董事長報告書 Chairlady's Report

二零二五財年上半年,全球經濟增長動能趨緩,而中國經濟在宏觀政策精准改與內生修復動能積聚的雙重作用下呈現弱復蘇的態勢,內需消費溫可暖。出口增加及旺季催化共同支撐續、低需求端改善,行業庫存水平持續,但不場整體消費信心尚未完全恢復,有效消費需求仍然不足。

面對複雜多變的經營環境,本集團積極調整生產經營策略、優化管理、拓展市場,成功實現向高端市場進軍的目標以及銷售量價齊升的斐然成績。本期間,本集團銷量同比增長14.0%,再創歷史新高,推動銷售收入同比增加9.3%。

In the first half of FY2025, the global economic growth momentum slowed down. However, China's economy, driven by targeted macroeconomic policies and accumulated internal impetus for rebound, showed a mild turnaround with moderate recovery in domestic consumption. In addition, with the support of export growth and peak season factor, the demand for packaging paper saw an uptick and the industry's inventory level continued to improve. The industry sentiment also started to pick up slightly. Despite this, the overall consumer confidence in the market has yet to be fully restored, and the effective consumer demand remained insufficient.

In view of the complex and volatile operating environment, the Group actively adjusted its production and business strategies, optimized its management and expanded its market coverage, which has yielded remarkable results with the Group successfully fulfilling its goal of capturing high-end markets and boosting both sales volume and price. During the Period, the sales volume of the Group increased by 14.0% year-on-year and hit a new record high, which contributed to a year-on-year increase of 9.3% in revenue.

董事長報告書(續) Chairlady's Report (Continued)

同時,我們平衡產銷關係、優化庫存管理,提升資源使用效率,持續提高經營效益;我們緊密跟蹤原料及銷售價格,持續增強盈利創造力。這些努力共同推動集團基本面持續改善及盈利能力顯著提高。本期間本集團稅後淨利潤同比增長超1.2倍,盈利水平領先行業。

深耕品牌建設 彰顯玖龍效應

產品方面,我們堅持高附加值與高效益的發展道路,持續推進品牌價值創造與集團盈利增長。集團正在廣西北海和湖北荊州投資白卡紙和文化紙合共370萬噸年設計產能,所有項目投產後,本集團的年設計造紙產能將達到2,537萬噸,進一步優化產品結構。

Meanwhile, we continued to improve our operating efficiency by striking a balance between production and sales, optimizing inventory management and enhancing the efficiency of resource utilization. We also kept a close tab on prices of raw materials and sales in a bid to further enhance our profitability. All these efforts contributed to continuous improvement of the Group's fundamentals and a substantial increase in its profitability. As such, the Group's net profit after taxation for the Period increased by over 1.2 times year-on-year, leading the industry in terms of profit.

STRENGTHENED BRAND BUILDING EFFORTS TO GIVE FULL PLAY TO THE BRAND VALUE OF NINE DRAGONS PAPER

The paper-making industry is undergoing profound changes. To accelerate the realization of integrated pulp and paper production not only is a crucial path for solving the bottleneck of raw materials, but also a strategic decision aiming to reshape the competitive landscape of the industry and capture the sustainable markets. On the one hand, the vertical integration at the raw material end will enable us to effectively mitigate risks relating to the fluctuation of procurement costs of wood pulp. On the other hand, by leveraging the standardized quality control system, we will be able to support performance upgrade of products such as high-end food-grade bleached folding boxboard and light weight high performance packaging paper, building up a brand that embodies the characteristics of Nine Dragons Paper and boasts industry-leading customer satisfaction, thereby giving full play to the brand value of Nine Dragons Paper. Upon the commencement of production of the new projects, our annual design production capacity for fibre raw materials will amount to 8.19 million tonnes (wood pulp of 5.43 million tonnes, recycled pulp of 0.70 million tonnes and wood fibre of 2.06 million tonnes), which will continue to optimize our fibre and raw material mix and strengthen the Group's ability to control and compete in the industrial chain.

In terms of products, we adhered to the development path towards high value-added products and high effectiveness, and continued to promote value creation and profit growth of the Group. The Group is investing in Beihai, Guangxi Zhuang Autonomous Region and Jingzhou, Hubei Province with a total of 3.70 million tonnes of annual design production capacity for bleached folding boxboard and printing and writing paper. Upon the commencement of production of all projects, the Group's annual design paper production capacity will reach 25.37 million tonnes, further enhancing its product mix.

