**THE ANNOUNCEMENT OF
PING AN INSURANCE (GROUP) COMPANY OF CHINA, LTD.
REGARDING THE CHANGES IN ACCOUNTING ESTIMATES**

The board of directors (the “Board”) and all directors of Ping An Insurance (Group) Company of China, Ltd. (the “Company”) confirm that there are no false representations and misleading statements contained in, or material omissions from this announcement, and severally and jointly accept the responsibility for the truthfulness, accuracy and completeness of the contents of this announcement.

• **Important Notice:**

As a result of changes in accounting estimates on insurance contract liabilities (the “Changes in Accounting Estimates”) involved in the 2022 Annual Report of the Company due to the application of relevant requirements in “No. 2 Interpretation of Accounting Standards for Business Enterprises” issued by the Ministry of Finance of the People’s Republic of China, the profit before tax of the Company for the year 2022 was decreased by RMB26,813 million.

I. Overview

The 13th meeting of the 12th session of the Board held on March 15, 2023 considered and approved the relevant matters of the Changes in Accounting Estimates. As a result of the Changes in Accounting Estimates, the long-term life insurance policyholders’ reserves of the Company were increased by RMB26,813 million as at December 31, 2022 and the profit before tax of the Company for the year 2022 was decreased by RMB26,813 million.

II. Details of the Changes in Accounting Estimates and the effect on the Company

Significant judgment is required in determining the economic assumptions, e.g., discount rates/investment return, and non-economic assumptions, e.g., mortality, morbidity, lapse rates, policy dividend, and expenses, used in the measurement of insurance contract liabilities for the long-term life insurance contracts of the Company. Such assumptions should be determined based on current information available at the end of the reporting period. The Company has changed the above assumptions based on current information available as at December 31, 2022 (mainly due to change of the benchmarking yield curve for the measurement of insurance contract liabilities), and updated the estimate of future cash flows, with the result of changes in the long-term life insurance contract liabilities being recognized in profit or loss. Consequently, the long-term life insurance policyholders’ reserves of the Company were increased by RMB26,813 million as at December 31, 2022 and the profit before tax of the Company for the year 2022 was decreased by RMB26,813 million.

The Company adopted the prospective application method to deal with the Changes in Accounting Estimates.

III. Opinions of Independent Directors and Supervisory Committee on the Changes in

Accounting Estimates

The independent Directors and the supervisory committee of the Company considered the relevant matters of Changes in Accounting Estimates, with the opinion that the Changes in Accounting Estimates made by the Company in accordance with “No. 2 Interpretation of Accounting Standards for Business Enterprises” and based on information available at the end of the reporting period are reasonable, and approved the accounting treatment on Changes in Accounting Estimates made by the Company.

IV. Opinion of accounting firm on the Changes in Accounting Estimates

Ernst & Young Hua Ming LLP, the Company's auditor, had a full understanding on the reasons of the Changes in Accounting Estimates and the effect on the operating results of the Company, and issued the Special Report on the Changes in Accounting Estimates for 2022 of Ping An Insurance (Group) Company of China, Ltd.
