APPENDIX
PART ONE - ADDITIONAL RISK FACTORS

The sub-section entitled “Risk Factors – Risks Relating to the Notes issued under the Programme” of the Offering Circular shall be supplemented to include the following risk factors relating to the Notes:

The Notes may not be a suitable investment for all investors seeking exposure to eligible assets.

The Issuer has engaged Sustainable Fitch to provide a second party opinion (the “**Second Party Opinion**”) confirming, amongst other things, that the Sustainable Finance Framework for Yuexiu REIT, dated 5 February 2026 (the “**Framework**”) aligns with the Green Bond Principles (June 2025), Social Bond Principles and Sustainability Bond Guidelines by International Capital Market Association or as they may be subsequently amended, Green Loan Principles (March 2025) and Social Loan Principles by the Loan Syndications and Trading Association, the Loan Market Association and the Asia Pacific Loan Market Association, or as they may be subsequently amended.

No assurance is given that such use of proceeds will satisfy any present or future investment criteria or guidelines with which an investor is required, or intends, to comply, in particular with regard to any direct or indirect environmental or sustainability impact of any project or uses, the subject of or related to, the Framework (including in relation to, but not limited to, Green Loan Principles (March 2025) by the Loan Syndications and Trading Association, the Loan Market Association and the Asia Pacific Loan Market Association, or as they may be subsequently amended or any requirements of such labels or market standards as they may evolve from time to time).

There is currently no market consensus on what precise attributes are required for a particular project to be defined as “green” or “social” and, therefore, no assurance can be provided to potential investors that the Eligible Projects will meet the relevant eligibility criteria. Although the Eligible Projects are expected to be selected in accordance with the categories described in the Sustainable Finance Framework and are expected to be developed in accordance with applicable legislation and standards, there can be no guarantee that adverse environmental impacts will not occur during the design, construction, commissioning and/or operation of any such projects/assets. Where any negative impacts are insufficiently mitigated, projects/assets may become controversial, and/or may be criticised by activist groups or other stakeholders.

While it is the intention of the Issuer to allocate an amount equal to the net proceeds of the Notes to Eligible Projects, there is no contractual obligation to do so. The Issuer does not undertake to ensure that there are at any time sufficient Eligible Projects to allow for allocation of an amount equal to the net proceeds of the issue of such Note in full. There can be no assurance that any such Eligible Projects will be available or capable of being implemented in, or substantially in, the manner and timeframe anticipated and, accordingly, that the Issuer will be able to use an amount equal to the net proceeds of the issue of the Notes for such Eligible Projects as intended. In addition, there can be no assurance that Eligible Projects will be completed as expected or achieve the impacts or outcomes originally expected or anticipated.

Potential investors should also be aware that any Second Party Opinion will not be incorporated into, and will not form part of, the Offering Circular or the Pricing Supplement relating to the Notes. Any such Second Party Opinion may not reflect the potential impact of all risks related to the Notes, their marketability, trading price or liquidity, or any other factors that may affect the price or value of the Notes. Any such Second Party Opinion is not a recommendation to buy, sell or

hold securities and is only valid as of its date of issue and is subject to certain disclaimers set out therein. The Second Party Opinion provides an opinion on certain environmental and related considerations and is a statement of opinion, not a statement of fact. No representation or assurance is given as to the suitability or reliability of the Second Party Opinion or any opinion, review or certification of any third party (including any post-issuance reports prepared by an external reviewer) made available in connection with the Notes. The Second Party Opinion and any other such opinion, review, certification or post-issuance report is not intended to address any credit, market or other aspects of any investment in the Notes, including without limitation market price, marketability, investor preference or suitability of any security or any other factors that may affect the value of the Notes. The Second Party Opinion and any other opinion, review, certification or post-issuance report is not a recommendation to buy, sell or hold any Notes and is current only as of the date that opinion was issued. The criteria and/or considerations that form the basis of the Second Party Opinion and any other such opinion, review or certification or post-issuance report may change at any time and the Second Party Opinion and any other opinion, review, certification or post-issuance report may be amended, updated, supplemented, replaced and/or withdrawn at any time. Any withdrawal of the Second Party Opinion or any other opinion, review, certification or post-issuance report may have a material adverse effect on the value of the Notes.

Further, although the Issuer will use the net proceeds from the offering of the Notes as described in “*Use of Proceeds*” above, it would not be an event of default under the Terms and Conditions of the Notes if (i) the Issuer were to fail to comply with such obligations or were to fail to use the proceeds in the manner specified in the Pricing Supplement relating to the Notes and/or (ii) the Second Party Opinion were to be withdrawn. Any failure to use the net proceeds of the Notes in connection with the green, environmental or other equivalently labelled projects, and/or any failure to meet, or to continue to meet, the investment requirements of certain investors with a focus on environmental concerns with respect to the Notes may affect the value and/or trading price of the Notes, and/or may have consequences for certain investors with portfolio mandates to invest in green, environmental or equivalently labelled assets.

None of the Issuer, the Guarantor, the REIT Manager, the Managers, the Trustee or the Agents make any representation as to the suitability for any purpose of any Second Party Opinion, or as to whether the Notes fulfil the relevant environmental criteria and expectations regarding environmental impact and performance for any investors or whether the net proceeds will be used to finance and/or refinance Eligible Projects, or as to the characteristics of Eligible Projects, including their relevant environmental criteria. Each potential purchaser of the Notes should determine for itself the relevance of the information contained in this Offering Circular and the Pricing Supplement relating to the Notes.

The Notes are not linked to the performance of the Eligible Projects, do not benefit from any arrangements to enhance the performance of the Notes or any contractual rights derived solely from the intended use of proceeds of the Notes.

The performance of the Notes is not linked to the performance of the relevant Eligible Projects or the performance of the Issuer in respect of any environmental or similar targets. There will be no segregation of assets and liabilities in respect of the Notes and the Eligible Projects. Consequently, neither payments of principal and/or interest on the Notes nor any rights of holders of the Notes shall depend on the performance of the relevant Eligible Projects or the performance of the Issuer in respect of any such environmental or similar targets. Holders of any Notes shall have no preferential rights or priority against the assets of any Eligible Project nor benefit from any arrangements to enhance the performance of the Notes.
