NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 March 2023

1. GENERAL

MOS House Group Limited is incorporated in the Cayman Islands as an exempted company with limited liability under the Cayman Companies Act, and its shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”).

The addresses of the Company’s registered office and the principal place of business are Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands and 50/F, United Asia Finance Centre, 333 Lockhart Road, Wanchai, Hong Kong, respectively.

Its immediate holding company is RB Power Limited (“**RB Power**”) and its ultimate holding company is RB Management Holding Limited (the “**Trust Company**”), both of which are incorporated in the British Virgin Islands (“**BVI**”). They are controlled by Mr. Simon Tso (“**Mr. Tso**”), an executive Director of the Company.

The principal activity of the Company is investment holding. The principal activities of its subsidiaries are trading of tiles and bathroom fixture products in Hong Kong and Macau and property investment.

The consolidated financial statements are presented in Hong Kong dollars (“**HK\$**”), which is the functional currency of the Company.

2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“**HKFRSs**”)

New and amendments to HKFRSs that are mandatorily effective for the current year

The Group has applied the following new and amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) for the first time in the current year. The adoption of the new/revised HKFRSs does not have significant impact on the consolidated financial statements.

Adoption of new/revised HKFRSs

Amendments to HKAS 16: Proceeds before Intended Use

The amendments clarify the accounting requirements for proceeds received by an entity from selling items produced while testing an item of property, plant or equipment before it is used for its intended purpose. An entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss and measures the cost of those items applying the measurement requirements of HKAS 2.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

Amendments to HKAS 37: Cost of Fulfilling a Contract

The amendments clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (for example, direct labour and materials) and an allocation of other costs that relate directly to fulfilling contracts (for example, an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract).

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

Amendments to HKFRS 3: Reference to the Conceptual Framework

The amendments update a reference in HKFRS 3 to the Conceptual Framework for Financial Reporting issued in 2018. The amendments also add to HKFRS 3 an exception to its requirement for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for some types of liabilities and contingent liabilities, an entity applying HKFRS 3 should instead refer to HKAS 37. The exception has been added to avoid an unintended consequence of updating the reference.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

Annual Improvements Project — 2018-2020 Cycle

HKFRS 1: Subsidiary as a First-time Adopter

This amendment simplifies the application of HKFRS 1 for a subsidiary that becomes a first-time adopter of HKFRSs later than its parent — i.e. if a subsidiary adopts HKFRSs later than its parent and applies HKFRS 1.D16(a), then a subsidiary may elect to measure cumulative translation differences for all foreign operations at amounts included in the consolidated financial statements of the parent, based on the parent's date of transition to HKFRSs.

HKFRS 9: Fees in the “10 per cent” Test for Derecognition of Financial Liabilities

This amendment clarifies that — for the purpose of performing the “10 per cent test” for derecognition of financial liabilities — in determining those fees paid net of fees received, a borrower includes only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

HKFRS 16: Lease Incentives

The amendment removes the illustration of payments from the lessor relating to leasehold improvements. As currently drafted, Example 13 is not clear as to why such payments are not a lease incentive.

HKAS 41: Taxation in Fair Value Measurements

This amendment removes the requirement to exclude cash flows for taxation when measuring fair value, thereby aligning the fair value measurement requirements in HKAS 41 with those in HKFRS 13.

The adoption of the amendments does not have any significant impact on the consolidated financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared on the historical cost basis, except for the payments for life insurance policies and investment property which are measured at fair value, and in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include the applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Companies Ordinance.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and assumptions concerning the future and judgements are made by the management in the preparation of the consolidated financial statements. They affect the application of the Group's accounting policies, reported amounts of assets, liabilities, income and expenses, and disclosures made. They are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances. Where appropriate, revisions to accounting estimates are recognised in the period of revision and future periods, in case the revision also affects future periods.

Key sources of estimation uncertainty

Provision of ECL for trade receivables

The management of the Group measures lifetime ECL of the trade receivables based on (i) trade receivables from customers located in the People's Republic of China ("**PRC distributors**"), trade receivables with aggregated significant balances exceeding HK\$1,000,000 and credit-impaired trade receivables that are assessed individually; and (ii) remaining trade receivables that are based on provision matrix through grouping of various debtors that have similar loss patterns, after considering the past due status of respective trade receivables. Estimated loss rates are based on historical observed default rates over the expected life of the debtors and are adjusted for forward-looking information. The assessment of credit risk of trade receivables involves high degree of estimation uncertainty. When the actual future cash flows are less than expected or more than expected, a material impairment loss or a material reversal of impairment loss may arise accordingly in future periods.

