## **SALES FAIR RESULTS FOR THE THIRD QUARTER OF 2015 AND OPERATIONAL UPDATE ON BUSINESS IN CHINA**

This announcement is made by the board of directors (the “**Board**”) of Xtep International Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”).

### **SALES FAIR RESULTS FOR THE THIRD QUARTER OF 2015**

Through its continuous efforts to further enhance the overall operational efficiency and profitability of its distribution channels as well as its product portfolio, the Group saw sequential improvements in its first to third quarter sales fair orders of 2015. Adopting a flexible ordering policy to efficiently manage the orders placed by its exclusive distributors and authorised retailers, the Group held its quarterly sales fair for the third quarter of 2015 in early January 2015 and recorded an improvement for the eighth consecutive quarter with the sales fair order value (at wholesale value) for the third quarter of 2015 achieving a low single-digit increase when compared to the same period of 2014.

### **OPERATIONAL PERFORMANCE FOR THE FOURTH QUARTER OF 2014**

In addition to the improving sales fair performance, the Group also recorded a mid single-digit increase in the average same store sales performance (at retail value) for the fourth quarter of 2014 when compared to the same period of 2013. The proactive control on sales orders to its retailers also effectively normalized the inventory levels at the retail end. Meanwhile, the Group’s real-time distribution resource planning (DRP) system has been continuously upgraded, which has enabled real-time execution monitoring on the retail inventory levels and hence to form timely and detailed control plans for its distributors and retailers. As a result, the inventory level of the Group’s retail distribution channels remained healthy with an inventory-to-sales ratio of approximately 4.5–5 months.
