

TTI Receives Consumer Product Design Awards From Federation of Hong Kong Industries

Recognizes Its Outstanding Product Design Capability

(Hong Kong – 28th February, 2006) –**Techtronic Industries Co. Ltd.** (“TTI” or the “Group”) (HKEx stock code: 669, ADR symbol: TTNDY) has received the “2005 Hong Kong Awards for Industries – Consumer Product Design Award” from the Federation of Hong Kong Industries. The RIDGID® 18-Volt Planer and Ryobi® branded AIRgrip™ Laser Level are again recognized for their outstanding designs, following their recent awards from the Hong Kong Electrical Appliances Manufacturers Association in the “The 7th Hong Kong Household Electrical Appliances Design and Innovation Competition”.

The Consumer Product Design Award by The Federation of Hong Kong Industries recognizes consumer products of innovative design and exceptional quality. The winning of the awards by TTI has proven, once again, the Group’s success in providing best-in-class tools for end-users.

About the winning products

The **RIDGID® 18-Volt Planer**, is the first hand-held planer in the market using a spiral blade design, allowing it to make a ‘shearing’ cut, saving a work piece from being damaged. This innovative design offers the user a smoother and safer planing experience and saves up to 30% more battery runtime. The total grip mold of the planer promises improved grip and comfort.

AIRgrip™ Laser Level under the Ryobi® brand is the first truly hassle-free laser level. Using a revolutionary vacuum technology, it can easily affix to walls and surfaces without causing any damage. The laser head rotates 360° for straight lines in any direction and wraps around corners. The AIRgrip™ Laser Level is a perfect tool for wall alignment jobs and installing chairs rails and shelving.