Net realisable value of inventories

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated selling expenses necessary to make the sale. These estimates are based on the current market condition and the historical experience of selling products of similar nature. Management of the Group reassesses the estimations on a product-by-product basis at the end of the reporting period and makes allowances when necessary.

Discount rates for calculating lease liabilities as lessee

The Group uses the lessee's incremental borrowing rates to discount future lease payments since interest rates implicit in the leases are not readily determinable. In determining the discount rates for its leases, the Group refers to a rate that is readily observable as the starting point and then applies judgement and adjusts such observable rate to determine the incremental borrowing rate.

Fair value of investment properties

In assessing the fair value of investment property, the Group obtains the valuation of the investment property provided by the independent professional qualified valuer. The valuation techniques applied by the independent professional qualified valuer for the investment property have been discussed with the Directors of the Company. The Directors review the valuations performed by the independent professional qualified valuer and use their estimation to determine whether valuation techniques applied are appropriate to the circumstances of the Group. Changes in assumptions could affect the reported fair value of investment property in the consolidated financial statements.

Critical judgements made in applying accounting policies

Lease term of contracts with extension options — as lessee

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised. The Group has lease contracts that include extension options. The Group applies judgement and considers all relevant factors that create an economic incentive for it to exercise the extension in evaluating whether it is reasonably certain whether or not to exercise the options to extend the lease. After the commencement date, the Group reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within its control and affects its ability to exercise the extension option.

7. SEGMENT INFORMATION

For the purpose of resources allocation and performance assessment, the chief operating decision maker (i.e. the chief executive of the Group) reviews the results of the Group’s operating segments separately for the purpose of making decisions about resources allocation and performance assessment. The Group’s operating segments are structured and managed separately according to the nature of their businesses, which are currently organised into two operating businesses as follows:

- (a) Retail — sale of tiles and bathroom fixture products through either retail or non-retail channel; and
- (b) Property investment.

The segment performance is evaluated based on reportable segment profit or loss before income tax without allocation of finance costs (other than interest on lease liabilities) and other unallocated corporate expenses and the basis of preparing such information is consistent with that of the consolidated financial statements. All assets are allocated to reportable segments other than deferred tax assets, bank balances and cash (including pledged bank deposit) and other unallocated corporate assets. All liabilities are allocated to reportable segments other than tax payable, bank borrowings, loan from a Director and other unallocated corporate liabilities.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

During the year under review, the Group was principally engaged in two business segments, being (i) the sale of tiles and bathroom fixture products to retail customers through its retail shops in Hong Kong, as well as the sale of tiles, bathroom fixtures and other products on project basis for residential and commercial premises renovation projects in Hong Kong and Macau; and (ii) the property investment in Hong Kong, where the Group earns rental income. For the year ended 31 March 2023, the Group recorded a total revenue of approximately HK\$153.9 million, representing a decrease of approximately 7.2% as compared to approximately HK\$165.8 million for the year ended 31 March 2022.

For the year ended 31 March 2023, the Group's net profit attributable to owners of the Company was approximately HK\$1.4 million, representing a decrease of approximately 88.2% as compared to approximately HK\$11.9 million for the year ended 31 March 2022. Such decrease was mainly attributable to the decrease in revenue.

i) Sale of tiles, bathroom fixtures and other products

The Group continued to face considerable challenges throughout the year. In particular, retail sales was adversely affected amid an uncertain economic and business environment, with setbacks caused by the fifth wave of pandemic in the first half of the financial year. Revenue generated from the retail sales of tile, bathroom fixture and other products decreased by approximately 20.5% from approximately HK\$118.5 million for the year ended 31 March 2022 to approximately HK\$94.2 million for the year ended 31 March 2023.

The Group remained committed to expanding its product portfolio to enhance the diversity of its product offerings. To complement the wide range of tile products which can be used for kitchens, the Group introduced a limited range of high-end European kitchen cabinet for selling to non-retail project customers during the year, leading to the increase in non-retail sales by approximately 27.0% from approximately HK\$46.6 million for the year ended 31 March 2022 to approximately HK\$59.2 million for the year ended 31 March 2023.

ii) Property investment

The Group earned rental income of approximately HK\$0.5 million (2022: approximately HK\$0.7 million) from its investment property for the year ended 31 March 2023. The decrease in rental income was due to rent reduction granted to tenant during the year.

