MANAGEMENT DISCUSSION AND ANALYSIS

REVIEW OF BUSINESS AND PROSPECT

In the first half of 2021, the Group produced approximately 5,469 kg (equivalent to approximately 175,829 ounces) of gold bullion, representing a decrease of approximately 1,374 kg (equivalent to approximately 44,173 ounces) as compared with the corresponding period of the previous year. The decrease in the production volume of gold bullion was primarily due to the decrease in the production volume of gold bullion processed from compound gold purchased from external suppliers (the gross profit margin of which is relatively lower) in the smelting segment of the Group. Such decrease was also due to the carrying out of road maintenance works in the vicinity of the smelting plant for nearly 2 months commencing from early March 2021, affecting the transportation and normal operation of the smelting plant. The Group also took this opportunity to conduct routine maintenance. For the six months ended 30 June 2021 (the “Current Period”), the Group’s revenue decreased by approximately 13.7% to approximately RMB2,214,430,000 as compared with that of the corresponding period of the previous year, due to the decrease in the production volume of gold bullion, coupled with the downward oscillation of international gold prices since the beginning of 2021. Despite lower revenue, the Group’s profit increased as compared with that of the corresponding period of the previous year. The net profit of the Group for the Current Period was approximately RMB40,874,000 (six months ended 30 June 2020: net profit of RMB19,962,000). The basic earnings per share of the Company for the Current Period was RMB0.06 (six months ended 30 June 2020: RMB0.03). The Group’s favourable results were mainly due to continued optimisation of the mine production system and enhancement of production capacity of the mining segment. Besides, the Group continued to improve its internal control system and organised production in a scientific and orderly manner, demonstrating sound growth momentum in the production and operation of the Group. Meanwhile, the market price of copper products increased, contributing to an improvement in the overall gross profit margin. On the other hand, the finance costs for the Current Period was RMB37,830,000, representing a decrease of RMB24,132,000 as compared with the finance costs of RMB61,962,000 for the corresponding period of the previous year, mainly due to a decrease in the loan base, which led to the increase in the profit of the Group.

The Group’s mineral resources are mainly scattered in the regions of Henan, Xinjiang, Inner Mongolia, Jiangxi and Gansu of the People’s Republic of China (the “PRC”) and Kyrgyz Republic (“KR”) with 31 mining and exploration rights as at 30 June 2021, covering 248.82 square kilometers. The total gold reserves and resources as at 30 June 2021 were approximately 119.49 tonnes (3,841,604 ounces).

1. Mining Segment

Revenue and production

Our mining business mainly comprises the sales of gold concentrates and compound gold. Most of the gold concentrates and compound gold were sold to the Group’s smelting plant as intra-group sales.

The following table sets forth the analysis on the production and sales volume of the mining segment by product category:

	For the six months ended 30 June				
	Unit	2021		2020	
		Approximate production volume	Approximate sales volume	Approximate production volume	Approximate sales volume
Gold concentrates (contained gold)	kg	1,029	1,117	582	493
Compound gold	kg	447	465	546	532
Total	kg	1,476	1,582	1,128	1,025
Total	Ounce	47,453	50,861	36,265	32,954

The Group's total revenue from the mining segment for the Current Period was approximately RMB562,671,000, representing an increase of approximately 59.7% from approximately RMB352,333,000 for the corresponding period in 2020. During the Current Period, Full Gold, a subsidiary in KR, was actively engaged in restructuring in accordance with the resumption plan, such as acquisition of new equipment and refurbishment due to damages caused by a fire broke out in October 2020. With the efforts of the management of the Group, Full Gold in KR resumed normal operation on 15 August 2021. Therefore, the revenue from the mining segment during the Current Period was all derived from revenue from Mining — PRC (six months ended 30 June 2020: RMB300,713,000), while revenue from Mining — KR was nil (six months ended 30 June 2020: RMB51,620,000). During the Current Period, the turnover in Henan, Xinjiang, Inner Mongolia and KR represented approximately 66%, 31%, 3% and 0% of the total turnover from the mining segment, respectively. The production of compound gold in mining segment decreased by approximately 99 kg to approximately 447 kg, while the production of gold concentrates increased by approximately 447 kg to approximately 1,029 kg.

