CHAIRMAN'S STATEMENT

On behalf of the board of directors (the "Board") of SEEC Media Group Limited (the "Company"), I am pleased to present to you the 2012 annual results for the Company and its subsidiaries (collectively referred to as the "Group" or "SEEC Media Group").

Business Review

In 2012, China's economy apparently failed to overcome the downturn thoroughly with its continued weak macro-economy. Meanwhile, the global economic environment was not optimistic due to the persistent European debt crisis, lacking growth momentum of the developed countries and the drop of economic growth seen by the emerging countries. As such, the world economy was undergoing hardship on its way to recovery. The major developed western countries as well as the United States of America were still struggling for their respective economic recovery. Under the impact of the global economic slump, SEEC Media Group saw a drastic decrease in its rate of revenue growth. In 2012, SEEC Media Group realized a total revenue of HK\$516.6 million, or a growth of only 7% (2011: 37%), and recorded a profit of HK\$32.2 million, or a slight fall of 8% as compared to that of last year. Despite the unsatisfactory corporate results, it was promising and encouraging enough for the Group to maintain a revenue growth and profitable against a gloomy macroeconomic environment through our growth in advertising agency income from the magazines in which the Group holds exclusive advertising rights. In addition, we were pleased to see Caijing Magazine, as the flagship magazine of the Group, has maintained a two-digit growth of 18% in its revenue, which has fully demonstrated its stable and unrivalled leading position among the competitors in finance and economics publications market.

Grazia, a trendy magazine which the Group's jointly controlled entity has its exclusive advertising right, has been keeping a high growth since its launch owing to its high-end market positioning and its fashionable content. Thanks to the vast base of loyal readers pursuing fashions, Grazia was also well received and recognized by advertisers. In 2012, Grazia, by virtue of its excellent quality, outperformed its competitors in the trendy life-style magazine sector in terms of brand awareness and recognition against the overall floundering economy.

In summary, the brisk business growth momentum of the Group's magazines has slowed down over the last few years due to the macro-economy slump. However, we have managed to maintain a growth of revenue despite predicament based on the Group's rich experience gathered over years of media operation as well as our privileged position in the media business.

Outlook and Prospect

Being hit by the economic recession over the past few years, the macro economy is not expected to recover rapidly and improve notably in 2013. However, the efforts made to recover the economy by many countries will favor a stable general economy and turnaround of corporate operations. With years of experience in media operations and the concerted efforts of our teams, the Group will continue to maintain and further enhance our revenue growth and profitability steadily.

Acknowledgement

On behalf of the Board, I would like to express my gratitude to our business partners, customers and shareholders for their support. In addition, I would like to take this opportunity to thank all our staff members for their continuous and valuable contribution to the Group during the year. We are committed to further consolidate our presence in the China advertising industry and maximize value for our shareholders in the long run.

Wang Boming
Chairman

Hong Kong, 22 March 2013

MANAGEMENT DISCUSSION AND ANALYSIS

During the year of 2012, turnover of the Group was approximately HK\$516.6 million as compared to approximately HK\$482.5 million in 2011, representing an increase of approximately 7%. The Group's revenue was improved from the economy recovery in China, with a steady increase in advertising agency income, in particular, from the advertising revenue of Caijing Magazine. The gross profit was 62% in 2012 with a decrease as compared to that of last year (2011: 67%). The decrease in gross profit margin was mainly because of the increase in the costs of hosting and organizing conferences and events.

The selling and distribution costs were decreased by nearly 10% from approximately HK\$227.6 million to approximately HK\$205.6 million, mainly due to decrease in advertising spending for image and brand building effort for the magazines. The administrative expenses was increased by 25% from approximately HK\$51.2 million to HK\$64.0 million. The increase was mainly due to increase in business and operational costs in China including office rental and staff salaries with the increase in number of staff. Moreover, there was an increase in legal and professional fees in relation to a litigation in Hong Kong.

The Group recorded finance costs of approximately HK\$2.3 million (2011: HK\$3.1 million), a decrease of around 26% in this year. It mainly comprised of interest on bank loans and on loan advanced from immediate parent. The decrease in interest costs was mainly due to the early repayment of the loan advanced from immediate parent during the year.

The profit attributable to shareholders for this year amounted to approximately HK\$32.2 million, as compared to approximately HK\$35.0 million last year.

To preserve financial resources for future operation of the Group, the Board did not recommend the payment of a dividend for the year 2012 (2011: nil).

Liquidity and Financial Resources

The Group's daily operating activities were financed by internal resources. As at 31 December 2012, the Group's equity was approximately HK\$399.6 million (2011: HK\$367.5 million). The Group had non-current liabilities of approximately HK\$0.5 million of receipt in advance as at 31 December 2012 as compared to a loan from immediate parent, United Home Limited, and receipt in advance as at 31 December 2011 (2011: HK\$63.9 million). As at 31 December 2012, the Group's gearing ratio was 33% representing a percentage of total liabilities over total assets (2011: 42%).

As at 31 December 2012 the Group had secured bank borrowings of approximately HK\$36.7 million (2011: HK\$30.5 million).

As at 31 December 2012, the Group had cash and time deposits amounted to approximately HK\$38.0 million (2011: HK\$98.1 million).

Charges on Assets

As at 31 December 2012, the Group had fixed deposits of approximately HK\$13.6 million charged to a bank for banking facilities granted to the Group's companies (2011: HK\$5.7 million).

As at 31 December 2012, the Group had pledged leasehold land and building in the PRC with a carrying amount of approximately HK\$33.3 million (2011: HK\$34.5 million) to secure bank borrowings granted to the Group.

Commitments

(A) OPERATING LEASE COMMITMENTS

As lessee

At the end of the reporting period, the Group had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows:

	2012 <i>HK\$'000</i>	2011 <i>HK\$'000</i>
Within one year	8,345	7,266
In the second to fifth year inclusive	8,313	1,991
	16,658	9,257

Operating lease payments represent rentals payable by the Group for its office premises. Leases are negotiated for a term ranging from nine months to 3 years.