FINANCIAL REVIEW

Revenue

For the year ended 31 March 2023, the Group recorded a total revenue of approximately HK\$153.9 million, representing a decrease of approximately 7.2% as compared to approximately HK\$165.8 million for the year ended 31 March 2022.

Revenue generated from the sale of tiles, bathroom fixtures and other products was approximately HK\$153.4 million (2022: HK\$165.1million), of which retail sales was approximately HK\$94.2 million (2022: HK\$118.5 million) and non-retail sales was approximately HK\$59.2 million (2022: HK\$46.6 million). Revenue from the sale of tiles and bathroom fixture products accounted for approximately 99.7% (2022: 99.6%) of the Group's total revenue for the year ended 31 March 2023.

Revenue generated from the property investment segment was rental income of approximately HK\$0.5 million (2022: HK\$0.7 million), which accounted for approximately 0.3% (2022: 0.4%) of the Group's total revenue for the year ended 31 March 2023.

Gross profit and product margin

The Group's gross profit (i.e. revenue from the sale of tiles, bathroom fixtures and other products minus cost of inventories sold) amounted to approximately HK\$81.1 million for the year ended 31 March 2023, representing a decrease of approximately 15.3% from approximately HK\$95.8 million for the year ended 31 March 2022, which was mainly due to the decrease in revenue. In addition, the overall product margin decreased from approximately 58.0% for the year ended 31 March 2022 to approximately 52.9% for the year ended 31 March 2023, which was due to the increase in proportion of project sales and other sales under non-retail sales channel, which offered higher discount to non-retail customers given the scale of purchase made.

Staff costs

Staff costs for the year ended 31 March 2023 was approximately HK\$20.6 million (2022: HK\$22.4 million). The decrease in staff costs was mainly due to decrease in sales commission and discretionary bonus in line with the decrease in revenue.

Property related expenses/Depreciation on right-of-use assets

In respect of the rented premises, the Group recorded property related expenses of approximately HK\$2.1 million (2022: HK\$2.7 million), the depreciation on right-of-use assets of approximately HK\$38.7 million (2022: HK\$41.3 million) and the relevant interest expense on lease liabilities of approximately HK\$2.2 million (2022: HK\$2.1 million).

Other expenses

The Group recorded other expenses of approximately HK\$18.6 million and HK\$21.5 million for the years ended 31 March 2023 and 2022 respectively. The Group's other expenses for the year ended 31 March 2023 mainly consisted of audit fee of approximately HK\$0.8 million (2022: HK\$0.7 million), bank charges of approximately HK\$1.5 million (2022: HK\$2.0 million), products delivery expenses of approximately HK\$8.1 million (2022: HK\$11.1 million), legal and professional fees of approximately HK\$3.2 million (2022: HK\$2.6 million), utility and office expenses of approximately HK\$2.4 million (2022: HK\$2.3 million) and sundry items of approximately HK\$2.5 million (2022: HK\$1.4 million). The decrease in other expenses for the year ended 31 March 2023 was mainly due to (i) the decrease in product delivery expenses as a result of the decrease in revenue and inventory level and (ii) the decrease in lease payments for short-term lease of warehouse of approximately HK\$1.3 million incurred in last year.

Profit attributable to owners of the Company

For the year ended 31 March 2023, the Group's profit attributable to owners of the Company was approximately HK\$1.4 million, representing a decrease of approximately 88.2% as compared to approximately HK\$11.9 million for the year ended 31 March 2022. Such decrease was mainly due to (i) decrease in gross profit from sale of tile and bathroom fixture products by approximately HK\$14.7 million as a result of decrease in revenue; (ii) the fair value of investment property as at 31 March 2023 remained unchanged, as compared to the fair value gain of approximately HK\$3.0 million recorded in last year; (iii) decrease in other income by approximately HK\$3.3 million, mainly resulting from the net effect of decrease in gain on rent concession by approximately HK\$5.0 million and increase in government subsidies by approximately HK\$1.8 million and (iv) increase in interest on bank borrowings by approximately HK\$1.3 million due to higher interest rates as well as increased bank borrowings. The aforesaid factors were partially offset by (i) net decrease in lease-related expenses (including property related expenses, depreciation on right-of-use assets and interest on lease liabilities) by approximately HK\$3.1 million; (ii) decrease in staff cost by approximately HK\$1.8 million; (iii) net reversal of impairment losses on trade receivables by approximately HK\$1.5 million compared with net provision of impairment losses of approximately HK\$0.6 million recorded last year and (iv) decrease in other expenses and taxation expenses by approximately HK\$2.9 million and HK\$1.5 million respectively.