Segment results

The Group's total profit of the mining segment for the Current Period was approximately RMB148,245,000, representing an increase of approximately 135.7% as compared with the total profit of approximately RMB62,888,000 for the corresponding period in 2020, among which, the profit from Mining — PRC was approximately RMB192,955,000 (six months ended 30 June 2020: RMB98,580,000), and the loss from Mining — KR was approximately RMB44,710,000 (six months ended 30 June 2020: RMB35,692,000). The segment result to segment revenue ratio of the Group's mining segment for the Current Period was approximately 26.3%, compared with approximately 17.8% in the corresponding period in 2020.

During the Current Period, the profit of the Mining — PRC segment increased by approximately 95.7% as compared with that in the corresponding period in 2020, mainly benefiting from the continued improvement on the operations in the mining segment.

Based on the above, there was an improvement in the mining and mineral separation efficiency of the Group's mining segment as compared with that of the corresponding period in 2020, and the profit of the mining segment increased by approximately 135.7% as compared with that of the corresponding period in 2020.

2. Smelting Segment

The Group's existing melting plant is situated in Henan Province, and is capable of processing gold, silver, copper products and sulphuric acid. Its main products include gold bullion, silver, copper products and sulphuric acid. The following table sets forth the analysis on the production and sales volume of the smelting segment by product category:

	Unit	For the six months ended 30 June			
		2021		2020	
		Approximate production volume	Approximate sales volume	Approximate production volume	Approximate sales volume
Gold bullion (processed from gold concentrates)	kg	4,279	4,265	4,852	4,556
	ounce	137,570	137,120	155,992	146,475
Gold bullion (processed from compound gold purchased externally)	kg	1,190	1,082	1,991	1,991
	ounce	38,259	34,786	64,010	64,010
Silver	kg	6,985	8,532	12,542	11,399
	ounce	224,568	274,304	403,225	366,478
Copper products	tonne	1,784	1,795	2,159	1,110
Sulphuric acid	tonne	43,109	43,542	47,328	42,306

Sales and production

The Group's total revenue from the smelting segment for the Current Period was approximately RMB2,168,913,000, representing a decrease of approximately 14.5% from approximately RMB2,536,944,000 for the corresponding period in 2020. During the Current Period, the decrease in total revenue of the smelting segment was mainly due to a decrease in the production of gold bullion processed from compound gold purchased from the external suppliers in the smelting segment during the Current Period given the low profitability of the business of gold bullion processed from compound gold purchased externally. Furthermore, the transportation and normal operation of the smelting plant were affected due to the carrying out of the road maintenance works in the vicinity of the smelting plant for nearly two months commencing from early March 2021. These two factors together resulted in the decrease in the production volume of gold bullion of 1,374 kg.

Segment results

The Group's total losses of the smelting segment for the Current Period was approximately RMB26,152,000, as compared with the profit of approximately RMB67,271,000 for the corresponding period in 2020.

Although the Group strictly implemented the cost-reduction and efficiency enhancement measures, the smelting segment recorded a loss for the Current Period, which was due to the temporary production suspension as a result of the carrying out of the aforesaid maintenance works, coupled with the downward oscillation of the international gold prices since the beginning of the 2021.

CONSOLIDATED OPERATING RESULTS**Revenue**

The following table sets forth the analysis on the Group's sales by product category:

Product name	For the six months ended 30 June					
	2021			2020		
	Amount (RMB'000)	Sales volume	Average unit price (RMB per kg/tonne)	Amount (RMB'000)	Sales volume	Average unit price (RMB per kg/tonne)
Gold bullion	2,018,570	5,347 kg	377,514	2,418,318	6,547 kg	369,378
Silver	40,637	8,532 kg	4,763	39,353	11,399 kg	3,452
Copper products	101,790	1,795 tonnes	56,707	46,249	1,110 tonnes	41,666
Sulphuric acid	7,560	43,542 tonnes	174	39	42,306 tonnes	0.9
Gold concentrates	42,682	136 kg	313,838	—	—	—
Others	6,389			61,299		
Revenue before tax	2,217,628			2,565,258		
Less: Sales taxes and levies	(3,198)			(379)		
	2,214,430			2,564,879		

The Group's revenue for the Current Period was approximately RMB2,214,430,000, representing a decrease of approximately 13.7% as compared with the corresponding period in 2020. The Group recorded a decline in the overall sales of gold bullion as a result of a decrease in the production volume of gold bullion in the smelting segment, and the downward oscillation of the international gold prices since the beginning of the 2021.

Gross profit and gross profit margin

The Group's gross profit and gross profit margin for the Current Period were RMB225,393,000 and 10.2%, respectively, and the gross profit and gross profit margin for the corresponding period of the previous year were RMB234,046,000 and 9.1%, respectively. The increase in the Group's overall gross profit margin was mainly due to an increase of production volume in the mining segment and an increase in the gross profit from the sale of copper products.

