates of RMB and US dollars against Hong Kong dollars are relatively stable, the Group did not perform any foreign currency hedging activities during the year. Nevertheless, the Group will from time to time review and adjust the Group's investment and financing strategies based on the RMB, US dollars and Hong Kong dollars exchange rate movement.

As at December 31, 2015, the Group had HK\$6.1 million capital commitments (2014: Nil) as it had entered into a sale and purchase agreement to acquire a license corporation regulated by SFC with initial consideration of HK\$9.5 million. The operating lease commitment for the Group as at December 31, 2015 was HK\$35.0 million (2014: HK\$2.9 million), the increase in operating lease commitment is due to the new offices established in Hong Kong and China.

It is the Group's policy to adopt a prudent financial management strategy and maintain a suitable level of liquidity and banking facilities to meet operation requirements and acquisition opportunities.

CAPITAL STRUCTURE

On February 23, 2015, the Company entered into a placing agreement with a placing agent to place up to 4,000,000,000 placing shares at the placing price of HK\$0.1 per placing share, a discount of approximately 13.79% to the closing price of HK\$0.116 per Share as quoted on the Stock Exchange on February 18, 2015. The authorized share capital of the Company from HK\$500,000,000 to HK\$1,000,000,000 by the creation of an additional 5,000,000,000 Shares and the placing of shares were approved by shareholders at the extraordinary general meeting on April 21, 2015. On May 29, 2015, 4,000,000,000 ordinary shares were placed to not less than six places at HK\$0.1 per placing shares. The aggregate gross proceeds from the placing of new shares and the aggregate nominal value were HK\$400 million and the net proceeds was approximately HK\$395 million, i.e. HK\$0.09875 per share, after deduction all the professional fees incurred in the placement. The Company intended to utilize the net proceeds from the placing as to approximately (i) HK\$102 million for the convertible bonds repayment; (ii) HK\$141.5 million for the settlement of the outstanding amount of the loans including the interests; and (iii) the remaining for development of the existing financial platform. As at December 31, 2015, HK\$102 million was used for the repayment of convertible bonds; HK\$147.5 million was used for settlement of the outstanding amount of the loans including the interests; HK\$30 million was applied to the acquisition and development of a financial platform and the remaining HK\$115.5 million was held as general working capital for development of the financial platform and general use of the Company.

32,328,000 ordinary shares were repurchased on the Exchange and cancelled in aggregate amount of HK\$3.3 million at the price per share between HK\$0.097 and HK\$0.110 during the year.

HK\$510,000,000 convertible bonds of the Company were converted into 408,000,000 shares during the year ended December 31, 2015. The remaining of HK\$102,000,000 convertible bonds of the Company were redeemed at maturity during the year.

MANAGEMENT DISCUSSION AND ANALYSIS

EVENTS AFTER REPORTING PERIOD

On November 5, 2015, the Company entered into a subscription agreement with the subscriber and Ms. Cheung Kwan (“Ms. Cheung”) pursuant to which the subscriber has conditionally agreed to subscribe for and the Company has conditionally agreed to (i) allot and issue of 1,000,000,000 new shares at the subscription price of HK\$0.10 per subscription Share; (ii) issue the convertible bonds in the principal amount of HK\$100,000,000, which entitle the holder(s) thereof to subscribe for up to 1,000,000,000 conversion shares at the initial conversion price of HK\$0.10 per conversion share (subject to adjustments); and (iii) Ms. Cheung has agreed to guarantee the performance by the subscriber of its obligations under the subscription agreement. The subscriber is wholly owned by Ms. Cheung who is a substantial shareholder of the Company. To the best of the directors’ knowledge, save for Ms. Cheung, no shareholder has a material interest in the transactions contemplated under the subscription agreement and Ms. Cheung and her associates will abstain from voting on the resolution for approving the subscription agreement and the transactions contemplated thereunder. The Company’s independent shareholders have approved the subscription of shares and convertible bonds on January 25, 2016. The subscription agreement have been fulfilled and the completion took place on February 18, 2016, 1,000,000,000 ordinary shares have been allotted at HK\$0.10 per subscription share and the convertible bonds in the principal amount of HK\$100,000,000 have been issued to the Subscriber and the net proceeds was approximately 199 million, i.e. HK\$0.0995 per share, after deduction all the professional fees incurred in the subscription. The Company intends to use the net proceeds from the subscription as to: (i) approximately HK\$13 million for the acquisition of a company licensed by the SFC with Type 4 (advising on securities) and Type 9 (asset management) licences. The Company has entered into a sale and purchase agreement with the vendor on December 2, 2015 for such acquisition; (ii) approximately HK\$70 million will be used as capital to expand the asset management business as stated above; (iii) approximately HK\$32 million for the acquisition of a company licensed by the SFC with Type 1 licence (dealing in securities). A sale and purchase agreement was entered on January 15, 2016 for such acquisition. The Group plans to use approximately HK\$80 million from the net proceeds to develop the securities firm such as increasing the capital bases so as to expand the margin business of it. If the acquisition of the company licensed by the SFC with Type 1 licence (dealing in securities), for whatever reasons, could not be materialised, the Company would adjust the proceeds from the Proposed Subscription to the fund management business in the PRC. The Company has recently obtained the Private Investment Fund Manager Registration (私募投資基金管理人登記證明) granted by the Asset Management Association of China (中國證券投資基金業協會). The Company plans to set up an investment fund and will use the proceed as seed money; and (iv) approximately HK\$4 million as general working capital and/or for future acquisitions.