(B) CAPITAL COMMITMENTS

	2012 <i>HK\$'000</i>	2011 <i>HK\$'000</i>
Capital expenditure in respect of the acquisition of property, plant and equipment contracted for but not provided in the consolidated financial statements	–	2,510

(C) OTHER COMMITMENTS

Pursuant to several agreements entered into between the Company and magazine publication companies, being independent third parties, the Company at the end of the reporting period had commitments to make payments to certain magazines publication companies for agency rights of advertising on their magazines which fall due as follows:

	2012 <i>HK\$'000</i>	2011 <i>HK\$'000</i>
Within one year	3,296	2,983
In the second to fifth year inclusive	11,427	12,383
Over five years	4,680	7,020
	19,403	22,386

The amount recognised as an expense (included in cost of sales) in the year was approximately HK\$6,112,000 (2011: approximately HK\$2,563,000).

MANAGEMENT DISCUSSION AND ANALYSIS

Foreign Currencies and Treasury Policy

Most of the Group's business transactions, assets and liabilities are denominated in Hong Kong Dollars, United States Dollars or Renminbi. It is the Group's treasury policy to manage its foreign currency exposure whenever its financial impact is material to the Group. During the year, the Group did not have any fixed interest rate borrowings and had not engaged in any financial instruments for hedging or speculative activities.

Employees

As at 31 December 2012, the Group had 828 (2011: 747) employees in Hong Kong and the PRC. Salaries, bonuses and benefits were decided in accordance with market conditions and performance of the respective employees.

Share Option Schemes

The Company operates a share option scheme (the "Share Option Scheme") which was adopted on 26 August 2002. On 11 May 2012, the Company adopted a new share option scheme (the "New Share Option Scheme"), of which all terms and conditions are the same as the Share Option Scheme. The New Share Option Scheme will remain in force for 10 years from the date of adoptions, unless otherwise cancelled or amended. During the year, no (2011: nil) share option was granted to directors and employees of the Group. As at 31 December 2012, the number of share issuable under share options granted under the Share Option Scheme was 48,100,000 (2011: 48,550,000).

CORPORATE GOVERNANCE REPORT

Corporate Governance Practices

The Board is committed to maintaining sound corporate governance and believes that good corporate governance principles and practices will bring trust and faith of the Company's stakeholders.

During the year under review, the Company has complied with all relevant provisions set out in the Corporate Governance Code and Corporate Governance Report (the "Code") as set out in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") except for the deviations stated below:

(1) CODE PROVISION A.2.1

Code A.2.1 stipulates that the roles of chairman and managing director (or chief executive officer ("CEO")) should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and CEO should be clearly established and set out in writing. The Company does not presently have any officer with the title of "CEO" or "Managing Director". At present, Mr. Wang Boming, being the Chairman and an Executive Director of the Company, is assuming the role of CEO of the Company and is responsible for the strategic planning and corporate policy of the Group.

The Directors consider that Mr. Wang Boming is the most appropriate person to assume the role of the CEO because he has considerable knowledge and experience in the advertising and publication businesses in the PRC and has leadership and corporate expertise in the Group. The Directors believe that vesting the roles of the chairman and CEO in the same person provides consistent and sustainable development of the Group as well as strong and consistent leadership in the Company's decision making and operational efficiency.

(2) CODE PROVISION A.4.1

Code A.4.1 stipulates that non-executive Directors should be appointed for a specific term and subject to reelection.

The term of office for non-executive Directors are the same as for all Directors (i.e. not appointed for a specific term but only subject to retirement from office by rotation and be eligible for re-election in accordance with the provisions of the Company's Articles of Association). At each annual general meeting, one-third of the Directors for the time being or, if their number is not a multiple of three, then the number nearest to but not less than one-third, shall retire from office by rotation, provided that every Director shall be subject to retirement by rotation at least once every three years.

(3) CODE PROVISION E.1.2

Code E.1.2 stipulates that the chairman of the board should attend the annual general meeting.

The chairman of the Board was absent from the annual general meeting held on 11 May 2012 due to his prior business engagement. Mr. Zhang Zhifang, an Executive Director and the elected chairman of that meeting, was available to answer questions in that meeting.

CORPORATE GOVERNANCE REPORT

Directors' Securities Transactions *(Continued)*

The Company has adopted a code of conduct regarding securities transactions by directors on exactly the terms and the required standard contained in the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix 10 to the Listing Rules (the "Model Code").

Having made specific enquiries by the Company, all Directors have confirmed that they have complied with the required standard set out in the Model Code and the code of conduct regarding securities transactions by directors adopted by the Company throughout the year ended 31 December 2012.

Board of Directors

The Board collectively oversees the management of the business and affairs of the Group with the overriding objective of enhancing share value. The Board has delegated the day-to-day management power of the Group to the executive Directors and senior management of the Company. The Board reserves for its decisions all major matters of the Company, including the approval and monitoring of all policy matters, overall strategies and budgets, internal control and risk management systems, material transactions, financial information, appointment of Directors, and other significant financial and operational matters.

The Board currently comprises four executive Directors who are Mr. Wang Boming, Mr. Dai Xiaojing and Mr. Li Shijie and Mr. Zhang Zhifang; and four independent non-executive Directors who are Mr. Ding Yu Cheng, Mr. Fu Fengxiang, Mr. Wang Xiangfei and Mr. Zhang Ke. The Company has received from each of the independent non-executive Directors an annual confirmation of his independence pursuant to the Listing Rules and the Company considers the independent non-executive Directors to be fully independent.

There is no financial, business, family, or other material/relevant relationship between the Directors. The Company considers that the Board has the necessary skills and experience appropriate for discharging their duties as Directors in the best interest of the Company and that the current size of the Board to be adequate for its present operations.