OUTLOOK AND PLANNING

Although it will continue to face challenges in such aspects as resource bottlenecks, technological innovation, security and environmental protection, market risk and fund management in the second half of 2021, the Group will further improve and expand its mining business, focus on and strengthen its smelting business, streamline its management process and improve quality and efficiency. Looking into the second half of 2021, the Group will mainly focus on the following aspects:

I. To strive for major breakthroughs by continuing to overcome challenges in resource exploration.

To strive for major breakthroughs, the ongoing mineral exploration shall be effectively safeguarded. The administration and license applications of the exploration areas shall be strengthened, while further efforts shall be made to promote the applications of new technologies and equipment. Furthermore, we shall be in an active position to carry out resource exploration projects.

II. To gradually improve the lean management standards by strengthening the management of production units.

Performance-based assessments shall play an effective role in leveraging and controlling production activities, while production activities at our branch offices and subsidiaries shall be efficiently organized and managed on site. Meanwhile, comprehensive investments in technologies shall be doubled down to facilitate an in-depth integration of information and digitalization with production operation and management system.

III. To continuously improve the quality and efficiency of operation by efficiently procuring raw materials and marketing products.

Firstly, all-out efforts are made to safeguard the procurement of raw materials. As a result, the purchase of high-sulfur ores shall be doubled down, while the management of ore blending shall be refined. Furthermore, the research and application of special carbon and arsenic ore sources shall be strengthened. To facilitate the collection of capital, we shall expedite the production output. Secondly, information sharing and communication, as well as data analysis, shall be strengthened, so that our products can be effectively marketed. Thirdly, the purchase of compound gold shall be carried out orderly.

IV. To strengthen our development momentum by fully promoting the key project development at our branches and subsidiaries.

We will speed up various works progress, including the construction of cyanide-containing dewatering in our smelting plant; the construction and installation of the 45-meter concentrator in Huatai; the transformation of 3# well chute in Xingyuan; and the installation of the blind shaft in Jinchan.

V. To fortify safety and environmental protection defenses by establishing the red-line and bottom-line awareness.

Firstly, the safety and environmental protection accountability system, and accident investigation mechanism shall be improved. Secondly, the shaft operation policy governing supervised shift roster shall be strictly implemented. Thirdly, study and training programs focused on safety production and environmental protection shall be organized and operated. Fourthly, the development of the dual prevention system and information-based applications shall be advanced, while the three-year rectification campaign for production safety shall be advanced.

VI. To release the reform potential by steadily pushing forward with the reform of labor, personnel and salary system; to build a professional management team by enhancing the cadre team building.

We will deepen and promote the reform of the personnel and salary system at the headquarters, by controlling the staffing of managerial positions, while encouraging various professional and technical talents to pursue personal growth and promotion through different career paths. By deepening and promoting the determination of positions and employee type for our branches and subsidiaries, we will expand the autonomy of salary allocation and personnel recruitment at our branches and subsidiaries. Various approaches, including examination, assessment, cadre rotation among the headquarters, branches, and subsidiaries, have been adopted to enhance the quality of the cadres as a whole. Furthermore, the comprehensive implementation of the “front-line work method” will enable middle-level cadres to resolve issues in the production line and facilitate personal growth.

FINANCIAL REVIEW

Liquidity and Financial Resources

The Group generally finances its operations with internally generated funds, bank loans and loans from other financial institutions. The cash and cash equivalents balances as at 30 June 2021 amounted to RMB125,889,000 (31 December 2020: RMB132,709,000).

The total equity attributable to the equity shareholders of the Company as at 30 June 2021 amounted to RMB1,841,576,000 (31 December 2020: RMB1,783,148,000). As at 30 June 2021, the Group had current assets of RMB3,166,037,000 (31 December 2020: RMB3,575,327,000) and current liabilities of RMB4,562,954,000 (31 December 2020: RMB4,898,463,000). The current ratio was 0.69% (31 December 2020: 0.73%).

As at 30 June 2021, the Group had total outstanding bank and other borrowings of approximately RMB3,368,169,000 (with interest rates ranging from 2.7% to 5.2% per annum). All loans shall be repayable within one year. The gearing ratio as at 30 June 2021 was 51.7% (31 December 2020: 56.1%), which was calculated by total borrowings divided by total assets.

