### **UPDATED INFORMATION OF THE GROUP'S PRODUCTS - BIAPENEM FOR INJECTION**

This announcement is made by The United Laboratories International Holdings Limited (the "Company") on a voluntary basis.

The board of directors (the "Board") of the Company is pleased to announce that the biapenem for injection (Specification: 0.3g) submitted by Zhuhai United Laboratories Co. Ltd., a wholly-owned subsidiary of the Company, with the approval of National Medical Products Administration, passed the consistency evaluation of quality and efficacy for generic drugs (the "Consistency Evaluation").

Being a new-generation carbapenem antibiotic, the biapenem for injection features a broad spectrum and reliable action to  $\beta$ -lactamase, with clinical use in the treatment of septicaemia, pneumonia and acute bronchitis caused by infection of sensitive bacteria. Compared with other carbapenem categories, the biapenem demonstrates less harm to the kidney and the central nervous system. Currently, the biapenem has been included in the National Medical Insurance Drug List (2021 version) as a Class B drug.

The approval will further help the Company to consolidate the advantageous position in the anti-infection field. The Company will continue to commit itself to the research and development of new products and the promotion of the Consistency Evaluation, which is expected to create greater values for the Company and its shareholders.

By Order of the Board