The Board held full board meetings at approximately quarterly intervals. The attendances of the quarterly full board meetings for the year ended 31 December 2012 are as follows:

Directors	Attendance
Mr. Wang Boming	3/4
Mr. Dai Xiaojing	4/4
Mr. Li Shijie	4/4
Mr. Zhang Zhifang	4/4
Mr. Ding Yu Cheng	4/4
Mr. Fu Fengxiang	4/4
Mr. Wang Xiangfei	4/4
Mr. Zhang Ke	4/4

All directors have participated in continuous professional development arranged and funded by the Company to develop and refresh their knowledge and skills to ensure that their contribution to the Board remains informed and relevant.

On 17 August 2012, an in-house briefing and training for directors in relation to the recent amendments to the Corporate Governance Code and the proposed new statutory disclosure regime for inside information was held in Beijing after a full board meeting. All Directors (executive Directors, namely Mr. Wang Boming, Mr. Dai Xiaojing, Mr. Li Shijie and Mr. Zhang Zhifang; and independent non-executive Directors, namely Mr. Ding Yu Cheng, Mr. Fu Fengxiang, Mr. Wang Xiangfei and Mr. Zhang Ke) attended the briefing and training which lasted for a two-hour duration.

Chairman and Chief Executive Officer

As mentioned above, Mr. Wang Boming performs both the roles of the Chairman and CEO. The Directors consider that vesting the roles of the Chairman and CEO in Mr. Wang Boming is presently the most beneficial structure and is in the best interests of the Company and the shareholders of the Company.

Non-Executive Directors

The non-executive Directors are not appointed for a specific term but only subject to retirement from office by rotation and be eligible for re-election in accordance with the Company's Articles of Association.

Board Committees

REMUNERATION COMMITTEE

Remuneration Committee comprises two independent non-executive Directors, namely Mr. Zhang Ke being the chairman of the committee and Mr. Ding Yu Cheng.

The principal responsibilities of the Remuneration Committee include reviewing, considering and approving proposals as well as making recommendations to the Board on the Company's policy and structure relating to the remuneration of Directors and senior management. The Remuneration Committee also accesses performance of executive Directors.

In respect of the remuneration packages of individual executive directors and senior management, Remuneration Committee is to make recommendations to the Board for the Board's final determination.

The emoluments of the Directors are determined by reference to the skill, knowledge and experience of the respective Directors and their involvement in the Company's affairs as well as the prevailing market conditions. Share options may also be granted to the Directors as long-term incentive or rewards for their continuous contributions to the Group.

The Remuneration Committee did not hold any meeting during the year under review.

NOMINATION COMMITTEE

The Nomination Committee comprises two independent non-executive Directors, namely Mr. Ding Yu Cheng being chairman of the committee and Mr. Zhang Ke.

The principal duties of the Nomination Committee include reviewing the structure, size and composition of the Board on a regular basis and making recommendations to the Board regarding any proposed changes.

The Board is empowered under the Company's Articles of Association to appoint any person as a Director either to fill a casual vacancy on or as an additional member of the Board. Qualified candidates will be proposed to the Board for consideration and the selection criteria are mainly based on the assessment of their professional qualifications and experience.

The Nomination Committee held one meeting during the year under review. Details of the attendance of the Nomination Committee meeting are as follows:

Members	Attendance
Mr. Ding Yu Cheng	1/1
Mr. Zhang Ke	1/1

CORPORATE GOVERNANCE REPORT

AUDIT COMMITTEE

The Audit Committee comprises three independent non-executive Directors with Mr. Fu Fengxiang as chairman of the committee and Mr. Wang Xiangfei and Mr. Zhang Ke as committee members.

The Audit Committee is responsible for the appointment of external auditor, review of the Group's financial information and oversight of the Group's financial and accounting practices, internal control and risk management. It is also responsible for reviewing the interim and financial results of the Group.

The Audit Committee held two meetings during the year under review. Details of the attendance of the Audit Committee meeting are as follows:

Members	Attendance
Mr. Fu Fengxiang	2/2
Mr. Wang Xiangfei	2/2
Mr. Zhang Ke	2/2

The Group's interim results for the six months ended 30 June 2012 and annual audited results for the year ended 31 December 2012 have been reviewed by the Audit Committee, which was of the opinion that the preparation of such results complied with the applicable accounting standards and requirements and that adequate disclosure have been made.

Corporate Governance Functions

The Board is overall responsible for performing corporate governance duties. The Board developed and reviewed the Company's policies and practices on corporate governance; and monitored the training and professional development of Directors and senior management. The Board has constantly reviewed the Company's policies and practices to ensure compliance with legal and regulatory requirements and the Company's compliance with the Code and disclosure in the corporate governance report.

Internal Control

The Board has overall responsibilities for maintaining sound and effective internal control system of the Group. The Internal Audit function of the Group performed independent reviews and reported regularly the review results to the Board through the Audit Committee on the adequacy and effectiveness of the Group's internal control and risk management systems. The Board, through the Internal Audit function of the Group, has conducted annual review of the effectiveness of the system of internal control of the Group including the relevant financial, operational and compliance controls and risk management procedures. The Board has delegated to the senior management of the Group the implementation of such systems of internal controls. The management throughout the Group maintains and monitors the internal control system on an ongoing basis.

The Board also reviewed and was satisfied with the adequacy of resources, qualifications and experience of the employees of the Group's accounting and financial reporting function, and their training programmes and budget.

Auditor's Remuneration

During the year, the fees paid or payable to the auditor of the Company, Messrs. Deloitte Touche Tohmatsu were approximately HK\$730,000 (2011: HK\$730,000) and HK\$90,400 (2011: HK\$76,000) for statutory audit services and non-audit services rendered to the Group respectively.

Directors' Responsibility on the Financial Statements

The Directors acknowledge their responsibilities for preparing the financial statements of the Group for the year ended 31 December 2012, which were prepared in accordance with statutory requirements and applicable accounting standards.

Shareholders' Rights

PROCEDURES FOR SHAREHOLDERS TO CONVENE AN EXTRAORDINARY GENERAL MEETING

Pursuant to Article 73 of the Articles of Association of the Company, on the written requisition of Shareholders holding not less than one-tenth of the paid up capital of the Company which carries the right to vote at general meetings of the Company, the Directors shall convene an extraordinary general meeting for the transaction of any business specified in such requisition; and such meeting shall be convened within thirty days from the date of deposit of the requisition.