On January 15, 2016, a wholly-owned subsidiary of the company entered into a sale and purchase agreement with independent third parties, for the acquisition of the 100% controlling equity interests in Treasure Securities Limited (“Treasure Securities”) at the initial consideration of HK\$27,200,000, which is subject to adjustment and will be settled by cash. Treasure Securities is a licensed corporation to carry out Type 1 (Dealing in Securities) regulated activity under the Securities and Futures Ordinance (“SFO”) and is an exchange participant of the Stock Exchange. It is principally engaged in the business of securities brokerage. The directors are of the view that the acquisition provides a prime opportunity for the Group to expand its financial platform to the financial service industry in Hong Kong, and the Group is expected to be benefited from the creation of synergies with existing operations of the Group which is expected to increase its shareholders’ value and benefit the Company and its shareholders as a whole. As at the date of this report, the acquisition has not been completed and subjected to the approval of change of substantial shareholder by SFC.

On February 5, 2016, the Company entered into the non-legal binding MOU with an independent third party in relation to the possible acquisition of a company which carries on the business of designs, development and implementation of mobile instant lottery system, and distribution of the mobile game-based lottery products in China.

On March 23, 2016, the Company entered into the non-legal binding MOU with the Vendor to acquire a global financial technology Company which is creating a global financial settlement network targeting global markets, especially countries along the “one belt, one road” routes, to provide international settlement services for international trading and consumption.

MANAGEMENT DISCUSSION AND ANALYSIS

MATERIAL ACQUISITION AND DISPOSALS OF SUBSIDIARIES AND ASSOCIATES

During the year ended December 31, 2015, the Group has acquired 90% equity interest of a company in trading of metal and mineral by subscription of its shares and acquired 51% of equity interest of another company which is in development of an internet financial platform of asset management products in China at a consideration of HK\$10 million.

The Group has also acquired 40% equity interest of an associate, which invest a yacht, at HK\$18.5 million.

As at December 31, 2015, the Group has entered into a sale and purchase agreement to acquire a license corporation regulated by SFC, its initial considerations are HK\$9.5 million. It has not been completed and subjected to the approval by SFC.

Except for the above, the Group did not make any material acquisition or disposal of subsidiaries, associates and affiliated companies during the year ended December 31, 2015.

CONTINGENT LIABILITIES

The Group's contingent liabilities, if any, are set out in the note 35 to the consolidated financial statements.

HUMAN RESOURCES

As at December 31, 2015, the Group had 59 employees. It is the Group's policy to recruit the right person for each position based on the person's qualification and experience. The remuneration of each employee is reviewed every year based on the performance of the employee with reference to the prevailing market conditions.

FINAL DIVIDEND

The Board did not recommend any final dividend for the Current Year.

OUTLOOK

After the completions of the placing of new shares and issuance of convertible bonds, the Group would use the proceeds from them to widen its financial platform and develop the internet trading business. Currently, it has entered into sale and purchase agreements to acquire two license corporations regulated by SFC in Hong Kong and the completions of them are subjected to the approval from SFC. Upon the completions, the Group would carry out Type 1 (Dealing in Securities), Type 4 (advising on securities) and Type 9 (asset management) regulated activity under the SFO. The Group will continue to recruit talents in various professions to support its expansion.

For the credit guarantee and investment business, its unfavorable business environment is expected to be lasted for few years, the group will continue its conservative business strategies. As the market shrinkage, intense competition and the raising requirement by customers and authorities of the trading business, the Group will try to minimize its risk by outsourcing its operations and widen the nature of trading products.

Although the global economic is in volatile, the management is still confident of the global financial market, especially the countries along the "one belt, one road" routes, in future and continues to develop its financial platform, create a global financial settlement network and explore any business opportunities. The Company may finance the expansion from new investors and investment funds to satisfy any additional capital requirements.

CORPORATE GOVERNANCE REPORT

Board Diversity Policy

The Board has adopted a Board Diversity Policy in August 2013 which sets out the approach to achieve diversity on the Board.

The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance.

The Company seeks to achieve Board diversity through the consideration of a number of factors, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board. The Company will also take into consideration its own business model and specific needs from time to time in determining the optimum composition of the Board.

The Nomination Committee has set measurable objectives based on four focus areas: gender, age, working experience and ethnicity to implement the Board Diversity Policy. Such objectives will be reviewed from time to time to ensure their appropriateness and the progress made towards achieving those objectives will be ascertained. The Nomination Committee will review the Board Diversity Policy, as appropriate, to ensure its continued effectiveness from time to time.

Board Process

The Board held meetings from time to time whenever necessary. At least 14 days notice of regular Board meetings is given to all directors and they can include matters for discussion in the agenda as they think fit. The agenda accompanying Board papers are sent to all directors at least 3 days before the date of every Board meeting in order to allow sufficient time for the directors to review the documents.