As at 30 June 2021, the Group had unutilised bank facilities of approximately RMB1,603 million, of which RMB474 million were directly related to bank loans facilities. These facilities could be drawn down by the Group to finance its operation. Based on the past experience and the communication with banks, the Board believes that the Company has the ability to renew or secure banking facilities upon maturity.

In order to effectively lower the debt ratio and improve the financing ability of the Group, the Group has taken the following measures:

- 1) to increase the production volume of the gold bullion and generate cash flows from operating activities by strengthening internal management and optimizing cost reduction and efficiency enhancement measures, and increasing the output of gold bullion processed from gold concentrates;
- 2) to secure certain funding by enhancing the communication and promoting mutual trust between the Group and banks and other financial institutions as well as taking advantage of the government’s relatively loose financing policies;

- 3) to increase supply chain financing by taking full advantage of the attribute of high liquidity of inventories in the gold mining industry; and
- 4) to increase liquidity and reduce short-term borrowings, the Group will arrange more secured long-term loan facilities at lower interest rates by the pledging of property, plant and equipment of the Group.

Security and Guarantee

At 30 June 2021, bank and other borrowings of a subsidiary, Shenzhen Jinda, amounting to RMB40,000,000 were secured by its building with carrying amount of RMB69,375,000 (31 December 2020: Nil), and guaranteed by the Company (31 December 2020: Nil).

At 30 June 2021, bank and other borrowings of the Company amounting to RMB50,000,000 were guaranteed by a subsidiary Habahe Huatai (31 December 2020: Nil).

Market Risks

The Group is exposed to various types of market risks, including fluctuations in gold price and other commodity prices, as well as changes in interest rates, foreign exchange rates and inflation.

Gold price and other commodities price risk

The Group's revenue and profit for the Current Period were affected by fluctuations in the gold prices and other commodities prices as all our products were sold at market prices and such fluctuations in prices were beyond our control. The Group does not use and strictly prohibits the use of commodity derivative instruments or futures for speculation purpose. All commodity derivative instruments are used to minimise the potential price fluctuation of gold and other commodities.

Interest rate risk

The Group is exposed to risks associated with the fluctuation in interest rates on our debt obligations. The Group undertakes debt obligations for general corporate purposes such as support of capital expenditure and working capital. The Group's bank loans bear interest rates that are subject to adjustment made by our lenders in accordance with changes of the relevant regulations of the People's Bank of China. If the People's Bank of China increases the interest rates, our finance costs increase accordingly. In addition, to the extent that we may need to raise our debt financing in the future, upward fluctuations in interest rates will increase the cost of new debt.

Exchange rate risk

The Group's transactions are mainly denominated in Renminbi. As such, fluctuations in exchange rates may affect the international and domestic gold prices, and our operational results may be affected. Renminbi is not freely convertible and could fluctuate against a basket of currencies. The PRC government may take further actions and implement new measures on free trade of Renminbi.

In addition to the foregoing, the exchange rate risks to which the Group exposes are mainly from certain bank deposits, trade and other receivables, trade and other payables and bank loans, which are denominated in foreign currencies. The currency risk is primarily from United States dollars.

Fluctuations in exchange rates may adversely affect the value of our net assets, earnings and any dividends we declare when they are being converted or translated into Hong Kong dollars.

Contractual Obligations

As at 30 June 2021, the Group's total capital commitments in respect of the contracted construction costs and the authorised but not contracted construction costs which were not provided for in the financial statements were approximately RMB80,859,000 (31 December 2020: RMB79,351,000) and RMB287,818,000 (31 December 2020: RMB249,263,000), respectively, representing an increase of approximately RMB1,508,000 and approximately RMB38,555,000, respectively.

Capital Expenditure

For the Current Period, the Group's capital expenditure was approximately RMB343,369,000, representing an increase of approximately 177.8% from approximately RMB123,633,000 for the corresponding period in 2020.

The Group's capital expenditure mainly relates to the construction of mining shafts, expansion of project equipment and upgrading of production equipment.

Contingent Liabilities

As at 30 June 2021, the Group had no material contingent liabilities.

Human Resources

For the six months ended 30 June 2021, the average number of employees of the Group was 3,429. The Company highly treasures its human resources and provides its employees with competitive remuneration and training programs.

The Board does not recommend the payment of interim dividend for the six months ended 30 June 2021 (six months ended 30 June 2020: Nil).

CORPORATE GOVERNANCE

The Company is committed to maintaining a solid, transparent and sensible framework of corporate governance for the Company and its subsidiaries and will continue to review its effectiveness.