PROCEDURES FOR SHAREHOLDERS TO PROPOSE A PERSON FOR ELECTION AS A DIRECTOR

Pursuant to Article 123 of the Articles of Association of the Company, if a Shareholder wishes to propose a person other than a Director of the Company for election as a Director at any general meeting, the shareholder can deposit a written notice to that effect at Room 806, 8/F., Nan Fung Tower, 173 Des Voeux Road Central, Hong Kong, the principal place of business of the Company in Hong Kong, for the attention of the Board.

In order for the Company to inform Shareholders of that proposal, the written notice must state the full name of the person proposed for election as a Director, include the person's biographical details as required by rule 13.51(2) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited, and be signed by the Shareholder concerned and that person indicating his/her willingness to be elected.

The period for lodgment of such a written notice will commence no earlier than the day after the despatch of the notice of the relevant general meeting and end no later than seven days prior to the date of the general meeting.

If the notice from the Shareholder is received less than fifteen days prior to the general meeting, the Company will need to consider the adjournment of the general meeting in order to allow Shareholders fourteen days' notice of the proposal.

VOTING AT AND NOTICE OF GENERAL MEETINGS

As required by the Listing Rules, the Company conducts all voting at general meetings by poll. To comply with the Listing Rules, notices to shareholders will be sent in the case of annual general meetings at least 20 clear business days before the meeting and at least 10 clear business days in the case of all other general meetings.

Pursuant to Article 74 of the Articles of Association of the Company, an annual general meeting and a meeting called for the passing of a special resolution shall be called by twenty-one days' notice in writing at the least, and a meeting of the Company other than an annual general meeting or a meeting for the passing of a special resolution shall be called by fourteen days' notice in writing at the least. The notice shall be exclusive of the day on which it is served or deemed to be served and of the day for which it is given.

Investor Relations

There is no significant change in the Company's constitutional documents during the year.

TO THE SHAREHOLDERS OF SEEC MEDIA GROUP LIMITED

財訊傳媒集團有限公司

(Incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of SEEC Media Group Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 21 to 63, which comprise the consolidated statement of financial position as at 31 December 2012, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Directors’ Responsibility for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31 December 2012 and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

⁴ Effective for annual periods beginning on or after 1 July 2012.

Except as described below, the application of the new and revised HKFRSs in the current year will have no material impact on the Group’s and the Company’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2012

2. Application of new and revised Hong Kong Financial Reporting Standards (“HKFRSs”)

(Continued)

HKFRS 9 FINANCIAL INSTRUMENTS

HKFRS 9 issued in 2009 introduces new requirements for the classification and measurement of financial assets. HKFRS 9 amended in 2010 includes the requirements for the classification and measurement of financial liabilities and for derecognition.

Key requirements of HKFRS 9 are described as follows:

- All recognised financial assets that are within the scope of HKAS 39 *Financial Instruments: Recognition and Measurement* are subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent reporting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, HKFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability’s credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value of financial liabilities attributable to changes in the financial liabilities’ credit risk are not subsequently reclassified to profit or loss. Under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss was presented in profit or loss.

HKFRS 9 is effective for annual periods beginning on or after 1 January 2015, with earlier application permitted.

The directors anticipate that the adoption of HKFRS 9 in the future may not have significant impact on amounts reported in respect of the Group’s financial assets and financial liabilities.

NEW AND REVISED STANDARDS ON CONSOLIDATION, JOINT ARRANGEMENTS, ASSOCIATES AND DISCLOSURES

In June 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued, including HKFRS 10, HKFRS 11, HKFRS 12, HKAS 27 (as revised in 2011) and HKAS 28 (as revised in 2011).

Key requirements of these five standards are described below.

HKFRS 10 replaces the parts of HKAS 27 *Consolidated and Separate Financial Statements* that deal with consolidated financial statements. SIC-Int 12 *Consolidation – Special Purpose Entities* will be withdrawn upon the effective date of HKFRS 10. Under HKFRS 10, there is only one basis for consolidation, that is, control. In addition, HKFRS 10 includes a new definition of control that contains three elements: (a) power over an investee, (b) exposure, or rights, to variable returns from its involvement with the investee, and (c) the ability to use its power over the investee to affect the amount of the investor’s returns. Extensive guidance has been added in HKFRS 10 to deal with complex scenarios.

HKFRS 11 replaces HKAS 31 *Interests in Joint Ventures*. HKFRS 11 deals with how a joint arrangement of which two or more parties have joint control should be classified. SIC-Int 13 *Jointly Controlled Entities – Non-monetary Contributions by Venturers* will be withdrawn upon the effective date of HKFRS 11. Under HKFRS 11, joint arrangements are classified as joint operations or joint ventures, depending on the rights and obligations of the parties to the arrangements. In contrast, under HKAS 31, there are three types of joint arrangements: jointly controlled entities, jointly controlled assets and jointly controlled operations. In addition, joint ventures under HKFRS 11 are required to be accounted for using the equity method of accounting, whereas jointly controlled entities under HKAS 31 can be accounted for using the equity method of accounting or proportionate consolidation.

2. Application of new and revised Hong Kong Financial Reporting Standards (“HKFRSs”)

(Continued)

NEW AND REVISED STANDARDS ON CONSOLIDATION, JOINT ARRANGEMENTS, ASSOCIATES AND DISCLOSURES *(Continued)*

HKFRS 12 is a disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in HKFRS 12 are more extensive than those in the current standards.

In July 2012, the amendments to HKFRS 10, HKFRS 11 and HKFRS 12 were issued to clarify certain transitional guidance on the application of these five HKFRSs for the first time.

These five standards, together with the amendments relating to the transitional guidance, are effective for annual periods beginning on or after 1 January 2013 with earlier application permitted provided that all of these standards are applied at the same time.

The directors anticipate that these five standards will be adopted in the Group’s consolidated financial statements for the annual period beginning 1 January 2013. The directors anticipated that the application of these five standards will not have significant impact on the Group’s consolidated financial statements.

