RAZER BRINGS IMMERSIVE EXPERIENCES TO THE MOBILE PHONE WITH NEW ACCESSORIES

New Razer Raiju Mobile controller and Hammerhead USB-C ANC in-ear headset deliver superior control and immersion on-the-go

(Hong Kong, 11 October 2018) – Razer™, the leading global lifestyle brand for gamers, today announced the launch of the Razer Raiju Mobile and Razer Hammerhead USB-C ANC along with its brand-new Razer Phone 2 – completing the mobile entertainment and gaming experience.

RAZER RAIJU MOBILE

The Raiju Mobile controller is a mobile gamepad with a phone mount and Bluetooth connectivity that brings a full-fledged console gamepad to mobile gaming. Featuring four remappable multi-function buttons, Razer™ Mecha-Tactile action buttons, a hair trigger mode and an adjustable phone mount, gamers get enhanced precision and perfect viewing angles for their favorite mobile games.

A mobile configurator app allows advanced customization for a personalized setup. The Razer Raiju Mobile supports flagship Android phones and the biggest titles in mobile gaming, which include "Vainglory," "Lineage 2," "Dead Trigger 2" and "Gear-Club," and many more.

RAZER HAMMERHEAD USB-C ANC

The Razer Hammerhead USB-C ANC in-ear headset delivers superior immersion on-the-go in a small, discreet form factor. It draws power for its Active Noise Cancellation (ANC) technology through the USB-C port on your smartphone. This enables the noise cancellation capabilities of larger headsets without the bulk.

It has stellar audio quality through its Dual Driver technology featuring a combination of balanced armature and dynamic drivers to deliver a perfect balance of deep bass and detailed trebles. A built-in digital to audio converter (DAC) provides 24 bit/96 kHz audio quality for clear, uncompressed sound.

The headset is also fitted with Comply™ Foam Tips for maximum comfort, a secure in-ear fit, and enhanced noise isolation. This combination provides for an immersive sound stage, free from distraction, wherever you go.

Completing the package is an inline control and microphone, as well as a solid aluminum frame with braided cables for tangle-free management.

“The Razer Raiju Mobile and Hammerhead USB-C ANC further deliver on our vision of providing the ultimate mobile entertainment experience” said Min-Liang Tan, Razer co-founder and CEO. “You no longer need to be at home to experience movies, music and gaming, in all its glory.”

ABOUT RAZER

Razer™ is the world's leading lifestyle brand for gamers.

The triple-headed snake trademark of Razer is one of the most recognized logos in the global gaming and esports communities. With a fan base that spans every continent, the company has designed and built the world's largest gamer-focused ecosystem of hardware, software and services.

Razer's award-winning hardware includes high-performance gaming peripherals, Blade gaming laptops and the acclaimed Razer Phone.

Razer's software platform, with over 50 million users, includes Razer Synapse (an Internet of Things platform), Razer Chroma (a proprietary RGB lighting technology system), and Razer Cortex (a game optimizer and launcher).

In services, Razer zGold is one of the world's largest virtual credit services for gamers. Razer Pay is the e-wallet designed for youth and millennials, and Razer Game Store is the only games download store that offers rewards for gamers.

Founded in 2005 and dual-headquartered in San Francisco and Singapore, Razer has 15 offices worldwide and is recognized as the leading brand for gamers in the USA, Europe and China. Razer is listed on the Hong Kong Stock Exchange (Stock Code: 1337).