The Company has adopted the code provisions (the “Code Provisions”) as stated in the Corporate Governance Code (the “CG Code”) contained in Appendix 14 of the Listing Rules as the corporate governance code of the Company. The Board is committed to complying with the Code Provisions as stated in the CG Code to the extent that the Directors consider it is applicable and practical to the Company.

During the Current Period, the Company has complied with the Code Provisions in the CG Code.

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) as set out in Appendix 10 of the Listing Rules as the Company’s code of conduct regarding securities transactions by the Directors. Based on specific enquiry of the Directors, the Directors complied with the required standard set out in the Model Code throughout the Current Period.

AUDIT COMMITTEE

The Audit Committee comprises four independent non-executive Directors and one non-executive Director, namely, Mr. Xu Rong, Mr. Wang Guanghua, Mr. Wang Jiheng, Mr. Tan Chong Huat and Mr. Zhang Feihu. An Audit Committee meeting was held on 16 August 2021 to review the unaudited interim financial report for the six months ended 30 June 2021. KPMG, the Group's external auditor, has carried out a review of the interim financial report for the six months ended 30 June 2021 in accordance with the Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the HKICPA.

EVENTS AFTER THE REPORTING PERIOD

There were no material events occurred after the Current Period.

**Review report to the board of Directors of
Lingbao Gold Group Company Ltd.**

(Incorporated in the People's Republic of China with limited liability)

INTRODUCTION

We have reviewed the interim financial report set out on pages 18 to 42 which comprises the consolidated statement of financial position of Lingbao Gold Group Company Ltd. (the "Company") as of 30 June 2021 and the related consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income and consolidated statement of changes in equity and condensed consolidated cash flow statement for the six-month period then ended and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants. The Directors are responsible for the preparation and presentation of the interim financial report in accordance with Hong Kong Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2021 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, *Interim financial reporting*.

NOTES TO THE UNAUDITED INTERIM FINANCIAL REPORT

(Expressed in Renminbi Yuan unless otherwise indicated)

1 BASIS OF PREPARATION

This interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, including compliance with Hong Kong Accounting Standard (HKAS) 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants (HKICPA). It was authorised for issue on 16 August 2021.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2020 annual financial statements.

The preparation of an interim financial report in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of Lingbao Gold Group Company Ltd. (the “Company”) and its subsidiaries (together “the Group”) since the 2020 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”).

As at 30 June 2021, the Group had net current liabilities of RMB1,397 million, total borrowings of RMB3,368 million and capital commitments of RMB369 million. In view of these circumstances, the Directors of the Company have given consideration to the future liquidity of the Group and its available sources of finance including banking facilities in assessing whether the Group will have sufficient financial resources to continue as a going concern. Having considered the Group’s cash flow projection as at 30 June 2021, the Group’s unutilised banking facilities of RMB1,603 million, of which RMB474 million were directly related to bank loans facilities, the ability to obtain new banking and other financing facilities, the ability to renew or refinance the banking facilities upon maturity, the ability to adjust the scheduled capital commitments and the continuing efforts taken to improve operation efficiency, the Directors of the Company consider that the Group has sufficient working capital to meet in full its financial obligations as they fall due for at least the next twelve months from the end of the reporting period and there are no material uncertainties related to events or conditions which, individually or collectively, may cast significant doubt on the Group’s ability to continue as a going concern. Should the Group not be able to continue to operate as a going concern, adjustments would have to be made to write down the value of assets to their recoverable amounts, to provide for further liabilities which might arise and to reclassify non-current assets and non-current liabilities as current assets and current liabilities respectively.

1 BASIS OF PREPARATION (continued)

The interim financial report is unaudited, but has been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the HKICPA. KPMG's independent review report to the Board of Directors is included on page 17.

2 CHANGE IN ACCOUNTING POLICIES

The HKICPA has issued several amendments to HKFRSs that are first effective for the current accounting period of the Group. None of these developments has had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented in this interim financial report.

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

3 SEGMENT REPORTING

The Group manages its businesses by divisions, which are organized by a mixture of business lines (production processes, products and services) and geography. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purposes of resource allocation and performance assessment, the Group has identified three reportable segments for the six months ended 30 June 2021 (2020: three reportable segments). Operating segments with similar nature of the production process, products and services have been aggregated to form the following reportable segments.

Mining – PRC	–	Gold mining and mineral ores processing operations in the PRC.
Mining – KR	–	Gold mining and mineral ores processing operations in the Kyrgyz Republic ("KR").
Smelting	–	Gold and other metal smelting and refinery operations carried out in the PRC.