AMENDMENTS TO HKAS 1 PRESENTATION OF ITEMS OF OTHER COMPREHENSIVE INCOME

The amendments to HKAS 1 *Presentation of Items of Other Comprehensive Income* introduce new terminology for the statement of comprehensive income. Under the amendments to HKAS 1, a ‘statement of comprehensive income’ is renamed as a ‘statement of profit or loss and other comprehensive income’. The amendments to HKAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to HKAS 1 require items of other comprehensive income to be grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss; and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis – the amendments do not change the option to present items of other comprehensive income either before tax or net of tax.

The amendments to HKAS 1 are effective for annual periods beginning on or after 1 July 2012. The presentation of items of other comprehensive income will be modified accordingly when the amendments are applied in future accounting periods.

3. Significant accounting policies

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods.

The principal accounting policies are set out below.

BASIS OF CONSOLIDATION

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2012

3. Significant accounting policies (Continued)

BASIS OF CONSOLIDATION (Continued)

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein.

Allocation of total comprehensive income to non-controlling interests

Total comprehensive income and expense of a subsidiary is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, it (i) derecognises the assets (including any goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost, (ii) derecognises the carrying amount of any non-controlling interests in the former subsidiary at the date when control is lost (including any components of other comprehensive income attributable to them), and (iii) recognises the aggregate of the fair value of the consideration received and the fair value of any retained interest, with any resulting difference being recognised as a gain or loss in profit or loss attributable to the Group. When assets of the subsidiary are carried at revalued amounts or fair values and the related cumulative gain or loss has been recognised in other comprehensive income and accumulated in equity, the amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the related assets (i.e. reclassified to profit or loss or transferred directly to accumulated losses as specified by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39 *Financial Instruments: Recognition and Measurement* or, when applicable, the cost on initial recognition of an investment in an associate or a jointly controlled entity.

GOODWILL

Goodwill arising on an acquisition of a business is carried at cost less any accumulated impairment losses, if any, and is presented separately in the consolidated statement of financial position.

For the purposes of impairment testing, goodwill is allocated to each of the cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually or more frequently whenever there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata on the basis of the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss in the consolidated statement of comprehensive income. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. Significant accounting policies (Continued)

JOINTLY CONTROLLED ENTITIES

Joint venture arrangements that involve the establishment of a separate entity in which venturers have joint control over the economic activity of the entity are referred to as jointly controlled entities.

The results and assets and liabilities of jointly controlled entities are incorporated in the consolidated financial statements using the equity method of accounting. Under the equity method, investments in jointly controlled entities are initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the jointly controlled entities. When the Group's share of losses of a jointly controlled entity equals or exceeds its interest in that jointly controlled entity (which includes any long-term interests that, in substance, form part of the Group's net investment in the jointly controlled entity), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that jointly controlled entity.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets and liabilities of the jointly controlled entity recognised at the date of acquisition is recognised as goodwill which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in a jointly controlled entity. When necessary, the entire carrying amount of the investment is tested for impairment in accordance with HKAS 36 "Impairment of Assets" as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When a group entity transacts with its jointly controlled entity, profits and losses resulting from the transactions with the jointly controlled entity are recognised in the Group's consolidated financial statements only to the extent of interests in the jointly controlled entity that are not related to the Group.

REVENUE RECOGNITION

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the normal course of business, net of discounts and sales related taxes.

Advertising agency income is recognised upon the publication of the related advertisements. Advertising agency income from certain magazines which the Group has exclusive rights to serve as the advertising agent is measured at the fair value of the consideration received or receivable, net of rebates to licensors.

Advertising income from conferences and events organised by magazines is recognised when the conferences and events are held.

Revenue from sales of books and magazines is recognised on the date of delivery, net of an estimated allowances for unsold copies which may be returned.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment including buildings held for use in the supply of goods or services, or for administrative purposes, are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2012

3. Significant accounting policies (Continued)

PROPERTY, PLANT AND EQUIPMENT (Continued)

Depreciation is recognised so as to write off the cost of items of property, plant and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

SOLE AGENCY RIGHTS

On initial recognition, sole agency rights are recognised at cost. If sole agency rights are acquired in a business combination, the cost is its fair value at the acquisition date. After initial recognition, sole agency rights with finite useful lives are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for sole agency rights with finite useful lives is provided on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effective of any changes in estimate being accounted for on a prospective basis.

Gains or losses arising from derecognition of sole agency rights are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the consolidated statement of comprehensive income when the asset is derecognised.

FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Financial assets

The Group's financial assets are mainly loans and receivables.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including amount due from a jointly controlled entity, trade receivables, other receivables, loan receivable, amounts due from related companies, pledged bank deposits and bank balances and cash) are carried at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment of financial assets below).

FINANCIAL INSTRUMENTS (Continued)

Financial assets (Continued)

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of the reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of loans and receivables, the estimated future cash flows of the loans and receivables have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation

For trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments, observable changes in national or local economic conditions that correlate with default on receivables and financial difficulties found in respective debts.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When trade receivables are considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

3. Significant accounting policies (Continued)

FINANCIAL INSTRUMENTS (Continued)

Financial liabilities and equity instruments

Financial liabilities and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Other financial liabilities

Financial liabilities including trade payables, other payables, amounts due to related companies, amount due to immediate parent and bank borrowings are subsequently measured at amortised cost, using the effective interest method.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognise the asset to the extent of its continuing involvement and recognises an associated liability. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

IMPAIRMENT LOSS ON TANGIBLE AND INTANGIBLE ASSETS OTHER THAN GOODWILL (SEE THE ACCOUNTING POLICY IN RESPECTIVE OF GOODWILL ABOVE)

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

LEASING

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

Leasehold land and building

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as “prepaid lease payments” in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis except for those that are classified and accounted for as investment properties under the fair value model. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease and accounted for as property, plant and equipment.