Minutes of every Board meeting are circulated to all directors for their perusal and comments prior to confirmation of the minutes. The Board also ensures that it is supplied in a timely manner with all necessary information in a form and of a quality appropriate to enable it to discharge its duties.

Every Board member has full access to the advice and services of the company secretary with a view to ensuring that Board procedures, and all applicable rules and regulations are followed and they are also entitled to have full access to Board papers and related materials so that they are able to make an informed decision and to discharge their duties and responsibilities.

Professional Development

Each newly appointed Director receives induction on the first occasion of his/her appointment, so as to ensure that he/she has an appropriate understanding of the business and operations of the Company.

To assist directors' continuing professional development, the Company recommends directors to attend relevant seminars to develop and refresh their knowledge and skills. All directors also participate in continuous professional development programmes to develop and refresh their knowledge and skills in relation to their contribution to the Board. A record of the training received by the respective directors are kept and updated by the Company Secretary of the Company.

CORPORATE GOVERNANCE REPORT

INTERNAL CONTROLS

The Board is responsible for the Group's system of internal controls and for reviewing its effectiveness. The Board requires management to establish and maintain sound and effective internal controls. Evaluation of the Group's internal controls is independently conducted by the management on an on-going basis.

The Board confirms that it has reviewed the effectiveness of the internal control system of the Company and its subsidiaries for the Current Year and that the Board considers such system to be sound and effective. The review covered all material controls, including financial, operational, compliance control and risk management functions.

Shareholders' Rights

The general meetings of the Company provide an opportunity for communication between the shareholders and the Board. An annual general meeting of the Company shall be held in each year and at the place as may be determined by the Board. Each general meeting, other than an Annual General Meeting, shall be called an Extraordinary General Meeting ("EGM").

— Right to convene Extraordinary General Meeting

Any two or more members or any one member of the Company which is a recognised clearing house (or its nominee(s)) holding at the date of the deposit of the requisition not less than one-tenth of the paid-up capital of the Company carrying the right of voting at general meetings of the Company, shall at all times have the right, by written requisition sent to the Company's principal office as set out in the manner below, to require an EGM to be called by the Board for the transaction of any business specified in such requisition.

The written requisition must state the purposes of the meeting, signed by the requisitionist(s) and deposit it to the Board or the company secretary of the Company at the Company's principal place of business at Unit B, 35/F., No. 169 Electric Road, North Point, Hong Kong.

The request will be verified with the Company's branch share registrar in Hong Kong and upon their confirmation that the request is proper and in order, the company secretary of the Company will ask the Board to convene an EGM by serving sufficient notice in accordance with the statutory requirements to all the registered members. On the contrary, if the request has been verified is not in order, the shareholders will be advised of this outcome and accordingly, an EGM will not be convened as requested. If within twenty one days from the date of the deposit of the requisition the Board fails to proceed to convene such meeting to be held within a further 21 days, the requisitionist(s), may convene a meeting in the same manner within three months from the date of deposit of the requisition, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed by the Company to the requisitionist(s).

The notice period to be given to all the registered members for consideration of the proposal raised by the requisitionist(s) concerned at the EGM varies according to the nature of the proposal, as follows:

- At least 14 clear days' notice in writing (and not less than 10 clear business days) if the proposal constitutes an ordinary resolution of the Company;
- At least 21 clear days' notice in writing (and not less than 10 clear business days) if the proposal constitutes a special resolution of the Company in EGM.

CORPORATE GOVERNANCE REPORT

— Right to put enquiries to the Board

Shareholders have the right to put enquiries to the Board. All enquiries shall be in writing and sent by post to the principal place of business of the Company in Hong Kong for the attention of the company secretary.

— Right to put forward proposals at general meetings

There are no provisions allowing shareholders to propose new resolutions at the general meetings under the Cayman Islands Companies Law (2011 Revision). However, shareholders are requested to follow Article 79 of the Company's Articles of Association for including a resolution at an EGM. The requirements and procedures are set out above. Pursuant to Article 116 of the Company's Articles of Association, no person shall, unless recommended by the Board, be eligible for election to the office of Director at any general meeting unless during the period, which shall be at least seven days, commencing no earlier than the day after the despatch of the notice of the meeting appointed for such election and ending no later than seven days prior to the date of such meeting, there has been given to the Company Secretary notice in writing by a member of the Company (not being the person to be proposed), entitled to attend and vote at the meeting for which such notice is given, of his intention to propose such person for election and notice in writing signed by the person to be proposed of his willingness to be elected. The written notice must state that person's biographical details as required by Rule 13.51(2) of the Listing Rules. The procedures for shareholders of the Company to propose a person for election as director is posted on the Company's website.

Investor Relations

The Company has established a range of communication channels between itself and its shareholders, investors and other stakeholders. These include the annual general meeting, the annual and interim reports, notices, announcements and circulars and the Company's website at www.harmonics33.com.