深挖盈利增長點 實現盈利最大化

TAPPING PROFIT GROWTH POINTS TO MAXIMIZE PROFIT

Against the current backdrop of escalating tensions in international relations, the economy and consumer confidence were still recovering at a slow pace. However, we believe that the Chinese government's special campaign to boost consumption will continue to unleash consumption potential, which will in turn support the demand in the packaging paper industry. Amidst both challenges and opportunities, Nine Dragons Paper will tap profit growth points to maximize profits with its best efforts. Stepping into the second half of the financial year, our core strategies are as follows:

- Exercise stringent control over production costs While pushing ahead with the commencement of production of the wood pulp projects in full steam, we will also optimize our procurement strategy to minimize the purchase price of major raw materials such as recovered paper and woodchips;
- 2. Strengthen our brand effect We will further promote standardization and uniformity of pulp and paper production quality by giving full rein to our strategic advantages with regard to such production. At the same time, we will continue to achieve sustainable supply of exemplary quality paper that embodies the characteristics of Nine Dragons Paper, while raising the proportion of high added-value products to further increase our share in the high-end markets;
- 3. Increase the operating efficiency and effectiveness We will utilize big data to promote innovation in management, taking into account the characteristics of the Group's business. Besides, we will closely track the market dynamics of raw materials and sales to maximize profitability, and strengthen capital management to ensure a balance between business development and liquidity security; and
- Reinforce bottom-line management We will incorporate bottom-line management in aspects such as security, fire safety, environmental protection and integrity into the scope of our regular operation in order to establish a sound, long-term management mechanism.

Last but not least, on behalf of all members of the Board, I would like to express my sincere gratitude to all shareholders for their unwavering support. In the face of opportunities and challenges in the new stage, I will closely work with all employees of Nine Dragons Paper to forge ahead and stay at the forefront of the industry so as to repay the trust and expectations of our shareholders with even more remarkable operating results. Thank you.

4. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: foreign exchange risk, interest rate risk, credit risk and liquidity risk.

The condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 30 June 2024.

There have been no changes in any risk management policies during the six months ended 31 December 2024.

(a) Foreign exchange risk

Certain sales transactions, purchases of raw materials and acquisition of plant and equipment, and borrowings of the Group are denominated in United States Dollars ("US\$"), Hong Kong Dollars ("HK\$"), EURO, RMB, Vietnamese Dong ("VND"), Malaysian Ringgit ("MYR") and other foreign currencies. RMB is not freely convertible into other foreign currencies and the conversion of RMB into foreign currencies is subject to rules and regulations of foreign exchange controls promulgated by the PRC government.

To manage the Group's foreign exchange risk, currency structured instruments and other appropriate financial instruments may be used to hedge material exposure. The Group may adjust the mix of currencies of its borrowings in response to change in market conditions. The Group is primarily exposed to the fluctuation of RMB versus MYR during the six months ended 31 December 2024.

Foreign exchange risks are mainly as a result of unrealised foreign exchange losses/gains on translation of foreign currency-denominated financial instruments (including cash and cash equivalents, short-term bank deposits, restricted cash, trade and other receivables, trade and other payables, borrowings and lease liabilities) into the functional currency of the group entities and the translation of financial statements of the Group's foreign operations into the Group's presentation currency.

5. SEGMENT INFORMATION

Management has determined the operating segments based on the reports reviewed by the executive directors of the Company and used to allocate resources and assess performance.

The Group is principally engaged in the manufacture and sales of packaging paper, printing and writing paper, high value specialty paper products and pulp. Management reviews the operating results of the business as one segment to make decisions about resources to be allocated. Therefore, the executive directors of the Company regard that there is only one segment which is used to make strategic decisions. The breakdown of the major products of the total revenue is disclosed in Note 15.

The Group is primarily domiciled in the PRC. The revenue from external customers attributable to the PRC for the six months ended 31 December 2024 is RMB29,912,922,000 (six months ended 31 December 2023: RMB27,329,171,000), and the total of its revenue from external customers from other countries is RMB3,551,689,000 (six months ended 31 December 2023: RMB3,282,058,000).

6. 重要會計估計及判斷

本集團持續評審用於編製財務報表的估計及判斷,且該等估計及人工經驗及其他因素,包括經驗及其他因素,包括在有關情況下相信是對未估的內理,所產生的會話果相同一大與相關實際結果相同一年重點,所產及負債的估計及假數對重大風險的估計及假設論述如下。

(a) 物業、廠房及設備的減值

管理層釐定資產減值須運用 判斷,尤其為評估:(i)在現金 產生單位層面是否存在減值 跡象;及(ii)將應用於使用價 值計算(例如折現率及預期銷 售增長率)之重大假設。更改 管理層就評估減值所選定的 假設(包括現金流量預測中的 折現率及預期銷售增長率)可 能會對減值測試的淨現值產 生重大影響,並繼而影響本 集團的財務狀況及經營業 績。倘預測表現及所得出的 未來現金流量預測出現重大 不利變動,則可能需要在綜 合損益表中扣除減值費用。

6. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

Estimates and judgments used in preparing the financial statements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The resulting accounting estimates will, by definition, seldom equal the actual results. The estimates and assumptions that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period/year are discussed below.