TAXATION

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and interests in jointly controlled entities, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax is recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

FOREIGN CURRENCIES

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2012

3. Significant accounting policies (Continued)

FOREIGN CURRENCIES (Continued)

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's entities are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rate prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (the exchange translation reserve).

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a business before 1 January 2005 is treated as non-monetary foreign currency items of the acquirer and reported using the historical cost prevailing at the date of acquisition.

BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

GOVERNMENT GRANTS

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

RETIREMENT BENEFITS COSTS

Payments to Mandatory Provident Fund Scheme and state-managed retirement benefit schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

PROVISIONS

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

EQUITY-SETTLED SHARE-BASED PAYMENT TRANSACTIONS

Share options granted to employees after 7 November 2002 and vested on or after 1 January 2005

The fair value of services received determined by reference to the fair value of share options granted at the grant date is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share option reserve).

At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates during the vesting period, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share option reserve.

When the share options are exercised, the amount previously recognised in share option reserve will be transferred to share premium. When the share options are forfeited after vesting date or are still not exercised at the expiry date, the amount previously recognised in share option reserve will continue to be held in share option reserve.

Share options granted to employees after 7 November 2002 and vested before 1 January 2005

The financial impact of share options granted is not recorded in the consolidated financial statements until such time as the options are exercised, and no charge is recognised in the profit or loss in respect of the value of options granted. Upon the exercise of the share options, the resulting shares issued are recorded as additional share capital at the nominal value of the shares, and the excess of the exercise price per share over the nominal value of the shares is recorded as share premium. Options which lapse or are cancelled prior to their exercise date are deleted from the register of outstanding options.

4. Critical accounting judgements

In the application of the Group's accounting policies, which are described in note 3, management has made the following judgement at the end of the reporting period, that has a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

LEGAL CASE PROVISION

On 6 August 2011, Chau Hoi Shuen, Solina Holly ("Ms Chau") in a writ of summons filed claims against the Company for compensatory damages for distributing and publishing certain articles in a magazine, Caijing Magazine containing words defamatory to Ms. Chau. On 15 November 2012, the High Court of Hong Kong has issued a judgment in favour of Ms. Chau and adjudged that the Company need to pay the damages to Ms. Chau and the related legal fee incurred for both parties. The directors of the Company have provided for the damages and professional fee in relation to the case totalling approximately HK\$6,000,000 (including in other payables and accruals) based on their best estimates and advice from the legal counsel. On 12 December 2012, the Company has lodged an appeal to the Court of Appeal and the appeal will be heard in the Court of Appeal on 11 April 2014. In the opinion of the legal counsel, it is not practical to assess the outcome of the appeal and the directors of the Company considered that the provision is adequate.

5. Revenue

Revenue represents the gross invoiced value of services rendered, sales of books and magazines, net of discounts and sales related taxes. An analysis of the Group's revenue is as follows:

	2012 HK\$'000	2011 HK\$'000
Advertising agency income	433,038	413,006
Advertising income from conferences and events	51,633	36,182
Sales of books and magazines	31,952	33,338
	516,623	482,526

6. Segment information

Information reported to the Company's executive directors, being the chief operating decision makers, for the purpose of allocating resources to segments and assessing their performance are organised on the basis of the revenue streams. The Group's operating and reporting segments are (a) advertising income from provision of agency services and organizing conferences and events and (b) sale of books and magazines. No operating segments identified by the chief operating decision makers have been aggregated in arriving at the reportable segment of the Group.

The accounting policies of the reportable segments are the same as the Group's accounting policies described in note 3. Segment result represents the profit earned by/loss from each segment without allocation of unallocated administration, selling and distribution costs, other income, other gains and losses and finance costs. This is the measure reported to the chief operating decision makers for the purposes of resource allocation and performance assessment. Furthermore, as the assets and liabilities for reportable segments are not provided to the chief operating decision makers for the purposes of resources allocation and performance assessment, no segment assets and liabilities are presented accordingly.

The emoluments were within the following bands:

	2012 No. of Employees	2011 No. of Employees
HK\$nil to HK\$1,000,000	5	2
HK\$1,000,001 to HK\$1,500,000	–	1

No emoluments were paid by the Group to the directors or the five highest paid individuals as compensation for loss of office or as a discretionary bonus or an inducement to join or upon joining the Group. None of the directors, chief executive or the five highest paid individuals has waived any emoluments in both years.

12. Taxation

The tax charge for the year represents the PRC Enterprise Income Tax.

No provision for Hong Kong Profits Tax has been made for both years because the relevant group entity incurred a tax loss in Hong Kong.

Under the Law of the PRC on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% from 1 January 2008 onwards, except for the PRC subsidiaries established in Shenzhen and Hainan's Special Economic Zones which are subjected to the PRC Enterprise Income Tax rate of 25% (2011: 24%). The tax rate of Shenzhen and Hainan's Special Economic Zones is increasing from 18% to 25% progressively from 2008 to 2012 pursuant to the new "Law of the People's Republic of China on Enterprise Income Tax" (國務院關於實施企業所得稅過渡優惠政策), effected on 1 January 2008.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2012

12. Taxation (Continued)

The taxation for the year can be reconciled to the profit before taxation per the consolidated statement of comprehensive income as follows:

	2012 HK\$'000	2011 HK\$'000
Profit before taxation	50,361	43,972
Tax at PRC income tax rate of 25%	12,590	10,993
Effect of tax relief granted to certain PRC subsidiaries established in Shenzhen and Hainan's Special Economic Zones	-	(387)
Effect of the different income tax rates in other jurisdictions	1,321	(598)
Tax effect of tax losses not recognised	4,943	3,705
Utilisation of tax losses previously not recognised	(2,224)	(1,918)
Tax effect of expenses not deductible for tax purposes	4,377	1,950
Tax effect of income not taxable for tax purposes	(1,391)	(3,377)
Others	(381)	108
Taxation for the year	19,235	10,476

At the end of the reporting period, the Group had estimated unused tax losses of approximately HK\$198,571,000 (2011: approximately HK\$187,695,000) available for offset against future profits. No deferred tax asset has been recognised in respect of the estimated unused tax losses due to the unpredictability of future profit streams. The estimated tax losses may be carried forward indefinitely.