Constitutional Documents

There was no change to the Company's Memorandum and Articles of Association during the year ended December 31, 2015. A copy of the latest amended and restated version of the Memorandum and Articles of Association is posted on the websites of the Company and the Stock Exchange.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF HARMONIC STRAIT FINANCIAL HOLDINGS LIMITED

(Incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Harmonic Strait Financial Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 33 to 99, which comprise the consolidated and Company's statements of financial position as at December 31, 2015, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at December 31, 2015 and of its financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

1. CORPORATE INFORMATION

General information

Harmonic Strait Financial Holdings Limited (the "Company") was incorporated and domiciled in the Cayman Islands under Companies Law (2004 Revision) of the Cayman Islands as an exempted company with limited liability on March 20, 2007. The Company's shares were listed on The Stock Exchange of Hong Kong Limited ("Stock Exchange") on November 19, 2007.

The Company is an investment holding company. The Group is principally engaged in the credit guarantee and investment business in the People's Republic of China ("PRC"), the trading of party products business, trading of metal and mineral business and assets management business.

The address of its principal place of business in Hong Kong is Unit B, 35/F., No. 169 Electric Road, North Point, Hong Kong and the Company has been registered as a non-Hong Kong company under Part XI of the Hong Kong Companies Ordinance on September 4, 2007.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Statement of Compliance

These consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and accounting principles generally accepted in Hong Kong. These consolidated financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange and the disclosure requirements of the Hong Kong Companies Ordinance. A summary of the significant accounting policies adopted by the Group is set out below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group and the Company. Note 2(c) and 2(d) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these consolidated financial statements.

(b) Basis of Preparation of the Consolidated Financial Statements

The consolidated financial statements for the year ended December 31, 2015 comprise the Company and its subsidiaries have been prepared in accordance with HKFRSs and under the historical cost convention except where stated otherwise in the accounting policies set out below.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

The preparation of consolidated financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have a significant effect on the consolidated financial statements and major sources of estimation uncertainty are discussed in note 37.

(c) Amendments, New Standards and Interpretations issued and effective for the year ended December 31, 2015

In the current year, the Group has applied for the first time the following amendments (the “new HKFRSs”) issued by the HKICPA, which are relevant to and effective for the Group’s consolidated financial statements for the annual period beginning on January 1, 2015:

Amendments to HKFRSs	Annual improvements to HKFRSs 2010–2012 cycle
Amendments to HKFRSs	Annual improvements to HKFRSs 2011–2013 cycle

The application of the amendments to HKFRSs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

In addition, the Group has adopted the amendments to the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (the “Listing Rules”) relating to the disclosure of financial information with reference to the Hong Kong Companies Ordinance (Cap. 622) during the current financial year. The main impact to the financial statements is on the presentation and disclosure of certain information in the financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(d) Possible impact of Amendments, New Standards and Interpretations issued but not yet effective for the year ended December 31, 2015.

The directors anticipate that all of the pronouncements will be adopted in the Group's accounting policies for the first period beginning after the effective date of the pronouncement. Information on new or amended HKFRSs that are expected to have impact on the Group's accounting policies is provided below. Certain other new and amended HKFRSs have been issued but are not expected to have a material impact on the Group's consolidated financial statements.

³ Effective for annual periods beginning on or after a date to be determined.

(e) Business Combinations under Common Control

Business combinations under common control are accounted for in accordance with the merger accounting. In applying merger accounting, the combined financial information incorporates the consolidated financial statements items of the combining entities or business in which the common control combination occurs as if they had been combined from the date when the combining entities or business first came under the control of controlling party.

The net assets of the combining entities or businesses are combined using the existing book values prior to the common control combinations from the controlling parties' perspective. No account is recognised in respect of goodwill or excess acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over cost at the time of common control combination, to the extent of the continuation of the controlling party's interest.

The combined statement of comprehensive income includes the results of each of the combining entities or businesses from the earliest date presented or since the date when the combining entities or businesses first came under the common control, where this is a shorter period, regardless of the date of common control combination.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

The comparative amounts in the combined financial information are presented as if the entities or business had been combined at the end of the previous reporting period or when they first came under common control, whichever is shorter.

Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment indicator of an impairment of the asset transferred.

(f) Subsidiaries and Non-controlling Interests

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Company has power, only substantive rights (held by the Company and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances and transactions and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at their proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate or jointly controlled entity.

In the Company's statement of financial position an investment in a subsidiary is stated at cost less any impairment losses (see note 2(l)) unless the investment is classified as held for sale.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(g) Business combinations

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

(h) Interest in an associate

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investment in an associate is accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the comprehensive income of the investee after the date of acquisition. The Group's investment in an associate includes goodwill identified on acquisition.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to consolidated statement of profit or loss where appropriate.

The Group's share of post-acquisition comprehensive income is recognised in consolidated statement of profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each reporting date whether there is any objective evidence that the investment in an associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to "share of profit/(loss) of an associate" in consolidated statement of profit or loss and other comprehensive income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognised in the Group's financial statements only to the extent of unrelated investor's interests in the associate. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

(i) Goodwill

Goodwill represents the excess of:

- (i) the aggregate of the fair value of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the Group's previously held equity interest in the acquiree; over
- (ii) the net fair value of the acquiree's identifiable assets and liabilities measured as at the acquisition date.