(a) Impairment of property, plant and equipment

Property, plant and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amounts have been determined based on value-in-use calculations which were net present value of future cash flows which are estimated based upon the continued use of the asset in the relevant cash generating unit ("CGU"). These calculations require the use of judgements and estimates.

Management judgement is required in the area of asset impairment particularly in assessing: (i) whether there are impairment indicators at the level of CGU; and (ii) the significant assumptions to be applied in value-in-use calculations such as the discount rates and the expected sales growth rates. Changing the assumptions selected by management in assessing impairment, including the discount rates and the expected sales growth rate in the cash flow projections, could materially affect the net present value in the impairment test and as a result affect the Group's financial condition and results of operations. If there is a significant adverse change in the projected performance and resulting future cash flow projections, it may be necessary to take an impairment charge to the consolidated income statement.

(b) 物業、廠房及設備與使用 權資產的可使用年期

本集團管理層釐定其物業、 廠房及設備與使用權資產的 估計可使用年期及相關折舊 開支。該項估計以物業、廠 房及設備與使用權資產的估 計可使用年期及所預期產生 之損耗為基準。每次保養及 翻新後的損耗情況可能差異 甚大。其亦會因推行技術創 新而出現重大轉變。管理層 定期檢討本集團物業、廠房 及設備與使用權資產的估計 可使用年期及相關折舊開 支。當可使用年期有別於原 先之估計可使用年期時,管 理 層 將 據 此 調 整 估 計 可 使 用 年期,或其將撇銷或撇減已 報廢或出售之過時技術或非 策略性資產。按現有經驗作 出的估計或與下一財政期間 內的實際結果有差別,並可 能對物業、廠房及設備與使 用權資產的折舊及賬面值造 成重大調整。

6. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (CONTINUED)

(b) Useful lives of property, plant and equipment and right-of-use assets

The Group's management determines the estimated useful lives and related depreciation expense for its property, plant and equipment and right-of-use assets. The estimate is based on the expected lifespan of the property, plant and equipment and right-of-use assets and expected wears and tears incurred. Wears and tears can be significantly different following maintenance and renovations each time. It could also change significantly as a result of technical innovations. Management regularly reviews the estimated useful lives and related depreciation charge of the Group's property, plant and equipment and right-of-use assets. When the useful lives differ from the original estimated useful lives, management will adjust the estimated useful lives accordingly, or it will write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold. It is possible that the estimates made based on existing experience are different to the actual outcomes within the next financial period and could cause a material adjustment to the depreciation and carrying amount of property, plant and equipment and right-of-use assets.

(c) 所得税

6. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (CONTINUED)

(c) Income taxes

The Group is subject to income taxes in various jurisdictions. Judgement is required in determining the amount of the provision for taxation and timing of payment of the related taxation. Judgement is also required in determining the tax rate that would be applicable when related temporary difference that gives rise to deferred income tax is recycled for those group entities currently entitling preferential tax rate. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Deferred income tax assets relating to certain temporary differences and tax losses are recognised when management considers it is likely that future taxable profits will be available against which the temporary differences or tax losses can be utilised. When the expectations are different from the original estimates, such differences will impact the recognition of deferred income tax assets and income tax charges in the period in which such estimates have been changed.

Such protocol allows the company's business development, operating strategies and industry updates to be regularly communicated and interpreted effectively to facilitate investment decisions. Corporate updates, press releases and the annual and interim reports provide the means for investors and the public to receive accurate and timely information about ND Paper's current operations and future outlook.

The Group maintains a tri-lingual corporate website in English, Traditional Chinese and Simplified Chinese which consists of a comprehensive section on investor relations. While this section serves as a convenient centralized collection of all regulatory required announcements, reports and circulars after their dissemination via the Stock Exchange website, other sections of the corporate website provide updated information on various facets of the Group's operations.

Participation by management in one-on-one and group investor meetings, conference calls, roadshows and regional and global investor forums also allows business visions and financials to be well interpreted and analyzed.

All shareholders are entitled to attend ND Paper's Annual General Meetings and other general meetings either in person or by proxy. The last Annual General Meeting was held at Studio 1&2, Level 7, W Hong Kong, 1 Austin Road West, Kowloon Station, Kowloon, Hong Kong on 3 December 2024.