Under the EIT Law of the PRC, withholding tax is imposed on dividends declared in respect of profits earned by PRC subsidiaries from 1 January 2008 onwards. Deferred taxation has not been provided for in the consolidated financial statements in respect of temporary differences attributable to accumulated profits of a PRC subsidiary amounting to approximately HK\$106,489,000 (2011: approximately HK\$77,250,000) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

13. Earnings per share

The calculation of the basic and diluted earnings per share attributable to the owners of the Company is based on the following data:

	2012 HK\$'000	2011 HK\$'000
Earnings		
Earnings for the purposes of basic earnings per ordinary share being profit for the year attributable to owners of the Company	32,223	34,982
Number of shares		
Number of ordinary shares for the purpose of basic earnings per share	1,739,565,172	1,739,565,172
Effect of dilutive potential ordinary shares:		
Share options	751,071	3,066,418
Number of ordinary shares for the purpose of diluted earnings per share	1,740,316,243	1,742,631,590

The computation of diluted earnings per share does not assume the exercise of the Company's 22,550,000 (2011: 20,550,000) share options with exercise price ranging from HK\$0.268 to HK\$0.330 (2011: HK\$0.330) per option because the exercise price of these options was higher than the average market price for both 2012 and 2011.

The leasehold land and building is held under medium-term lease and situated in the PRC.

The above items of property, plant and equipment are depreciated on a straight-line basis at the following rates per annum:

Leasehold land and building	Over the shorter of lease term of land and 30 years
Leasehold improvements	Over the shorter of 3 years and the lease term
Motor vehicles	4 to 5 years
Furniture, fixtures and fittings	Over the shorter of 10 years and the lease term
Computer and office equipment	3 to 6 ² / ₃ years

The Group has pledged leasehold land and building with a carrying amount of approximately HK\$33,269,000 (2011: approximately HK\$34,495,000) to secure bank borrowings granted to the Group.

<hr/>	
COST AND IMPAIRMENT	
At 1 January 2011, 31 December 2011 and 31 December 2012	118,886
<hr/>	

Goodwill is entirely related to the provision of advertising agency services on certain magazines of certain subsidiaries which share common cost and resulted from business combination in 2002 and 2005 (the "CGU").

The recoverable amount of the CGU has been determined based on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a 5-year period, and at a discount rate of 10% (2011: 15%). The cash flows beyond the 5-year period are extrapolated using a constant growth rate of 3% (2011: 5%). This growth rate is based on the relevant industry growth forecasts in the PRC. Other key assumptions for the value in use calculations are the budgeted growth rate and budgeted gross margin, which are determined based on past performance, management's expectations for the market development and market growth forecasts. Management believes that any reasonably possible change in any of these assumptions would not cause the carrying amount to exceed its recoverable amount. Hence, no impairment is considered.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2012

17. Interests in jointly controlled entities (Continued)

The Group has discontinued recognition of its share of loss of jointly controlled entities since prior years. Despite profit for the year was resulted from the jointly controlled entities during the year ended 31 December 2012, such profit shared by the Group is less than the accumulated unrecognised share of losses of the jointly controlled entities, hence, no share of profit of jointly controlled entities was recognised by the Group for the year ended 31 December 2012. The amounts of unrecognised share of results of jointly controlled entities, extracted from the relevant financial statements prepared under International Financial Reporting Standards are as follows:

	2012 HK\$'000	2011 HK\$'000
Unrecognised share of profit (losses) of jointly controlled entities for the year	2,220	(1,240)
Accumulated unrecognised share of losses of these jointly controlled entities	(3,313)	(5,533)

18. Trade receivables

	2012 HK\$'000	2011 HK\$'000
Trade receivables	206,035	190,749
Less: allowance for doubtful debts	(15,986)	(15,592)
	190,049	175,157

Credit period granted by the Group to customers for both provision of advertising agency services and sale of books and magazines are not more than three months from the date of recognition of the sale.

The ageing analysis of the Group's trade receivables net of allowance for doubtful debts presented based on date of magazines issued, which approximate the date of revenue recognition is as follows:

	2012		2011	
	HK\$'000	%	HK\$'000	%
Less than three months	113,508	60	98,439	56
Three months to six months	44,041	23	48,885	28
Over six months to one year	32,500	17	27,833	16
	190,049	100	175,157	100

Before accepting any new customer, the Group assesses the potential customer's credit quality and defines credit limits by customer. Limits and credit ratings attributed to customers are reviewed regularly. Management considers the customers neither past due nor impaired are of good credit quality based on repayment history of respective customers.

Included in the Group's trade receivables balance are debtors with aggregate carrying amount of approximately HK\$76,541,000 (2011: approximately HK\$76,718,000) which are past due at the end of the reporting period for which the Group has not provided for impairment loss as there has not been a significant change in credit quality and amounts are still considered recoverable based on historical experience. The Group does not hold any collateral over these balances. The average age of these receivables is 185 days (2011: 175 days).

Notes:

- (i) The related companies are companies which certain directors and controlling shareholders of the Company have interests and able to exercise control over these companies. The amounts due from/to related companies are unsecured, non-interest bearing and repayable on demand. At the end of the reporting period, the amount is expected to be recovered within twelve months at the end of reporting period and therefore classified as current asset. The maximum outstanding amount due from related companies during the year was approximately HK\$13,377,000 (2011: approximately HK\$5,670,000).
- (ii) The entire balance represents amounts due from a jointly controlled entity that are non-interest bearing, unsecured and repayable on demand. At the end of the reporting period, the amount is expected to be recovered after twelve months at the end of reporting period and therefore classified as non-current asset. In order to minimise the credit risk, the Group has reviewed the recoverability of the amount due from the jointly controlled entity at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. The Group has assessed the management account and cash flow projections based on financial budgets approved by management of the jointly controlled entity covering a 5 year period.
- (iii) The amount is unsecured, non-interest bearing and repayable on demand.