When (ii) is greater than (i), then this excess is recognised immediately in profit or loss as a gain on a bargain purchase.

Goodwill is stated at cost less accumulated impairment losses. Goodwill arising on a business combination is allocated to cash-generating units, or groups of cash-generating units, that is expected to benefit from the synergies of the combination and is tested annually for impairment (see note 2(l)).

On disposal of a cash-generating unit during the year, any attributable amount of purchased goodwill is included in the calculation of the profit or loss on disposal.

(j) Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses (see note 2(l)).

Depreciation is calculated to write off the cost or valuation of items of property, plant and equipment, less their estimated residual value, if any, using the straight line method over their estimated useful lives as follows:

Leasehold improvement	the shorter of lease-term or 4–5 years
Plant and machinery	2–5 years
Furniture, fixtures and equipment	4–5 years
Moulds	5 years
Motor vehicles	3–5 years

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(k) Leased Assets

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

(i) Classification of assets leased to the Group

Assets that are held by the Group under leases which transfer to the Group substantially all the risks and rewards of ownership are classified as being held under finance leases. Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases.

(ii) Operating lease charges

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to profit or loss in equal installments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

(l) Impairment of Assets

(i) Impairment of investment in debt and equity securities and other receivables

Investments in debt and equity securities (other than investments in subsidiaries) and other current and non-current receivables that are stated at cost or amortised cost or are classified as available-for-sale securities are reviewed at the end of the reporting period to determine whether there is objective evidence of impairment. Objective evidence of impairment includes observable data that comes to the attention of the Group about one or more of the following loss events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the debtor will enter bankruptcy or other financial re-organisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; and
- a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

If any such evidence exists, any impairment loss is determined and recognised as follows:

- For investments in associates accounted for under the equity method in the consolidated financial statements (see note 2(h)), the impairment loss is measured by comparing the recoverable amount of the investment with its carrying amount in accordance with note 1(n)(ii). The impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount in accordance with note 2(l)(ii).
- For unquoted equity securities carried at cost, the impairment loss is measured as the difference between the carrying amount of the financial asset and the estimated future cash flows, discounted at the current market rate of return for a similar financial asset where the effect of discounting is material. Impairment losses for equity securities carried at cost are not reversed.
- For trade and other current receivables and other financial assets carried at amortised cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets), where the effect of discounting is material. This assessment is made collectively where financial assets carried at amortised cost share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assessed for impairment collectively are based on historical loss experience for assets with credit risk characteristics similar to the collective group.

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

Impairment losses are written off against the corresponding assets directly, except for impairment losses recognised in respect of trade debtors and bills receivable included within trade and other receivables, whose recovery is considered doubtful but not remote. In this case, the impairment losses for doubtful debts are recorded using an allowance account. When the Group is satisfied that recovery is remote, the amount considered irrecoverable is written off against trade debtors and bills receivable directly and any amounts held in the allowance account relating to that debt are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(ii) Impairment of other assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment (other than properties carried at revalued amounts);
- investment in subsidiaries in the Company's statement of financial position (except for those classified as held for sale or included in a disposal group that is classified as held for sale); and
- goodwill.

If any such indication exists, the asset's recoverable amount is estimated. In addition, for goodwill, intangible assets that are not yet available for use and intangible assets that have indefinite useful lives, the recoverable amount is estimated annually whether or not there is any indication of impairment.

— Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

— Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal, or value in use, if determinable.

— Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favorable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(m) Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost formula and comprise all costs of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

(n) Loans and Receivables

Loan and receivables, including investment-loan and receivables and trade and other receivables, are initially recognised at fair value and thereafter stated at amortised cost less allowance for impairment losses for bad and doubtful debts, except where the receivables are interest-free loans made to related parties without any fixed repayment terms or the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less allowance for impairment losses for bad and doubtful debts.

(o) Convertible Bond

Convertible bond that can be converted to equity share capital at the option of the holders, where the number of shares that would be issued on conversion and the value of the consideration that would be received at that time do not vary, are accounted for as compound financial instruments which contain both a liability component and an equity component. At initial recognition, the liability component of the convertible bond is measured as the present value of the future interest and principal payments, discounted at the market interest rate for similar liabilities that do not have a conversion option. The remaining proceeds are allocated to the conversion option as equity component. Transaction costs that relate to the issue of a compound financial instrument are allocated to the liability and equity components in proportion to the allocation of proceeds.

The liability component is subsequently carried at amortised cost. The interest expense recognised in profit or loss on the liability component is calculated using the effective interest method, until extinguished on conversion or maturity.

The equity component is recognised in equity, net of any tax effects. When the bond is converted, the relevant equity component and the carrying amount of the liability component at the time of conversion are transferred to share capital and share premium for the shares issued. When the bond is redeemed, the relevant equity component is transferred to retained profits or accumulated losses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(p) Interest-bearing Borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between the amount initially recognised and redemption value being recognised in profit or loss over the period of the borrowings, together with any interest and fees payable, using the effective interest method.