3 SEGMENT REPORTING (continued)

(a) Segment results, assets and liabilities

Information regarding the Group's reportable segments as provided to the Group's most senior executive management for the purposes of resource allocation and assessment of segment performance for the periods is set out below.

15 CAPITAL AND RESERVE (continued)

(c) PRC statutory reserves

Transfers from retained earnings to the PRC statutory reserves were made in accordance with the relevant PRC rules and regulations and articles of association of the Company and its subsidiaries incorporated in the PRC.

The Company and the subsidiaries incorporated in the PRC are required to transfer 10% of their net profit, as determined in accordance with the PRC accounting standards and regulations, to the statutory surplus reserve (the “SSR”) until the reserve balance reaches 50% of the registered capital. Subject to certain restrictions as set out in the relevant PRC regulations, the SSR may be converted to increase the share capital of the Company, provided that the remaining balance after the capitalisation is not less than 25% of the registered share capital.

Pursuant to the relevant regulations in the PRC, the Group is required to provide for safety production fund based on volume of ores excavated and sales amount of certain products.

For the six months ended 30 June 2021, the Group transferred RMB23,030,000 (six months ended 30 June 2020: RMB17,265,000) from retained profits to specific reserve provision for the safety production fund and transferred RMB23,030,000 (six months ended 30 June 2020: RMB17,265,000) from specific reserve to retained earnings for the utilisation.

16 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

(a) Financial assets and liabilities measured at fair value

(i) Fair value hierarchy

The following table presents the fair value of the Group’s financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured using significant unobservable inputs

The Group has a team headed by the finance manager performing valuations review for the financial instruments. The team reports directly to the chief financial officer. A valuation report with analysis of changes in fair value measurement is prepared by the team at each interim and annual reporting date, and is reviewed and approved by the chief financial officer. Discussion of the valuation process and results with the chief financial officer, to coincide with the reporting dates.

16 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)**(a) Financial assets and liabilities measured at fair value (continued)****(i) Fair value hierarchy (continued)**

	Fair value measurements as at 30 June 2021 categorised into			
	Fair value at 30 June 2021 RMB'000	Level 1 RMB'000	Level 2 RMB'000	Level 3 RMB'000
Recurring fair value measurement				
Financial assets at fair value through profit or loss:				
– Unlisted equity securities	4,520	–	–	4,520

	Fair value measurements as at 31 December 2020 categorised into			
	Fair value at 31 December 2020 RMB'000	Level 1 RMB'000	Level 2 RMB'000	Level 3 RMB'000
Recurring fair value measurement				
Financial assets at fair value through profit or loss:				
– Unlisted equity securities	4,520	–	–	4,520
Financial liabilities at fair value through profit or loss:				
– Interest rate swaps	(233)	–	(233)	–

During the six months ended 30 June 2021, there were no transfers between Level 1 and Level 2, or transfers into or out of Level 3.

During the six months ended 30 June 2020, the unlisted equity securities amounting to RMB4,520,000 were transferred out from level 2 to level 3 since no quoted price could be obtained and unobservable inputs were applied in valuation of the unlisted equity securities.

The Group's policy is to recognise transfers between levels of fair value hierarchy as at the end of the reporting period in which they occur.

16 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)**(a) Financial assets and liabilities measured at fair value (continued)****(ii) Valuation techniques and inputs used in Level 2 fair value measurements**

The fair value of interest rate swaps is the estimated amount that the Group would receive or pay to terminate the swap at the end of the reporting period, taking into account current interest rates and the current creditworthiness of the swap counterparties.

(iii) Information about Level 3 fair value measurements

The movement during the period in the balance of Level 3 fair value measurements is as follows:

	2021 RMB'000	2020 RMB'000
Unlisted equity securities:		
At 1 January	4,520	—
Transfer out from Level 2	—	4,520
At 30 June	4,520	4,520

The fair value of unlisted equity securities is determined using the price/sales ratios of comparable listed companies adjusted for lack of marketability discount. The fair value measurement is negatively correlated to the discount for lack of marketability.

	Valuation techniques	Significant unobservable inputs
Unlisted equity securities	Market comparable companies	Discount for lack of marketability

(b) Fair values of financial assets and liabilities carried at other than fair value

The carrying amounts of the Group's financial instruments carried at cost or amortised cost are not materially different from their fair values as at 31 December 2020 and 30 June 2021.