27. Capital risk management

The Group manages its capital to ensure that the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debt, which includes bank borrowings and Shareholder Loan disclosed in notes 23 and 25, net of cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital and reserves.

The directors of the Company review the capital structure on a regular basis. As part of this review, the directors consider the cost of capital and the risks associate with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt.

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's major financial instruments include amount due from a jointly controlled entity, amounts due from and to related companies, trade receivables, other receivables, loan receivable, pledged bank deposits, bank balances and cash, trade payables, other payables, bank borrowings, amount due to immediate parent and loan from immediate parent. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

Currency risk

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	Liabilities		Assets	
	2012 HK\$'000	2011 HK\$'000	2012 HK\$'000	2011 HK\$'000

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Currency risk (Continued)

Sensitivity analysis

The Group is mainly exposed to the Hong Kong dollar and the United States dollar. The following table details the Group's sensitivity to a 5% change in Hong Kong dollars and United States dollars against RMB. 5% (2011: 5%) is the sensitivity rate used which represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a 5% (2011: 5%) change in foreign currency rates. The sensitivity analysis includes those financial assets and financial liabilities denominated in currency other than RMB. A positive number below indicates an increase in post-tax profit where RMB strengthen 5% (2011: 5%) against the relevant currency and vice versa. For a 5% (2011: 5%) weakening of RMB against the relevant currency, there would be an equal and opposite impact on the profit or loss.

	Hong Kong dollar impact		United States dollar impact	
	2012 HK\$'000	2011 HK\$'000	2012 HK\$'000	2011 HK\$'000
Profit for the year	265	11	(1)	3,478

The Group's sensitivity to foreign United States dollar has decreased during the current year is mainly due to the repayment of Shareholder Loan (see note 25 for details).

The Group's sensitivity to Hong Kong dollars has increased during the current year due to the new bank borrowing from Wing Lung Bank denominated in Hong Kong dollars (see note 23 for details).

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

Interest rate risk

Cash flow interest rate risk

The Group is exposed to fair value interest risk in relation to fixed-rate loan receivable (see note 20 for details).

The Group's cash flow interest rate risk relates to the variable-rate bank borrowings (see notes 23 for details). The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of lending rate promulgated by the People's Bank of China and HIBOR. The Group's cash flow interest rate risk relates to bank balances is insignificant due to low interest rates.

It is the Group's policy to keep its borrowing at floating rate of interests so as to minimise the fair value interest rate risk.

The Group currently does not have interest rate hedging policy. However, management will consider hedging significant interest rate exposure should the need arise.

Sensitivity analysis

The sensitivity analysis below has been determined assuming bank borrowings outstanding at the end of the reporting period were outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates in both years.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's post tax profit would decrease/increase by HK\$138,000 (2011: HK\$122,000).

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Credit risk

As at 31 December 2012, the Group's maximum exposure to credit risk in the event of the counterparties' failure to perform their obligations at the end of the reporting period in relation to each class of recognised financial assets is the carrying amount of those assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debt. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Except for concentration of credit risk on loan receivable and amount due from a jointly controlled entity and related parties, the Group has no significant concentration of credit risk on trade receivables by customer with exposure spread over a number of counter-parties and customers. However, the Group has concentration of credit risk in the PRC.

In order to minimise the credit risk in relation to loan receivable, the Group reviews the financial position of the borrower at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

In order to minimise the credit risk in relation to amount due from a jointly controlled entity, the Group has assessed the recoverability of the amount due from the jointly controlled entity at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. The Group has reviewed the management account and cash flow projections based on financial budgets approved by management of the jointly controlled entity covering a 5 year period. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group's pledged bank deposit and bank balances are deposited with banks with high credit ratings and the Group has limited exposure to any single financial institution.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The following table details the Group's remaining contractual maturity for its financial liabilities based on the agreed repayment terms. For non-derivative financial liabilities, the table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest (based on interest rate at the end of the reporting period) and principal cash flows.

30. Share option schemes

EQUITY-SETTLED SHARE OPTION SCHEME

The Company operates a share option scheme (the “Share Option Scheme”) adopted on 26 August 2002 for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the operations of the Group and to enable the Group to recruit high calibre employees and attract resources that are valuable to the Group. Eligible participants of the Share Option Scheme include any employee (including executive directors), officer (including non-executive directors and independent non-executive directors), consultant, agent, professional adviser, customer, business partner, joint venture partner, strategic partner, landlord or tenant of, or any supplier or provider of goods or services to the Group, or any trustee of a discretionary trust to which one or more beneficiaries belong to any of the above-mentioned categories of persons. The Share Option Scheme became effective on 26 August 2002 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

On 11 May 2012, the Company adopted a new share option scheme (the “New Share Option Scheme”), of which all the terms and conditions are same as the Share Option Scheme. This New Share Option Scheme will remain in force for 10 years from the date of adoption, unless otherwise cancelled or amended.

The maximum number of unexercised share options currently permitted to be granted under the Share Option Scheme is an amount equivalent, upon their exercise, to 10% of the Company’s shares in issue at any time. At the end of the reporting period, the number of shares issuable under share options granted under the Share Option Scheme was 48,100,000 (2011: 48,550,000), which represented approximately 2.76% (2011: 2.79%) of the Company’s shares in issue as at that date. The maximum number of shares issuable under share options to each eligible participant in the Share Option Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders’ approval in a general meeting.

The offer of a grant of share options may be accepted within 28 days from the date of the offer, upon payment of a nominal consideration of HK\$10 in total by the grantee. An option may be exercised under the Share Option Scheme at any time from the vested date to the tenth anniversary from the grant date of the option.

The exercise price of the share options is determinable by the directors, but must not be less than the higher of (i) the Stock Exchange closing price of the Company’s shares on the date of the offer of the share options; (ii) the average Stock Exchange closing price of the Company’s shares for the five trading days immediately preceding the date of the offer; and (iii) the nominal value of an ordinary share of the Company.

Share options do not confer rights on the holders to dividends or to vote at shareholders’ meetings.