(q) Trade and Other Payables

Trade and other payables are initially recognised at fair value and thereafter stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(r) Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated cash flow statement.

(s) Employee Benefits

(i) Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(ii) Termination benefits

Termination benefits are recognised when, and only when, the Group demonstrably commits itself to terminate employment or to provide benefits as a result of voluntary redundancy by having a detailed formal plan which is without realistic possibility of withdrawal.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(t) Income Tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Company controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

(u) Financial Guarantees Issued, Provisions and Contingent Liabilities

(i) Financial guarantees issued

Financial guarantees are contracts that require the issuer (i.e., the guarantor) to make specified payments to reimburse the beneficiary of the guarantee (the "holder") for a loss the holder incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

(ii) Other provisions and contingent liabilities

Provisions are recognised for other liabilities of uncertain timing or amount when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or nonoccurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(v) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in profit or loss as follows:

(i) *Credit guarantee service and investment income*

Credit guarantee service and investment income consist of guarantee fee and related service income are recognised when the service is rendered or the related risks and rewards of ownership is transferred.

(ii) *Sale of goods*

Revenue is recognised when goods are delivered at the customers' premises which is taken to be the point in time when the customer has accepted the goods and the related risks and rewards of ownership. Revenue excludes value added tax or other sales taxes and is after deduction of any trade discounts. Any compensation from the cancel of contracts are recognised when it is received.

(iii) *Interest income*

Interest income is recognised as it accrues using the effective interest method.

(iv) *Commission income*

Commission income for broking business is recorded as income on a trade date basis.

(v) *Hotel accommodation service*

Hotel accommodation service is recognised when the service is rendered.

(vi) *Dividend income*

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(w) Foreign Currencies

The Group's consolidated financial statements are presented in Hong Kong dollars, which is also the parent company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and has elected to recycle the gain or loss that arises from using this method.

(i) Transactions and balances

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in profit or loss with the exception of monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income or profit or loss are also recognised in other comprehensive income or profit or loss, respectively).

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

(ii) Group companies

On consolidation, the assets and liabilities of foreign operations are translated into Hong Kong dollars at the rate of exchange prevailing at the reporting date and their income statements are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

(x) Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(y) Related Parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the group or to the group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(z) Segment Reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(aa) Discontinued operations

A discontinued operation is a component of the group's business, the operations and cash flows of which can be clearly distinguished from the rest of the group and which represents a separate major line of business or geographical area of operations, or is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations, or is a subsidiary acquired exclusively with a view to resale.

Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale (see (i) above), if earlier. It also occurs if the operation is abandoned.

Where an operation is classified as discontinued, a single amount is presented on the face of the statement of profit or loss, which comprises:

- the post-tax profit or loss of the discontinued operation; and
- the post-tax gain or loss recognised on the measurement to fair value less costs to sell, or on the disposal, of the assets or disposal group(s) constituting the discontinued operation.

10. LOSS PER SHARE

(a) Basic loss per share

Basic loss per share is calculated by dividing the loss attributable to equity shareholders of the Company by the weighted average number of ordinary shares in issue during the year.

	2015	2014
	HK\$'000	HK\$'000
Loss attributable to equity shareholders		
— continuing operations	(64,182)	(77,201)
Profit attributable to equity shareholders

Total ordinary shares outstanding at December 31, 2015 was 7,368,072,000 shares (2014: 2,992,400,000 shares).

The Group does not have earnings per share for discontinued operations for the year since there is no discontinued operations (2014: HK0.09 cents).

(b) Diluted earnings per share

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The Company's only dilutive potential ordinary shares are the convertible bond issued in 2010. The convertible bond is assumed to have been converted into ordinary shares, and the net loss is adjusted to eliminate the interest expenses. Since the impact of conversion of convertible bond on earnings per share is anti-dilutive, diluted earnings per share was not presented in both years.

16. TRADE RECEIVABLES

Customers are usually offered a credit period of up to 90 days. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by senior management.

(a) An ageing analysis of trade receivables is as follows:

	2015	2014
	HK\$'000	HK\$'000
Within 30 days	5,915	9,681
31 to 60 days	1,818	4,018
61 to 90 days	764	976
Over 90 days	82	3,862
	8,579	18,537

Trade receivables included HK\$81,519 (2014: HK\$3,862,594) which were past due at December 31, 2015. Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral over these balances.

(b) Impairment losses on trade receivables

Impairment losses in respect of trade receivables are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against trade receivables directly.

For the year ended December 31, 2015, a trade receivable in amount of HK\$715,000 of the credit guarantee service and investment business was uncollectible and written off (2014: Nil).

(c) Trade receivables denominated in other currencies

35. FINANCIAL GUARANTEES AND CONTINGENT LIABILITIES

At the end of the reporting period Harmonic Strait Financing Guarantee Co., Ltd ("Harmonic Strait") had not provided guarantees to its customers (2014: Nil) in return of service income as its ordinary business.

At December 31, 2015, there is no bank loan drawn down by the Group (2014: HK\$1.1 million).

As at December 31, 2015, except for those disclosed above, the Board was not aware of any possible material contingent liabilities.

36. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

(a) Financial risk factors

The Group's major financial instruments include, cash and cash equivalents, trade and other receivables amount due to directors, trade and bills payable, other payables, bank borrowings and convertible bond. Details of the financial instruments are disclosed in the respective notes. The risks associated with these financial instruments include credit risk, liquidity risk, interest rate risk and currency risk. The Group does not hold or issue derivative financial instruments either for hedging or trading purposes. The policies on how to mitigate these risks are set out as below.

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(i) *Credit risk*

Credit risk arises from the possibility that the counterparty to transaction is unwilling or unable to fulfill its obligation thereby incurring financial loss to the Group.

— Trade and other receivables

As at December 31, 2015, the maximum exposure to credit risk is represented by the carrying amount of each financial asset in the consolidated statement of financial position.

In respect of trade and other receivables, in order to minimise risk, management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. Credit evaluations of customers' financial position and condition are performed on all customers periodically. In addition, credit evaluations are performed on all customers requiring credit over a certain amount. These receivables are usually due within 90 days from the date of billing. Debtors with overdue balances, which will be reviewed on a case-by-case basis, are requested to settle all outstanding balances before any further credit is granted. Normally, the Group does not obtain collaterals from customers.

In respect of trade receivables, the Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The default risk of the industry and country in which customers operate also has an influence on credit risk. At December 31, 2015, the Group has a certain concentration of credit risk as approximately equals to 41.6% (2014: 32.1%) and 85.7% (2014: 76.4%) of the total trade receivables was due from the Group's largest customer and the five largest customers respectively.

— Deposits with banks

The Group mitigates its exposure to credit risk by placing deposits with the financial institutions with established credit rating. Given the high credit ratings of the banks, management does not expect any counterparty to fail to meet its obligations.

— Financial guarantee

It represents financing guarantee to customers under the financial guarantee business, individual credit evaluations are performed on all customers. These evaluations focus on the customer's financial background and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer rather than the industry or country in which the customers operate and therefore significant concentrations of credit risk primarily arise when the Group has significant exposure to individual customers.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(ii) *Liquidity risk*

Liquidity risk is the risk of non-availability of funds to meet all contractual financial commitments as they fall due.

The Group is responsible for its own cash management, including the short-term investment of cash surpluses and the raising of loans to cover expected cash demand, subject to board approval. The Group's policy is to regularly monitor current and expected liquidity requirements and its compliance with lending covenants to ensure that it maintains sufficient amount of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

The following liquidity risk tables set out the remaining contractual maturities at the end of the reporting period of the Group's financial liabilities based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on current rates at the end of the reporting period) and the earliest date the Group is required to pay.

Specifically, for term loans which contain a repayment on demand clause which can be exercised at the bank's sole discretion, the analysis shows the cash outflow based on the earliest period in which the entity can be required to pay, that is if the lenders were to invoke their unconditional rights to call the loans with immediate effect. The maturity analysis for other bank borrowings is prepared based on the scheduled repayment dates.

The following table summaries the maturity analysis of term loans with a repayment on demand clause based on agreed scheduled repayments set out in the loan agreements. The amounts include interest payments computed using contractual rates. As a result, these amounts were greater than the amounts disclosed in the "on demand" time band in the maturity analysis. Taking into account the Group's financial position, the directors do not consider that it is probable that the bank will exercise its discretion to demand immediate repayment. The directors believe that such term loans will be repaid in accordance with the scheduled repayment dates set out in the loan agreements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(iii) Interest rate risk

The Group's interest rate risk arises primarily from cash and cash equivalents, loan advances and bank borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk and issued at fixed rates expose the Group to fair value interest rate risk. The Group currently does not have any interest rate hedging policy in relation to fair value and cash flow interest rate risks. The directors monitor the Group's exposure on ongoing basis and will consider hedging the interest rate should the need arise.

(1) Interest rate profile

The effective interest rate of bank loans is disclosed in note 25. The interest rates and terms of repayment of the other short term loans is disclosed in notes 24.

(2) Sensitivity analysis

At December 31, 2015, it is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would have decreased/increased the Group's loss after tax and accumulated losses by approximately HK\$1,167,000 (2014: HK\$387,000). Other components of consolidated equity would not be affected (2014: Nil) in response to the general increase/decrease in interest rates.

The sensitivity analysis above indicates the instantaneous change in the Group's loss after tax (and accumulated losses) and other components of consolidated equity that would arise assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to re-measure those financial instruments held by the Group which expose the Group to fair value interest rate risk at the end of the reporting period. In respect of the exposure to cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the end of the reporting period, the impact on the Group's loss after tax (and accumulated losses) and other components of consolidated equity is estimated as an annualised impact on interest expense or income of such a change in interest rates. The analysis is performed on the same basis for 2014.

(iv) Currency risk

The Group is exposed to currency risk primarily through sales and purchases which give rise to receivables, payables and cash balances that are denominated in a foreign currency, i.e. a currency other than the functional currency of the operations to which the transactions relate. The currencies giving rise to this risk are primarily United States dollars and Renminbi.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(1) Exposure to currency risk

The following table details the Group's exposure at the end of the reporting period to currency risk arising from recognised assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate. The Group is mainly exposed to the fluctuation of United States dollars and Renminbi.

	December 31, 2015	
	US\$'000	RMB'000
Cash and cash equivalents	385	48,285
Trade and other receivables	131	130,425
Trade and other payables	—	(32,879)

Cash and cash equivalents	143	40,074
Trade and other receivables	63	2,010
Trade and other payables	—	(1,319)
	<u> </u>	<u> </u>
Overall exposure arising from recognised assets and liabilities	<u>206</u>	<u>40,765</u>

Management closely monitors currency risk position to ensure that the net exposure is kept at an acceptable level.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(2) Sensitivity analysis

The following table indicates the instantaneous change in the Group's loss after tax (and accumulated losses) and other components of consolidated equity that would arise if foreign exchange rates to which the Group has significant exposure at the end of the reporting period had changed at that date, assuming all other risk variables remained constant. In this respect, it is assumed that the pegged rate between the Hong Kong dollar and the United States dollar would be materially unaffected by any changes in movement in value of the United States dollar against other currencies.

	December 31, 2015		December 31, 2014	
	Increase/ (decrease) in foreign exchange rates	Effect on profit after tax and accumulated losses HK\$'000	Increase/ (decrease) in foreign exchange rates	Effect on profit after tax and accumulated losses HK\$'000
Renminbi	5%	9,232	5%	2,027
	(5%)	(9,232)	(5%)	(2,027)
USD	5%	26	5%	10
	(5%)	(26)	(5%)	(10)

Results of the analysis as presented in the above table represent an aggregation of the instantaneous effects on each of the Group entities' (loss)/profit after tax and equity measured in the respective functional currencies, translated into Hong Kong dollars at the exchange rate ruling at the end of the reporting period for presentation purposes.

The sensitivity analysis assumes that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group which expose the Group to foreign currency risk at the end of the reporting period, including intercompany payables and receivables within the Group which are denominated in a currency other than the functional currencies of the lender or the borrower. The analysis excludes differences that would result from the translation of the financial statements of foreign operations into the Group's presentation currency. The analysis is performed on the same basis for 2014.

(v) Fair values of financial instruments carried at other than fair value

The fair values of cash and cash equivalents, bank deposits, trade and other receivables, trade and bills payable and accruals and other payables are not materially different from their carrying amounts because of the immediate or short term maturity of these financial instruments. The carrying amount of bank borrowings and overdrafts approximated its fair value.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(b) Capital risk management

The primary objective of the Group's capital risk management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholders value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives or policies during the year.

The Group monitors capital on the basis of the debt-to-equity ratio, which is calculated as net debt divided by total equity. Net debt is calculated as interest-bearing bank borrowings and overdrafts less cash and cash equivalents. Total equity represents equity attributable to the equity shareholders of the Group.

Another subsidiary of the Group operated in PRC is subject to the capital requirements under 《融資性擔保公司暫行管理規定》. The subsidiary is required to maintain a minimum paid up capital of RMB50,000,000.

(c) Estimation of fair values

The fair values of interest-bearing bank borrowings are estimated as the present value of future cash flows, discounted at current market interest rates for similar financial instruments.

37. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

(a) Key sources of estimation uncertainty

In the process of applying the Group's accounting policies which are described in note 2, management has made certain key assumptions concerning the future, and other key sources of estimated uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts and liabilities within the next financial year, as discussed below.

(i) Impairment of property, plant and equipment

The recoverable amount of an asset is the greater of its net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset, which requires significant judgement relating to level of revenue and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of the recoverable amount, including estimates based on reasonable and supportable assumptions and projections of revenue and operating costs. Changes in these estimates could have a significant impact on the carrying value of the assets and could result in additional impairment charge or reversal of impairment in future periods.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2015

(ii) *Impairment of receivables*

The Group maintains impairment allowance for doubtful accounts based on periodic evaluation of the recoverability of the trade and other receivables. The estimates are based on the ageing of the trade and other receivables and the historical write-off experience, net of recoveries. If the financial condition of the debtors were to deteriorate, additional impairment allowance may be required.

(iii) *Estimated impairment of goodwill*

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. If the carrying amount exceeds the estimated value in use of the cash generating unit, additional impairment allowance may be required.

(iv) *Estimated net realisable value of inventories*

The Group's management writes down slow-moving or obsolete inventories based on an assessment of the net realisable value of the inventories. Inventories will be written down where events or changes in circumstances indicates that the net realisable value is less than cost. The determination of net realisable value requires the use of judgement and estimates. Where the expectation is different from the original estimate, such difference will have an impact on the carrying value of the inventories and revision on the amount of inventories written down in the period in which such estimate has been changed is required to be made.

(b) Critical accounting judgements in applying the Group's accounting policies

In determining the carrying amounts of some assets and liabilities, the Group makes assumptions for the effects of uncertain future events on those assets and liabilities at the end of the reporting period. These estimates involve assumptions about such items as cash flows and discount rates used. The Group's estimates and assumptions are based on historical experience and expectations of future events and are reviewed periodically. In addition to assumptions and estimations of future events, judgements are also made during the process of applying the Group's accounting policies.
